

**Relevant Extract of Town Planning Board Guidelines No. 34C on  
Renewal of Planning Approval and Extension of Time for Compliance  
with Planning Conditions for Temporary Use or Development**

1. The criteria for assessing applications for renewal of planning approval include:
  - (a) whether there has been any material change in planning circumstances since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
  - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
  - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;
  - (d) whether the approval period sought is reasonable; and
  - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

**Approval Conditions:**

- (a) Submission and provision of fire service installations proposals
- (b) Operation hours are restricted
- (c) Submission and implementation of landscaping and tree preservation proposals
- (d) Provision of fire service installations and water supplies for firefighting
- (e) Submission of geotechnical assessment and implementation of mitigation measures as recommended in geotechnical assessment
- (f) Submission and implementation of drainage and sewerage proposals
- (g) Provision of waterworks reserve within 1.5m from centerline of the water main

**Reasons for Rejection:**

- (1) Fail to establish the temporary nature of the proposed development thus will frustrate the planning intention
- (2) Fail to demonstrate the proposed development will not have adverse landscape impact on the surrounding areas
- (3) Fail to demonstrate that the proposed filling of the existing berm within the application site will not have adverse impact on public safety

Advisory Clauses

- (a) to note the comments of the Director of Environmental Protection that the applicant is reminded to strictly comply with all the requirements under all relevant pollution control ordinances, including Water Pollution Control Ordinance, Air Pollution Control Ordinance and Noise Control Ordinance;
- (b) to note the comments of the Chief Engineer/Mainland South, Drainage Services Department that necessary stormwater drainage facilities should be provided in association with the proposed temporary eating place not causing adverse drainage impact to the areas in the vicinity;
- (c) to note the comments of the Director of Fire Services that the applicant is advised to submit relevant layout plans incorporated with the proposed fire service installations (FSIs) to his department for approval. In addition, the applicant is advised on the following points:
  - (i) the layout plans should be drawn to scale and depicted with dimensions and nature of occupancy; and
  - (ii) the location of where the proposed FSIs to be installed should be clearly marked on the layout plans;

if the proposed structure(s) is required to comply with the Buildings Ordinance (Cap. 123) or application for licence for the eating place is required, detailed fire service requirements will be formulated upon receipt of formal submission of general building plans or referral from relevant licensing authority respectively; and

- (d) to note the comments of the Chief Engineer/Construction, Water Supplies Department that the applicant is requested to observe the “Conditions of Working in the Vicinity of Waterworks Installations” and “Flow Chart on Procedures for Safe Working near Water Mains” (**Annex A**).
