Part 9 第9部分

10. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

Having considered the existing load condition and the load growth of the existing services/customers and development of new small houses at Tai Kong Po, a HV Pillar is suggested to be installed, which is an essential facility for alleviating the heavy load condition of existing supply facilities, catering for anticipated load growth from new small houses, and enhancing the reliability and the supply security of the electricity supply system to Tai Kong Po and the areas in the vicinity.

Please note that the HV Pillar is a specially designed electrical equipment that occupies an area of less than 12 sq.m.. It is of prefabricated design and totally enclosed to accommodate the required equipment. It is of non-walk-in type design, easy to install, maintenance free and made of fireproof materials. Its impact to the nearby areas and the local traffic is minimal.

On-site inspections have been carried out for technical feasibility of several potential locations for the installation, including Government land in "V" zone. However, with the practical considerations of spatial requirements, equipment delivery routings, proximity to load centre, provision of road with adequate space for laying power cable and coordination with existing power network to meet the needs of electrical load in the area, the proposed location was identified to be the only feasible option for this installation.

Hence, we hereby submit application to Town Planning Board for the approval of planning permission for the subject installation.
