**Advisory clauses**

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the Site;
- (b) the Site should be kept in a clean and tidy condition at all times;
- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department (LandsD) that the Site consists of Old Schedule Agricultural Lots held under Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. Lot Nos. 1483 S.A RP and 1483 S.B RP in D.D.119 are covered by Short Term Waiver (STW) No. 4567 to permit structures erected thereon for the purpose of “Temporary Warehouse for Storage of Machinery and Spare Parts”. The Government land (GL) within the Site is covered by Short Term Tenancy (STT) No. 3001 for the purpose of “Temporary Warehouse for Storage of Machinery and Spare Parts”. The Site is accessible to Kung Um Road via GL. Her office does not provide maintenance work for GL involved and does not guarantee any right-of-way. The STW/STT holders will need to apply to her office for modification of the STW/STT if there is any irregularities on site. Such application(s) will be considered by LandsD acting in the capacity as landlord at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by LandsD;
- (d) to note the comments of the Commissioner for Transport that that sufficient space should be provided within the Site for manoeuvring of vehicles. No parking, vehicle queuing and reverse movement of vehicles on public road are allowed;
- (e) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that his department shall not be responsible for the maintenance of any access connecting the Site and Kung Um Road. Also, adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to nearby public roads/drains;
- (f) to follow the relevant mitigation measures and requirements in the latest “Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites” issued by the Environmental Protection Department;
- (g) to note the comments of the Director of Fire Services that in consideration of the design/nature of the proposal, FSIs are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his Department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy and the location of where the proposed FSIs to be installed should also be clearly marked on the layout plans. The applicant is also reminded that if the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans;
- (h) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the BD, they are unauthorized building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by

the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the application site under the BO. Before any new building works (including containers/open sheds as temporary buildings and land filling) are to be carried out on application site, prior approval and consent of the BD should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the Building (Planning) Regulation at the building plan submission stage; and

- (i) to note the comments of the Director of Electrical and Mechanical Services that in the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organizing and supervising any activity near the underground cable or overhead line under the application should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site. They should also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation when carrying out works in the vicinity of the electricity supply lines.
