Subject: A/NE-KLH/578 - deferment request

Dear Sir,

I noted the recent issuance of the new assessment criteria:

Assessment Criteria for Considering Applications for Solar Photovoltaic System made under Section 16 of the Town Planning Ordinance:

[https://www.info.gov.hk/tpb/en/forms/Technical_Doc/Assessment%20Criteria_promulgation%20\(English\)%20\(21.7.2020\).pdf](https://www.info.gov.hk/tpb/en/forms/Technical_Doc/Assessment%20Criteria_promulgation%20(English)%20(21.7.2020).pdf)

This is great to learn that stand-alone SPV system may be allowed if the land in "AGR" zone has no active farming activities and low agricultural rehabilitation potential. As mentioned in my application, my land is vacant for over 40 years. The land has no agricultural rehabilitation potential as well.

Nevertheless, I would like to defer my application (A/NE-KLH/578) for 2 months so that I and my consultant would have enough time to study if additional information would be provided to you.

Regards,
LAM Yau Hing
