A1.	<b>Air Quality</b>	
A1.1.	Section 4.1.1.1 (a) Please revise the 2 <sup>nd</sup> sentence as “Construction dust from the construction activities and the exhaust emissions from the use of construction machinery and construction vehicles are the primary concern during the construction phase.”	Revised accordingly.
A1.2.	Section 4.4.2.6 (a) Please check if “Figure 4.2” in line 4 should be revised as “Figure 4.3”.	Revised accordingly.
A1.3.	Section 4.4.3.1 (a) We would like to remind the applicant that it should be the responsibility of the applicant and their consultant to ensure the validity of the chimney data by their own site surveys.	Noted.
A1.4.	4. Section 4.5.1.2 (a) Re. R-t-C A2.1, it is still unclear why the construction of the Project commenced in January 2026 is considered at the early stage and no details of the construction programme is available, since it is already January 2026. Noting some details such as the estimated amount of excavated materials, no. of truck trips and construction machinery are provided, please update or consider to delete the 2nd sentence of this section as appropriate.	Previous 2 <sup>nd</sup> sentence of this section has been deleted accordingly to avoid confusion.
A1.5.	5. Table 4.4 (a) Please revise “5m” to “>5m” in the table.	Revised accordingly.
A1.6.	6. Section 4.5.2.2 (a) Suggest to delete the last sentence.	Previous last sentence has been deleted accordingly.
