

**Relevant Interim Criteria for Consideration of**  
**Application for NTEH/Small House in New Territories**  
**(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be

mitigated to the satisfaction of relevant Government departments;

- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development<sup>\*</sup>);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

<sup>\*</sup>i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

<sup>@</sup>: A/NE-LYT/432 and A/NE-LYT/446 are the same site

**Rejection Reasons**

- R1 The proposed Small House development did not comply with the interim criteria for assessing planning application for New Territories Exempted House/Small House development as the application site was outside both the village ‘environs’ and “Village Type Development” zone of surrounding villages.
- R2 The use under application was not in line with the planning intention of the “Agriculture” zone which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for

rehabilitation and to encourage the re-cultivation of good arable land.

- R3 The approval of the application would set an undesirable precedent for other similar applications.
- R4 The application did not comply with the "Interim Criteria for Consideration of Application for New Territories Exempted House (NTEH) / Small House in New Territories" as 99.6% of the footprint of the proposed Small House fell outside the village 'environs' ('VE') of the Kan Tau Tsuen and there was no shortage of land in meeting the demand for Small House development in the "Village Type Development" zone of the village.
- R5 Small House should be developed within the "Village Type Development" zone so as to ensure an orderly development pattern, efficient use of land and provision of infrastructure and services.
- R6 Approval of the application which did not comply with the "Interim Criteria for Consideration of Application for New Territories Exempted House (NTEH) / Small House in New Territories" might set an undesirable precedent for other similar applications in the "AGR" zone. The cumulative effect of approving such similar applications would result in a general degradation of the environment or cause adverse landscape impacts on the area.
- R7 The application did not comply with the "Interim Criteria for Consideration of Application for NTEH/Small House in the New Territories" (Interim Criteria) as the footprint of the proposed Small House fell entirely outside the village environs and/or "V" zone of Kan Tau Tsuen and/or would partially block an existing road.
- R8 The application was not in line with the planning intention of "Agriculture" ("AGR") zone which was primarily for retaining and safeguarding good quality agricultural land/farm/fish ponds for agricultural purposes. It was also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes.
- R9 The proposed development was not in line with the planning intention of the "Agriculture" zone in the Lung Yeuk Tau and Kwan Tei South area which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the submission for a departure from the planning intention.
- R10 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that more than 50% of the footprint of the proposed Small House falls outside the village 'environs' and "Village Type Development" ("V") zone of Kan Tau Tsuen.
- R11 Land was still available within the "V" zone of Kan Tau Tsuen which was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for more orderly development pattern, efficient use of land and provision of infrastructure and services.

**Detailed Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) Majority portion of the footprints of the proposed Small Houses fall within the 'VE' of Kan Tau Tsuen;
- (b) the applicants claim themselves to be indigenous villagers of Kan Tau Tsuen of Fanling Heung but their eligibility for Small House concessionary grants are yet to be ascertained;
- (c) the Sites are not covered by any Modification of Tenancy / Building License;
- (d) the number of outstanding Small House applications and the number of 10-year Small House demand forecast (2017 to 2026) for Kan Tau Tsuen are 76 and 96 respectively. The figure of the 10-year Small House demand forecast was provided by the relevant Indigenous Inhabitant Representative without any supporting evidence and his office is not in a position to verify the forecast; and
- (e) the Small House grant applications in respect of the Sites were received by his office on 21.9.2017.

**2. Traffic**

Comments of the Commissioner for Transport (C for T):

- (a) she has reservation on the applications. Such type of developments should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of developments outside the "V" zone, if permitted, will set undesirable precedent cases for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the applications involve construction of three Small Houses. She considers that the applications can be tolerated unless they are rejected on other grounds.

**3. Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed developments, the applications alone are unlikely to cause major pollutions; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements

of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person.

**4. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the applications from the landscape planning perspective;
- (b) the Sites are located in an area of rural landscape character which comprises village houses, farmlands (mostly abandoned), scattered tree groups and Tan Shan River. The proposed Small Houses are not entirely incompatible with the surrounding environment. According to her site record, the Sites are covered with wild grasses except part of the application site No. A/NE-LYT/652 is hard paved. No significant vegetation or trees are found on site. There is a village road linking the Sites to Sha Tau Kok Road. Significant landscape impact arising from the developments is not expected; and
- (c) should approval be given by the Board, an approval condition on the submission and implementation of landscape proposal is recommended.

**5. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the applications from the public drainage viewpoint;
- (b) should the applications be approved, a condition should be included to request the applicants to submit and implement a drainage proposal for the Sites to ensure that they will not cause adverse drainage impact to the adjacent area; and
- (c) the Sites are in an area where no public sewerage connection is available.

**6. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the applications; and
- (b) the applicants are reminded to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD.

**7. Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) he has no objection to the applications; and
- (b) for provision of water supply to the developments, the applicants may need to extend the inside services to nearest suitable Government water mains for connection. The

applicants should resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards.

**8. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

the Sites are vacant land overgrown with grasses. Agricultural lives in the vicinity are active and agricultural infrastructure such as road access and water supply are available. The applications are not supported from the agriculture point of view as the Sites possess potential for agricultural rehabilitation.

**9. District Officer's Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

he has consulted the locals regarding the applications. The Chairman of Fanling District Rural Committee has no comment on the applications while the Indigenous Inhabitant Representative and the Resident Representative of Kan Tau Tsuen object to the applications mainly on the grounds of falling outside 'VE' and creating traffic and drainage impacts on the surrounding areas.

**10. Demand and Supply of Small House Site**

According to DLO/N's records, the total number of outstanding Small House applications for Kan Tau Tsuen is 76 while the 10-year Small House demand forecast for the same village is 96. According to the latest estimate by PlanD, about 2.28 ha (equivalent to about 91 Small House sites) of land are available within the "V" zone of Kan Tau Tsuen. There is insufficient land in the "V" zone of Kan Tau Tsuen to meet the future demand of Small Houses (i.e. about 4.3 ha of land which is equivalent to 172 Small House sites).

**Appendix VI of RNTPC Paper  
No. A/NE-LYT/650 to 652**

**Recommended Advisory Clauses**

- (a) to note the comments of CE/C, WSD that for provision of water supply to the development, the applicant may need to extend the inside services to nearest suitable Government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards;
- (b) to note the comments of D of FS that the applicant should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (c) to note the comments of CE/MN, DSD that the Site is in an area where no public sewerage connection is available;
- (d) to note the advice of DEP that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person; and
- (e) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
