主旨: 回覆: Planning Application No. A/NE-MKT/76 - Supplementary Information

類別: Internet Email

Dear Ms. Tsang,

1. This application is unrelated to A/NE-MKT/62. It is made because there is a renovation company who wishes to rent the site for storing renovation materials. Unlike application A/NE-MKT/62, this application is for the storage of renovation tools and materials and does not involve any extension.
2. The proposed works at the application site will involve filling, with a concrete layer approximately 0.15 m thick.
3. Lot 584 is currently vacant. As structures on the neighbouring Lot 580 are being demolished, the demolition debris is temporarily being stored on Lot 584 and will be cleared away afterwards.
4. We will use the loading and unloading area on Lot 580. Accordingly, no parking or loading and unloading spaces are provided at the application site.

Thank You !

Regards,
H.Y.Pang
