KEY PLAN

All VPs (except VP3) are the same as those adopted under the Notional Scheme. At the time when photomontage was prepared during the previous S12A rezoning application, the Visitor Centre at Long Valley was still under construction with site fenced off. Therefore, the previous VP3 was taken at a location further away to the northeast of the Visitor Centre. With the recent completion and opening of the Visitor Centre, the Applicant took the opportunity to update the background photo of VP3 with an updated photomontage prepared at the current location.
