Subject: Re: Departmental Comments: YL-KTN/1088 (Update 2)

Thank you for the phone call. Please see the attachment for the updated further information. The drainage proposal includes 2 different, but nearby application sites. The first application site is A/YL-KTN/1088, the second application site is due south of the application site of A/YL-KTN/1088, this is for future application. Sorry for the confusion. Please contact Mr. Tang via email [REDACTED] if you have any question regarding to the captioned application.

Yours sincerely,
Mr. Tang
