1.	According to the applicant's supporting documents dated 4.9.2026, it is understood that the applicant has made some changes to his original proposal, including that no land filling works would be carried out at the site; and that trees would be planted along the northeastern boundary as landscape buffer to minimise potential impacts on the surrounding areas. In this regard, please submit the relevant revised plan(s) for consideration by the relevant departments.		As no land filling works would be carried out at the application site, we enclose herewith the revised Land Filling Plan in **Annex I** for your review and consideration. The Applicant proposes to plant 13 nos. of Bauhinia blakeana (洋紫荊) (not less than 2.75m in height) along the northeastern boundary as landscape buffer. To prevent damage to tree trunks and branches by stored materials, there would not be storage of materials and parking of vehicles within 1m of any trees. In this regard, the Applicant proposes to slightly relocate structure No. 6 (electricity meter room), all parking spaces and the LGV U/UL bay to set back from the proposed landscape buffer. Please see enclosed the revised Proposed Layout Plan in **Annex II** and Landscape Plan in **Annex III** which indicate the said layout change and location of trees to be planted, for consideration by the relevant departments.
2.	Please provide a statement to confirm that the subject application is submitted by Lotti Construction Materials Limited on behalf of Asia Jet Limited (AJL) to facilitate the relocation of brownfield operations under AJL due to the Northern Link Main Line project.		The Applicant undertakes that the subject application is submitted by Lotti Construction Materials Limited on behalf of Asia Jet Limited to facilitate the relocation of brownfield operations under Asia Jet Limited due to the Northern Link Main Line project.
