

**Recommended Advisory Clauses**

- (a) to apply to the Lands Department for an Excavation Permit on the subject location and to ensure the proposed High Voltage Distribution Pillar and associated cable in all respects would be in full compliance with the terms and conditions of the Block Licence;
- (b) to note the comments of the Commissioner for Transport that Cape D'Aguiar Road is the only access road to gain access to the location concerned. Owing to its narrow and winding nature, a prohibited zone "All motor vehicles prohibited" is imposed and only vehicles with permits are allowed for entry. The applicant should be fully aware of this existing traffic arrangement and to apply for necessary permits for entry; and
- (c) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department that some aesthetic treatments are suggested to be provided to the proposed High Voltage Distribution Pillar, e.g. its finish with appropriate material or color scheme that is compatible to the natural setting.
