**主旨:** RE: s.16 planning application No. A/SK-PL/4 – Departmental Comments
**附件:** Camp Site wood deck module ref drawing.pdf

**類別:** Internet Email

Dear Jackin,
Please find our reply as follows;

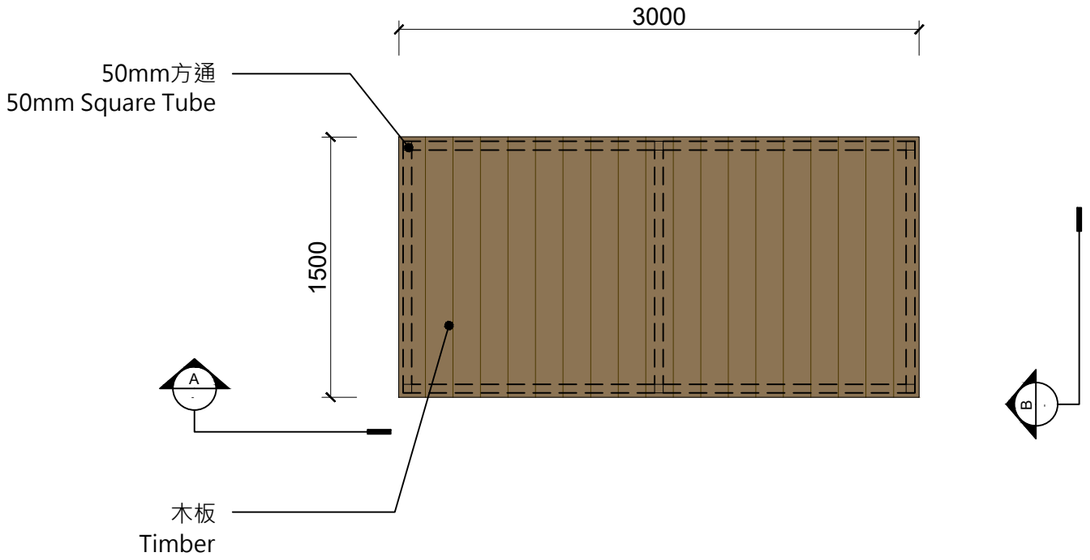

DPO comments (Batch 4):

1. Please provide more details and reference drawings on the type of wooden decks used for camping tents.
   Reply: Please find attached reference drawing for your information

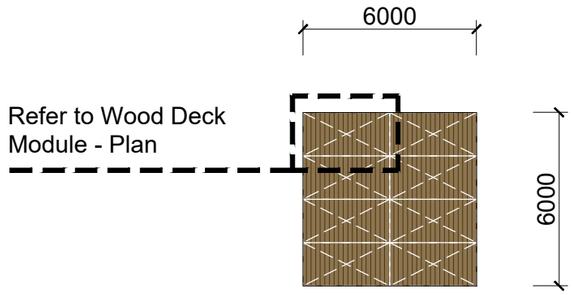

2. Please elaborate on the kind of necessary goods for daily operation provided as mentioned in p.14 of your submission.
   Reply:
   The proposed campsite is positioned as a low-impact eco-campsite operating under a "pristine and less-facility interference" model. The site does not provide mains water, does not supply drinking water, does not feature any restaurant/catering services, and strictly enforces the "Take Your Litter Home" policy. Consequently, the campsite has no need for any frequent or heavy daily goods transportation. Daily operations require only minimal basic maintenance consumables, specifically: **a small quantity of garbage bags, cleaning cloths, and eco-friendly disinfecting/cleaning product**.
   Under the current operational framework, these minimal maintenance supplies are anticipated to require replenishment only about once a month.

Thanks.

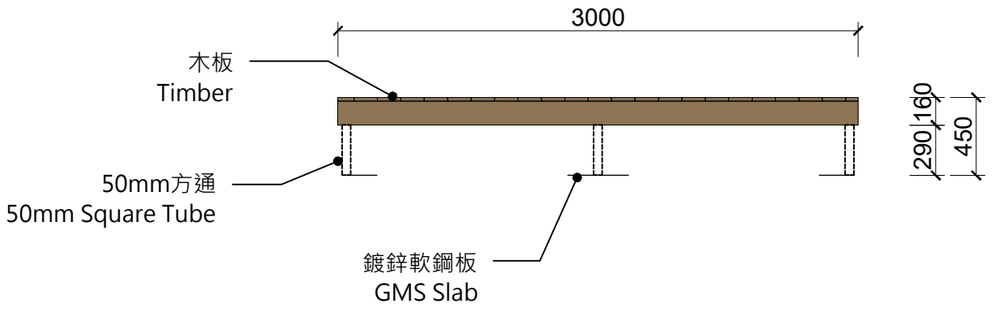

*Regards,*
*Brian Chow*
*Project Manager*
