

**Town Planning Board Guidelines for
Application for Open Storage and Port Back-up Uses**
(TPB PG-No.13F)

On 27.3.2020, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13F) were promulgated, which set out the following criteria for New Development Areas (NDAs):

- (a) The planning for various NDAs (including potential development areas) in the New Territories has been in progress and the land use proposals for some of these areas have been incorporated as appropriate into relevant statutory town plans. The NDAs will be implemented by phases. While it is envisaged that the existing open storage and port back-up uses in these areas will be gradually phased out, sympathetic consideration may be given to applications for continued operation of these uses during the interim period before the sites are required for NDA development.
- (b) For existing open storage and port back-up uses with previous planning approval(s) and/or permitted under the previous Outline Zoning Plans, sympathetic consideration may be given to the application (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant) until the concerned site is required for implementation of NDA development, provided that the relevant approval conditions, if any, have been complied with. Technical assessments, where appropriate, should be submitted to demonstrate that the continued operation of the current uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas and the concerns of the departments and local residents, if any, can be addressed through the implementation of the approval conditions.
- (c) In view of the impending implementation of NDAs, new open storage and port back-up uses are generally not encouraged to infiltrate into the NDAs. There is a general presumption against such uses at greenfield areas and/or at sites with land use compatibility issue, e.g. in close proximity to existing residential dwellings which may be subject to environmental nuisances caused by the open storage and port back-up uses. Applications will normally be rejected unless under exceptional circumstances.
- (d) Any approved temporary use and development should not jeopardize the long-term planned development on the respective site/the surrounding area under the NDA and the applicant should be advised that the site would be required by the government at any time during the planning approval period for implementation of government projects.

**Relevant extracts of the Town Planning Board Guidelines No. 34C for
“Renewal of Planning Approval and Extension of Time for Compliance with Planning
Conditions for Temporary Use or Development”
(TPB PG-No. 34C)**

1. The criteria for assessing applications for renewal of planning approval include:
 - (a) whether there has been any material change in planning circumstance since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
 - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
 - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;
 - (d) whether the approval period sought is reasonable; and
 - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

Advisory clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (the Site);
- (b) the Site should be kept in a clean and tidy condition at all times;
- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department that the Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. Lot No. 348RP in D.D. 119 is covered by Short Term Waiver (STW) No. 4036 to permit structures erected thereon for the purpose of “Temporary Open Storage of Construction Equipment and Materials (Metal Scaffolding) and Container Site Office Units with Ancillary Maintenance Work”. The STW holder(s) will need to apply to her office for modification of the STW conditions where appropriate and the lot owner(s) of the lot(s) without STW will need to apply to her office to permit the structures to be erected or regularise any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularisation or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by her department acting in the capacity as landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by her department;
- (d) to note the comments of the Commissioner for Transport that the land status of the access road/path/track leading to the Site from Shan Ha Road shall be checked with the lands authority.
