Civil Engineering and Development Department

Dear

Environmental Impact Assessment (EIA) Ordinance, Cap.499 Application for Approval of EIA Report

<u>Project Title: Technical Study on Partial Development of</u> <u>Fanling Golf Course Site – Feasibility Study</u> (Application No. EIA-282/2022)

I refer to your application received on 22 April 2022 for approval of the above EIA report under Section 6(2) of the EIA Ordinance and our previous letter of 17 May 2022 advising you to exhibit the EIA report for public inspection in accordance with Section 6(4) of the EIA Ordinance.

Having considered the public comments received during the public inspection period from 20 May 2022 to 18 June 2022, the comments from the Advisory Council on the Environment (ACE) given to us on 24 August 2022, and the Additional Information you submitted to us under Section 8(1) of the EIA Ordinance on 4 May 2023, I now advise you under Section 8(3) of the EIA Ordinance that the above EIA report as exhibited under Section 7(1) of the EIA Ordinance is approved subject to the conditions at **Annex 1**.

The conditions have asked for, among others, the submission of a revised Layout Plan (LP) and a detailed Landscape and Visual Plan (LVP) to the Director of Environmental Protection (DEP). The revised LP shall, by adjusting the housing footprint, disposition and density, aim to minimizing the number of trees to be felled and preserving the 0.39 ha of woodland at the centre of Sub-Area 1 as far as practicable. The detailed LVP shall review the building heights for the proposed housing development and adopt a stepped height profile with the building height descending from north to south, with a view to reducing the footprint while at the same time minimising the visual impact to the surrounding rural environment. Before these are submitted and approved, the project proponent should review if the currently

1

assumed development parameters for the proposed housing development in Sub-Area 1 remain valid and consider whether it is appropriate to propose high-density and high-rise development for Sub-Area 1. In addition, recommendations from the ACE are contained in **Annex 2** for your attention and action.

It should be noted that the approval of the EIA report shall not relieve you of the responsibility to comply with other legislation or Government requirements for implementing the Project.

Under Section 15 of the EIA Ordinance, the approved EIA report (Register No. : AEIAR - 250/2023) will be placed on the EIA Ordinance Register. The approved EIA report and the conditions of approval will also be placed on the EIA Ordinance website (http://www.epd.gov.hk/eia/).

Should you have any queries on the above application, please contact my colleague Dr. Billy MA at 2835 1142.

Yours sincerely,

(TSANG Sai Wing, Terence) Assistant Director (Environmental Assessment) for Director of Environmental Protection

Encl.

c.c. (w/o encl.) ACE EIA Subcommittee Secretariat (Attn. : Ms. Karen CHEK)

Environmental Impact Assessment (EIA) Ordinance, Cap.499 Application for Approval of EIA Report

Project Title: Technical Study on Partial Development of Fanling Golf Course Site – Feasibility Study

Reference of the Approved EIA Report in the Register: AEIAR-250/2023

Conditions of Approval under Section 8(3) of the EIA Ordinance

- (a) The project proponent shall review and revise the Layout Plan (LP) by adjusting the housing footprint, disposition and density with an aim to minimizing the number of tree to be felled and preserving the 0.39 ha of woodland at the centre of Sub-Area 1 as far as practicable. The revised LP shall be submitted to the DEP for approval before commencement of construction of the relevant phase of the project;
- (b) The project proponent shall submit a detailed Landscape and Visual Plan (LVP) which covers a review of the building heights for the proposed housing development and adoption of a stepped height profile with the building height descending from north to south, with a view to reducing the footprint while at the same time minimising the visual impact to the surrounding rural environment. The project proponent shall also minimise tree felling in Sub-Area 1 to reduce visual impact and to use the trees and woodland for generating a natural outlook as well as a barrier to minimise light impact to the surrounding rural environment. The detailed LVP shall be submitted to the DEP for approval before commencement of construction of the relevant phase of the project;
- (c) The project proponent shall develop the Sub-Area 1 with spongy city concept with a view to preserving the hydraulic performance of the site to avoid substantially affecting the groundwater level, minimising flooding risk of the site during heavy rain storms, and identify necessary measures to avoid the storm water runoff which would contaminate the surrounding rural environment, in particular, the important swampy woodland in Sub-Area 4. The development plan and measures shall be submitted to the DEP for approval before commencement of construction of the relevant phase of the project;
- (d) The project proponent shall prepare and deposit a tree management plan covering the compensatory planting of trees in Sub-Areas 2 & 3 as well as a maintenance and monitoring programme to ensure tree survival rate of compensatory trees; and
- (e) The set of Additional Information received from the Applicant on 4 May 2023 under Section 8(1) of the Ordinance shall form part of the approved EIA report, and shall be placed on the Ordinance Register and the Ordinance website (http://www.epd.gov.hk/eia).

- END -

Environmental Protection Department May 2023

Environmental Impact Assessment (EIA) Ordinance, Cap.499 Application for Approval of EIA Report

Project Title: Technical Study on Partial Development of Fanling Golf Course Site – Feasibility Study

Reference of the Approved EIA Report in the Register: AEIAR-250/2023

Recommendations from the Advisory Council on the Environment

The project proponent is recommended to -

- (a) make good use of Sub-Areas 2 & 3 to provide an active area for public education and enjoyment, as well as maintaining a good balance between recreational activities and habitat conservation, through developing a comprehensive public education and ecological management plan;
- (b) review the scale of the development at Sub-Area 1 in view of the potential ecological and visual impact on the surrounding environment, as well as the integration of the site to the development of the Northern Metropolis;
- (c) review the cultural heritage importance and function of the site in connection to the surrounding land uses, and consider how to mitigate the potential impact of the development of Sub-Area 1 on the cultural heritage impacts on the entire Fanling Golf Course area; and
- (d) review the traffic impact and arrangement for the site.

- END -

Environmental Protection Department May 2023

Summary of Representations and Comments and the Planning Department's (PlanD's) Responses in respect of the Draft Fanling/Sheung Shui Extension Outline Zoning Plan No. S/FSSE/1 (the draft OZP)

(1) The Grounds and Views of the 16 representations (**R1 to R5, R7, R8, R10 to R17 and R6551**) supporting the draft OZP and/or "Residential (Group A)" ("R(A)");

Grou	inds and Views of Representations	PlanD's	Responses	in	Consultation	with	Government
		Bureaux/Departments Concerned					
Supp	upportive Representations on the Draft OZP / "R(A)" Zone						
Need	l for Housing Supply						
S1	The draft OZP balances the needs between acute housing demand, environmental and heritage, conservation and sports development.	The suppor	rtive views are 1	noted.			
S2	The draft OZP is in line with the recommendation of the Task Force on Land Supply (TFLS), which was endorsed by the Government and supported by "Technical Study on Partial Development of Fanling Golf Course Site – Feasibility Study" (the Technical Study) conducted by the Civil Engineering and Development Department (CEDD). The proposed public housing development has responded to the public aspiration and Government's commitment to increase the housing supply.						
S3	Since Fanling Golf Course's (FGC's) land lease (eastern part) expired in August 2020 and the three-year hold-over arrangement will expire in August 2023, the partial development of the FGC site would be a feasible and effective means to release a large piece of land for housing within a relatively short timeframe, and is not mutually exclusive with other land supply options and developments.						
S4	The proposed public housing with 12,000 flats targeted for completion by 2029 is critical to meet the 10-year housing supply target and ease Hong Kong's housing shortage. In view of the scarcity in land resources, there is no alternative site readily available						

Grou	Grounds and Views of Representations		Responses	in	Consultation	with	Government
		Bureaux/	Departments C	oncerr	ned		
	to deliver 12,000 flats by 2029.						
S5	General consensus on partial development of the FGC as a short to medium term land supply option has been reached since the public consultation conducted by TFLS. The draft OZP and the proposed public housing are based on public opinion and in line with public expectation. The Board should conduct survey among those people who live in sub-divided flats and consider their views in making the decision.						
Land	l Use Compatibility						
S6	The Area is located at the fringe of Fanling/Sheung Shui (FSS) New Town, and the proposed public housing development is adjacent to the existing public housing estates (i.e. Cheung Lung Wai Estate and Ching Ho Estate), hospital and schools. The Area is suitable to be developed as a New Town extension area to create synergy and the proposed uses are compatible with the surrounding areas.	The suppo	rtive views are	noted.			
S7	The infrastructure will be enhanced for the proposed public housing development which shall benefit the surrounding areas.						
Impa	act on FGC						
S8	The proposed development only involves part of the FGC, and the impact on the operation of the FGC is limited.	The suppo	rtive views are	noted.			
Envi	ronmental and Ecological Perspectives	•					
S9	The area zoned "R(A)" is mainly occupied by open-air carpark and staff quarters, which has low ecological value, and adverse environmental and ecological impact arising from the proposed public housing development is limited.	The suppo	rtive views are	noted.			
S10	While the proposed "R(A)" zone is supported, the existing golf course use is regarded as a land use not environmentally friendly.						

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
Traffi	c Perspective	
S11	Public Transport Interchange (PTI) should be provided in order to encourage the future residents to use public transport so as to alleviate the impact on Po Shek Wu Road Interchange in the north (Plan H-7).	The supportive views/suggestions are noted. A PTI has been proposed in the public housing development (Plan H-8). Vehicular access will be further considered at detailed design stage.
S12	Additional traffic access points should be provided at the public housing development connecting with Po Kin Road, Tai Ping Estate and North District Hospital to reduce the burden on Fan Kam Road.	
Other	·Views	
S13	The entire FGC should be reverted to the Government for public housing and new town by phases or open for public enjoyment under the management of the FGC or other suitable organisations.	While 32ha of the FGC to the east of Fan Kam Road will be taken back by the Government on 1.9.2023, there is no plan to change the use of the remaining 140 ha of the FGC (with a total of 46 holes) to the west of Fan Kam Road which could continue to support the hosting of international golf
S14	In response to the loss of 9ha land for golf course use and to promote golf, it is suggested allocating 18ha of land in Penny's Bay Phase 2 as a replacement. Besides, driving range is suggested to be provided in Penny's Bay Phase 2.	tournaments and training of golfers. The existing lease will run up to 30.6.2027. Therefore, the Culture, Sports and Tourism Bureau (CSTB) will handle the lease renewal matter for the 140 ha of the FGC according to their prevailing policy as applicable to Private Recreational Leases. The reversion of the 32 ha to the Government does not give rise to any reprovisioning arrangement. Hence it is not necessary to consider using Penny's Bay for the proposed purpose.

(2) The Grounds and Views of the 246 representations (**R1 to R14, R18 to R244, R246 to R248, R6707 and R6551**) supporting the "Other Specified Uses" annotated "Conservation cum Recreation" ("OU(CR)") as below:

Grou	nds and Views of Representations	PlanD's	Responses	in	Consultation	with	Government
		Bureaux/I	epartments C	oncern	ed		
Suppo	Supportive Representations on the "OU(CR)" Zone						
Futur	Future Use of the Area Zoned "OU(CR)"						
SS1	The area could be developed as botanical/zoological garden and/or	Based on t	he Ecological I	mpact A	Assessment (Ecol	A) finding	gs, Sub-Areas 2

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government				
		Bureaux/Departments Concerned				
	ecological park, which could preserve its ecological value, provide landscape area, and potentially become a landmark of the Northern Metropolis.	to 4, which are mainly occupied by golf fairways, tree clusters, fauna and flora, would be protected and enhanced for appropriate passive recreational uses in order to meet the needs of the community. This could preserve the ecological value of the Area and is acceptable from ecological perspective.				
SS2	The area should be developed for recreational facilities, such as golf course, golf training centre, other suitable sports facilities, etc., and open to the public.					
SS3	The area should maintain its status quo as a golf course run by the Hong Kong Golf Club (HKGC) and should be open to the public since the FGC is playing a critical role in promoting the golf development in Hong Kong and supporting Hong Kong as "Asia's World City". FGC is also one of the oldest golf courses with high historical and heritage value.	the ecological values of Sub-Areas 2 to 4 and the needs for past recreational facilities of the community in considering the appropriate ty of recreational uses to be provided and the long-term mode of managen and operation. LCSD will make separate announcement on management and detailed opening arrangement. In case the HK requires temporary additional land in future for supporting the organisat of major events, the relevant government departments would prov				
SS4	The ecological value of the area zoned "OU(CR)" is high and suitable for conservation and/or passive recreational uses.	appropriate assistance where possible.				
SS5	While the proposed "OU(CR)" zone is supported from environmental conservation perspective, the existing golf course use is regarded as a land use not environmentally friendly.					
Alter	native Proposal					
SS6	While the "OU(CR)" zone is supported from environmental conservation perspective, in light of its ecological values, the area zoned "OU(CR)" should be designated as country park or zoned as "Conservation Area" ("CA") or "Green Belt" ("GB") to strengthen the protection of Sub-Areas 2 to 4.	The planning intention of "OU(CR)" zone is to primarily conserve existing natural landscape and ecological features and to provide space for passive recreational uses which are compatible with the conservation intention for public enjoyment. The Government would strive to achieve conservation of habitats and ensure that no adverse ecological/environmental impact would be created. The current "OU(CR)" is considered appropriate to reflect the intention for conservation while allowing certain compatible passive recreational uses (e.g. park and garden). The suggestions of designating Sub-Areas 2 to 4 as country park, or "CA" or "GB" zone which are mainly for conservation with more restricted on uses are not supported.				

Grou	nds and Views of Representations	PlanD's	Responses	in	Consultation	with	Government
		Bureaux/I)epartments C	oncerr	ied		
		For the fut are relevan		Areas 2	2 to 4, responses in	n items SS	51 to SS6 above

(3) The Grounds and Views of 6,774 6,773 adverse representations opposing or providing views on the "R(A)" for the public housing development,
 "OU(CR)" zone, and/or the draft OZP are summarized below:

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
Adver	rse Representations	
A. G	olf / Sports / Recreational Perspectives	
A1	The FGC is a hub of international networking which has a high international significance and recognition since housing the Hong Kong Open (HKO) in 1959, and contributes to enhancing Hong Kong's regional and global importance as Asia's World City and international financial centre, as visitors from overseas will visit Hong Kong for the FGC and participating international golf and/or non-golf events, including HKO, and these events will be televised internationally. The reduction of the FGC area will alter its position to promote Hong Kong, affect Hong Kong's reputation in international stage, and bring negative impact in attracting expats to Hong Kong. The Area should maintain its status quo as a golf course.	While the 32 ha of the FGC to the east of Fan Kam Road will be taken back by the Government on 1.9.2023, only the northern portion with an area of about 9 ha (about 5% of the FGC) involving three holes will be developed for public housing and special school, while the southern portion involving five holes will be preserved for conservation and recreation. The remaining 140 ha of the FGC with 46 holes in total to the west of Fan Kam Road would not be affected and could continue to support hosting international golf tournaments, training of golfers and hosting various types of non-golf community recreational and sports events. The proposal has balanced the needs to develop public housing and to support golf development in Hong Kong.
A2	The FGC is world class sports venue in Hong Kong, and it is the only venue for hosting large scale international golf tournament (including but not limited to HKO and Hong Kong Ladies Open (HKLO)) in Hong Kong, which are participated by some of the famous golf players in the world. The decision of holding the HKO is not decided by HKGC but by the related international golf associations. The HKLO is exclusively played on the Old Course but not other parts of the FGC given the turfgrass type and special drainage on the Old Course. No possible solution is in sight for HKGC to host any	As the Government has mentioned before, in case the HKGC requires temporary additional land in future for supporting the organisation of major events, the relevant government departments would provide appropriate assistance where possible. In addition, the southern part of the Area under "OU(CR)" zone can be used for passive recreational uses which are compatible with the conservation intention for public enjoyment. The Government will take into account and

Grou	unds and Views of Representations	PlanD's Responses in Consultation with Government				
		Bureaux/Departments Concerned				
	large international golf tournament if the OZP is approved. In fact, FGC has long been well managed by HKGC, and the golf course should continue to be managed and maintained by HKGC.	balance the ecological values and the needs for passive recreational facilities of the community in considering the appropriate types of recreational uses to be provided and the long-term mode of management and operation of Sub- Areas 2 to 4.				
A3	The proposed housing development will discourage golf / sports development in Hong Kong given that over 45% of the rounds are played by non-members and over 80% of Hong Kong National Team's training is conducted in FGC. Besides, there are inadequate golf facilities in Hong Kong. The reduction of golf holes will affect the training of Hong Kong National Team as well as other non-members, which is not in line with the Government's sport development policy.	Based on the EcoIA findings, Sub-Areas 2 to 4, which are mainly occupied by golf fairways, tree clusters, fauna and flora, would be protected and enhanced for appropriate passive recreational uses in order to meet the needs of the community. This could preserve the ecological value of the Area and is acceptable from ecological perspective.The Area will be reverted to the Government on 1.9.2023 for management by LCSD. LCSD will take into account and balance the ecological values				
A4	The FGC is a major recreational facility for not only golf but also other non-golf events, such as cross country run, football, tree climbing, nature interpretation tours, evening walks etc., and the charity events would also be organised in the FGC. About 40% of the annual total number of rounds were played by non-members which more than fulfill Government's open-up requirement of 30%. The reduction of the FGC area will be a loss to the community and charities.	of Sub-Areas 2 to 4 and the needs for passive recreational facilities of the community in considering the appropriate types of recreational uses to be provided and the long-term mode of management and operation. LCSD will make separate announcement on the management and detailed opening arrangement. In case the HKGC requires temporary additional land in future for supporting the organisation of major events, the relevant				
A5	The status quo of the Area as a golf course should be maintained. The "R(A)" zone should be deleted or replaced by the "OU(CR)" zone or other zones supporting conservation.	In view of the above and that Sub-Area 1 is of relatively low ecological value and is generally suitable for residential use to meet the acute housing demand, it is considered not appropriate to rezone it to "OU(CR)" or other conservation zoning. The Area will be reverted to the Government on 1.9.2023 for management by LCSD. LCSD will take into account and balance the ecological values of Sub-Areas 2 to 4 and the needs for passive recreational facilities of the community in considering the appropriate types of recreational uses to be provided and the long-term mode of management and operation. LCSD will make separate announcement on the management and detailed opening				

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		future for supporting the organisation of major events, the relevant government departments would provide appropriate assistance where possible.
<i>B. L</i>	and Supply and Site Selection	
B1	The FGC was wrongly picked as a short to medium-term land supply option by the TFLS. There will be a number of follow-up works (e.g. additional archaeological survey, land decontamination etc.) before the northernmost portion is ready for development. Government's Investigation, Design and Construction (IDC) consultancy tender documents state that site formation is expected to commence in Q1 2026, making flat completion in 2029 impossible. Therefore it is not a short to medium-term option.	According to the TFLS' recommendation endorsed in 2019, a short to medium-term land supply option has the potential to provide additional land in around 10 years' time. The flat production of about 4,000 flats was an initial assessment at the TFLS stage which is by no means a limit, and can be increased subject to further technical study. To take forward the TFLS' recommendation, CEDD commissioned the Technical Study which concluded that the proposed public housing development with the total PR of 7.0 and 12,000 housing units is technically feasible.
B2	The high-development intensity of the public housing deviate from the endorsed TFLS' recommendation for provision of about 4,000 units and principles of rural development.	Given the Environmental Impact Assessment (EIA) approval conditions requiring a review of the development density, layout and BH of the proposed public housing development as mentioned in paragraph 2.6 above, the development timeframe to complete the development in 2029 may need to be adjusted.
		CEDD estimates that the review may take about 12 months to complete, as time is required to develop and evaluate different layout options, undertake technical assessments on the revised housing development scheme and development parameters, prepare the revised LP and the detailed LVP, and consult concerned departments. CEDD will commence the review after the Board has completed discussion of the OZP in end November 2023, and review outcomes are expected to be available around end 2024 for DEP's consideration.
B3	The proposed public housing development is not cost effective and the Area is not suitable for public housing. Instead of partial development of FGC, priority should be given to other land supply options, including brownfields, artificial islands in Kau Yi Chau, agricultural land, vacant Government lands/premises, border areas,	The Government has adopted a multi-pronged approach to create land to meet housing and other development needs. To meet acute housing demand, various land supply options, including partial development of the FGC and most of these options mentioned by the representers, have been vigorously pursued by the Government concurrently in a comprehensive

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government
	wetland, fringe areas of country parks, redevelopment of urban areas, reclamation, vacant Industrial Buildings, green belt or the fringe of green belt, increase development intensity, etc.	Bureaux/Departments Concerned manner. The northernmost part of the Area is considered suitable for housing use taking into account the Technical Study. The Area involves government land without the need to resume private lots and minimal clearance is required. The partial development option is one of the few short to medium land supply options recommended by TFLS and endorsed by the Government.
B4	In view of the Northern Metropolis Development Strategy (NMDS), the Government should review the need for partial development in the FGC in the context of overall development of the northern region of the New Territories, which should be planned as a whole whereas the FGC could serve as "high-quality outdoor eco-recreation/tourism outlets" with "proactive conservation" measures adopted. The OZP has failed to take the NMDS into consideration.	Responses in items B1 and B2 above are relevant.
B5	Low-rise private housing is more suitable than the proposed public housing in " $R(A)$ " zone.	
С. Н	eritage and Cultural Conservation Perspectives	
C1	With more than 110-year history, FGC is the oldest championship course in Asia. FGC is a living heritage which continues to be used for the same purpose for which it was designed over 100 years ago, it has a high heritage significance and it is an important historical and cultural asset in Hong Kong. FGC should be fully retained, including the 110-year old fairways, graded buildings, heritage trees and historical graves to reflect the complete picture and historical meaning of the heritage assets. The proposed public housing development would result in the loss of a heritage of more than 110 years.	Only 9 ha involving three holes in the northernmost portion of the Area of the FGC is proposed for public housing development, which is mainly occupied by staff quarters, ball courts and open-air car park at present, and accounts for about 5% of the FGC only (172 ha in total). The remaining five holes in the southern portion of the Area will be preserved for conservation and recreation. As such, it is anticipated that the overall heritage value of the whole FGC should not be significantly affected. Furthermore, the proposal seeks to strike a balance between meeting acute housing demand and the possibility of heritage conservation.
C2	In 2018, the Antiquities Advisory Board (AAB) voted to evaluate the cultural heritage value of the whole of FGC as one site and the heritage grading of FGC is still in process, the decision of the Board would pre-empt AAB's grading process. FGC has conducted	

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
	heritage value assessment against the six criteria adopted by AAB (namely historical interest, architectural merit, group value, social value and local interest, authenticity and rarity) and concluded that the historical and heritage value will be permanently destroyed if part of the Old Course is lost.	
C3	There are 144 ancestral graves and urns in FGC, including a Ming Dynasty grave at Hole 4 in the Old Course, which HKGC respects local villagers and their clans are allowed to worship their ancestors. The graves in FGC will be destroyed and feng shui will be affected by the development.	A clan grave of Qing Dynasty in Sub-Area 1 (Plan H-2a) would have interface with the proposed public housing development and might require relocation subject to further study in the detailed design stage. According to the existing land administrative policy and the established procedures under the Land Acquisition (Possessory Title) Ordinance (Cap. 130), relevant government department would identify and liaise with the descendants of the clan grave on suitable relocation and compensation arrangements. Apart from the said clan grave in Sub-Area 1, the other clan graves including the oldest ones built in Ming Dynasty within Sub-Areas 2 and 3 would be preserved.
D. E	nvironmental, Landscape and Ecological Perspectives	
D1	There are many errors in the EIA report, which does not fully comply with the EIAO Technical Memorandum. The EIA's conclusions have been drawn from insufficient data, and are not solidly based on scientific – direct or indirect – counting or census methods for identifying the types and quantities of wildlife. After considering the EIA report in August 2022, the ACE decided to request CEDD to provide further information including additional ecological surveys on bird, moth and bat, tree compensation plan, detailed layout plan, hydrological impact analysis, shading impact to the trees, and existing grave in Sub-Area 1. While ACE and DEP's decision on the EIA were still pending, approval of the OZP would pre-empt the decision of the ACE and DEP.	A comprehensive EIA covering EcoIA, Landscape and Visual Assessment (LVIA) etc. has been conducted under the Technical Study in accordance with the EIAO. The EIA report concluded that with implementation of the recommended mitigation measures such as preservation of existing vegetation, proper landscape treatment within the proposed public housing development, woodland compensation planting, retention and transportation of species of conservation importance, as well as other good site management measures and noise mitigation measures, the proposed development will not result in significant adverse impacts on the environment during construction and operational phases. According to the EcoIA, the proposed development will avoid areas of higher ecological values in Sub-Areas 2 to 4 (moderate or moderate to high),
D2	There is no quantitative assessment of the permeability and groundwater flows. The impact of the tree planting in Sub-Areas 2 and 3 on the critically endangered <i>Chinese Swamp Cypress</i> in Sub-	and only Sub-Area 1 which has a lower ecological value (low to moderate) will be developed into public housing and special school. The EcoIA concludes that with the implementation of mitigation measures, the residual

Grou	inds and Views of Representations	PlanD's Responses in Consultation with Government					
		Bureaux/Departments Concerned					
	Area 4 is unknown.	ecological impact of the proposed development is considered acceptable.					
D3	The ecological value of the FGC is high and The ecological value of Sub-Area 1 in the EIA conducted was underestimated, and extensive tree removal, including those potential old and valuable trees (OVTs), will be required to make way for the proposed public housing development. A total of 29 mature trees with diameters at breast height (DBHs) of 1,000mm or more in Sub-Area 1 are potentially registrable OVTs, of which 11 are proposed to be felled by Government. Survival of the retained/transplanted potential OVTs is doubtful as the roots may be affected by retaining structures or because the root balls are large.	As mentioned in paragraph 2.5 above, additional information on the E report was formally submitted to DEP on 4.5.2023 for consideration. contains additional surveys on bird and moth which reaffirmed corresponding surveys conducted in the EIA as representative. The additional hydrological impact analysis has reaffirmed that the main was source of the swampy woodland in Sub-Area 4 is not from Sub-Area 1 to Also, the proposed housing development in Sub-Area 1 and compensate tree planting in Sub-Area 3 would not affect the surface water sources of swampy woodland in Sub-Area 4. The additional surveys and analy conducted have reshuffled the validity and robustness of the EIA finding with no underestimation of the ecological value. It is also relevant to n					
D4	The proposed public housing development in "R(A)" zone will bring various adverse environmental and ecological impacts, including air quality, noise, landscape impacts etc., to the surrounding areas, that could not be fully mitigated by the mitigation measures proposed in the EIA. FGC has been rated according to the Landscape Value Mapping Study as a landscape of high landscape value and landscape of significance to Hong Kong.	 that in a press release of 11.5.2023 about DEP's decision on the EIA report DEP as the approving authority considered that the EIA report met the requirements of the EIA Study Brief and requirements of the EIAO Technical Memorandum. Taking into account the public comments, ACE's comments and the additional information from CEDD, DEP approved the EIA report of 11.5.2023, subject to some approval conditions including reviewing and revising the LP by adjusting the housing footprint, disposition and density with the aim of minimising the number of tree to be felled and preserving the 0.39 ha of woodland at the centre of Sub-Area 1 (Plan H-2a) as far a practicable, and submitting the LP and LVP with a view to reducing the footprint while at the same time addressing the concerns on various visual issues. On the issues of glare impact, measures such as non-reflectiv windows would be explored in detailed design stage; and if necessary measures to reduce the glare impact conditions, CEDD would review th 					
D5	The impact of light glare from artificial light on the habitat near Sub- Area 1, especially the nocturnal wildlife, has not been properly assessed. The EIA's claim that the impact of light glare from artificial lightings on habitats near Sub-Area 1 is considered minor should be invalid as there is no quantitative assessment.						
		layout design, BH and the development intensity of the proposed public housing development, and would work with the departments concerned to follow up on the DEP's requirements and report to the Board. Before the					

Grounds and Views of Representations		PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		completion of the review, an interim zoning arrangement needs to be considered. The overall assessment is set out in paragraph 7 in the paper.
D6	The draft OZP is contrary to the Hong Kong Biodiversity Strategy and Action Plan 2016-21 (the BSAP), committed to conserve ecologically important habitats outside the existing protected areas.	As indicated in the EcoIA, Sub-Area 1 has relatively lower ecological value. Development within Sub-Area 1 would by no means impair the achievement of biodiversity target of Hong Kong. Responses in items D1 to D5 above are also relevant.
E. Vi	isual, Natural Light and Air Ventilation Perspectives	1
E1	The proposed high-rise public housing development is incompatible with the surrounding rural setting and remaining FGC, and result in significant adverse visual impact to the surrounding areas, including the famous closing hole of the HKO. The visual impact to the FGC users was not considered in the VIA.	The Area is located at the fringe of FSS New Town. To the north and east of the Area are existing/planned high-density high-rise developments (with BH from 118mPD to 140mPD), including Cheung Lung Wai Estate, Ching Ho Estate, planned public housing developments at Ching Hiu Road and Tai Tau Leng, planned private housing site at the junction of Castle Peak Road – Kwu Tung Section and Fan Kam Road, and Expansion of North District Hospital.
E2	Turfgrasses require a 6-8 hours of full sunlight and the high-rise buildings will reduce the number of hours of sunlight especially in mid-winter when HK Open is held. The shadow created by the proposed public housing development will adversely affect the turfgrass in the remaining part of the FGC. The impact of shade is further aggravated by the areas of stagnant air. The proposed housing development would also create adverse shading impact on the surrounding areas.	The proposed development forms an extension of FSS New Town naturally and the proposed maximum BH of 170mPD is not incompatible in the high- rise setting of the New Town. In the notional layout of the proposed development, a total of five building gaps / building setbacks serving as wind corridors ranging from 15 to 30 m in width will be maintained to facilitate air ventilation. The LVIA and Air Ventilation Assessment (Expert Evaluation) (AVA(EE)) conclude that with the incorporation of appropriate mitigation measures, such as the
E3	The proposed public housing development will lead to wall effect and create adverse air ventilation. Heat island effects will be created from the extensive site clearance and tree felling, which would undermine the temperature regulating function by the existing tree clusters.	preservation of existing vegetation, proper landscape treatment within the proposed development, provision of wind / visual corridors etc., significant adverse visual and air ventilation impact on the surrounding areas are not anticipated. The Chief Town Planner/Urban Design and Landscape of PlanD accepted the findings of LVIA and AVA(EE) and considered the proposed mitigation measures appropriate.
		In addition, the AVA(EE) has recommended that AVA Initial Study should be conducted to optimize scheme design during the detailed design stage and/or to assess the effectiveness of the above recommended mitigation measures.

Grounds and Views of Representations		PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		As elaborated in paragraph the responses in items D1 to D5 above, CEDD will review the layout design and submit the revised LP and the detailed LVP to DEP for approval, and the concern on various visual issues could be further assessed in the review process.
F. <i>Tr</i>	affic and Transportation Perspectives	
F1	The Traffic and Transport Impact Assessment (TTIA) has underestimated the background traffic and was based on false assumptions and failure to include trip generation from PTI and to address the parking demand from large event (3,000-5,000 cars per day). Taking into account a number of omissions in TTIA, the Po Shek Wu road roundabout DFC ratio of 0.95 should have exceeded 1 by 2032.	TTIA has been conducted under the Technical Study with methodology and assumptions following the established standards and agreed by the Transport Department. The main access routes to and from the Area would be mainly via Ping Kong Road, Po Kin Road, Fan Kam Road and the Po Shek Wu Road Roundabout to the Fanling Highway. According to the TTIA, improvements to the relevant junctions in the vicinity are proposed to support the proposed development with target population of 33,600 including junction improvement works as follows:
F2	The public housing development would result in adverse traffic impact, and affect the access of emergency vehicles to the North District Hospital by blocking the Po Kin Road entrance.	 (i) Po Shek Wu Road Roundabout (Plan H-6b): this includes the widening of the westbound approach arm of Fanling Highway, a new exclusive left turn lane at the northbound approach arm of Fan Kam Road and widening of the north and southbound arm of Fan Kam Road; (ii) Castle Peak Road – Kwu Tung / Fan Kam Road (Plan H-6b): signal junction improvement with an additional lane on the northbound and southbound arms of Fan Kam Road and Castle Peak Road – Kwu Tung / Fan Kam Road, and the westbound and eastbound arm of Castle Peak Road – Kwu Tung; (iii) Fan Kam Road / Po Kin Road (Plan H-6a): upgrading the existing priority junction into a roundabout; and (iv) Po Kin Road / Ping Kong Road (Plan H-6a): upgrading the existing priority junction into a signal-controlled junction and widening of both the north and southbound arms of Ping Kong Road.

Grounds and Views of Representations		PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		All existing and planned developments in the vicinity, including the Expansion of North District Hospital, have been considered in the TTIA. With the implementation of the various junction road improvement schemes (Plans H-6a and H-6b), it is anticipated that the proposed development would not result in significant adverse traffic impacts on the local road network and the operation of the North District Hospital, and is considered acceptable from traffic engineering perspective. During special events/tournaments, temporary traffic arrangement and management measures would be implemented if necessary.
F3	Supporting transport facilities, including parking spaces, are insufficient to support the FGC use and hosting international tournaments as the car park in Sub-Area 1 will be developed for public housing. To enhance the transportation network connecting the proposed public housing development, Bus Rapid Transit (BRT) is suggested.	A public vehicle park (PVP) with 300 parking spaces is proposed within the public housing site. Taking into account the current parking provision in the Area, the proposed 300 parking spaces should be able to meet the demand for public parking spaces generated by the hosting of local and international sports events in the FGC nearby. During the construction period, if the FGC requires space for parking to support its major tournaments, the relevant departments may offer assistance or facilitation where possible.
F4	In response to the NMDS, various developments in North District are in the pipeline. With the additional population, a comprehensive traffic review in North District is required to resolve the existing congestion problem and the additional traffic flow induced by the planned developments in North District.	Apart from Northern Link Eastward Extension as recommended under the NMDS, the Government has commenced the "Strategic Studies on Railways and Major Roads Beyond 2030" (the RMR2030+ Study), which seeks to formulate a forward-looking Major Transport Infrastructure Development Blueprint for Hong Kong up to and beyond 2046 with a view to ensure that the planning of strategic railway and major road infrastructure can drive development or even reserve capacity for new development areas, especially the Northern Metropolis, for the long-term development needs of Hong Kong. Based on the preliminary findings of the RMR2030+ Study, three strategic railways and three major roads are recommended, among which it is anticipated that the Central Rail Link, the Northern Metropolis Highway, the Shatin Bypass would substantially improve the traffic condition of the North District.

Grou	nds and Views of Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
<i>G. O</i>	ther Technical Aspects	
G1	The proposed development will induce adverse drainage, geotechnical, sewerage, water supply etc. impacts. In particular, the current flooding issue in the area will be worsen. The Drainage Impact Assessment (DIA) fails to assess the permeability and groundwater hydrology and therefore the potential flooding problem. Construction of necessary infrastructure extensively is required for the proposed public housing development, it is not cost-effective to develop public housing in FGC.	To ascertain the technical feasibility of the proposed development, technical assessments, including DIA, geological and geotechnical appraisal assessment (GAA), Sewerage Impact Assessment (SIA), Water Supply Impact Assessment (WSIA), etc., have been conducted under the Technical Study to assess the potential impacts arising from the proposed development. The assessments concluded that with incorporation of recommended mitigation measures such as enhanced stormwater drainage network, laying of new fresh water main and installing a new connection to existing flushing water mains etc., there is no insurmountable technical problem arising from the proposed development. The Chief Engineer/Mainland North of the Drainage Services Department (CE(MN) of DSD), Head of Geotechnical Engineering Office of CEDD (H(GEO) of CEDD), DEP, and Chief Engineer / Construction of the Water Supplies Department (CE(C) of WSD) have no in-principle objection to the proposed development from drainage, geotechnical, sewerage, and water supply perspectives.
H. P	rovision of Government, Institution or Community (GIC) and Suppor	
H1	Significant additional population will be induced by the proposed public housing development. The GIC and supporting facilities are insufficient to meet the needs of additional population. In particular, the additional population would lead to insufficient provision of hospital beds and affect the medical services. There are inadequate recreational facilities in the area too.	Based on the requirements in the HKPSG for the planned population, and the requirements of relevant government departments, the planned provision for GIC facilities (which include hospital beds) in FSS New Town including the Area is generally sufficient to meet the demand as shown in Annex VI , except for the following:
		 (i) there will be shortfalls in rehabilitation, child and elderly care facilities. As the HKPSG requirements for these facilities are long-term goals, the provision would be addressed by SWD on a wider district basis, having regard to such factors including the distribution of facilities, land supply and service demand as a result of population growth and demographic changes. PlanD and concerned government departments will work closely together to ensure that additional GIC facilities requested by SWD will be included in the planned GIC and

Grounds and Views of Representations		PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		 residential developments in FSS New Town and the Area; and (ii) while there will be a deficit of about 7.4ha of planned district open space in the FSS New Town area, there is a surplus of about 29.72ha of planned local open space. The overall provision of open space is considered generally adequate to meet the demand of the planned population. No less than 5% of the domestic GFA of the proposed housing development for provision of various social welfare and GIC facilities including neighbourhood elderly centre, residential care home for the elderly, child care centre, hostels for mentally and physically handicapped persons, integrated vocational rehabilitation services centre, a community hall as well as local open space of 33,600m² will be provided within the proposed public housing in the Area. Details of the provision of the social welfare and GIC facilities and for the form for the social welfare and GIC facilities and for facilities and for the provision of the social welfare and GIC facilities and local open space will be worked out at detailed design stage.
I. Al	ternative Proposals	
I1	In view of the high ecological value of the area, the "OU(CR)" zone should be rezoned to "CA" / "Site of Special Scientific Interest" / "GB" to restrict developments.	The planning intention of "OU(CR)" zone is to primarily conserve existing natural landscape and ecological features and to provide space for passive recreational uses which are compatible with the conservation intention for public enjoyment. The Government would strive to achieve conservation
I2	In order to accord higher priority to conservation, amendments to the planning intention of the "OU(CR)" zone is suggested with reference to the "OU(Nature Park)" zone in Long Valley; and 'Golf Course' use should be moved from Column 1 to Column 2 of the zone to help identify and evaluate potential ecological impacts.	of habitats and ensure that no adverse ecological/environmental impact would be created. The current "OU(CR)" is considered appropriate to reflect the intention for conservation while allowing certain compatible passive recreational uses (e.g. park and garden). The suggestions of designating Sub-Areas 2 to 4 as country park, or "CA" or "GB" zone which are mainly for conservation with more restricted on uses are not supported.
I3	The Government should retain the golf course and open for public enjoyment, other public recreational use may also be considered, such as golf training centre.	Based on the Ecological Impact Assessment (EcoIA) findings, Sub-Areas 2 to 4, which are mainly occupied by golf fairways, tree clusters, fauna and flora, would be protected and enhanced for appropriate passive recreational uses in order to meet the needs of the community. This could preserve the

Grounds and Views of Representations		PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		ecological value of the Area and is acceptable from ecological perspective.
		The Area will be reverted to the Government on 1.9.2023 for management by LCSD. LCSD will take into account and balance the ecological values of Sub-Areas 2 to 4 and the needs for passive recreational facilities of the community in considering the appropriate types of recreational uses to be provided and the long-term mode of management and operation. LCSD will make separate announcement on the management and detailed opening arrangement. In case the HKGC requires temporary additional land in future for supporting the organisation of major events, the relevant government departments would provide appropriate assistance where possible.
J. Jo	b Loss	
J1	The FGC provides job opportunities to the nearby villagers. Nearly 70% of the FGC's employees are from the nearby villages and communities. The proposed development will lead to loss of job opportunities.	More job opportunities will also be provided in the commercial and community uses within the public housing development in the proposed "R(A)" zone, and maintenance and management of the natural landscape and ecological features and passive recreational uses in the "OU(CR)" zone.
K. Pı	ublic Consultation	
K1	There is inadequate public consultation on the proposed development. Affected parties, including members of the HKGC, golf players in Hong Kong and individuals who are interested in golf activities and heritage preservation, were not consulted. Besides, since the density of the current proposal is much higher than that in the proposed raised in the TFLS, there is no public consensus on the partial development of FGC	The partial development option together with other land supply options were formulated by TFLS after an extensive public engagement exercise. The statutory and administrative procedures in consulting the public on the draft OZP have been duly followed. Prior to the submission of the draft OZP for consideration of the Board, the NDC, FDRC and SSDRC were consulted as detailed in paragraph 3 above. Also, the exhibition of OZP for public inspection and the provisions for submission of representations and comments form part of the statutory consultation process under the Ordinance.

		Bureaux/Departments Concerned
Need	l for Housing Supply	
S1	The draft OZP balances the needs between acute housing demand, environmental and heritage, conservation and sports development.	, Responses to items S1 to S5 above are relevant.
S2	The draft OZP is in line with the recommendation of the Task Force on Land Supply (TFLS), which was endorsed by the Government and supported by "Technical Study on Partial Development of Fanling Golf Course Site – Feasibility Study" (the Technical Study) conducted by the Civil Engineering and Development Department (CEDD). The proposed public housing development has responded to the public aspiration and Government's commitment to increase the housing supply.	d g) t d
S3	Since Fanling Golf Course's (FGC's) land lease (eastern part) expired in August 2020 and the three-year hold-over arrangement will expire in August 2023, the partial development of the FGC site would be a feasible and effective means to release a large piece of land for housing within a relatively short timeframe, and is not mutually exclusive with other land supply options and developments.	t e f t
S4	The proposed public housing with 12,000 flats targeted for completion by 2029 is critical to meet the 10-year housing supply target and ease Hong Kong's housing shortage. In view of the scarcity in land resources, there is no alternative site readily available to deliver 12,000 flats by 2029.	y e

Maj	or Grounds of Comments on the Representations	PlanD's	Responses	in	Consultation	with	Government
		Bureaux/I) epartments C	Concern	red		
S5	General consensus on partial development of the FGC as a short to medium term land supply option has been reached since the public consultation conducted by TFLS. The draft OZP and the proposed public housing are based on public opinion and in line with public expectation. The Board should conduct survey among those people who live in sub-divided flats and consider their views in making the decision.						
<i>A</i> . <i>C</i>	Solf / Sports / Recreational Perspectives						
A1	The Fanling Golf Course (FGC) is a hub of international networking which has a high international significance and recognition since housing the Hong Kong Open (HKO) in 1959, and contributes to enhancing Hong Kong's regional and global importance as Asia's World City and international financial centre, as visitors from overseas will visit Hong Kong for the FGC and participating international golf and/or non-golf events, including HKO, and these events will be televised internationally. The reduction of the FGC area will alter its position to promote Hong Kong, affect Hong Kong's reputation in international stage, and bring negative impact in attracting expats to Hong Kong. The Area should maintain its status quo as a golf course.	Responses	to items A1 to	A5 abc	ve are relevant.		
A2	The FGC is world class sports venue in Hong Kong, and it is the only venue for hosting large scale international golf tournament (including but not limited to HKO and HKLO) in Hong Kong, which are participated by some of the famous golf players in the world. The decision of holding the HKO is not decided by HKGC but by the related international golf associations. The HKLO is exclusively played on the Old Course but not other parts of the FGC given the turfgrass type and special drainage on the Old Course. No possible solution is in sight for HKGC to host any large international golf tournament if the OZP is approved. In fact, FGC has long been well managed by HKGC, and the golf course should continue to be managed and maintained by HKGC.						

Majo	r Grounds of Comments on the Representations	PlanD's	Responses	in	Consultation	with	Government
		Bureaux/I	Departments C	Concerr	red		
A3	The proposed housing development will discourage golf / sports development in Hong Kong given that over 45% of the rounds are played by non-members and over 80% of Hong Kong National Team's training is conducted in FGC. Besides, there are inadequate golf facilities in Hong Kong. The reduction of golf holes will affect the training of Hong Kong National Team as well as other non-members, which is not in line with the Government's sport development policy.						
A4	The FGC is a major recreational facility for not only golf but also other non-golf events, such as cross country run, football, tree climbing, nature interpretation tours, evening walks etc., and the charity events would also be organised in the FGC. About 40% of the annual total number of rounds were played by non-members which more than fulfill Government's open-up requirement of 30%. The reduction of the FGC area will be a loss to the community and charities.						
A5	The status quo of the Area as a golf course should be maintained. The " $R(A)$ " zone should be deleted or replaced by the " $OU(CR)$ " zone or other zones supporting conservation.	Responses	to item A5 abo	ove are :	relevant.		
B. L.	and Supply and Site Selection						
B1	The FGC was wrongly picked as a short to medium-term land supply option by the TFLS. There will be a number of follow-up works (e.g. additional archaeological survey, land decontamination etc.) before the northernmost portion is ready for development. Government's Investigation, Design and Construction (IDC) consultancy tender documents state that site formation is expected to commence in Q1 2026, making flat completion in 2029 impossible. Therefore it is not a short to medium-term option.	Responses	to items B1 an	d B2 at	oove are relevant.		
B2	The high-development intensity of the public housing deviate from the endorsed TFLS' recommendation for provision of about 4,000						

Majo	or Grounds of Comments on the Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
	units and principles of rural development.	
B3	The proposed public housing development is not cost effective and the Area is not suitable for public housing. Instead of partial development of FGC, priority should be given to other land supply options, including brownfields, artificial islands in Kau Yi Chau, agricultural land, vacant Government lands/premises, border areas, wetland, fringe areas of country parks, redevelopment of urban areas, reclamation, vacant Industrial Buildings, green belt or the fringe of green belt, increase development intensity, etc.	Responses to item B3 above are relevant.
B4	In view of the Northern Metropolis Development Strategy (NMDS), the Government should review the need for partial development in the FGC in the context of overall development of the northern region of the New Territories, which should be planned as a whole whereas the FGC could serve as "high-quality outdoor eco-recreation/tourism outlets" with "proactive conservation" measures adopted. The OZP has failed to take the NMDS into consideration.	Responses in items B1 and B2 above are relevant.
B5	3,280 ha of developable land will be delivered over the coming 10 years with innovative methods to increase housing supply, such as light public housing. Hence, it is incorrect to claim that the proposed public housing development with about 12,000 flats is critical to meet the 10-year housing supply target.	Responses to items B1 and B2 above are relevant.
B6	Measures should be taken to vacate the well-off tenants from public housing, and avoid young people lie flat in order to be qualified for public housing.	
С. Н	leritage and Cultural Conservation Perspectives	
C1	With more than 110-year history, FGC is the oldest championship course in Asia. FGC is a living heritage which continues to be used for the same purpose for which it was designed over 100 years ago, it has a high heritage significance and it is an important historical and cultural asset in Hong Kong. FGC should be fully retained,	Responses to items C1 and C2 above are relevant.

Majo	Major Grounds of Comments on the Representations		Responses	in	Consultation	with	Government
		Bureaux/I	Departments C	oncerr	red		
	including the 110-year old fairways, graded buildings, heritage trees and historical graves to reflect the complete picture and historical meaning of the heritage assets. The proposed public housing development would result in the loss of a heritage of more than 110 years.						
C2	In 2018, the Antiquities Advisory Board (AAB) voted to evaluate the cultural heritage value of the whole of FGC as one site and the heritage grading of FGC is still in process, the decision of the Board would pre-empt AAB's grading process. FGC has conducted heritage value assessment against the six criteria adopted by AAB (namely historical interest, architectural merit, group value, social value and local interest, authenticity and rarity) and concluded that the historical and heritage value will be permanently destroyed if part of the Old Course is lost.						
C3	There are 144 ancestral graves and urns in FGC, including a Ming Dynasty grave at Hole 4 in the Old Course, which HKGC respects local villagers and their clans are allowed to worship their ancestors. The graves in FGC will be destroyed and feng shui will be affected by the development.	Responses	to item C3 abo	ve are	relevant.		
D. E	nvironmental, Landscape and Ecological Perspectives						
D1	There are many errors in the EIA report, which does not fully comply with the EIAO Technical Memorandum. The EIA's conclusions have been drawn from insufficient data, and are not solidly based on scientific – direct or indirect – counting or census methods for identifying the types and quantities of wildlife. After considering the EIA report in August 2022, the ACE decided to request CEDD to provide further information including additional ecological surveys on bird, moth and bat, tree compensation plan, detailed layout plan, hydrological impact analysis, shading impact to the trees, and existing grave in Sub-Area 1. While ACE and DEP's decision on the EIA were still pending, approval of the OZP would pre-empt the	Responses	to items D1 to	D5 abo	ove are relevant.		

Majo	Major Grounds of Comments on the Representations		Responses	in	Consultation	with	Government
		Bureaux/I	Departments C	oncerr	ned		
	decision of the ACE and DEP.						
D2	There is no quantitative assessment of the permeability and groundwater flows. The impact of the tree planting in Sub-Areas 2 and 3 on the critically endangered <i>Chinese Swamp Cypress</i> in Sub-Area 4 is unknown.						
D3	The ecological value of the FGC is high and The ecological value of Sub-Area 1 in the EIA conducted was underestimated, and extensive tree removal, including those potential old and valuable trees (OVTs), will be required to make way for the proposed public housing development. A total of 29 mature trees with diameters at breast height (DBHs) of 1,000mm or more in Sub-Area 1 are potentially registrable OVTs, of which 11 are proposed to be felled by Government. Survival of the retained/transplanted potential OVTs is doubtful as the roots may be affected by retaining structures or because the root balls are large.						
D4	The proposed public housing development in "R(A)" zone will bring various adverse environmental and ecological impacts, including air quality, noise, landscape impacts etc., to the surrounding areas, that could not be fully mitigated by the mitigation measures proposed in the EIA. FGC has been rated according to the Landscape Value Mapping Study as a landscape of high landscape value and landscape of significance to Hong Kong.						
D5	The impact of light glare from artificial light on the habitat near Sub- Area 1, especially the nocturnal wildlife, has not been properly assessed. The EIA's claim that the impact of light glare from artificial lightings on habitats near Sub-Area 1 is considered minor should be invalid as there is no quantitative assessment.						
D6	The draft OZP is contrary to the Hong Kong Biodiversity Strategy and Action Plan 2016-21 (the BSAP), committed to conserve	Responses	to item D6 abo	ve are	relevant.		

Majo	r Grounds of Comments on the Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
	ecologically important habitats outside the existing protected areas.	
<i>E. V</i>	sual, Natural Light and Air Ventilation Perspectives	
E1	The proposed high-rise public housing development is incompatible with the surrounding rural setting and remaining FGC, and result in significant adverse visual impact to the surrounding areas, including the famous closing hole of the HKO. The visual impact to the FGC users was not considered in the VIA.	Responses to items E1 to E3 above are relevant.
E2	Turfgrasses require a 6-8 hours of full sunlight and the high-rise buildings will reduce the number of hours of sunlight especially in mid-winter when HK Open is held. The shadow created by the proposed public housing development will adversely affect the turfgrass in the remaining part of the FGC. The impact of shade is further aggravated by the areas of stagnant air. The proposed housing development would also create adverse shading impact on the surrounding areas.	
E3	The proposed public housing development will lead to wall effect and create adverse air ventilation. Heat island effects will be created from the extensive site clearance and tree felling, which would undermine the temperature regulating function by the existing tree clusters.	
E4	3D images with the aid of Building Information Model (BIM) from various vantage points, including birds-eye view, should be provided to allow the general public to better understand the proposal.	In accordance with Town Planning Board Guidelines on submissions of Visual Impact Assessment for Planning Applications to the Town Planning Board (TPB PG-No. 41), photomontages (Plans H-9a to H-9f) from various viewing points (VP) have been prepared and incorporated in the LVIA conducted under the Technical Study. The VPs are key public viewing points that will be affected by the proposed public housing development, which include key pedestrian nodes, popular public areas for recreational activities, rest, leisure, sitting-out areas, walking, sight-seeing and prominent travel routes. VPs are assessed at human eye-level. The photomontages have adequately demonstrated the visual impacts brought about by the

Majo	r Grounds of Comments on the Representations	PlanD's Responses in Consultation with Government
		Bureaux/Departments Concerned
		proposed development.
	affic and Transportation Perspectives	
F1	The Traffic and Transport Impact Assessment (TTIA) has underestimated the background traffic and was based on false assumptions and failure to include trip generation from PTI and to address the parking demand from large event (3,000-5,000 cars per day). Taking into account a number of omissions in TTIA, the Po Shek Wu road roundabout DFC ratio of 0.95 should have exceeded 1 by 2032.	e o r o 1
F2	The public housing development would result in adverse traffic impact, and affect the access of emergency vehicles to the North District Hospital by blocking the Po Kin Road entrance.	
F3	Supporting transport facilities, including parking spaces, are insufficient to support the FGC use and hosting international tournaments as the car park in Sub-Area 1 will be developed for public housing.	1
G. 01	ther Technical Aspects	
G1	The proposed development will induce adverse drainage, geotechnical, sewerage, water supply etc. impacts. In particular, the current flooding issue in the area will be worsen. The Drainage Impact Assessment (DIA) fails to assess the permeability and groundwater hydrology and therefore the potential flooding problem. Construction of necessary infrastructure extensively is required for the proposed public housing development, it is not cost-effective to develop public housing in FGC.	e e d r
H. Pr	ovision of Government, Institution or Community (GIC) and Suppor	
H1	Significant additional population will be induced by the proposed public housing development. The GIC and supporting facilities are insufficient to meet the needs of additional population. In	e

Majo	or Grounds of Comments on the Representations	PlanD's Responses in Consultation with Government
	particular, the additional population would lead to insufficient provision of hospital beds and affect the medical services. There are inadequate recreational facilities in the area too.	
I. A	Iternative Proposals	
I1	In order to accord higher priority to conservation, amendments to the planning intention of the "OU(CR)" zone is suggested with reference to the "OU(Nature Park)" zone in Long Valley; and 'Golf Course' use should be moved from Column 1 to Column 2 of the zone to help identify and evaluate potential ecological impacts.	
I2	The Government should retain the golf course and open for public enjoyment, other public recreational use may also be considered, such as golf training centre.	
J. J	ob Loss	
J1	The FGC provides job opportunities to the nearby villagers. Nearly 70% of the FGC's employees are from the nearby villages and communities. The proposed development will lead to loss of job opportunities.	
<i>K. P</i>	ublic Consultation	
K1	There is inadequate public consultation on the proposed development. Affected parties, including members of the HKGC, golf players in Hong Kong and individuals who are interested in golf activities and heritage preservation, were not consulted. Besides, since the density of the current proposal is much higher than that in the proposed raised in the TFLS, there is no public consensus on the partial development of FGC

as set out in TPB PG-No. 33A, normally the applicant would be given two months for preparation of the submission of FI. In that regard, if the applicant's request for deferment was acceded to, a deferment period of two months instead of 90 days should be allowed.

74. After deliberation, the Town Planning Board (the Board) <u>decided</u> to <u>defer</u> a decision on the review application for two months, instead of 90 days as requested by the applicant, pending the submission of FI from the applicant. The Board <u>agreed</u> that the review application should be submitted for its consideration within three months upon receipt of FI from the applicant. If the FI submitted by the applicant was not substantial and could be processed within a shorter time, the review application could be submitted to an earlier meeting for the Board's consideration. The Board also <u>agreed</u> to <u>advise</u> the applicant that two months were allowed for preparation of the submission of FI, and no further deferment would be granted unless under very special circumstances.

Fanling, Sheung Shui & Yuen Long East District

Agenda Item 6

[Open Meeting]

The Draft Fanling/Sheung Shui Extension Area Outline Zoning Plan No. S/FSSE/C – Consideration of a New Plan

(TPB Paper No. 10844)

[The item was conducted in Cantonese.]

75. The Secretary reported that the draft Fanling/Sheung Shui Extension Area Outline Zoning Plan (the draft OZP) was to take forward a land supply initiative proposed by the Government upon the recommendation of the Task Force of Land Supply on partial development of the Fanling Golf Course (FGC) for housing development. The draft OZP was prepared on the basis of the findings of the "Technical Study on Partial Development of FGC Site – Feasibility Study" (the Technical Study) which was commissioned by the Civil Engineering and Development Department (CEDD). The draft OZP covered a site proposed for public housing development by the Hong Kong Housing Authority (HKHA) with the Housing Department (HD) as the executive arm.

Mr Paul Y.K. Au	-	being a representative of the Director of Home
(as Chief Engineer (Works),		Affairs who was a member of the Strategic
Home Affairs Department)		Planning Committee and Subsidized Housing
		Committee of HKHA;
Dr C.H. Hau	-	conducting contract research projects with CEDD;
Dr Conrad T.C. Wong	-	having current business dealings with HKHA;
Mr Franklin Yu	-	being a member of the Building Committee and Tender Committee of HKHA;
Mr Daniel K.S. Lau]	being a member of Hong Kong Housing
Ms Lilian S.K. Law]	Society (HKHS) which had discussion with HD on housing development issues;
Mr K.L. Wong	-	being a member and ex-employee of HKHS which had discussion with HD on housing development issues;
Mr Timothy K.W. Ma	-	being a member of the Supervisory Board of HKHS which had discussion with HD on housing development issues; and
Mr L.T. Kwok	-	his serving organization currently renting premises in various estates of HKHA at concessionary rent for welfare services, and formerly operating a social service team which

was supported by HKHA and openly bid funding from HKHA.

77. Members noted that Dr Conrad T.C. Wong had tendered an apology for being unable to attend the meeting and Mr Franklin Yu had already left the meeting. According to the procedure and practice adopted by the Board, as the zoning to facilitate the proposed public housing development on the new draft OZP were proposed by the Planning Department (PlanD), the interests of the above Members on the item only needed to be recorded and the above Members could participate in the discussion of the item. The Secretary also reported that a letter was received from the public on the item and was tabled at the meeting.

78. The following government representatives and consultants were invited to the meeting.

1 tune		
Mr Anthony K.O. Luk	-	District Planning Officer/Fanling, Sheung
		Shui & Yuen Long East (DPO/FS&YLE)
Mr Patrick M.Y. Fung	-	Senior Town Planner/Fanling Sheung
		Shui (STP/FS)
Mr Todd T.W. Wan	-	Town Planner/Fanling Sheung Shui
CEDD		
Mr John W.H. Chung	-	Chief Engineer/North (CE/N)
Mr Daniel T.L. Lau	-	Senior Engineer
Ms Elaine S.S. Shih	-	Engineer
Agriculture, Fisheries and Conser	vat	ion Department
Mr Boris S.P. Kwan	-	Senior Nature Conservation Officer/North
Ms Chole C.U. Ng	-	Nature Conservation Officer
HD		
Ms Alice W.Y. Lo	-	Senior Planning Officer
Consultants		
Mr Emeric Wan]	WSP(Asia) Ltd.
Mr Ernest Tip]	
Mr Dennis Chan]	

PlanD

Ms Anny Li]	
Mr Klinsmann Cheung]	Ecosystems Ltd.
Mr Vincent Lai]	

79. The Chairperson extended a welcome and invited PlanD's representative to brief Members on the Paper.

80. With the aid of a PowerPoint presentation, Mr Patrick M.Y. Fung, STP/FS, briefed Members on the background of the draft OZP, the Planning Scheme Area (the Area) and its surroundings, the major findings of the Technical Study and the planning intention for the Area, the proposed public housing development, the proposed land use zonings and the consultation with District Council and Rural Committee as detailed in TPB Paper No. 10844 (the Paper).

81. As the presentation of PlanD's representative had been completed, the Chairperson invited questions and comments from Members.

Ecological Considerations

- 82. Members raised the following questions:
 - (a) details on the ecological corridors identified in the Area, including their directions and linkages;
 - (b) the hydrology in the Area and its ecological significance;
 - (c) noting that the intention was to conserve the existing natural landscape, whether the existing golf course, which was not naturally formed, would be preserved; and
 - (d) whether the ecological corridor located in Sub-Area 1 would be affected as a result of the proposed development.

83. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, PlanD, Mr John W.H. Chung, CE/N, CEDD, Messrs Emeric Wan and Klinsmann Cheung from the consultants made the

following points:

- (a) as shown on Plan 4 of the Paper, two potential ecological corridors for commuting of various fauna species were identified in the Area. The woodland habitats in Sub-Area 2 were connected together and formed an ecological corridor. Another one was identified near Sub-Area 4, which connected with the woodland extending out to the southeast of Sub-Area 4. The ecological corridors, which were not tangible corridors with fixed and regular form, allowed the species to commute within the Area and cross the Area between the natural habitats and greenery in the immediate surroundings of the Area;
- (b) the natural hilly terrain between Sub-Area 1 and Sub-Area 2 formed a watershed for the hydrology in the Area, where surface runoff would flow either to Sub-Area 1 in the north or to Sub-Ares 2 to 4 in the south. The topography and hydrology in Sub-Areas 2 to 4 were interconnected, contributing to the formation of swampy woodland, especially the Chinese Swamp Cypress at the lowland area in Sub-Area 4;
- (c) from the perspective of conservation of the Area, it was not intended to distinguish between man-made and natural landscape features. The main objective was to respect and preserve the status quo of the existing terrain for Sub-Areas 2 to 4; and
- (d) the "Residential (Group A)" ("R(A)") zone did not cover the entire Sub-Area 1. The two existing green knolls located in the south-eastern part of and beyond the boundary of Sub-Area 1 where the ecological corridor was identified would be conserved under the zoning of "Other Specified Uses" annotated "Recreation cum Conservation" ("OU (Recreation cum Conservation)").

Tree Preservation and Compensation

84. Members raised the following questions:

- (a) details of the tree preservation and transplantation proposals and whether any rare species would be affected; and
- (b) the successful rate of tree transplantation.

85. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, PlanD, Mr John W.H. Chung, CE/N, CEDD and Mr Emeric Wan from the consultant made the following points:

- (a) there were 1,225 trees within Sub-Area 1, 70 of which were Trees of Particular Interest (TPIs) (including 46 rare/protected species and 24 mature trees with Diameter at Breast Height (DBH) of 1m or more). Amongst the 70 TPIs, only 11 mature trees with DBH of 1m or more would be removed, with the rest of the TPIs to be retained or transplanted. The rare/protected species would either be retained or transplanted to Sub-Areas 2 to 4. Considering that Sub-Area 1 was quite large with area of about 9 ha, only 70 TPIs were identified in the survey and such proportion was considered relatively low. Regarding the locations for compensatory planting and transplanting, the Ecological Impact Assessment (EcoIA) under the Technical Study recommended to make use of the existing turf nursery areas in Sub-Areas 2 and 3 for transplanting, such that the woodland area in the Sub-Areas could increase and the function of the ecological corridor could be strengthened. If needed, off-site planting and transplanting locations would also be considered; and
- (b) there were many successful cases of tree transplanting of TPIs in other projects. The TPIs in the Area to be transplanted were not in very large size, and major difficulties in transplanting of which were not anticipated.

Heritage Preservation

- 86. The Chairperson and Members raised the following questions:
 - (a) whether the clan graves in the Area were of any heritage significance and

what would be the arrangement if these graves need to be removed;

- (b) whether Antiquities Advisory Board (AAB) had any assessment on the heritage value of the Old Course of FGC which was built over 100 years; and
- (c) was there any social relationship between FGC and the locals.

87. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, PlanD and Mr John W.H. Chung, CE/N, CEDD made the following points:

- (a) a clan grave of Qing Dynasty in Sub-Area 1 would have interface with the proposed public housing development and might require relocation subject to further study in the detailed design stage. According to the existing land administrative policy and mechanism, relevant government department would liaise with the descendants of the clan grave regarding the suitable relocation site and compensation arrangements. Other than the said clan grave in Sub-Area 1, the rest of the clan graves located within Sub-Areas 2 and 3 would be preserved;
- (b) while the FGC, including the Area, had a history of over 100 years, it was a new item pending grading assessment by the AAB; and
- (c) there was cordial relationship between FGC and the villagers nearby.For example, FGC would allow villagers to visit the clan graves during Ching Ming and Chung Yeung festivals.

88. The Chairperson enquired if there was scope that the clan grave in Sub-Area 1 could remain intact. In response, Mr John W.H. Chung, CE/N2, CEDD said that CEDD would liaise with HD on the design of the proposed public housing development in Sub-Area 1 and confirm if it was necessary to relocate the clan grave in the detailed design stage.

"OU (Recreation cum Conservation)" Zone

- 89. The Chairperson and some Members raised the following questions:
 - (a) the planning intention of the "OU (Recreation cum Conservation)" zone, and whether conservation or recreation would play a more important role in the zone;
 - (b) given the high ecological value of Sub-Areas 2 to 4 and the presence of Chinese Swamp Cypress in Sub-Area 4, what the reasons were for not designating Sub-Areas 2 to 4 with conservation zonings, such as "Conservation Area" ("CA") or "OU" annotated "Nature Park", which could allow more stringent development control. Also, whether it was possible to zone the area where the Chinese Swamp Cypress were located as "CA";
 - (c) elaboration on the definition of passive recreation; details of the Columns
 1 and 2 uses of the "OU (Recreation cum Conservation)" zone and the definition of 'Playground/Playing Field' use under Column 1;
 - (d) the future planning of the "OU (Recreation cum Conservation)" zone, and whether it was planned as a park under the management of the Leisure and Cultural Services Department or if it would be used as a public golf course managed by the current golf club; and
 - (e) whether there was any conservation strategy or statement to guide the conservation or future development of the Area.

90. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, PlanD and Mr John W.H. Chung, CE/N, CEDD made the following points:

(a) the Area was being used as a golf course, while at the same time it harboured rich ecological and natural resources. The "OU (Recreation cum Conservation)" zone was primarily to conserve the existing natural landscape and ecological features. It was also intended for the provision of space for recreational uses serving the needs of the general public. The zoning had struck a balance in meeting the needs of nature conservation and providing flexibility for recreational uses serving the public;

- (b) unless there was specific need for statutory planning restriction for the area where the Chinese Swamp Cypress were grown, Sub-Areas 2 to 4 would not be zoned "CA" and protection of which would be secured as Government would have full control of the areas which were Government land. To prevent disturbance to the natural landscape and ecological resources in the "OU (Recreation cum Conservation)" zone, various mitigation measures, such as restriction on the number of visitors and activities, operation hours, access control to features of conservation importance would be more effective when implementing future passive recreational uses;
- (c) in tandem with the planning intention to conserve existing natural landscape and ecological features, and to provide passive recreational uses serving the needs of the general public, there were various permitted uses under Column 1 of the "OU (Recreation cum Conservation)" zone, including passive recreational uses such as 'Barbecue Spot', 'Field Study/Education/Visitor Centre', 'Golf Course', 'Park and Garden' and 'Picnic Area', etc. Except those compatible recreational uses under Column 1, other commercial and recreational uses were included in Column 2 and may be permitted subject to approval from the Board on the premise that these uses would not adversely impact on the conservation of the Area. There were other Column 1 uses, such as 'Public Convenience' which was considered small in scale and was intended to support the passive recreational use, 'Tent Camping Ground' which would not involve fixed structures, and 'Private Utility Installation of Private Project' which was intended to allow flexibility for utility installations. According to the Definition of Terms, 'Playground/Playing Field' referred to any land used for a playground or a playing field for ball games for the use and enjoyment of the general public;

formulated in consultation with the Home Affairs Bureau (HAB) and the future management of development within the zone was yet to be confirmed. 'Golf Course' was a Column 1 use always permitted in this zone and it might be a potential use in future; and

(e) the Area was government land and the Government would have full control of the future use within the "OU (Recreation cum Conservation)" zone. The ecological significance and planning intention for the Area had been detailed in the Explanatory Statement (ES) of the draft OZP and if needed, further elaborations could be incorporated.

91. Some Members raised concern on the future management of development within the "OU (Recreation cum Conservation)" zone and were worried that the Area could not be properly conserved under the "OU" zoning. In that regard, the Chairperson remarked that the Area would be handed over to the Government in September 2023 and it would then be the Government's responsibility to manage the site and to decide on the future management parties. The Government was well aware of the ecological significance of the Area and would put in efforts to conserve it. The Board should focus the discussion on the proposed land use zonings and the associated development parameters on the draft OZP, rather than the future management of the Area.

Proposed Public Housing Development and "Residential (Group A)" Zone

- 92. Members raised the following questions:
 - (a) whether there were any past planning experiences of having a residential development next to an area designated for conservation purpose and whether there was any assessment on the ecological impact of the proposed residential development on Sub-Area 4;
 - (b) how the zoning boundary of "R(A)" was defined;
 - (c) the net site area of Sub-Area 1; and noting that the development density ofSub-Area 1 was quite high, whether it was technically feasible to develop

Sub-Area 2 or include part of Sub-Area 2 into the development site of the proposed development to maximize the development potential;

- (d) whether there were any traffic improvement measures to cater for the additional traffic generation from the proposed development; and
- (e) the future development of Fanling/Sheung Shui area.

93. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, PlanD and Mr John W.H. Chung, CE/N, CEDD made the following points:

- (a) previous cases of planning residential development next to an area designated for conservation purpose were not uncommon in Hong Kong. Various assessments would be required to ensure that the proposed residential development would have no unacceptable impacts on the area of conservation. For the proposed public housing development, the EIA and EcoIA had demonstrated that the proposed development in Sub-Area 1 would not affect the ecology of Sub-Areas 2 to 4. Besides, an assessment on the hydrology of the Area had also been carried out. As mentioned before, the flow of surface runoff was governed by the hilly terrain between Sub-Area 1 and Sub-Area 2 from which surface runoff would flow northwards and southwards respectively, and the proposed development in Sub-Area 1 would not affect the hydrology in Sub-Areas 2 to 4;
- (b) the "R(A)" zoning boundary was determined with reference to the existing contour and landscape features;
- (c) the domestic and non-domestic plot ratios (PR) of the proposed public housing development was 6.5 and 0.5 respectively, which were comparable to those of the new public housing developments in new towns. Various technical assessments had been undertaken to ensure that there would not be insurmountable problems associated with the proposed development as well as conservation of the Area. Nonetheless, the

proposed development scale had already reached the maximum due to the ecological and traffic concerns;

- (d) traffic to/from the proposed development would be via Ping Kong Road, Po Kin Road, and Fan Kam Road connecting with Fanling Highway. Various junction/road improvement schemes were proposed in Fanling/Sheung Shiu area which could cater for the proposed public housing development. The proposed road improvement schemes for the Tai Tau Leng Roundabout, junction of Castle Peak Road – Kwu Tung/Fan Kam Road would be carried out under different projects, whereas those for the junction of Po Kin Road/Ping Kong Road would be carried out under According to the traffic impact assessment under the this project. Technical Study, with implementation of these improvement schemes, the nearby junctions would operate satisfactorily even after completion of the proposed development. Traffic impact resulted from the proposed development was considered acceptable; and
- (e) major developments around the Area mainly comprised four proposed housing sites in Fanling/Sheung Shui (FSS) New Town (which were in the midst of statutory OZP amendment processes), and Kwu Tong North/Fanling North New Development Area (KTN/FLN NDA). KTN/FLN NDA would provide some 72,000 flats while the four housing sites in FSS New Town would provide about 20,000 flats.

Impacts on Golf Sports Events

94. In response to Members' concerns on whether the current proposal would hinder the development of golf sports in Hong Kong and whether the capacity of FGC for holding international golf sports events might be diminished, Mr Anthony K.O. Luk, DPO/FS&YLE, PlanD said that the Government recognized the importance and contribution of the FGC in the development of golf sports in Hong Kong. The FGC was composed of three distinct courses (the Old, New and Eden Courses) having a total area of about 172 ha. The Area known as the Old Course of the FGC was situated to the east of Fan Kam Road separated from the main part of the FGC and mainly comprised an eight-hole course with golf fairways, covering only part of the FGC (i.e. 32 ha.). The New Course and Eden Course (with two 18-hole courses) of the FGC located to the west of Fan Kam Road would be retained. International and local golf sports events or competitions were mainly held at the New Course and Eden Course while the Old Course was normally used as the warm-up and training areas and for provision of car parking spaces for visitors during the time of the events. To support the holding of major golf sports events, a public vehicle park which would provide similar number of car parking spaces as in the existing carpark at the Old Course (i.e. about 280 car parking spaces) was proposed in the public housing development within the "R(A)" zone. This would be additional provision on top of the ancillary car parking spaces for the proposed public housing development as required under the Hong Kong Planning Standards and Guidelines.

95. Regarding a Member's concern on whether the proposed public housing development would bring negative effect in respect of the ambience for holding international golf sports events in the remaining part of the FGC, the Chairperson supplemented that HAB which had been involved in the planning for the Area since the commissioning of the Technical Study would give thorough considerations to ensuring that the proposed development in Sub-Area 1 would not adversely impact on the holding of international golf sports events. HAB also advised that the provision of car parking spaces was needed to support the events.

[Messrs Stanley T.S. Choi and Wilson Y.W. Fung joined the meeting, and Ms Sandy H.Y. Wong and Mr Daniel K.S. Lau left the meeting during the questions and answers session.]

96. Some Members considered that Sub-Areas 2 to 4 should be designated with a conservation zoning to better conserve the ecology and hydrology of the Area, in particular the precious Chinese Swamp Cypress in Sub-Area 4. The planning intention and the Column 1 uses of the "OU (Recreation cum Conservation)" zone should be reviewed to highlight the importance of conservation of the sub-areas and to ensure that the future recreational activities in the sub-areas would not induce adverse impacts on the natural landscape resources therein. More stringent development control for Sub-Areas 2 to 4 should be considered and reference could be made to the planning and management of Mai Po Nature Reserve and Long Valley Nature Park. In particular, a Member raised that although the Area was currently used as a golf course, the number of visitors to the golf course was limited and there was also no nighttime activity in the Area. As some species of animals were active at night, there was concern on the inclusion of 'Tent Camping Ground' as a Column 1 use under the "OU (Recreation cum

Conservation)" zone as it involved nighttime activity that might cause disturbance to wildlife there. The inclusion of 'Barbecue Spot' under Column 1 might not be appropriate as well. Some Members shared the same concern and had reservation on the inclusion of these two uses under Column 1 of the "OU" zone. There were also suggestions from Members that Sub-Areas 2 to 4 should be zoned as "OU (Conservation cum Recreation)" instead of "OU (Recreation cum Conservation)" to prioritize the importance of conservation of the sub-areas. A Member commented that the traffic impact brought by the proposed development should be carefully looked into to avoid saturation of traffic capacity of Fan Kam Road, and any traffic improvement measures might need to be specified in the ES.

97. Some Members agreed to the designation of "OU (Recreation cum Conservation)" zone to allow a dual purpose of both conservation and public enjoyment of the Area although they shared the view that the Column 1 uses of the "OU (Recreation cum Conservation)" zone should be reviewed.

98. Some Members supported that suitable recreational uses could be allowed in Sub-Areas 2 to 4. However, based on the current information, it was difficult to consider whether the future recreational uses would be compatible with the conservation intention of the subareas. A Member supported the draft OZP as it could facilitate the increase of the housing supply while conserving the existing ecological features of significance in the Area, and not affecting the holding of international golf events. The Member suggested that the draft OZP should be exhibited as soon as possible so that the public consultation process could commence.

99. As Members had no further questions or comments on the draft OZP, the Chairperson consolidated Members' major views as follows:

- (a) Members generally agreed to exhibit the draft OZP for the Area for public inspection, but there was scope to refine the details of the draft OZP, particularly for the proposed "OU (Recreation cum Conservation)" zone;
- (b) Members agreed with the general planning intention for the Area, i.e. to develop the northern-most portion for public housing development and to conserve the existing natural landscape and ecological features in the remaining southern portion with provision of passive recreational uses to

serve the general public;

- (c) for the northern-most portion, Members had no particular comment on the development parameters of the proposed public housing development and agreed that the proposed "R(A)" zoning and its development restrictions as set out in the draft Notes in the Paper would provide a reasonable basis for plan exhibition; and
- (d) for the remaining southern portion, Members were of the view that the planning intention and schedule of uses for the proposed "OU (Recreation cum Conservation)" zone in the draft Notes and the associated descriptions in the draft ES should be refined with a view to better reflecting the priority of conservation for this part of the Area and the passive recreational uses thereat should not compromise the conservation intention and should serve the general public.

100. PlanD was invited to refine the draft Notes and the ES taking into account Members' views.

101. After deliberation, the Board <u>decided</u> to <u>defer</u> exhibition of the draft Fanling/Sheung Shui Extension Area OZP No. S/FSSE/C for public inspection pending PlanD's refinement of the draft Notes and ES, particularly for the "OU (Recreation cum Conservation)" zone to reflect the views of the Board. The revised Notes and ES should be submitted to the Board for further consideration when ready.

Procedural Matters

Agenda Item 7

[Open Meeting]

Information Note and Hearing Arrangement for Consideration of Representations and Comments on the Draft Cha Kwo Ling, Yau Tong, Lei Yue Mun Outline Zoning Plan No. S/K15/26

Fanling, Sheung Shui and Yuen Long East District

Agenda Item 1

[Open Meeting]

The Draft Fanling/Sheung Shui Extension Area Outline Zoning Plan No. S/FSSE/C – Further Consideration of a New Plan

[The item was conducted in Cantonese.]

1. The Secretary reported that the draft Fanling/Sheung Shui Extension Area Outline Zoning Plan No. S/FSSE/C (draft OZP) was to take forward the recommendations of the Task Force of Land Supply on partial development of the Fanling Golf Course (FGC) for housing development and the findings of the 'Technical Study on Partial Development of FGC Site – Feasibility Study' (the Technical Study) which was commissioned by the Civil Engineering and Development Department (CEDD). The draft OZP covered the 32 hectares (ha) of the FGC to the east of Fam Kam Road (the Area), and part of the Area was proposed for public housing to be developed by the Hong Kong Housing Authority (HKHA) with the Housing Department (HD) as the executive arm. The following Members had declared interests on the item:

Mr Andrew C.W. Lai	-	being a Member of HKHA;
(as Director of Lands)		

Mr Paul Y.K. Au	-	being a representative of the Director of Home Affairs
(as Chief Engineer		who was a member of the Strategic Planning
(Works), Home Affairs		Committee and Subsidized Housing Committee of
Department)		НКНА;
Dr C.H. Hau	-	conducting contract research projects with CEDD;

- Dr Conrad T.C. Wong having current business dealings with HKHA;
- Mr Franklin Yu being a member of the Building Committee and Tender Committee of HKHA;

Mr Daniel K.S. Lau]	being a member of Hong Kong Housing Society
Ms Lilian S.K. Law]	(HKHS) which had discussion with HD on housing
		development issues;
Mr K.L. Wong	-	being a member and ex-employee of HKHS which had
		discussion with HD on housing development issues;
Mr Timothy K.W. Ma	-	being a member of the Supervisory Board of HKHS
		which had discussion with HD on housing
		development issues; and
Mr L.T. Kwok	-	his serving organization currently renting premises in
		various estates of HKHA at concessionary rent for
		welfare services, and formerly operating a social
		service team which was supported by HKHA and
		openly bid funding from HKHA.

2. Members noted that Dr Conrad T.C. Wong had tendered an apology for being not able to attend the meeting and Mr Franklin Yu had not yet joined the meeting. According to the procedure and practice adopted by the Town Planning Board (the Board), as the proposed public housing development on the draft OZP was proposed by the Planning Department (PlanD), the interests of the above Members on the item only needed to be recorded and the above Members could be allowed to stay in the meeting.

Presentation and Question Sessions

The following representatives of PlanD were invited to the meeting at this point:
 Mr Anthony K.O. Luk - District Planning Officer/Fanling, Sheung Shui & Yuen Long East (DPO/FS&YLE)
 Mr Patrick M.Y. Fung - Senior Town Planner/Fanling & Sheung Shui

The Chairperson said that on 17.6.2022, the draft OZP for the Area was submitted 4. for Members' consideration and agreement. At that meeting, Members had no objection to adopting the proposed "Residential (Group A)" zone for public housing development in Sub-Area 1 as the basis for plan exhibition but expressed some concerns on the "Other Specified Uses" annotated "Recreation cum Conservation" ("OU (Recreation cum Conservation)") zone Some Members considered that more weight should be given to for Sub-Areas 2 to 4. conservation than recreation in the planning intention of the proposed "OU (Recreation cum Conservation)" zone. As for the schedule of uses under the zone, given that the golf course, which was an existing use, was not incompatible with the conservation intention, it was reasonable to maintain it under Column 1, whereas other Column 1 and 2 uses should be refined to limit the passive recreational uses to those which would not compromise the conservation intention. In the light of the above, the Board agreed that the respective Notes and Explanatory Statement (ES) of the draft OZP should be revised and submitted to the Board for further consideration. Taking into account the comments expressed, PlanD had revised the Notes and ES of the draft OZP which had been provided to Members prior to the meeting and the same with two more plans were tabled as well. Members were invited to further consider whether the draft OZP and its revised Notes and ES were suitable for exhibition for public inspection pursuant to the Town Planning Ordinance (the Ordinance). The statutory public consultation procedure in the plan-making process would be carried out accordingly upon exhibition of the OZP. A hearing would be arranged for the Board's consideration of the representations and comments on the representations in respect of the draft OZP. The Board's decision would then be submitted to the Chief Executive in Council for approval. She then invited PlanD's representatives to brief Members on the revisions made to the draft OZP.

[Ms Sandy H.Y. Wong and Mr Stanley T.S. Choi joined the meeting at this point.]

5. With the aid of a PowerPoint presentation, Mr Anthony K.O. Luk, DPO/FS&YLE, made the following main points:

- (a) in response to Members' comments on the "OU (Recreation cum Conservation)" zone, revisions to the Notes and ES of the zone were proposed;
- (b) the revised Notes:

- (i) the name of the zone was revised to "OU (Conservation cum Recreation)" to better reflect the main planning intention to conserve Sub-Areas 2 to 4;
- (ii) Column 1 uses of the "OU" zone were reviewed according to three principles: (i) with reference to the Master Schedule of Uses for "Conservation Area" ("CA") zone, suitable uses namely 'Nature Reserve', 'Nature Trail' and 'Wild Animals Protection Area' uses were adopted; (ii) existing use and its associated operations and uses including 'Golf Course', 'Park and Garden' and 'Picnic Area' uses would be allowed; and (iii) Government uses and facilities which were compatible with the conservation intention and supported the conservation and recreation functions. namely 'Field Study/Education/Visitor Centre' and 'Public Convenience' would be allowed:
- (iii) relatively active recreational uses and larger Government facilities such as 'Government Use' and 'Public Utility Installation' were put under Column 2 where planning permission from the Board would be required, so that the Board could control and monitor any such uses in this ecologically sensitive area;
- (iv) the planning intention of the "OU" zone was revised to allow only passive recreational uses which were compatible with the conservation intention and which would serve the general public;
- (c) the revised ES:
 - (i) in response to Members' comments that elaborations of the ecological resources and natural habitats to be preserved should be incorporated, the Habitat Map was appended to the revised draft ES as Figure 2. The map could serve as a reference to the future operator for preservation of the important habitats including the woodland, watercourse and swampy woodland;

- (ii) in response to Members' concern on the traffic condition in the Area and the suggestion of setting out the relevant measures, relevant details including the proposed Po Shek Wu Road Flyover (the Flyover) as a traffic improvement measure were set out in the revised ES. Upon completion of the Flyover, some traffic to Fanling Highway would be diverted without entering Po Shek Wu Road Interchange and hence there would be spare road capacity to support additional housing developments in the North District including the proposed public housing development in Sub-Area 1;
- (iii) the relevant parts of the ES in respect of the "OU" zone were amended in accordance with the above-mentioned revisions; and
- (d) subject to the Board's agreement to the above-mentioned revisions to the Notes and ES, the OZP would be exhibited for public inspection pursuant to the Ordinance.

[Mr Franklin Yu and Miss Winnie W.M. Ng joined the meeting during PlanD's presentation.]

6. As PlanD's presentation had been completed, the Chairperson invited questions from Members.

Planning Intention and Schedule of Uses for the "OU" Zone

7. While recognising the proposed revisions were to strike a balance between conservation and passive recreational use, a Member expressed concern on whether such revisions might be perceived by the public as arbitrary without solid grounds. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, explained that for some standard zonings, such as "Residential (Group A)", general reference was made to the Master Schedule of Notes to Statutory Plans (MSN) in determining the Column 1 and Column 2 uses. For "OU" zoning, the Board had the authority to decide on the suitable uses based on relevant considerations. As for the subject "OU" zone, the determination of Column 1 and Column 2 uses was based on the ecological values of the Sub-Areas ascertained by technical assessments and was not an arbitrary decision. The Chairperson supplemented that it had been an established procedure

for PlanD to consult the Board and take on board Members' comments where appropriate prior to the exhibition of OZPs. The conservation intention for the Area had already been incorporated into the draft OZP, and the Board considered in the last meeting that such intention could be made more explicit for the better understanding of the public. Hence, making revisions to the draft OZP in response to Members' comments, and with justifications as presented by PlanD, was perfectly legitimate.

- 8. Some Members raised the following questions:
 - (a) the definition of 'Government Use';
 - (b) the definition of 'Government Refuse Collection Point', and whether it would be of a large size;
 - (c) the definition of 'Wild Animals Protection Area', and whether the tortoises being reared by the Hong Kong Golf Club (HKGC) would be affected by such provision; and
 - (d) the definition of 'Golf Course', and as part of the Area would be developed for public housing, whether the remaining portion would still be regarded as a golf course in view of the reduced scale and number of holes.

9. With the aid of some PowerPoint slides, Mr Anthony K.O. Luk, DPO/FS&YLE, made the following main points:

(a) according to the Definition of Terms (DoT) used in statutory plans, 'Government Use' meant 'any place, structure or premises used directly in connection with or in support of Government administration, or the provision of Government services and facilities for use by and for the benefit of the public'. It included, for example, 'Fire Station' and 'Police Station'. While the Area would generally be served by the committed and planned Government, institution and community (GIC) facilities in the vicinity, taking into account the ecological consideration, 'Government Use' was put under Column 2 to provide flexibility for serving future needs. Any such development should be supported by technical assessments and planning permission from the Board would be required;

- (b) 'Government Refuse Collection Point' meant a place for storage of waste for disposal. It could be relatively large in scale and cause environmental nuisance so that planning permission from the Board would be required. The Area would be served by the existing refuse collection points in the vicinity and the Food and Environmental Hygiene Department had no plan for providing a new refuse collection point within the Area at this juncture. The provision in the "OU" zone was to provide flexibility for serving future needs;
- (c) according to the DoT, 'Wild Animals Protection Area' meant 'any place specified under the Wild Animals Protection Ordinance (Cap. 170) for the protection of wild animals and where entry by or presence of any person was restricted'. The Agriculture, Fisheries and Conservation Department had the authority to delineate a particular area as a wild animals protection area pursuant to the said ordinance and to restrict the entry and operation hours of such area, and Mai Po Marshes Restricted Area was an example. Given that it was a Column 1 use under "CA" zone, it was considered appropriate to put it as a Column 1 use for the "OU" zone as well. The concerned tortoises currently reared by the HKGC were located outside the Area and would not be covered or affected by this provision; and
- (d) with reference to the DoT, 'Golf Course' meant 'a large area of land where golf was played' irrespective of the number of holes within the golf course. The existing golf course in the remaining part of the Area would still be regarded as 'Golf Course' use.

10. In response to the question concerning the tortoises, a Member supplemented that the Wild Animals Protection Ordinance was intended to control human activities but not animals within the protection areas.

11. In response to a Member's question on whether 'Golf Course' use was compatible with the conservation intention, a Member said that many golf courses overseas were located

within conservation areas and there were literatures proving that golf courses could contribute to nature conservation.

12. Having noted that the Area with the existing golf course would be returned to the Government upon expiry of the land lease, a Member expressed concern on whether it was appropriate to put 'Golf Course' use under Column 1 of the "OU" zone. In response, the Chairperson said that as pointed out in the last meeting, the discussion should focus on the land uses of the OZP rather than the future management of the Area. Being an existing use that was not incompatible with the conservation intention, the golf course use should be respected. It had been a practice generally adopted in the plan-making process. On the contrary, it appeared unreasonable to exclude an existing use which was compatible with the planning intention.

13. A Member was of view that it was possible for the general public to mix up the FGC and 'Golf Course' use with the HKGC. The use of terminology should be mindful. In response, the Chairperson said that the subject matter of the discussion was golf course as a land use as defined under the DoT but not the HKGC or any golf club operator.

14. Noting that 'Field Study/Education/Visitor Centre' allowing educational programmes on the environment was incorporated as a Column 1 use under the "OU" zone, a Member enquired whether the planning intention should be further refined to reflect such education purpose. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, said that the revised planning intention was primarily to set out the conservation intention and that passive recreational uses compatible with such intention would be allowed. Educational programmes for schools were currently arranged by the HKGC, and similar programmes could be allowed in future with such provision under the "OU" zone. Specifying the education purpose in the planning intention was to set out the primary objective of the respective land use zone but not to reflect all its Column 1 uses exhaustively.

'Picnic Area' Use

15. A Member, who considered the revisions to the Notes and ES appropriate, asked whether 'Picnic Area' use would attract too many visitors to the Area which might in turn

contravene the conservation intention. In response, with the aid of a PowerPoint slide, Mr Anthony K.O. Luk, DPO/FS&YLE, said that 'Picnic Area' use referred to a place for outing at which food was usually taken in open air and for the enjoyment of the general public. As shown in a photo of Hong Kong Open (a golf tournament) in the FGC, an area was used for picnic during the event. Given that it was an existing operation of the golf course and compatible with the conservation intention, 'Picnic Area' was put under Column 1 for the "OU" zone. The Chairperson supplemented that according to the MSN of "CA" zone, 'Picnic Area' use was a Column 1 use with a remark that it could be added to the OZPs where appropriate. Given that such use was generally adopted as Column 1 use under "CA" zone on other OZPs and the Area would be put under the Government's management, it was considered appropriate to put 'Picnic Area' use under Column 1 of the "OU" zone.

16. A Member, who appreciated PlanD's effort of revising the Notes and ES of the OZP in response to Members' comments, also expressed concern that 'Picnic Area' and 'Park and Garden' uses might lead to an influx of visitors to the Area designated for conservation purpose, causing adverse impacts on the habitats with ecological importance. With such area situated at a location more accessible than Inspiration Lake Recreation Centre of the Hong Kong Disneyland which was a popular picnic area, the number of visitors to the area should be controlled. In response, the Chairperson pointed out that as written in paragraph 12.2.2 of the draft ES regarding the "OU" zone, mitigation measures including control over the number of visitors and activities, and access control to features of conservation importance would be considered with a view to achieving the conservation objective of the zone.

Tree Preservation and Compensation

17. A Member raised questions on preservation of trees of conservation importance within Sub-Area 1 and whether those trees would be specified on the OZP. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, with the aid of a PowerPoint slide, said that according to the Tree Survey of the Technical Study, among the 1,255 trees in Sub-Area 1, there were 70 trees of particular interest including 46 rare/protected species, and 14 of which were recommended to be retained in-situ while the remaining 32 were to be transplanted. None of the 46 rare/protected species would need to be removed. While normally the details of tree preservation proposal would not be specified on the OZP and in its Notes, the Habitat Map would be incorporated into the revised ES of the draft OZP for reference. HD would take into

account the Habitat Map and the findings of the Environmental Impact Assessment (EIA) to preserve those trees as far as practicable during the detailed design stage and implementation of the public housing project. Also, a planning brief of the public housing development would be prepared, in which the tree preservation requirements would be specified. The Chairperson added that following the practice of other OZPs, the principle of preserving species of conservation importance was incorporated into the ES of the draft OZP, but not the details of the tree preservation proposal which were available in the relevant report of the Technical Study and would be specified in the planning brief.

18. A Member enquired on the locations of woodland compensation planting. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, with the aid of a PowerPoint slide, said that the potential reception sites for compensated trees would be located at the turfgrass nursery areas and the fairways of the golf course within Sub-Areas 2 and 3. The specific locations of woodland compensation planting would be determined subject to future site planning and detailed design. Relevant guidelines, including, among others, tree compensation at a ratio of 1:1, would be duly followed. In response to the Chairperson's follow-up question, Mr Luk said that the proposed preliminary locations of woodland compensation planting, which were recommended in the Ecological Impact Assessment (EcoIA), would not be indicated on the draft OZP.

19. A Member had the following observations and comments on the OZP from the tree preservation and compensation perspective:

- (a) the Area was characterised by precious large trees but the protection of which was not featured in the planning intention or the Remarks of the "OU" zone. While there was prevailing mechanism for tree preservation, it was considered desirable to further elaborate on this aspect in the relevant part of the OZP for future reference;
- (b) according to the Tree Survey, about 1,000 trees within Sub-Area 1 would be affected by proposed development thereat, particularly in the area where the playgrounds of the proposed special school would be sited. Whilst mitigation measures were proposed to retain the trees of conservation importance as far as possible, the layout of the proposed developments

should be further improved to minimise the extent of tree felling and to avoid the felling of large trees;

- (c) trees with Diameter at Breast Height (DBH) of 1m or above were identified as large and mature trees in the EIA. However, it was uncommon to find trees with DBH of 1m or above in Hong Kong and the criterion of DBH for mature trees should thus be adjusted from 1m to 500mm. If the criterion was adjusted, more large and mature trees of the Area could be preserved;
- (d) with regard to the tree compensation proposal, while the ratio of 1:1 was a planting criterion in accordance with the relevant technical circular, it was just the basic compensation requirement in terms of number set out therein. If the basic requirement could be met and sufficient growing space for tree planting could be identified, it was also specified in the circular that 'further planning and design consideration with an objective to achieve the compensatory planting ratio of 1:1 in terms of aggregated DBH, i.e. the total DBH of planted trees to have the same total DBH of removed trees should be undertaken as far as practicable'. Since there should be sufficient growing space for tree planting within the Area, the compensation ratio of 1:1 in terms of aggregated or justifications should be given otherwise; and
- (e) for the species of compensatory tree planting, in addition to the native ones, species with large ultimate DBH, such as Banyan Tree and Camphor Tree (DBH up to 1m) should also be considered in order to effectively maintain the site character.

20. In relation to the Member's first comment regarding tree preservation and compensation, the Chairperson enquired whether the principle of preserving or transplanting those precious large trees in a cautious manner could be incorporated into the revised Notes or ES of the OZP. Mr Ivan M.K. Chung, Director of Planning, supplemented that for some special zonings like "CA" and "Site of Special Scientific Interest", trees of conservation importance would be specified in the ES of the respective zone if needed. Given that the "OU" site was Government land which would be handed over to the Government, the established

practice of tree preservation and compensation would be duly followed. Should the Board consider it appropriate to elaborate on this aspect as discussed, the relevant part of the revised ES could be suitably amended to reflect such an aspect. Mr Anthony K.O. Luk, DPO/FS&YLE, added that the Habitat Map would be appended to the revised ES and the need for preserving the important habitats including the woodland, watercourse and swampy woodland had been specified in the ES. If Members considered that the preservation of large trees should also be highlighted, the revised ES could be further refined as appropriate.

21. A Member shared the Member's views concerning the impact of the layout of the proposed development on the existing trees within Sub-Area 1. Taking into account the history and ecological importance of the Area, the building design and disposition of the proposed development should be more sensitive in order to minimise the impact on the ecological features. With reference to Plan 10 of TPB Paper No. 18044, the layout of the proposed housing development should be modified with varied built forms in response to the micro ecology of the Area. For instance, the future design of the proposed social welfare facilities could incorporate a courtyard to preserve the affected large tree.

Ecological Considerations

22. A Member, whilst considering the revised Column 1 and Column 2 uses of the "OU" zone compatible with the conservation intention, said that the revised ES might not clearly explain why only Sub-Area 1 was proposed for development with the remaining sub-areas reserved for conservation purpose, having noted that the Area was one of the land supply options recommended by the Task Force on Land Supply for public housing development and there was public aspiration for providing housing at the Area. Although the EIA had recommended that Sub-Areas 2 to 4 were an integral part in the ecology of the Area which should be conserved together as a whole, especially for the protection of the Chinese Swamp Cypress which was a Class I protected species in China and an endangered species, the information of the ecological value of "Moderate" for Sub-Areas 2 and 3 and "Moderate to High" for Sub-Area 4 as mentioned in the revised ES could not reflect the said critical ecological considerations and the need to conserve the integrity of Sub-Areas 2 to 4. To highlight this ecological consideration for the formulation of the OZP, the relevant paragraphs of the revised ES should be refined.

23. The Chairperson said that reference should be made to the findings of the EcoIA of the EIA for the interpretation of the ecological values of the Sub-Areas. As pointed out by the Member, it appeared that presenting the ecological values alone (e.g. "Moderate") without details of the assessment in the revised ES might not be effective to reflect the ecological importance of the concerned areas. In this regard, the Chairperson enquired and Mr Anthony K.O. Luk, DPO/FS&YLE, explained that according to the EcoIA, the assessment and classification of the ecological values of the Sub-Areas were based on the Technical Memorandum on Environmental Impact Assessment Process (the TM). The ecological findings of Sub-Areas 2 to 3 and that of Sub-Area 4 were detailed in Paragraphs 8.2.4 and 8.2.5 respectively in the revised ES. The Member's concern on conserving Sub-Areas 2 to 4 as a whole had been featured in the last sentence of paragraph 8.2.5. The swampy woodland in Sub-Area 4 was located at a low-lying area with a site level difference of about 8m from Fan Kam Road. The unique environment was conducive to catching and storing water for nurturing the swampy woodland. In this connection, the EcoIA emphasised that the proposed development should not cause any disturbance to the hydrology in the Area and no adverse impacts on the hydrology of the swampy woodland should be caused. Sub-Areas 2 to 4 should be regarded as an integral entity of ecological importance. The above key information concerning Sub-Areas 2 to 4 was highlighted in paragraphs 8.2.5 and 8.2.6 accordingly, despite that the ecological value of Sub-Areas 2 and 3 was "Moderate" as mentioned in paragraph 8.2.4.

24. Another Member said that while the categorisations of ecological values of "Low to Moderate", "Moderate" and "Moderate to High" came from the EIA mechanism, there was no definition of these values in the TM. The values were concluded based on the consultant's expertise with reference to the evaluation criteria set out in the TM which could be subjective. For instance, with the endangered Chinese Swamp Cypress found in Sub-Area 4, it might be arguable that the ecological value of the Sub-Area identified as "Moderate to High" should be "High" instead. Therefore, it was not necessary to include these categorisations on ecological values of the Sub-Areas in the revised ES. Rather, consideration could be given to highlighting the species of ecological importance in the revised ES to justify the planning considerations for the Area.

25. The Chairperson remarked that to facilitate the general public, and not only the ecological experts, to comprehend the ecological considerations of the "OU" zone, the drafting of the ES should not be too technical. While details of assessment on the ecological aspect

were available in the EIA report, it was more appropriate to give an account of the species of ecological importance identified in the Sub-Areas, based on which the planning intention of conservation was derived. The Chairperson suggested and Members agreed to revise the respective paragraphs in the revised ES as discussed. The Vice-chairperson, while supporting the suggestion to delete the descriptive categorisations on ecological values of Sub-Areas, reminded that such approach should be consistently applied in the future plan-making process. If there was any OZP already having similar information in its ES, such information should be deleted when opportunity arose. Another Member advised that the deletion of the categorisations on ecological values from the draft ES would not compromise the understanding of the ecological considerations of the Area since there was a conclusion provided in paragraph 8.2.6.

26. Noting that the "OU" zone covered not only Sub-Areas 2 to 4 but also a minor portion of Sub-Area 1, a Member suggested that the coverage of the "OU" zone be clearly described in the revised ES to avoid confusion.

27. A Member expressed concern that the compensatory tree planting at a ratio of 1:1 within Sub-Areas 2 and 3 might result in a change to the existing ecological character (i.e. from mainly turfgrass with tree clusters at the fringes to a dense woodland), and subsequently affect the hydrology of the Area and the well-being of Chinese Swamp Cypress. Hence, the tree compensation proposal should be enhanced in the detailed design stage. Also, to avoid disturbance to the swampy woodland, the site level difference between Fan Kam Road and Sub-Area 4 and the natural terrain of the Area should not be affected by the proposed development and road works. The Member further enquired whether the area of the potential ecological corridor adjacent to Sub-Area 4 would impose adverse impact on the swampy woodland. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, with the aid of a PowerPoint slide, said that the proposed locations of compensatory tree planting as mentioned above were preliminary for the conduction of the EIA and could be adjusted in the detailed design stage. Given the sensitivity of the swampy woodland, the tree compensation proposal would be further developed in the detailed design stage taking into account the hydrology in the Area. Suitable locations within and/or outside the Area would be identified for tree compensation planting. As shown on the plan of the tree compensation proposal, there would be no tree planting within Sub-Area 4. With regard to the potential ecological corridor adjacent to Sub-Area 4, it fell within Ping Kong area where currently was covered by woodland and no development was expected. It would not affect the conservation intention of the "OU" zone. Another Member supplemented that, theoretically, if there was no earth movement involved in the tree compensatory planting, the hydrology would not be affected. With more trees planted, the water storage capacity in the area would be higher and was favourable to the habitat of swampy woodland. It was also noted that there was a drainage outlet to control the water flow between Chinese Swamp Cypress and the adjacent retention lake. In view of the above, it was not anticipated that the compensatory tree planting in Sub-Areas 2 and 3 would affect the hydrology of the Area and in turn the swampy woodland.

Proposed Development in "R(A)" Zone

28. Noting from Figure 1 of the revised draft ES that there was a narrow gap between the southeastern boundary of the "R(A)" zone and the hatched line delineating Sub-Area 1, a Member enquired whether it was essential to maintain the gap or technical adjustment of the line could be made for better presentation. In response, Mr Anthony K.O. Luk, DPO/FS&YLE, with the aid of a visualiser, said that Sub-Area 1 would not be entirely used for public housing development and a minor eastern portion was earmarked for the protection of the existing green knoll. The delineation of Sub-Areas was to facilitate the conduct of the EIA and EcoIA. The key plan of Sub-Areas in Figure 1 was intended to facilitate the comprehension of the descriptions of Sub-Areas in the revised ES, whereas for the delineation of the zoning boundary, the OZP should be referred to. Regarding the concerned narrow gap, the hatched line could be adjusted to align with the zoning boundary for better presentation.

29. Some Members raised the following questions:

- (a) whether the whole area of Sub-Area 1 was included in the calculation of the gross floor area (GFA) of the public housing development; and
- (b) whether the proposed public vehicle park in the "R(A)" zone could cater for the demand from organising international golf events such as Hong Kong Open.
- 30. Mr Anthony K.O. Luk, DPO/FS&YLE, made the following main points:

- (a) the portion of Sub-Area 1 zoned "OU" was excluded from the calculation of GFA of the proposed public housing development; and
- (b) according to paragraph 11.1.5 of the revised ES for the "R(A)" zone, the planning of public vehicle park should as far as practicable take into account the demand for public parking spaces generated by the holding of local and international sports events in the FGC nearby. Reference would also be made to the existing parking spaces (about 280) available at the open-air car park of the FGC.

Traffic

31. Regarding the elaboration of the proposed Flyover in paragraph 8.2.7 in the revised ES in response to Members' comments, Ms Carrie K.Y. Leung, Chief Traffic Engineer/New Territories West clarified that the proposed Flyover allowed south-bound traffic, instead of north-south bound of Po Shek Wu Road to connect with Fanling Highway west-bound directly, without entering the roundabout, and should be revised accordingly. The Chairperson said that PlanD would liaise with TD for amendments.

32. The Chairperson concluded that Members supported the commencement of plan exhibition on the basis of the draft OZP, the revised Notes and ES proposed by PlanD, subject to the incorporation of the following refinements to the revised ES prior to exhibition:

- to specify that the "OU" zone covered part of Sub-Area 1 and Sub-Areas 2 to 4;
- (b) to emphasise that the plant species of ecological importance should be conserved as far as possible. This principle of ecological consideration should be incorporated before the section on land use zonings as it was applicable to the Area as a whole rather than a particular land use zone; and
- (c) the descriptive wordings on categorisations of ecological values in paragraphs 8.2.3 to 8.2.5 could be deleted, given that the descriptions were too general and could be interpreted out of context. Afterall, details of the

ecological findings and conclusion were available in the EIA report. Relevant parts of the revised ES should be elaborated to highlight the species of ecological importance identified in the Area and the planning intention for conservation. If there was concern on the consistency amongst OZPs, the wordings of categorisations of ecological values could be maintained, but the meaning of which should be specified in the revised ES. To avoid misinterpretation of these technical terms, the suggested deletion was preferred.

[Post Meeting Note: a Member, who was unable to attend the meeting, had put forward comments in writing before the meeting. With the revised Notes and ES of the OZP, the Member agreed that the draft OZP and its Notes and the ES were suitable for public inspection.]

[Professor Roger C.K. Chan joined the meeting during the question and answer session.]

- 33. After deliberation, the Town Planning Board (the Board) decided to:
 - "(a) <u>agree</u> that the draft Fanling/Sheung Shui Extension Area Outline Zoning Plan (OZP) (to be renumbered as S/FSSE/1 upon gazetting) and its revised Notes are suitable for exhibition for public inspection under section 5 of the Town planning Ordinance (the Ordinance); and
 - (b) <u>adopt</u> the revised Explanatory Statement (ES) for the draft Fanling/Sheung Shui Extension Area OZP (to be renumbered as S/FSSE/1 upon gazetting) as an expression of the planning intentions and objectives of the Board for various land use zonings of the OZP and <u>agree</u> that the revised ES is suitable for exhibition for public inspection together with the draft OZP and issued under the name of the Board."

34. Members noted that, as a general practice, the Secretariat of the Board would undertake detailed checking and refinement of the draft OZP including the Notes and ES, if appropriate, before their publication under the Ordinance. Any major revisions would be submitted for the Board's consideration. [The Chairperson thanked PlanD's representatives for their attendance to answer Members' enquiries. They left the meeting at this point.]

Agenda Item 2

Any Other Business

[Open Meeting] [The meeting was conducted in Cantonese.]

35. There being no other business, the meeting was closed at 4:05 p.m.

<u>Provision of Open Space and Major Community Facilities</u> <u>in Fanling/Sheung Shui New Town</u> (Including Fanling/Sheung Shui Extension Area)

Hong Kong Planning		HKPSG Requirement	Pro	Provision		
Type of Facilities	Standards and Guidelines (HKPSG)	(based on planned population)	Existing Provision	Planned Provision (including existing provision)	Shortfall (against planned provision)	
District Open Space	10 ha. per 100,000 persons ¹	36.78 ha	20.18 ha	29.41 ha	- 7.37 ha	
Local Open Space	10 ha. per 100,000 persons ¹	36.78 ha	48.98 ha	66.49 ha	+ 29.72 ha	
Secondary School	1 whole-day classroom for 40 persons aged 12-17	450 classrooms	584 classrooms	584 classrooms	+ 134 classrooms	
Primary School	1 whole-day classroom for 25.5 persons aged 6-11	602 classrooms	648 classrooms	852 classrooms	+ 250 classrooms	
Kindergarten/ Nursery	34 classrooms for 1,000 children aged of 3 to under 6	204 classrooms	226 classrooms	291 classrooms	+ 87 classrooms	
District Police Station	1 per 200,000- 500,000 persons	0	0	0	0	
Divisional Police Station	1 per 100,000- 200,000 persons	1	1	1	0	
Hospital	5.5 beds per 1,000 persons	2,068 beds	658 beds	2,158 beds	+90 ² beds	
Clinic/Health Centre	1 per 100,000 persons	3	2	3	0

Sports Ground/ Sports Complex	1 per 200,000 to 250,000 persons ¹	1	1	1	0
Swimming Pool Complex - standard	1 complex per 287,000 persons ¹	1	1	1	0

Notes:

The planned population of the Fanling/Sheung Shui New Town (including Fanling/Sheung Shui Extension Area) would be about 376,000 persons. If excluding transients, the overall planned population is about 367,800. All population figures have been adjusted to the nearest hundred.

- 1. The requirements excluded planned population of transients.
- 2. The provision of hospital beds would be monitored and addressed by the Hospital Authority on a regional basis.
- 3. This is a long-term goal and the actual provision would be subject to the consideration of the Social Welfare Department in the planning and development process as appropriate.
- 4. Provision of DEC Centre is only applicable for new development area.
- 5. Provision of NEC is only applicable for clusters of new and redeveloped housing areas with 15,000 to 20,000 persons.
- 6. The planning standard of the CCS Facilities (including both centre-based and home-based) is population-based. There is no rigid distribution between centre-based CCS and home-based CCS stated in the Elderly Services Programme Plan. Nonetheless, in general, 60% of CCS demand will be provided by home-based CCS and the remaining 40% will be provided by centre-based CCS.

草圖編號 S/FSSE/1 的建議修訂 PROPOSED AMENDMENT TO DRAFT PLAN No. S/FSSE/1

ITEM A

由「住宅(甲類)」地帶改劃為「未決定用途」地帶 REZONING FROM "RESIDENTIAL (GROUP A)" TO "UNDETERMINED"

> (參看附表) (SEE ATTACHED SCHEDULE)

> > 規劃署遵照城市規劃委員會指示擬備 PREPARED BY THE PLANNING DEPARTMENT UNDER THE DIRECTION OF THE TOWN PLANNING BOARD

圖則編號 PLAN No.

R/S/FSSE/1 - A1

- a use or a change of use approved under the Buildings Ordinance which relates to an existing building and permitted under a plan prevailing at the time when the use or change of use was approved.
- (4) Except as otherwise specified by the Town Planning Board, when a use or material change of use is effected or a development or redevelopment is undertaken, as always permitted in terms of the Plan or in accordance with a permission granted by the Town Planning Board, all permissions granted by the Town Planning Board in respect of the site of the use or material change of use or development or redevelopment shall lapse.
- (5) Road junctions, alignments of roads, and boundaries between zones may be subject to minor adjustments as detailed planning proceeds.
- (6) Temporary uses (expected to be 5 years or less) of any land or building are always permitted as long as they comply with any other relevant legislation, the conditions of the Government lease concerned, and any other Government requirements, and there is no need for these to conform to the zoned use or these Notes. For temporary uses expected to be over 5 years, the uses must conform to the zoned use or these Notes.
- (7) The following uses or developments are always permitted on land falling within the boundaries of the Plan except where the uses or developments are specified in Column 2 of the Notes of individual zones:
 - (a) provision, maintenance or repair of plant nursery, amenity planting, open space, rain shelter, refreshment kiosk, road, bus/public light bus stop or lay-by, cycle track, taxi rank, nullah, public utility pipeline, electricity mast, lamp pole, telephone booth, telecommunications radio base station, automatic teller machine and shrine;
 - (b) geotechnical works, local public works, road works, sewerage works, drainage works, environmental improvement works, marine related facilities, waterworks (excluding works on service reservoir) and such other public works co-ordinated or implemented by Government; and
 - (c) maintenance or repair of watercourse and grave.
- (8) In any area shown as 'Road', all uses or developments except those specified in paragraph (7) above and on-street vehicle park require permission from the Town Planning Board.

(9) In the "Undetermined" zone, all uses or developments except those specified in paragraph (7) above, golf course, place of recreation, sports or culture, public convenience and public vehicle park (excluding container vehicle) require planning permission from the Town Planning Board.

(9)(10) Unless otherwise specified, all building, engineering and other operations incidental to and all uses directly related and ancillary to the permitted uses and developments within the same zone are always permitted and no separate planning permission is required.

(10)(11) In these Notes, "existing building" means a building, including a structure, which is physically existing and is in compliance with any relevant legislation and the conditions of the Government lease concerned.

RESIDENTIAL (GROUP A)

- 1 -

Column 1	Column 2
Uses always permitted	Uses that may be permitted with or
	without conditions on application
	to the Town Planning Board
Ambulance Depot	Commercial Bathhouse /-
Flat	Massage Establishment
Government Use (not elsewhere specified)	Eating Place
House	Educational Institution
Library	Exhibition or Convention Hall
Market	Government Refuse Collection Point
Place of Recreation, Sports or Culture	Hospital
Public Clinic	Hotel

School (in free standing purpose designed-	Public Convenience
building only)	Public Transport Terminus or Station
Social Welfare Facility	(not elsewhere specified)
Utility Installation for Private Project	Public Utility Installation
	Religious Institution
	School (not elsewhere specified)
	Shop and Services (not elsewhere specified)

Training Centre

In addition, the following uses are always permitted (a) on the lowest three floors of a building, taken to include basements; or (b) in the purpose-designed non-residential portion of an existing building, both excluding floors containing wholly or mainly car parking, loading / unloading bays and / or plant room:

Eating Place Educational Institution Institutional Use (not elsewhere specified) Off-course Betting Centre Office Place of Entertainment Private Club Public Convenience Recyclable Collection Centre School Shop and Services Training Centre

RESIDENTIAL (GROUP A) (cont'd)

Planning Intention

This zone is intended primarily for high-density residential developments. Commercial uses are always permitted on the lowest three floors of a building or in the purpose designed non residential portion of an existing building.

Remarks

- (a) No new development, or addition, alteration and/or modification to or redevelopment of an existing building shall result in a total development and/or redevelopment in excess of a maximum plot ratio of 7.0 and the maximum building height in terms of metres above Principal Datum as stipulated on the Plan, or the plot ratio and height of the existing building, whichever is the greater.
- (b) In determining the maximum plot ratio for the purposes of paragraph (a) above, any floor space that is constructed or intended for use solely as public vehicle parks, public transport facilities and Government, institution or community facilities, as required by the Government, may be disregarded.
- (c) In determining the maximum plot ratio for the purposes of paragraph (a) above, any floor space that is constructed or intended for use solely as car park, loading/unloading bay, plant room, caretaker's office and caretaker's quarters, or recreational facilities for the use and benefit of all the owners or occupiers of the domestic building or domestic part of the building, provided such uses and facilities are ancillary and directly related to the development or redevelopment, may be disregarded.
- (d) Where the permitted plot ratio as defined in Building (Planning) Regulations is permitted to be exceeded in circumstances as set out in Regulation 22(1) or (2) of the said Regulations, the plot ratio of the building on land to which paragraph (a) applies may be increased by the additional plot ratio by which the permitted plot ratio is permitted to be exceeded under and in accordance with the said Regulation 22(1) or (2), notwithstanding that the relevant maximum plot ratio specified in paragraph (a) above may thereby be exceeded.
- (e) Based on the individual merits of a development or redevelopment proposal, minor relaxation of the plot ratio and/or building height restrictions stated in paragraph (a) above may be considered by the Town Planning Board on application under section 16 of the Town Planning Ordinance.

(currently occupied by two major low-rise, low-density residential developments, namely The Green and Miami Crescent), Cheung Lek and Tsiu Keng areas (occupied by a piece of low-laying flat land containing various huge parcels of active farmland intermixed with multiple recognised villages). To the west of the Area across Fan Kam Road is the remaining part of the FGC (about 140 ha) (i.e. the Eden Course and New Course), along with three graded historic buildings (Fanling Club House, Fanling Half-way House, and Fanling Lodge).

6. <u>STRATEGIC PLANNING CONTEXT</u>

- 6.1 After public consultation on various land supply options in mid-2018, the Task Force on Land Supply (TFLS) recommended, among others, the Government to accord priority to studying and resuming the 32 ha of land of the FGC to the east of Fan Kam Road to alleviate the acute shortage of land in the short-to-medium term. The Government announced in early 2019 the acceptance of the land supply options recommended by the TFLS and as one of the recommended options, decided to study the partial development of the FGC for the purpose of housing development, with emphasis on public housing.
- 6.2 The Government subsequently commissioned a detailed technical study (namely "Technical Study on Partial Development of Fanling Golf Course Site Feasibility Study" (the Technical Study)) to ascertain the highest flat yield attainable in the short-to-medium terms (with emphasis on public housing) on the 32 ha land east of Fan Kam Road of the FGC. The Technical Study was completed in May 2022. According to the Technical Study, the northern-most portion of the Area with an area of 9.54 ha is recommended for public housing development and school use while the remaining portions to the south are recommended to be preserved with minimal development mainly on ecological considerations.

7. <u>POPULATION</u>

There is currently no population in the Area, except the staff currently accommodated in the northern part of the Area for the FGC. It is expected that the *The* planned population to be accommodated at the northern-most portion of the Area would be about 33,600 subject to the further review on the development intensity of the public housing development.

8. <u>OPPORTUNITIES AND CONSTRAINTS</u>

- 8.1 Opportunities
 - 8.1.1 Vast majority of the Area is Government Land (GL). The Area is generally flat land and is served by existing vehicular access. No additional land resumption/clearance, major site formation and provisions of major infrastructures will be required and thus the proposed public housing development at suitable part of the Area can be

relatively natural. Man-made turfgrass is also found in this sub-area. Sub-Area 4 is functionally linked with Sub-Areas 2 and 3 in ecological According to the EcoIA, the swampy woodland is of terms. particular ecological importance. Flora and fauna species of conservation importance including Red Muntjac Muntjac, Masked Palm Civet Paguma larvata and Somanniathelphusa zanklon were recorded in this sub-area. Moreover, Aquilaria sinensis, 18 trees with DBH of 1m or more, and a group of Chinese Swamp Cypress Glyptostrobus pensilis, which is a Class I protected species in China and also a globally Critically Endangered Species were identified in the swampy woodland. Protection of the Chinese Swamp Cypress would require preserving the swampy woodland as well as the hydrology in the Sub-Areas 2 to 4. In addition, though no significant nursery/breeding ground was recorded, the marsh in the area provides potential breeding habitat. The EcoIA emphasises the importance of preserving the swampy woodland because it is difficult to recreate the woodland due to its old age.

- 8.2.6 The EcoIA concludes that Sub-Areas 2 to 4 should be preserved as a whole with minimal development. Besides, consideration should be given to ensure that no adverse ecological impact would be resulted in the ecologically sensitive Sub-Areas 2 to 4. The Habitat Map formulated under the EcoIA is attached in **Figure 2**. According to the EcoIA, important habitats within the Sub-Areas 2 to 4 including the woodland (covering those forming the ecological corridors), watercourse and most importantly, the swampy woodland where the Chinese Swamp Cypress grown should be preserved.
- 8.2.7 In accordance with the Environmental Impact Assessment (EIA) Ordinance, the EIA report of the Technical Study was exhibited for public comments from 20 May 2022 to 18 June 2022. The Advisory Council on the Environment (ACE) considered the EIA report on 8 August 2022 and 19 August 2022, and conveyed their views to the Director of Environmental Protection (DEP). Taking into account ACE's views, DEP on 31 August 2022 wrote to the project proponent *i.e.* CEDD to request additional information on the EIA report. On 3 May 2023, ACE considered the additional information from CEDD on 18 April 2023. The project proponent formally submitted the additional information to DEP on 4 May 2023. Having considered the public comments received during the public inspection period from 20 May 2022 to 18 June 2022, the comments from ACE received on 24 August 2022, the additional information from CEDD and comments from ACE at its meeting on 3.5.2023, DEP approved the EIA report on 11 May 2023, subject to a list of approval conditions.
- 8.2.8 The EIA approval conditions state that the project proponent should review the layout design, building height and development density of the public housing development, with a view to preserving the woodland within the housing site as far as possible and minimising the impact on tree preservation, landscape and visual aspects arising

from the housing development. The project proponent is required to submit reports on layout design, landscape and visual aspects, etc. to DEP for approval before commencement of the public housing development. As the development parameters are subject to changes pending the project proponent's review, an interim zoning arrangement for Sub-Area 1 as a stop-gap arrangement allowing the flexibility to take on board the outcome of the review and DEP's corresponding decision is necessary.

Traffic and Transport Infrastructure Capacity

- 8.2.7 Po Shek Wu Road Interchange, Castle Peak Road Kwu Tung / Fan Kam Road and Po Kin Road / Fan Kam Road are the critical junctions supporting the new traffic generated from the proposed development in the Area. At present, Po Shek Wu Road Interchange is operating close to capacity. To resolve the traffic capacity problems of this critical junction to support various planned housing developments in the area, a technical feasibility study for the proposed Po Shek Wu Road Flyover is currently being undertaken, which aims to allow south-bound traffic to bypass the roundabout and to connect with Fanling Highway directly without the need to enter into the roundabout. According to the technical feasibility study, upon completion of the Po Shek Wu Road Flyover, there would be spare road capacity to support additional housing developments in the area including the proposed public housing development at FGC Site.
- 8.2.8 Fan Kam Road, located along the western periphery of the Area, is subject to severe road capacity problems, which limit the development potential of the Area; and thus, vehicular ingress/egress to/from the Area is proposed to be made via Ping Kong Road, instead of Fan Kam Road. In order to support the proposed development in the Area, road improvement works along Ping Kong Road may be required.
- 8.2.9 Traffic impact assessment has been conducted to assess the potential traffic and transport impact generated from the proposed public housing development in the Area, and to propose mitigation measures to ascertain that the public transport facilities, road networks and junctions in the surrounding area have sufficient capacity to meet the traffic and transport demand.

Other Infrastructural and Geotechnical Constraints

8.2.10 The Area is overlooked by steep natural terrain and may be affected by potential natural terrain landslide hazards. A natural terrain hazard study may be required prior to site formation/construction to assess the scale of hazards and propose suitable hazard mitigation measures, if found necessary.

9. <u>GENERAL PLANNING INTENTION</u>

The general planning intention of the Area is to develop the northern-most portion of the Area for public housing development and to conserve the remaining southern portion of the Area which is physically and ecologically connected as a whole and of higher ecological values. The remaining southern portion of the Area is intended primarily to conserve existing natural landscape and ecological features for appreciation by the community. It is also intended for the provision of space for passive recreational uses which are compatible with the conservation intention and which serve the general public. Certain facilities in support of the conservation and/or recreational uses may be permitted subject to planning permission from the Board.

10. PLANNING THEME AND URBAN DESIGN CONCEPT

Planning Theme

10.1 Given that the Area is located to the immediate south and southwest of the FSS New Town and to the immediate east of the existing New and Eden Course of the FGC respectively, the theme of the OZP is to develop the Area as an extension of the FSS New Town with emphasis on integration of public housing development with preservation of existing areas of ecological values at the southern portion of the Area.

Urban Design and Landscape Framework

- 10.2 Based on the findings of the EcoIA, the proposed public housing development would be concentrated in the northern-most portion of the Area. The remaining southern portion of the Area, where are mainly occupied by golf fairways, tree clusters, streams and wetland, and fauna and flora, would be protected and enhanced with minimum development except passive recreational uses which serve the general public.
- 10.3 For the northern-most portion of the Area, low-rise hilly terrains with trees clusters worthy of retention are identified at the south-eastern part of Sub-Area 1, where development should be avoided. Major east-west ventilation corridors have also been identified based on the air ventilation assessment conducted under the Technical Study. On top of these considerations, a building height profile is designed to achieve height variations in response to the building heights of existing and planned developments in the vicinity where possible. In addition, building separation should be provided in accordance with Sustainable Building Design Guidelines where possible. The proposed low-rise school building will serve as a visual relief for the main entrance to the Area.
- 10.4 To comply with the EIA approval conditions, the project proponent will review and revise the Layout Plan by adjusting the housing footprint, disposition and density, with an aim to minimising the number of trees to be felled and preserving the 0.39 ha of woodland at the centre of Sub-Area 1 as far as practicable. A detailed Landscape and Visual Plan would also be

prepared to review the building heights for the proposed housing development and adopt a stepped height profile with the building height descending from the north to south, with a view to reducing the footprint while at the same time minimising the visual impact to the surrounding rural environment. The project proponent should also minimise tree felling in Sub-Area 1 to reduce visual impact and to use the trees and woodland for generating a natural outlook as well as a barrier to minimize light impact to the surrounding rural environment. The project proponent is required to submit relevant reports to DEP for approval before commencement of the public housing development.

11. <u>LAND USE ZONINGS</u>

- 11.1 <u>"Residential (Group A)" ("R(A)"): Total Area 9.54 ha</u>
 - 11.1.1 The "R(A)" zone is located entirely within Sub-Area 1. The planning intention of this zone is primarily for high-density residential developments. Commercial uses are always permitted on the lowest three floors of a building or in the purpose-designed non-residential portion of an existing building.
 - 11.1.2 The "R(A)" zone also reflects the intention to concentrate public housing development in the northern-most portion of the Area, which is located immediately adjacent to the existing urbanised area, and to develop the Area as an extension of the FSS New Town taking into account the availability of the existing community, public open space and infrastructural facilities in the New Town in order to achieve an effective synergy effect to form an integrated and supportive neighbourhood.
 - 11.1.3 The "R(A)" zone is planned for a high rise, high density public housing development subject to a maximum PR of 7 and building height restriction as shown on the Plan. A public transport interchange, public vehicle parks, a community hall, a kindergarten and various GIC facilities as well as supporting retail/commercial uses are also provided within the public housing site. A proposed special school is planned at the northern part of the "R(A)" zone to serve the public needs. The low-rise school building will also serve as a visual relief for the main entrance to the Area.
 - 11.1.4 A building height profile would be formulated to achieve height variations in response to the building heights of existing and planned developments in the vicinity where possible.
 - 11.1.5 In order to facilitate provision of public vehicle parks, public transport facilities such as public transport interchange as well as GIC facilities, any floor space that is constructed or intended for use solely as public vehicle parks, public transport facilities and GIC facilities, as required by the Government, may be disregarded in determining the maximum PR of the development and/or redevelopments. The planning of

public vehicle parks should, as far as practicable, take into account the demand for public parking spaces generated by the holding of local and international sports events in the FGC nearby.

- 11.1.6 As recommended in the Air Ventilation Assessment (Expert Evaluation) (AVA(EE)) conducted for the planned public housing development, further quantitative AVA(s) are recommended for optimising the scheme and assessing the effectiveness of the mitigation measures recommended in the AVA(EE) at detailed design stage. The requirement for further quantitative AVA studies and design measures for the public housing site will be incorporated in the respective planning brief for implementation as appropriate.
- 11.1.7 In the circumstances set out in Regulation 22 of the Building (Planning) Regulations, the maximum plot ratio specified in the Notes of the Plan may be increased by what is permitted to be exceeded under Regulation 22. This is to maintain flexibility for unique circumstances such as dedication of part of a site for road widening or public uses.
- 11.1.8 To provide flexibility for innovative design adapted to the characteristics of particular sites, minor relaxation of the PR and/or building height restrictions for the "R(A)" zone may be considered by the Board on application under section 16 of the Town Planning Ordinance. Each application for minor relaxation of PR/building height restrictions will be considered on its own merits.
- 11.1.9 The PR control under the "R(A)" zone is regarded as being stipulated in a "new or amended statutory plan" according to the Joint Practice Note No. 4 "Development Control Parameters Plot Ratio/Gross Floor Area", and shall be subject to the streamlining arrangements stated therein.

11.211.1 "Other Specified Uses" annotated "Conservation cum Recreation" ("OU (Conservation cum Recreation)") : Total Area 21.65 ha

Land zoned "OU (Conservation cum Recreation)" covers the 11.2.111.1.1 remaining southern portion of the Area which is of higher ecological significance according to the EcoIA under the Technical Study. The zone covers Sub-Areas 2 to 4 (about 20.59 ha, 95%), as well as a minor portion of Sub-Area 1 between Ming Tak Court and the "R(A)" zone (about 1.06 ha, 5%) for protecting the existing green knoll which forms part of the ecological corridor. The planning intention of this zone is primarily to conserve existing natural landscape and ecological features. It is also intended for the provision of space for passive recreational uses which are compatible with the conservation intention and which serve the general public, taking into account the existing golf course use. As a vast majority of the area zoned "OU (Conservation cum Recreation)" is GL, the Government would strive to achieve conservation of habitats and ensure that no adverse ecological/environmental impact would be created.

11.2.211.2.2 Taking into account the ecological values of the area zoned "OU (Conservation cum Recreation)", due regard is given to the preservation of the ecological corridor and hydrology, flora and fauna species of conservation importance, trees of particular interest, as well as minimising human disturbance to the existing ecology. The swampy woodland in Sub-Area 4 (Figure 1), which is of particular high ecological value, should be preserved. Mitigation measures including control over the number of visitors and activities, operation hours, access control to features of conservation importance would need to be considered to ensure proper conservation and management of the area and preservation of the above features of ecological importance. As diversion of stream, filling of land/pond or excavation of land may cause adverse impact on the existing environment and ecology in the area, permission from the Board is required for such activity except public works co-ordinated or implemented by Government, and maintenance or repair works.

11.2 <u>"Undetermined" ("U")</u>: Total Area 9.54 ha

11.2.1 The "U" zone is located entirely within Sub-Area 1 which is to provide interim planning control before the review to be conducted by CEDD and DEP's corresponding decision on layout, visual and landscape of the future public housing development. The covering Notes of this zone provides the flexibility for recreational uses while the development parameters of the residential development are being reviewed.

12. TRANSPORT AND COMMUNICATION

12.1 Road Network

- 12.1.1 The Area is bounded by Ping Kong Road to the east, Po Kin Road to the north, Fan Kam Road to the west and an access road to Tai Lung to the south. The north end of Fan Kam Road is directly connected with Po Shek Wu Road Interchange, which is an interchange with Fanling Highway for inter-district traffic. Based on the existing road network, traffic to/from the proposed development will mainly rely on Ping Kong Road, Po King Road and Fan Kam Road to connect with Fanling Highway.
- 12.1.2 Fanling Highway is a dual-three-lane/dual-four-lane expressway connecting with Tolo Highway to the east and San Tin Highway to the west. Fanling Highway is connected with Po Shek Wu Road Interchange and So Kwun Po Interchange, both of which provide the inter-district connection and intra-district connection for traffic in the North District for both sides of Fanling Highway. The section of Fanling Highway between Po Shek Wu Road Interchange and San Tin Highway is planned to be widened to a dual four-lane expressway, and additional interchange to the widened Fanling Highway will be added at Pak Shek Au and Kwu Tung. A direct link connecting Po Shek Wu
