Subject: [Dept Comments] s.16 Planning Application No. A/NE-LT/789 (Further information)
Categories: Internet Email

Dear Sir/ Madam,
Response to public comments

- 1) The vehicle has a valid motor vehicle license and is used regularly by the car owner. Only one private vehicle will be parked on the site.
- 2) The car owner stays in the building (DD18 LOT152RP) near the parking area, and there are already vehicles parked next to the building; therefore, this is the closest parking space the owner can use.
- 3) This parking request is for the car owner's personal use only. The owner will park within the designated parking space and, where possible, further away from the side street.
- 4) The carport canopy has been removed, and the owner will ensure the car cover fully and properly covers the vehicle.

Feel free to call me for further information.

Sincerely,
Ms Cheong
