

A/NE-PK/214 & A/NE-PK/215

We reply to District Lands Office, North

1. We understand that no structures can be built without government approval. Our application includes the two structures; if they are not approved, we will dismantle them immediately. We also acknowledge that the proposed entrances and exits must pass through government land, which currently serves as the access road to the village. Other vehicles, besides ours, also use this road as their access route.
2. As we are currently in the application stage, if approved, we will apply to the Lands Department for a short term waiver. If not approved, we will dismantle the relevant structures.
3. Regarding the unauthorized structures outside the application scope, please have the Lands Department send a separate letter to the respective owners, notifying them to make the necessary corrections.
