Rejected Application

	<u>Application No.</u>	<u>Proposed Use</u>	<u>Date of Consideration (RNTPC/TPB)</u>	<u>Rejection Reason (s)</u>
1	A/YL-KTN/394	Proposed temporary field study/education centre and hobby farm for 5 years	14.6.2013 [on review]	(1), (2), (3)

Rejection Reasons

- (1) the site is the subject of unauthorized land filling. The filling materials on-site were not suitable for cultivation. There was no detailed information provided regarding the design and operation of the proposed development particularly the hobby farm, field study/education centre and the office with porch;
- (2) the applicant failed to demonstrate that the development would not generate adverse landscape and drainage impacts on the surrounding areas;
- (3) approving the application would set an undesirable precedent for similar applications.

- (10) Submission and implementation of a revised layout plan with reduced paved area

Advisory Clauses

- (a) resolve any land issues relating to the development with the concerned owner(s) of the Site;
- (b) note DLO/YL, LandsD's comments that the Site comprises various private lots held under New Grant for agricultural purpose. The Site is accessible from Chi Ho Road via Government Land (GL). His office provides no maintenance work for the GL involved and does not guarantee any right-of-way over the GL to the Site. The Site falls within Shek Kong Airfield Height Restriction Area (SKAHRA). The height of the proposed structure shall not exceed the relevant airfield height limit within SKAHRA. The lot owner(s) will need to apply to his office to permit the structures to be erected or regularize any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. No construction of New Territories Exempted Building(s) will be considered or allowed. Applications for any of the above will be considered by LandsD acting in the capacity as landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by the LandsD;
- (c) note C for T's comments that the Site is connected to the public road network via a section of a local access road which is not managed by TD. The land status of the local access road should be checked with the LandsD. Moreover, the management and maintenance responsibilities of the local access road should be clarified with the relevant lands and maintenance authorities accordingly;
- (d) note CHE/NTW, HyD's comments that HyD does not and will not maintain any access connecting the Site and Chi Ho Road. Adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public roads and drains;
- (e) note DEP's comments that the applicant is advised to follow the relevant mitigation measures and requirements in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" to minimize any potential environmental nuisance. It is the obligation of the applicant to meet the statutory requirements under relevant pollution control ordinances and provide necessary mitigation measures to prevent polluting the watercourse and ponds adjacent to the Site. Adequate supporting infrastructure / facilities should be provided for proper collection, treatment and disposal of waste / wastewater generated from the proposed use. If septic tank and soakaway system will be used in case of unavailability of public sewer, its design and construction shall follow the

requirements of EPD's Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department";

- (f) note DAFC's comments that as the drainage channel adjacent to the Site supports some wetland-dependent birds, the applicant is advised to adopt necessary measures to avoid disturbance and pollution to the drainage channel;
- (g) note CBS/NTW, BD's comments that if the existing structures (not being a New Territories Exempted House) are erected on leased land without approval of the BD, they are unauthorized building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/open sheds as temporary buildings and land filling) are to be carried out on the Site, prior approval and consent of the BD should be obtained, otherwise they are UBW. An Authorized Person (AP) should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage;
- (h) note D of FS's comments that in consideration of the design/nature of the proposal, FSIs are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSI to be installed should be clearly marked on the layout plans. The applicant is reminded that if the proposed structure(s) is required to comply with the BO (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and
- (i) note DFEH's comments that if any Food and Environmental Hygiene Department (FEHD)'s facility is affected by the development, FEHD's prior consent must be obtained. Reprovisioning of the affected facilities by the project proponent up to the satisfaction of FEHD may be required. Besides, the project proponent should provide sufficient amount of additional recurrent cost for management and maintenance of the reprovisioned facilities to FEHD. Proper licence and/or permit issued by his department is required if there is any food business / catering service / activities regulated by the DFEH under the Public Health and Municipal Services Ordinance (Cap. 132) and its subsidiary legislation and the operation of any business should not cause any obstruction. If the proposal involves any commercial/trading activities, its state should not as to be a nuisance or injurious or dangerous to health and

surrounding environment. Also, for any waste generated from the commercial/trading activities, the applicant should handle on their own/at their expenses.
