(Being a Draft Plan for the Purposes of the Town Planning Ordinance)

NOTES

(N.B. These form part of the Plan)

- (1) These Notes show the uses or developments on land falling within the boundaries of the Plan which are always permitted and which may be permitted by the Town Planning Board, with or without conditions, on application. Where permission from the Town Planning Board for a use or development is required, the application for such permission should be made in a prescribed form. The application shall be addressed to the Secretary of the Town Planning Board, from whom the prescribed application form may be obtained.
- (2) Any use or development which is always permitted or may be permitted in accordance with these Notes must also conform to any other relevant legislation, the conditions of the Government lease concerned, and any other Government requirements, as may be applicable.
- (3)
 - (a) No action is required to make the existing use of any land or building conform to this Plan until there is a material change of use or the building is redeveloped.
 - (b) Any material change of use or any other development (except minor alteration and/or modification to the development of the land or building in respect of the existing use which is always permitted) or redevelopment must be always permitted in terms of the Plan or, if permission is required, in accordance with the permission granted by the Town Planning Board.
 - (c) For the purposes of subparagraph (a) above, “existing use of any land or building” means -
 - (i) before the publication in the Gazette of the notice of the first statutory plan covering the land or building (hereafter referred as ‘the first plan’),
 - a use in existence before the publication of the first plan which has continued since it came into existence; or
 - a use or a change of use approved under the Buildings Ordinance which relates to an existing building; and
 - (ii) after the publication of the first plan,
 - a use permitted under a plan which was effected during the effective period of that plan and has continued since it was effected; or
 - a use or a change of use approved under the Buildings Ordinance which relates to an existing building and permitted under a plan prevailing at the time when the use or change of use was approved.
- (4) Except as otherwise specified by the Town Planning Board, when a use or material change of use is effected or a development or redevelopment is undertaken, as always permitted in terms of the Plan or in accordance with a permission granted by the

Town Planning Board, all permissions granted by the Town Planning Board in respect of the site of the use or material change of use or development or redevelopment shall lapse.

- (5) Road junctions, alignments of roads and railway tracks, and boundaries between zones may be subject to minor adjustments as detailed planning proceeds.
- (6) Temporary uses (expected to be 5 years or less) of any land or building are always permitted as long as they comply with any other relevant legislation, the conditions of the Government lease concerned, and any other Government requirements, and there is no need for these to conform to the zoned use or these Notes. For temporary uses expected to be over 5 years, the uses must conform to the zoned use or these Notes.
- (7) The following uses or developments are always permitted on land falling within the boundaries of the Plan except where the uses or developments are specified in Column 2 of the Notes of individual zones:
 - (a) provision, maintenance or repair of plant nursery, amenity planting, open space, rain shelter, refreshment kiosk, road, bus/public light bus stop or lay-by, cycle track, taxi rank, nullah, public utility pipeline, electricity mast, lamp pole, telephone booth, telecommunications radio base station, automatic teller machine and shrine;

3. OBJECT OF THE PLAN

- 3.1 The object of the Plan is to indicate the broad land-use zones and major road networks for Sha Tin so that development and redevelopment within Sha Tin can be put under statutory planning control. It also provides the planning framework for preparing more detailed non-statutory plans which form the basis for public works planning and site reservation for various uses.
- 3.2 The Plan is to illustrate the broad principles of development and planning control only. It is a small-scale plan and the road alignments and boundaries between the land-use zones may be subject to minor alterations as detailed planning proceeds.
- 3.3 Since the Plan is to show broad land use zonings, there would be situations in which small strips of land not intended for building development purposes and carry no development right under the lease, such as the areas restricted as non-building area or for garden, slope maintenance and access road purposes, are included in the residential zones. The general principle is that such areas should not be taken into account in plot ratio and site coverage calculation. Development within residential zones should be restricted to building lots carrying development right in order to maintain the character and amenity of the Sha Tin area and not to overload the road network in this area.
- 3.4 Also, there would be cases that areas occupied by free-standing purpose-designed buildings that are solely accommodating schools or other Government, institution or community facilities, including those located on ground and on podium level, are included in the residential zones. Such areas should not be included into the plot ratio and site coverage calculations.

4. NOTES OF THE PLAN

- 4.1 Attached to the Plan is a set of Notes which shows the types of uses or developments which are always permitted within the Area and in particular zones and which may be permitted by the Board, with or without conditions, on application. The provision for application for planning permission under section 16 of the Ordinance allows greater flexibility in land-use planning and control of development to meet changing needs.
- 4.2 For the guidance of the general public, a set of definitions that explains some of the terms used in the Notes may be obtained from the Technical Services Division of the Planning Department and can be downloaded from the Board's website at <http://www.info.gov.hk/tpb>.

5. THE PLANNING SCHEME AREA

- 5.1 The Planning Scheme Area (the Area) covered by the Plan is about 2,777 hectares. Its inner core lies at the bottom of the Sha Tin Valley which is separated from Kowloon by a range of hills, dominated by Lion Rock (495m above sea level) and Sugar Loaf Peak (372m above sea level). These hills form a natural barrier to the expansion of the Sha Tin New Town towards the south and south-east. Ma On Shan, the extension to Sha Tin New Town, lies to the north-east of the Area.
- 5.2 Sha Tin Hoi (Tide Cove) used to be a wide and relatively shallow estuary. It has been extensively reclaimed and the reclamation has formed the southern extremity of Tolo Harbour. Lek Yuen and Wo Che Estates and the race course are situated on reclaimed land. Large pieces of land near Siu Lek Yuen, Ngau Pei Sha and Ma Liu Shui have also been reclaimed from the Tide Cove.
- 5.3 The boundary of the Area is shown by a heavy broken line on the Plan. For planning and reference purpose, the Area is sub-divided into a number of smaller planning areas as shown on the Plan.

6. POPULATION

Based on the 2011 Population Census, the population of the Area was estimated by the Planning Department as about 433,150 persons, comprising 236,650 in public housing (including Home Ownership Schemes (HOS) and Private Sector Participation Schemes (PSPS)) and 196,500 in private housing including village type developments. It is estimated that the total planned population would be about 518,750 persons.

7. LAND-USE ZONINGS

7.1 Commercial ("C") : Total Area 6.60 ha

- 7.1.1 This zone is intended for commercial developments, which may include shop, services, place of entertainment and eating place, functioning mainly as local shopping centre serving the immediate neighbourhood.
- 7.1.2 This zone covers the major part of Planning Area 20 and parts of Planning Areas 5, 11, 14 and 16. Planning Area 20 is in close proximity to the East Rail Sha Tin Station and forms an extension to the town centre. The site abutting Tai Chung Kiu Road in Planning Area 5 has been developed into a hotel. The site in Planning Area 11 was disposed of in April 1997 to provide commercial and office accommodation to serve the industrial area in Shek Mun. The site in the northern corner of Planning Area 14 has been developed into a permanent concrete 'boat-like' restaurant. The site in the Yuen Chau Kok Industrial Area in Planning Area 14 has been developed into a commercial/office building to serve the adjacent industrial and residential developments. It also serves as a buffer between industrial developments in the Yuen Chau

Kok Industrial Area and the adjoining residential developments. The site in Planning Area 16 has also been developed to a commercial/office building to serve the Fo Tan Industrial Area.

7.2 Comprehensive Development Area (“CDA”) : Total Area 17.21 ha

7.2.1 This zone is intended for comprehensive development/redevelopment of the “CDA” area for residential use, and the “CDA(1)” area for commercial and/or residential uses, both with the provision of open space and other supporting facilities. The zoning is to facilitate appropriate planning control over the development mix, scale, design and layout of development, taking account of various environmental, traffic, infrastructure and other constraints.

7.2.2 This zoning comprises the following four sites :

(i) “CDA” site at Heung Fan Liu : Total Area 4.55 ha

Development within this “CDA” site is restricted to a maximum gross floor area (GFA) of 52,156m². Residential development with landscape areas is restricted to the southern part of the site. The northern part of the site, which is covered by rich vegetation, should be preserved. Upon completion, about 820 flats will be provided.

(ii) “CDA(1)” site at East Rail Fo Tan Station and its Adjoining Area : Total Area 5.13 ha

Development within this “CDA(1)” site is restricted to a maximum GFA of 208,600m². The domestic GFA shall not exceed 191,100m². A primary school will be provided in the development. Upon completion, about 2,800 flats will be provided.

(iii) “CDA(1)” site at the Ma On Shan Line Tai Wai Station and its Adjoining Area : Total Area 5.48 ha

Development within this “CDA(1)” site is restricted to a maximum GFA of 253,590 m². The domestic GFA shall not exceed 219,090 m². A post-secondary college will be provided in the development. Upon completion, about 2,900 flats will be provided. The proposed developments at this “CDA(1)” site and the Tai Wai Maintenance Centre site should be planned comprehensively to ensure a coherent and integrated development at both sites, which would be compatible with the existing and planned developments in the area.

(iv) “CDA(1)” site at the Ma On Shan Line Che Kung Temple Station : Total Area 2.05 ha

Development within this “CDA(1)” site is restricted to a

maximum GFA of 90,655m². The residential development, namely The Riverpark, at the site has been completed providing about 981 flats.

- 7.2.3 Pursuant to section 4A(2) of the Ordinance, and except as otherwise expressly provided that it is not required by the Board, an applicant for permission for development on land designated “CDA” shall prepare a Master Layout Plan for the approval of the Board. The Master Layout Plan should be supported by an explanatory statement which contains an adequate explanation of the development proposal, including such information as land tenure, relevant lease conditions, existing conditions of the site, the character of the site in relation to the surrounding areas, principles of layout design, major development parameters, design population, types of Government, institution or community (GIC) facilities, and recreational and open space facilities.

7.3 Commercial/Residential (“C/R”) : Total Area 14.55 ha

- 7.3.1 This zone is intended primarily for commercial and/or residential development. Commercial, residential and mixed commercial/residential uses are always permitted.
- 7.3.2 There is only one site zoned for this purpose. It is the existing town centre in Planning Area 7 which provides the main commercial, cultural, social, civic and Government facilities for the Area. The town centre is centrally located between the existing East Rail Sha Tin Station and Shing Mun River. It is at the heart of the road and pedestrian networks of the Area. New Town Plaza, a major development at the site, provides residential accommodation together with retail space, a hotel and an office block.

7.4 Residential (Group A) (“R(A)”) : Total Area 250.27 ha

- 7.4.1 This zone is intended primarily for high-density residential developments. Commercial uses are always permitted on the lowest three floors of a building or in the purpose-designed non-residential portion of an existing building.
- 7.4.2 There are fourteen existing public rental housing estates, twelve HOS, three PSPS and one Sandwich Class Housing in the Area. There are also six planned public housing developments in Planning Areas 11, 16, 52 and 58D. Within public housing estates, there are a wide range of low-rise free-standing GIC facilities including schools, community halls, children and youth centres, elderly centres, social and welfare centres as well as ancillary facility buildings such as car parks, shopping centres and markets serving the residents of the concerned estates. Such low-rise free-standing GIC and ancillary facility buildings should be kept as breathing spaces and visual relief for the building mass. No new addition, alteration and/or modification to or redevelopment of these existing individual free-standing GIC and

ancillary facility buildings shall result in a height exceeding that of the existing building. All public housing estates are governed by planning brief. Upon the future redevelopment of the estates, the layout and design of these GIC and ancillary facility buildings should be comprehensively reviewed with the support of relevant impact assessments on air ventilation and visual aspects. In addition, planning briefs setting out the development parameters, design requirements and the relevant technical assessments to be conducted for the planned public housing developments will be provided to guide the future development of the sites.

- 7.4.3 This zoning includes six sub-areas which are subject to the following development restrictions:

“Residential (Group A)1” (“R(A)1”): Total Area 12.45 ha

- (a) The planned public housing development at Planning Area 52 (Shui Chuen O) is under this zoning. Development/redevelopment within this zoning is subject to restrictions on the maximum total gross floor area of 501,800m² and building height restriction as shown on the Plan, or the GFA and height of existing building, whichever is the greater. The building height restrictions stipulated on the Plan are the maximum permitted height. Staggered building heights with a maximum of 30 domestic storeys and general building heights ranging from 25 to 28 domestic storeys should be adopted to create a stepped height profile against the hilly terrain. Maximum building heights of 2 to 4 storeys are stipulated along two view corridors where only low-rise structures are permitted.
- (b) The building height restrictions in terms of number of storeys are applicable to buildings above the ground level. Any basement floors may be disregarded.

“Residential (Group A)2” (“R(A)2”): Total Area 4.09 ha

- (c) The planned public housing development at Planning Areas 16 and 58D is under this zoning. Development/redevelopment within this zoning is subject to restrictions on the maximum total gross floor area of 194,500m² and building height restriction as shown on the Plan, or the GFA and height of existing building, whichever is the greater. The building height restriction stipulated on the Plan is the maximum permitted height. Building heights ranging from 26 to 36 domestic storeys should be adopted to create a height profile stepping up from both ends to the centre with reference to the hilly terrain to the north.

“Residential (Group A)3” (“R(A)3”): Total Area 0.87 ha

- (d) The planned HOS development at Planning Area 16 is under this zoning. Development/redevelopment within this zoning is subject to restrictions on the maximum total gross floor area of 43,600m² and

building height restriction as shown on the Plan, or the GFA and height of existing building, whichever is the greater.

“Residential (Group A)4” (“R(A)4”): Total Area 4.25 ha

- (e) The planned public housing estate at Planning Area 11 is under this zoning. Development/redevelopment within this zoning is subject to restrictions on the maximum total domestic gross floor area of 234,000m², non-domestic gross floor area of 19,500m² and building height restriction as shown on the Plan, or the GFA and height of existing building, whichever is the greater. Building heights ranging from about 110 to 140mPD should be adopted to create a height profile stepping up from the northwest near On Ming Street to the southeast.

“Residential (Group A)5” (“R(A)5”): Total Area 0.70 ha

- (f) The planned public housing development at Au Pui Wan Street in Planning Area 16 is under this zoning. Development/redevelopment within this zoning is subject to restrictions on the maximum total gross floor area of 38,580m² and building height restriction as shown on the Plan, or the GFA and height of existing building, whichever is the greater.

“Residential (Group A)6” (“R(A)6”): Total Area 0.43 ha

- (g) The planned public housing development at On Muk Street in Planning Area 11 is under this zoning. Development/redevelopment within this zoning is subject to restrictions on the maximum total gross floor area of 26,240m² and building height restriction as shown on the Plan, or the GFA and height of existing building, whichever is the greater.

7.4.4 At detailed design stage, quantitative air ventilation studies will need to be conducted for the public housing developments within the “R(A)1”, “R(A)2”, “R(A)3”, “R(A)4” and “R(A)5” sites to further refine the development layout and the relevant mitigation measures from the air ventilation perspectives.

7.4.5 Minor relaxation of the GFA and building height restrictions for the “R(A)1”, “R(A)2”, “R(A)3”, “R(A)4”, “R(A)5” and “R(A)6” zones may be considered by the Board on application under section 16 of the Town Planning Ordinance. Each application for minor relaxation of GFA/building height restrictions will be considered on its own merits.

7.5 Residential (Group B) (“R(B)”): 195.52 ha

7.5.1 This zone is intended primarily for medium-density residential developments where commercial uses serving the residential neighbourhood may be permitted on application to the Board.

7.5.2 Four sites at Fu Kin Street, Lai Ping Road, north of To Shek Reservoir and Tai Po Road-Sha Tin Heights are zoned “R(B)1”, “R(B)2” or

“R(B)”³ which are subject to plot ratio restrictions and/or building height restrictions as shown on the Plan. The restrictions are necessary for the purposes of preserving the general amenity of the area as well as to ensure that the scale of the developments will be compatible with the adjacent developments and will not overtax the infrastructural provision in the area.

- 7.5.3 All sites within this zone, except those in Planning Area 51 and located on the waterfront adjacent to Shing Mun River, are located largely on the hill slopes overlooking the Sha Tin Valley.

7.6 Residential (Group C) (“R(C)”) : Total Area 0.95 ha

- 7.6.1 This zone is intended primarily for low-rise, low-density residential developments where commercial uses serving the residential neighbourhood may be permitted on application to the Board.

- 7.6.2 Two sites at Tai Po Road in Planning Area 33 and one site at Tai Po Road near the Chinese University of Hong Kong are under this zoning. Developments within this zone are subject to plot ratio, site coverage and/or building height restrictions. These restrictions are necessary for the purposes of preserving the general amenity of the area as well as to ensure that the development intensities will be within the limits of the road capacity. Minor relaxation of the stated restrictions may be considered by the Board on application under section 16 of the Ordinance. Each proposal will be considered on its own merits.

7.7 Village Type Development (“V”) : Total Area 190.30 ha

- 7.7.1 The planning intention of this zone is to designate both existing recognized villages and areas of land considered suitable for village expansion. Land within this zone is primarily intended for development of Small Houses by indigenous villagers. It is also intended to concentrate village type development within this zone for a more orderly development pattern, efficient use of land and provision of infrastructures and services. Selected commercial and community uses serving the needs of the villagers and in support of the village development are always permitted on the ground floor of a New Territories Exempted House. Other commercial, community and recreational uses may be permitted on application to the Board.

- 7.7.2 In order to ensure that any future development or redevelopment within this zone would retain the village character, a maximum building height of 3 storeys (8.23m) or the height of the existing building(s), whichever is the greater, is imposed under this zone.

- 7.7.3 Existing villages such as Tai Wai, Tsang Tai Uk, Siu Lek Yuen, Hin Tin and Kak Tin will be retained. For those villages which have been displaced by public projects, village resite areas have been provided for. Tsok Pok Hang New Village is one of the examples.

7.8 Industrial (“I”) : Total Area 42.69 ha

- 7.8.1 This zone is intended primarily for general industrial uses to ensure an adequate supply of industrial floor space to meet demand from production-oriented industries. Information technology and telecommunications industries and office related to industrial use are always permitted in this zone.
- 7.8.2 Industrial land is distributed in three locations, Planning Area 3 (Tai Wai), Planning Area 14 (Siu Lek Yuen) and Planning Area 16 (Fo Tan). They are separated as far apart as possible from the residential areas by open spaces or other physical features.
- 7.8.3 All industrial land in Planning Area 14 (Siu Lek Yuen) is zoned to “I(1)” with ‘Hotel’ use under Column 2 in the Notes to allow flexibility for hotel development through planning application.

7.9 Government, Institution or Community (“G/IC”) : Total Area 291.93 ha

- 7.9.1 This zone is intended primarily for the provision of Government, institution or community (GIC) facilities serving the needs of the local residents and/or a wider district, region or the territory. It is also intended to provide land for uses directly related to or in support of the work of the Government, organizations providing social services to meet community needs, and other institutional establishments. Such developments, particular for those which are low-rise, serve to provide visual and spatial relief to the built-up environment of the Area.
- 7.9.2 Major GIC facilities provided in the Area include:
- (a) the Sha Tin Town Hall, the Sha Tin Public Library and the Sha Tin Magistracy in Planning Area 7;
 - (b) the Sha Tin Government Offices building in Planning Area 20;

- 7.9.3 Local GIC facilities are/will be provided in the commercial/residential, residential and industrial developments when detailed planning for the Area proceeds.

- 7.9.4 Two sites to the south of Sha Tin Road at Planning Area 52 (Shui Chuen O) are planned for a covered public transport terminus and a primary school. They are subject to building height restrictions as stipulated on the Plan or the height of the existing building, whichever is the greater. Minor relaxation of the building height restriction may be considered by the Board on application under section 16 of the Town Planning Ordinance. Each application for minor relaxation of building height restriction will be considered on its own merits.

7.10 Open Space (“O”) : Total Area 253.68 ha

- 7.10.1 This zone is intended primarily for the provision of outdoor open-air public space for active and/or passive recreational uses serving the needs of local residents as well as the general public.
- 7.10.2 A prominent feature is the provision of large landscaped open spaces in Planning Area 12 (the Sha Tin Park), Planning Area 28 in the vicinity of the town centre and along the river channel at Siu Lek Yuen. They form a major node of recreational activities and extend along both sides of Shing Mun River providing a spine for pedestrian and cycle movements. A major recreational ground with soccer pitches and tennis courts etc. is provided in Planning Area 26 (Yuen Wo Road). Playgrounds with different active and passive recreational facilities are also provided in Planning Areas 2 (Che Kung Miu Road Playground), 5 (Tsang Tai Uk Playground) and 17 (Hin Tin Playground).
- 7.10.3 Other major open space zones, including those in Planning Areas 2 and 33, are suitable for passive recreational purposes. In addition, open spaces in Planning Areas 13 and 24 are zoned for this purpose because of their ‘fung shui’ significance or landscape quality.
- 7.10.4 In addition to the major open spaces as indicated on the Plan, local open spaces will also be provided within the public housing estates and the large private residential developments for the enjoyment of local residents.

7.11 Other Specified Uses (“OU”) : Total Area 215.85 ha

- 7.11.1 This zone is intended for specific development(s) and/or uses, which is/are specified in the annotation of the zone. They include the following specific uses :
- (a) the Sha Tin Race Course in Planning Area 47;
 - (b) the sewage treatment plant in Planning Area 47;
 - (c) the refuse transfer station in Planning Area 65;
 - (d) the Fu Shan Crematorium and Columbarium and its extension, a public mortuary and a funeral parlour in Planning Area 18;
 - (e) the East Rail Sha Tin Station, with commercial development and bus terminus, in Planning Area 20;

- (q) the proposed Columbarium and Garden of Remembrance in Planning Area 65.

7.11.2 Land zoned for “OU” annotated “Business” (“OU(Business)”) and “OU(Business(1))” is intended for general business uses. Under this zoning, a mix of information technology and telecommunications industries, non-polluting industrial, office and other commercial uses are always permitted in new “business” buildings. However, in order to ensure that the concerns on fire safety and environmental impacts are properly addressed, only less fire hazard-prone office use that would not involve direct provision of customer services or goods to the general public are permitted as of right in existing industrial buildings or industrial-office buildings within this zone. As it is not possible to phase out existing polluting and hazardous industrial uses all at once, it is necessary to ensure compatibility of the uses within the same industrial building until the whole area is transformed to cater for the new non-polluting business uses. Development within this zone should make reference to the relevant Town Planning Board Guidelines.

7.11.3 The “OU(Business)” zone in Shek Mun comprises twelve existing buildings with mixed industrial and office uses as well as some vacant sites in the south-eastern part of the zone.

7.11.4 On land designated “OU(Business(1))”, uses such as educational institution, exhibition or convention hall, place of recreation, sports or culture, retail shop and school, which will likely attract high concentration of population, require planning permission from the Board.

7.11.5 The site designated “OU” annotated “Columbarium” in Planning Area 6 (i.e. Po Fook Hill) is subject to GFA, site coverage and building height restrictions. The restrictions are necessary for the purposes of minimizing adverse visual, landscape, traffic and environmental impacts caused by columbarium development at the site. Minor

relaxation of the stated restrictions may be considered by the Board on application under section 16 of the Ordinance. Each proposal will be considered on its own merits.

- 7.11.6 The site designated “OU” annotated “Columbarium and Garden of Remembrance” in Planning Area 65 has been identified for columbarium development to share the responsibility of developing district-based columbarium facilities and to meet the demand for public niches. The site comprises a low-rise columbarium block providing about 40,000 niches and a garden of remembrance. Aesthetically-designed columbarium building blending in well with ample landscaping works will be adopted to minimize the visual impact. The overall layout of the columbarium block will be subject to detailed architectural design at the subsequent stage.

7.12 Green Belt (“GB”) : Total Area 979.67 ha

- 7.12.1 The planning intention of this zone is primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl as well as to provide passive recreational outlets. There is a general presumption against development within this zone.
- 7.12.2 Pursuant to the recommendations of the “Relocation of Sha Tin Sewage Treatment Works to Cavern – Feasibility Study”, an underground area within the “GB” site at Planning Area 65 has been identified for the relocation of Sha Tin Sewage Treatment Works. The Sha Tin Cavern Sewage Treatment Works consists of sewage and sludge treatment facilities, access tunnels and other associated facilities located in cavern. The “GB” area occupied by the underground sewage treatment works is designated as Sub-area 1 within this zone on the Plan. The use of underground sewage treatment works is always permitted in this sub-area.

8. COMMUNICATIONS

8.1 Roads

- 8.1.1 Only major road network which comprises trunk roads, primary distributors and district distributors is shown on the Plan. As the Plan is drawn at a small-scale, design details of major road junctions and local access roads are not indicated.
- 8.1.2 The Area is linked to the northern and western Kowloon via the Lion Rock Tunnel Road and Tai Po Road respectively. The Tate’s Cairn Tunnel provides an additional strategic highway linking north-east Kowloon, the Area and further onto Ma On Shan. In the west, Route 5, including the Shing Mun Tunnel, provides a direct access to Tsuen Wan. The Tsing Sha Highway connects the Area with Cheung Sha Wan. In the north, a highway system, which comprises Sha Tin Road, Tai Po Road and Tolo Highway, connects the Area with Tai Po and

beyond.

8.2 Railway

8.2.1 Mass Transit Railway (MTR) East Rail Line

The Area is served by the electrified East Rail which provides a major transport link between Kowloon and the New Territories. There are altogether five railway stations serving various parts of the Area viz. Tai Wai, Sha Tin, Fo Tan, Racecourse and University Stations.

8.2.2 MTR Ma On Shan Line – Tai Wai to Wu Kai Sha

The Ma On Shan Line (MOS Line) provides a convenient passenger link connecting Ma On Shan with Tai Wai via the Sha Tin hinterland. There are interchange facilities with the existing East Rail in Planning Area 3 (Tai Wai), five stations in Sha Tin (Tai Wai, Che Kung Temple, Sha Tin Wai, City One and Shek Mun) and a Maintenance Centre at Tai Wai. There is potential for property development along the railway at the Tai Wai Station and Maintenance Centre, and Che Kung Temple Station.

8.2.3 MTR Shatin to Central Link

The railway scheme for the Shatin to Central Link (SCL) was authorised by CE in C on 27 March 2012 and the railway tracks and station within the area are currently under construction. Pursuant to section 13A of the Ordinance, the railway scheme authorised by the CE in C under the Railways Ordinance (Chapter 519) shall be deemed to be approved under the Ordinance. The railway alignment, stations and structures within the area are shown on the Plan for information only.

8.3 Public Transport

In addition to railway, buses, taxis and green mini-buses are the main modes of public transport in the Area. Public transport interchange facilities are provided at convenient locations such as near the railway stations.

8.4 Ferry Services

The use of waterborne transport for external communication is limited at present. There is a ferry pier in Planning Area 68 which provides services to the outlying islands. The adjoining ferry pier has been demolished to make way for the construction of an access road from Ma Liu Shui to Pak Shek Kok. Landing steps are provided in the adjacent area.

8.5 Pedestrian and Cycle Networks

A special feature of the Area is a comprehensive system of walkways and cycle tracks, which links all major developments in the Area and provides

11. IMPLEMENTATION

- 11.1 Although existing uses non-conforming to the statutory zonings are tolerated, any material change of use and any other development/redevelopment must be always permitted in terms of the Plan or, if permission is required, in accordance with the permission granted by the Board. The Board has published a set of guidelines for the interpretation of existing use in the urban and new town areas. Any person who intends to claim an “existing use right” should refer to the guidelines and will need to provide sufficient evidence to support his claim. The enforcement of the zonings mainly rests with the Buildings Department, the Lands Department and the various licensing authorities.
- 11.2 This Plan provides a broad land-use framework within which more detailed non-statutory plans for the Area are prepared by the Planning Department. These detailed plans are used within the Government as the basis for public works planning and site reservation. Disposal of sites is undertaken by the Lands Department. Public works projects are co-ordinated by the Civil Engineering and Development Department in conjunction with the client departments and the works departments, such as the Architectural Services Department and the Highways Department. In the implementation of the Plan, the Sha Tin District Council would be consulted as appropriate.
- 11.3 Planning applications to the Board will be assessed on individual merits. In general, the Board, in considering the planning applications, will take into account all relevant planning considerations which may include the departmental outline development plans/layout plans, and guidelines published by the Board. The outline development plans and layout plans are available for public inspection at the Planning Department. Guidelines published by

the Board are available from the Board's website, the Secretariat of the Board and the Technical Services Division of the Planning Department.
