7. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

In accordance with Section 16 of the Hong Kong Town Planning Ordinance (Cap 131), I am submitting an application to the Town Planning Board to establish a proposed "Temporary Warehouse for Storing Car Parts with an Ancillary Office and Associated Filling of Land" for a period of three years. This application is based on the operational needs of the local automotive parts trade and aims to provide a suitable storage space to support business growth.

As the demand for automotive parts continues to grow in Hong Kong, particularly in the areas of vehicle maintenance and parts replacement, the need for specialized warehouse space has become increasingly urgent. The proposed site is located in a convenient area with several vehicle repair shops and storage facilities in the vicinity, which can effectively support the storage and operation of automotive parts. The area surrounding the warehouse has high vehicle traffic, and logistics and distribution activities are frequent, making it an ideal location for setting up the warehouse. Given the current traffic flow, the establishment of the warehouse will not negatively impact nearby residents' daily lives or traffic conditions.

Additionally, the site's strategic location near major roads and logistics hubs facilitates easy access for vehicles and goods. The establishment of the warehouse will not only reduce operational costs but also improve logistics and distribution efficiency, thus promoting the rapid development of the business. The surrounding infrastructure and transportation networks will effectively support the operation of the warehouse, and it will create a synergistic effect with other vehicle and storage businesses in the area.

Most importantly, the proposed use is for a temporary warehouse operation for a period of three years and will not impact the long-term development or planning of the land. During the operation, we will ensure that the warehouse complies with environmental protection requirements, maintains cleanliness, and conducts regular facility inspections. The surrounding area will not involve any major construction, minimizing any potential impact on the community and environment.

This site will not engage in any industrial processes and will solely be used for storage purposes. The goods will be organized by drivers, and no high noise or pollution operations will take place. Additionally, to maintain cleanliness, a mobile toilet will be set up on-site which includes in the Office, and workers will be assigned to clean the toilet regularly, ensuring the site remains hygienic and free from unpleasant odors, in compliance with relevant health and environmental regulations. Moreover, this application will not include any filling engineering.

In summary, the selection of this site for temporary warehouse use takes into account the existing traffic, logistics infrastructure, and the synergistic effect with surrounding businesses, which will positively contribute to both business operations and community development. We hope the Town Planning Board will approve this application.
