5	A/YL-PS/542	Temporary Shop and Services (Convenient Store) for a Period of 5 Years	V	23.6.2017	2, 4, 5, 10, 11

Approval Conditions

1. No operation between 8:00p.m. and 9:00a.m. is allowed on the site.
2. The provision and maintenance of drainage facilities.
3. The submission and implementation of landscape and/or tree preservation proposal.
4. The submission and/or implementation of fire services installations.
5. No operation between 10:00p.m. and 9:00a.m. is allowed on the site.
6. No vehicle is allowed to queue back or reverse onto/from the public road at any time.
7. The submission and implementation of run-in/run-out proposal.
8. The submission of condition record of the existing drainage facilities on the site.
9. No operation between 7:00p.m. and 10:00a.m. is allowed on the site.
10. Revocation clauses.
11. Reinstatement clause.

Advisory clauses

- (a) the permission is given to the proposed temporary shop and services (real estate agency) use under application. It does not condone any other use which currently exists on the Site but not covered by the application. The applicant shall be requested to take immediate action to discontinue such use not covered by the permission;
- (b) shorter compliance period is imposed in order to monitor the progress of compliance with approval conditions. Should the applicant fail to comply with any of the approval conditions again resulting in the revocation of planning permission, sympathetic consideration may not be given to any further application;
- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that the Site comprises an Old Schedule Agricultural Lot held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. The lot owner(s) will need to apply to his office to permit the structures to be erected or regularize any irregularities on the Site, if any. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. Applications of any of the above will be considered by LandsD acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by LandsD;
- (d) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that before any new building works (including containers/open sheds as temporary buildings, demolition and land filing) are to be carried out on the Site, prior approval and consent of the BD should be obtained, otherwise they are unauthorized building works (UBW) under the Building Ordinance (BO). An Authorized Person (AP) should be appointed as the co-ordinator for the proposed building works in accordance with the BO. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage.
- (e) to follow the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" issued by the Environmental Protection Department to minimize potential environmental nuisance to the surrounding area;
- (f) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the applicant should provide his own drainage facilities to collect the runoff generated from the Site or passing through the Site, and discharge the runoff collected to a proper discharge point. The development should not obstruct overland flow or cause any adverse drainage impact to the adjacent areas and existing drainage facilities; and
- (g) to note the comments of the Director of Fire Services (D of FS) that in consideration of the design/nature of the proposal, fire services installations (FSIs) are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the

proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSIs to be installed should be clearly marked on the layout plans. The applicant is reminded that if the proposed structure(s) is required to comply with the Buildings Ordinance (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans.
