Dear Sir,

Representation Letter to the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1

Representer: Po Lam Tong

1. Introduction

- 1.1 The Po Lam Tong (PLT) (寶林堂), the Representer, has appointed Masterplan Limited as its authorized agent to make this representation. PLT is the land owner and management body of Sai Chuk Lam Zen Monastery (SCL) (西竺林禪寺) and Kei Yuen Temple (KYT) (祇園寺).
- 1.2 This representation is related to the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1 (the OZP), in particular to the "Government, Institution and Community (1)" [GIC(1)] zone and "Green Belt" (GB) zone that has separately covered portions of the SCL land area. The land lots in GIC(1) that belong to SCL include DD 358, Lot 47 (portion of), 72, 348 and 349. The land lots in Green Belt that belong to SCL include DD 358 Lot 46, 47 (portion of), 48, 71, 351 and 352. This is also related to the GB zone that has designated the temple area of KYT, and involves the land lots DD358, Lot 345, 345 ext, 346 and 347. (Annex 1)

2. Object to the Draft OZP

- 2.1 The Representer would like to object to the Draft OZP in relation to:

- (i) Site 1, Area A (Figure 1): The designation of land that forms part of the religious functions, ancillary uses and built area of SCL as Green Belt;
- (ii) Site 1, Area B (Figure 1): The designation of land that forms part of the religious functions, ancillary uses and built area of the SCL as Green Belt; and
- (iii) Site 2 (Figure 1): The designation of land that forms the whole of the religious functions, ancillary uses and built area of KYT as Green Belt, and not including a small portion of the KYT land lot into the OZP;

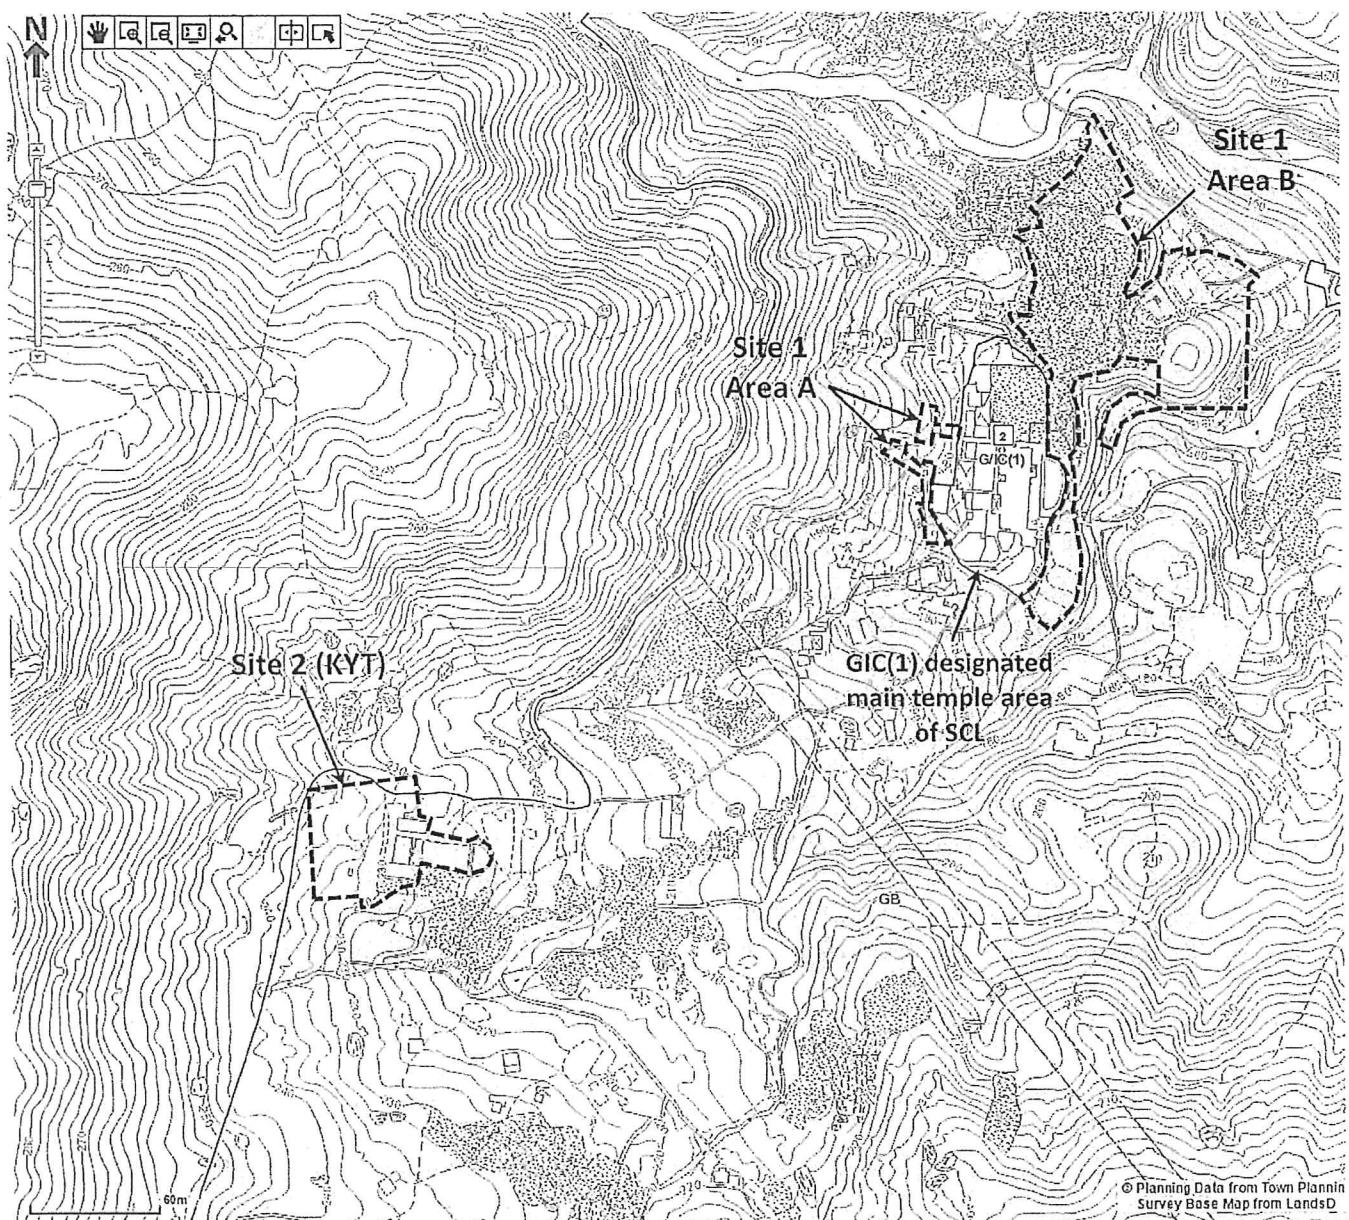

Figure 1: OZP Extract of the objection subject matters

3. Proposed Amendments

- (a) Proposed Amendment at Site 1, Area A:
- Area A to be incorporated into GIC(1) zone to form a holistic planning land use of religious building and ancillary facilities under the same management of SCL. (Figure 2)
- (b) Proposed Amendment at Site 1, Area B:
- Area B to be incorporated into the GIC(1) zone to form a holistic planning land use of religious building and ancillary facilities under the same management of SCL. (Figure 2) Also to enable an upgrade of a meditation venue.

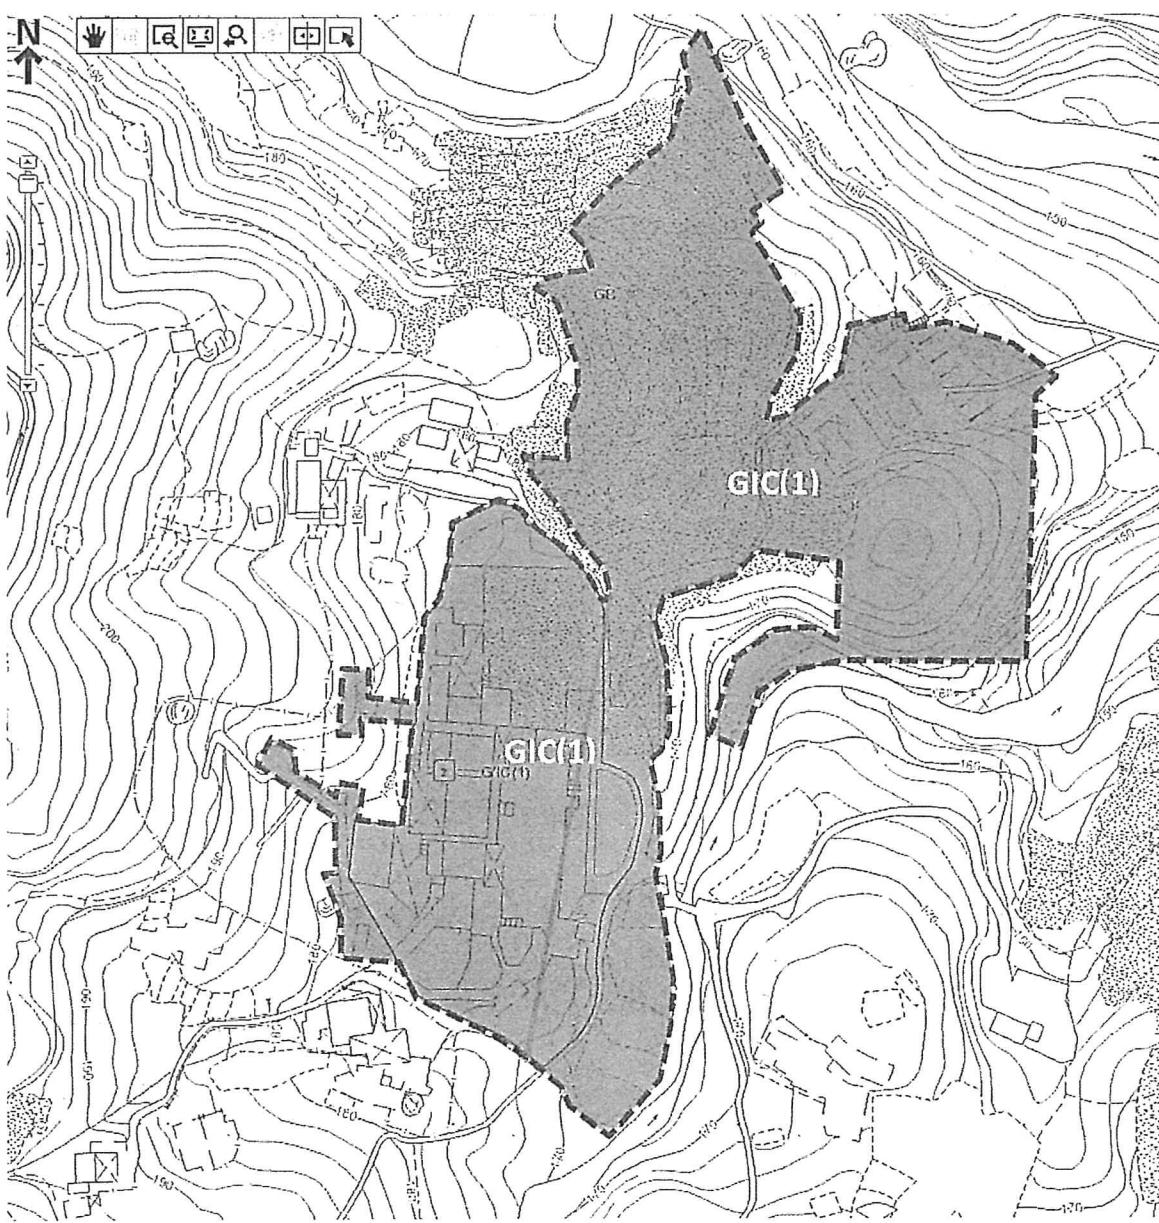

Figure 2: Proposed Amendment at Site 1

(c) Proposed Amendment at Site 2:

- Site 2 to be amended to GIC(1) zone, and to amend the OZP boundary to extend to include the GIC(1) zone on the land lot of KYT. (Figure 3)

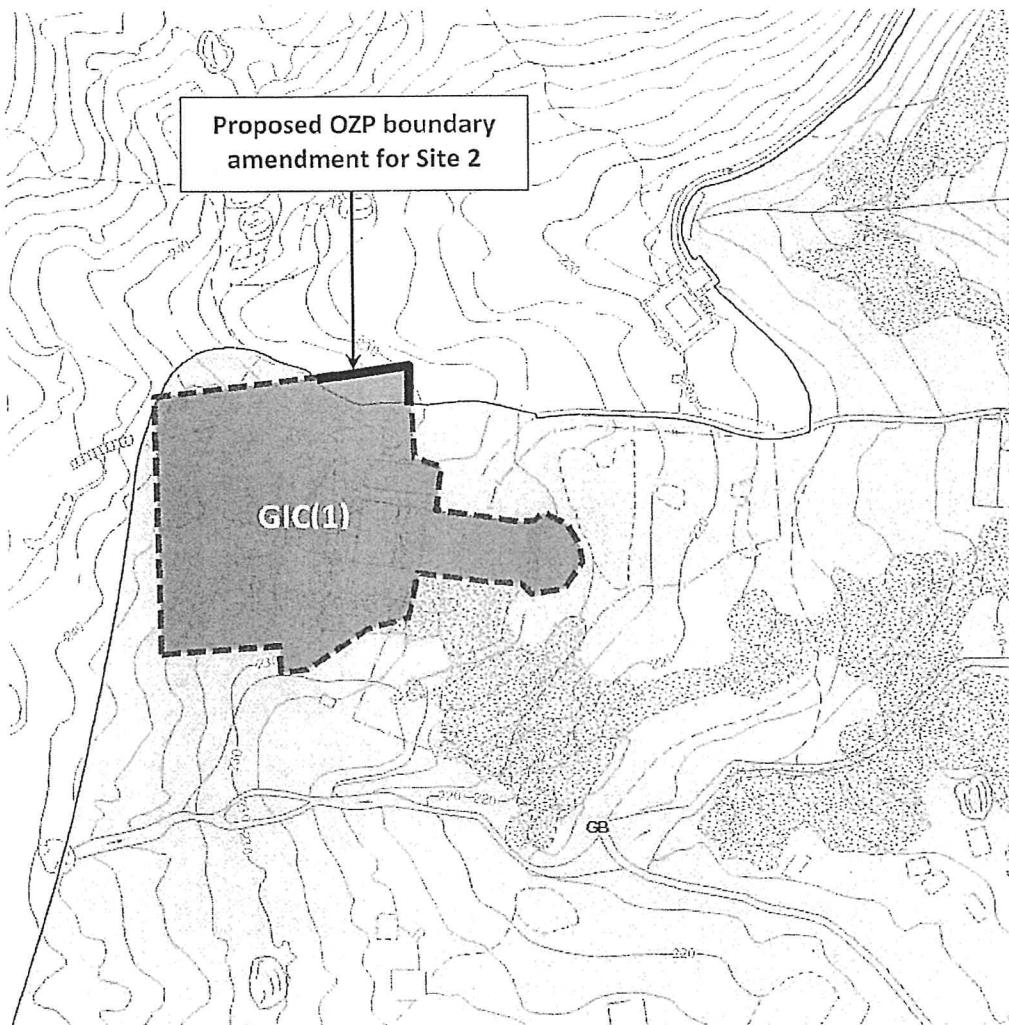

Figure 3: Proposed Amendment at Site 2

4. Planning Justifications

(a) No public consultation or Contact by the Planning Department

4.1 During the preparation stage of the Draft OZP, neither Po Lam Tong, Sai Chuk Lam Zen Monastery nor Kei Yuen Temple were contacted by the Planning Department for consultation or comments. It is standard procedure for the PlanD to meet with and solicit the views of the existing recognized communities (i.e. major stakeholders), whenever there are new plans. This is unfair to the Representer and misconduct by the PlanD in failing to carry out a thorough assessment or consultation to understand the religious operations and needs of SCL and KYT, before determining a land use zoning in Site 1 (Area A and B) and Site 2.

(b) Long-established History and Ownership

4.2 The Sai Chuk Lam Zen Monastery was built in 1936 by a high monk 楊西竺 (also known as 喬禪老和尚). The Kei Yuen Temple was built in 1934 by the same high monk 楊西竺 and another high monk 寶光. The two properties have since been used for Buddhist religious activities, and have been passed down to their disciples to manage and operate. The SCL and KYT are presently under the ownership and management of the Po Lam Tong, which supervises both SCL and KYT.

(c) Existing Religious Uses as Defined in Covering Notes, para. (3)

4.3 In the Covering Notes of the OZP, at para. (3), it is stated that: "No action is required to make the use of any land or building which was in existence immediately before the first publication in the Gazette of the notice of the draft development permission area plan conform to this Plan, provided such use has continued since it came into existence." The SCL and KYT are existing religious uses that have existed since the 1930s up to present day, and will continue to be used for religious purposes in the future. Therefore, the Site 1 and 2 should reflect the existing religious use as GIC(1).

4.4 In fact, KYT at Site 2 is registered as a temple under the Chinese Temple Ordinance since 1979. (Annex 4) The documentation proves that its use is intended and has always been for temple use, and in our case, related to Buddhist practices. According to the Lands Department survey map, dated 1956, the Site 2 has been designated as a "Temple". (Annex 5)

(d) Not Temporary Uses, but Long-term Religious Uses

4.5 The religious uses and structures at Site 1 (Area A and B) and Site 2 are *not* "temporary use or development of any land or building not exceeding a period of two months" as stated in the Covering Notes of the OZP, para. (10)(a). They are long term uses, with formed land and built-up structures, that are ancillary and essential to the operation of the existing religious institution. Therefore, the temporary use definition does not apply.

4.6 At Site 1, Area A, there are ancillary structures for the religious uses of SCL (Figure 4 and Photos 1 to 6) including:

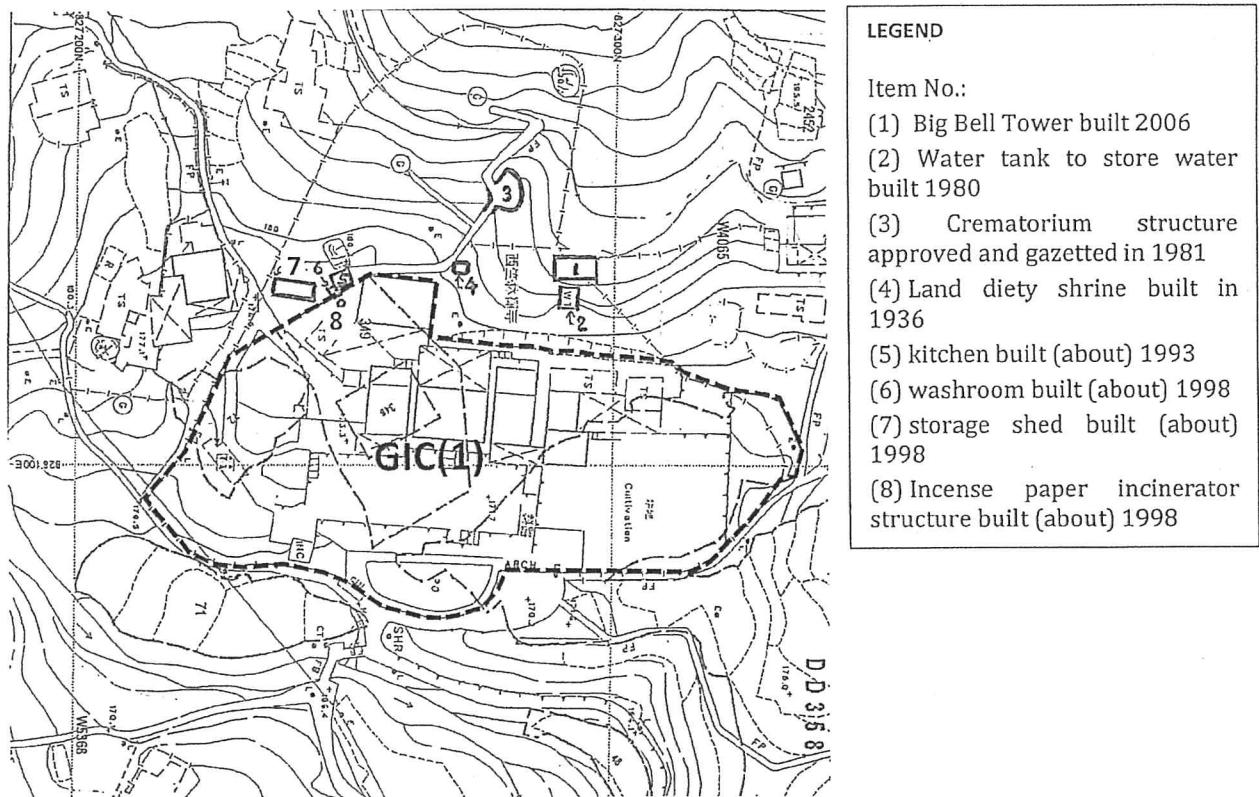

Figure 4: Location of Ancillary Structures in relation to current GIC(1) zone

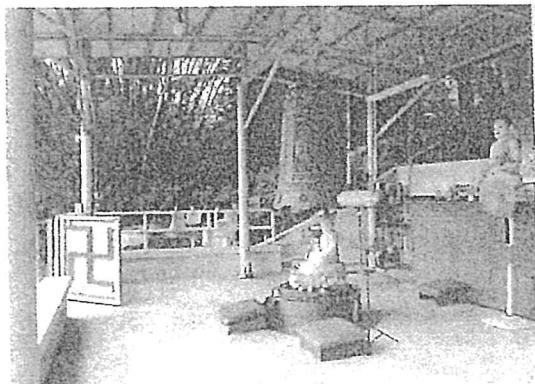

Photo 1: Big Bell Tower, Item (1)

Photo 2: Incense paper incinerator structure Item (8) and the Ancestral Hall (Yellow building)

Photo 3: Crematorium only for Buddhist monks and nuns, Item (3)

Photo 4: Concrete footpath leading up to Crematorium, Item (3)

Photo 5: Storage Shed, Item (7)

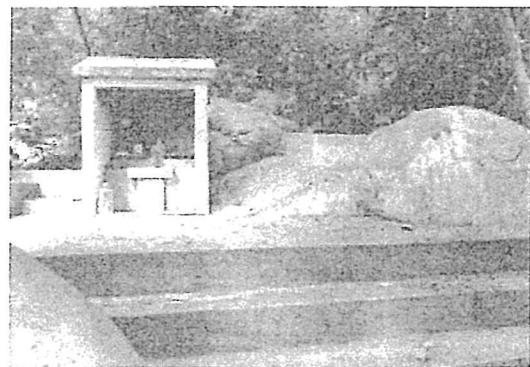

Photo 6: Land Diety Shrine on concrete surface, Item (4)

4.7 More photos would be shown at the hearing.

- 4.8 Site 1, Area B forms an important part of the religious activities of SCL, including agricultural cultivation and a Zen meditation platform. (Figure 5 and Photo 7) The agricultural cultivation activities has been part of the operation of the temple for self-sustaining production of food, and at the same time, it forms an integral part of their Zen meditation practice. This would be further elaborated at the hearing.
- 4.9 The quiet, tranquil and natural environment is most suitable for these activities. There are two Living Quarters that are farther from the busy main temple, and provide a more quiet and solitude setting. The Living Quarters are also used by visiting guests of Buddhist monks. (Figure 5)

Photo 7: The meditation platform, planned for Meditation Hall building.

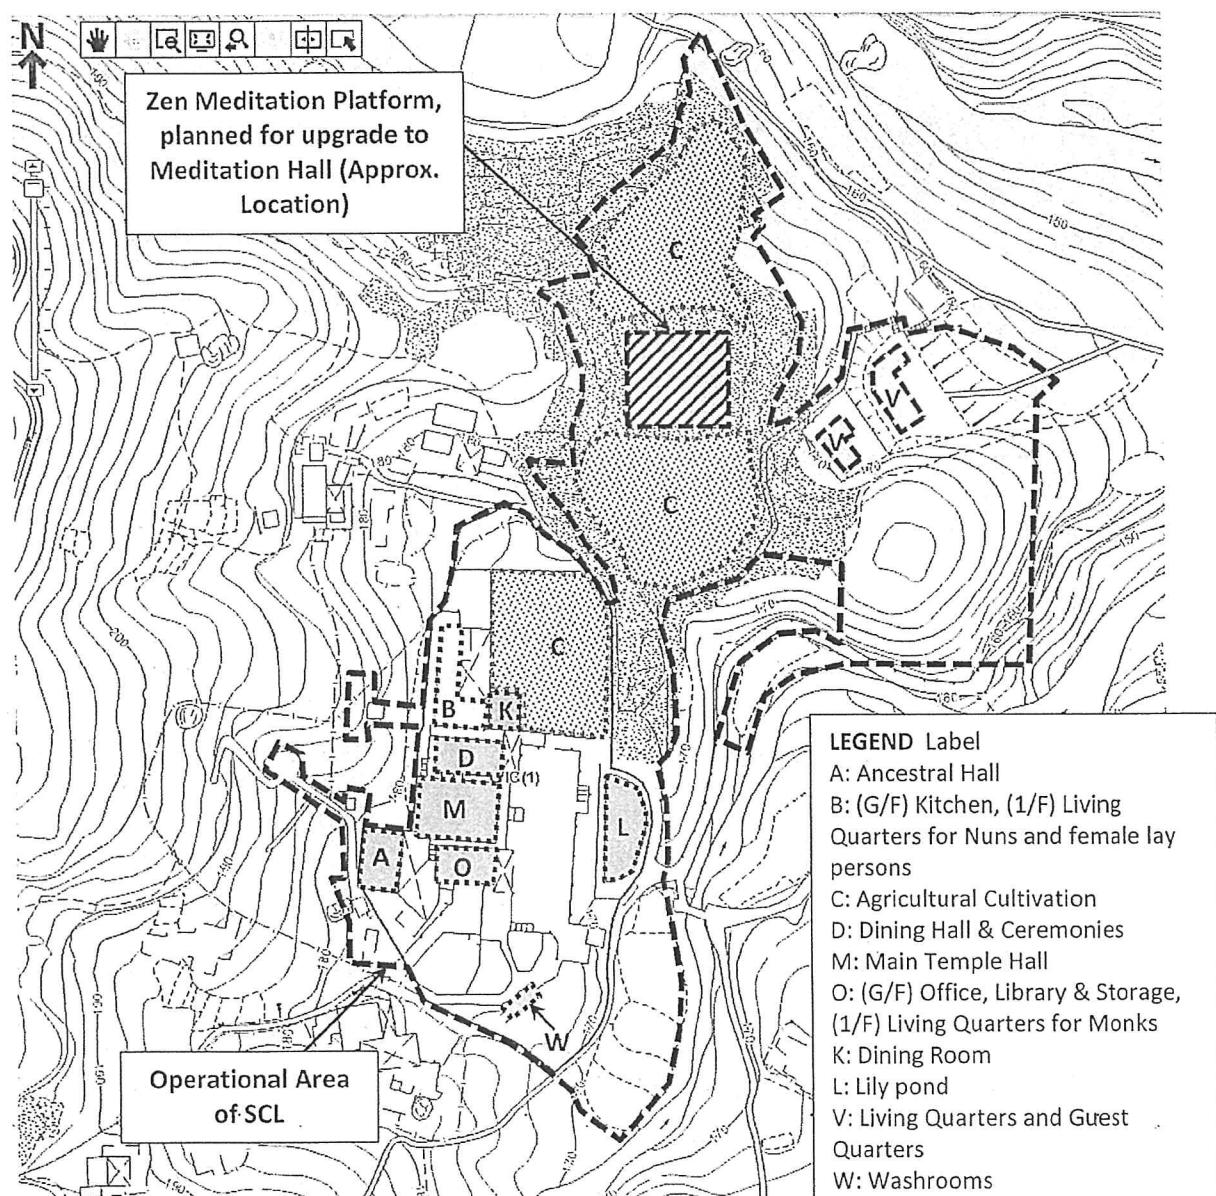

Figure 5: The Operational Area and Existing Religious Uses of SCL at Site 1

(e) Operational Area of SCL forming a Holistic Planning Land Use

4.10 The Operational Area of SCL at Site 1 is made up three related portions that form a holistic planning land use, encompassing the relationships between the buildings and outdoor area. It contains the current GIC(1) zone, with most of the major buildings, Main Temple (Photo 8), courtyard (Photo 8), reception and entrance gate (Photo 9); Area A that contains ancillary structures; and Area B, that is used for meditation practices, living quarters and cultivation. SCL is a sum of all three portions that enable the operation and running of religious activities.

4.11 According to the definition of terms of the Town Planning Board, "Religious Institution", includes the types of ancillary structures and buildings in Areas A and B. Please see the table below:

Religious Institution	Means any place or premises where in accordance with the practice of religious principles services are held or prayers said by congregations loyal to a belief.	It includes mosque, chapel, Tsz Tong, church, seminary, nunnery, <u>monastery</u> , <u>temple</u> , <u>ancestral hall</u> , <u>shrine</u> , pavilion, convent and <u>religious statue</u> . See also the Chinese Temples Ordinance (Cap. 153). It includes <u>ancillary office</u> , car parks and/or <u>quarters</u> that are essential to the operation of the particular organization.
------------------------------	---	--

4.12 Therefore, Areas A and B should be incorporated into the GIC(1) zone, to reflect the holistic planning land use of SCL.

Photo 8: Main Temple and courtyard

Photo 9: Entrance Gate

4.13 The same principle applies to Site 2, where the Operational Area of KYT is made of the existing two buildings, the platform to carry out Buddhist ceremonies, and the half-crescent lily pond. The three related portions form a holistic planning land use for religious activities to function properly as a unit. (Figure 6)

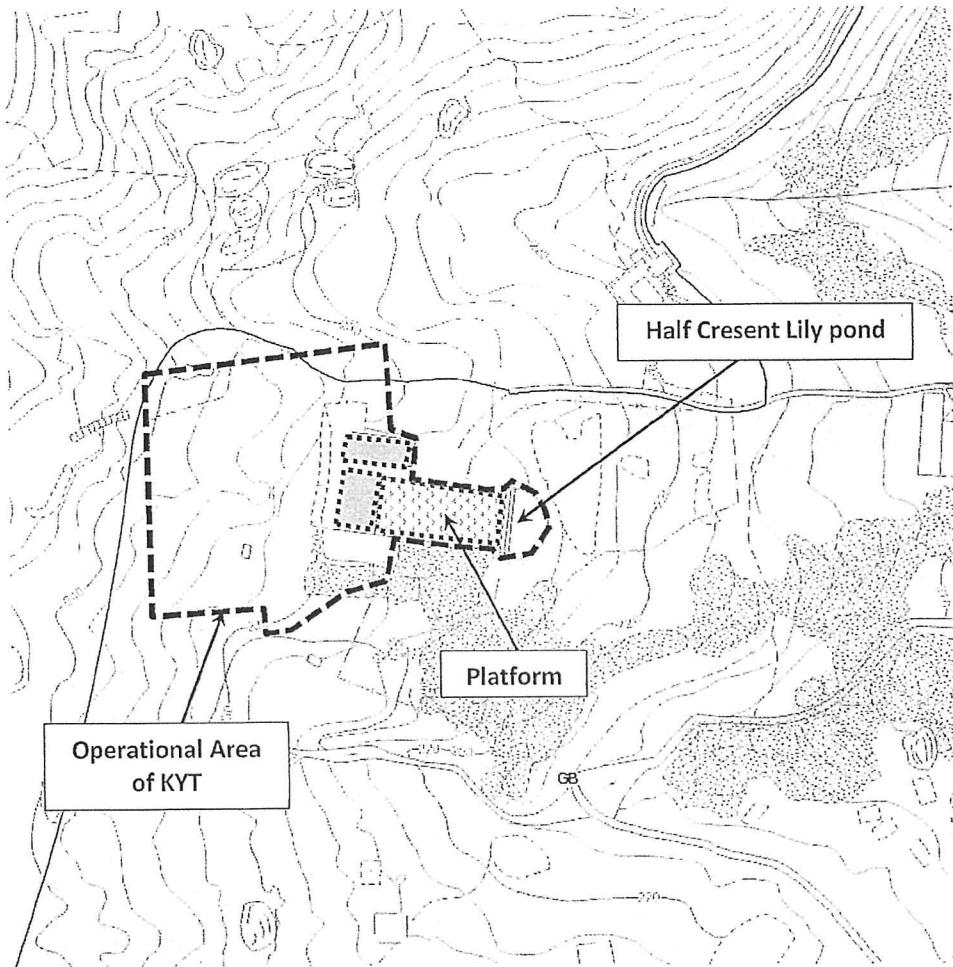

Figure 6: The Operational Area and Existing Religious Uses of KYT at Site 2

(f) Non-commercial and Not-for-Profit Nature

4.14 Both SCL and KYT are intended to operate in a non-commercial and not-for-profit nature. SCL does not contain any columbarium for commercial interest.

(g) Significant Contribution to the Buddhist Community and General Public

4.15 The SCL and KYT has contributed to the Buddhist community and general public for decades. Provided a Zen meditation sanctuary that has helped individuals rehabilitate from stress and trauma. In recent years, society is in political turmoil, creating lots of anger and stress to individuals. Zen meditation is a way to alleviate the stressfulness in our minds. Scientific evidence and studies has proved

this. Hong Kong currently lacks zen meditation venues. If the operation of the temples are affected, it would be a loss to society.

(h) Need for Upgrading Temple Facilities at SCL

4.16 There are no plans to expand the operation of the SCL; but there are plans to upgrade the facilities, such as the Zen meditation platform.

4.17 The SCL temple has always used Area B as an out-door meditation platform. The platform has been formed for meditation and religious ceremonies. (Photo 7)

4.18 There are plans to upgrade the use of platform site with a "Zen Meditation Hall" with dormitory and ancillary facilities. This would enable the location to be conveniently used for both as an out-door and in-door, weather-proof venue. (Figure 5)

4.19 There are no alternatives, as the Main Temple Hall is fully booked for ceremonies, and the burning of incense, kitchen noise and odour, and visitors may cause nuisance to meditation activities. The Dining Hall has been used for religious activities and seminars when not used for eating.

4.20 The Meditation Hall would cover a foot print of 500 sq.m., about the size of the existing platform, 2-storeys and make up a GFA of about 1,000 sq.m. It would be able to accommodate 30-50 people, which is the amount of people who is using the area now, for meditation practices. There would be an ancillary dormitory for about 20 people. This would help to alleviate the over-capacitated living quarters and ancillary facilities at the Main Temple Hall portion. The new building design would be compatible with the natural surroundings.

(i) No Adverse Impact

4.21 According to the OZP Explanatory notes, para. 9.2.6, SCL is within the GIC(1) sub-zone. "Given its natural surroundings and remote location without vehicular access, only selected GIC uses are permitted under this sub-zone to reflect the existing religious institution use and ensure that development should be compatible with the natural surroundings." Visitors use public transport along Route Twist, then get off and walk to the site.

4.22 The planned Meditation Hall would have quiet activities, so there would not be noise nuisance to the environment. It's design and scale would be compatible and blend in with the religious context and surrounding natural environment. The carrying capacity and remoteness of the site remains the same. The proposed amendments and the planned Meditation Hall would not create any adverse impact to the environment.

(j) Land Use Incompatibility at Site 1 (Areas A and B) and Site 2

4.23 According to the OZP, the GB planning intention is: "for defining the limits of urban and suburban development areas for natural features and to contain urban sprawl as well as to provide passive recreational outlets. There is a general presumption against development." The intention is mainly to preserve the natural environment; however, the existing conditions at Site 1 and 2 is for religious uses. The GB designation would create a land use incompatibility.

4.24 In comparison, the GIC(1) planning intention is: "provision of GIC facilities serving needs of local residents and/or wider district, region or territory. Provide land for uses directly related to or in support of the work of Government, organizations providing social services to meet community needs, and other institutional establishments. GIC(1) zone is primarily for provision of religious institutional uses." The intention of this zone would aptly reflect the existing uses at Site 1 (Area A and B) and Site 2, which is for religious uses that serve the community needs.

4.25 PLT and the generations of Buddhist monks and nuns at SCL and KYT has taken stewardship of the temples and the surrounding natural environment. There is a co-existence between the temples and natural environment. The GIC(1) zone embodies the spirit of the Buddhist monks and nuns to preserve the natural environment. The unreasonable GB designation would undermine the temple's stewardship and the right to religious uses.

5. Conclusion

5.1 The Representer, Po Lam Tong, would sincerely wish for the Town Planning Board to consider the proposed amendments favourably. This woud allay their fears of the future operation of the temples, and also enable greater contribution to society through their religious practices and facilities.

Yours faithfully,

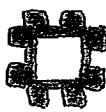

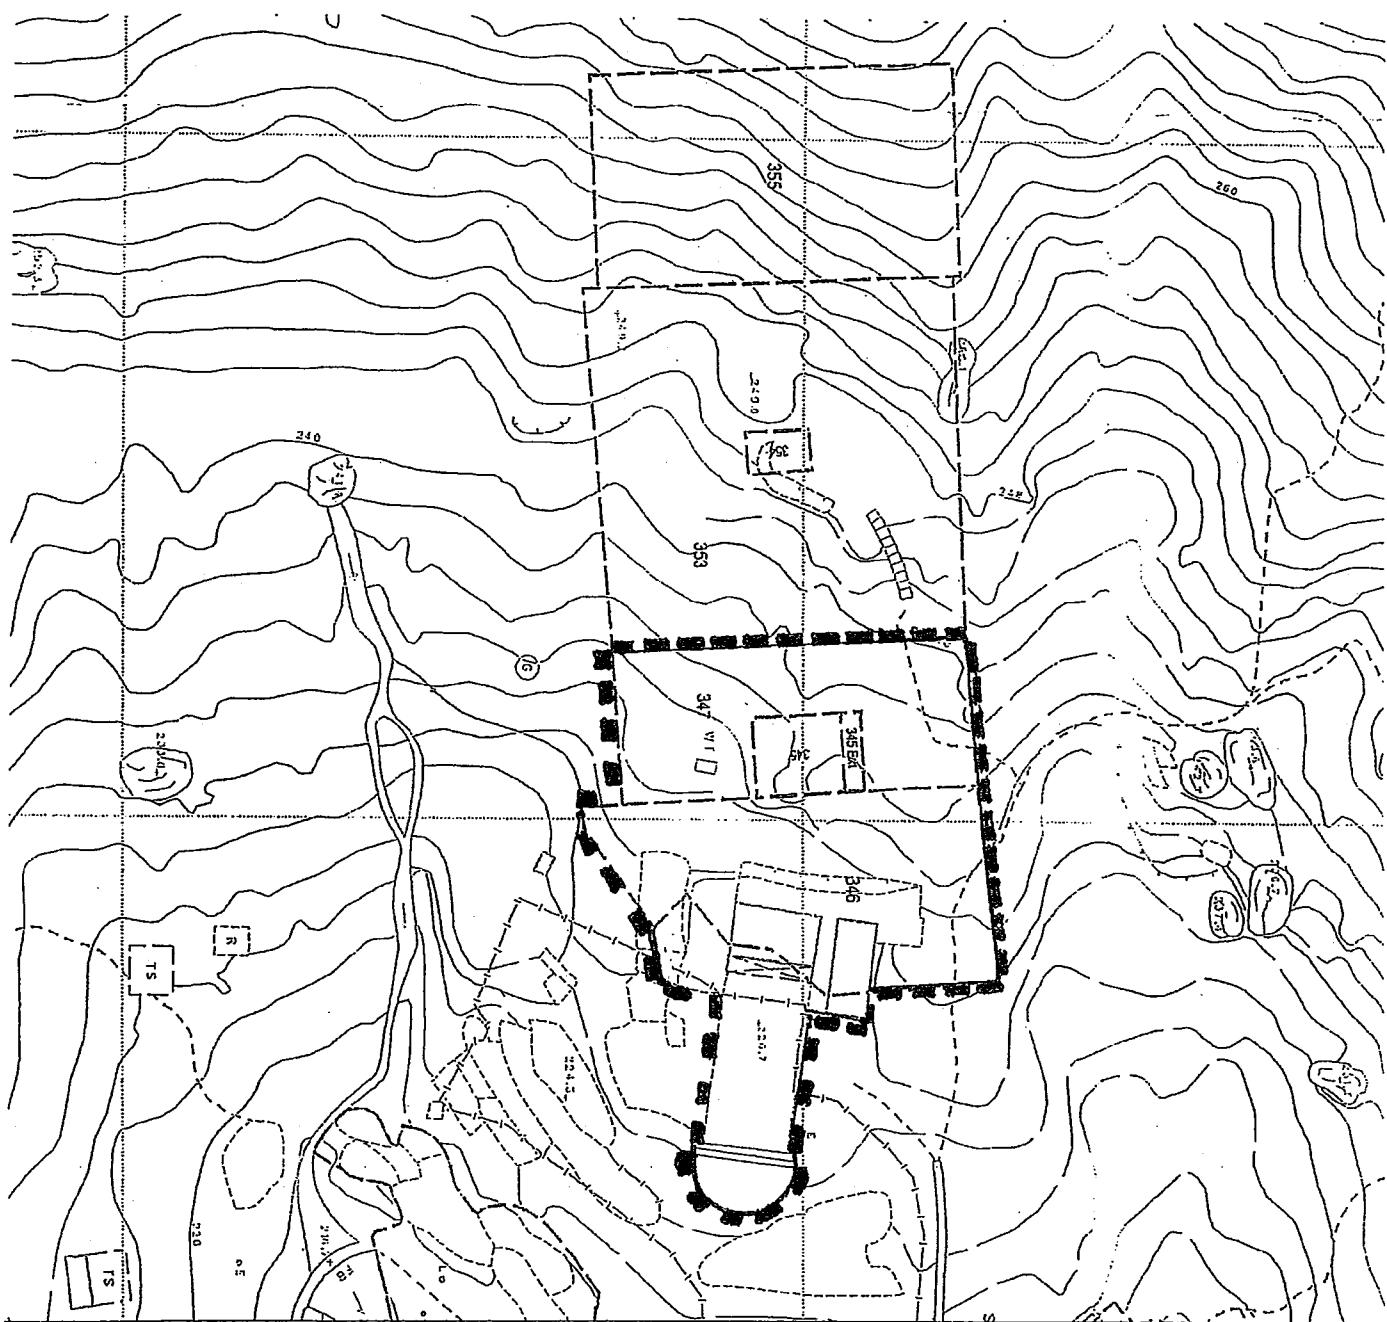

Benson Poon

Monk fights to stay after being ordered out of

Temple 'guardian' banishes monk

Cheung Chi-fai

There are fine golden lines of stitches on a Buddhist monk's robe that have to be removed one by one every time a monk breaks the rules. So what one says while wearing a robe entails heavy responsibility and consequences, monk Sik Hui Fung says.

What he says as the so-called guardian of a 70-year-old Tsuen Wan temple is likely to have an especially big impact on his life, as he faces a possible legal battle with a Buddhist monastery over ownership of the temple where a suspected illegal columbarium has been built.

Last Saturday, representatives of the Sai Chuk Lam monastery in Tsuen Wan issued an eviction note to him at the Kai Yuen temple.

The monastery, a prominent Buddhist institution in the city that claims ownership of Kai Yuen, said Kong Wing-hon, alias Hin Fung and the Reverend Kwo Lam, has illegally occupied the site at Ha Fa Shan near Route Twisk for years.

The site has a two-storey temple, a single-storey ancillary house and more than 10,000 sq ft of agricultural land.

Last year, the ancillary house was found to have been converted into a columbarium, with at least 300 niches priced from HK\$10,000 up to

HK\$150,000 each. At least five of them have been sold, although urns have yet to be placed in the niches.

The monastery says it was never told about the conversion and only found out about the sale of niches from publicity material distributed in the streets recently.

It says it can't tolerate the monk any more. "We are going to take action against him and we hope to end this before more niches are sold," said a spokesman for the monastery, warning that it would take Kong to court if he refused to leave the temple within 21 days of the eviction note.

However, Kong, who is a listed Chinese medicine practitioner and a freelance prayer monk at funeral homes, said he had provided tens of thousands of HK dollars from his savings to build the niches to help raise funds to repair the dilapidated Kai Yuen temple.

"Don't say I am selling the niches. I am just asking for donations from people to help repair the temple. In return they can get the niches," he said, without elaborating on where the donations had gone.

He denied he had illegally occupied the site, saying he was given the keys to the property by a deceased elder of the temple and had since been taking care of the affairs of the temple.

But Sai Chuk Lam accused the monk of fabricating facts.

During a visit by the *South China Morning Post* to the Kai Yuen temple, Kong, 50, admitted he did not possess a land ownership document, which he claimed was being kept by the government. But he hinted that he might exercise the right of "adverse possession", which allows a claim to ownership of a site if a person has been living there for over 12 years.

"I have solicitor friends in Central and they will take care of my dispute," he said, without saying how he would finance a legal battle.

The Lands Department said the land lot did not carry any specific use restriction but its officers had found that some of the structures at the site might have trespassed on govern-

Monk Sik Hin Fung, also known as Kong Wing-hon

ment land. It has written to ask the landowner to rectify the situation.

The land registry record shows the temple sits on a 2,200 sq ft lot sold in 1933 for a small sum to monk Yui Sim, who moved from Guangxi (廣西) province to Hong Kong around that time and set-

tled at Ha Fa Shan. Yui Sim later acquired more land behind the temple.

After Yui Sim died, monk Yuk Chan inherited his property but no further succession arrangement was made for after Yuk Chan's death. The land registry still shows Yuk Chan as the registered owner of the property since 1960.

Kong said he migrated to the city in the early 1980s and spent time studying at the Western monastery in Tsuen Wan. He was later assigned by monk Shun Kau at the Sai Chuk Lam temple to help maintain Kai Yuen and had since lived there.

Kong said the Kai Yuen site had good feng shui overlooking Tsuen Wan and huge potential for further development. "This is a unique site with a good potential... enough

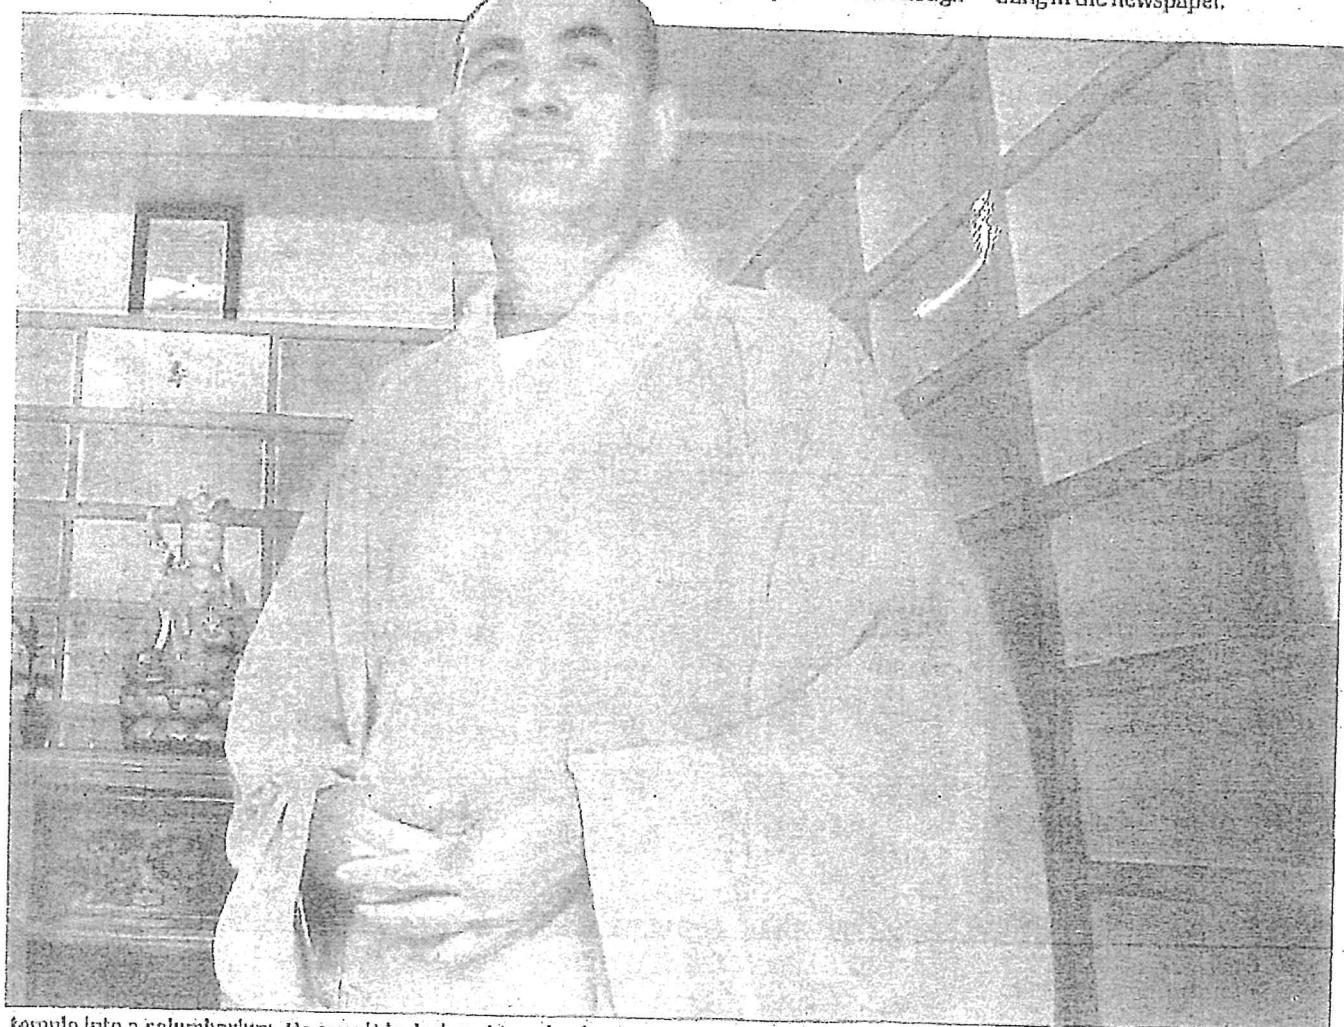

for 50 years of development [for niche storage]," he said.

Asked if the columbarium was legal, Kong said it was none of the land officials' business. "I know something about laws too and the land officials should not step in like the triads. I am pretty sure there is no problem," he said.

Kong could not explain why he did not seek help from other Buddhist groups to help him repair the temple, only saying that these bodies were not reliable.

He said he did not care how others viewed his actions. "I don't care if you have negative or positive media reports about me as long as they get printed in the papers."

"It saves me publishing something in the newspaper."

修訂華人廟宇註冊資料等

啟啓者：一、華人廟宇委員會規定所有廟宇之紀錄必須包括最新專項在內。茲將台端檢討實廟宇申請註冊時所填報之細節。倘鑒覺該等細節已不適用，請在附表適宜欄內之空位填上最新資料（一式兩份）。

茲又謂台端在委條上加墳下列徵料：

- (甲) 廟宇擁有人或管理人姓名，
(乙) 追訟處地址（如與廟宇之地址不同），
(丙) 廟宇管理人住宅電話號碼（如有電話），
(丁) 廟宇照片一張。

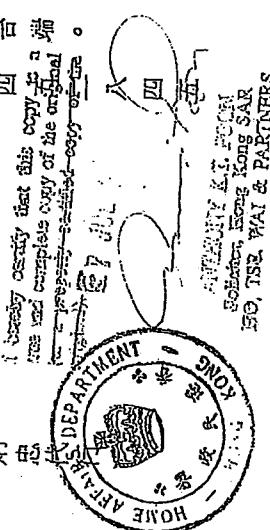

敬希合端合作，於接獲本函之日起兩星期內，將附表一式兩份填妥，交回香港總辦處中國銀行十樓民政署信託基金組。並請合端在指定之空位蓋上貴廟宇之印鑑。該委呂經本委員會認可後，即將其中一份寄回合端。

填寫該表格如有任何問題，請撥電話五十四
逕與本局著名人聯絡，耑此函達。此致

城市規劃委員會秘書大鑑：

川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1

申述詳情有關事項：

川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1
西竺林禪寺(下稱禪寺)寺院範圍內被劃作「綠化地帶」的 DD358 Lot 45, 46,
47, 48, 71, 351, 352 及禪寺 8 項設施的地方。

性質

反對。

理由

禪寺的土地範圍包括：

被劃作「政府、機構或社區(1)」(GIC (1))的 DD358 Lot, 47(部份土地), 72,
348, 349 (圖一 A 部份) 及 被劃作「綠化地帶」的 DD358 Lot 45, 46, 47(部
份土地), 48, 71, 351, 352。

禪寺自 1936 年以來一直都有在禪寺的寺院範圍內的「綠化地帶」進行種菜和禪修的宗教用途。若被劃作「綠化地帶」，「宗教機構」不屬經常准許的用途，然而根據大綱草圖註釋(3)，宗教用途理應被視作「現有用途」而可以在任何用途區，包括「綠化地帶」內進行。若不，禪寺在運作上將受到莫大影響，使禪寺無法在「綠化地帶」繼續長期永遠舉辦各種宗教活動包括禪修等，從而禪寺被剝奪了業權人在土地上一直享有的權益。

由於在「綠化地帶」進行宗教用途在禪寺而言是過往、現在與未來的運作上所需，而非增添新發展，故此人流不會增加，不會污染環境及集水區。參加者幾十年來至今一直都是使用公共交通工具，所以不會增加車流。禪修為靜態活動，故此亦不會發出厭惡性噪音。目前該土地上種植了許多蔬菜、羅漢松、竹樹、果樹、與大片綠色草地，令到環境配合得非常優美，視野廣闊，遠離煩囂，置身其中，感到彷如天地人合一，一切煩惱盡消，的確是農禪最合適的地方。

近年社會紛亂，政制愈來愈複雜，人們愈來愈鼓躁不安，怨氣愈來愈大，大眾心靈均需要滋養，很多國家進行的研究證明禪修可令人平復心境及舒發負面情緒。香港現在已經缺乏足夠的禪修地方，若禪寺進行禪修活動受到規劃限制，將影響禪寺實踐弘法利生的使命，同時忽略了市民的利益。

結語及建議

建議(一)

禪寺一直以來的運作包括在禪寺土地範圍的 GIC (1)部份及「綠化地帶」部份進行宗教活動，缺一不可。現建議政府將禪寺此兩部份土地一并劃作「GIC (1)」用途或「宗教用途」，令禪寺可在統一而又適當反映現狀的用途區內繼續正常運作。

建議(二)

禪寺在上述土地外還有一些設施位於禪寺的寺院範圍內，位於大綱草圖劃作「綠化地帶」的範圍內，包括(1)鐘樓、(2) 儲水池、(3) 火化爐(燒屍爐)、(4) 后土、(5) 小廚房、(6) 廁所、(7) 儲物所、(8) 小火化爐等(圖一)。

這些設施存在已久，航攝照片上已見存在，是禪寺的一部份。這些設施建在政府地上是無心之失，因先祖當年沒有先進測量儀器分辨業權範圍。希望地政總署能體恤禪寺的處境，讓禪寺可合法地取得有關業權。在規劃方面，根據大綱草圖註釋(3)，上述有關設施應屬「現有用途」，可在任何用途區繼續存在。現懇請委員會將上述有關設施所佔土地也一并改劃作(GIC (1)) 或「宗教用途」，使禪寺整體均屬統一而又適當反映現狀的用途區內。

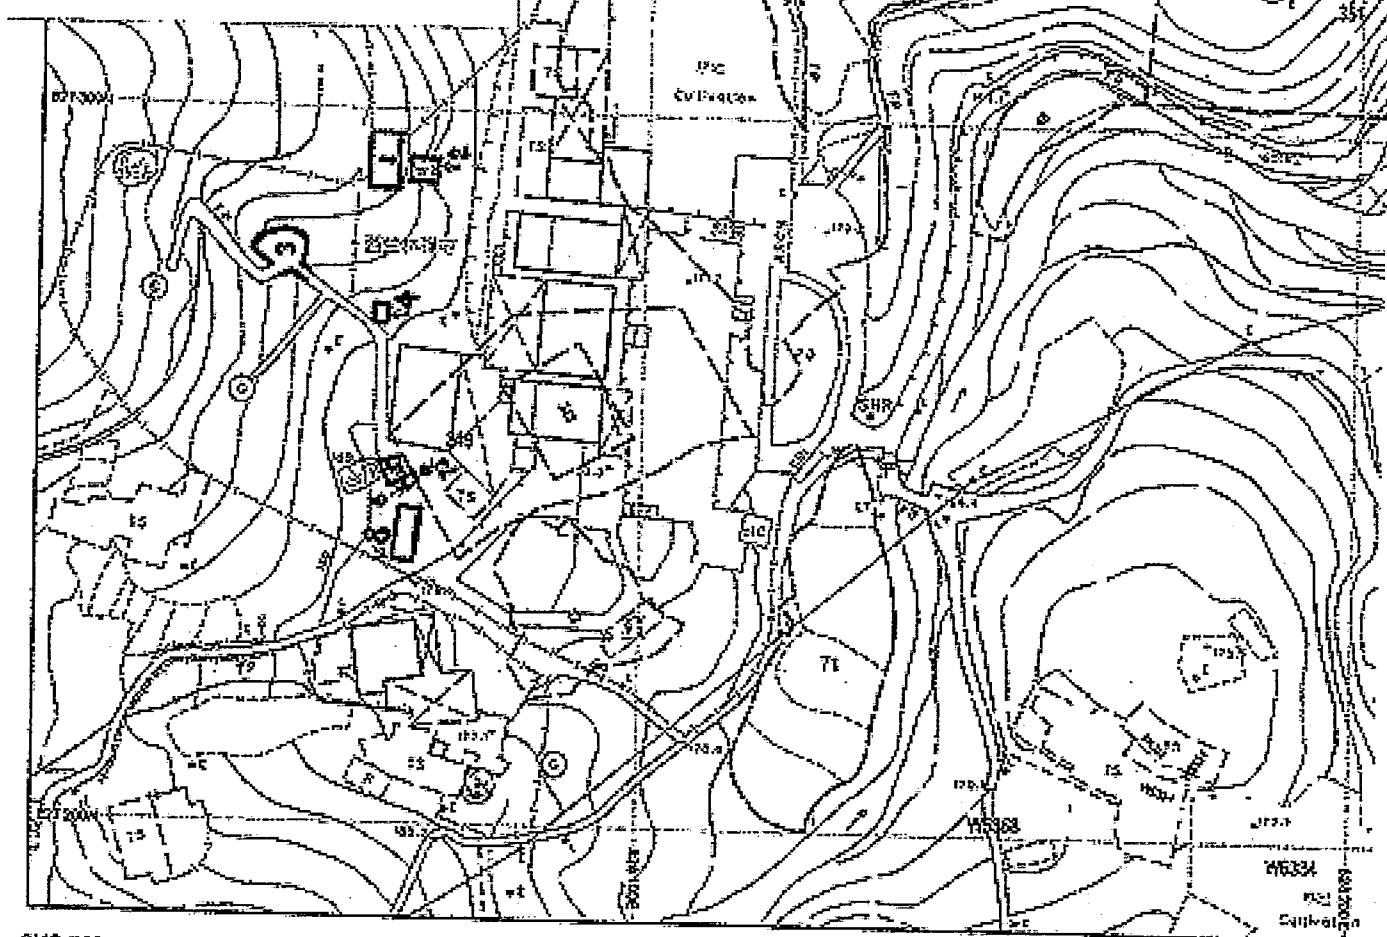

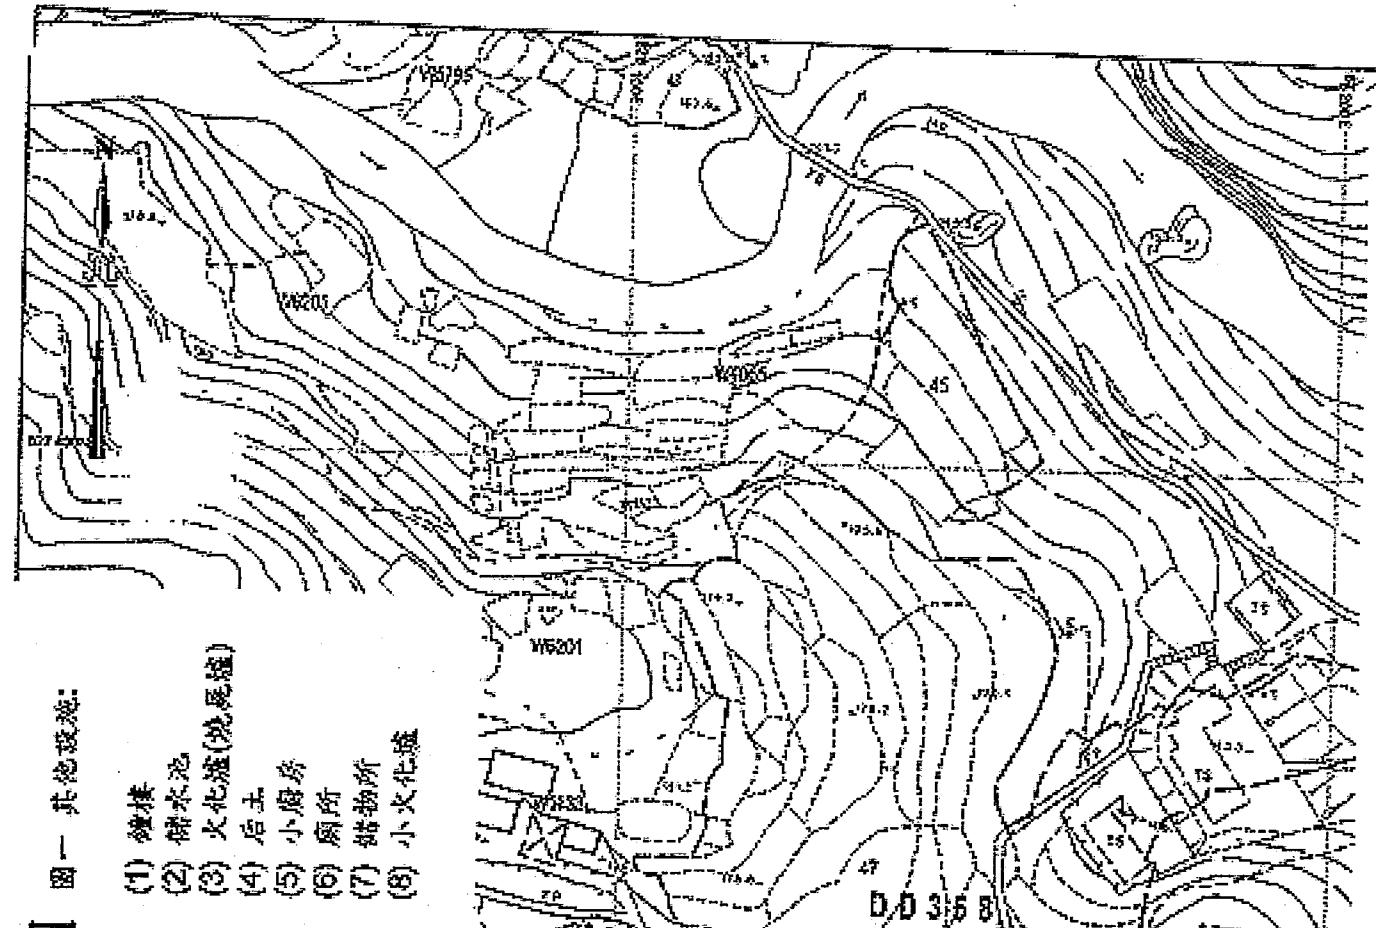

敬希上述理由及建議獲得各位委員接納和批准，令到禪寺可以繼續保持往昔運作，令佛法僧三寶常住宣揚正法，挽救迷途，諸惡莫作，眾善奉行，指導禪修，造福社會，離苦得樂，共享和平！各位委員功德和福報亦不可思議！

耑此 敬頌
六時吉祥！

城市規劃委員會秘書大鑑：

川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1

申述詳情

有關事項:

川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1

祇園、祇園寺、Mau Yuen (1956 年地政署地圖曾註為 "Mau Yuen (Temple)") 的寺院範圍包括 DD358 Lot 345, 345 ext, 346, 347 及寺院前面之丹墀包括半月形蓮花池被割作「綠化地帶」(附件一)。

性質

反對。

理由

祇園寺的土地範圍包括 DD358 Lot 345, 345 ext, 346, 347 及寺院前面丹墀及半月形蓮花池被割作綠化地帶(附件一)。

祇園寺。

祇園寺土地範圍包括寺院前面丹墀及半月形蓮花池一起建成於1934年，存在已有60多年歷史。同時，祇園曾經在華人廟宇登記。故此祇園寺是佛教寺廟，毫無疑問的宗教機構。

根據大綱草圖註釋(3)，祇園作為廟宇是「現有用途」，在任何用途區均可繼續存在。目前祇園寺佔用人把祇園寺用作住宅及其他非宗教用途，有違物業作為廟宇的合法用途。現西竺林禪寺已依法律程序進行收回祇園寺作回寺廟用途。

祇園寺自1934年建成，寺院範圍包括DD358 LOT 345, 345 ext, 346, 347 及寺院前面丹墀包括半月形蓮花池。由於一般寺院前面丹墀都是配合大雄寶殿做佛事、禪修、經行、唸佛、供天、放生等等，此祇園寺的丹墀亦不例外，故此屬宗教用途，屬祇園寺不可或缺的一部份，丹墀及蓮花池佔用了政府土地是無心之失。現本人認為政府應該把祇園寺所有土地包括DD358 LOT 345, 345 ext, 346, 347 及寺院前面丹墀包括半月形之蓮花池由“綠化地帶”改劃為「政府、機構或社區(1) GIC (1)」或“宗教用途”。

敬希上述理由及建議獲得各位委員接納和批准，令到祇園寺可以重見天日，被正式的僧人居住，弘揚正法，令佛法昌隆，亦使到大眾可以到此地共沾法益，聞法、拜佛、誦經、坐禪，令大眾法喜充滿，改邪歸正，樂善好施，與親友同事共相和睦，從而使到社會和平安寧，各位委員功德和利益亦不可思議！

耑此 敬頌
六時吉祥！

	Date Received 收到日期	

1. The representation should be made to the Town Planning Board (the Board) before the expiry of the specified plan exhibition period. The completed form and supporting documents (if any) should be sent to the Secretary, Town Planning Board, 15/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong.
 申述必須於指定的圖則展示期限屆滿前向城市規劃委員會（下稱「委員會」）提出，填妥的表格及支持有關申述的文件（倘有），必須送交香港北角渣華道333號北角政府合署15樓城市規劃委員會秘書處。
2. Please read the "Town Planning Board Guidelines on Submission and Publication of Representations, Comments on Representations and Further Representations" before you fill in this form. The Guidelines can be obtained from the Secretariat of the Board (15/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong - Tel.: 2231 4810 or 2231 4835) and the Planning Enquiry Counters of the Planning Department (Hotline: 2231 5000) (17/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong and 14/F., Sha Tin Government Offices, 1 Sheung Wo Road, Sha Tin, New Territories), or downloaded from the Board's website at <http://www.info.gov.hk/tbp/>.
 填寫此表格之前，請先細閱有關「根據城市規劃條例提交及公布申述、對申述的意見及進一步申述」的城市規劃委員會規劃指引。這份指引可向委員會秘書處（香港北角渣華道333號北角政府合署15樓-電話：2231 4810或2231 4835）及規劃署的規劃資料查詢處（熱線：2231 5000）（香港北角渣華道333號北角政府合署17樓及新界沙田上禾輜路1號沙田政府合署14樓）索取，亦可從委員會的網頁下載（網址：<http://www.info.gov.hk/tbp/>）。
3. This form can be downloaded from the Board's website, and obtained from the Secretariat of the Board and the Planning Enquiry Counters of the Planning Department. The form should be typed or completed in block letters, preferably in both English and Chinese. The representation may be treated as not having been made if the required information is not provided.
 此表格可從委員會的網頁下載，亦可向委員會秘書處及規劃署的規劃資料查詢處索取，提出申述的人士須以打印方式或以正楷填寫表格，填寫的資料宜中英文兼備。倘若未能提供所需資料，則委員會可把有關申述視為不會提出論。

1. Person Making This Representation (known as "Representer" hereafter)

Statement on Personal Data 個人資料的聲明

1. The personal data submitted to the Board in this representation will be used by the Secretary of the Board and Government departments for the following purposes:

- (a) the processing of this representation which includes making available the name of the "representer" for public inspection when making available this representation for public inspection; and
- (b) facilitating communication between the "representer" and the Secretary of the Board/Government departments in accordance with the provisions of the Town Planning Ordinance and the relevant Town Planning Board Guidelines.

委員會就這宗申述所收到的個人資料會交給委員會秘書及政府部門，以根據《城市規劃條例》及相關的城市規劃委員會規劃指引的規定作以下用途：

- (a) 處理這宗申述，包括公布這宗申述供公眾查閱，同時公布「申述人」的姓名供公眾查閱；以及
- (b) 方便「申述人」與委員會秘書及政府部門之間進行聯絡。

2. The personal data provided by the "representer" in this representation may also be disclosed to other persons for the purposes mentioned in paragraph 1 above.

「申述人」就這宗申述提供的個人資料，或亦會向其他人士披露，以作上述第1段提及的用途。

3. A "representer" has a right of access and correction with respect to his/her personal data as provided under the Personal Data (Privacy) Ordinance (Cap. 486). Request for personal data access and correction should be addressed to the Secretary of the Board at 15/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong.

根據《個人資料（私隱）條例》（第486章）的規定，「申述人」有權查閱及更正其個人資料。如欲查閱及更正個人資料，應向委員會秘書提出有關要求，其地址為香港北角渣華道333號北角政府合署15樓。

本人反對川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1 的
更改建議，因為知悉該處於 1936 年代開始已有一間西竺林禪寺存在，
據有關寺廟的負責人向本人反映，該處一直都從事宗教活動，故反
對建議將現時屬於「政府、機構或社區(1)」地帶改劃為「綠化地帶」。
因為擬更改的土地涉及寺院的雄殿，也有僧侶的住宿（丈量約份第 358
約地段第 47）及該寺用作農務及禪修靜坐的地方（丈量份第 358 約地
段第 45 及 47 號）。還有位於該寺東北面的土地（丈量約份第 358 約地
段第 46、351 及 352 號），過去曾是鐘樓，但在日本戰亂期間被盜走，
現在變成佛塔了。因此，該寺要求本人反映，希望將上述土地範圍納
入「政府、機構或社區(1)」地帶，以便該寺可以繼續保持現有日常
運作。

另外，下花山村的村民，正向當局恢復該村列入原有鄉村名冊內，
因為該村在日戰時代曾遭日軍炸毀，村民無錢重建過往的磚房，只能
以簡陋的材料建成寮屋，導致有關方面誤以為該村已荒廢，故沒有列
入原有鄉村名冊內。由於，新界鄉議局正協助該村上訴，為免影響日
後原居民的合法傳統權益，本人認為當局不宜將該處土地更改為「綠
化地帶」。（附件 1）

本人反對川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1 的
更改建議，有關川龍方面，原已規劃作「鄉村式發展」地帶，因為政
府於九十年代中期凍結了鄉村擴展區計劃，因此導致原訂上述「鄉
村式發展」地帶可供興建的 73 間小型屋宇，至今約 20 年也未能落實。
由於，這過去 20 年來，川龍的原村民人口不斷上升，對住屋問題非
常殷切，再且，基於現行政策，如不擴散川龍的村界範圍，村民的
住屋需求始終未能得到解決，故反對規劃署建議將部份川龍的地區劃
入綠化地的建議。同時，為有效解決村民的住屋問題，本人要求政
府盡快恢復 90 年代的鄉村擴展區政策。因為，這政策檢討至今達 20
年仍未有結果，作為一個負責任的政府，不能無了期凍結一些有助解
決村民住屋問題的措施。(附件 2)

黃偉綸先生,J.P. 鈞鑒:

支持荃灣西竺林禪寺保護宗教用地之訴求

就 貴會擬備並於2016年12月刊憲的《川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1》，位於該地段之西竺林禪寺大部分土地將規劃為「綠化地帶」，不可繼續進行宗教活動。該計劃大綱明顯未有理解市民和宗教團體之需要，更涉嫌以「綠化」為名，變相剝奪宗教正常發展空間，有鑑於此，本會對該計劃大綱表示反對。

西竺林禪寺是本港一間歷史悠久的古剎，寺內僧尼素以苦修聞名，並積極開展各類弘法利生活動，以正信佛法服務信眾，淨化人心。近年來，為因應日益增長的多元弘法需求，該寺各類弘法活動亦日益增加，現有活動場地早已捉襟見肘。

佛經有云：「身為佛子，當作佛事。」本會謹專函懇請 貴會尊重和支持西竺林禪寺保護宗教用地之訴求，將目前西竺林禪寺寺院範圍內擬規劃之「綠化地帶」保留為宗教用途，列為「政府、機構或社區(1)」用地，以紓解該寺佛事活動場地不敷應用之困，俾十方善信同沾化雨，共沐佛恩。如荷 俞允，功德無量。

耑此奉懇，敬祈支持。若有查詢，敬請賜電 2574-9371 與本會行政總主任張毅平居士聯絡為禱。即頌

黃偉綸先生, J. P. 鈞鑒:

支持荃灣西竺林禪寺保護宗教用地之訴求

就 貴會擬備並於 2016 年 12 月刊憲的《川龍名下花山分區計劃大綱草圖編號 S/TW-CLHFS/1》，位於該地段之西竺林禪寺大部分土地將規劃為「綠化地帶」，不可繼續進行宗教活動。該計劃大綱明顯未有理解市民和宗教團體之需要，更涉嫌以「綠化」為名，變相剝奪宗教正常活動和發展空間，有鑑於此，本人對該計劃大綱表示反對。

近年來，香港社會出現嚴重的矛盾，香港人的快樂指數偏低，青少年自殺率高升，這些都是源於香港人的世界觀和人生觀失了平衡，以及心靈健康未得到恰當的照顧和關懷。西竺林禪寺是本港一間歷史悠久的古刹，寺內僧尼素以苦修聞名，並積極開展各類弘法利生活動，以正信佛法服務信眾，舉辦禪修活動，淨化人心，可算是香港一個難得的心靈綠洲。在這情況下，本人不明白政府為何不去鼓勵和支持這些極為需要的心靈綠洲，反而去剝取宗教活動空間。

為此，本人謹專函懇請 貴會尊重西竺林禪寺宗教的自由，讓西竺林禪寺現在和未來的佛弟子能夠合理地享用祖師留下來的產業，將目前西竺林寺寺院範圍內擬規劃之「綠化地帶」保留為宗教用途，列為「政府、機構或社區（1）」用地。如荷 俞允，功德無量。

耑此奉懇，敬祈支持。如有任何查詢，請致電 3917-2847 與本中心聯絡。即頌

城市規劃委員會秘書：

川龍及花山分區計劃大綱草圖編號 S/TW-CLHFS/1

申述詳情

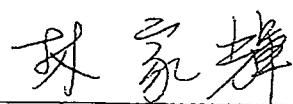

關於2016年12月刊憲的內容，川龍及花山分區計劃大綱草圖編號S/TW-CLHFS/1，西竺林禪寺的寺院範圍內被劃作「綠化地帶」的DD358Lot 46.47.48.71.351.352等土地改變用途，本人對於該改變用途西竺林禪寺的土地範圍被劃作「政府機構或社區(1)，GIC(1)的DD358Lot.47(部份土地),72,348,349等土地」及被劃作「綠化地帶」的DD358Lot 46.47.48.71.351.352等土地作出反對意見。

西竺林禪寺是開山祖師裔禪老和尚於1936年建立，供奉佛法僧三寶，培育僧徒及為市民提供學佛與禪修的場地，數十年來市民及信眾得到清幽地域作為道場，廣泛受到歡迎，造就了很多廣結善緣及傳法的機會。

西竺林禪寺位處偏僻，與世無爭，亦沒有道路直接到達，需要步行前往，保留原來用地性質使用，應當不會影響該地段的其他發展，所以本人認為完全不需要修改禪寺地域土地的用途。

佛教是世界上四大宗教之一，修學者如恆河沙數，使佛學能順利繼續發展，實是有助靜化人心，減少社會的戾氣，有助社會的正面平衡發展，佛學要義，緒惡莫作，眾善奉行，自淨其意，實為社會之福，為此，希望城市規劃委員會各委員三思考慮該項議案。

特此函達，敬希接納。

支持荃灣西竺林禪寺保護宗教用地之訴求

根據 貴會於 2016 年 12 月刊憲的《川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1》，位於該地段之西竺林禪寺大部分土地將規劃為「綠化地帶」，不可繼續進行宗教活動。該計劃大綱以「綠化」為考量，反對宗教用地，明顯忽略佛教道場之公益團體身份，罔顧佛教信眾之宗教情感，本寺同人對此計劃大綱表示堅決反對。

西竺林禪寺是本港一間頗負盛名的正信佛教道場，多年來積極致力於弘揚佛法，服務信眾。近年來，為因應日益增長的多元弘法需求，該寺各類弘法活動亦日益增加，現有活動場地早已不敷使用。有鑑於此，本寺同人謹專函懇請 貴會作出政策上的支持，將目前西竺林禪寺寺院範圍內擬規劃之「綠化地帶」保留為宗教用途，列為「政府、機構或社區(1)」用地，以紓解該寺佛事活動場地不敷應用之困，俾十方善信同沾化雨，共沐佛恩。如荷 俞允，功德無量。

耑此奉懇，敬祈支持。若有查詢，敬請賜電 [REDACTED] 與本寺聯絡。

黃偉綸先生,J.P. 鈞鑒:

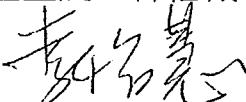

支持西竺林禪寺保護宗教用地之合理訴求

據悉，由貴會擬訂並刊憲的《川龍及下花山分區計劃大綱草圖編號 S／TW-CLHFS／1》，將位於該地段之西竺林禪寺大部分土地規劃為「綠化地帶」，不可繼續進行宗教活動。本道場認為，貴會之做法涉嫌以「綠化」為名，變相打壓宗教團體活動空間，剝奪宗教活動場所的土地使用權。故此，本道場同人對此大綱表示堅決反對。

西竺林禪寺是本港一間年代久遠的古刹，本港佛教耆宿聖一老和尚早年曾卓錫於此。為維護佛教團體和廣大信眾的合法權益，本道場同人謹專函懇請 貴會切實做好川龍及下花山分區相關地段的合理規劃和佈局，將目前西竺林禪寺寺院範圍內擬規劃之「綠化地帶」保留為宗教用途，列為「政府、機構或社區(1)」用地，以紓解該寺佛事活動場地不敷應用之困，俾十方善信同沾化雨，共沐佛恩。如荷 創允，功德無量。

耑此奉達，敬祈支持。若有查詢，請賜電 28082373 與本人聯絡。即頌

的DD358
Lot 46, 47, 48, 71,
351, 352
等土地

骨，重入紅塵，回入娑婆，利益眾生。上求佛道，下化眾生，內修外弘。

西竺林禪寺以苦修聞名，很多喜歡研修佛學的俗家弟子都會慕名而至，到西竺林禪寺進行禪修、打座、頌經、聽佛話的靜修活動。每個前來的修行者都有著同一的宏願：盼望在這個脫離優厚物質享受、安寧、清幽的環境進行深層次的禪修，從接觸、親近、研習佛學，繼而領受佛學真道，更深領受佛家中的慈悲真諦，透過認識佛學，進一步佛化個人修養以利眾生。

修行不單幫忙各個修行者忘卻生活繁瑣事情，更透過一些引導思考，幫助每位參與者好好反思人生、重整思維。學習靜坐，更能培養積極人生信念、達至身心平衡，藉以改善個人的負面情緒，並鼓勵以更積極的態度面對人生。禪修活動實在對思維更新起了很正面的作用。

西竺林禪寺實在為信奉佛教的人士帶來了一個很好的清修地方。由於西竺林禪寺對外一直積極開展各類弘法利生活動，故從開山至今，西竺林禪寺一直吸引了很多慕名修行人士來寺進行禪修及研習等活動。當中亦有很多修行人士因被佛學影響而對社會作出很多貢獻。現在社會上煩亂事情增多，人心不安，是非常需要有正信的僧人和理想的禪修環境讓更多人在此學習禪修。

西竺林禪寺範圍內被劃作綠化地帶的地方都是禪寺不可分割的重要部份。假如禪寺寺院範圍的大部份土被劃作綠化地帶而不能作宗教用途，禪寺將不能舉辦禪修活動，市民將會少了一個禪修地。故此，本人請求將禪寺寺院範圍內所有土地，包括大網圖現劃作綠化地帶的DD358 LOT 46、47、48、71、351、352等土地，改劃為GIC(1)或宗教用途。

如將上述土地改為宗教用途用地，亦將能便利更多附近居住的居民更容易接觸及享受一個美好的禪修地點。

西竺林禪寺整個範圍都有著設計者精心刻意的安排與設計，各處都為禪修的好地方，無論是菜園或是園林、或是客堂，均有很多精心佈置，雖然簡單，但卻能給予禪修者一個最好的修心靜學的好環境。

作為校長，本人實在十分贊許和認同西竺林禪寺的發展，本人作為佛教中學校長一直獲益匪淺。西竺林禪寺為佛教團體，對外舉辦禪修活動，對內積極培養正信僧人，致力將佛學宣揚，導引修行者向善及成為社會棟樑，在發展及培育修行者的個人修維上不遺餘力。得知西竺林禪寺望向貴局申請將以上所指土地改劃為宗教用途，本人以校長身份表示十分的支持，因為西竺林禪寺實在於培育修行者的道德及個人修養及其發展上作出了很大的貢獻，本人深信將土地改作宗教用地，必讓西竺林禪寺具備更完善的設施，這些設施的建成實在帶給更多人的益處。衷心祝願西竺林禪寺能為社會作出更多的貢獻，本人亦深信西竺林禪寺的建立理念及推動必能為整個社會帶來很多持續及正面的影響，現誠心懇請貴局能慎重考慮西竺林禪寺就土地改劃用途的申請，以讓更多莘莘學子及佛學修行者因相關發展而受惠。

關於2016年12月刊憲之上述草圖，本人茲申述意見如下，敬希垂注！

有關事項：

川龍及下花山分區計劃大綱草圖編號S/TW-CLHFS/1

西竺林禪寺的寺院範圍內被劃作綠化地帶的DD358 Lot 46, 47, 48, 71, 351, 352 等土地

西竺林禪寺是荃灣的一個郊區道場，方丈為寶林禪寺的聖一老和尚，老和尚攝化很多弟子出家修行，在香港此道場以苦修聞名，修行弟子生活相當地原始樸實，無論是西竺林禪寺的齋堂、寮房、禪堂，都是簡陋的生活空間——鐵皮屋頂，水泥為地，夾心木板隔間，幾塊板子組合的木床，這裡的每一位修行者都有著一個慈悲願念---上山洗盡鉛華，要一塵不染，五蘊皆空；待脫胎換骨，重入紅塵，回入娑婆，利益眾生。上求佛道，下化眾生，內修外弘。

西竺林禪寺以苦修聞名，很多喜歡研修佛學的俗家弟子都會慕名而至，到西竺林禪寺進行禪修、打座、頌經、聽佛話的靜修活動。每個前來的修行者都有著同一的宏願：盼望在這個脫離優厚物質享受、安寧、清幽的環境進行深層次的禪修，從接觸、親近、研習佛學，繼而領受佛學真道，更深領受佛家中的慈悲真諦，透過認識佛學，進一步佛化個人修養以利眾生。

修行不單幫忙各個修行者忘卻生活繁瑣事情，更透過一些引導思考，幫助每位參與者好好反思人生、重整思維。學習靜坐，更能培養積極人生信念、達至身心平衡，藉以改善個人的負面情緒，並鼓勵以更積極的態度面對人生。禪修活動實在對思維更新起了很正面的作用。

西竺林禪寺實在為信奉佛教的人士帶來了一個很好的清修地方。由於西竺林禪寺對外一直積極開展各類弘法利生活動，故從開山至今，西竺林禪寺一直吸引了很多慕名修行人士來寺進行禪修及研習等活動。當中亦有很多修行人士因被佛學影響而對社會作出很多貢獻。現在社會上煩亂事情增多，人心不安，是非常需要有正信的僧人和理想的禪修環境讓更多人在此學習禪修。

西竺林禪寺範圍內被劃作綠化地帶的地方都是禪寺不可分割的重要部份。假如禪寺寺院範圍的大部份土被劃作綠化地帶而不能作宗教用途，禪寺將不能舉辦禪修活動，市民將會少了一個禪修地。故此，本人請求將禪寺寺院範圍內所有土地，包括大綱圖現劃作綠化地帶的DD358 LOT 46、47、48、71、351、352等土地，改劃為GIC(1)或宗教用途。如將上述土地改為宗教用途用地，亦將能便利更多附近居住的居民更容易接觸及享受一個美好的禪修地點。

西竺林禪寺整個範圍都有著設計者精心刻意的安排與設計，各處都為禪修的好地方，無

論是菜園或是園林、或是客堂，均有很多精心佈置，雖然簡單，但卻能給予禪修者一個最好的修心靜學的好環境。

作為校長，本人實在十分贊許和認同西竺林禪寺的發展，本人作為佛教中學校長一直獲益匪淺。西竺林禪寺為佛教團體，對外舉辦禪修活動，對內積極培養正信僧人，致力將佛學宣揚，導引修行者向善及成為社會棟樑，在發展及培育修行者的個人修維上不遺餘力。得知西竺林禪寺望向 貴局申請將以上所指土地改劃為宗教用途，本人以校長身份表示十分的支持，因為西竺林禪寺實在於培育修行者的道德及個人修養及其發展上作出了很大的貢獻，本人深信將土地改作宗教用地，必讓西竺林禪寺具備更完善的設施，這些設施的建成實在帶給更多人的益處。衷心祝願西竺林禪寺能為社會作出更多的貢獻，本人亦深信西竺林禪寺的建立理念及推動必能為整個社會帶來很多持續及正面的影響，現誠心懇請 貴局能慎重考慮西竺林禪寺就土地改劃用途的申請，以讓更多莘莘學子及佛學修行者因相關發展而受惠。

Dear Sir/Madam,

Re: Draft Chuen Lung and Ha Fa Shan Outline Zoning Plan No. S/TW-CLHFS/1

WWF would like to express our concerns and provide our comments on the captioned Outline Zoning Plan (OZP) as follow:

Natural streams & their riparians as “Conservation Area” (“CA”)

As per the ecological information from the Town Planning Board Paper No. 10205, freshwater species of conservation importance were recorded by the Planning Department at the natural streams of Chuen Lung and Ha Fa Shan, e.g. Big-headed turtle and Hong Kong newt which are “Endangered” and “Near Threatened” species respectively under the IUCN Red List. Both species are also statutory protected species in Hong Kong. During our site visit on 7 January 2014, a Hong Kong newt is also observed in a natural stream near Chuen Lung Chun Ha (Fig. 1) and the endemic freshwater crab *Nanhaiptamon hongkongense* is previously recorded¹. Therefore, we opine that the natural streams in the Plan area are of high ecological value and should be well protected by “CA” zone against development.

Besides, we consider that the riparian zones of the natural streams, i.e. 30m on both sides of the streams, should also be zoned as “CA”. Under the current draft OZP, the riparian zones of the natural streams are mainly zoned as “Agriculture” (“AGR”) zone and “Green Belt” (“GB”) zone. However, Small Houses can still be developed through planning application and upon the approval from the Town Planning Board. The approval rate of Small House application at “AGR” zone and

together possible

"GB" zone under s.16 of the Town Planning Ordinance are about 62% and 56% respectively which is considerably high². As such, we are of grave concern that developments on riparian zones will cause the loss of natural habitats used by wildlife, in particular to the species of conservation importance mentioned above. We opine that the riparian zones of the natural streams should also be zoned as "CA". Development should not be allowed on streams and the riparian zones to prevent causing any disturbance to these species of conservation concerns.

Agricultural land as "GB(1)"

The active agricultural lands mainly concentrated at Chuen Lung Chun Ha. According to our site visit on 9 January 2017, it is found that most agricultural lands are still active (Fig. 2) and we consider that all these agricultural lands should be preserved because of their compatibility to the surrounding natural environment. Besides, ramie *Boehmeria nivea*, the host plant of caterpillars of rare butterfly Yellow Coster *Acraea issoria issoria*³ which is recorded near Chuen Lung Chun Ha⁴, can also be found near farmlands. Furthermore, Chuen Lung is regarded by AFCD one of the five places where Yellow Coster distributes in Hong Kong. Hence, we view that the zoning of at least "GB(1)" for these agricultural lands not only preserve the active agricultural activities but also prevent any adverse impacts of developments to the important habitat of the rare butterfly species Yellow Coster.

Potential Impacts of the Village Expansion Area

According to the site visit on 7 Jan 2014, it is noticed that restaurants are discharging the grey water to the drainage U-channels that very likely connected to the streams nearby. We are concerned that the Chuen Lung Village Expansion Area (VEA) with the aim and action of "...Selected commercial and community uses servicing the needs of the villagers and in support of the village development are always permitted on the ground floor of a New Territories Exempted House."⁵ will cause adverse impact to the stream habitats in the area in a case that the ground floor is used as a restaurant while wastewater effluents will discharge to the streams from the small house, which is happening at the existing site. As such, we consider that the government authorities

Dear Sir/ Madam,

Draft Chuen Lung and Ha Fa Shan Outline Zoning Plan (S/TW-CLHFS/1)

1. We refer to the captioned.
2. We consider that the concerns as stated in our submission regarding the Development Permission Area (DPA) Plan covering this area are still applicable to this draft Outline Zoning Plan (OZP). Please refer to **Appendix 1**.
3. Essentially, we consider that the stream courses and their riparian zones are not being protected properly under this draft OZP, and, we are also concerned about the potential adverse impacts on the ecology of this area that would be caused by some of the suggested zonings. We wish to strongly recommend that all streams (including their riparian zones) and the woodland areas should be protected by being accorded Conservation Area (CA) zoning status.
4. Thank you for your attention.

Dear Sir/ Madam,

Draft Chuen Lung and Ha Fa Shan Development Permission Area Plan
(DPA/TW-CLHFS/1)

We would like to express our concerns and provide our recommendations regarding the Draft Chuen Lung and Ha Fa Shan Development Permission Area Plan No. DPA/TW-CLHFS/1 (the draft Plan).

Protection of native species of conservation importance

Although village settlements and rural industrial/commercial activities have already been established within the Chuen Lung and Ha Fan Shan Area (the Area), many native species of conservation importance can still be found in the locality. Referring to Section 5.3 of the Explanatory Notes of the draft Plan, “*Various rare species of fauna with high ecological values have been discovered in the Area, especially in or adjacent to the stream courses, including Yellow Coster (Acraea issoria), Hong Kong Cascade Frog (Amolops hongkongensis), Hong Kong Newt (Paramesotriton honkongensis), Predaceous chub (Parazacco spilurus) and Red Muntjac (Muntiacus muntjak)*”.

Indeed, during our on-site observations in January 2014, the Hong Kong Newt was recorded in one of the streams in Chuen Lung (**Figure 1**). Furthermore, based on our records, some native orchids (*Liparis stricklandiana* and *L. viridiflora*) can also be found in the upper reaches of one of the streams flowing through the Area; even though the exact location of the record is within the Tai Mo Shan Country Park, we consider that the lower sections of the stream which is within the draft Plan are still potential habitats that are suitable for these orchid species.

嘉道理農場暨植物園公司
Kadoorie Farm & Botanic Garden Corporation

In addition, according to Plan 4 of the Town Planning Board Paper No. 9506, the Red Muntjac was found in the woodlands of Ha Fa Shan, which we consider is ecologically connected to the woodland habitats in the Tai Lam Country Park. Therefore, we wish to strongly recommend that all streams (including their riparian zones) and the woodland should be protected by being accorded with CA zoning status.

The Potential Impacts of the Village-type Development zone

In the proposed Village-type development zone (V-zone) which is within the Village Environ, there are already a few restaurants operating on the ground floor premises of the village houses and we observed that cutlery, dishes and kitchen utensils were being washed immediately next to the drainage U-channels (Figure 2), from which the grey water may in turn discharge into nearby watercourses (e.g., the natural streams). Since “Eating Place” is always permitted on the ground floor of village houses (i.e., New Territories Exempted Houses, NTEHs) within the V-zone, we are concerned that if more NTEHs are allowed to be built in the Area, the water quality of the streams may be adversely affected by the increase in volume of wastewater effluent potentially discharged from the small houses, especially those which house catering operation; thus, the ecologically sensitive stream habitats in the locality would be greatly affected. Therefore, we consider that the Village Expansion Area, which is outside the current village cluster, should not be included into the V-zone.

In addition, we would like to remind the Board that the Area is largely within the upper and lower direct water gathering grounds. The water quality of the streams should be maintained to safeguard the health of the general public. We would like the Planning Department (PlanD) and the Board to note the photographs shown in Figure 3; we have observed on many occasions that, when village houses have been built next to a watercourse, pipes would be built along the watercourse, discharging water/ grey water causing pollution and threatening aquatic life.

On the other hand, the Director of Environmental Protection recently issued an EIA Study Brief for the Drainage Services Department's Project on the Sewerage Works for Ha Fa Shan, Kiu Tau Village, Wang Lung and Ma Tong which is expected to commence in 2018 and to be completed in 2023¹. This seems to be the solution to the water pollution problems in the Area.

¹ http://www.epd.gov.hk/eia/english/alpha/aspd_669.html

嘉道理農場暨植物園公司
Kadoorie Farm & Botanic Garden Corporation

However, we would also like to draw the Board's attention to Chapter 9 of the *Report No. 55 of the Director of Audit* prepared by the Audit Commission². In Table 10 of the chapter, it shows that the connection rate for village houses covered by public sewers was only 37%. The Audit Commission recommends the relevant authorities to “*take measures to improve the sewer connection rates*”, “*closely monitor the cases of non-compliance with the sewer connection requirements*” and “*continue dialogue with villagers and consider taking appropriate action to enable connection to public sewers in accordance with the Water Pollution Control (Sewerage) Regulation*”. It is clear that under the existing guidelines (i.e., using the Septic Tank System) and even with public sewers provided, the discharge of effluents from domestic wastewaters could still be a significant environmental issue in the rural area. Relevant authorities may respond that this is an enforcement problem but not a planning issue, thus, there is no need for the Board to consider it. However, we strongly feel that it is also the responsibility of the Board (and relevant authorities) to designate a plan that is practical and feasible, that at the same time effectively protects species of conservation importance, and ensures the water quality within the water gathering grounds is free from foreseeable pollution impacts and safe for human consumption.

Conclusion

We appreciate the PlanD’s effort in drafting the DPA plan for the Area to prevent further haphazard development, destruction and disturbance to the natural environment. However, we felt that more thoughtful consideration could be given to improve the current situation in the Area and the Board (together with the relevant authorities) should have a long-term environmental vision when considering the protection and development of the Area.

We hope our comments and concerns, as set out above, will be adequately addressed in future consultations and meetings.

Comments on the draft Chuen Lung and Ha Fa Shan Outline Zoning Plan No.

S/TW-CLHFS/1

The Hong Kong Bird Watching Society (HKBWS) would like to raise our comments on the draft Chuen Lung and Ha Fa Shan Outline Zoning Plan (OZP) No. S/TW-CLHFS/1.

The general planning intention of the draft Plan is to "protect the natural environment and the rural landscape, with a view to complementing the overall natural environment and the landscape characters of the surrounding Tai Lam Country Park and Tai Mo Shan Country Park" and "Active farmland is retained in view of their good potential for agricultural use. Development which would cause adverse impacts on the water quality and water resources of the water gathering ground is not encouraged"¹. We support such planning intention of the draft Plan and we urge the Town Planning Board (the Board) that boundaries of conservation zonings in the draft Plan should be delineated to reflect these planning intentions.

國際鳥盟成員

1. Ecological value of the Plan Area

Chuen Lung and Ha Fa Shan support a population of birds that is typical of secondary woodland habitats in Hong Kong (Figure 1). Bird species of Local Concern², Ashy Drongo (*Dicrurus leucophaeus*), Rufous-capped Babbler (*Stachyris ruficeps*) and Orange-headed Thrush (*Geokichla citrina*) were found at Chuen Lung. Raptor species of conservation importance recorded include Crested Serpent Eagle (*Spilornis cheela*), Black Kite (*Milvus migrans*), Eastern Buzzard (*Buteo japonicus*) and Amur Falcon (*Falco amurensis*). All raptor species are listed under Class II protection in China and Crested Serpent Eagle is considered to be "vulnerable" in the China Red Data Book. Other woodland bird species such as Pygmy Wren Babbler (*Pnoepyga pusilla*), Streak-breasted Scimitar Babbler (*Pomatorhinus ruficollis*), Chinese Hwamei (*Garrulax*

¹ Sections 8.1 and 8.2 of the Explanatory Statement for the draft Plan No. S/TW-CLHFS/1

² Fellowes et al. 2002.

canorus), Greater Necklaced Laughingthrush (*Garrulax pectoralis*) and Mountain Tailorbird (*Phylloscopus cucullatus*) were also recorded. All of the above demonstrate that the habitat conditions of Chuen Lung and Ha Fa Shan are intact and similar to the woodlands in the surrounding Tai Mo Shan and Tai Lam Country Park, and thus should be adequately protected.

2. Inadequacy of the current agriculture and conservation zoning

For the past 10 years or so, the approval rate of small house applications in "Agriculture" (AGR) and "Green Belt" (GB) zones were over 60% and 55% respectively³. As such, AGR and GB zones are vulnerable to small house development. In order to accurately reflect the planning intention of the current OZP, we consider that restrictive conservation zonings without small house development, such as GB(1) and "Conservation Area" (CA) which the redevelopment of houses is in Column 2 of the Notes, should be used to protect the agricultural lands (Figure 2) and natural habitats in the Plan Area while the development right of the villagers are respected.

3. Our recommendations

- 3.1. The HKBWS considers that an "Ecosystem Approach", which is the primary framework for action under the Convention on Biological Diversity⁴, should be adopted to protect the various sensitive habitats in the Plan Area. We consider that all natural streams including their tributaries should be protected by GB(1) or CA zone of 30 metres along both sides of the banks (Figure 3). This buffer zone with conservation zoning is a practical distance that would protect the riparian vegetation and would prevent undesirable pollution from developments.
- 3.2. All woodlands, including both secondary woodland and Fung Shui woodland, should be protected by GB(1)/CA zone, instead of the current GB zone. On the other hand, active agricultural land should not be included in the V zones.

Thank you for your kind attention and we hope that the Town Planning Board would take our comments into consideration.

Yours faithfully,

1. The representation should be made to the Town Planning Board (the Board) before the expiry of the specified plan exhibition period. The completed form and supporting documents (if any) should be sent to the Secretary, Town Planning Board, 15/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong.
 申述必須於指定的圖則展示期限屆滿前向城市規劃委員會（下稱「委員會」）提出，填妥的表格及支持有關申述的文件（倘有），必須送交香港北角渣華道 333 號北角政府合署 15 樓城市規劃委員會秘書處。
2. Please read the "Town Planning Board Guidelines on Submission and Publication of Representations, Comments on Representations and Further Representations" before you fill in this form. The Guidelines can be obtained from the Secretariat of the Board (15/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong - Tel.: 2231 4810 or 2231 4835) and the Planning Enquiry Counters of the Planning Department (Hotline: 2231 5000) (17/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong and 14/F., Sha Tin Government Offices, 1 Sheung Wo Che Road, Sha Tin, New Territories), or downloaded from the Board's website at <http://www.info.gov.hk/tpb/>.
 填寫此表格之前，請先細閱有關「根據城市規劃條例提交及公布申述、對申述的意見及進一步申述」的城市規劃委員會規劃指引。這份指引可向委員會秘書處（香港北角渣華道 333 號北角政府合署 15 樓 - 電話：2231 4810 或 2231 4835）及規劃署的規劃資料查詢處（熱線：2231 5000）（香港北角渣華道 333 號北角政府合署 17 樓及新界沙田上禾輒路 1 號沙田政府合署 14 樓）索取，亦可從委員會的網頁下載（網址：<http://www.info.gov.hk/tpb/>）。
3. This form can be downloaded from the Board's website, and obtained from the Secretariat of the Board and the Planning Enquiry Counters of the Planning Department. The form should be typed or completed in block letters, preferably in both English and Chinese. The representation may be treated as not having been made if the required information is not provided.
 此表格可從委員會的網頁下載，亦可向委員會秘書處及規劃署的規劃資料查詢處索取。提出申述的人士須以打印方式或以正楷填寫表格，填寫的資料宜中英文兼備。倘若未能提供所需資料，則委員會可把有關申述視為不會提出論。

Statement on Personal Data 個人資料的聲明

1. The personal data submitted to the Board in this representation will be used by the Secretary of the Board and Government departments for the following purposes:

(a) the processing of this representation which includes making available the name of the "representer" for public inspection when making available this representation for public inspection; and

(b) facilitating communication between the "representer" and the Secretary of the Board/Government departments in accordance with the provisions of the Town Planning Ordinance and the relevant Town Planning Board Guidelines.

委員會就這宗申述所收到的個人資料會交給委員會秘書及政府部門，以根據《城市規劃條例》及相關的城市規劃委員會規範指引的規定作以下用途：

(a) 處理這宗申述，包括公布這宗申述供公眾查閱，同時公布「申述人」的姓名供公眾查閱；以及

(b) 方便「申述人」與委員會秘書及政府部門之間進行聯絡。

2. The personal data provided by the "representer" in this representation may also be disclosed to other persons for the purposes mentioned in paragraph 1 above.

「申述人」就這宗申述提供的個人資料，或亦會向其他人士披露，以作上述第1段提及的用途。

3. A "representer" has a right of access and correction with respect to his/her personal data as provided under the Personal Data (Privacy) Ordinance (Cap. 486). Request for personal data access and correction should be addressed to the Secretary of the Board at 15/F., North Point Government Offices, 333 Java Road, North Point, Hong Kong.

根據《個人資料（私隱）條例》（第486章）的規定，「申述人」有權查閱及更正其個人資料。如欲查閱及更正個人資料，應向委員會秘書提出有關要求，其地址為香港北角渣華道333號北角政府合署15樓。

川龍及下花山分區計劃大綱草圖

編號:S/TW-CLHFS/1

致: 城規會

敬啟者:

有關上述事宜，本村(川龍村) 之原居民對上述內容建議規劃涉及本村之私人土地範圍部份作出強烈反對，根據如下：

1. 自 1994 年，因應本村村民需要而作出之第一期小型屋宇規劃專案於橫龍村擴展區可以興建 50 間小型屋宇，至今仍未得到相關部門跟進及配合，引至本村並未獲得按貴署之目的和目標實現受益，造福村民，安居樂業。
2. 有關上述規劃前，貴方並沒有溝通，信息不正確，將會因此引至損害及破壞本原居民傳統鄉村村民之利益。
3. 本村同人理解及支持貴署需要制定各類型規劃，但上述規劃涉及本原居民村祖堂及本原居民村父老兄弟之私人土地業權，此乃屬於香港特別行政區政府法律條例所保障內之合法私人財產及權益，理應得到合法合理之保護。因此敬請貴署謹慎處理，並需要預先邀約本村原居民村長協調共識優化規劃，達至多贏局面，創造和階友好互信基礎及關係；以免因諮詢不足或錯位之情況下而破壞本村村民與貴署以至政府長久建立之良好關係。

由於本村長期未獲得政府及相關部門之關顧，引至至今小型屋宇申請興建積壓長達 40 年之久。根據貴處 2016 年 12 月 29 日於荃灣鄉事委員會討論文件中之第 5.1.3 內容指出只預留規劃可興建共 73 間小型屋宇數量，遠遠不符合本原居民村村民所需求預建數量 169 間。因此相關規劃需要協調及關顧處理相關實況，以盡快協助政府解決在回歸前對原居民傳統，包括居住之保障承諾。

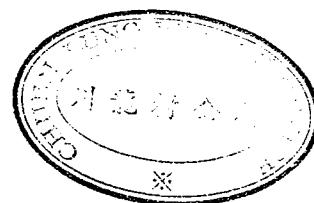

5. 本村同人參閱上述相關文件，深感貴署已經進行可行性之規劃，唯只因諮詢時間倉卒及諮詢對象及團體疏漏，獨欠受影響之私人業權人，因此敬請貴處如有關本村之私有業權規劃，暫延至與本傳統原居民村直接友好溝通互動後再作出優化完善之全面規劃，造福香港市民。

順祝鈞安

UPJET LIMITED

Attn: Secretary, Town Planning Board,
15/F, North Point Government Offices
333 Java Road, North Point, HK

Dear Sir,

Re: Draft Chuen Lung and Ha Fa Shan
Outline Zoning Plan No. S/TW-CLHFS/1

We, the owners of DD 360 lot 119, 122, 124, 126, 127, 128, 129, 130, 131 & 133 as indicated in the attached Lot Index Plan, which location is also marked hatched black on the attached draft zoning plan.

We herewith file an objection to the proposed change of zoning of aforesaid lots to Green Belt for the following reasons:-

1. Green Belt zoning will infringe the right to develop of a private lot under the protection of Articles 6 & 105 of the Basic Law.
2. The government is actively looking for residential development sites. This includes changing selected Green Belt zoning site into residential use. It doesn't make sense to zone the above mentioned area as Green Belt which is fit for low rise residential development.
3. There are existing squatter structures which represent "tolerate structures" on the mentioned lots. Most of the structures are residential use and thus the "current tolerate use" of the mentioned lots is "residential use". These being the case, it is thus logical to "maintain" the mentioned sites for "residential use". Also, it won't automatically turn into green area even it is zoned to be.
4. There are existing ingress and exit on Route Twisk to the mentioned lots which is fit for low rise residential development.
5. Thus, the area above mentioned shall be zoned as Residential instead.

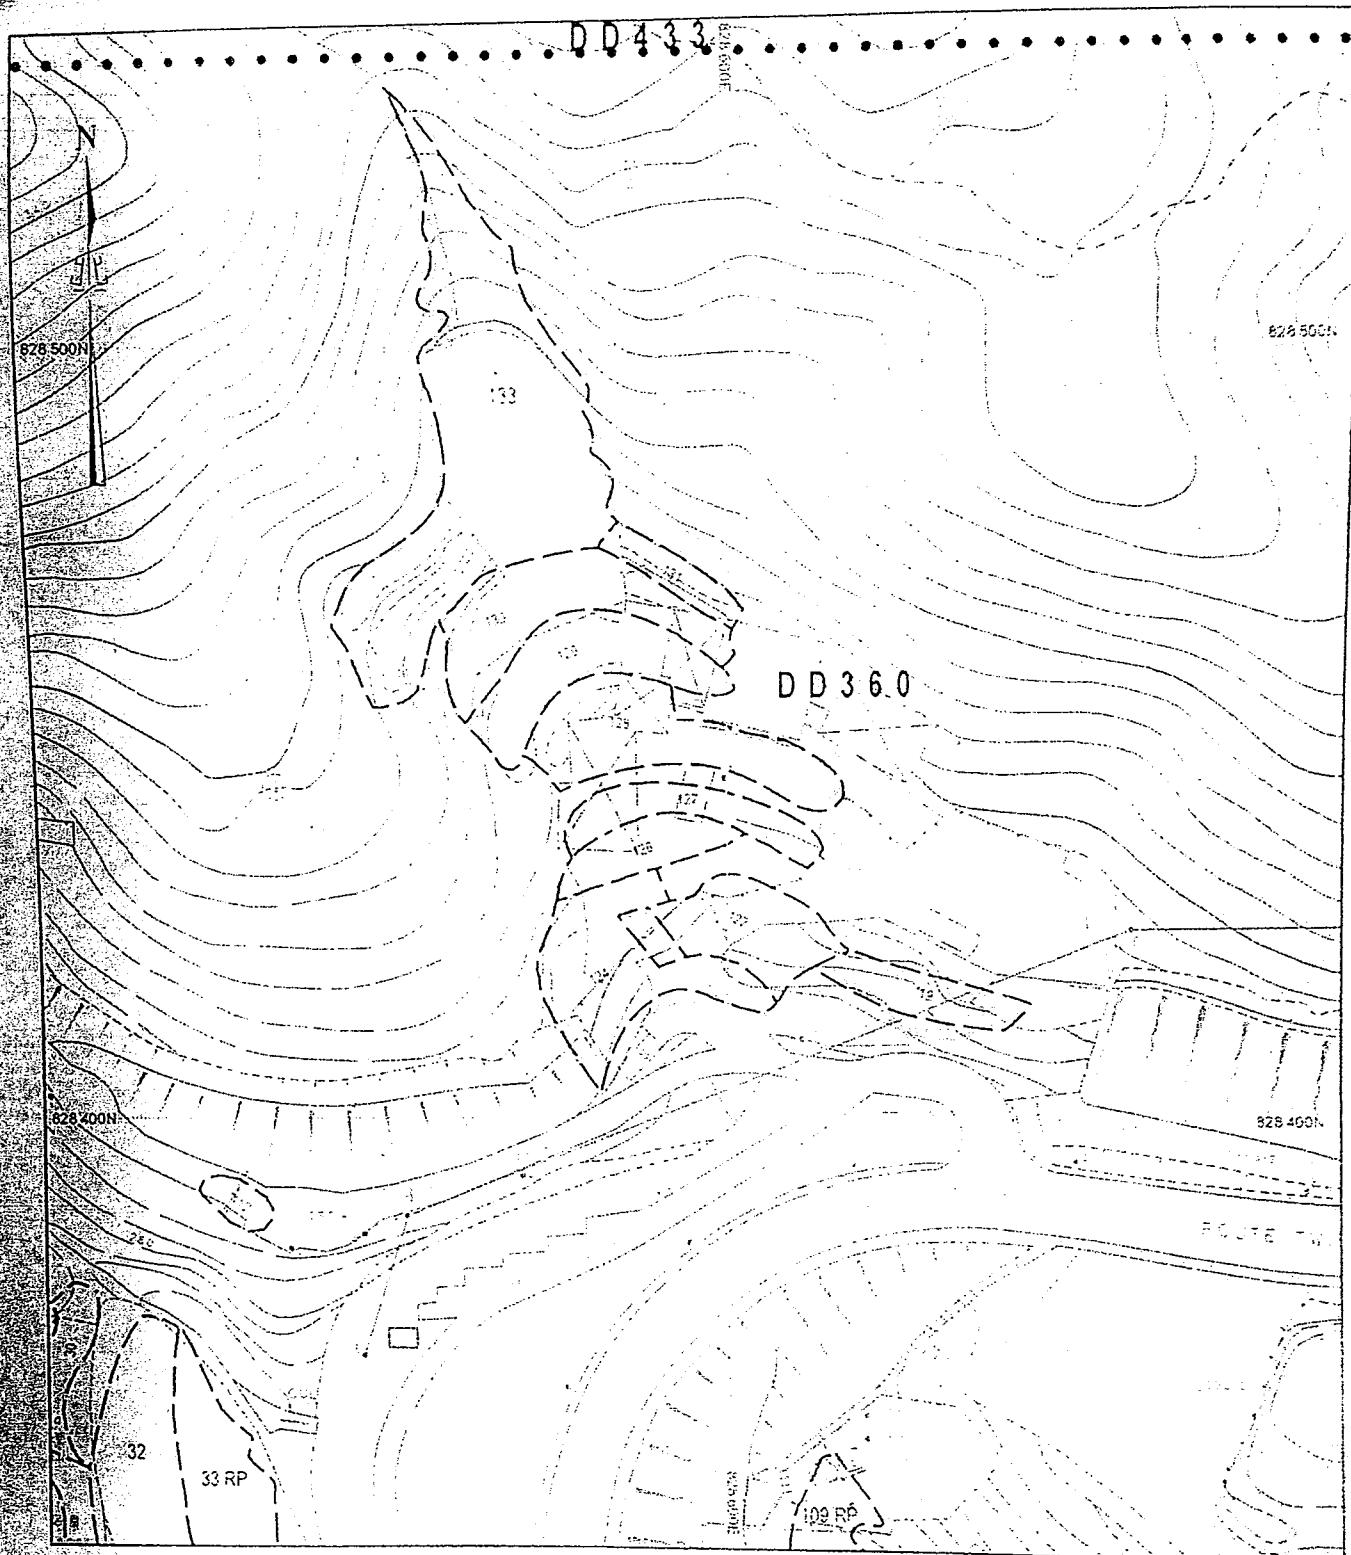

Should further representation be required on the draft, please don't hesitate to contact our Mr. Aron Kwan at [REDACTED]

Yours Sincerely

For and on behalf of

Dear Sir,

8 February, 2017

**Representation on Amendment of Zoning
of Various Lots and Adjoining Government Land in D.D. 433
on the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1**

We submit herein, on behalf of Fortune Houses Development Limited, a Representation on the amendment of zoning of the captioned private property and government land. The subject site was within area zoned "Unspecified Use" on the Approved Chuen Lung and Ha Fa Shan Development Permission Area Plan No. DPA/TW-CLHFS/2. It has been amended to "Green Belt" ("GB") on the Draft Chuen Lung and Ha Fa Shan Outline Zoning Plan No. S/TW-CLHFS/1 gazetted on 9.12.2016. The Representer considers that the new zoning will seriously restrict the development potential of the private land.

The Representer proposes to rezone the site from "GB" to "Residential (Group C)" ("R(C)") so as to allow low-density residential development at the site. The proposed amendment is based on the following justifications:-

- (a) the new "GB" zoning will seriously jeopardize the planned residential development at the site and will undermine the development potential of the site;
- (b) the draft plan has reserved about 200ha of land for "GB" and the plan has not taken into account the Government's search for developable land over various parts of the Special Region in recent years;
- (c) the site is accessible from public road and is physically suitable for low-density residential uses;
- (d) the proposed development will be compatible with its adjoining land uses; and
- (e) the proposed development will not have any significant environmental, traffic, sewerage and visual impacts on the local land uses.

TOCO PLANNING CONSULTANTS LTD.
JWN PLANNING, ENVIRONMENT & DEVELOPMENT CONSULTANCY

In view of the feasibility of the development proposal and the planning justifications presented in the Planning Objection Statement, the Representer proposes that the site could be rezoned to "R(C)" zone.

Please find enclosed 90 copies of the Planning Objection Statement and a copy of Form No.S6 for your attention.

Yours faithfully,
Toco Planning Consultants Ltd.

Statement on Personal Data 個人資料的聲明

1. The personal data submitted to the Board in this representation will be used by the Secretary of the Board and Government departments for the following purposes:

- (a) the processing of this representation which includes making available the name of the “representer” for public inspection when making available this representation for public inspection; and
- (b) facilitating communication between the “representer” and the Secretary of the Board/Government departments in accordance with the provisions of the Town Planning Ordinance and the relevant Town Planning Board Guidelines.

委員會就這宗申述所收到的個人資料會交給委員會秘書及政府部門，以根據《城市規劃條例》及相關的城市規劃委員會規劃指引的規定作以下用途：

- (a) 處理這宗申述，包括公布這宗申述供公眾查閱，同時公布「申述人」的姓名供公眾查閱；以及
- (b) 方便「申述人」與委員會秘書及政府部門之間進行聯絡。

2. The personal data provided by the “representer” in this representation may also be disclosed to other persons for the purposes mentioned in paragraph 1 above.

「申述人」就這宗申述提供的個人資料，或亦會向其他人士披露，以作上述第1段提及的用途。

3. A “representer” has a right of access and correction with respect to his/her personal data as provided under the Personal Data (Privacy) Ordinance (Cap. 486). Request for personal data access and correction should be addressed to the Secretary of the Board at 15/F, North Point Government Offices, 333 Java Road, North Point, Hong Kong.

根據《個人資料（私隱）條例》（第486章）的規定，「申述人」有權查閱及更正其個人資料。如欲查閱及更正個人資料，應向委員會秘書提出有關要求，其地址為香港北角渣華道333號北角政府合署15樓。

Executive Summary

This Representation is submitted by Toco Planning Consultants Ltd. on behalf of Fortune Houses Development Ltd.. It objects the new "Green Belt" zone covering various private lots in D.D. 433 and some adjoining government land on the Draft Chuen Lung and Ha Fa Shan Outline Zoning Plan No. S/TW-CLHFS/1 gazetted on 9.12.2016. The Representer also proposes to rezone the site to "Residential (Group C)" ("R(C)") zone for low-density residential development.

The subject site was designated as "Unspecified Use" on the Approved Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/2. A section 16 planning application for a proposed low-density residential development was submitted by the Representer to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5). Subsequently on 9.12.2016, the Board has rezoned the site to "GB" zone. The new zoning will seriously jeopardize their plan for residential development and will restrict the development potential of the site. It will undermine the development right of the landowner.

The subject site is suitable for residential development as it is accessible from Route Twisk and is located near to several existing and planned developments, i.e. Chuen Lung Village and recreational club building and a golf driving range. The proposed residential scheme has been carefully designed to match with the surrounding area and will improve the visual and landscape quality of the area. Planning and technical assessments have shown that the small scale development will not result in any significant impacts on the land use, traffic, environmental, sewerage, drainage, geotechnical, visual, landscape, ecological and risk management aspects of the locality. The proposed "R(C)" zone will not set an undesirable precedent for similar applications in view of its background, unique location and scale.

簡介

Fortune Houses Development Ltd. 透過達材都市規劃顧問有限公司，現向城市規劃委員會遞交規劃申述，反對丈量約份 433 約數個私人地段及毗連的政府土地在川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1 上被訂為「綠化地帶」用途區。申述人同時建議將地盤改為「住宅(丙類)」用途區，作低密度住宅發展。

地盤過去曾經在川龍及下花山發展審批地區核准圖編號 DPA/TW-CLHFS/2 上被訂為「非指定用途」，申述人在 2016 年 9 月 15 日向城市規劃委員會遞交第 16 條規劃許可申請(申請編號 A/DPA/TW-CLHFS/5)，但後來城規會在同年的 12 月 9 日將地盤改劃為「綠化地帶」用途區。此更改規劃用途不但阻礙已在規劃申請階段的住宅發展，更會影響地盤的發展潛力及土地擁有人的發展權益。

地盤連接荃錦公路，並鄰近多個已發展及擬議發展之用地，包括川龍村和高爾夫球練習場及會所，所以很適合作住宅發展。擬議住宅計劃設計優良，充分考慮與附近自然環境配合，落成後將改善地區的視覺及園林環境。經過詳細的規劃及工程研究，顧問公司認為本計劃規模細小，不會對本區及附近的土地利用、交通、環境、排污、排水、地質、視覺景觀、園景、生態及風險管理造成不良影響。基於地盤的背景、位置獨特性和規模，擬議「住宅(丙類)」用途區不會對類似申請構成不良先例。

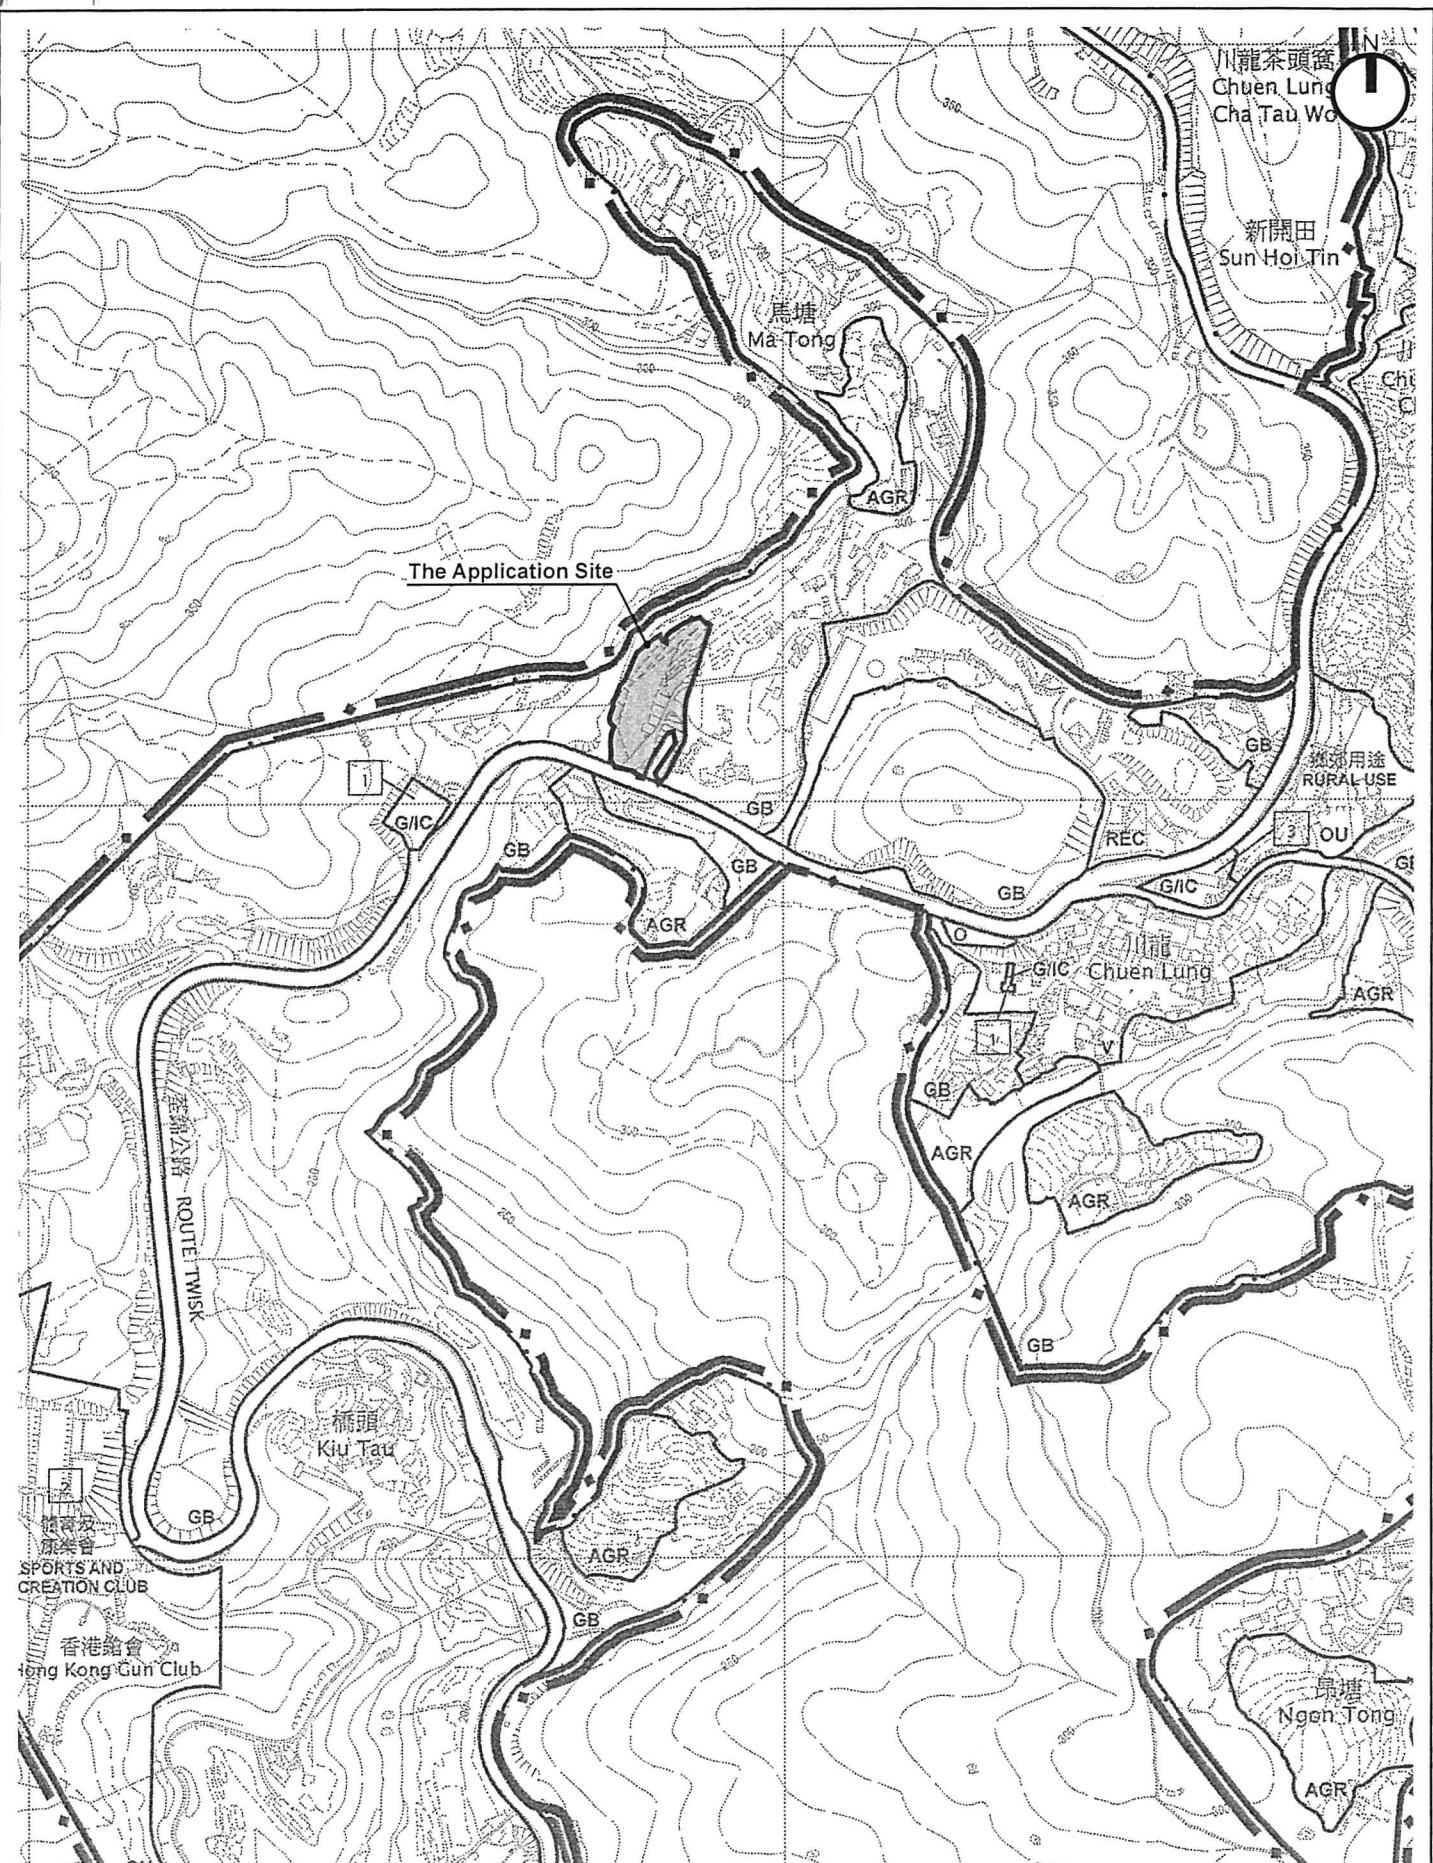

1. INTRODUCTION

This Representation is submitted to the Town Planning Board (the TPB / Board) by Toco Planning Consultants Ltd. (Toco) on behalf of Fortune Houses Development Ltd. (the landowner/ the Representer). It objects to the new “Green Belt” (“GB”) zone covering lots no. 385, 386 RP, 387, 388, 389, 392, 394, 395, 396, 400 and 404 (part) in D.D. 433 and some adjoining government land on the Draft Chuen Lung and Ha Fa Shan Outline Zoning Plan (OZP) No. S/TW-CLHFS/1 gazetted on 9.12.2016 (see **Plan A**). The Representer has a strong intention to develop the subject site into low-density residential use which is already at the planning application stage.

The subject site was designated as “Unspecified Use” on the Approved Chuen Lung and Ha Fa Shan Development Permission Area (DPA) Plan No. DPA/TW-CLHFS/2. A section 16 (s.16) planning application for proposed 11 three-storey houses with a plot ratio of 0.4 and a site coverage of about 20% was submitted to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5) (hereafter “the submitted residential scheme”). Subsequently on 9.12.2016, the Board has rezoned the site to “GB” on the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1. The Representer would like to raise a planning objection to the Draft Chuen Lung and Ha Fa Shan OZP because the new zoning will seriously jeopardize their plan for residential development and will restrict the development potential of the site. The Representer also proposes to rezone the site to “Residential (Group C)” (“R(C)”) zone for low-density residential development.

This Planning Objection Statement is intended to provide planning justifications in support of the proposed “R(C)” zoning. A summary of the development proposal and technical assessments of the submitted residential scheme will be presented in this report. Planning assessments by Toco have shown that the Representation is well justified based on the following reasons:

- (a) the new “GB” zone will seriously jeopardize the planned residential development for the site;
- (b) it will undermine the development right of the landowner and development potential of the site;
- (c) the draft plan has not taken into account the Government’s difficulty in search for developable land all over the Special Region;
- (d) the subject site is suitable for low-density residential development in terms of location and land use compatibility;
- (e) the proposed residential scheme has been carefully designed to match with the surrounding area and will improve the visual and landscape quality of the area;
- (f) the small scale development will not result in any significant impacts on traffic, environmental, drainage, sewerage, visual, landscape, ecological, geotechnical and risk management aspects of the locality;
- (g) the proposed development is in line with the Government’s plan making mechanism; and
- (h) the proposed “R(C)” zone will not set an undesirable precedent for similar applications in view of its background, unique location and scale.

Scale 1:5 000

Plan A: Zoning and Location Plan
Extract of Draft Chuen Lung and Ha Fa Shan
Outline Zoning Plan No. S/TW-CLHFS/1

2. PLANNING BACKGROUND

Site and zoning backgrounds and land status of the subject site will be presented in this section.

2.1 Site Background (Plan B)

The subject site is located at the outskirt of Tsuen Wan New Town and is in close proximity to Chuen Lung Village. It is accessible from Route Twisk which is a dual-lane road connecting Tsuen Wan and Kam Tin areas. The site is bounded by the stream course to the north and west, slope with mature trees and some temporary structures to the east, and Route Twisk to the south. It is about 3,997.2m² in area and is predominately occupied by land in derelict condition.

2.2 Land Status (Plan C)

The subject site covers private lots no. 385, 386 RP, 387, 388, 389, 392, 394, 395, 396, 400 and 404 (part) in D.D. 433 and some adjoining government land. The private lots (about 3,180m²) are entirely owned by the Representer - Fortune Houses Development Ltd.. After the s.16 planning application for residential development (Application No. A/DPA/TW-CLHFS/5) or the proposed "R(C)" zoning in this Representation is approved by the Board, the landowner will submit an application to Lands Department (LandsD) to surrender the adjoining private land, including lots no. 404, 406 and 407 in D.D. 433 (about 820m²), for exchanging the government land adjacent to lot 400 in D.D. 433 and a new lease to develop a low-density residential development at the site.

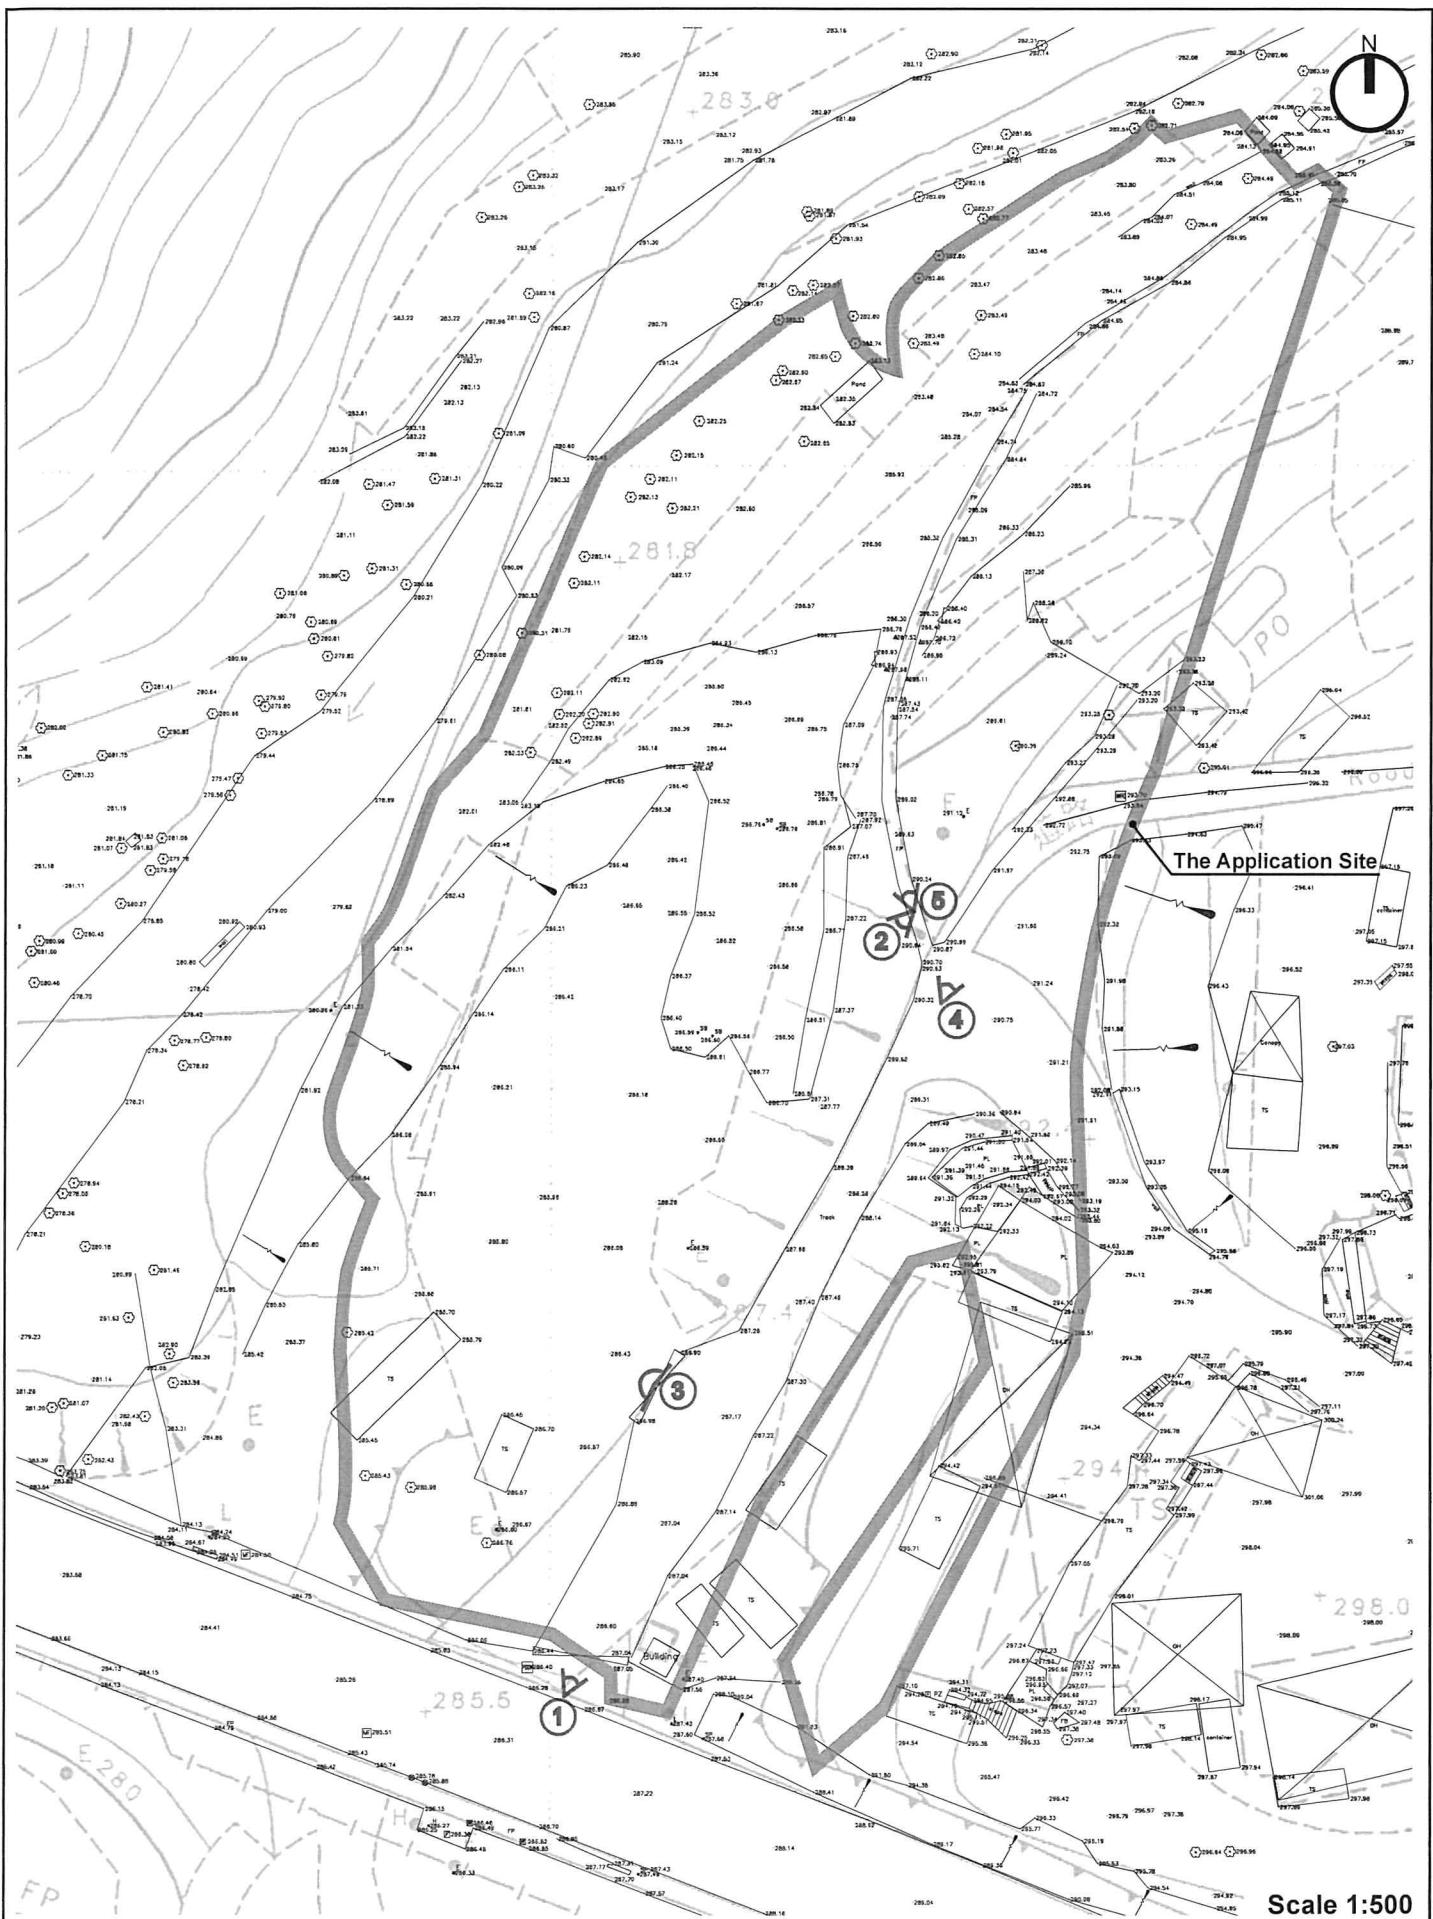

2.3 Planning and Zoning Backgrounds(Plan D)

Planning and zoning backgrounds in relation to the subject site are summarized as follows:-

(a) Draft Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/1

The first Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/1 was gazetted by the Board on 20.12.2013. The subject site was designated as "Unspecified Use" on the draft DPA Plan. During the two months exhibition period, Toco had submitted, on behalf of the landowner of the subject site, a planning objection to the draft DPA plan (Representation Nos. R13 and R14). The main reason of the objection was that the draft DPA plan would restrict the development potential of the private lots. The subject site has the potential to be zoned to ("R(C)") with a plot ratio ranging from 0.4 to 0.75.

After the Representation hearing on 6.6.2014, the Board decided not to uphold the Representations due to the reason that detailed land use assessments for the area taking account of various aspects will be undertaken during the OZP

Scale 1:500

Site Photos: Existing Site Condition

(See Plan B for Visual Points)

preparation. Therefore, it is not appropriate at this stage to consider designating “R(C)” zone on the draft DPA Plan. Moreover, the TPB Paper No. 9641, which was prepared by Planning Department (PlanD) for the Representation hearing of the draft DPA Plan, stated that the proposed “R(C)” zone may or may not be permitted depending on the assessment of the possible effect on water pollution or soil erosion. One of the assessment’s criteria is that there should be no material increase in the risk of pollution to the water gathering ground.

(b) Approved Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/2

On 3.10.2014, the Approved Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/2 was gazetted by the Board and the subject site was retained as “Unspecified Use” on the plan. According to the Notes of the DPA Plan as described in **Table 2.1**, for area designated as “Unspecified Use”, any new development other than agricultural use shall require the permission from the Board under s.16 of the Town Planning Ordinance. A s.16 planning application for proposed 12 three-storey houses with a plot ratio of 0.46 was submitted to the Board on 18.2.2015 (Application No. A/DPA/TW-CLHFS/1). Technical assessments such as Sewage Impact Assessment and Ecological Impact Assessment were prepared to support the application. The application was withdrawn on 14.7.2015 due to departmental concerns mainly on design of the development and technical issues.

(c) Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1

After taking into account views of the relevant government departments on the previous application and the relevant TPB documents, a s.16 planning application for proposed 11 three-storey houses with a plot ratio of 0.4 was submitted to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5). However on 9.12.2016, the Board has rezoned the site to “GB” on the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1 (see **Plan D**). The Representer would like to raise a planning objection to the Draft Chuen Lung and Ha Fa Shan OZP because the new zoning will seriously jeopardize their plan for residential development and will restrict the development potential of the site. The schedule of uses for “GB” zone on the Draft Chuen Lung and Ha Fa Shan OZP is listed on **Table 2.2**.

	Service Reservoir
	Social Welfare Facility
	Utility Installation for Private Project
	Zoo

- * Country Park means a country park or special area as designated under the Country Parks Ordinance (Cap. 208). All uses and developments require consent from the Country and Marine Parks Authority and approval from the Town Planning Board is not required.

Planning Intention

The planning intention of this zone is primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl as well as to provide passive recreational outlets. This is a general presumption against development within this zone.

Remarks

Any filling of land/pond, excavation of land or diversion of stream, including that to effect a change of use to any of those specified in Columns 1 and 2 above or the uses or developments always permitted under the covering Notes (except public works co-ordinated or implemented by Government, and maintenance, repair or rebuilding works), shall not be undertaken or continued on or after the date of the first publication in the Gazette of the notice of the draft development permission area plan without the permission from the Town Planning Board under section 16 of the Town Planning Ordinance.

3. PLANNING OBJECTION AND PROPOSAL

Reasons for objection to the new "GB" zone on the draft OZP, summary of the development proposal of the submitted residential scheme and proposed amendment to the draft plan will be presented in this section.

3.1 Objection to the New Zoning on the Draft Chuen Lung and Ha Fa Shan OZP

The private lots under the subject site were bought by the Representer in the 1960s and 1970s. In 2000, the site was selected for the re-provision of Sung Dynasty Village, which had been demolished together with the Lai Chi Kok Amusement Park in 1997. However, the redevelopment scheme was later shelved due to the lack of transport and other supporting facilities.

The subject site has been left vacant for a long time, with no agricultural activities being carried out. Since the site is situated in close proximity to Route Twisk and workshops, illegal dumping of building debris had occurred frequently at the site. The Representer had cleared the debris several times but could not stop the dumping activities. Eventually, the Representer had to report to the Police and to put up perimeter chain fence to protect the site.

While the Representer had been vigilant in cleaning up the dumps and fencing off the land to protect the environment, developing the land for appropriate use is considered as the most effective means to deter further landfilling activities. In view of the acute demand for housing in the society, and the subject site is easily accessible from Route Twisk and is located adjacent to several existing developments, the Representer had submitted a s.16 planning application for a low-density residential scheme to the Board on 18.2.2015 (Application No. A/DPA/TW-CLHFS/1). Subsequently, the application was withdrawn due to departmental concerns mainly on design of the development and technical issues.

After taking into account views of the relevant government departments on the previous application and the relevant TPB documents, a s.16 planning application with a revised scheme and detailed technical assessment was submitted to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5). However on 9.12.2016, the Board has rezoned the site to "GB" on the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1. The Representer now submits a planning objection to the Draft Chuen Lung and Ha Fa Shan OZP because the new "GB" will seriously jeopardize their plan for residential development and will restrict the development potential of the site. Planning justifications in support of the planning objection will be given in detail in **Section 4**.

3.2 Development Proposal for the Submitted Residential Scheme

A s.16 planning application for proposed 11 three-storey houses with a plot ratio of 0.4 was submitted to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5). A Planning Statement with development proposal and detailed technical assessments was also submitted to support the application. During the public inspection period, comments from the public and relevant government departments had been received by the Represente. A Further Information (I), which contains a schedule of responses to departmental comments, a summary of responses to public comments, a set of revised architectural and landscape drawings and detailed technical assessments, has been submitted to the Board on 26.1.2017.

Perspective Drawing, Master Layout Plan and Landscape Master Plan of the latest scheme are attached in **Plan E** to **Plan G**. Other architectural and landscape drawings are attached in **Appendix I**. The submitted residential scheme comprises 11 two-storey houses over one-storey of carport and a guard house. The design of the proposed development is described as follows:-

(a) Main Objective (Plan E)

- The proposed development is intended to make use of a piece of abandoned agricultural land to meet the current shortfall in high class housing supply in Hong Kong. In order to blend in with the local environment, the development intensity of the proposed development has been restricted to a plot ratio of about 0.4, a site coverage of about 19% and a building height of 3 storeys.
- The design objective of the proposed scheme aims at maximizing the greenery and landscaping at the site. It is also aims at minimizing the disturbance to the natural environment of the site. Over 46% of the site will be used for landscaped area. A continuous green buffer has been provided along the western side of the site to avoid direct impact on landscape resources in particular existing trees adjacent to the site.
- In order to respect the natural topography of the site, terraced development platforms and terraced design for the development have been adopted to reduce site formation. On the west terrace platforms facing the river, mature trees will be planted along these platforms so as to keep a green looking view from the western side of the river.
- Natural coloured material has been adopted for the external wall and elevation of the houses. Earth tone colour stones with natural appearance are used. Beige colour pavement tiles are used for the driveway. New species of shrub and trees are also planted at the side of the driveway as well as garden area.

NOTES:

- 1. PROPOSED SITE AREA = 3997.2 sq.m.
- 2. G.F.A. COUNTABLE = 1596.72 sq.m.
- 3. NO. OF HOUSES = 11
- 4. NO. OF STOREY = 2 DOMESTIC FLOOR + G/F CAR PARK
- 5. PROPOSED PLOT RATIO = 0.399
- 6. TREES TO BE RETAINED = 3 nos.
- 7. TREES TO BE FELLED = 22 nos.
- 8. TREES TO BE TRANSPLANTED = 4 nos.
- 9. COMPENSATORY TREES = 23 nos.

BUILDING
VEHICULAR ROAD
PEDESTRIAN FOOTPATH

Scale 1:500

(b) Master Layout of the Proposed Development (Plan F)

The 11 residential blocks are connected by an internal access road with 6m width. Each house has been separated with reasonable distance to enhance visual and air permeability. All the individual houses are East-West oriented, with the majority of the houses facing the river. Acoustic windows (top-hung type) have been proposed as direct noise mitigation measures for road traffic noise impact assessment. The access road ends with a landscaped roundabout at the northern side of the site, with a standard suitable for Emergency Vehicle Access (EVA). A gateway has been proposed at the landscaped roundabout for the re-provision of access road to the adjacent stakeholders.

The development layout has been carefully designed to minimize visual and environmental impacts of the locality. Not only those footprints of the proposed low-rise houses have been set back from the stream course as much as possible, tree buffer zone has also been incorporated to delineate the residential component of the proposed development from the stream course. In order to respect the natural topography of the site, terraced development platforms and terraced design for the development have been adopted to reduce site formation.

Sewer from the development will be designed to discharge to the public sewers. Peripheral channels will be provided within the site boundary to collect runoff and convey it to the main stream course at the west of the site. All drainage and sewage facilities will be implemented and maintained by the project proponent.

(c) Landscape Proposal (Plan G)

The landscape proposal has been designed to maximize the greenery and to complement the existing landscape character and visual context of the area. It has been revised by taking into account the latest comments from the relevant government departments. The landscape proposal comprises:-

- the elongated stepping planters are designated along the western boundary, and provide columnar trees to increase the extent of the greening, and provide buffering from the surrounding area;
- all transplanted trees will be relocated to the north-west and south-east of the site to provide screening of the subject site;
- road side trees will be planted along the driveway; turf will be provided for all private garden areas; a landscape green wall feature will also be provided at the southern entrance to ensure a significant quantity of greening in the development; and
- the original clubhouses has been deleted in this scheme, and in replace of outdoor exercise area, jogging path, outdoor children play area and leisure sitting out area.

All landscape areas will be designed and detailed according to the current version of Building Department's Design Manual - Barrier Free Access. The requirement of soil depth is directly related to the planting design. Since all planting areas are on open-slab planter, therefore, the general soil depth of about 1200mm depth shall be sufficient for all planting. The soil quality will applied the organic material, which eliminate the soil erosion pollution to the surrounding area.

A tree survey within the subject site was conducted in January 2016 and 29 trees were surveyed (Appendix I of the Planning Statement submitted to the Board on 15.9.2016 refers). Two of them will be retained and 2 of them will be transplanted due to the conflict with the development, while 25 of them are proposed to be felled due to the conflicted with the proposed level and their poor form and low amenity value. Whilst, there are 82 compensatory trees proposed in the submitted residential scheme. The quantity compensation ratio and DBH compensatory ratio are 1:3.28 and 1:2 respectively.

(d) Access Arrangement and Parking Provision

The proposal will provide a vehicular ingress/egress access point at the south side of the site leading to Route Twisk. The internal access road connects north of the site with roundabout for smooth manoeuvring of emergency vehicles and servicing vehicles within the site. The design of the internal access arrangement would be in accordance to the Transport Planning and design Manual.

Each house would be provided with individual access for the designated parking spaces. Car parking provision for the proposed development is in accordance with the Hong Kong Planning Standards and Guidelines (HKPSG). There are 18 private car parking spaces for the 11 residential houses and 1 motorcycle parking space for the proposed development. Also, a loading/unloading bay for goods vehicle would be provided to fulfill the requirement of HKPSG.

(e) Development Schedule

The indicative development parameters of the proposed scheme are shown in **Table 3.1** below. The proposed development generally follows the development restrictions stipulated in "R(C)" or "GB" zones on rural OZPs. With a site area of about 3,997.2m² and a total countable GFA of about 1,596.54m², the proposed plot ratio is only 0.399 which is relatively low. The proposed site coverage of 19.2% is also very low because most part of the site will be devoted to landscaped area, access road and pedestrian spaces. The proposed development is low-density and low-rise in nature and has been carefully designed to match with the adjacent land uses and local environment.

(f) Implementation Programme

The proposed development is anticipated to be completed by 2020, taking into account the timing for fulfilment of planning approval conditions, building plan submission stage, lease modification stage and construction stage, etc.

Table 3.1: Development Schedule of the Proposed Development

Subject Site		
Site Area (m ²)	about 3,997.2m ²	
Plot Ratio	0.399 (approximate)	
Proposed Domestic GFA m ²	about 1,590.54m ²	
Guard House GFA (m ²)	about 6m ²	
Total GFA Countable (m ²) (Proposed Domestic GFA + Guard House GFA)	Not exceeding 1,596.54m ² (1590.54m ² + 6m ² = 1,596.54m ²)	
No. of Block(s) (m ²)	11 Houses plus 1 Guard House	
Maximum No. of Storey(s)	2 (over 1 storey of carport)	
Maximum Building Height	9.625m	
Site Coverage (G/F Domestic Units + Guard House)	19.2% (approximate) ((763.07m ² + 6m ²) / 3997.2m ² x 100% = 19.2%)	
Landscaped Area (m ²)	Total	1,870m ² (about 46.78%)
	Garden	1,075m ²
	Planter	795m ²
Number of Unit(s)	11 Units	
Average Unit Size	about 144.596m ²	
Estimated No. of Resident(s) ⁽¹⁾	about 32	
No. of Car Parking Space(s)	18	
No. of Motorcycle Space	1 (inside House 11 only)	
Loading/Unloading Bay(s)	1 for goods vehicle	

Remarks:

- (1) Estimation based on the average domestic household size of 2.9 from Census and Statistics Department (2016)

Table 3.2: Development Parameters of the Proposed Blocks

Building(s)	Block(s)	No. of Storey(s)	Maximum Building Height	
			From Ground Level	m.P.D.
Domestic Blocks	11	2 (over 1 storey of carport)	9.625m	297.51m
Guard House	1	1	2.5m	289.11m

Table 3.3: Breakdown of GFA Concession

Building(s)	Floor	Portion	Area
Domestic Blocks	G/F	E&M Room, Car Park Bays	524.01m ²
	1/F	N/A	-
	2/F	N/A	-
	R/F	N/A	-
Total GFA concession			524.01m²

3.3 Proposed Amendment to the Draft Plan

As explained in **Section 3.1**, the “GB” zoning has jeopardized the proposed residential development at the subject site. Therefore, another zoning is proposed to the draft plan to accommodate the submitted residential scheme which will be compatible with the adjacent land use. The rezoning proposal involves two proposed amendments to the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1:-

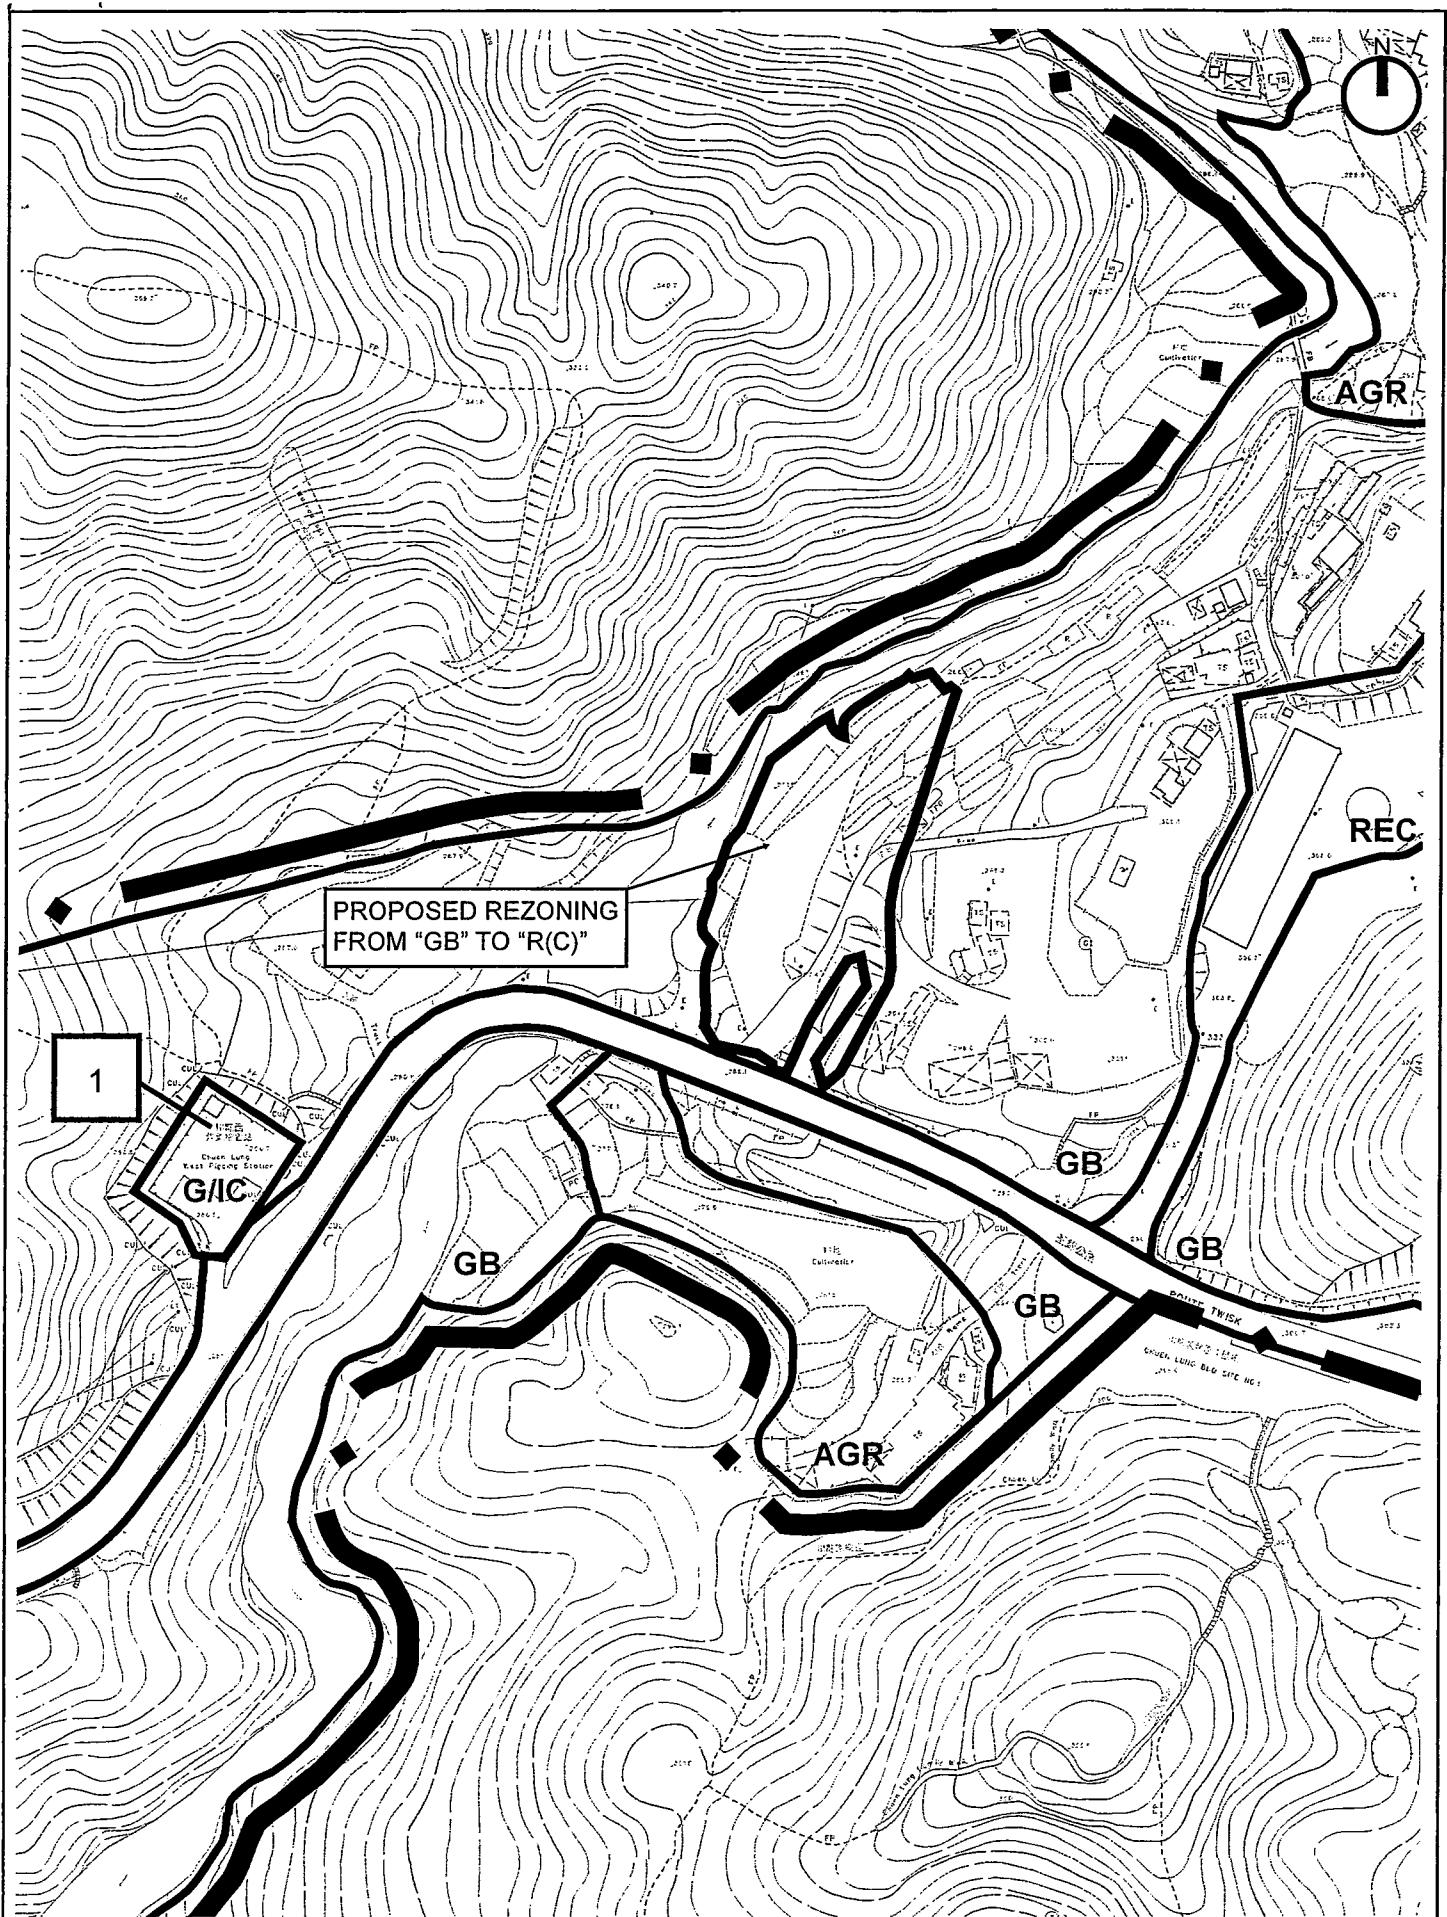

i) **Amendment Item 1 (Plan H)**

to rezone the subject site from “GB” to “R(C)” zone, so as to facilitate a low-density residential development; and

ii) **Amendment Item 2 (Table 3.4)**

to specify the plot ratio, site coverage and building height's restriction on the “Notes” of the proposed “R(C)” zoning so as to ensure better planning control of the proposed development. The schedule of notes for the “R(C)” zoning is shown in **Table 3.4**.

The proposed “R(C)” zoning will allow the relevant government departments to control the development intensity, facilities provision, layout of the proposed scheme in the lease modification stage and the building plan submission stage.

Plan H: Proposed Amendment to the Chuen Lung
and Ha Fa Shan OZP

Table 3.4 Proposed Schedule of Use for “R(C)” Zone

<u>RESIDENTIAL (GROUP C)</u>	
Column 1 Uses always permitted	Column 2 Uses that may be permitted with or without conditions on application to the Town Planning Board
Flat	Government Refuse Collection Point
Government Use (Police Reporting Centre only)	Government Use (not elsewhere specified)
House	Place of Recreation, Sports or Culture
Utility Installation for Private Project	Public Convenience
	Public Utility Installation
	Public Vehicle Park (excluding container vehicle)
	Religious Institution
	Residential Institution
	Rural Committee/Village Office
	School
	Social Welfare Facility

Planning Intention

This zone is intended primarily for low-rise, low-density residential developments where commercial uses serving the residential neighbourhood may be permitted on application to the Town Planning Board.

Remarks

- (a) No new development, or addition, alteration and/or modification to or redevelopment of an existing building shall result in a total development and/or redevelopment in excess of a maximum plot ratio of 0.4, a maximum site coverage of 20% and a maximum building height of 3 storeys (9.625m) of the existing building, whichever is the greater.
- (b) In determining the maximum plot ratio/site coverage for the purposes of paragraph (a) above, any floor space that is constructed or intended for use solely as car park, loading/unloading bay, plant room, caretaker's office, or caretaker's quarters and recreational facilities for the use and benefit of all the owners or occupiers of the domestic building or domestic part of the building, provided such uses and facilities are ancillary and directly related to the development or redevelopment, may be disregarded.
- (c) Based on the individual merits of a development or redevelopment proposal, minor relaxation of the plot ratio/site coverage/building height restrictions stated in paragraph (a) above may be considered by the Town Planning Board on application under section 16 of the Town Planning Ordinance.

4. PLANNING JUSTIFICATION

The Representation is strongly justified based on the following planning assessment:-

4.1 Jeopardize the Planned Residential Development at the Site

The subject site was designated as “Unspecified Use” on the Approved Chuen Lung and Ha Fa Shan Development Permission Area (DPA) Plan No. DPA/TW-CLHFS/2. In view of the acute demand for housing in the society and site suitability for low-density residential use, a s.16 planning application for proposed 11 three-storey houses with a plot ratio of 0.4 and a site coverage of about 20% was submitted by the landowner to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5). Subsequently on 9.12.2016, the Board has rezoned the site to “GB” on the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1.

The planning intention of the “GB” zone is primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl as well as to provide passive recreational outlets. According to the TPB Guidelines for development within the “GB” zone, there is a general presumption against development within the “GB” zone. In general, the Board will only be prepared to approve applications for development in the context of request to rezone to an appropriate use. Therefore, the s.16 planning application for a proposed residential development at the subject site would greatly affect the development potential of the site.

4.2 Undermining the Development Right of the Landowner

The subject site is currently under active planning application for a proposed low-density residential development. The new “GB” zone at the site will undermine the development right of the landowner.

When preparing the draft OZP and forming a planning framework for the future development of the area, an appropriate balance should be taken between the social benefits and the encroachment of property rights, particularly when it would place a harsh burden on the property owners. The TPB should balance the social benefits against the landowners' possible hardship. The TPB should also satisfy itself that the proposed controls are not evidently without justifiable ground. It should not simply zone “GB” because those private lands within “GB” zone primarily demised for agricultural purpose under the Block Government Lease.

Zoning the subject site to “GB” would undermine the development right of the landowner and affect the development potential of the site. It should be noted that Tsuen Wan District Council, Tsuen Wan Rural Committee and village representatives raised strong objections to the draft Chuen Lung and Ha Fa Shan OZP that all private and Government licensed land should not be zoned “GB” because their right of development should be respected and the zoning of them as “GB” without compensation is unreasonable.

4.3 Zoning Plan Undermining the Development Potential of the Area

On 20.12.2013, the Draft Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/1 was exhibited for public inspection. After giving consideration to the representations and comments on 6.6.2014, the Board decided not to propose any amendment to the draft DPA Plan to meet the representations. It was agreed that the land use zonings for the area would be comprehensively reviewed during the preparation of the OZP, with a more detailed analysis on the land use patterns, infrastructural provisions, ecological value, protection of the water gathering grounds, local needs, etc., in consultation with relevant stakeholders.

The Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1 was gazetted on 9.12.2016. However, the draft OZP mainly indicates the broad land-use zonings for the area so that the existing developments within the area can be put under statutory planning control. According to the land use pattern under the draft OZP in **Table 4.1**, "GB" zone in Chuen Lung area covers about 89% (186.75 hectares), which is higher percentage than the "GB" zone in many other OZPs in N.T.. Although majority of the area is covered by natural topography and water gathering ground, there are some parts of the area that may have the potential for other uses. For example, some flat lands which are served by Route Twisk and public sewer might be a potential site for low-density residential development. Therefore, the relevant government departments should strike a balance between the local needs and planning consideration. Examination on the future land use of the Chuen Lung area should be carried out to explore development potential for appropriate uses.

Table 4.1: Land Use Zonings in the Draft Chuen Lung and Ha Fa Shan OZP

Land Use Zoning	Site Area (Hectare)	%
Village Type Development	3.13	1.49
Government, Institution or Community	1.21	0.58
Open Space	0.06	0.03
Recreation	1.89	0.9
Other Specified Uses (Rural Use)	1.55	0.74
Other Specified Uses (Sports and Recreation Club)	3.47	1.65
Agriculture	8.69	4.14
Green Belt	186.75	88.95
Road	3.21	1.52
Total	209.95	100

According to the Policy Address, the Government has stated its determination to continue to increase land supply for residential developments, and one of the short term approaches is to identify and rezone for residential use sites in "GB" areas which are devegetated, deserted or formed. The Chief Executive also raised the idea of

building flats in some country parks with low ecological and landscape value. In view of the subject site is cleared with a few vegetation, the proposed "R(C)" zone under this Representation is generally in line with the Government policy for enhancing housing land supply.

4.4 Site Suitable for Low-Density Residential Development

Planning assessment has shown that the subject site is suitable to zone "R(C)" for low-density residential development based on the following reasons:-

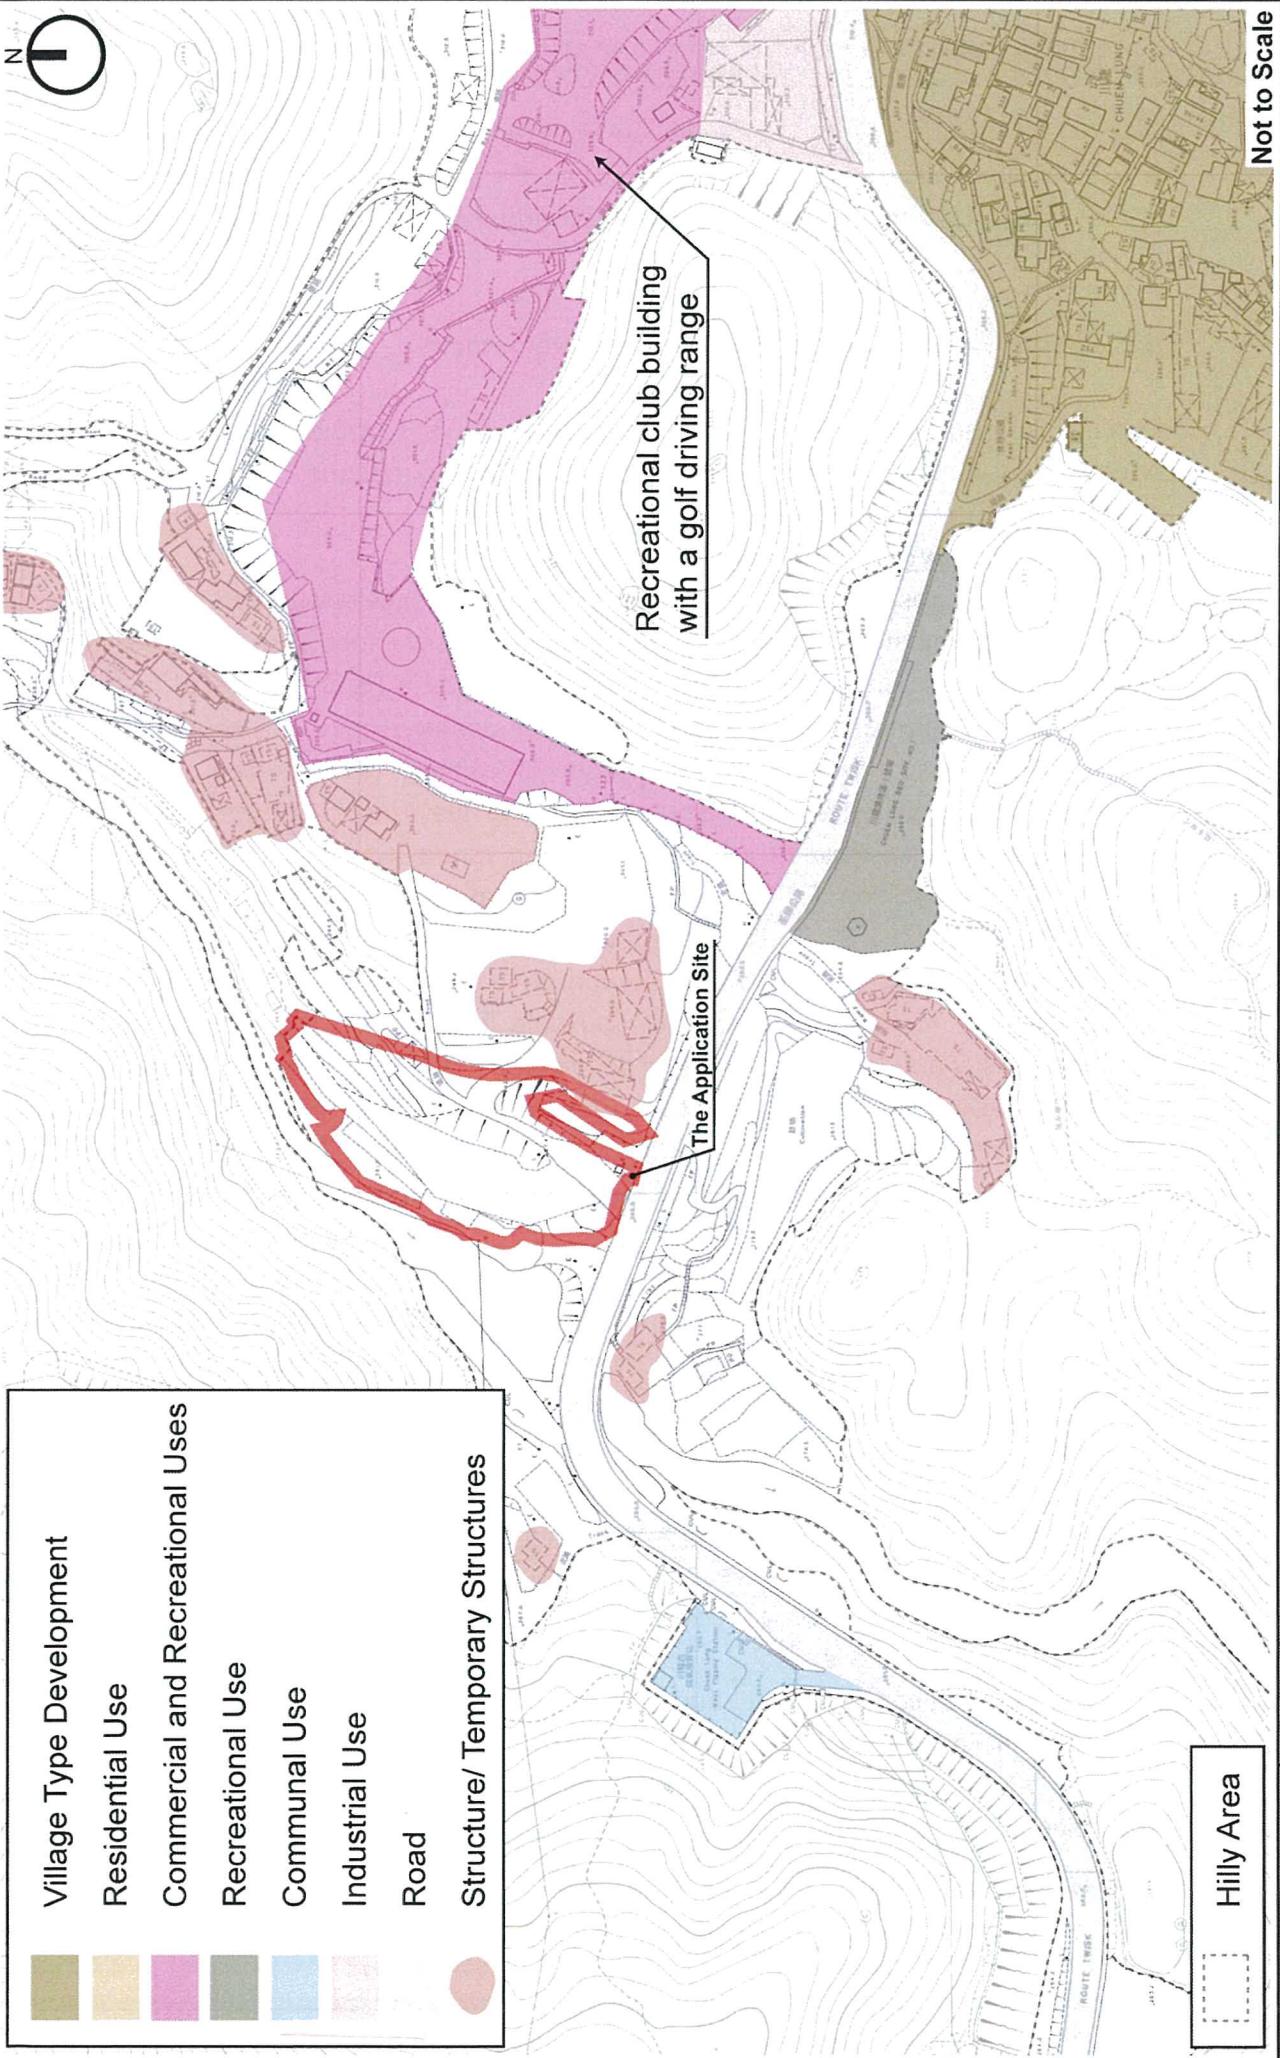

(a) **Compatible with the Adjacent Land Uses**

Low-density residential development is highly compatible with the surrounding land uses. The subject site is situated in the outskirt of Tsuen Wan New Town and the subject site enjoys commanding views towards Ha Fa Shan as well as being set against the natural backdrop of Tai Lam Country Park. It is abutting Route Twisk and is surrounded by a number of existing and planned residential, commercial and recreational developments. To the further east of the site is a recreational club building with a golf driving range, which is the subject of a planning application for low-density residential development (Application No. A/DPA/TW-CLHFS/3). To the further southeast of the site across Route Twisk is the Chuen Lung Village, which comprises a number of village houses and restaurants. To the further south across Route Twisk is the Chuen Lung BBQ Site. Low-density and low-rise residential development at the subject site would form a natural extension and linkage of the adjacent developments without resulting in any adverse visual and land use incompatibility impacts. Existing buildings and developments in the vicinity of the site is shown in **Plan I**.

It is noted that Tai Lam Country Park is situated further west of the site across the stream course. Given the subject site is segregated by the stream course and it is within a close proximity to a number of existing and planned residential, commercial and recreational developments, the subject site is appropriate to be zoned as "R(C)".

(b) **Well-developed Infrastructures and Public Transport Facilities**

The subject site is ideal for residential development in terms of accessibility. It is located at a convenient location with about 10 minutes drive from Tsuen Wan New Town. The site is also served by various modes of public transport including franchised buses and mini-buses running along Route Twisk. In terms of vehicular linkage, the site is facing Route Twisk, which is a dual-lane vehicular road with pedestrian footpath connecting Tsuen Wan and Kam Tin areas. The well developed infrastructures and public transport system around have created a strong connection to the rest of the Chuen Lung area.

Plan I: Existing Buildings and Developments in the Vicinity of the Site

(c) Acceptability in Traffic, Infrastructural and Environmental Aspects

Detailed assessments in support of the submitted residential scheme have been conducted to investigate the traffic, drainage, sewerage, environmental, ecological, geo-technical, visual, landscape and risk impacts of the proposed residential development. All concludes that there would be no insurmountable problems in implementation of the proposed residential development taken into account the mitigation and improvement measures proposed. Summary of the technical assessments will be presented in **Section 4.6**.

4.5 Improvement to the Ecological Environment

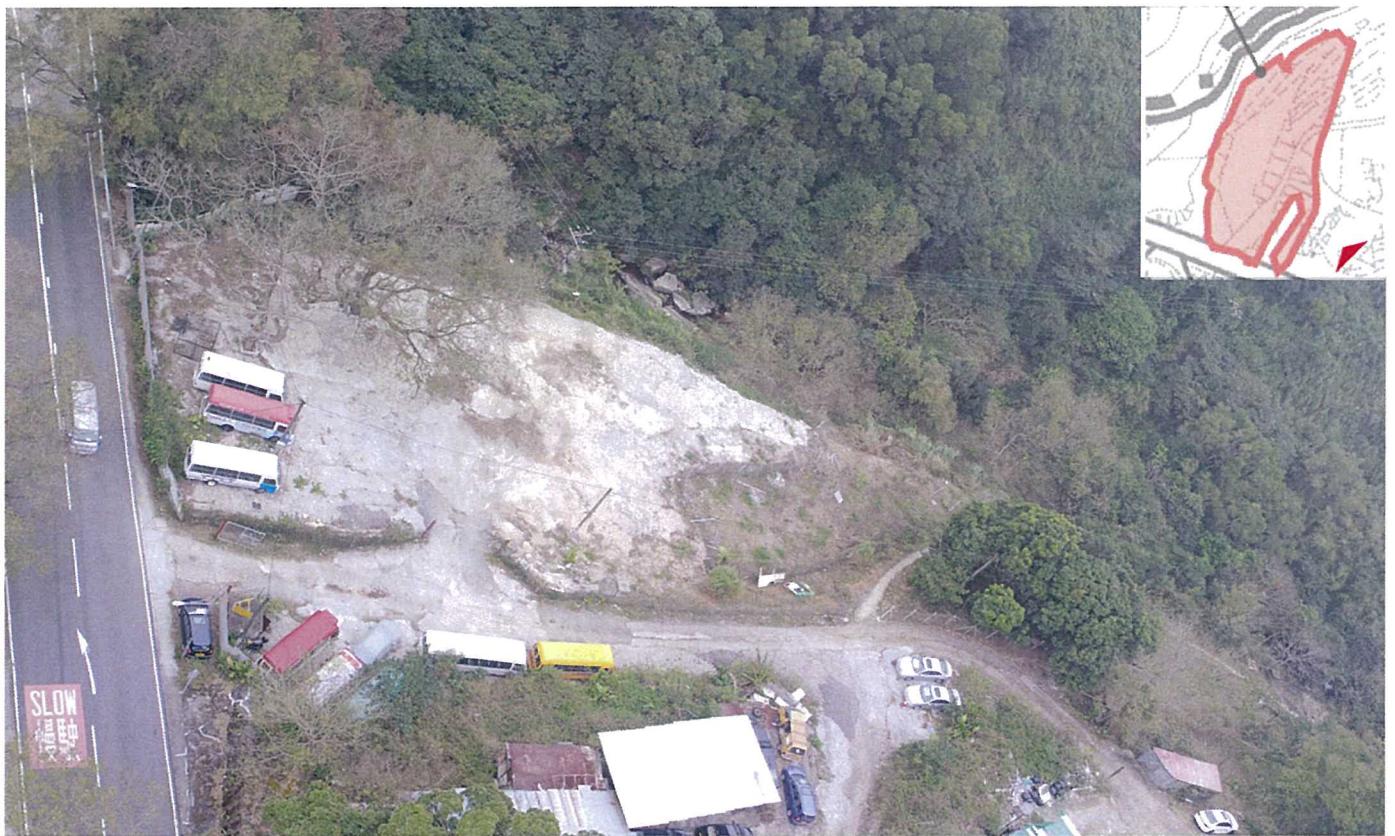

The subject site has been left vacant for a long time, with no agricultural activities being carried out. Since the site is situated in close proximity to Route Twisk and workshops, illegal dumping of building debris had occurred frequently at the site. The Representer had cleared the debris several times but could not stop the dumping activities. Eventually, the Representer had to report to the Police and to put up perimeter chain fence to protect the site.

Although the draft Chuen Lung and Ha Fa Shan OZP is gazetted to allow the relevant government departments to take enforcement actions against the unauthorized development, however it could not effectively stop the dumping activities caused by the outsiders. The continuous abandonment and dumping at the site would only create planning blight and gradual degradation of the local natural environment. The proposed "R(C)" zone with a low-density residential development could better utilize the obsolete site for more desirable alternative uses that are compatible with the surrounding area. The development proposal, which comprises 11 2-storeys houses over a storey of carport with well-designed landscape treatment, could bring substantial environmental improvement for the locality. In environmental terms, the proposed development will serve as a catalyst in upgrading the amenity of the site and by introducing a well-planned development scheme.

Besides, the proposed development would bring significant improvements and design merits over the existing site condition. The following paragraphs sum up the major improvements of the proposed scheme:-

(a) Visual Improvement to the Neighbourhood

The subject site is currently occupied by grass and shrubs. The proposed development will allow a low-density residential development for thoughtfully designed and carefully positioned buildings with complementary landscape scheme at the subject site as stated in **Section 3.2**. Each house has been separated with reasonable distance to enhance visual and air permeability. Natural colour material has been adopted for the external walls and elevations of the houses to reduce the visual impact of the building bulk. New species of shrub and trees are also planted at the side of the driveways as well as garden area to blend in with the local environment. A photomontage has been prepared in **Plan J**.

Before

After

Plan J: Improved Site Condition

(b) Ecological Improvement

The Representer fully respects the ecological value and natural setting of the area especially the Tai Lam Country Park and the adjoining stream course. Not only those footprints of the proposed low-rise houses have been set back from the stream course as much as possible, tree buffer zone has also been incorporated to delineate the residential component of the proposed development from the stream course. Terraced development platforms and terraced design have been adopted in the proposed scheme in order to reduce site formation works and to respect the natural topography of the site.

A sewerage connection will be properly connected to the existing sewer in the vicinity of the site to ensure that there would be no material increase in the risk of pollution to the water gathering ground. The Representer will fully comply with the mitigated measures as recommended in the Environmental Assessment and Ecological Impact Assessment enclosed in Appendix III and Appendix IV of the Further Information (I) submitted to Board on 26.1.2017.

(c) Low Development Intensity

In order to respect the context of the site and its surrounding area, a plot ratio of 0.399, a site coverage of 19.2% and a building height of 2 storeys over a storey of carport have been adopted for the proposed scheme. The plot ratio and building height of the proposed scheme are in line with the usual development restrictions in "R(C)" or "GB" zones on rural OZPs, i.e. a plot ratio of 0.4 - 0.6, a site coverage of 19% and a building height of 3 storeys including car park. The proposed development reflects a low-rise and low-density scheme with intention to maintain the existing land use character and landscaping features.

(d) Minimum Landscape Impact

A tree survey was carried out in 2016 and there are 29 nos. of existing trees within the site. Most of the existing trees near the stream course to the western part of the site are in conflicted with the development because the proposed formation level on this side is different from the existing level. Since these trees are small in size and with poor form and low amenity, they are recommended to be felled. Two trees (*Celtis sinensis* T01 & T04) near the entrance of the site are in good condition, and they are proposed to be retained in-situ. Moreover, two trees (*Celtis sinensis* T28 & T29) near the northern edge are considered as "transplantable" trees that have a very good chance of recovering to its normal form. Therefore, they are recommended to be transplanted to adjacent proposed planter location.

In order to compensate the loss of landscape resources caused by illegal dumping by the outsiders as far as possible and to enhance the landscape value of the site, a landscape scheme with 65 nos. of compensatory (heavy standard) trees is proposed in the submitted residential scheme. The proposal has the following improvements:

- Extensive garden area with tree and shrub planting in the northern part of the site to create a pleasant and relaxing environment for informal recreation;
- The proposed landscape green wall feature near the site entrance will ensure a significant quantity of greening in the development;
- Decorative paving and ornamental tree and shrub planting along the footpath to create an attractive outdoor recreational space for residents;
- Tree buffer zone has been incorporated along the western side of the site to delineate the proposed residential development from the stream course; and
- Private gardens with turf to create a personalized amenity area.

In this proposal, a total of 1,336.1m² planting area will be provided within the site and the greening ratio of this project is about 46%. With the adoption of the landscape proposal and mitigated measures, the proposed development will not have significant landscape impact on the locality.

Based on the proposed scheme, perspectives drawings have been prepared to demonstrate the compatibility of the proposed development in the existing environment as shown in **Plan K**. It demonstrates that the proposed development would not only be visually compatible with the surrounding residential area, but would also enhance the street environment through introduction of abundant landscape features.

(d) **Minimum Visual Impact**

The subject site is topographically located in a secluded area. It is mainly surrounded by mature trees, access road, slopes and stream course, and is not easily visible from outside. The proposed development of 11 two-storey houses each over one storey carport with a maximum building height of 9.625m at the subject site is small scale in nature. From a visual point of view, by virtue of scale of the development, significant visual impact is unlikely.

In view of the bus/mini-bus stops are located near the Chuen Lung Village, it is expected that the visual sensitive receivers are mainly hikers and users of the public facilities, i.e. BBQ site and park. With reference to the TPB Guidelines No. 41 – Submission of Visual Impact Assessment for Planning Applications to the TPB, 7 public viewing points (PVP) have been selected as shown in **Plan L** to assess the likely visual impact that may be generated by the proposed development on its surrounding area. The locations of the selected PVP are mainly:-

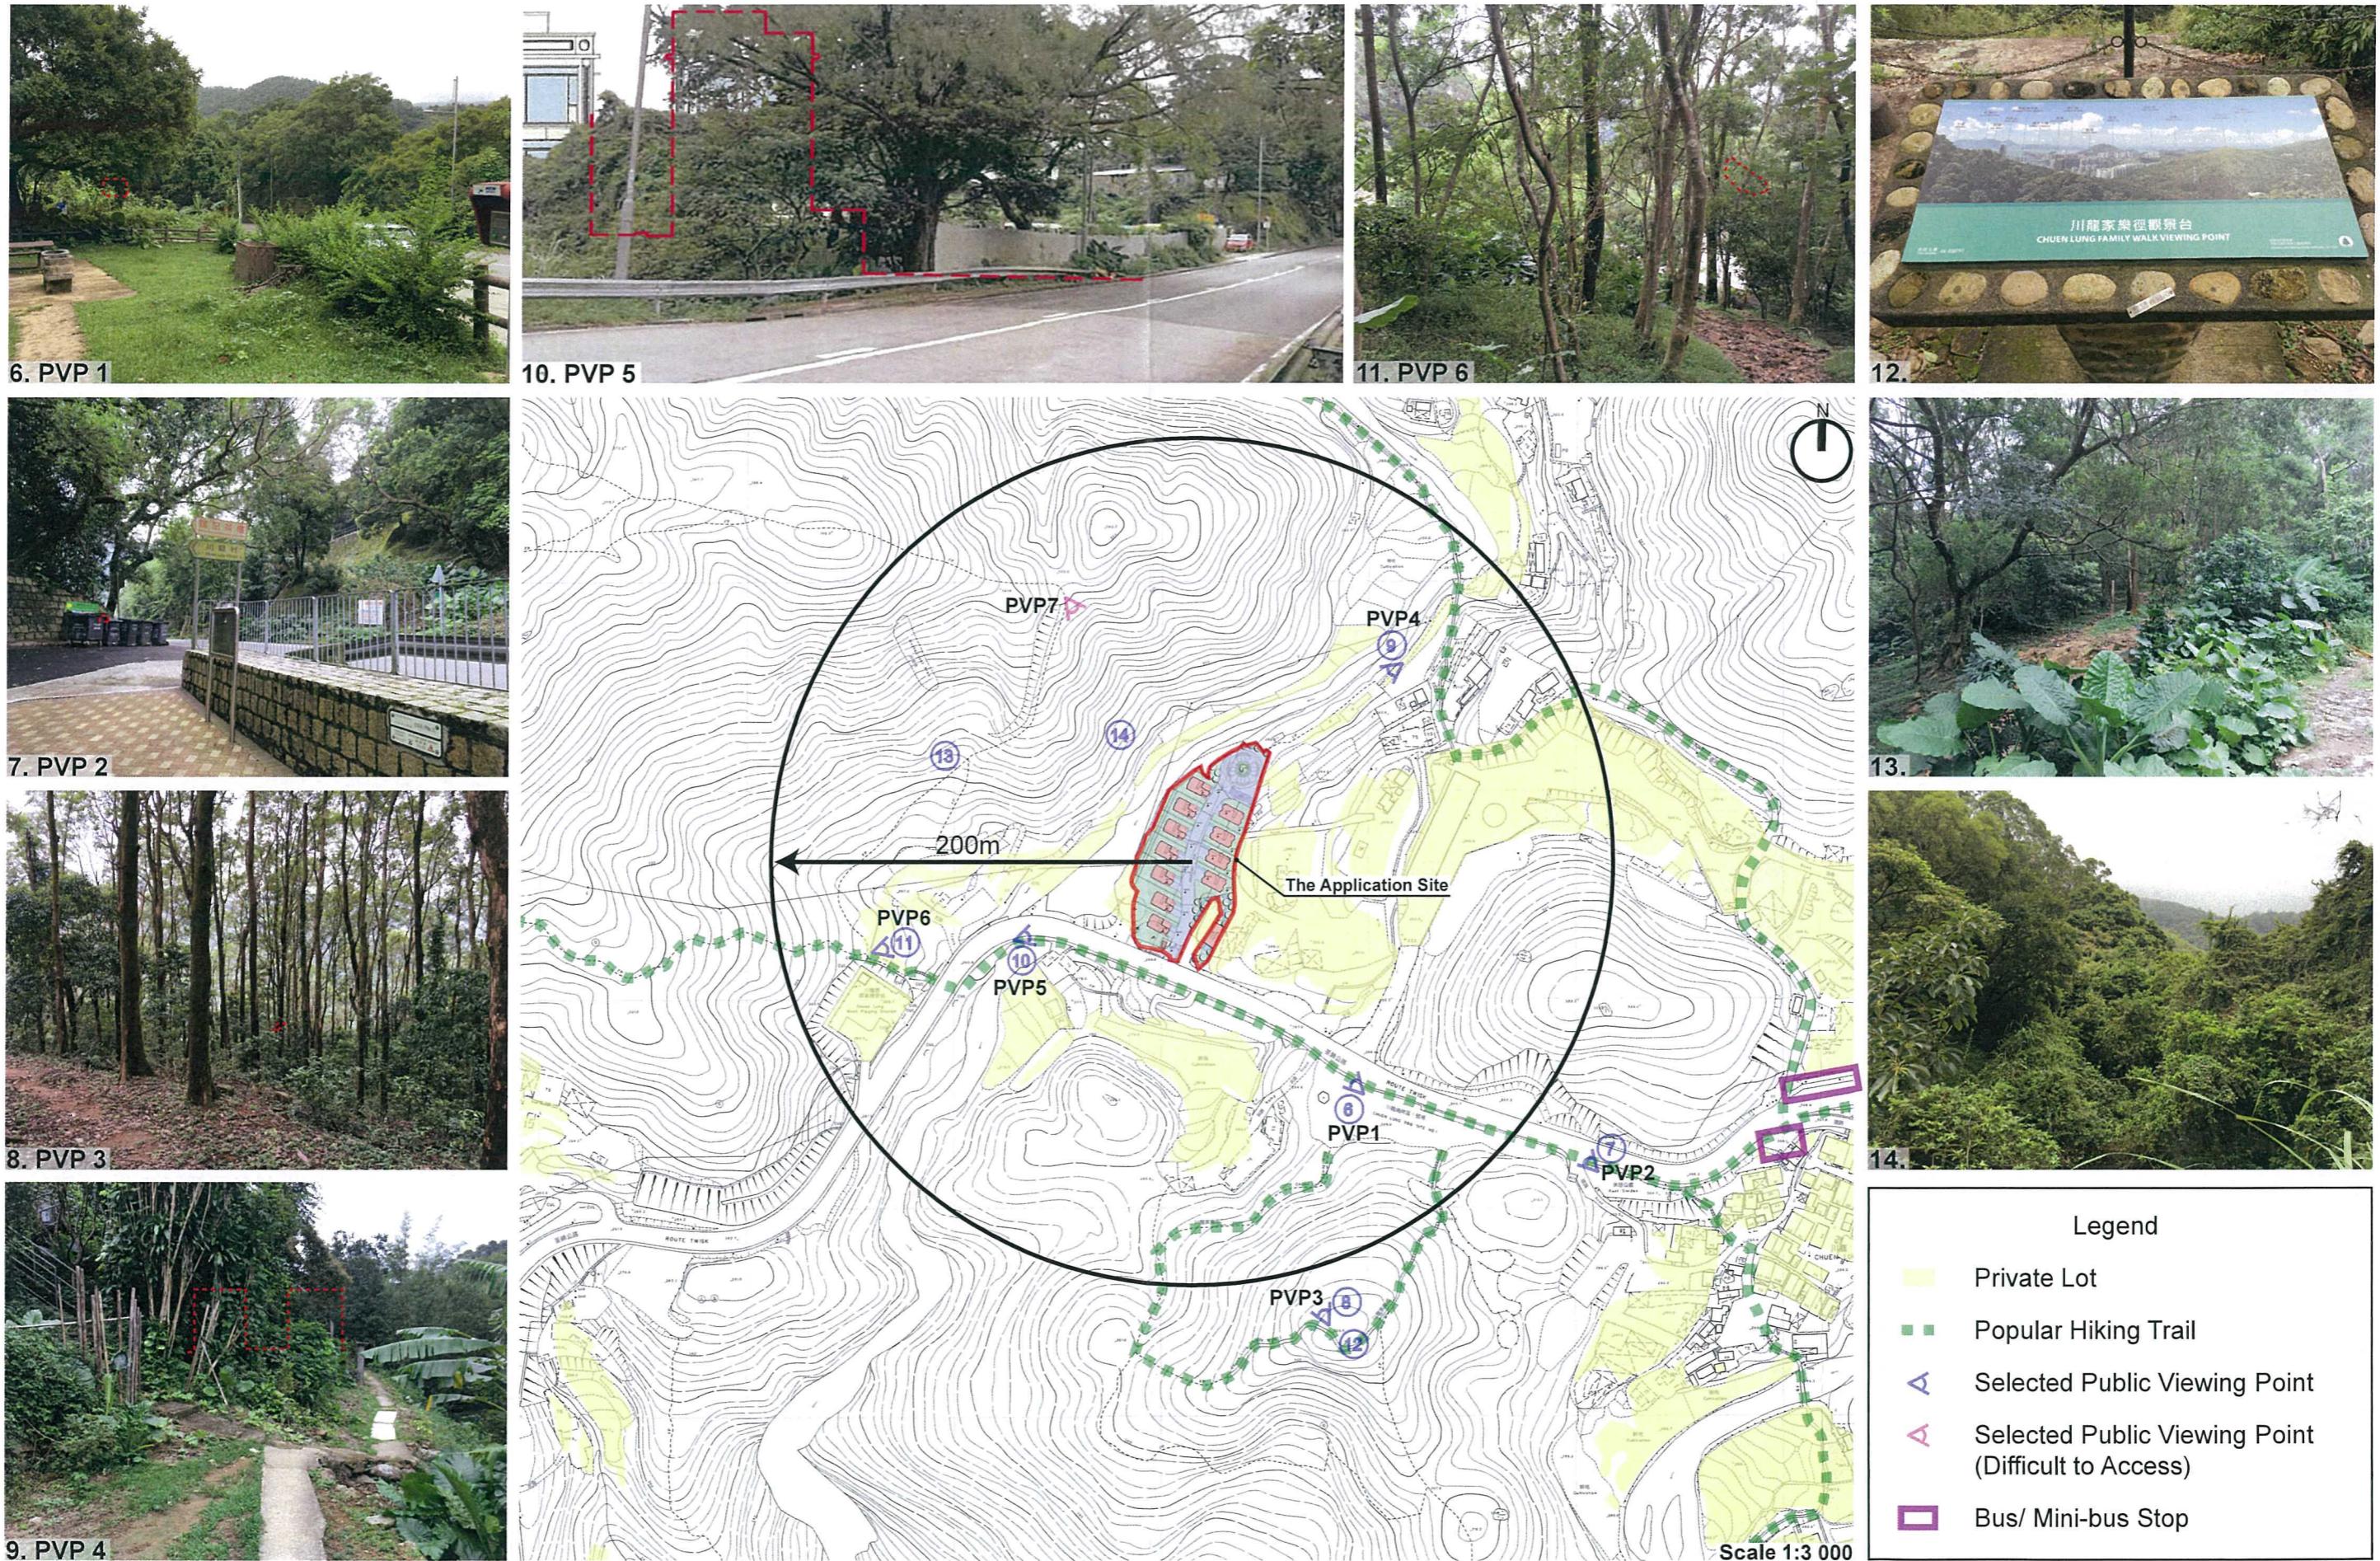

- 1) government land;
- 2) easily accessible to the public;
- 3) popular areas used by the public or tourists for outdoor activities;
- 4) within 200m from the centre point of the site; and
- 5) viewing points are set at human eye level for a realistic presentation of views.

Visual analysis at the selected PVP

- PVP 1 - This photo has been taken from Chuen Lung BBQ Site No. 1 further **(Photo 6)** south of the site. It clearly shows that the site is visually obstructed by slopes and mature trees surrounding the site.
- PVP 2 - The location of PVP2 is a popular gathering point for hiking activities **(Photo 7)** because it is adjoining to the bus/ mini-bus stops and the famous Chinese restaurant named "Choi Lung Restaurant". **Photo 7** demonstrates that the potential visual impact of the proposed development from this point is negligible.
- PVP 3 - PVP3 is situated in Chuen Lung Family Viewing Point **(Photo 12)**. **(Photo 8)** **Photo 8** shows that the site is visually blocked by mature trees from this point.
- PVP 4 - This photo shows that public will not be able to see the proposed **(Photo 9)** development from this point in view of the visual obstructions such as mature trees and slope north of the site.
- PVP 5 - This photo shows that public may be able to see the frontage of the site from the pavement of Route Twisk south of the site. In this proposal, the house nearest to Route Twisk has been strategically set back 8m from the subject site boundary. The proposed landscape wall, together with the retention of existing mature trees (Nos. T01 and T04), have provided an effective visual buffer between the proposed house and Route Twisk. The photomontage in **Plan L** clearly demonstrates the positive effect on the area. Hence, no adverse visual impact due to the proposed scheme is anticipated.
- PVP 6 - This PVP is located along the popular hiking trail in the area. **Photo (Photo 11)** **Photo 11** shows that this viewing point is totally blocked by mature trees.
- PVP 7 - According to the hiking maps from several hiking organisations, the location of PVP 7 is not a popular hiking trail in the area. This may due to poor condition of the access road as indicated in **Photo 13**. The consultant has tried to access to this point but unsuccessful. Nevertheless, **Photo 14** shows that the footpath further northwest of the site is totally covered by dense vegetation. Thus, similar to PVP 3 and PVP 6, it is anticipated that hikers are unlikely able to see the site from PVP 7.

Given the small scale of the development with complementary landscape scheme, and the secluded location surrounded by slopes and mature trees, local concerns regarding visual impacts associated with the proposed development would not be anticipated.

Plan L: Minimum Visual Impact

4.6 Sustainable in Traffic, Environmental and Engineering Terms

The proposed low-density residential development is sustainable in traffic, environmental and engineering terms. Detail technical assessments on submitted residential scheme have been conducted and no significant adverse traffic, environmental, ecological, drainage, geo-technical and potential risk impacts are envisaged as a result of the proposed development. Key findings of the technical assessments have been summarized as follows:-

(a) Minimum Traffic Impact

A Traffic Impact Assessment (TIA) has been prepared in support of the submitted residential scheme. Transport Department has no objection to the application and they only commented that the PM peak trip attraction should be 3 pcus/hour. The Representer had revised the TIA with the following conclusions:

- i) The Applicant intends to apply for a planning permission to develop the subject site at various lots in D.D. 433 located at Chuen Lung into a residential development with 11 no. of houses.
- ii) In order to appraise the existing traffic conditions, classified turning movement count surveys have been carried out at the key junctions of the study area on 15 June 2016 from 7:00am to 9:00am in the morning and from 5:00pm to 7:00pm in the evening. The morning and evening peak hours of the road network have been identified as 7:00am to 8:00am and 5:00pm to 6:00pm, respectively.
- iii) Year 2023 is used as the design year of the TIA. Based on the historical data, an annual growth rate of 3.5% was adopted for this study. This growth factor has been applied to the observed traffic flows in 2016 to determine the 2023 anticipated traffic flows.
- iv) The capacity of all the key junctions would be performing satisfactorily during the peak periods for both the Reference and Design Scenarios.
- v) The provisions of parking and loading/unloading have been justified.

The findings of the TIA has indicated that the proposed development would not generate unacceptable traffic impact to the surrounding road network and therefore considered acceptable in the traffic point of view. The latest TIA is attached in Appendix II of the Further Information (I) submitted to Board on 26.1.2017.

(b) Minimum Environmental Impact

An Environmental Assessment (EA), which consists of air quality impact assessment, noise impact assessment, sewerage impact assessment (SIA) and construction phase water quality impact assessment, has been carried out in support of the submitted residential scheme. Environmental Protection Department (EPD) and Water Supplies Department mainly concerned on the proposed development may have potential impact to water gathering ground (WGG). In this regards, the Representer has provided detailed clarifications and more mitigation measures to protect the WGG. The EA has been revised and summarized as follows:

- i) It is identified that the buffer distances between the proposed residential development and kerb side of Route Twisk is about 12m, which can comply with the recommended buffer distance of 5m for rural road as stipulated in Chapter 9 (Table 3.1) of the HKPSG. Taking into account the above considerations, it is not anticipated that air quality impact arising from vehicular emission on the proposed residential development would exceed the Air Quality Objectives.
- ii) An auto body works is found to the east 300m from the subject site. As a hill (+333mPD) which erects between the subject site and the shop that can provide shielding, there is no line of sight from the proposed development to the potential industrial uses as the existing hill has blocked the view. Therefore it is anticipated the future residents would not be subject to unacceptable industrial noise impact.
- iii) Acoustic window (top-hung type) have been proposed as direct noise mitigation measures for road traffic noise impact assessment, the predicted traffic noise compliance level is 100%, which fulfils the relevant traffic noise criteria stipulated in the HKPSG.
- iv) The potential sewerage impact due to the proposed development has been quantitatively addressed. The sewage flow generated from the proposed development is estimated to be approximately 25.1m³/day for average condition and 2.3litre/sec for peak flow. The capacity of the concerned sewer network will be capable to collect sewage from the proposed development under the worst case scenario. With sufficient mitigation measures introduced, the water quality impact by the proposed development is minimised.

The EA confirms the acceptability of the proposed development layout from environmental point of view. The latest EA is enclosed in Appendix III of the Further Information (I) submitted to Board on 26.1.2017.

(c) Minimum Ecological Impact

An Ecological Impact Assessment (EcoIA) has been conducted in support of the submitted residential scheme. In response to the comments from Agriculture, Fisheries and Conservation Department on the potential ecological impacts of the scheme, a dry season ecological survey and more mitigation measures has been incorporated into the EcoIA. The revised report has the following conclusion:

- i) A literature review has been conducted to characterize the existing conditions within the study area and to identify habitats and species of potential importance in the area. Ecological surveys, which covered mapping of habitats, and field surveys of flora, aquatic fauna, and terrestrial fauna, were also conducted in April, August and November 2016 to cover wet and dry seasons.
- ii) The ecological importance of the habitats and wildlife identified within the study area during the surveys are evaluated in accordance with the Environmental Impact Assessment Ordinance and the associated Technical Memorandum Annex 8 criteria. The ecological value of watercourse is ranked as moderate while the ecological values of secondary woodland, plantation woodland are of low to moderate ecological values. Agricultural land, shrubland/grassland and developed area are of low ecological value.
- iii) The subject site is composed mainly of developed area and agricultural land with few flora and fauna species recorded. Although three species of conservation importance were recorded within the subject site, the site is not a preferred habitat for Emerald Cascader, which was considered flying through the site when recorded. Cibotium barometz was recorded at the fringe the wasteland where disused vehicles were abandoned along roadside and encroaching the plant. Thus, the overall ecological value is still considered low.
- iv) The proposed development would result in loss of 0.19 hectare of developed area, 0.19 hectare of agricultural land and 0.02 hectare of plantation woodland. The potential ecological habitat due to habitat loss is ranked as minor. One plant species of conservation importance, Cibotium barometz would be directly impacted by the proposed development, and transplantation is proposed. Potential indirect impacts are ranked as moderate to watercourse and low to moderate to fauna of conservation importance. Mitigation measures including further increase of the width of buffer zone during detailed design stage, application of sheet piling at the outer limit of the slope works area, transplantation of planting species of conservation importance, good environmental monitoring, good site practice and best management practice are proposed.

With the proposed measures implemented, the EcoIA confirms that no insurmountable potential ecological impact is anticipated. The latest EcoIA is attached in Appendix V of the Further Information (I) submitted to Board on 26.1.2017.

(d) Minimum Drainage Impact

A Drainage Impact Assessment (DIA) has been carried out in support of the submitted residential scheme. Drainage Services Department mainly commented on the potential impact to the existing drainage system. The Representer has revised the report and made clarifications on the Further Information (I) submitted to the Board on 26.1.2017. The revised DIA concluded that the proposed low-density residential development will not generate significant adverse drainage impact to the locality based on the following reasons:

- i) There are no existing drainage systems within the subject site, with runoff currently discharging overland towards the stream course.
- ii) There will be small increases in the amount of runoff from the site as a result of the proposed development. However, these increases are insignificant when compared to the overall catchment runoff and the capacity of the stream course.
- iii) It is concluded that peripheral channels around the site boundary and a new drainage connection to the stream would provide a proper drainage collection and conveyance system for the proposed development and avoid any adverse drainage impacts to surrounding areas. The details of these facilities will be developed further in later stages of project implementation. All facilities will be implemented and maintained by the project proponent.
- iv) The proposed development will be provided with properly planned drainage facilities and no adverse impact on the flood risk of surrounding areas is anticipated.

The latest DIA is attached in Appendix VI of the Further Information (I) submitted to Board on 26.1.2017.

(e) Minimum Geo-technical Impact

A Geotechnical Planning Review Report (GPRR) has been carried out in support of the submitted residential scheme. The assessment is attached in Appendix VII of the Planning Statement submitted to Board on 15.9.2016 and has the following conclusions:

Development Site

- i) From the preliminary geotechnical assessment, it is considered that the proposed development is geotechnical feasible. Significant geotechnical constraint that may adversely affect the future development is not evident from the available geotechnical data. In general, the development site will be formed into residential platforms by minor cutting and filling between 1 to 3m within the majority of the site area. A series of retaining wall structures are proposed along the north-western boundary to support the residential platforms, where relatively higher level difference is anticipated. However, in order to cater for the detailed site formation and foundation designs, a comprehensive site-specific ground investigation (GI) is necessary to determine the sub-surface material profiles and the associated engineering properties, as well as the groundwater conditions.

Geotechnical Features

- ii) From the assessment of the existing geotechnical features, including 6SE-B/C166, 6SEB/ C305 and a non-registered feature, which is based on the existing available information, it is concluded that all these features (except sub-division 5 of 6SE-B/C305) possess adequate factor of safety. However under the future development layout plan, 6SE-B/C305 and the non-registered feature are expected be removed or substantially modified. The new / substantially modified geotechnical features should therefore be designed with sufficient site-specific GI data as part of the future site formation designs. For feature no. 6SE-B/C166, only the north-eastern end portion is located within or close to the development boundary, where new development is not envisaged. Hence no further action is required on feature No. 6SE-B/C166.

Natural Terrain

- iii) From the preliminary natural terrain hazard review study, it is concluded that the development site is potentially affected by the upslope natural hillside directly to its northwest. The potential of natural terrain hazards including open hill slope failure and boulder / rock fall hazard exists. Further detailed natural terrain hazard assessment including ground investigation, field mapping and boulder survey shall be carried out in order to define the scale and impact of the hazards as well as formulate mitigation measures.

Geotechnical Engineering Office of Civil Engineering and Development Department has no geo-technical comment on the application.

(f) Minimum Potential Risk Impact

In support of the submitted residential scheme, a Quantitative Risk Assessment (QRA) study has been conducted to assess if the risks posed by the high pressure town gas pipeline (HPTGP) running along Route Twisk and Chuen Lung West Pigging Station (CLWPS) in the vicinity of the proposed development during both construction and operational phases. The assessment is attached in Appendix VIII of the Planning Statement submitted to Board on 15.9.2016 and has the following conclusions:

- i) A Quantitative Risk Assessment study has been conducted to assess if the risks posed by the high pressure town gas pipeline (HPTGP) running along Route Twisk and Chuen Lung West Pigging Station (CLWPS) in the vicinity of the proposed development during both construction and operational Phases are in compliance with PD 8010-3 [33] and Hong Kong Government Risk Guidelines for Potentially Hazardous Installations [13].
- ii) The individual risk contours of 1E-05 to 1E-09 per year were identified for the HPTGP and CLWPS while the individual risk contour of 1E-05 per year extends beyond the CLWPS site boundary. However, taking consideration of 30% exposure factor for surrounding population of traffic users on Route Twisk, the individual risk contour of 1E-05 per year should be well confined within the CLWPS site boundary.
- iii) The societal risks with consideration of the proposed development during both Construction and Operational Phases are confined within the "Acceptable" region based on PD 8010-3 [33] F-N Criterion and Hong Kong Government Risk Guidelines for Potentially Hazardous Installations [13].
- iv) Therefore, it could be concluded that the individual risk and societal risk associated with the HPTGP and CLWPS are in compliance with PD 8010-3 [33] and Hong Kong Government Risk Guidelines for Potentially Hazardous Installations [13], and further mitigation measures are not required.

During the public and departmental consultation period, no comments on the QRA from relevant government departments such as Electrical and Mechanical Services Department are received.

4.7 The Proposed Zoning in Line with the Government's Plan Making Mechanism

In July 2016, PlanD had prepared the TPB Paper No. 10133 with a draft Chuen Lung and Ha Fa Shan OZP to seek TPB member's preliminary consideration. The subject site is proposed to be zoned "GB" on the draft plan. However, the Paper also states that the OZP is to illustrate the broad principles of development and planning control only. It is a small-scale plan and the road alignments and boundaries between the land-use zones may be subject to minor alterations as detailed planning proceeds.

In support of the preparation of the draft OZP and formulation of a planning framework for future development of the area, PlanD had conducted a planning report on Chuen Lung and Ha Fa Shan area to give an account of the background and an appraisal of the existing conditions characteristics and development constraints and opportunities of the area. According to the aforesaid planning report and the land use planning considerations as stated in TPB Paper No. 10133, the rationale of PlanD to rezone some of the area to "GB" are as follows:

(a) Environmental Conservation

The area is linked with the wider natural environment of Tai Lam Country Park to the west and Tai Mo Shan Country Park to the east. It is dominated by woodland, shrubland, knolls and streams. It is also natural and rural in character with ecological, landscape and scenic value and is worthy of preservation. Secondly, the three main streams which flow across of the area are relatively natural and undisturbed with rocky outcrops and of good condition. Lastly, the area comprises some regenerated woodland from previous agricultural use and hillside woodland.

(b) Water Gathering Ground and Catchwater

The area is within WGG and sections of catchwater are running in Ha Fa Shan. The majority part of the area is not served by existing public sewerage system. Development which would cause adverse impacts on the water quality and water resources of the water gathering ground is not encouraged.

(c) Geotechnical Issue

Some areas are overlooked by steep and sizeable natural hillsides and intersected by or adjacent to a natural drainage course. They could be affected by potential geotechnical hazards in the form of landslide including boulder falls.

The submitted residential scheme has been carefully designed by taking into account the relevant TPB's documents. It will not be in conflict with the Government's plan making mechanism based on the following reasons:-

(a) Environmental Improvement

The subject site has been left vacant for a long time. Its convenient location and flat topography had made it vulnerable target to illegal dumping activities. The debris affects not only the site, but also has potential influence on the surrounding natural environment, especially on the natural stream to the west of the site. With only the "GB" zoning of the site, it is unlikely to stop the constant illegal dumping

activities, as they were performed by outsiders who have no respect to the rule of law. Such zoning would only transfer the responsibility of site protection to the landowner, who does not have the resources to constantly oversee the site.

In order to prevent further deterioration of the natural terrain surrounding the site, it is important to provide the site with a suitable alternative land use character. The low-density residential development could provide proper constant management over the site and provide significant landscape improvement to increase the ecological value of the site. It could effectively prevent further deterioration of natural terrain surrounding the site. Furthermore, it could help to recreate a vibrant natural habitat with abundant and well-designed landscape features respecting the surrounding landscape. This could better deliver the government planning intention to preserve the natural and rural character of the area.

In relation to the natural stream to the west of the site, this section of the stream is located next to Route Twisk and it is channelized under Route Twisk with artificial concrete structures. The Representer's EcoIA states that the ecological value of watercourse is ranked as moderate. The proposed development may affect the stream during the construction and operational phases. However, there should have no significant ecological impact on the stream if proposed measures are properly implemented. Mitigation measures including further increase of the width of buffer zone during detailed design stage, transplantation of planting species of conservation importance, good environmental monitoring, good site practice and best management practice are proposed.

Finally, the subject site is not covered by woodlands, or any natural landscape worthy of preservation. It is unlikely that the subject site is zoned as "GB" based on the ground of preservation of existing natural landscape.

(b) **No Adverse Impact on the Water Gathering Ground and Catchwater**

The subject site is located within the upper indirect WGG. TPB Paper advised that, for the new development in upper indirect WGG, it should be connected with the existing/planned public sewerage system and adequate protective measures shall be taken to ensure that no pollution or siltation occurs to the WGG. In view of the site is situated in close proximity to the existing public sewer, sewerage pipe will connect the proposed development with the public sewer near the site to ensure no material increase in the risk of pollution to the WGG. A SIA has been conducted to prove that the existing sewer has sufficient capacity to accommodate the proposed development. In view of the possible stormwater pollution and pollution from carwash, proper mitigation strategy such as a comprehensive system of open channel drains would be explored in detailed design stage. The sewage impact of the development to the WGG would be minimized.

(c) **The Propose Scheme is Geotechnical Feasible**

A GPRR has been carried out in support of the submitted residential scheme. Geotechnical Engineering Office of Civil Engineering and Development Department has no geo-technical comment on the application.

4.8 Unlikely to Set an Undesirable Precedent

The proposed “R(C)” zone under this Representation will not set an undesirable precedent for similar applications based on the following reason:-

(a) **The Proposed Development is not an Undesirable Use**

The development proposal is intended to provide a low-rise and low-density residential development which has been designed to improve the existing conditions and to blend in with the local environment. With a plot ratio of 0.399, a site coverage of 19.2% and a building height of 2 storeys over a storey of carport, the planning parameters of the proposed scheme are generally in line with the usual scale of development in the rural area. Substantial landscape features will be provided to enhance the landscape and ecological values of the site.

The proposed development is in line with the Government’s policy objective to increase housing supply in Hong Kong. It will also effectively stop the dumping activities caused by the outsiders within the site. Planning and technical assessments have shown that the small scale development will not result in significant impacts on traffic, environmental, sewerage, drainage, landscape, visual, ecological, geotechnical and risk aspects of the locality. Hence, the proposed development should not be regarded as an “Undesirable Use”.

(b) **Unique Location of the Proposed Development (Plan M)**

The subject site is located at the outskirt of Tsuen Wan New Town and is surrounded by a number of existing and planned developments. It is well served by Route Twisk which is an up-to-standard 2-lane 2-way vehicular road. An analysis on the same “GB” zone within the draft Chuen Lung and Ha Fa Shan OZP has been assessed. Many parts of these sites are considered not suitable for residential development based on the following constraints:-

(i) **Requirement of Emergency Vehicular Access**

According to the HKPSG, parking and serving provision will be required for residential development. A minimum width of 4.5m for EVA will also be required to comply with the Code of Practice for Means of Access for Firefighting and Rescue administered by Building Department. However, many areas in the same “GB” zone are not accessible by access road. Apart from Route Twisk, the access roads in the area are mainly single-lane local road for 2-way traffic with passing bays. Those local roads are not served by public transport facilities.

(ii) **Majority of Land in the Area is Government Land**

The majority of land in the area is government land (about 87.3%). The remaining 12.7% are private land. There are not many available private lands along Route Twisk within the same “GB” zone that is suitable for residential development. They are either already existing or planned developments or adjacent to steep slope and mature trees along the road.

(iii) New Development in Lower Indirect Water Gathering Ground is not Supported

A portion of the area in Chuen Lung falls inside the boundary of lower indirect WGG. TPB Paper No. 9641 states that any new development with the lower indirect WGG is not supported as it would increase the risk of pollution to the WGG. For these areas within the upper indirect WGG, any new development may or may not be permitted depending on the impact assessment on the WGG.

(iv) New Development Connected to Public Sewer

According to the TPB Paper No. 9641, EPD advised that new developments will be required to be connected to public sewer when available. The use of septic tank and soakaway system is considered as an unacceptable mean for new village development in WGG. Currently, there is an existing trunk sewer along the Route Twisk, and the majority part of the area is still not served by existing public sewerage system.

Plan M clearly shows that it is very difficult to find a similar site within the same “GB” zone that is suitable for low-density residential development. Most of the area in the same “GB” zone does not have a direct access to major roads, serve by public sewer and is covered by slopes, abundant vegetation, lower indirect water gathering ground and government land. Therefore, the risk of creating a precedent is not substantial. Each application has to be approved by the relevant government departments on a case-by-case basis to ensure that no adverse impact on the area will be resulted.

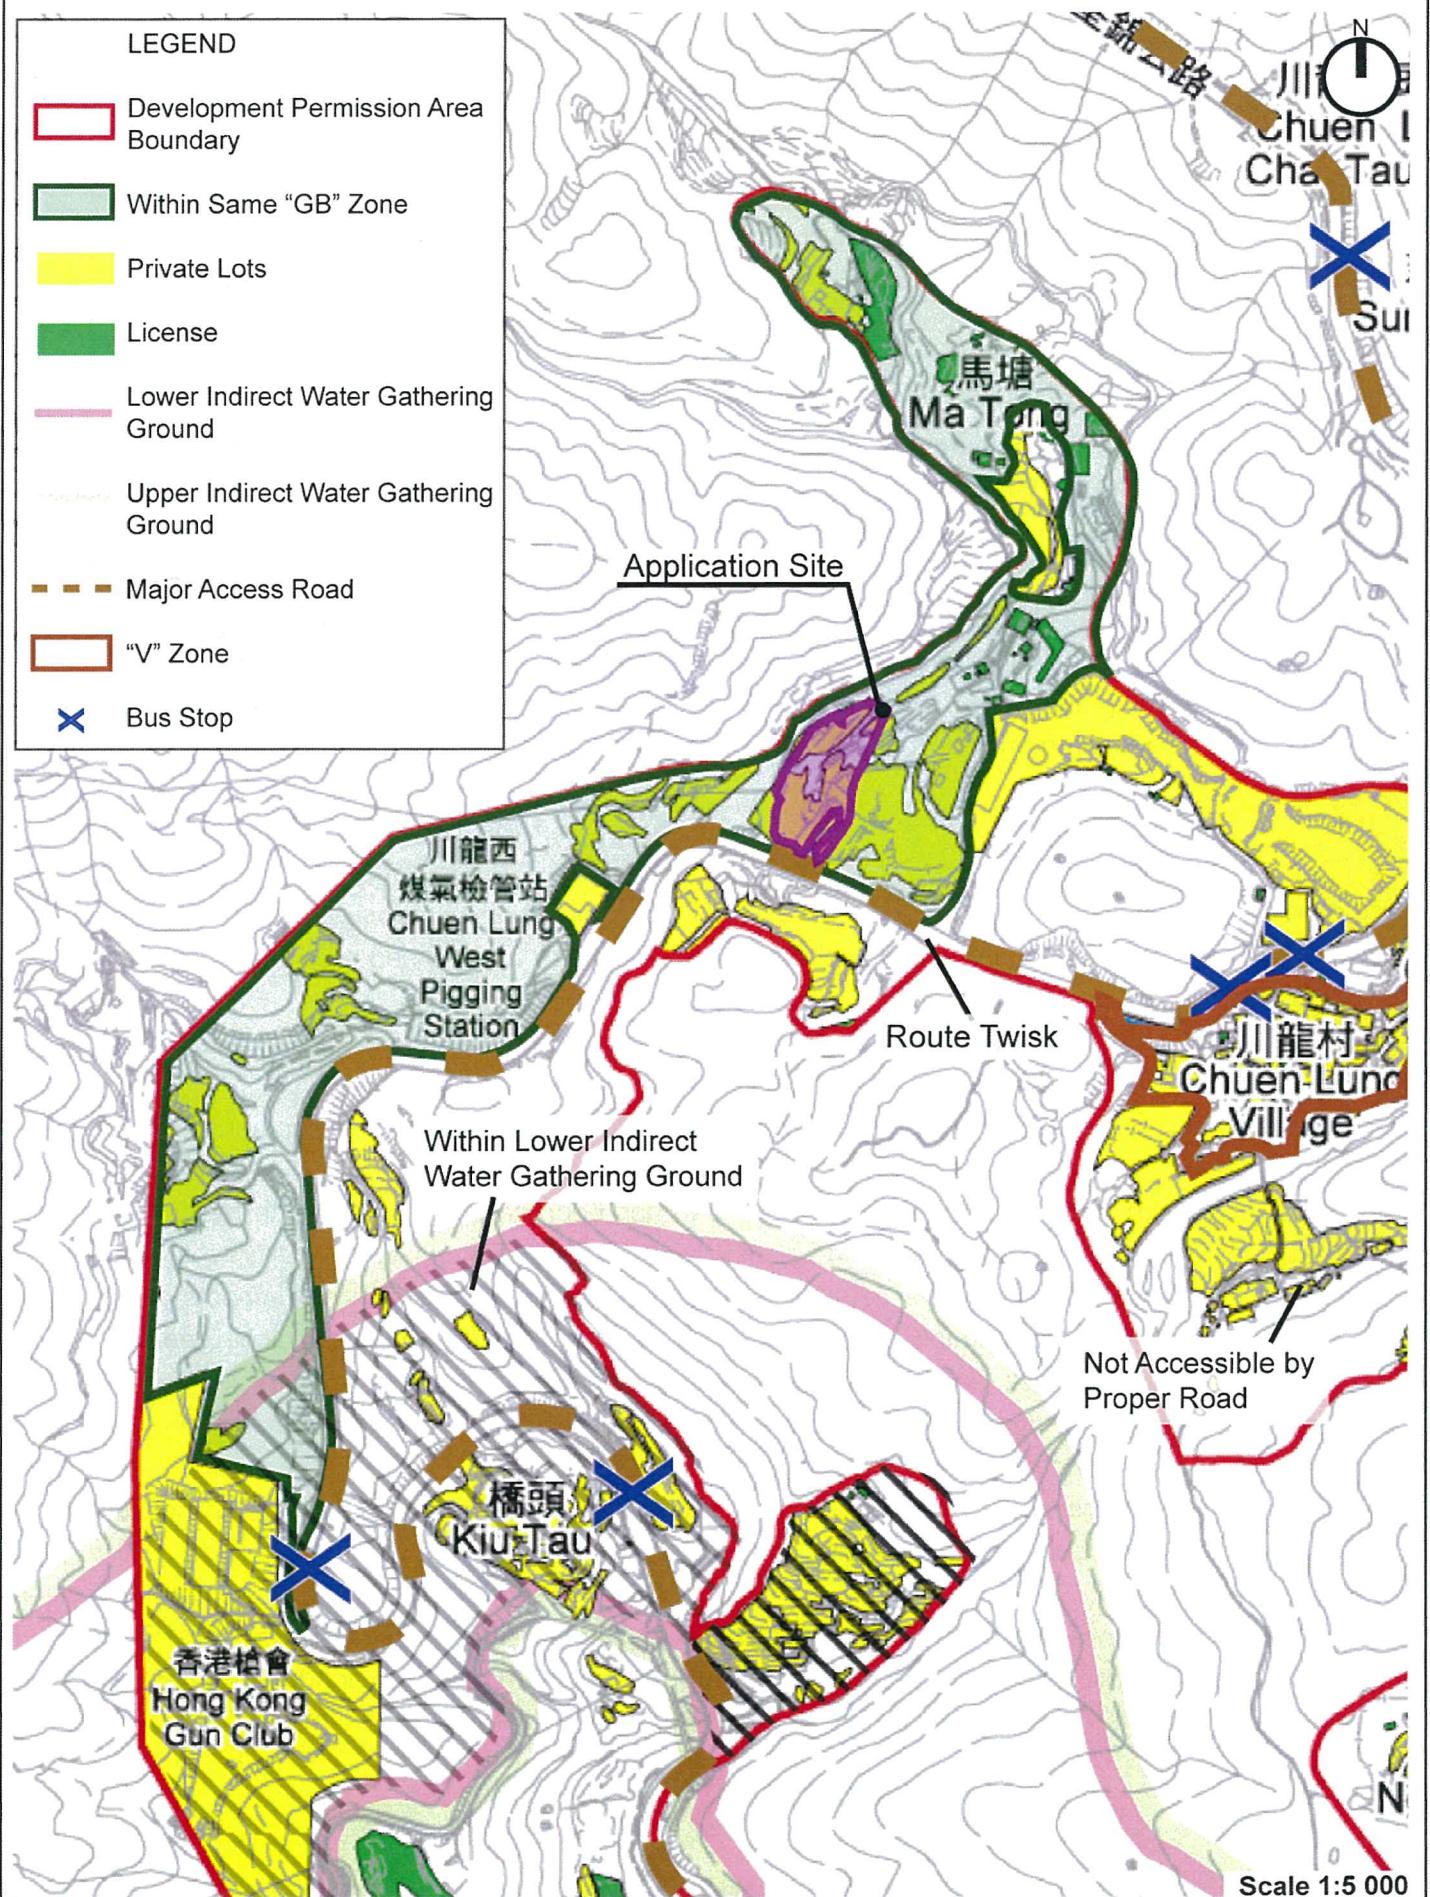

(c) The Proposed Land Exchange is Justified

The proposed lands exchange is well justified based on the following reasons:-

- i) A 1:1 land exchange ratio will be adopted in the land exchange application. No additional area of the government land is requested in the scheme.
- ii) The government land within the subject site is about 820.84m² in area, which only consists about 20% of the overall site area.
- iii) The regularisation of the site boundary will enhance the integrity of the subject private lots and its adjoining government land. The more regular shape of site boundary will maximise the development potential of the site. Moreover, it could facilitate a more comprehensive and integrated landscape design approach in order to respect the surrounding natural landscape.
- iv) Lot Nos. 406 and 407 in D.D. 433 currently cover a portion of the existing footpath towards Ma Tong. They cover long strips of land overlooking the riverbank of the natural stream. These private lots to be surrendered to the Government will facilitate the relevant government departments to properly manage and maintain the footpath and facilitate future preservation of the stream.

**Plan M: Site Constraints Plan**

5. CONCLUSION

This Representation objects the new "GB" zone covering the subject site on the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1 gazetted on 9.12.2016. The Representer also proposes to rezone the site to "R(C)" zone for low-density residential development.

The subject site was designated as "Unspecified Use" on the Approved Chuen Lung and Ha Fa Shan DPA Plan No. DPA/TW-CLHFS/2. A s.16 planning application for a proposed low-density residential development was submitted to the Board on 15.9.2016 (Application No. A/DPA/TW-CLHFS/5). Subsequently on 9.12.2016, the Board has rezoned the site to "GB" on the Draft Chuen Lung and Ha Fa Shan OZP. The new zoning will seriously jeopardize their plan for residential development and will restrict the development potential of the site. This indicates that the plan has not taken into account the Government's difficulty in search for developable land all over the Special Region.

Planning assessments by Toco have shown that the Representation is well justified based on the following reasons:

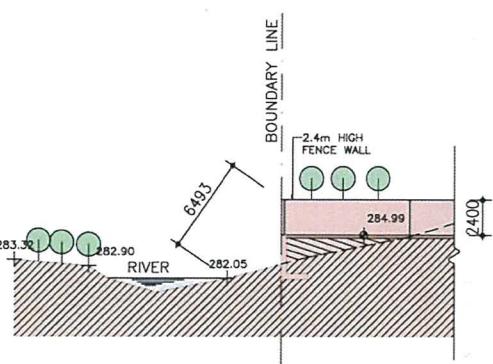

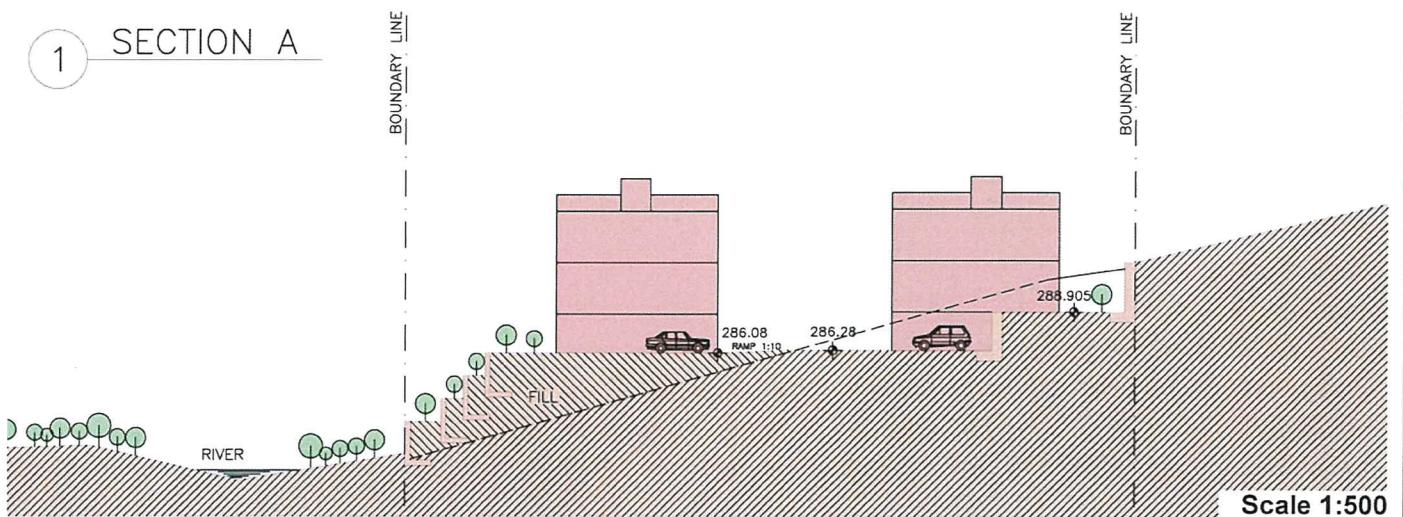

- (a) the new "GB" zone will seriously jeopardize the planned residential development for the site;
- (b) it will undermine the development right of the landowner and development potential of the site;
- (c) the subject site is suitable for low-density residential development in terms of location and land use compatibility;
- (d) the proposed residential scheme has been carefully designed to match with the surrounding area and will improve the visual and landscape quality of the area;
- (e) the small scale development will not result in any significant impacts on traffic, environmental, drainage, sewerage, visual, landscape, ecological, geotechnical and risk management aspects of the locality;
- (f) the proposed development is in line with the Government's plan making mechanism; and
- (g) the application will not set an undesirable precedent for similar applications in view of its background, unique location and scale.

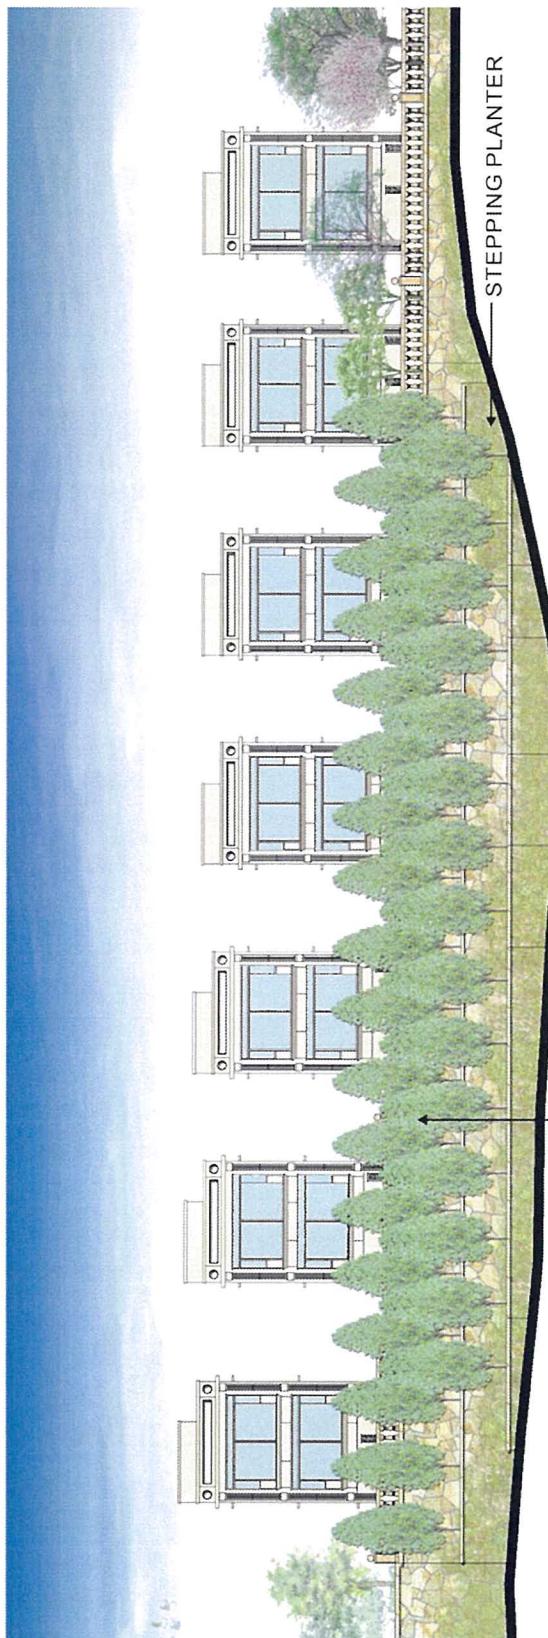

In light of the merits of the submitted residential scheme presented in this Planning Objection Statement and the planning justifications presented, honourable members of the Town Planning Board are requested to uphold this Representation.

城市規劃委員會秘書台鑑：

川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1
申述詳情

關於 2016 年 12 月刊憲之上述草圖，本人茲申述意見如下，敬希垂注！

有關事項：

川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1
 西竺林禪寺的寺院範圍內被劃作「綠化地帶」的 DD358 Lot 46, 47, 48, 71,
 351, 352 等土地

性質

反對

理由

西竺林禪寺的土地範圍包括：

被劃作「政府、機構或社區(1)」(GIC (1))的 DD358 Lot, 47(部份土地), 72,
 348, 349 等土地及

被劃作「綠化地帶」的 DD358 Lot 46, 47(部份土地), 48, 71, 351, 352 等土
 地

西竺林禪寺是開山祖師裔禪老和尚於 1936 年創建，供奉佛法僧三寶，
 培育僧徒，及為市民提供學佛及禪修的因緣。西竺林禪寺範圍內被劃作「綠
 化地帶」的地方雖然沒有多少建築物，但是素來都是禪寺不可分割的重要
 部份。禪寺為臨濟宗。種菜亦是禪修的助緣，僧人每天種菜，疲倦了便坐

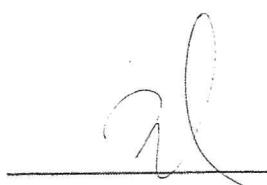

在田邊喝杯茶名茶禪，茶禪之後再坐在旁邊禪修，是為農禪。中國禪宗有很多公案都有提及，亦有因此見性，例如古時龐居士拿著鋤頭一鋤下去便即時開悟了。事實上，在種田的時候，自己身處天地綠野之間，心無旁慮，心境清淨，無人無我，在萬緣放下之際，突然一念相應慧湧出來便見到宇宙人生真諦，空無一物，或有見諸法實相；小悟大悟根性不同。小悟便有空理的智慧；大悟便有中道不偏不倚的圓滿智慧。

禪修可以令到心境平靜得定力，正念修禪生智慧便得慧力。定力和慧力均等令修行人處事有方，不貪不嗔不愚痴，心境清晰明了無所住，無有執著，無有掛礙，這便是智慧。禪修是釋迦牟尼佛弘宣，指導佛弟子了生死之門，是出世間法。在世間法而言，禪修的好處非常多。在家人修禪，可以使心境寧靜，身心平衡，消除煩惱，釋放壓力，身體健康，從而改善人際關係，樂善好施，減少鬭爭，因此對社會有良好的影響力。香港現在社會煩亂，人心不安，是非常需要有正信的僧人和環境理想的地方學習禪修，由寶林堂主理的西竺林禪寺是很理想的選擇。

假如禪寺寺院範圍的大部份土地被劃作「綠化地帶」而不能作宗教用途，禪寺將不能舉辦禪修活動，市民將會少了一個禪修地。故此本人要求將禪寺寺院範圍內所有土地，包括大綱圖現劃作「綠化地帶」的 DD358 LOT 46、47、48、71、351、352 等土地，改劃為「GIC (1)」或「宗教用途」。

本人謹以此信函誠意奉上各位委員，請代市民想一想，倘若你們願意將上述「綠化地帶」改劃為 GIC (1)，將來會有多少人可以參加禪修？這些參加禪修的人士的改變對親友社會的良好影響，因此帶動其他，其他又帶動其他。西竺林禪寺的禪修土地有限，不會增加人流，但會不斷增加新來參加者，這些倍升的功德，便是你們今日批准所獲致的效益，故此各位功德福報亦因此無量無邊不可思議！耑此

敬祈
六時吉祥！

Dear Sir,

Comment on Representation to the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1

1. The Commenter

- 1.1 The Po Lam Tong (PLT) (寶林堂), the Commenter, has appointed Masterplan Limited as its authorized agent. This Comment is related to the Draft Chuen Lung and Ha Fa Shan OZP No. S/TW-CLHFS/1 (the OZP), in response to Representation No. 243.

2. Details of the Comment

- 2.1 The Commenter would like to respond to Representation No. 243, with our clarifications:

- (i) The majority of land related to the operation of Sai Chuk Lam Zen Monastery are owned privately by the Monastery, including D.D. 358 Lot No. 46, 47 (portion of), 48, 71, 72, 348, 349, 351, and 352;
- (ii) The existing supporting facilities of Sai Chuk Lam Zen Monastery are insufficient to provide for the religious meditation operation. Therefore, additional supporting facilities are proposed by the Monastery on their privately-owned land.

Yours faithfully,

Benson Poon

城市規劃委員會主席

黃偉綸太平紳士 台鑒：

本局對《川龍及下花山分區計劃大綱草圖》 (編號 S/TW-CLHFS/1)的意見

本局收到荃灣鄉事委員會及多名下花山村代表來函，對標題所述規劃圖的規劃提出多項反對意見。本局認為荃灣鄉事委員會及鄉民的訴求合理，對大綱草圖表示強烈反對。本局與規劃署官員於 3 月 31 日舉行會議討論圖則，提出意見如下：

(一) 現時規劃的「鄉村式發展」地帶未能滿足小型屋宇需求

政府在 30 年前應允在川龍鄉村擴展區批出 50 間小型屋宇供村民申請，然而一直未有收地，及後政府又以檢討小型屋宇政策為理由，將所有未收地的鄉村擴展區計劃凍結，令村民建屋遙遙無期。現時規劃署劃定的鄉村式發展地帶可供建屋 73 間，當中 50 間是政府 30 年前的承諾，其餘 23 間的屋地卻屬於私人土地，此等規劃手段形同詐騙。川龍人口不斷膨脹，村民建屋需求不斷增加，貴署劃定的鄉村式發展地帶，完全不能滿足村民的建屋需求，也令新界原居民無從行使丁權，有違《基本法》第 40 條之嫌。

本局認為若政府無意推行鄉村擴展區計劃，就應該釋放川龍鄉村擴展區內的私人土地。另外，川龍圳下、昂塘及川龍以南的土地大部份屬於私人土地，規劃署以配合「新農業政策」為由將土地劃作「農業」地帶，此舉純屬一廂情願，也罔顧土地業權人的私有產權及發展需要，本局建議將上述土地範圍改劃為「鄉村式發展」用途，以預留足夠土地讓村民發展小型屋宇。本局多年來一直爭取政府以多層丁廈，紓緩丁地短缺的問題，也可釋放土地以滿足興建公營房屋的需求，而川龍圳下的土地正適合作為推行試驗計劃。

(二) 反對將私人土地劃作「綠化地帶」用途

大綱草圖將川龍和下花山的大片私人土地劃為綠化地帶，等同扼殺村民的發展及生存空間。下花山村已有三百年歷史，因為種種原因

新界鄉議局 HEUNG YEE KUK NEW TERRITORIES

新界沙田石門安睦街 30 號
30 On Muk Street, Shek Mun, Shatin, N.T., Hong Kong.
Tel : 2336 1151-2, 2338 8818, 2336 8659 Fax : 2338 3125
Website: www.hyknt.org Email: nthyk@netvigator.com

被政府遺漏納入「認可鄉村名冊」，本局現正積極循各方面爭取政府撥亂反正，把下花山村納入「認可鄉村名冊」，規劃署不應該在未有結果前，貿然把下花山村劃入綠化地帶。再者，政府把大片私人土地劃為綠化地帶而不作任何補償，令土地用途受到嚴格限制，也無視《基本法》對私有產權的保障。

川龍及下花山的村民，多年來在私人農地上進行小規模的耕種活動，一直循規蹈矩，沒有開山毀林，沒有破壞自然生態，毋須政府施加不必要的限制去保育環境。此外，西竺林禪寺也表示受規劃影響，原本用作種菜的農地被劃為綠化地帶後，或會因為未經申請進行種植而被收回土地，而山上存在已久的小型產業如酒廠、豆腐廠等經營者，亦擔心規劃有礙擴展業務。

(三) 規劃未有充份諮詢當區持份者的意見

上述規劃圖已令當區鄉民民怨四起，據了解，荃灣鄉事委員會及當區村民，均曾經去信規劃署反映對大綱草圖的不滿，但規劃署仍然一意孤行，任由民怨加深。本局希望規劃署和城規會能夠本著以人為本的精神，虛心聆聽鄉民的意見，令川龍及下花山村民的生活早日回復安寧。

專此奉達，敬祈 亮察。如有查詢請致電 2336-1151 與本局秘書處聯絡。

Dear TPB Members,

Oppose rezoning of GB to GIC

It is very disappointing to find that so many Buddhist followers have been persuaded to support development of green belt that would entail destruction of natural resources.

Buddhism espouses our connection with the natural world and the cycle of life. It teaches followers to respect nature and demonstrates a profound objection to over-exploitation of natural resources and pollution.

One can only assume, as is the case with the Christian groups, that members are coerced into supporting the views of the leaders of their communities under the threat of being marginalized.

On various occasions when objecting to plans that resulted in the demolition of heritage churches and natural landscapes, St. Andrews Church on Nathan Road being but one example, individual parishioners have apologized to protesters with regard to their inability to oppose the wishes of their pastors.

The monasteries should be confined to their existing zonings as any expansion would only encourage inappropriate redevelopment, much of it for commercial gain. The high prices columbarium facilities generate has unfortunately encouraged a culture of greed.

Oppose and increase in Small House footprint

The aim to confining Small House development at suitable location to avoid undesirable disturbances to the natural environment is fully supported.

The original criteria for small house development was that it be confined to the existing village together with a buffer zone of 300sf. It was never the intention that there be unlimited construction of small houses.

Regrettably TPB has assisted in promoting the assumption that small house development can take over the entire New Territories by approving far too many Net House developments on Agriculture and GB sites in line with PDs pro expansion policy, regardless of the consequences or the precedents.

Land rights are not absolute

As for the rezoning of land on Route Twisk to 'Green Belt' objections that this would undermine the development right of the landowner and the development potential of sites should be viewed in the context of the general community benefit. Land rights are not absolute and can be subject to proportional analysis:

"The proportionality analysis in a case like the present involves asking, first, whether the infringement or restriction pursues a legitimate societal aim; secondly, whether the infringement or restriction is rationally connected with that legitimate aim; and thirdly, whether the infringement or restriction is no more than is necessary to accomplish that legitimate aim" Hysan v TPB

When the GB acts as a buffer zone for a community amenity like Tai Lam Country Park then the interests of the community in general certainly are proportionately more important than those of individual landowners who have aspirations to develop the sites despite their location and intended land use.

Mary Mulvihill

Details of Major Grounds of Representations and Representers' Proposals and the Planning Department's Responses

<u>Major Grounds and Proposals</u>		<u>Responses (TPB Paper Paragraph No.)</u>
A Designation of “Green Belt” (“GB”) Zones surrounding Sai Chuk Lam Zen Monastery and Kai Yuen (R1, R2, R3 (Part) and R4 to R246)		
<u>Major Grounds</u>		
A1	The existing “Government, Institution or Community (1)” (“G/IC(1)”) zone only covers the major operation area of Sai Chuk Lam Zen Monastery, which would affect the holistic planning of the monastery. The ancillary structures falling within the “GB” zone including a crematorium structure, an incense paper incinerator, living quarters, a meditation platform and farmland are permanent in nature and essential for the operation of religious use. The “GB” zoning affects the monastery’s daily operation and undermines the right for religious use.	6.5.2 to 6.5.6 and 6.5.9
A2	The area within the “G/IC(1)” zone is insufficient to support the monastery’s daily operation. The “GB” zoning would affect the Sai Chuk Lam Zen Monastery’s plan to upgrade the existing meditation platform to a 2-storey meditation hall and dormitory, which would provide a weather-proof venue and help alleviate the over-capacitated monastery.	6.5.2 to 6.5.6 and 6.5.9
A3	Sai Chuk Lam Zen Monastery has existed for decades and is a well-established religious institution in Ha Fa Shan serving the public, followers and hikers. It has provided a place for purifying the spirit and has great contribution to the Buddhist community and society. It would be a loss to the society if the operation of the monastery is affected by the Outline Zoning Plan (OZP).	6.5.2 to 6.5.6 and 6.5.9
A4	Kai Yuen, which was built in 1934, has been a registered temple under the Chinese Temple Ordinance since 1979. It is currently/ intended for temple use.	6.5.7 and 6.5.9
A5	The proposed “G/IC(1)” zoning would embody the monasteries’ spirit to preserve the natural environment. Religious use at the proposed “G/IC(1)” zones is compatible with the natural surroundings and would not create any adverse impact on the environment.	6.5.2 to 6.5.6 and 6.5.9

<u>Major Grounds and Proposals</u>		<u>Responses (TPB Paper Paragraph No.)</u>
A6	The monastery has legitimate expectation to use the surrounding areas for religious activities. The designation of “GB” zone will prohibit any religious activities and it would be against the Basic Law on religion freedom.	6.5.10
A7	The “GB” zoning for private land prohibiting religious institution use deprives the property right of the monastery.	6.5.11
A8	No consultation was made with the land owners and management body of Sai Chuk Lam Zen Monastery during the plan-making process.	6.5.35
A9	There has been illegal occupation of Government land by the monastery, and the religious activities can take place within the “G/IC(1)” zone.	6.5.12
<u>Representers' Proposals</u>		
P1	The “GB” zones surrounding Sai Chuk Lam Zen Monastery should be rezoned to “G/IC(1)” or “Religious Use”.	6.5.2 to 6.5.6 and 6.5.9
P2	The current “G/IC(1)” zone for Sai Chuk Lam Zen Monastery should be designated for “Religious Use”.	6.5.2 to 6.5.6 and 6.5.9
P3	The OZP boundary should be extended to cover the entire Kai Yuen, which should be rezoned as “G/IC(1)”.	6.5.7 to 6.5.9 and 6.5.36
B <u>Designation of “GB”, “Agriculture” (“AGR”) and “Village Type Development” (“V”) Zones for the Chuen Lung and Ha Fa Shan OZP (R3 (Part) and R247 to R251)</u>		
<u>Major Grounds</u>		
B1	The general planning intention of the OZP to protect the natural environment and rural landscape is supported.	6.5.13
B2	Some species of conservation interest/importance and native orchids are recorded in/near the nature streams. The natural streams and riparian areas should be well protected against development through a “Conservation Area” (“CA”) or “GB(1)” zoning.	6.5.14

<u>Major Grounds and Proposals</u>		<u>Responses (TPB Paper Paragraph No.)</u>
B3	The woodland areas with some species of birds of local concern, raptors with conservation importance and woodland birds recorded have similar condition to the woodland within the adjoining Country Parks, which should be better protected through a “CA” zoning	6.5.14
B4	The agricultural land in Chuen Lung should be protected through a “GB(1)” zoning as the agricultural activities are still active while a rare butterfly species, Yellow Coster and its host plant ramie are recorded in the farmland. Agricultural land should also be excised from the “V” zone.	6.5.15
B5	New Small House development may be allowed in the “GB” or “AGR” zones upon the Board’s approval. The wastewater discharged by the new Small House development including restaurant on the G/F in the “V”, “GB” and “AGR” zones will cause adverse impacts to the natural streams and water gathering ground (WGG). The proposed Chuen Lung Village Expansion Area (VEA) should be excised from the “V” zone whereas the “GB” and “AGR” zones should be rezoned to “CA” or “GB(1)” to prohibit any new Small House development.	6.5.16 and 6.5.25
B6	The “V” zone in Chuen Lung, with a total of 73 Small House sites, is inadequate to meet the Small House demand of 169. The provision within the OZP should be able to meet the Small House demand.	6.5.19 to 6.5.22
B7	The proposed Chuen Lung VEA, with a total of 50 Small House sites committed in 1994, has not been implemented. The VEA policy should be reactivated.	6.5.24
B8	Insufficient land for Small House development will adversely affect the traditional right and interest of indigenous inhabitants of New Territories that may contravene the Basic Law. The “GB” zoning for private land contravenes the Hong Kong Law on the protection of development right.	6.5.11, 6.5.17 and 6.5.23
B9	The village of Ha Fa Shan has been established for over 200 years but was omitted in the List of New Territories Small House Policy Recognised Village adopted by Lands Department (LandsD). The “GB” zoning for Ha Fa Shan would deprive the villagers’ right of building Small House and affect their request to include the village in the list. Private land in Ha Fa Shan should be excised from the “GB” zone.	6.5.26

<u>Major Grounds and Proposals</u>		<u>Responses (TPB Paper Paragraph No.)</u>
B10	No consultation was made with the land owners and villagers. The OZP should be suspended until reaching consensus with villagers.	6.5.35
<u>Representers' Proposals</u>		
C Designation of “GB” Zone for the Site at Route Twisk to the North of Hong Kong Gun Club (R252)		
<u>Major Grounds</u>		
C1	The “GB” zoning for private land has infringed upon their right of development, which contravenes the Basic Law.	6.5.11 and 6.5.30
C2	The site is suitable for low-rise residential development. The “GB” zoning has not taken into account the Government policy to rezone suitable land in Hong Kong for residential use.	6.5.27 to 6.5.29
C3	As there are tolerated structures at the site, a residential zoning, rather than “GB”, should be designated.	6.5.27 to 6.5.29
<u>Representers' Proposals</u>		
P4	The site including the portion outside the OZP's boundary should be rezoned to “Residential”.	6.5.27 to 6.5.29 and 6.5.36
D Designation of “GB” Zone for the Site at Route Twisk near Ma Tong (R253)		
<u>Major Grounds</u>		
D1	The “GB” zoning for private land deprives their right of development, which contravenes the Basic Law and Hong Kong Law. It also has not taken into account the Government's need to identify developable land in Hong Kong.	6.5.11 and 6.5.34
D2	The site is suitable for low-density residential development. The proposed residential development is in line with the overall planning intention of the OZP. As demonstrated in the planning application submitted by the representer, the proposed residential development is compatible with the surrounding and will have visual and ecological improvements to the environment with no adverse visual, landscape, traffic, geotechnical, environmental and infrastructural impacts.	6.5.31 to 6.5.33

<u>Major Grounds and Proposals</u>	<u>Responses (TPB Paper Paragraph No.)</u>
<u>Representers' Proposals</u>	
P5	The site should be rezoned to “Residential (Group C)”. 6.5.31 to 6.5.33

Major Grounds and Proposals of Comments

<u>Comment</u>	<u>Major Grounds</u>	<u>Responses (TPB Paper Paragraph No.)</u>
C1	The majority of land related to the operation of Sai Chuk Lam Zen Monastery is privately owned and the existing facilities are insufficient to support the monastery's daily operation.	6.5.2 to 6.5.6 and 6.5.9
C2	If the VEA policy will not be reactivated, the land within the VEA should be released for development. Besides, Chuen Lung Chun Ha, Ngong Tong and the land to the south of Chuen Lung should be rezoned from “AGR” to “V” for Small House development or used for public housing development	6.6.2
	The development right of private land should be respected and zoning them as “GB” without compensation contravenes the Basic Law. The “GB” zoning also affects Sai Chuk Lam Zen Monastery and business expansion of the rural workshops in the Area.	6.5.11, 6.5.17 and 6.6.3
	Stakeholders have not been fully consulted during the plan-making process and their comments have not been incorporated into the OZP.	6.5.35
C2 and C3	For the “V” zones within the OZP, there is no implementation programme for the 50 Small House sites within the proposed Chuen Lung VEA while the rest Small House sites are on private land. Thus the current “V” zone is not adequate to meet the Small House demand, which contravenes the Basic Law	6.5.23 and 6.5.24
C2 and C4	Before reaching a conclusion on the villagers' request for inclusion of Ha Fa Shan into LandsD's List of New Territories Small House Policy Recognised Village, Ha Fa Shan should not be zoned “GB”.	6.5.26
C4	The VEA policy should be reactivated.	6.5.24
C5	Oppose the proposal to rezone the land surrounding Sai Chuk Lam Zen Monastery and Kai Yuen from “GB” to “G/IC(1)” as it would entail destruction of natural resources and the monastery/temple should be confined to their existing zonings;	6.5.2 to 6.5.6 and 6.5.9
	The Small House development should be confined in suitable location to avoid undesirable disturbances to	6.5.16 and 6.5.20

<u>Comment</u>	<u>Major Grounds</u>	<u>Responses (TPB Paper Paragraph No.)</u>
	the natural environment.	
	Oppose the proposal to zone the sites at Route Twisk for residential use as land rights are not absolute and the interest of community should be proportionately more important.	6.5.11, 6.5.27 to 6.5.34 and 6.6.4

反對。

35. 規劃署高級城市規劃師回應，關於 Y/TW/9，多個部門對申請人在春秋二祭期間關閉停車場的建議亦有意見。申請人須就交通方面的任何建議提供交通影響評估報告，證明發展不會產生負面影響。

36. 林婉濱議員及王佩芝女士的意見、建議及提問摘錄如下：

- (1) 關於 A/DPA/TW-CLHFS/3 及 A/DPA/TW-CLHFS/5，兩宗申請的地點及內容非常相似，詢問這是否申請人提交申請時取巧，即是就附近區域分別遞交申請；
- (2) 規劃署在上次會議中指出，該署已向城規會提交委員就申請提出的所有意見，但申請人遞交兩宗申請可能會誤導委員，令委員以為已就申請提出意見而沒有提出反對，從而使申請獲得批准；以及
- (3) 關於 A/DPA/TW-CLHFS/6，漁護署對這宗申請有何憂慮。

37. 規劃署高級城市規劃師回應，關於 A/DPA/TW-CLHFS/3 及 A/DPA/TW-CLHFS/5，雖然兩宗申請的地點接近，但位於兩個不同地點。關於 A/DPA/TW-CLHFS/6，該申請位於下花山的引水道旁，申請人需證明有關發展不會產生負面影響，包括對自然環境保育不會有負面影響。現時，漁護署對申請仍有意見，規劃署已將漁護署的意見轉交申請人跟進。

38. 代主席表示，希望規劃署備悉委員的意見，而委員亦可以就各項申請以個人身份向城規會提出意見，並在下次會議中考慮是否就規劃申請 A/TW/480 去信規劃署及城規會以表達不滿。

**V 第 4 項議程：《川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1》
(社區建設第 20/16-17 號文件)**

39. 代主席表示，規劃署就《川龍及下花山分區計劃大綱草圖編號 S/TW-CLHFS/1》諮詢委員的意見，並歡迎出席是次會議的規劃署代表荃灣及西九龍規劃專員（下稱“規劃專員”）周日昌先生。

40. 規劃署規劃專員介紹文件。

（按：黃家華議員於下午三時五十六分退席。）

41. 陳崇業議員、林婉濱議員及黃偉傑議員的意見、建議及提問摘錄如下：

- (1) 關注規劃署在過去十年來仍未在川龍的鄉村式發展地帶進行收地，而地政總署亦從沒有批准在該處興建小型屋宇，並預計規劃署在諮詢相

- 關鄉事委員會及村代表時會收到反對意見；
- (2) 認為因委員會並非該處的持份者，就該處的規劃大綱發表意見並不適合；
 - (3) 規劃署未有把與村代表會面時收集所得的意見納入文件；
 - (4) 雖然規劃署計劃把部分農業地帶及綠化地帶改劃為“其他指定用途”，但有村長表示該地點並非商議的私人土地；
 - (5) 不能接受規劃署建議把部分居民現時居住的土地改劃為綠化地帶，令他們失去使用土地自主權；
 - (6) 要求規劃署在諮詢期內再與村長會面；
 - (7) 雖然規劃署把私人土地納入綠化地帶後可以保留現有用途，但有村民擔心日後房屋出現損毀時，因不能進行維修而需要搬遷；
 - (8) 理解規劃署訂立大綱草圖的目的是保持土地現時的良好狀態，但希望規劃署避免影響土地擁有者的權益；
 - (9) 規劃署多年來未有在鄉村式發展地帶進行收地，居民無從獲得土地興建小型屋宇；
 - (10) 由於村代表反對把該區大部分土地改劃為綠化地帶，因此對該大綱草圖有保留；
 - (11) 有居民擔心土地被改劃為綠化地帶後，不能維持現有的農業用途，認為規劃署未能釋除居民的疑慮；
 - (12) 下花山村現時不屬認可的原居民村落，但該村落的部分私人土地已建有祖屋，若日後該村落成為認可原居民村落時，村民便需重新向城規會申請把土地改劃為鄉村式發展地帶，間接失去過去發展土地的權益；
 - (13) 由於下花山村大部分居民都居於寮屋，詢問規劃署“經常准許用途”中，有關翻建新界豁免管制屋宇及以新界豁免管制屋宇取代現有住用建築物兩項中所涉及的新界豁免管制屋宇是否指村屋，而且對村民的生活有何影響；以及
 - (14) 詢問規劃署在去年十月底與鄉事委員會討論時，村民是否反對該署提出的意見。

42. 規劃署規劃專員回應如下：

- (1) 該署樂意就大綱草圖再次與村代表及村民商討；
- (2) 「農業用途」在「綠化地帶」上屬經常准許的用途；
- (3) 根據先前的發展審批地區圖，在「非指定用途」地帶，除農業用途外，所有用途皆須事先向城規會申請，城規會可能會在有附帶條件情況下批准有關用途，以確保在環境及交通等因素上不會帶來負面影響。然而，現時分區計劃大綱草圖中，部分用途在個別地帶屬經常准許用途，不用再向城規會申請；

- (4) 在劃定「鄉村式發展」地帶時，規劃署需要考慮各政府部門的意見；
- (5) 理解村民對小型屋宇政策的關注，但根據現時政策，鄉村擴展區計劃暫時凍結。然而，川龍鄉村擴展區已劃為「鄉村式發展」地帶，在規劃上，「小型屋宇」屬經常准許用途；
- (6) 寮屋的修葺屬土地管理的範疇；
- (7) 該署理解鄉事委員會關注小型屋宇的供應，在先前的諮詢中，他們亦就此一項對大綱草圖表達關注；
- (8) 下花山村能否成為認可原居民村落屬地政總署小型屋宇政策的範疇；
- (9) 將土地劃為「綠化地帶」不會影響居民的現有生活方式及權益。在「綠化地帶」興建小型屋宇，亦可向城規會申請；以及
- (10) 該署在訂定大綱草圖時，已考慮各項有關的規劃因素。

43. 地政處行政助理回應如下：

- (1) 按照現行政策，政府不會運用公帑為鄉村擴展區進行收地，再批地予村民興建丁屋。政府每年都會檢討有關政策，但暫時未有修訂政策的時間表；
- (2) 村民興建丁屋時必須符合相關建屋政策；
- (3) 規劃署把土地劃作鄉村式發展地帶並不等於村民可以享有興建丁屋的法定權利；
- (4) 在新界其他地區亦有村民未能擁有私人土地以興建丁屋的情況；
- (5) 新界豁免屋宇為根據《建築物條例》(第 123 章) 訂立，而寮屋並不屬於新界豁免屋宇。寮屋是過往政府根據寮屋政策，以牌照、豁免租約或其他方式批准的屋宇，但現時屬於非法佔用政府土地的屋宇；以及
- (6) 該處已為寮屋進行登記，政府會容許寮屋存在，直至政府需要收回有關土地或寮屋住戶放棄寮屋為止。現行政策容許住戶為寮屋進行重建或維修，但所使用的物料及寮屋的面積會受到限制。

44. 代主席詢問，魚塘是否屬於農業用途，以及如合資格村民擁有的土地位於鄉村式發展地帶，他們是否可以在該些土地興建丁屋。

45. 規劃署規劃專員回應，魚塘屬於農業用途，然而，如位於「綠化地帶」的魚塘進行的工程涉及填塘或更改河道等則須向城規會申請，以確保環境不會被破壞。而在「鄉村式發展」地帶興建小型屋宇屬經常准許的用途，無須向城規會申請。

46. 地政處行政助理回應，如果原居民擁有的私人土地位於鄉村式發展地帶，該原居民可以申請興建丁屋。

47. 黃偉傑議員及林婉濱議員的意見、建議及提問摘錄如下：
- (1) 詢問若下花山村在日後成為認可原居民村落後，能否以新界豁免管制屋宇取代現有住用建築物條款，在原址興建丁屋取代寮屋，而無需向規劃署提出規劃申請；
 - (2) 雖然規劃署把土地改劃為鄉村式發展地帶，但因政策限制而未能滿足村民的住屋需求。至於規劃署同時把村民擁有的土地劃為綠化地帶，也令村民不能興建丁屋；
 - (3) 要求規劃署在改劃土地時，應預留足夠土地以滿足村民的建屋需求。在建屋需求未能完全滿足前，不應把村民的土地劃為綠化地帶；以及
 - (4) 希望規劃署採取其他措施，把土地改劃為鄉村式發展地帶。

48. 規劃署規劃專員回應，“現有建築物”指一間實際存在，並符合任何有關法例及有關政府土地契約條款的建築物(包括構築物)，因此非法寮屋並不屬於“現有建築物”。雖然如此，由於在川龍及下花山發展審批地區圖刊憲前已存在的寮屋屬現有用途，在規劃層面上可予容忍。此外，在有關大綱草圖上，保養及維修建築物屬經常准許的作業，因此有關工程不會受到大綱草圖影響。有關大綱草圖為川龍下花山的規劃提供框架及指引，村民可以申請在「綠化地帶」興建小型屋宇，但「綠化地帶」一般而言不宜進行發展，在審議有關申請時，城規會亦會考慮政府相關政策，例如新界小型屋宇政策。

49. 代主席表示，他希望規劃署繼續與持份者商討，跟進村民的需要及訴求。

VI 第5項議程：社區發展及規劃工作小組與地區團體合辦活動的區議會撥款申請

(社區建設第 21/16-17 號文件)

50. 秘書介紹文件，並表示鄭捷彬議員、文裕明議員、古揚邦議員、伍顯龍議員、林婉濱議員、黃偉傑議員、陳振中議員、羅少傑議員、葛兆源議員、譚凱邦議員、王珮芝女士及侯恩澤先生是社區發展及規劃工作小組的成員，作為他們就其成員身分申報利益。

51. 由於代主席已申報利益，根據《常規》48(14)條的規定，委員同意由林琳議員暫代主持會議。

52. 臨時主席詢問委員需否即席申報其他利益。沒有委員申報其他利益。

53. 臨時主席根據《常規》第48(12)條的規定，批准身兼工商業發展工作小組成員的委員可就撥款申請發言和表決。

GOVERNMENT, INSTITUTION OR COMMUNITY

Column 1	Column 2
Uses always permitted	Uses that may be permitted with or without conditions on application to the Town Planning Board
Schedule I: for “Government, Institution or Community” other than “Government, Institution or Community (1)”	
Ambulance Depot	Animal Boarding Establishment
Animal Quarantine Centre (in Government building only)	Animal Quarantine Centre (not elsewhere specified)
Broadcasting, Television and/or Film Studio	Columbarium
Cable Car Route and Terminal Building	Correctional Institution
Eating Place (Canteen, Cooked Food Centre only)	Crematorium
Educational Institution	Driving School
Exhibition or Convention Hall	Eating Place (not elsewhere specified)
Field Study/Education/Visitor Centre	Firing Range
Government Refuse Collection Point	Flat
Government Use (not elsewhere specified)	Funeral Facility
Hospital	Helicopter Landing Pad
Institutional Use (not elsewhere specified)	Holiday Camp
Library	Hotel
Market	House (other than rebuilding of New Territories Exempted House or replacement of existing domestic building by New Territories Exempted House permitted under the covering Notes)
Place of Recreation, Sports or Culture	Mass Transit Railway Vent Shaft and/or Other Structure above Ground Level other than Entrances
Public Clinic	Off-course Betting Centre
Public Convenience	Office
Public Transport Terminus or Station	Petrol Filling Station
Public Utility Installation	Place of Entertainment
Public Vehicle Park (excluding container vehicle)	Private Club
Recyclable Collection Centre	Radar, Telecommunications Electronic Microwave Repeater, Television and/or Radio Transmitter Installation
Religious Institution	Refuse Disposal Installation (Refuse Transfer Station only)
Research, Design and Development Centre	Residential Institution
Rural Committee/Village Office	Sewage Treatment/Screening Plant
School	Shop and Services
Service Reservoir	Utility Installation for Private Project
Social Welfare Facility	Zoo
Training Centre	
Wholesale Trade	

(Please see next page)

GOVERNMENT, INSTITUTION OR COMMUNITY (Cont'd)

Column 1	Column 2
Uses always permitted	Uses that may be permitted with or without conditions on application to the Town Planning Board

Schedule II: for “Government, Institution or Community (1)”

Eating Place (Canteen only)	Columbarium
Government Refuse Collection Point	Eating Place (Restaurant only)
Government Use (not elsewhere specified)	Radar, Telecommunications Electronic Microwave Repeater, Television and/or Radio Transmitter Installation
Public Convenience	Residential Institution
Public Utility Installation	Shop and Services (Retail Shop only)
Religious Institution	Utility Installation for Private Project
Social Welfare Facility	

Planning Intention

This zone is intended primarily for the provision of Government, institution or community facilities serving the needs of the local residents and/or a wider district, region or the territory. It is also intended to provide land for uses directly related to or in support of the work of the Government, organizations providing social services to meet community needs, and other institutional establishments. In particular, the sub-zone “Government, Institution or Community (1) is intended primarily for the provision of religious institutional uses.

Remarks

- (1) No new development, or addition, alteration and/or modification to or redevelopment of an existing building shall result in a total development and/or redevelopment in excess of the maximum building height, in terms of number of storeys, as stipulated on the Plan, or the height of the building which was in existence on the date of the first publication in the Gazette of the notice of the draft development permission area plan, whichever is the greater.
- (2) Based on the individual merits of a development or redevelopment proposal, minor relaxation of the building height restriction stated in paragraph (1) above may be considered by the Town Planning Board on application under section 16 of the Town Planning Ordinance.

政府、機構或社區

第一欄	第二欄
經常准許的用途	須先向城市規劃委員會申請，可能在有附帶條件或無附帶條件下獲准的用途

附表 I : 適用於「政府、機構或社區」
(「政府、機構或社區(1)」除外)

救護站	動物寄養所
動物檢疫中心(只限設於政府建築物)	動物檢疫中心(未另有列明者)
播音室、電視製作室及／或電影	靈灰安置所
製作室	懲教機構
電纜車路線及終站大樓	火葬場
食肆(只限食堂、熟食中心)	駕駛學校
教育機構	食肆(未另有列明者)
展覽或會議廳	練靶場
郊野學習／教育／遊客中心	分層住宅
政府垃圾收集站	殯儀設施
政府用途(未另有列明者)	直升機升降坪
醫院	度假營
機構用途(未另有列明者)	酒店
圖書館	屋宇(根據《註釋》說明頁准許 翻建新界豁免管制屋宇 或以新界豁免管制屋宇 取代現有住用建築物者除外)
街市	香港鐵路通風塔及／或高出路面的 其他構築物(入口除外)
康體文娛場所	場外投注站
政府診所	辦公室
公廁設施	加油站
公共車輛總站或車站	娛樂場所
公用事業設施裝置	私人會所
公眾停車場(貨櫃車除外)	雷達、電訊微波轉發站、電視及／或 廣播電台發射塔裝置
可循環再造物料回收中心	垃圾處理裝置(只限垃圾轉運站)
宗教機構	住宿機構
研究所、設計及發展中心	污水處理／隔篩廠
鄉事委員會會所／鄉公所	商店及服務行業
學校	私人發展計劃的公用設施裝置
配水庫	動物園
社會福利設施	
訓練中心	
批發行業	

(請看下頁)

政府、機構或社區(續)

第一欄	第二欄
經常准許的用途	須先向城市規劃委員會申請，可能在有附帶條件或無附帶條件下獲准的用途

附表 II：適用於「政府、機構或社區(1)」

食肆(只限食堂)	靈灰安置所
政府垃圾收集站	食肆(只限酒樓餐廳)
政府用途(未另有列明者)	雷達、電訊微波轉發站、電視及／或廣播電台發射塔裝置
公廁設施	住宿機構
公用事業設施裝置	商店及服務行業(只限零售商店)
宗教機構	私人發展計劃的公用設施裝置
社會福利設施	

規劃意向

此地帶的規劃意向，主要是提供政府、機構或社區設施，以配合當地居民及／或該地區、區域，以至全港的需要；以及是供應土地予政府、提供社區所需社會服務的機構和其他機構，以供用於與其工作直接有關或互相配合的用途。「政府、機構或社區(1)」支區的規劃意向，主要是提供宗教機構用途。

備註

- (1) 任何新發展，或任何現有建築物的加建、改動及／或修改，或現有建築物的重建，不得引致整個發展及／或重建計劃的最高建築物高度(以樓層數目計算)超過圖則所訂明的限制，或超過在有關發展審批地區草圖的公告在憲報首次刊登該日已經存在的建築物的高度，兩者中以數目較大者為準。
- (2) 城市規劃委員會如接獲根據《城市規劃條例》第 16 條提出的申請，可按個別發展或重建計劃的情況，考慮略為放寬上文第(1)段所述的建築物高度限制。

GREEN BELT

Column 1 Uses always permitted	Column 2 Uses that may be permitted with or without conditions on application to the Town Planning Board

	Service Reservoir
	Social Welfare Facility
	Utility Installation for Private Project
	Zoo

- * Country Park means a country park or special area as designated under the Country Parks Ordinance (Cap. 208). All uses and developments require consent from the Country and Marine Parks Authority and approval from the Town Planning Board is not required.

Planning Intention

The planning intention of this zone is primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl as well as to provide passive recreational outlets. There is a general presumption against development within this zone.

Remarks

Any filling of land/pond, excavation of land or diversion of stream, including that to effect a change of use to any of those specified in Columns 1 and 2 above or the uses or developments always permitted under the covering Notes (except public works co-ordinated or implemented by Government, and maintenance, repair or rebuilding works), shall not be undertaken or continued on or after the date of the first publication in the Gazette of the notice of the draft development permission area plan without the permission from the Town Planning Board under section 16 of the Town Planning Ordinance.

	鄉事委員會會所／鄉公所
	學校
	配水庫
	社會福利設施
	私人發展計劃的公用設施裝置
	動物園

* 「郊野公園」指根據《郊野公園條例》(第 208 章)指定的郊野公園或特別地區。所有用途和發展均須取得郊野公園及海岸公園管理局總監同意，但無須經城市規劃委員會批准。

規劃意向

此地帶的規劃意向，主要是利用天然地理環境作為市區和近郊的發展區的界限，以抑制市區範圍的擴展，並提供土地作靜態康樂場地。根據一般推定，此地帶不宜進行發展。

備註

在有關發展審批地區草圖的公告在憲報首次刊登該日或以後，如未取得城市規劃委員會根據《城市規劃條例》第 16 條批給的許可，不得進行或繼續進行任何填土／填塘、挖土或河道改道工程，包括為改作上文第一欄和第二欄所列的任何用途，或《註釋》說明頁所載的經常准許的用途或發展(由政府統籌或落實的公共工程，以及保養、修葺或翻建工程除外)而進行或繼續進行者。

	Public Convenience
	Public Utility Installation
	Radar, Telecommunications Electronic
	Microwave Repeater, Television and/or Radio Transmitter Installation
	Rural Committee/Village Office
	Utility Installation for Private Project

Planning Intention

The planning intention of this zone is primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl. There is a general presumption against development within this zone.

In general, only developments that are needed to support the conservation of the existing natural landscape, ecological features or scenic quality of the area or are essential infrastructure projects with overriding public interest may be permitted.

(Please see next page)

GREEN BELT(1) (cont'd)

Remarks

- (a) No redevelopment, including alteration and/or modification, of an existing house shall result in a total redevelopment in excess of the plot ratio, site coverage and height of the house which was in existence on the date of the first publication in the Gazette of the notice of the draft development permission area plan.
- (b) Any diversion of streams, filling of land/pond or excavation of land, including that to effect a change of use to any of those specified in Columns 1 and 2 above or the uses or developments always permitted under the covering Notes (except public works co-ordinated or implemented by Government, and maintenance, repair or rebuilding works), shall not be undertaken or continued on or after the date of the first publication in the Gazette of the notice of the draft development permission area plan without the permission from the Town Planning Board under section 16 of the Town Planning Ordinance.

綠化地帶(1)

第一欄	第二欄
經常准許的用途	須先向城市規劃委員會申請，可能在有附帶條件或無附帶條件下獲准的用途
農業用途	燒烤地點
自然保護區	墓地
自然教育徑	郊野學習／教育／遊客中心
農地住用構築物	政府垃圾收集站
野餐地點	政府用途(未另有列明者)
帳幕營地	度假營
野生動物保護區	屋宇(只限重建)
	公廁設施公用事業設施裝置
	雷達、電訊微波轉發站、電視及／或廣播電台發射塔裝置
	鄉事委員會會所／鄉公所
	私人發展計劃的公用設施裝置

規劃意向

此地帶的規劃意向，主要是利用天然地理環境作為市區和近郊的發展區的界限，以抑制市區範圍的擴展。根據一般推定，此地帶不宜進行發展。

大體而言，有需要進行以助保存區內現有天然景觀、生態特色或風景質素的發展，或者絕對基於公眾利益而必須進行的基礎設施項目，才可能會獲得批准。

備註

- (a) 任何現有屋宇的重建，包括改動及／或修改，不得引致整個重建計劃超過在有關發展審批地區草圖的公告在憲報首次刊登該日已經存在的屋宇的地積比率、上蓋面積及高度。
- (b) 在有關發展審批地區草圖的公告在憲報首次刊登該日或以後，如未取得城市規劃委員會根據《城市規劃條例》第 16 條批給的許可，不得進行或繼續進行任何河道改道、填土／填塘或挖土工程，包括為改作上文第一欄和第二欄所列的任何用途，或《註釋》說明頁所載的經常准許的用途或發展(由政府統籌或落實的公共工程，以及保養、修葺或翻建工程除外)而進行或繼續進行者。

Table 3.4 Proposed Schedule of Use for “R(C)” Zone

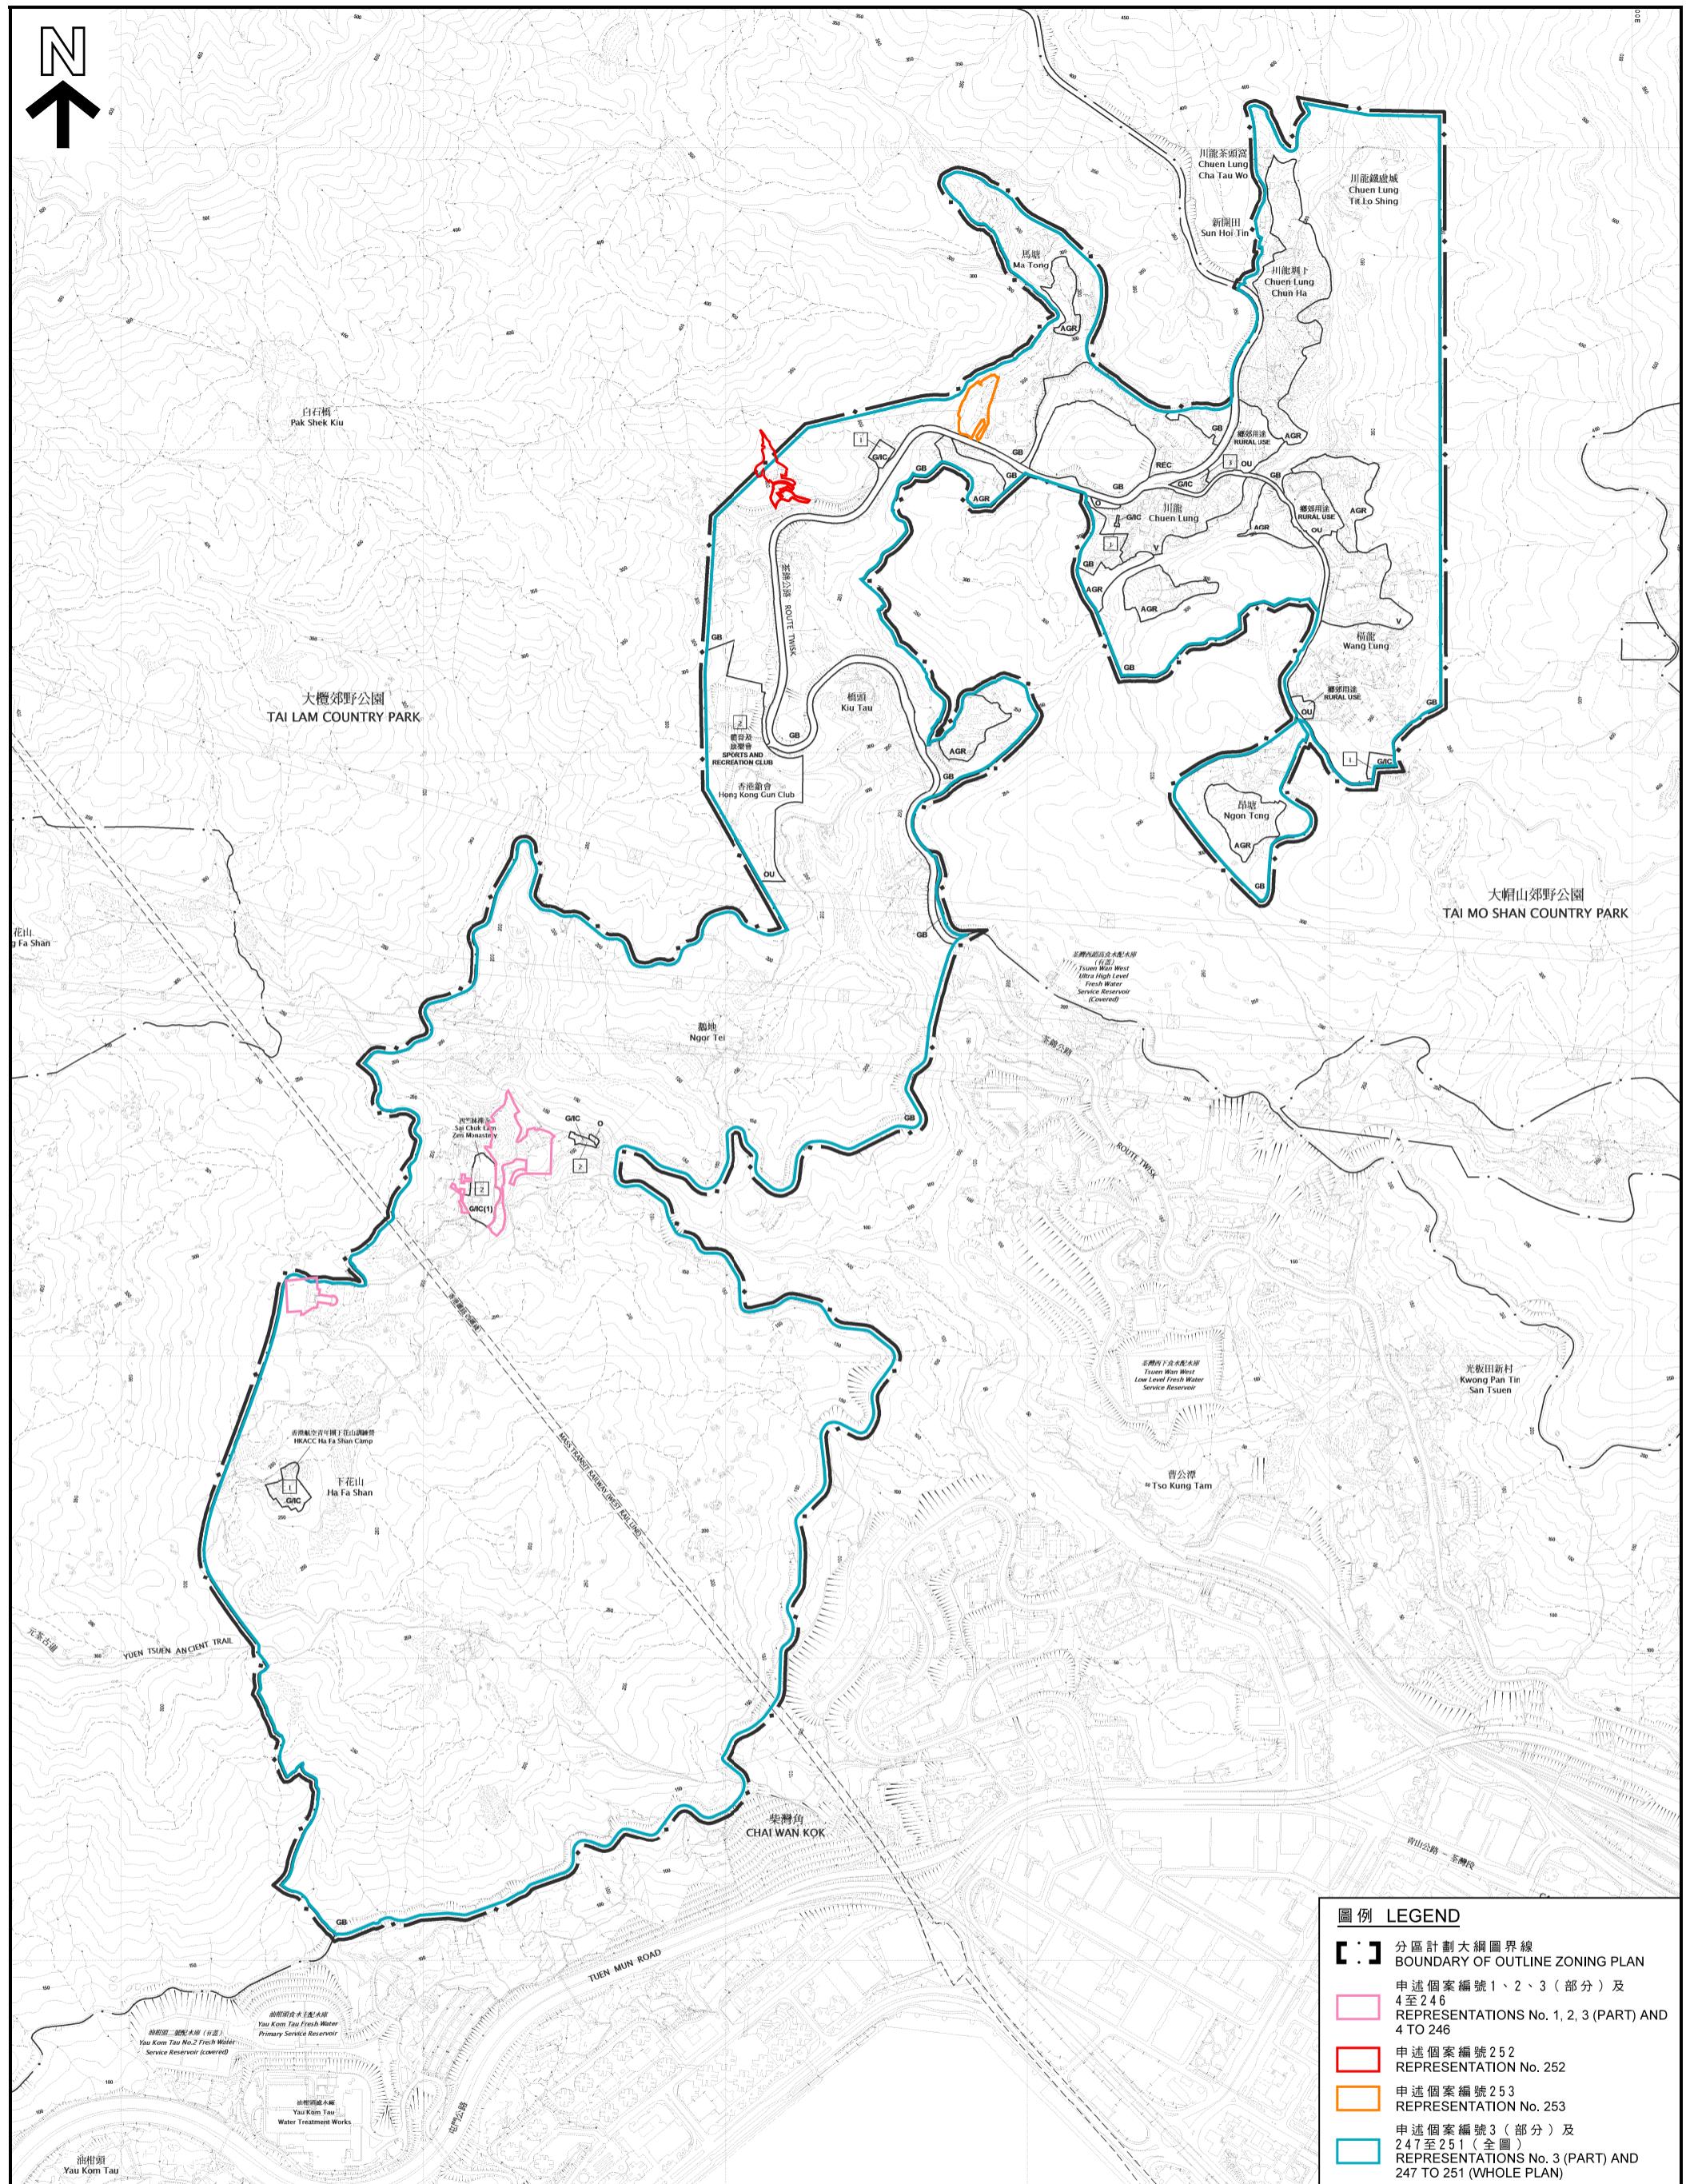

<u>RESIDENTIAL (GROUP C)</u>	
Column 1 Uses always permitted	Column 2 Uses that may be permitted with or without conditions on application to the Town Planning Board
Flat	Government Refuse Collection Point
Government Use (Police Reporting Centre only)	Government Use (not elsewhere specified)
House	Place of Recreation, Sports or Culture
Utility Installation for Private Project	Public Convenience
	Public Utility Installation
	Public Vehicle Park (excluding container vehicle)
	Religious Institution
	Residential Institution
	Rural Committee/Village Office
	School
	Social Welfare Facility

Planning Intention

This zone is intended primarily for low-rise, low-density residential developments where commercial uses serving the residential neighbourhood may be permitted on application to the Town Planning Board.

Remarks

- (a) No new development, or addition, alteration and/or modification to or redevelopment of an existing building shall result in a total development and/or redevelopment in excess of a maximum plot ratio of 0.4, a maximum site coverage of 20% and a maximum building height of 3 storeys (9.625m) of the existing building, whichever is the greater.
- (b) In determining the maximum plot ratio/site coverage for the purposes of paragraph (a) above, any floor space that is constructed or intended for use solely as car park, loading/unloading bay, plant room, caretaker's office, or caretaker's quarters and recreational facilities for the use and benefit of all the owners or occupiers of the domestic building or domestic part of the building, provided such uses and facilities are ancillary and directly related to the development or redevelopment, may be disregarded.
- (c) Based on the individual merits of a development or redevelopment proposal, minor relaxation of the plot ratio/site coverage/building height restrictions stated in paragraph (a) above may be considered by the Town Planning Board on application under section 16 of the Town Planning Ordinance.
