Regarding your submission of planning application no. A/YL-PN/84, please find below comments from concerned Government Departments for your further action please.
Comments of the Antiquities and Monuments Office (Contact Officer: Ms. Kelly LAU; Tel: 2208 4462)
Please be informed that the application site is situated within the Long Jok Tsuen Site of Archaeological Interest.
During the site visit conducted by AMO on 7 May 2025, we note that the proposed structures as indicated on the layout plan have been already built on site. We deeply regret such deed as it might have already brought irreversible damages to the archaeological site. Please instruct the applicant to cease further damaging the site. The applicant is now required to provide the following information for our further assessment on the application:
 all the information related to the construction of the existing structures on the subject site;
 details of the construction of the existing structures, including excavation, leveling and filling up of the subject site. Are there any antiquities or supposed antiquities found during the construction of the structures?
 Photos on the subject site prior to and during the construction of the structures showing the condition of the site before, during and after the construction;
 to clarify with AMO whether there is any drainage works proposed for the development*. If affirmative, the applicant is required to provide details of the drainage works, e.g. the location, extent and depth of the proposed ground excavation for AMO's further comment.
*According to the comments from the Drainage Services Department (Contact Officer: Mr. Daniel CHAN; Tel: 2332 2471), should the application be approved by the Town Planning Board, an approval condition should be stipulated requiring the applicant to submit a drainage impact assessment to demonstrate that the proposed use of the site would not have adverse drainage impacts on the drainage issue to the area, and to implement and maintain the proposed drainage facilities to his satisfaction.
Thanks and Regards,
