Plan No.CW/SK/242SO/214/SH/04

**Relevant Revised Interim Criteria for Consideration of Application for
NTEH/Small House in the New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
 - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- ^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Sai Kung, Lands Department (DLO/SK, LandsD):

- (a) no objection to the application;
- (b) the Site is located on Lot No. 242 S.O in D.D. 214 which is an Old Scheduled Agricultural Lot;
- (c) the Site and the proposed Small House footprint fall completely within the village environs of Nam Wai in Sai Kung Heung which is a recognised village under the New Territories Small House Policy;
- (d) as advised by the Indigenous Inhabitant Representatives of Nam Wai in early 2020, the 10-year Small House demand forecast for the village is 167. The number of outstanding Small House applications (including the proposed Small House under application) falling within the outside the “V” zone in Nam Wai are 46 and 8 respectively;
- (e) the applicant, Mr. SING Cheong Lung, has applied for a Small House grant by way of Free Building Licence at the Site. He has been certified as an indigenous villager of Nam Wai by an Indigenous Inhabitant Representative of the village; and
- (f) a valid planning permission is required for further processing for the applicant’s Small House application.

2. Traffic

Comments of the Commissioner for Transport (C for T)

- (a) no objection in-principle to the application from traffic engineering perspective; and
- (b) please note there is no existing access between the subject Lot and the existing access road adjoining Nam Wai Road.

3. **Environment**

Comments of the Director of Environmental Protection (DEP):

in view of the small scale of the proposed development, the application alone is unlikely to cause major pollution.

4. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) no objection to the application from landscape planning point of view;
- (b) the Site, located to the south of Nam Wai Village, falls within an area mainly zoned “Village Type Development” and partly zoned “Green Belt” on the approved Hebe Haven Outline Zoning Plan No. S/SK-HH/8. The site was involved in a previous application (i.e. Application No. A/SK-HH/64) for the same use, which was approved with conditions by the Rural and New Town Planning Committee of the Board on 13.3.2015;
- (c) according to the aerial photo of 2019, the site is situated in an area of rural coastal plains landscape character dominated by village houses and clustered tree groups, and there is no significant landscape resource within the Site. The proposed development is considered not incompatible with the landscape setting in the proximity; and
- (d) in view that there is no public frontage surrounding the Site and the proposed house is unlikely to cause further significant adverse landscape and visual impact, it is opined that a landscape condition in planning permission is not required, should the application be approved by the Board.

5. **Sewerage and Drainage**

Comments of Chief Engineer/ Mainland South, Drainage Services Department (CE/MS, DSD):

- (a) no in-principle objection to the application from drainage maintenance viewpoint, provided that adequate stormwater drainage collection and disposal facilities would be provided in connection with the proposed use to deal with surface runoff of the Site or the same flowing on to the Site from the adjacent areas without causing any adverse

drainage impact to the areas or nuisance to the adjoining areas; and

- (b) the Site is within an area where neither stormwater nor sewerage connections maintained by DSD is available in the vicinity at present.

Comments of the Director of Environmental Protection (DEP):

the applicant is reminded that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements in Environmental Protection Department (EPD)'s Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the EPD" and are duly certified by an Authorised Person.

6. **Building Matters**

Comments of the Chief Building Surveyor/NTE2 & Rail, Buildings Department (CBS/NTE2 & Rail, BD)

- (a) no comment under the Buildings Ordinance (BO) for the subject application; and
- (b) the applicant should be reminded that all non-exempted ancillary site formation and/or communal drainage works are subject to compliance with the BO, and the Authorised Person must be appointed for the aforesaid site formation and communal drainage works.

7. **Nature Conservation**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC)

- (a) no comment on this application; and
- (b) the Site is the subject of an approved permission (no. A/SK-HH/64) and this application is for the same use. The applicant is reminded to limit the works and site formation within the concerned lot to avoid impact on the trees on the government land in the vicinity of the Site.

8. **Fire Safety**

Comments from the Director of Fire Services (D of FS)

- (a) no objection in principle to the application; and
- (b) the applicant is reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by Lands Department. Detailed fire safety requirements will be formulated upon receipt of formal application referred by Lands Department.

9. **Water Supply**

Comments from Chief Engineer/Construction, Water Supplies Department (CE/Construction, WSD)

- (a) no objection to the application;
- (b) for provision of water supply to the development, the applicant may need to extend his/her inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standard; and
- (c) the Site does not fall within Water Gathering Ground.

10. **Geotechnical**

Comments from Head of Geotechnical Engineering Office, Civil Engineering and Development Department (H(GEO), CEDD)

- (a) no comment on the planning application; and
- (b) the applicant is reminded to make necessary submission to the DLO to verify if the Site satisfies the criteria for the exemption of site formation works as stipulated in PNAP APP-56. If such exemption is not granted, the applicant shall submit site formation plans to the Buildings Department in accordance with the provisions of Building Ordinance.

11. Archaeological and Heritage Aspects

Comments of the Executive Secretary (Antiquities and Monuments), Antiquities and Monuments Office, Development Bureau (ES(AM), AMO, DEVB)

- (a) no objection to the current application; and
- (b) it is noted the planning approval for the planning application at Lot 242 S.O in D.D. 214 lapsed in March 2019. In view of the location and according to the findings of archaeological survey, previous comment on application No. A/SK-HH/64 remains valid, i.e., site inspection by AMO is required during the course of excavation.

12. Demand and Supply of Small House Sites

According to DLO/SK, the outstanding Small House applications in Nam Wai Village is about 54 while the 10-year Small House Demand Forecast for Nam Wai Village is 167. According to the latest estimation by PlanD, about 4.9 ha of land (equivalent to about 196 Small House sites) are available within the “V” zone of Nam Wai Village. Therefore, the land available in Nam Wai Village cannot fully meet the future Small House demand for 221 Small House sites.

Dear TPB Members.

There have been changes in policy since 2015 and there are a number of new members to the board so the application should be judged on its merits re current conditions.

Apart from the desirability of keeping GB intact:

65. Members noted that the requirement of sewerage connection was clearly stated in the HKPSG, and generally considered that the Board should follow the requirement in considering the current application. Mr Elvis W.K. Au, Deputy Director of Environmental Protection (1) of EPD, said that after the promulgation of the guideline on controlling effluent discharge in WGGs under Chapter 9 of the HKPSG, it had been the government policy to require new developments within WGGs to be connected to public sewers. The Government had also briefed the Board on the environmental and health risks arising from septic tank installation in the areas. In 2002, the Board revised the "Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories" which clearly stated that generally the Board only supported new Small House development in WGG if it was connected to the public sewerage system. Notwithstanding that existing buildings with septic tanks in unsewered areas were tolerated, the requirement for sewerage connection would help avoid worsening the water quality in WGGs. So far, EPD and WSD had consistently followed that requirement in handling similar cases

In addition the Audit Commission has advised that the use of septic tanks should be discontinued.

That there is insufficient land to fill demand for small house applications should not be a consideration:

<https://www.info.gov.hk/gia/general/201511/18/P201511180491.htm#:~:text=As%20a%20general%20rule%2C%20VE,Policy%20on%20December%201%2C%201972.&text=The%20land%20within%20this%20zone,usually%20overlaps%20with%20the%20VE.>

In general, land suitable for building small houses is confined to areas within Village Environs (VE). As a general rule, VE refers to a 300-foot radius from the edge of the last village type house built before the introduction of the Policy on December 1, 1972. Applications for building small houses within this area by eligible indigenous villagers may be considered.

Regrettably members have been endorsing PlanD recommendations instead of asking questions but that is no longer an option re recent JR judgement.

Mary Mulvihill
