

**Relevant extracts of the Town Planning Board Guidelines No. 13E for  
“Application for Open Storage and Port Back-up Uses”  
(TPB PG-No.13E)**

1. On 17.10.2008, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13E) were promulgated, which set out the following criteria for the various categories of area:
  - (a) Category 1 areas: favourable consideration will normally be given to applications within these areas, subject to no major adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments should be submitted if the proposed uses may cause significant environmental and traffic concerns;
  - (b) Category 2 areas: planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments, where appropriate, should be submitted to demonstrate that the proposed uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas;
  - (c) Category 3 areas: applications would normally not be favorably considered unless the applications are on sites with previous planning approvals. Sympathetic consideration may be given if the applicants have demonstrated genuine efforts in compliance with approval conditions of the previous planning applications and included in the fresh applications relevant technical assessments/proposals to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. Planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions; and
  - (d) Category 4 areas: applications would normally be rejected except under exceptional circumstances. For applications on sites with previous planning approvals, and subject to no adverse departmental comments and local objections, sympathetic consideration may be given if the applicants have demonstrated genuine efforts in compliance with approval conditions of the previous planning applications and included in the applications relevant technical assessments/proposals to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. The intention is however to encourage the phasing out of such non-conforming uses as early as possible. A maximum period of 2 years may be allowed upon renewal of planning permission for an applicant to identify suitable sites for relocation. No further renewal of approval will be given unless under very exceptional circumstances and each application for renewal of approval will be assessed on its individual merit.

2. In assessing applications for open storage and port back-up uses, the other major relevant assessment criteria are also summarized as follows:
- (a) there will be a general presumption against development on sites of less than 1,000 m<sup>2</sup> for open storage uses and 2,000 m<sup>2</sup> for port back-up uses in rural areas, other than sites located in major corridors, industrial/godown/workshop areas, quarrying activities or where it is demonstrated that optimum use is made of the site. This is to prevent the further proliferation of small sites in rural areas, minimizing sprawl over countryside areas and reducing travel trips;
  - (b) port back-up sites and those types of open storage uses generating adverse noise, air pollution and visual intrusion and frequent heavy vehicle traffic should not be located adjacent to sensitive receivers such as residential dwellings, hospitals, schools and other community facilities;
  - (c) port back-up uses are major generators of traffic, with container trailer/tractor parks generating the highest traffic per unit area. In general, port back-up sites should have good access to the strategic road network, or be accessed by means of purpose built roads;
  - (d) adequate screening of the sites through landscaping and/or fencing should be provided where sites are located adjacent to public roads or are visible from surrounding residential areas;
  - (e) there is a general presumption against conversion of agricultural land and fish ponds to other uses on an ad hoc basis, particularly in flood prone areas or sites which would obstruct natural drainage channels and overland flow; and
  - (f) for applications involving sites with previous planning approvals, should there be no evidence to demonstrate that the applicants have made any genuine effort to comply with the approval conditions of the previous planning applications, planning permission may be refused, or a shorter compliance period for the approval conditions may be imposed, notwithstanding other criteria set out in the Guidelines are complied with.

**Relevant extracts of the Town Planning Board Guidelines No. 34B for  
“Renewal of Planning Approval and Extension of Time for Compliance with Planning  
Conditions for Temporary Use or Development”  
(TPB PG-No. 34B)**

1. The criteria for assessing applications for renewal of planning approval include:
  - (a) whether there has been any material change in planning circumstance since the previous temporary approval was granted (such as a change in the planning policy/land-use zoning for the area) or a change in the land uses of the surrounding areas;
  - (b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);
  - (c) whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;
  - (d) whether the approval period sought is reasonable; and
  - (e) any other relevant considerations.
2. Under normal circumstances, the approval period for renewal should not be longer than the original validity period of the temporary approval. In general, the Board is unlikely to grant an approval period exceeding three years unless there are strong justifications and the period is allowed for under the relevant statutory plans. Depending on the circumstances of each case, the Board could determine the appropriate approval period, which may be shorter than the time under request.

**Rejected Applications**

	<b><u>Application No.</u></b>	<b><u>Proposed Use(s)/Development(s)</u></b>	<b><u>Date of Consideration (RNTPC/TPB)</u></b>	<b><u>Rejection Reason(s)</u></b>
1	A/YL-TYST/542	Temporary open storage of construction machinery and materials with ancillary office for a period of 3 years	2.9.2011	(1), (2), (3)
2	A/YL-TYST/564	Temporary open storage of construction machinery, construction materials and recycled materials (including metal and plastic) with ancillary workshop for a period of 3 years	31.8.2012 on review	(1), (3), (4), (5), (6)

**Rejection Reasons**

- (1) No/Insufficient information in the submission to demonstrate that the development would not generate adverse environmental impact/the development would generate adverse environmental impact.
- (2) The width of the vehicular access to the site is inadequate for use by heavy vehicles.
- (3) The application involves previously revoked planning permissions due to non-compliance with the approval conditions. Approval of the application with repeated non-compliances would set an undesirable precedent for other similar planning permissions for temporary uses, nullifying statutory planning control.
- (4) No/Insufficient information in the submission to demonstrate that the development would not generate adverse drainage impact.
- (5) The application does not comply with the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses in that the development is incompatible with the surrounding residential use.
- (6) No/Insufficient information in the submission to demonstrate that the development would not generate fire safety impact.

**Advisory clauses**

- (a) to resolve any land issues relating to the development with the concerned owner(s);
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that the Site comprises Old Schedule Agricultural Lots held under Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. Lot No. 323 in D.D.119 is covered by Short Term Waiver (STW) No. 3225 to permit structures erected thereon for the purpose of “ancillary use to storage of scrap metal and construction materials”. Lot No. 324 in D.D.119 is covered by STW No. 3457 to permit structures erected thereon for the purpose of “open storage of construction materials, scrap metal and furniture (with ancillary site office)”. The Site is accessible from Shan Ha Road via Government land (GL) and private land. Her office does not provide maintenance work for GL involved and does not guarantee any right-of-way over the GL to the Site. The STW holder(s) will need to apply to her office for modification of the STW conditions where appropriate and the lot owner(s) of the lot(s) without STW will need to apply to her office for permit the structures to be erected or regularize any irregularities on site. Such application(s) will be considered by LandsD acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by LandsD;
- (c) to note the comments of the Commissioner for Transport that Land Status of the access road/path/track leading to the Site from Shan Ha Road should be checked with the lands authority. The management and maintenance responsibilities of the access road/path/track shall be clarified and consulted with the relevant management and maintenance authorities accordingly. The applicant is reminded that sufficient space should be provided within the Site for manoeuvring of vehicles. In addition, no parking, vehicle queuing and reverse movement of vehicles on public road are allowed;
- (d) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to nearby public roads/drains. His department shall not be responsible for the maintenance of any access connecting the Site and Shan Ha Road;
- (e) to follow the latest “Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites” issued by the Environmental Protection Department to minimize any potential environmental nuisances;
- (f) to note the comments of the Director of Fire Services that the applicant is advised to submit relevant layout plans incorporated with the proposed fire service installations (FSIs) to his department for approval. In addition, the applicant is advised that the layout plan should be drawn to scale and depicted with dimensions and nature of occupancy and the location of where the proposed FSIs to be installed should be clearly marked on the layout plans. Also, the good practice guidelines for open storage (**Appendix VI** of this RNTPC paper) should be adhered to. If the proposed structure(s) is required to comply with the Buildings Ordinance (BO), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and
- (g) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that if the existing structures are erected on leased land without the

approval of the BD, they are unauthorized under the BO and should not be designated for any proposed use under the captioned application. Before any new building works (including containers/open storage sheds as temporary buildings) are to be carried out on Site, prior approval and consent of the Building Authority (BA) should be obtained, otherwise they are Unauthorised Building Works (UBW). An Authorised Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. For UBW erected on leased land, enforcement action may be taken by the BA to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the application site under the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations B(P)R respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage.
