(SECTION 16 PLANNING APPLICATION NO. A/TY/148)**

**2<sup>nd</sup> Further Information (R-C table)**

Comments	Response(s)
<b>Transport Department received on 17 June 2024</b>	
<u>Comments on the TIA Report:</u>	
1. For pedestrian stages used as lost time in signal calculation, please approach our TCD for the pedestrian stage time used in the AM peak / logistic peak / PM peak respectively.	Noted. Pedestrian stage time was obtained from TCD. The assessments were reviewed.
2. The drawing title of Figure 3.9 is not correct, please check.	Noted and revised.
3. In Figure 5.1, the 2029 design traffic flow does not show the traffic flow using the new road connecting Tsing Yi Hong Wan Road and Tsing Yi Road with related intersection in Tsing Yi, please supplement.	Noted and revised.
4. J9: CL > 120 sec is not recommended, please review.	According to TCD's data, the existing cycle time of J9 is 130 sec during the AM peak hour. We did not change the time. Please find attached the cycle time of Jn 11705 (i.e. J9) for your reference.
5. J11: Please approach our TCD for the stage time of Stage B and D used in the AM peak / logistic peak / PM peak respectively.	Noted. Stage time was obtained from TCD. The assessments were reviewed and updated.
6. J13: Right-turning lane C-B does not exist, please review W-CB.	Noted and revised in the latest assessment.
