**3<sup>rd</sup> Further Information****Proposed Temporary Logistics Centre, Warehouse (Excluding Dangerous Goods Godown) and Container Vehicle Park with Ancillary Facilities for a Period of 3 Years in “Recreation” Zone, Various Lots in D.D. 78 and D.D. 82 and adjoining Government Land, Ta Kwu Ling, New Territories****(Application No. A/NE-TKLN/116)**

(i) The applicant would like to make the following clarifications upon the subject application:

- No vehicles without valid licenses issued under the *Road Traffic (Registration and Licensing of Vehicle) Regulations* are allowed to be parked/stored at the Site at any time during the planning approval period;
- The application site (the Site) is the subject of a previous approved application No. A/NE-TKLN/77. During the previous application period (No. A/NE-TKLN/77), the applicant has been proactively liaising with relevant stakeholders with the aim to maximise the efficiency and the smoothly delivery of the project, including appointing an Authorized Person (AP) to conduct relevant detail designs; conducting relevant land surveying at the Site; and submitting applications relating to land matters to relevant government departments. All submission-related conditions were successfully complied with by the applicant during the previous application period. To manage the construction cost effectively, the applicant plans to conduct the implementations of approved proposals after all detail design works, land matters, and applications are completed and approved by relevant departments, which led to the revocation of the previous application (No. A/NE-TKLN/77);
- The applicant has provided mitigation measures in terms of traffic and drainage aspects:
  - During the previous application stage (No. A/NE-TKLN/77), the applicant has submitted traffic management measures and a drainage proposal, and both submissions are accepted by relevant government departments;
  - A traffic survey is also submitted by the applicant during the previous application stage, given that there is no change in parking and loading/unloading spaces within the Site; and traffic flows and conditions in the vicinity of the Site remain largely unchanged, the previous traffic survey are still valid for the current application and represent a conservative approach;
  - The applicant also provided an estimated trip generation and attraction of the proposed development, which shows that minimal vehicular trips would be generated and attracted by the proposed development;
  - According to previous site inspections conducted by government departments during the previous application, no old and valuable trees (OVTs) or protected tree species were identified at the Site; whilst the applicant would also provide 2.5m high solid metal wall along the site boundary. The boundary wall will be installed properly by licensed contractor to prevent misalignment of walls, to ensure that there is no gap or

slit on boundary wall. In addition, maintenance will be conducted by the applicant on a regular basis. All developments will be confined within the Site, which would be bound by the proposed metal wall. No expansion will be made to the surroundings by the applicant. This is to minimise any nuisance to the surrounding areas, especially the existing natural environments; and

- In view of the above, adverse impacts to the surroundings would be mitigated upon implementation of the accepted proposals and measures at the proposed development;
- According to the Northern Metropolis (NM) Action Agenda promulgated in October 2023, the Site is located within the four major zones in the NM - the New Territories North (NTN) New Town. NTN New Town has potential to develop various BCP-related economic uses and industries requiring large land area for operation, complementary to the Luohu district in Shenzhen. As the Site is located in the vicinity of the Heung Yuen Wai Border Control Point (HYW BCP), the proximity and the size of the Site could leverage on the strengthened role of HYW BCP under the “East-in East-out” strategy for cross-boundary freight traffic. With the size of the proposed development, job opportunities in the logistics industry provided at the Site could also be created for local residents while promoting home-job balance, which echoes with the government’s long-term development strategy within the area; and
- The current application is intended to facilitate the relocation of the applicant’s affected business premises in Hung Shui Kiu, Sha Po and Kwu Tung due to land resumption, paving way for development of Hung Shui Kiu/Ha Tsuen New Development Area (HSK/HT NDA), Kwu Tung North/Fanling North (KTN) NDA, and public housing development in Sha Po. As land where the affected business premises are located will be developed for various G/IC, residential and open space uses upon completion of the HSK/HT and KTN NDAs and public housing development in Sha Po respectively, the concerned parcels of land had either been resumed or will be resumed and reverted to the Government in the future. For the applicant’s original business premises in HSK and Sha Po, as both site falls within the remaining phase development of HSK/HT NDA and public housing development in Sha Po respectively, the concerned land parcels will be reverted to the Government upon issuance of gazette notices; whilst for the original premises in Kwu Tung, the concerned land parcels have been reverted to the Government on 12.04.2024 (**Appendix II**).
