1 Background of the S16 Planning Application

- 1.1.1 This Section 16 Planning Application is submitted for seeking approval from the Town Planning Board (“TPB”) for the Proposed Renewal of Planning Approval for Temporary Educational Institution (Teaching Farm) for a Period of Three Years (i.e. until 15.5.2029) at Lots 335 S.B (Part), 336AB, 336C, 337 S.B, 338, 339, 340, 341, 345 S.A and 346 in D.D. 16, Wo Tong Pui, Tai Po, New Territories. Please refer to **Appendix A** for the location Plan of the Application Site.
- 1.1.2 The Application Site is the subject of two previous S16 planning applications. The first planning application was for seeking approval for the Proposed Temporary Educational Institution (Teaching Farm) for a Period of Three Years and Excavation of Land (No. A/NE-LT/662), which was approved by the Rural and New Town Planning Committee (“RNTPC”) on 15.5.2020. The teaching farm has started operation since 20.9.2022 by the Jockey Club College of Veterinary Medicine and Life Sciences of the City University of Hong Kong (CityUHK).
- 1.1.3 With an area of about 9,330m², the approved temporary development consists of 15 nos. single-storey structures and a covered walkway (with building heights ranging from 3.0m to 5.8m) with a total GFA of 2,871m², which mainly used for farm operation/supporting facilities including barns, main building, changing room, caretaker’s quarters, transformer room, pump rooms and other associated facilities. In association with these structures, excavation of land with a depth ranging from 0.5m to 2.5m was proposed for the construction of raft footing, underground facilities and emergency vehicular access.
- 1.1.4 Given that the planning permission under the approved planning application (No. A/NE-LT/662) was only valid until 15.5.2023, the same applicant, who is the sole landowner of the Application Site, has submitted a planning application for Proposed Renewal of Planning Approval to continue using the Application Site for Temporary Educational Institution (Teaching Farm) for a further Period of Three Years until 15.5.2026 (No. A/NE-LT/756). Compared with the previous application, the application was submitted for the same use with no changes in terms of site area, access arrangement and number of parking spaces, with minor changes to the building layout and reduction in the number of building blocks (from 15 to 13 single-stories structures) and total GFA (from a total GFA of about 2,871m² to about 2,715m²) in accordance with the approved general building plan (GBP). The planning application was approved by the RNTPC on 15.5.2023 and the planning permission will be valid until 15.5.2026.
- 1.1.5 The TPB’s Decision Letter of the previous approved planning applications (No. A/NE-LT/662 and No. A/NE-LT/756) for the Application Site is attached to **Appendix B**.

2 Proposed Renewal of Planning Approval for Temporary Educational Institution (Teaching Farm)

- 2.1.1 In order to continue provide facilities for training students and developing veterinary medicine in Hong Kong, we hereby seek renewal of planning permission to continue using the Application Site for temporary educational institution (teaching farm) for a further period of three years until 15.5.2029.
- 2.1.2 The scheme under the proposed renewal will be the same as the last approved application (No. A/NE-LT/756) in terms of the applied use, development schedule and access arrangement, in accordance with the approved GBP for the commenced teaching farm. Please refer to **Table 2.1** below for the development schedule of the scheme at the Application Site, and **Appendix C** for the approved GBP.

Table 2.1 Development Schedule of the Scheme

Key Parameters	
Application Site Area	About 9,329.76m ²
Total Plot Ratio (PR)	About 0.29
- Non-Domestic PR	About 0.284
- Domestic PR	About 0.007
Total Gross Floor Area (GFA)	About 2,715.17m ²
- Non-Domestic	About 2,648.42m ²
- Domestic	About 66.75m ²
Building Height (BH)	
- Non-Domestic	Not more than 5.8m (1 storey)
- Domestic	Not more than 3.5m (1 storey)
No. of blocks	13
- Non-Domestic	12
- Domestic	1
Site Coverage	Not more than 29.1%
Ancillary Car Parking Provision	
Private Car	3 (Including 1 nos. accessible car parking)
L/UL Bay	2

3 Justification for the Renewal of Planning Approval

3.1.1 Reference has been made to paragraph 4 of TPBG-No. 34D, and this renewal of planning approval application has fulfilled all criteria that warrant TPB's approval.

(a) Whether there has been any material change in planning circumstances since the original permission was granted (such as a change in the planning policy/land-use zoning for the area);

3.1.2 The Application Site is currently falling within the "Recreation" ("REC") zone (about 9,374m² or 99.4%) and "Green Belt" ("GB") zone (about 56 m² or 0.6%) on the Approved Lam Tsuen Outline Zoning Plan ("OZP") No. S/NE-LT/11. The current OZP was gazetted on 10.11.2006, and the land-use zoning and development restrictions for the Application Site has remained unchanged when the previous approval was granted by the TPB on 15.5.2023.

3.1.3 Therefore, from the statutory planning point of view, there has been no material change in planning circumstances since the original permission was granted in 2020, which was to support the temporary educational institution (teaching farm) at the Application Site.

(b) whether there are any adverse planning implications arising from the renewal of the planning approval (such as pre-emption of planned permanent development);

3.1.4 Given that there has been no material change in planning circumstances since the planning approval as discussed in (a) above, and no major change is proposed to the approved scheme, the approved technical assessments (including Environmental Assessment and Drainage Proposal) under the approved scheme remain valid. This application is solely for renewal of planning approval for temporary use or development which will not cause any adverse planning implications.

3.1.5 In addition, there is not yet any programme or known intention to implement the zoned "REC" use on the OZP. Given the temporary nature of the applied use, approval of the application on a temporary basis for a period of three years would not jeopardize the long-term planning intention of the "REC" zone.

(c) Whether the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits;

3.1.6 All of the Approval Conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits. In particular, a condition record of the existing drainage facilities implemented on the site is submitted on 5.1.2024 to satisfy Approval Condition (d) and has been complied with on 6.2.2024¹. Please refer to **Appendix D** for PlanD's letter on the compliance with approval condition (d).

¹ A S16A application for Extension of Time for Compliance with Planning Conditions for Temporary Use or Development (No. A/NE-LT/756-1) was submitted to the TPB and approved by the Assistant Director of Planning/New Territories on 8.11.2023, in which the approval condition (d) under the approved planning application No. A/NE-LT/756 "the submission of a condition record of the existing drainage facilities implemented on the site within 6 months from the date of commencement of the renewed planning approval to the satisfaction of the Director of Drainage Services or of the TPB by should be 16.11.2023" is now extended to by 16.5.2024.

3.1.7 Regarding Approval Conditions (a), (b), (c), (e) and (f), the development has not caused water pollution to the gathering ground during the planning approval period. Environmental mitigation and prevention measures have been consistently maintained on-site. No stormwater is discharged to Lam Tsuen River with the temporary storage tanks and trucked away arrangements. Existing drainage facilities and fire service installations have been kept in efficient working order at all times. Please refer to **Appendix E** for the detailed compliance status of the Approval Conditions of Application No. A/NE-LT/756, and photos showing all the relevant measures being implemented.

(d) whether the approval period sought is reasonable; and

3.1.8 It is noted that the original duration for the approved temporary development is three years. The Applicant applies for a Renewal of Planning Approval for another three years, which does not result in an approval period longer than the original duration for temporary use/development. Therefore, the approval period applied for is reasonable.

3.1.9 In light of the reasonable actions and justifications put forward in this Supporting Planning Statement, we sincerely seek favorable consideration from the TPB to grant approval to this proposed renewal of planning approval.

(e) any other relevant considerations.

3.1.10 As a critical component of City University's Bachelor of Veterinary Medicine, the farm is demonstrating the highest standards of management, health and safety, and cattle welfare, which is subject to accreditation visits from teams of acclaimed international veterinary experts.

3.1.11 In view of the public comments received in the previous planning application No. A/NE-LT/756, the general concern on hygiene and health is monitored under the relevant legislation by relevant government departments. Environmental assessments, including water quality, air quality, waste management and land contamination have been conducted for the same scheme, and relevant mitigation measures proposed have been fully implemented to ensure proper handling of animal waste, and prevent potential adverse impacts to the local environment and residents. Therefore, the approval of the temporary planning approval will not cause the adverse implications as concerned by the public.

4 Conclusion

4.1.1 This application for Renewal of Planning Approval for Temporary Educational Institution (Teaching Farm) for a Period of Three Years, until 15.5.2029 in Lots 335 S.B (Part), 336AB, 336C, 337 S.B, 338, 339, 340, 341, 345 S.A and 346 in D.D. 16, Wo Tong Pui, Tai Po, New Territories is considered justifiable for the following reasons:

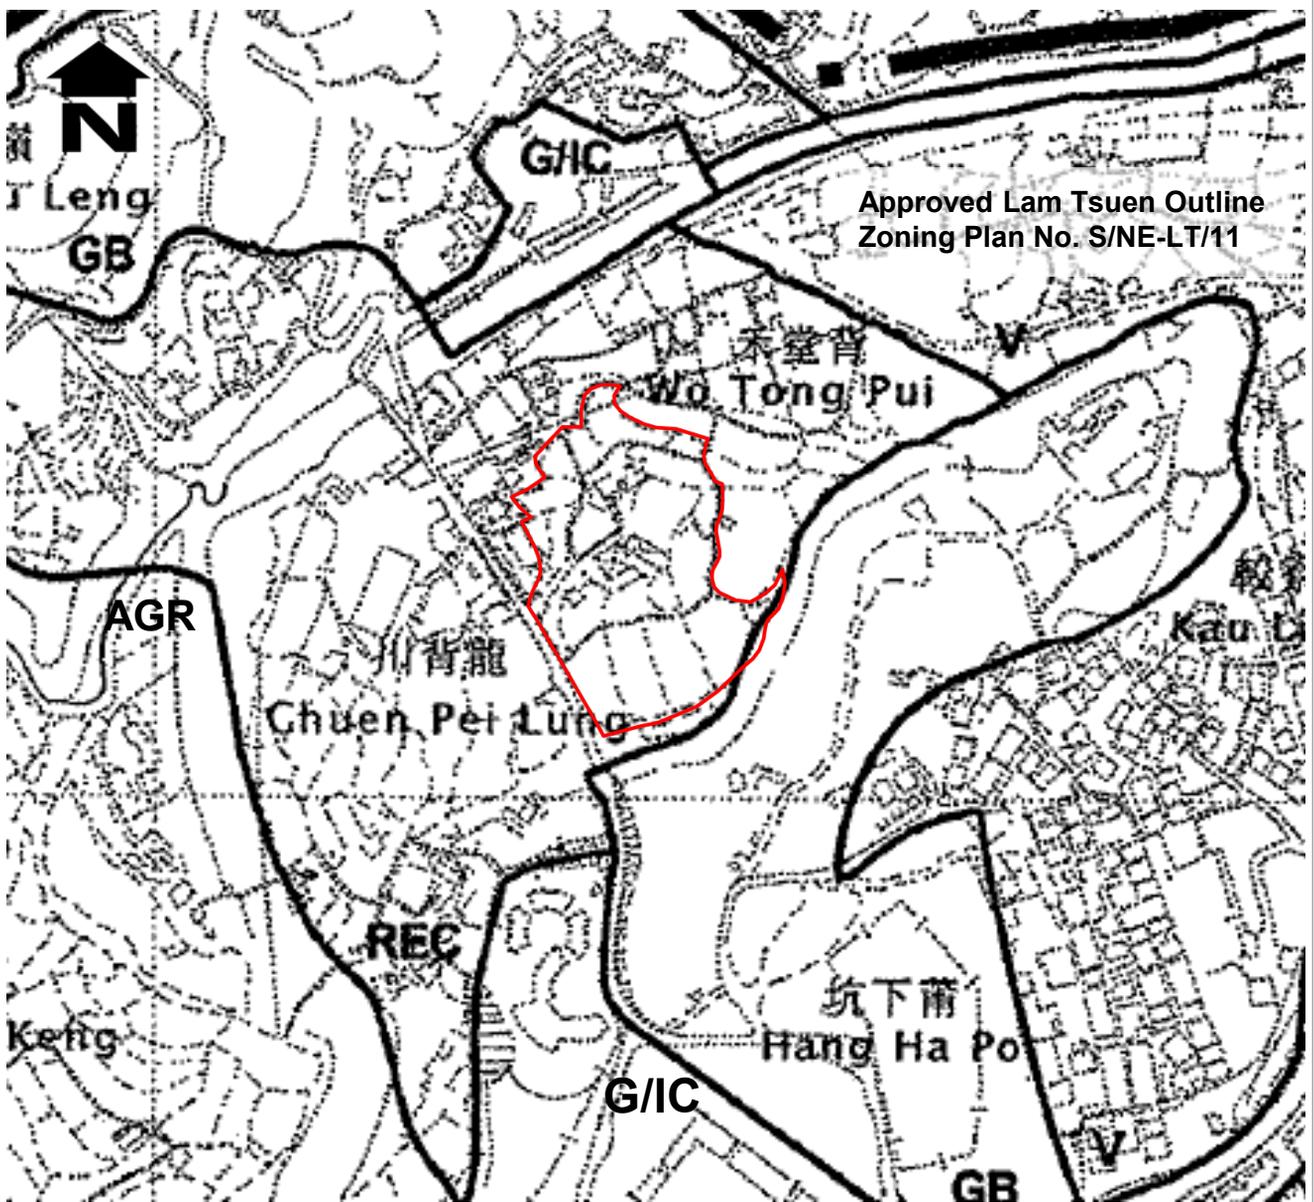

- The land-use zoning and development restrictions for the Application Site have remained unchanged since the original permission was granted.
- There is not yet any programme or known intention for implementing the zoned “REC” use at the Application Site, and the renewal will not pre-empt any planned permanent development.
- There is no change to the scheme under the proposed renewal approved application (No. A/NE-LT/756) in terms of the applied use, development schedule and access arrangement, which has proven to be technically feasible and no adverse planning implications
- All of the planning conditions under previous approval have been complied with to the satisfaction of relevant Government departments within the specified time limits.
- The approval period sought is no longer than the original duration for temporary use/development of 3 years.
- International accreditation and technical assessment have proven that the teaching farm will not cause negative impact on hygiene and health as concerned by the public.

4.1.2 In light of the justifications put forward in this Supporting Planning Statement, we sincerely request the TPB’s favourable consideration in granting approval for this Proposed Renewal of Planning Approval for Temporary Educational Institution (Teaching Farm) for a Period of Three Years.

29 May 2020

Dear Sir/Madam,

**Proposed Temporary Educational Institution (Teaching Farm)
for a Period of 3 Years and Excavation of Land in "Green Belt"
and "Recreation" Zones, Lots 335 S.B (Part), 336 S.A, 336 S.B, 336 S.C,
337 S.B, 338, 339, 340, 341, 345 S.A and 346 in D.D. 16, Wo Tong Pui, Tai Po**

I refer to my letter to you dated 12.5.2020.

After giving consideration to the application, the Town Planning Board (TPB) approved the application for permission under section 16 of the Town Planning Ordinance on the terms of the application as submitted to the TPB. The permission shall be valid on a temporary basis for a period of 3 years until 15.5.2023 and is subject to the following conditions :

- (a) the proposed development shall not cause any water pollution to the water gathering ground at any time during the planning approval period;
- (b) no cattle occupation on the Site is allowed prior to the compliance of approval conditions (e) and (g);
- (c) the maintenance of the existing trees on the Site at all times during the planning approval period;
- (d) the submission of a revised Environmental Assessment Report within 6 months from the date of planning approval to the satisfaction of the Director of Environmental Protection and the Director of Water Supplies or of the TPB by 15.11.2020;
- (e) in relation to (d) above, the implementation of the mitigation and preventive measures identified therein within 9 months from the date of planning approval to the satisfaction of the Director of Environmental Protection and the Director of Water Supplies or of the TPB by 15.2.2021;

- (f) the submission of water monitoring programme within 6 months from the date of planning approval to the satisfaction of the Director of Water Supplies or of the TPB by 15.11.2020;
- (g) in relation to (f) above, the implementation of water monitoring programme within 9 months from the date of planning approval to the satisfaction of the Director of Water Supplies or of the TPB by 15.2.2021;
- (h) the submission of a drainage proposal within 6 months from the date of planning approval to the satisfaction of the Director of Drainage Services or of the TPB by 15.11.2020;
- (i) in relation to (h) above, the implementation of the drainage proposal within 9 months from the date of planning approval to the satisfaction of the Director of Drainage Services or of the TPB by 15.2.2021;
- (j) the submission of a fire service installations (FSIs) and water supplies for firefighting proposal within 6 months from the date of planning approval to the satisfaction of the Director of Fire Services or of the TPB by 15.11.2020;
- (k) in relation to (j) above, the implementation of the FSIs and water supplies for firefighting proposal within 9 months from the date of planning approval to the satisfaction of the Director of Fire Services or of the TPB by 15.2.2021;
- (l) if the above planning conditions (a), (b) or (c) is not complied with during the planning approval period, the approval hereby given shall cease to have effect and shall be revoked immediately without further notice; and
- (m) if any of the above planning conditions (d), (e), (f), (g), (h), (i), (j) or (k) is not complied with by the specified date, the approval hereby given shall cease to have effect and shall on the same date be revoked without further notice.

The TPB also agreed to advise you to note the advisory clauses as set out at Appendix III of the TPB Paper.

You are reminded to **strictly** adhere to the time limit for complying with the above planning conditions. If any of the above planning conditions are not complied with by the specified time limit, the permission given shall be revoked without further notice and the development will be subject to enforcement action. If you wish to apply for extension of time for compliance with planning conditions, you should submit a section 16A application to the TPB no less than six weeks before the expiry of the specified time limit. This is to allow sufficient time for processing of the application in consultation with the concerned departments. The TPB will not consider any application for extension of time if the time limit specified in the permission has already expired at the time of consideration by the TPB. For details, please refer to the TPB Guidelines No. 34C and 36B. The Guidelines, application form (Form No. S16A) and the Guidance Notes for applications are available at the TPB's website (www.info.gov.hk/tpb/), the Planning Enquiry Counters of the Planning Department (Hotline : 2231 5000) at 17/F, North Point Government Offices, 333 Java Road, North Point; 14/F, Sha Tin Government Offices, 1 Sheung Wo Che Road, Sha Tin; and the Secretariat of the TPB at 15/F, North Point Government Offices.

This temporary permission will lapse on 16.5.2023. You may submit an application to the TPB for renewal of the temporary permission no less than two months before its expiry by completing an application form (Form No. S16-III). For details, please refer to TPB Guidelines No. 34C. However, the TPB is under no obligation to renew the temporary permission.

For amendments to the approved scheme that may be permitted with or without application under section 16A, please refer to TPB Guidelines No. 36B for details.

A copy of the TPB Paper in respect of the application (except the supplementary planning statement/technical report(s), if any) and the relevant extract of minutes of the TPB meeting held on 15.5.2020 are enclosed herewith for your reference.

Under section 17(1) of the Town Planning Ordinance, an applicant aggrieved by a decision of the TPB may apply to the TPB for a review of the decision. If you wish to seek a review, you should inform me within 21 days from the date of this letter (on or before 19.6.2020). I will then contact you to arrange a hearing before the TPB which you and/or your authorized representative will be invited to attend. The TPB is required to consider a review application within three months of receipt of the application for review. Please note that any review application will be published for three weeks for public comments.

This permission by the TPB under section 16 of the Town Planning Ordinance should not be taken to indicate that any other government approval which may be needed in connection with the development, will be given. You should approach the appropriate government departments on any such matter.

If you have any queries regarding this planning permission, please contact Ms. Kathy Chan of Sha Tin, Tai Po & North District Planning Office at 2158 6242. In case you wish to consult the relevant Government departments on matters relating to the above approval conditions, a list of the concerned Government officers is attached herewith for your reference.

Yours faithfully,

(Raymond KAN)
for Secretary, Town Planning Board

19 May 2023

City University of Hong Kong

(Attn.: Katherina Siu)

Dear Sir/Madam,

**Renewal of Planning Approval for Temporary Educational
Institution (Teaching Farm) for a Period of 3 Years until 15.5.2026
in "Recreation" Zone, Lots 335 S.B (Part), 336 S.A, 336 S.B, 336 S.C,
337 S.B, 338, 339, 340, 341, 345 S.A and 346 in D.D. 16, Wo Tong Pui, Tai Po**

I refer to my letter to you dated 25.4.2023.

After giving consideration to the application, the Town Planning Board (TPB) approved the application for permission under section 16 of the Town Planning Ordinance on the terms of the application as submitted to the TPB. The permission shall be valid on a temporary basis for a period of 3 years and be renewed from 16.5.2023 until 15.5.2026 and is subject to the following conditions :

- (a) the development shall not cause any water pollution to the water gathering ground at any time during the planning approval period;
- (b) the environmental mitigation and preventive measures implemented and established on the site under application No. A/NE-LT/662 shall be maintained at all times during the planning approval period;
- (c) the water monitoring programme implemented and established on the site under application No. A/NE-LT/662 shall be maintained at all times during the planning approval period;
- (d) the submission of a condition record of the existing drainage facilities implemented on the site within 6 months from the date of commencement of the renewed planning approval to the satisfaction of the Director of Drainage Services or of the TPB by should be 16.11.2023;
- (e) in relation to (d) above, the existing drainage facilities implemented on the site shall be maintained at all times during the planning approval period;
- (f) the existing fire services installations implemented on the site shall be maintained in efficient working order at all times;

- (g) if any of the above planning condition (a), (b), (c), (e) or (f) is not complied with during the planning approval period, the approval hereby given shall cease to have effect and shall be revoked immediately without further notice; and
- (h) if the above planning condition (d) is not complied with by the specified date, the approval hereby given shall cease to have effect and shall on the same date be revoked without further notice.

The TPB also agreed to advise you to note the advisory clauses as set out at Appendix V of the TPB Paper.

You are reminded to **strictly** adhere to the time limit for complying with the above planning conditions. If any of the above planning conditions are not complied with by the specified time limit, the permission given shall be revoked without further notice and the development will be subject to enforcement action. If you wish to apply for extension of time for compliance with planning conditions, you should submit a section 16A application to the TPB no less than six weeks before the expiry of the specified time limit. This is to allow sufficient time for processing of the application in consultation with the concerned departments. The TPB will not consider any application for extension of time if the time limit specified in the permission has already expired at the time of consideration by the TPB. For details, including the total time period for compliance that might be granted, please refer to the TPB Guidelines No. 34D and 36B. The Guidelines, application form (Form No. S16A) and the Guidance Notes for applications are available at the TPB's website (www.info.gov.hk/tpb/), the Planning Enquiry Counters of the Planning Department (Hotline : 2231 5000) at 17/F, North Point Government Offices, 333 Java Road, North Point; 14/F, Sha Tin Government Offices, 1 Sheung Wo Che Road, Sha Tin; and the Secretariat of the TPB at 15/F, North Point Government Offices.

This temporary permission will lapse on 16.5.2026. You may submit an application to the TPB for renewal of the temporary permission no less than two months and normally no more than four months before its expiry by completing an application form (Form No. S16-III). Application submitted more than four months before expiry of the temporary approval may only be considered based on the individual merits and exceptional circumstances of each case. For details, please refer to TPB Guidelines No. 34D. However, the TPB is under no obligation to renew the temporary permission.

For amendments to the approved development that may be permitted with or without application under section 16A, please refer to TPB Guidelines No. 36B for details.

The TPB Paper in respect of the application (except the supplementary planning statement/technical report(s), if any) is available at this link (https://www.info.gov.hk/tpb/en/meetings/RNTPC/Agenda/718_rnt_agenda.html) and the relevant extract of minutes of the TPB meeting held on 5.5.2023 is enclosed herewith for your reference.

Under section 17(1) of the Town Planning Ordinance, an applicant aggrieved by a decision of the TPB may apply to the TPB for a review of the decision. If you wish to seek a review, you should inform me within 21 days from the date of this letter (on or before 9.6.2023). I will then contact you to arrange a hearing before the TPB which you and/or your authorized representative will be invited to attend. The TPB is required to consider a review application

within three months of receipt of the application for review. Please note that any review application will be published for three weeks for public comments.

This permission by the TPB under section 16 of the Town Planning Ordinance should not be taken to indicate that any other government approval which may be needed in connection with the development, will be given. You should approach the appropriate government departments on any such matter.

If you have any queries regarding this planning permission, please contact Mr. Kevin Lau of Sha Tin, Tai Po & North District Planning Office at 2158 6242. In case you wish to consult the relevant Government departments on matters relating to the above approval conditions, a list of the concerned Government officer is attached herewith for your reference.

Yours faithfully,

(Leticia LEUNG)

**Compliance with Approval Condition (d)
Renewal of Planning Approval for Temporary Educational Institution (Teaching Farm) for a
Period of 3 years in "Recreation" and "Green Belt" zone,
Lots 335 S.B (Part), 336 S.A, 336 S.B, 336 S.C, 337 S.B, 338, 339, 340, 341, 345 S.A and 346
in D.D. 16, Wo Tong Pui, Tai Po, New Territories
(Section 16 application No. A/NE-LT/756)**

I refer to your submission received by this office on 5.1.2024 for compliance with approval condition (d) on the submission of a condition record of the existing drainage facilities implemented on the site under the captioned application.

Chief Engineer/Mainland North of Drainage Services Department (CE/MN, DSD) has been consulted and has no comment on the record photos of the existing drainage facilities. In this regard, I am pleased to inform you that approval condition (d) as stated in the latest approval letter (Ref. TPB/A/NE-LT/756-1) (EOT) dated 8.11.2023 has been complied with. Please be reminded to maintain the drainage facilities in good condition without causing adverse drainage impact to the adjacent area at all times.

Should you have any other queries, please contact Mr. Benson LAU (Tel: 2158 6225) of this office.

Yours faithfully,

(Margaret CHAN)
for Director of Planning

Appendix E

Compliance Status to Approval Conditions of Application No. A/NE-LT/756 and Photo records of relevant measures being implemented

1. Summary of Approval Conditions of Application No. A/NE-LT/756

	Approval Conditions	Records of Mitigation and Preventive Measures (At Operation Phase)
(a)	the development shall not cause any water pollution to the water gathering ground at any time during the planning approval period;	<p>Please be advised that stormwater is currently discharged to temporary storage tanks and trucked away. No stormwater will enter the water gathering ground and hence no water pollution will be caused at any time during the planning approval period.</p> <p>Please refer to Section 2 of the Appendix for the details.</p>
(b)	the environmental mitigation and preventive measures implemented and established on the site under application No. A/NE-LT/662 shall be maintained at all times during the planning approval period;	Please refer to Section 3 of the Appendix for the details.
(c)	the water monitoring programme implemented and established on the site under application No. A/NE-LT/662 shall be maintained at all times during the planning approval period;	<p>Given that no stormwater will be discharged to Lam Tsuen River, the monitoring test is no longer required.</p> <p>Please refer to Section 2 of the Appendix for the details.</p>
(d)	the submission of a condition record of the existing drainage facilities implemented on the site within 6 months from the date of commencement of the renewed planning approval to the satisfaction of the Director of Drainage Services or of the TPB by should be 16.11.2023;	A condition record of the existing drainage facilities implemented on the site has been submitted on 1.5.2024 and the approval condition has been compiled with on 6.2.2024.
(e)	in relation to (d) above, the existing drainage facilities implemented on the site shall be maintained at all times during the planning approval period;	<p>Please be advised that stormwater is currently discharged to temporary storage tank and trucked away. No wastewater will enter the water gathering ground and hence no water pollution will be caused at any time during the planning approval period.</p> <p>Please refer to Section 2 of the Appendix for the details.</p>

(f)	the existing fire services installations implemented on the site shall be maintained in efficient working order at all times;	Please refer to Section 5 of the Appendix for the details.
(g)	if any of the above planning condition (a), (b), (c), (e) or (f) is not complied with during the planning approval period, the approval hereby given shall cease to have effect and shall be revoked immediately without further notice; and	Not applicable.
(h)	if the above planning condition (d) is not complied with by the specified date, the approval hereby given shall cease to have effect and shall on the same date be revoked without further notice.	Not applicable.

2. Utilization of Temporary Storage Tanker and Vacuum Tanker for Stormwater

01-April-2025 - 30-April-2025	1
01-May-2025 - 31-May-2025	11
01-June-2025 - 30-June-2025	35
01-July-2025 - 31-July-2025	28
01-August-2025 - 31-August-2025	21
01-September-2025 - 30-September-2025	30
01-October-2025 - 31-October-2025	22
01-November-2025 - 30-November-2025	28
01-December-2025 - 31-December-2025	0

For the record of service work completion chit and trip-ticket for trucking out the stormwater (in the example month November 2025), please refer to **Appendix 2.1**.

3. Records of Environmental Mitigation and Preventative Measures Implemented and Established on the Site in compliance with Approval Conditions (b)

Implementation Measures at Operation Phase for Water Quality Impacts

Reference to EA	Environmental Protection Measure / Mitigation Measures / Recommendation	Implementation Status	Records and justifications to be submitted
<u>A. Other Additional Measures</u>			
<i>Section 2.8.19</i>	1. Sand bags shall be ready to deploy in case flooding is observed on-site;	Sand bags are prepared for the farm.	Photo record – Figure 3.1 refers to
	2. Check and monitor the integrity of the storm water drainage system as per design and maintenance manual;	Regular inspection, checking and monitoring will be carried out during operation phase, and the items are listed in the Operation and Maintenance Manual.	Please be advised that stormwater is currently discharged to temporary storage tanks and trucked away. Please refer to Section 2 for the details.
	3. Daily checking the operation of the roller shutters fitted to both the young stock barn and adult barns;		Photo record and daily inspection defect log of storm roller shutters – Figure 3.2a-b refers to
	4. Weekly checking of the condition of dykes or embankments during wet season;		Photo record and weekly inspection defect log of dykes and embankments – Figure 3.3a-b refers to
	5. Inspecting the domestic sewage holding tank and wastewater holding tank capacity after a rainstorm and arrange tanker away the sewage, if necessary;		Please be advised that all domestic liquid disposal is currently temporary stored at holding tanks and collected by licensed waste collectors for disposal off-site.
			Photo record of

			<p>trucking away the wastewater of underground sewerage tank (human waste) – Figure 3.4 refers to</p> <p>Please refer to Appendix 3.1 for the suction cleaning service work completion chit (in the example month November 2025).</p>
	6. Weekly maintenance of site drainage system to reduce chance of flooding during wet season;		<p>Please be advised that stormwater is currently discharged to temporary storage tanks and trucked away.</p> <p>Please refer to Section 2 for the details.</p>
	7. Inspecting the site drainage system after a rainstorm and arrange cleaning, if necessary; and		<p>Please be advised that stormwater is currently discharged to temporary storage tanks and trucked away.</p> <p>Please refer to Section 2 for the details.</p>
	8. Avoiding the sewage/wastewater collection during a rainstorm.	Collection will be avoided during rainstorm and it is listed as a precautionary item in the Operation and Maintenance Manual.	Written confirmation from CityUHK Farm Manager and waste collection contractors – Figure 3.5 refers to
	9. Emergency spare pump will be provided on-site to handle emergency conditions.	Emergency spare pump is prepared for the farm.	Photos records – Figure 3.6 refers to

<u>B. Water Monitoring Programme</u>			
<i>Section 2.9.3</i>	<ul style="list-style-type: none"> • Arrange two (2) monitoring tests per month in accordance to the approved Water Monitoring Programme (Appendix A). The interval between two sets of monitoring test shall not be less than 36 hours. The exact date within any month for the test shall be depend on actual rainfall which should be sufficient for storm water pumping plant and treatment plant operation. If there is no rainy day enabling the storm water pumping plant in operation in any particular month, no storm water will be discharged to Lam Tsuen River and the monitoring test shall be skipped for that month. 	Please be advised that stormwater is currently discharged to temporary storage tank and trucked away. Given that no stormwater will be discharged to Lam Tsuen River, the monitoring test is no longer required.	Please refer to Section 2 for the details.

Implementation Measures at Operation Phase for Waste Management and Land Contamination

Reference to EA	Environmental Protection Measure / Mitigation Measures / Recommendation	Implementation Status	Records and justifications to be submitted
4.3.10	<p>Manure from the barns shall be collected by the farm management at daily basis and transfer to storage area by leak proof containers with wheels.</p> <p>The leak proof containers with wheels shall be cleaned after use and shall be closed if not in use.</p>	<p>These are listed in the Operation and Maintenance Manual under the Solid Waste Management Section, as precautionary measures and as regular operation, checking and monitoring respectively.</p>	<p>Photo records of procedure and storage of leakproof containers, and sample of monthly collection tickets and purchase order for soiled bedding disposal to land fill (in the example month November 2025) – Figure 3.7a-g refers to</p> <p>For the sample of monthly hook lift services of animal waste for disposal to landfill (in the example month November 2025), please refer to Appendix 3.2</p>
4.3.11	<p>All leak proof containers with wheels will be stored in an enclosed refuse collection storage room and the solid animal waste will be collected directly from the storage room by licensed collector and disposed to landfill as special waste in daily basis.</p> <p>Additional leak proof containers with wheels will be stored on-site if the waste collection service suspended due to adverse weather, buffer storage capacity can be referred in Appendix 2.2.</p>		
4.3.13	<p>Good housekeeping practices shall be adopted for the proposed RO unit to further reduce any waste impact as follows:</p> <p>Screens should be cleaned regularly to remove any debris</p> <p>Sludge and solid waste generated from the RO unit shall be transferred to leak proof containers with wheels</p> <p>Leak proof containers with</p>		<p>Sample monthly maintenance reports, repair log, example of purchase order for maintenance services and the latest purchase order for maintenance services – Figure 3.8a-d refers to</p> <p>For the contractor references, please refer to Appendix 3.3.</p>

	wheels shall closed when it is not in use Proper maintenance shall be provided for the RO unit		For the maintenance record in 2023, please refer to Appendix 3.4.

DEFECT LOG**

Date	Reported by	Location of defect	Description of defect	Action Taken
	Dr Eryl T DONE (to Campus Development Office (CDO))	Slope outside boundary fence behind blocks 1 and 13.	Water flowing off the external slope outside the boundary into CityUHK Farm.	<p>Construction of dwarf wall – CDO person in charge: Elvis Chan. Work Notification submitted 18/06/2025. Construction of dwarf wall to stop water flowing from the bank into CityUHK Farm commenced in July 2025 was completed on 04/09/2025.</p> 
15/01/2026	<p>Follow up on initial report above</p> <p>CDO reported to Drainage Services Department (DSD) and DSD conducted an inspection</p>	Boundary fence behind block 1 & 13. The slope drain is outside the boundary fence of the farm.	<p>The remains of the slope drain was found in the vegetation behind block 1</p>  <p>The slope drain was identified above site A where it is still functioning The end of the pipe where the slope drain passes under the road was identified In all these locations the slope drain is outside the boundary fence of the farm</p>	<p>During their inspection, DSD advised that they are not responsible for this slope and that they believe the matter should fall under the responsibility of the Lands Department. They advised that they would write to Lands D making the following three recommendations:</p> <p>The Lands Department should:</p>

			<p>The slope drain on Government Land is not functional due to a lack of maintenance and slope collapse</p> <p>DSD also identified new evidence of <u>recent slope collapse</u> adjacent to the CityUHK Farm perimeter fence as pictured below.</p> 	<ol style="list-style-type: none"> 1. Clear the vegetation 2. Stabilise the slope 3. Repair or re-construct the slope drain <p>DSD recommended that after the above remedial works CityUHK should voluntarily maintain the slope drain even though it is outside the farm boundary, as government referrals and processing may take up to half a year.</p>

For a Greener Tomorrow

Dear Sir/Madam

Confirmation of Suspension of Waste Collection During Rainstorm Warnings

We, Baguio Waste Management & Recycling Limited, hereby confirm that our company will suspend all collection, transport, and handling of unwanted waste at CityUHK Farm located at 28 Ngau Kwu Leng Path, Lam Tsuen, Tai Po during periods when the Hong Kong Observatory issues any of the following warnings:

- Amber Rainstorm Warning
- Red Rainstorm Warning
- Black Rainstorm Warning

Service will resume once the rainstorm warning is cancelled and conditions are deemed safe and operationally feasible. Our team will continue to work closely with CityUHK Farm to maintain safe and compliant waste management operations.

Should you require any further information, please contact us at [REDACTED]

Thank you for your attention.

Your faithfully

Ricky Ho

Assistant Logistics Manager

WORLD ENVIRONMENTAL SERVICES LTD.

Our ref : 4223/2/26

Date : 9 Feb 2026

Dear Sir/Madam

Confirmation of Suspension of Unwanted Waste Collection During Rainstorm Warnings

We, World Environmental Services Limited, hereby confirm that under adverse weather conditions, including Amber, Red, and Black Rainstorm Warnings issued by the Hong Kong Observatory, our company will not carry out any collection, transportation, or handling of solid manure or treated wastewater at CityUHK Farm, 28 Ngau Kwu Leng Path, Lam Tsuen, Tai Po, NT.

Once the rainstorm warning is lowered or cancelled, our services will resume as soon as it is safe and operationally feasible to do so. We will continue to coordinate with CityUHK Farm to ensure that all wastewater management activities are carried out in a safe, compliant, and environmentally responsible manner.

Should you require any further information or clarification, please feel free to contact us at [REDACTED]

Thank you for your attention.

Your faithfully

A circular purple stamp of World Environmental Services Ltd. is placed over a handwritten signature in blue ink. The stamp contains the company name and the word "WORLD" in the center.

Stephen Yip

Manager

Figure 3.6 - Photos records – Emergency spare pumps are provided on-site to handle emergency conditions

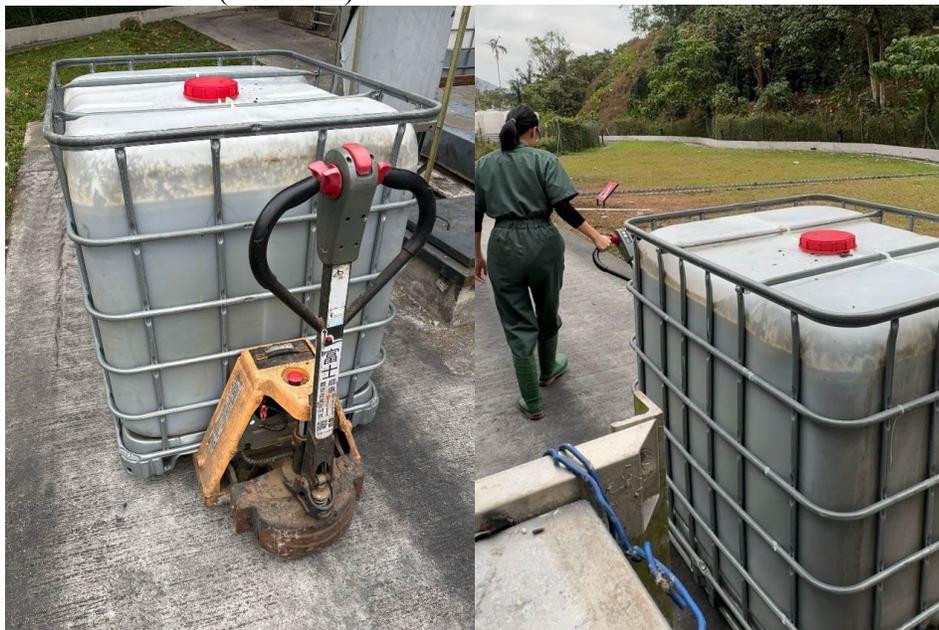

Figure 3.7a Photos records –

- Solid manure from the barns is collected by the farm staff and transferred to storage area in leak proof containers with wheels.
- The leak proof containers with wheels are cleaned after use and are closed if not in use.

1. Used absorbent sawdust bedding (containing cattle urine and faeces) being loaded into lined 660 litre wheeled green bins with skid steer loader.

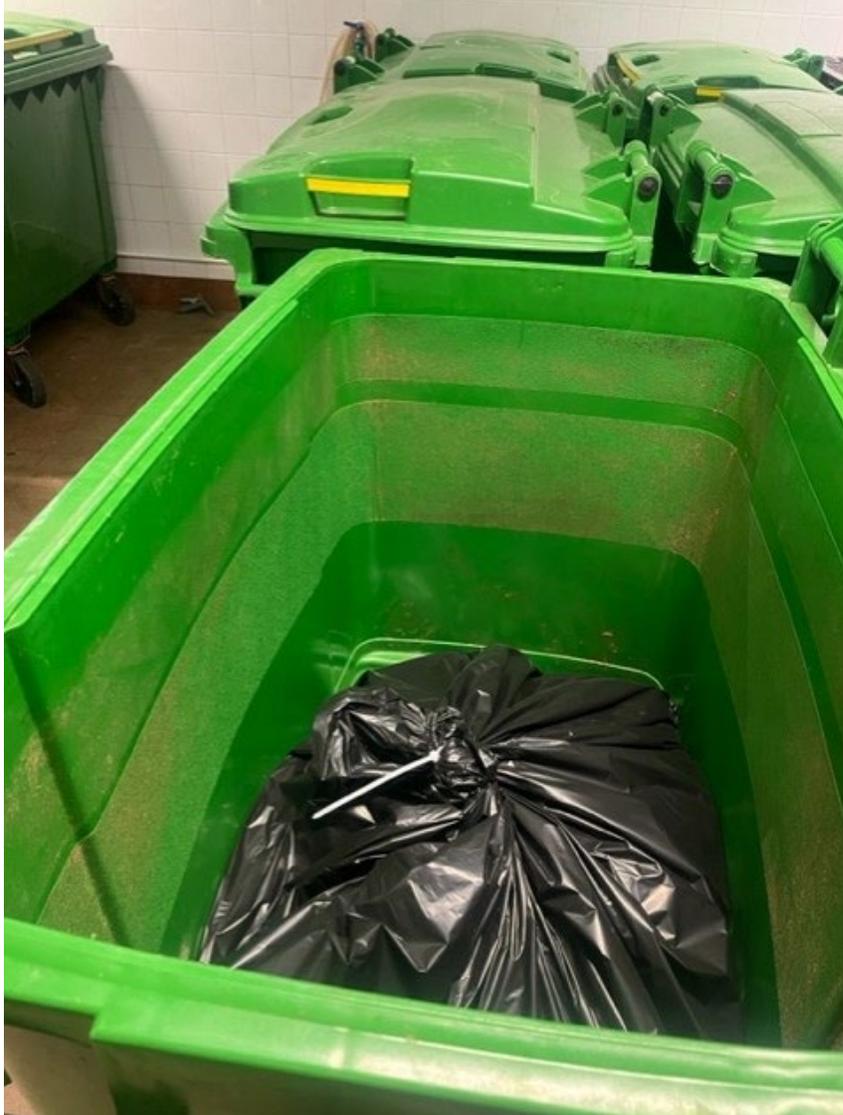

2. Filled leakproof intermediate bulk containers being transferred with wheeled pallet handler to manure store (Block 12)

3. Filled and empty sealed containers, with lids closed, stored in Block 12 awaiting collection.

4. Inside filled green bin (lid opened to view) stored in Block 12 awaiting collection.

5. Used green bin in Block 12.

6. Green bins being washed, swept and rinsed clean. This takes place in Block 12 where washings drain direct into wastewater tank by independent drain for treatment.

Figure 3.7b Photo records –

- Leak proof containers on site and the operation sequences of animal waste collection and disposal (solid and treated wastewater)

1 Baguio compactor lorry emptying wheeled leak proof containers of solid waste into compactor lorry

Figure 3.7c Photo records -

- **Sequences of animal waste collection and disposal (Treated Wastewater)**

1. Arrival of Suction Tanker Lorry. It is parked as close as possible to the outlet on the side of Block

2.

The pipe is attached to the truck and the outlet (valve is closed.)
Note the plastic-lined bucket and disposable plastic sheet on the floor to catch any possible spillage before, during, and after pumping.

3.

The pipe is connected to the suction lorry and is ready to pump. To pump out wastewater, the panel above the outlet is utilized to control the pump.

4.

Waste water level within the suction tank is noted before and after pumping.

5.

After pumping is completed, the panel is utilised once again to stop the pump. A valve was added on 3 July, 2024, to prevent leakage of wastewater after pipe disconnection. After the pipe is removed and put away by the operator of suction lorry, the disposable plastic sheet and plastic bucket liner are disposed of into leakproof wheeled containers.

Figure 3.7d Photo records –

- All leak proof containers with wheels will be stored in an enclosed refuse collection storage room
- Additional leak proof containers with wheels will be stored on-site if the waste collection service suspended due to adverse weather, buffer storage capacity can be referred in Appendix 2.2 (of the EA).

<p>1.</p>	<p>Wheeled leak proof green bins stored in Block 12 (store room) – both filled and empty.</p>

Provision of Unwanted Materials Collection and Disposal Service

Thank you for your enquiry of the captioned service and we would like to provide our offer for your kind consideration as follows:

Service Location: CityU Farm, 28 Ngau Kwu Leng Path, Lam Tsuen, Tai Po, N.T.

Service Date: To be confirmed

Service Description:

1. Provision of appropriate manpower, collecting materials and tools;
2. Collection and disposal of the unwanted materials to government's landfill or EPD's designated disposal sites;
3. Provision of disposal certificate;
4. Description of unwanted materials to be collected, refers to the Annex 1.

Service Charge: HK\$2,500.00 per job for handling above-mentioned service.

Terms & Conditions of Service:

1. No service is required for Sundays and Public Holidays;
2. This service is for general unwanted materials collection only and all EPD restricted waste are not accepted. Should you hope to dispose other type of waste such as construction waste, clinical waste, chemical waste, we could provide you a detailed service charge;
3. Baguio is responsible for Employees' Compensation and Public Liability insurances at the time of the works (both of which are excluded from work carried out within construction sites);
4. The service charge includes all collecting materials, tools, toll rates of road tunnels and bridges;
5. The service charge does not include any waste disposal fee, and the fee will be borne by / reimbursed from / recharged to client.

Maintenance Service Monthly Report For City U Cow Farm STP

Dear Dr. Eryl Done / Ms. Sandy Lam,

With respect to our maintenance service on November 2024 for City U Cow Farm sewage treatment plant, we submit the maintenance service monthly report for your reference.

ATTENDANCE

Four visits for the month of November 2024.
4th, 11th, 18th and 25th.

Emergency Call Service day : Nil

SYSTEM IN GENERAL

1. Check the plant room clean and tidy.
2. Check the submersible pumps of influent tank.
3. Check the condition of disk filter.
4. Check the condition of polymer dosing system.
5. Check the condition of PAC coagulant dosing system.
6. Check the condition of softener.
7. Check the condition of ceramic membrane and filter dosing.
8. Check the condition of reverse osmosis filter.
9. Check the condition of chlorine generation.
10. Check the condition of transfer pump and dosing pump.
11. Check all the gate valves and check valves in free operation.
12. Check the control level of all tanks.
13. Check if there is enough chemical in the chemical tank.
14. Check the oil level of major equipment.

INSPECTION RESULTS AND SUGGESTIONS

1. Level sensor 106 and 206 had no signal, the manufacturer arranges to modify the control circuit.
2. Salt dosing pump 321 and 421. The switch position is not displayed on the control panel of the touch screen, the manufacturer arranges to modify the control circuit.
3. Conducting testing for wastewater system zone one.
4. Frequency converter is the fault of slurry pump 300V, need to replace.
5. Rainwater leaks from zone one outdoor control panel, need to install cover.
6. Flowmeter 224 is fault of ceramic membrane for zone 2.
7. The two sets stainless steel pipes were damaged and leaked from zone 3 307V and 407V pump to zone 5 mixer tank 308V and 408V of system one and two, need to replace.
8. The SDS tank has been cleaned.
9. Refill the polymer to powder feeder.
10. Clean the acid chemical storage tank and re-condition the new acid chemical solution.

Yours faithfully,
ON LEE ENGINEERING CO.

- 注意:
- I. 此紀錄表只適用於非政府設施及非公用事業設施收集之住宅流質廢物, 未獲特許批准下排放由政府設施及公用事業收集的住宅流質廢物即屬違反排放許可條款第一條和表現評估項目第 1C 項。
 - II. 本署廠房只准排放住宅流質廢物(例如住宅或化糞池的流質廢物等), 任何非住宅流質廢物(如含有工業廢料、油脂或碳氫化合物等成份)一律不准排放到本署廠房, 排放非住宅流質廢物到本署廠房即屬違反排放許可條款第二條和表現評估項目第 2A 及 2B 項。
 - III. 必須如實無誤地填寫此紀錄表的所有項目, 沒有準確填寫此紀錄表的每一項資料或提供虛假的資料屬違反排放許可條款第十三條和表現評估項目第 13A 項。
 - IV. 如只有一個收集廢物的來源設施, 請不用填寫設施 2, 如有三個或以上收集廢物的來源設施, 請附加紙張。

- Note:
- I. This trip ticket shall be used only for domestic liquid waste (DLW) collected from non-government facilities and non-public utility facilities. Disposal of DLW collected from government or public utility facilities without a designated disposal approval is an offence of Permission Clause (1) and Performance Assessment Item 1C.
 - II. Only domestic liquid waste (e.g. domestic or septic tank liquid waste, etc) are allowed to discharge at our plants. Any waste containing non-DLW substance (e.g. industrial waste or liquid waste containing oil and grease, hydrocarbon, etc) are not allowed to be disposed at our plants. Discharging non-DLW to our plant is an offence of Permission Clause (2) and Performance Assessment Points 2A & 2B.
 - III. All items of this trip ticket shall be completed truthfully and accurately. Not completing this trip ticket accurately or provide false information is an offence of Permission Clause (13) and Performance Assessment Item 13A.
 - IV. Please do not fill-in Facility 2 if there is only one waste collection facility. Please use additional paper if there are three or more waste collection facilities.

- 注意:
- I. 此紀錄表只適用於非政府設施及非公用事業設施收集之住宅流質廢物, 未獲特許批准下排放由政府設施及公用事業收集的住宅流質廢物即屬違反排放許可條款第一條和表現評估項目第 1C 項。
 - II. 本署廠房只准排放住宅流質廢物(例如住宅或化糞池的流質廢物等), 任何非住宅流質廢物(如含有工業廢料、油脂或碳氫化合物等成份)一律不准排放到本署廠房, 排放非住宅流質廢物到本署廠房即屬違反排放許可條款第二條和表現評估項目第 2A 及 2B 項。
 - III. 必須如實無誤地填寫此紀錄表的所有項目, 沒有準確填寫此紀錄表的每一項資料或提供虛假的資料屬違反排放許可條款第十三條和表現評估項目第 13A 項。
 - IV. 如只有一個收集廢物的來源設施, 請不用填寫設施 2, 如有三個或以上收集廢物的來源設施, 請附加紙張。

- Note:
- I. This trip ticket shall be used only for domestic liquid waste (DLW) collected from non-government facilities and non-public utility facilities. Disposal of DLW collected from government or public utility facilities without a designated disposal approval is an offence of Permission Clause (1) and Performance Assessment Item 1C.
 - II. Only domestic liquid waste (e.g. domestic or septic tank liquid waste, etc) are allowed to discharge at our plants. Any waste containing non-DLW substance (e.g. industrial waste or liquid waste containing oil and grease, hydrocarbon, etc) are not allowed to be disposed at our plants. Discharging non-DLW to our plant is an offence of Permission Clause (2) and Performance Assessment Points 2A & 2B.
 - III. All items of this trip ticket shall be completed truthfully and accurately. Not completing this trip ticket accurately or provide false information is an offence of Permission Clause (13) and Performance Assessment Item 13A.
 - IV. Please do not fill-in Facility 2 if there is only one waste collection facility. Please use additional paper if there are three or more waste collection facilities.

- 注意:
- I. 此紀錄表只適用於非政府設施及非公用事業設施收集之住宅流質廢物, 未獲特許批准下排放由政府設施及公用事業收集的住宅流質廢物即屬違反排放許可條款第一條和表現評估項目第 1C 項。
 - II. 本署廠房只准排放住宅流質廢物(例如住宅或化糞池的流質廢物等), 任何非住宅流質廢物(如含有工業廢料、油脂或碳氫化合物等成份)一律不准排放到本署廠房。排放非住宅流質廢物到本署廠房即屬違反排放許可條款第二條和表現評估項目第 2A 及 2B 項。
 - III. 必須如實無誤地填寫此紀錄表的所有項目, 沒有準確填寫此紀錄表的每一項資料或提供虛假的資料屬違反排放許可條款第十三條和表現評估項目第 13A 項。
 - IV. 如只有一個收集廢物的來源設施, 請不用填寫設施 2。如有三個或以上收集廢物的來源設施, 請附加紙張。

- Note:
- I. This trip ticket shall be used only for domestic liquid waste (DLW) collected from non-government facilities and non-public utility facilities. Disposal of DLW collected from government or public utility facilities without a designated disposal approval is an offence of Permission Clause (1) and Performance Assessment Item 1C.
 - II. Only domestic liquid waste (e.g. domestic or septic tank liquid waste, etc) are allowed to discharge at our plants. Any waste containing non-DLW substance (e.g. industrial waste or liquid waste containing oil and grease, hydrocarbon, etc) are not allowed to be disposed at our plants. Discharging non-DLW to our plant is an offence of Permission Clause (2) and Performance Assessment Points 2A & 2B.
 - III. All items of this trip ticket shall be completed truthfully and accurately. Not completing this trip ticket accurately or provide false information is an offence of Permission Clause (13) and Performance Assessment Item 13A.
 - IV. Please do not fill-in Facility 2 if there is only one waste collection facility. Please use additional paper if there are three or more waste collection facilities.

 - II. 本署廠房只准排放住宅流質廢物(例如住宅或化糞池的流質廢物等), 任何非住宅流質廢物(如含有工業廢料、油脂或碳氫化合物等成份)一律不准排放到本署廠房。排放非住宅流質廢物到本署廠房即屬違反排放許可條款第二條和表現評估項目第 2A 及 2B 項。
 - III. 必須如實無誤地填寫此紀錄表的所有項目, 沒有準確填妥此紀錄表的每一項資料或提供虛假的資料屬違反排放許可條款第十三條和表現評估項目第 13A 項。
 - IV. 如只有一個收集廢物的來源設施, 請不用填寫設施 2。如有三個或以上收集廢物的來源設施, 請附加紙張。

- Note:
- I. This trip ticket shall be used only for domestic liquid waste (DLW) collected from non-government facilities and non-public utility facilities. Disposal of DLW collected from government or public utility facilities without a designated disposal approval is an offence of Permission Clause (1) and Performance Assessment Item 1C.
 - II. Only domestic liquid waste (e.g. domestic or septic tank liquid waste, etc) are allowed to discharge at our plants. Any waste containing non-DLW substance (e.g. industrial waste or liquid waste containing oil and grease, hydrocarbon, etc) are not allowed to be disposed at our plants. Discharging non-DLW to our plant is an offence of Permission Clause (2) and Performance Assessment Points 2A & 2B.
 - III. All items of this trip ticket shall be completed truthfully and accurately. Not completing this trip ticket accurately or provide false information is an offence of Permission Clause (13) and Performance Assessment Item 13A.
 - IV. Please do not fill-in Facility 2 if there is only one waste collection facility. Please use additional paper if there are three or more waste collection facilities.

- 注意: I. 此紀錄表只適用於非政府設施及非公用事業設施收集之住宅流質廢物, 未獲特許批准下排放由政府設施及公用事業收集的住宅流質廢物即屬違反排放許可條款第一條和表現評估項目第 1C 項。
- II. 本署廠房只准排放住宅流質廢物(例如住宅或化糞池的流質廢物等), 任何非住宅流質廢物(如含有工業廢料、油脂或碳氫化合物等成份)一律不准排放到本署廠房。排放非住宅流質廢物到本署廠房即屬違反排放許可條款第二條和表現評估項目第 2A 及 2B 項。
- III. 必須如實無誤地填寫此紀錄表的所有項目。沒有準確填妥此紀錄表的每一項資料或提供虛假的資料屬違反排放許可條款第十三條和表現評估項目第 13A 項。
- IV. 如只有一個收集廢物的來源設施, 請不用填寫設施 2。如有三個或以上收集廢物的來源設施, 請附加紙張。
- Note: I. This trip ticket shall be used only for domestic liquid waste (DLW) collected from non-government facilities and non-public utility facilities. Disposal of DLW collected from government or public utility facilities without a designated disposal approval is an offence of Permission Clause (1) and Performance Assessment Item 1C.
- II. Only domestic liquid waste (e.g. domestic or septic tank liquid waste, etc) are allowed to discharge at our plants. Any waste containing non-DLW substance (e.g. industrial waste or liquid waste containing oil and grease, hydrocarbon, etc) are not allowed to be disposed at our plants. Discharging non-DLW to our plant is an offence of Permission Clause (2) and Performance Assessment Points 2A & 2B.
- III. All items of this trip ticket shall be completed truthfully and accurately. Not completing this trip ticket accurately or provide false information is an offence of Permission Clause (13) and Performance Assessment Item 13A.
- IV. Please do not fill-in Facility 2 if there is only one waste collection facility. Please use additional paper if there are three or more waste collection facilities.

Appendix 3.3

Experience and references list of the contractor for proposed RO unit maintenance services

PARTIAL REFERENCES LIST

1. Ma Wan Sewage Treatment Plant (RBC Process - sewage)
Design, supply & installation of STP
2. Ka Wo Lei Package Sewage Treatment Plant (Activate Sludge Process - sewage)
Design, supply & installation of STP, steel structure
3. Silverview Lodge Sewage Treatment Plant (Moving Bed Biofilm Process - sewage)
Design, build, supply and installation
4. A.S. Watson Water Treatment Plant (Softening - beverage)
Design, supply and install of water treatment equipment
5. Winco Paper Factory (Physical Chemical and Biological Treatment - paper)
Design, supply & installation of STP
6. NENT Landfill Leachate Treatment Plant - leachate
Design, supply & installation of of chemical dosing system
7. Castle Peak Villa (Aeration System)
Design, supply & installation of STP
8. Guangzhou Xiji Port (Dissolved Air Flotation Process - seaport waste)
Supply & installation of ST - China
9. Amway Waste Water Treatment Plant - cosmetic, pharmaceutical
Supply & installation of ST - China
10. Stanley Cavern Municipal Sewage Treatment Plant
Design & supply of aeration equipment
11. San Miguel Poultry Waste Water Treatment Plant (Activated Sludge Process)
Design & supply Of STP - Philippines
12. Shek Kong Military Camp Sewage Treatment Plant (RBC Process - sewage)
Design, supply & installation of STP
13. Naval Base Oily Waste Treatment Plant (Dissolved Air Flotation Process - Navy)
Design, supply & installation of OWTP
14. Wellcome Waste Water Treatment Plant
(Dissolved Air Flotation Process and SBR Process - food processing)
Design, supply & installation of WTP
15. Sinobond Products (Domestic Sewage)
Design, supply & installation of STP – Pan Yu, Guangzhou, China.
16. Water Supplies Department, Tuen Mun Water Treatment Works
Supply and installation of centrifugal pump and ancillary equipment, 100 kW.
Consultant : Montgomery Watson. Main contractor : Chevalier Envirotech Ltd.
17. Chun Wo Construction Ltd. (Physico-chemical process - construction waste water)
Design, supply & installation of system
18. China Pan Yu Leachate Treatment Plant (SBR Process)
Design and supply of SBR system – Pan Yu, Guangdong, China.

PARTIAL REFERENCES LIST

19. Ngau Kok Shan Police Base Sewage Treatment Plant
Architectural Services Department (Activated sludge process)
Design, supply & installation of STP
20. Vitasoy Waste Water Treatment Plant
Supply and installation of sludge dewatering equipment and ancillary equipment.
21. Wong's PCB, Tseung Kwan O' Industrial Estate,
Supply and installation of sludge dewatering system.
22. Drainage Services Department, Shatin Sewage Treatment Works, centrate treatment.,
Supply and installation of chemical dosing system.
23. Drainage Services Department, Shatin Sewage Pumping station,,
Supply and installation of chemical dosing system, calcium nitrate 55%.
24. Drainage Services Department, Ma On Shan Sewage Pumping station,,
Supply and installation of chemical dosing system, calcium nitrate 55%.
25. Water Supplies Department, Shatin Water Treatment Works, sand filters back-washing.
Supply and installation of air blower, status monitor and ancillary equipment (90kW).
26. Drainage Services Department, Shatin Sewage Treatment Works, Stage III Extension
Supply and installation of air blowers and ancillary equipment for mixing channels and grit removal.
27. Drainage Services Department, Cheung Chau Sewage Treatment Works
Supply and installation of air blower and ancillary equipment.
28. Vast Tech Ltd., Tsuen Wan, Electroplating.
Design, supply and installation of water treatment plant.
29. Yakult Hong Kong Ltd., waste water treatment plant.
Design, supply, upgrade & installation of WTP
30. Chinese University Koi Fish Pond MBBR
Design and supply of water treatment system.
31. Drainage Services Department,
Design, supply and installation of three CEPT package sewage treatment plants for Shek Pik Prison,
Mui Wo and Repulse Bay. Daily sewage flow 960 M³ each.
32. Hong Kong Disneyland, Main Contractor : China State Engineering
Infrastructure for Penny Bay Development Contract 1 Alum Drip System
Design and Supply of chemical treatment system.
33. Hong Kong Drainage Services Department, Tai Po Sewage Treatment Works,
Supply and installation of flow and level measuring instruments.
34. Sham Tseng Pumping Station, Drainage Services Department
Supply and install multi-parameter monitors (pH, turbidity, temperature, etc.) and sampling systems.
35. Drainage Services Department, Tai Po STW
Design, Supply and installation the signal system for SHK.
36. Naval Base Waste Water Treatment Plant (Dissolved Air Flotation Process - Navy)
Design, upgrade, supply and installation - Hong Kong.

PARTIAL REFERENCES LIST

37. Drainage Services Department, Ngong Shuen Chau STW
Design & supply of air blower and ancillary equipment.
38. Water Services Department, Tsuen Wan WTP
Design & supply of air blower and ancillary equipment.
39. Drainage Services Department, Shatin STW
Design & supply of air blower and ancillary equipment.
40. Drainage Services Department, Tai Po STW
Design & supply of Bridge Mounted Mixer (24 sets)
41. Chun Wo Construction & Engineering Ltd,
Design, supply & installation of filtration and sludge disposal system
42. Veolia, Wah Nan RTS
Design & supply of air blower and ancillary equipment.
43. Drainage Services Department, Kwai Chung Pump Station
Design & supply of air blower and ancillary equipment.
44. Drainage Services Department, Tai Po STW
Design & supply of Chemical Mixer (10 sets)
45. Drainage Services Department, T Ngong Shuen Chau STW
Design & supply of air blower and ancillary equipment.
46. China Oversea, Naval Base Block 6 & 9
Design, supply & installation of Air-condition cooling system
47. City University of Hong Kong, OTP
Supply & installation of sludge treatment system
48. Cosco Tower, Water Filtration System
Design, supply & installation of water filtration system
49. China Oversea, Naval Base Block 1 & 12
Design, supply & installation of Air-condition cooling system
50. Drainage Services Department, Tai Po STW
Design & supply of SBR System
51. Chun Wo Construction & Engineering Ltd,
Design, supply, upgrade & installation of filtration system.
52. Chun Wo Construction & Engineering Ltd,
Design, supply & installation of water tank.
53. Tai Hing Bean Factory, Waste Water Treatment plant
Supply & installation of equipment for WWTP
54. Drainage Services Department, T Ngong Shuen Chau STW
Design, supply, upgrade and installation of equipment for odor control system

PARTIAL REFERENCES LIST

55. Fairwood Factory Waste Water Treatment Plant, Tai Po Factory
Supply & installation of WWTP
56. Drainage Services Department, Tai Yuen Sewage Pumping Station
Design & supply of chemical dosing pump & accessories for SPS.
57. Chun Wo Construction& Engineering Ltd,
Design, supply, upgrade & installation of dechlorination system.
58. Chun Wo Construction& Engineering Ltd,
Design, supply, upgrade & installation of desludge system.
59. Chun Wo Construction& Engineering Ltd,
Design, supply & installation of Clarifier system.
60. Hop Cheong Bean Factory, Waste Water Treatment plant
Supply & installation of equipment for WWTP
61. Year 2010 China Oversea, Naval Base Block 20
Design, supply & installation of Air-condition cooling system
62. Year 2010 Drainage Services Department, T Ngong Shuen Chau STW
Design, supply and installation of equipment for CEPT system

Appendix 3.4

Maintenance Log for proposed RO unit in 2023

Maintenance Log of Block 13

Purepro Environmental Hong Kong Ltd.

Date	Event	Action
03 Jan., 2023	Z6 515b and 515a valve out of order	<ol style="list-style-type: none"> 1. Open and clean the valves 2. Restart whole machine
6 Jan., 2023	Z7 528v can't open.	<ol style="list-style-type: none"> 1. Reset the control cabinet. 2. Re-wiring PLC and wire
11 Jan., 2023	Z6 flow rate 0	<ol style="list-style-type: none"> 1. Back wash and CIP ceramic filter 2. Check 317 pump and power 3. Clean 515a and 515b valve
17 Jan., 2023	Z5 SDS doesn't work	<ol style="list-style-type: none"> 1. Something jammed into disc and remove.
20 Jan. 2023	Z6 no water flow	<ol style="list-style-type: none"> 1. Discuss with Forsi, need to replace all membranes. 2. Order new membranes from China supplier 3. CIP z6 and keep continuously run at lower water flow rate.
27 Jan., 2023	Z5 316 pump out of order	<ol style="list-style-type: none"> 1. Sawdust jammed, open and clean the pump
31 Jan., 2023	Z6 no function	<ol style="list-style-type: none"> 1. VSD not stable, reduce 317 speeds to 35Hz
02 Feb.2023	New membranes arrive	<ol style="list-style-type: none"> 1. Stop sys 1 to replace all membranes.
06 Feb.,2023	Sys 1 z6 new membranes fixed	<ol style="list-style-type: none"> 1. Checked all zones conditions before start 2. Monitor z6 flow rate 3. Stop to add polymer at z5 as requested 3. Monitor z7 flow rate
08 Feb., 2023	Z6 flow rate drop	<ol style="list-style-type: none"> 1. Need to back wash to monitor the flow rate is >5 2. Need CIP every day after working hour.
13 Feb., 2023	Z6 VSD not stable	<ol style="list-style-type: none"> 1. Reduce 317 speed to 35Hz 2. Need install power filter to reduce the harmonic

Maintenance Log of Block 13

Purepro Environmental Hong Kong Ltd.

17 Feb., 2023	Z6 VSD not stable	1. Reduce 317 speed to 30Hz
21 Feb., 2023	Z7 528v cannot open	1. The relay loosen, fixed the wire 2. 518v connector poor dirty. Clean it with solvent cleaner
27 Feb.,2023	Not water supply to Z6	1. z5 316 pump jammed with sawdust and clean.
01 Mar.,2023	Z6 flow rate low	1. Change Z6 (sys 1) Ceramic Membranes
05 Mar.,2023	Z6 no back wash	1. Clean 328 pump 2. Clear all sawdust inside funnel
09 Mar.,2023	Z6 sensor 125 no function	1. Change plug
15 Mar.,2023	Z6 no flow	1. Valve 518 gone 2. Replace a new valve
21 Mar.,2023	Z7 no CIP function	1. Program bug 2. Reset sys 1 program
22 Mar.,2023	Audit pump no flow	1. Pump 310 gone 2. Wash and re assembly pump 310
29 Mar.,2023	Z5 no polymer	1. Program bug 2. Reset program
04 Apr.,2023	Z3 no flow to Z5	1. Valve 505 gone 2. Wash and re assembly 505
07 Apr.,2023	Z5 no polymer	1. Polymer stuck the nozzle 2. Change to manual add polymer
13 Apr.,2023	Tank 2 no effluent supply to z3	1. Pump 401 no function 2. Reset VSD
17 Apr.,2323	Z5 SDS has noise	1. Sawdust jammed the machine 2. Clear all sawdust inside the discs
20 Apr.,2023	Z6 no function	1. VSD not stable, reduce 317 speeds to 40Hz

Maintenance Log of Block 13

Purepro Environmental Hong Kong Ltd.

26 Apr.,2023	Z6 515b and 515a valve out of order	1. Open and clean the valves 2. Restart whole machine
05 May,2023	Z7 flow rate low	1. Change Z7 (sys 1) RO membrane
12 May,2023	Z6 no water to Z7	1. Valve 571 gone 2. Wash and re assembly 571 vale
16 May,2023	Z7 (sys 2) flow rate low	1. Change Z7 (sys 2) RO membranes
17 May,2023	Tank 2 no effluent to Z3	1. Pump 303 gone 2. Wash and re assembly 303
19 May,2023	Z5 pipe leakage	1. Change pipes
25 May,2023	Z6 no back wash	1. Pump 328 jammed 2. Wash and re assembly 328
29 May,2023	Z5 no effluent to Z6	1. Pump 316 gone
01 Jun.,2320	Sys 2 Z6 flow rate low	1. Change sys2 ceramic membranes
07 Jun.,2023	Z6 no back wash	1. Pump 328 jammed 2. 2. Wash and re assembly 328
08 Jun.,2023	Z6 no CIP function	1. Program bug 2. Reset the program
15 Jun.,2023	Z7 (sys 2) flow rate low	1. Change RO membranes
18 Jun.,2023	Z5 no flow to Z6	1. Valve 516 gone 2. Wash 516 valve 3. Change plug
27 Jun.,2023	Z1 no function	1. Check all VSD 2. Reset program
03 Jul.,2023	No PAC add to Z5	1. Dosing pump gone 2. Wash and re assembly dosing pump

Maintenance Log of Block 13

Purepro Environmental Hong Kong Ltd.

		3. Wash all pipes
05 Jul.,2023	Z5 noise	1. Sawdust jammed into discs 2. Clear all sawdust 3. All oil inside the chains and gears
11 Jul.,2023	Sys 1 mal function	1. Check all VSD and program 2. Clean all sensor and valves
18 Jul.,2023	Tank 1 full	1. Clear and clean tank 1
20 Jul.,2023	Tank 2 full	1. Clear and clean tank 2
24 Jul.,2023	RO tank full	1. Clear and clean RO tank
27 Jul.,2023	Z6 no back wash	1. Pump 328 jammed 2. Wash and re assembly 328
29 Jul.,2023	Z5 no effluent to Z6	1. Pump 316 jammed by sawdust 2. Wash and clean 316
03 Aug.,2023	Z6 flow low	1. Change (sys1) Z6 ceramic membranes
07 Aug.,2023	Z6 no back wash	1. Change 328 pump to turbine pump
11 Aug.,2023	Z5 316 pump no function	1. Sawdust jammed 2. Wash and clear sawdust
16 Aug.,2023	Tank 1 no effluent to Z3	1. Sensor gone 2. Replace the sensor plug
25 Aug.,2023	Z3 no flow to z5	1. Pump 307 jammed with sawdust 2. Wash and re assembly 307
29 Aug.,2023	Z7 (sys 1) flow rate low	1. Change Z7 RO membranes
03 Sep.,2023	Z6 (sys 1) flow rate low	1. Change Z6 (sys 1) ceramic membranes
05 Sep.,2023	Z3 no flow to Z5	1. Change pump 307 to turbine pump
12 Sep.,2023	Z5 noise	1. Sawdust jammed into discs

Maintenance Log of Block 13

Purepro Environmental Hong Kong Ltd.

		2. Clean and clear all sawdust
17 Sep.,2023	Z7 flow rate low	1. CIP and CIP 2. Adjust acid ratio
25 Sep.,2023	Z4 no polymer	1. Dosing pump blocked 2. Open and clear the valve
04 Oct.,2023	Z5 no flow to Z6	1. Change 316 pump to turbine pump
06 Oct.,2023	RO tank full	1. Clean and clear RO tank
13 Oct.,2023	Z7 528 valve no function	1- Open and wash valve 528 2- Change the valve's plug
19 Oct.,2023	Z3 over flow	1. Sensor error 2. Clean sensor and plug
22 Oct., 2023	Z3 no flow to Z5	1. Valve 505 gone 2. Wash valve 505
30 Oct.,2023	Z5 no function	1. Sensor no response 2. Replace sensor plug
05 Nov.,2023	Z7 no CIP	1. Program problem 2. Reset Z7 cabinet
11 Nov.,2023	Z6 no back wash	1. Sawdust blocked the funnel 2. Open and clear sawdust inside funnel
15 Nov.,2023	Z3 no flow to Z5	1. Pump 307 jammed by sawdust 2. Wash and clean pump 307
26 Nov.,2023	Z1 no flow to Z3	1. Pipe jammed by solid / sawdust 2. Clear all waste inside the pipes
03 Dec.,2023	No polymer added	1. Some solid jammed the dosing pump 2. Clear the dosing pump

Maintenance Log of Block 13

Purepro Environmental Hong Kong Ltd.

09 Dec., 2023	EDS and SDS inspected	EDS and SDS add oil
12 Dec.,2023	All sensors inspected	1. Checked all sensors and plugs
22 Dec., 2023	Tank 1 cleaning	1. Clear and clean tank 1
24 Dec.,2023	Tank 2 cleaning	1. Clear and clean tank 2
26 Dec.,2023	RO tank cleaning	1. Clear and clean RO tank
27 Dec.,2023	Check all VSDs	1. Check all VSDs
28 Dec.,2023	Full system check	1. Full system check

-- END--
