PLAN No. S / T Y / 3 1

**SCHEDULE OF AMENDMENTS TO THE
APPROVED TSING YI OUTLINE ZONING PLAN NO. S/TY/30
MADE BY THE TOWN PLANNING BOARD
UNDER THE TOWN PLANNING ORDINANCE (Chapter 131)**

I. Amendment to Matters shown on the Plan

- Item A – Rezoning of a site to the west of Tsing Yi Road West from “Green Belt” to “Residential (Group A) 5” (“R(A)5”) with stipulation of building height restriction.

II. Amendments to the Notes of the Plan

- (a) Revision to the Notes for the “R(A)” zone to incorporate ‘Public Vehicle Park (excluding container vehicle) (on land designated “R(A)5” only)’ under Column 1, and to correspondingly replace ‘Public Vehicle Park (excluding container vehicle)’ under Column 2 by ‘Public Vehicle Park (excluding container vehicle) (not elsewhere specified)’.
- (b) Revision to the Remarks of the Notes for “R(A)” zone to incorporate new development restrictions for “R(A)5” sub-zone and to specify the uses that may be disregarded when determining the maximum plot ratio in the sub-zone.

**Summary of Representations and Comments and the Planning Department's (PlanD's) Responses
in respect of the Draft Tsing Yi Outline Zoning Plan (OZP) No. S/TY/31**

- (1) The Grounds and Views of 106 Supportive Representations (TPB/R/S/TY/31- R1 to R76, R78, R79, R81 to R88, R2992 to R2995, R3001 to R3005, R3007 to R3010, R3076, R3077, R3079, R4155, R5265, R5273 and R5276) are summarized below:

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
<i>Supportive Representations</i>		
(S1)	The Government should identify more sites for public housing development	<p>The Government has been adopting a multi-pronged land supply strategy as recommended by the Task Force on Land Supply (TFLS) following an extensive public engagement. Whilst the Government will press ahead with the eight land supply options worthy of priority study and implementation as recommended by TFLS, concurrently, the Government still have to continue with the various ongoing land supply initiatives to increase and expedite housing land supply in the short-to-medium term.</p> <p>The Government has all along identified suitable sites for public housing development and conduct the required technical assessments/studies to ascertain the feasibility of development.</p>
(S2)	New public housing development would rejuvenate the Tsing Yi district, which is mainly occupied by large number of elderly population and more flats should be allocated to the younger generation. A great amount of Hong Kong residents have not been allocated public housing units. More single person flats can be allocated to young people while resources can be more evenly distributed.	Noted.
(S3)	Apart from the need for expediting the housing development, the provision of public transport services should be enhanced and stringent traffic enforcement measures should be adopted to ensure smooth flow of traffic.	Responses to item C2 below is relevant.

(S4)	<p>To cater for the increase of population arising from the proposed housing development, the provision of community and ancillary facilities, such as wet market, recreational and commercial facilities should also be enhanced accordingly.</p>	<p>HA will reserve floor area for the proposed public housing development at Tsing Yi Road West for provision of retail and services, e.g. supermarket and convenience store, etc. to meet the needs of future residents. HA will study the scale and types of retail facilities to be provided at detailed design stage, taking into account the shopping and retail facilities in the surroundings and the operation and final viability for the proposed commercial facilities.</p> <p>The Hong Kong Housing Authority (HA) will make reference to the latest version on Chapter 4 Recreation, Open Space & Greening of Hong Kong Planning Standards and Guidelines (HKPSG) and liaise with relevant Government departments including Planning Department (PlanD) for proposing appropriate local open space and recreational facilities for the proposed development.</p>
(S5)	<p>To expedite the construction process for public housing development and increase the flat production in order to reduce the average waiting time for the allocation of public housing unit.</p>	<p>HA has been enhancing its efficiency in planning, design and construction of public housing, with a view to increasing the flat production as early as possible.</p> <p>In addition to the introduction of advanced precast construction technology in recent years, the HA has selected a total of five domestic blocks in Tung Chung, Kwun Tong and Anderson Road Quarry sites for the adoption of the Modular Integrated Construction (MiC) technology. HA will adopt more widely MiC and other innovative construction technology to speed up public housing construction.</p> <p>Besides, the HA will leverage private sector expertise by adopting a new contract procurement model (i.e. “Design and Build” model) to allow contractors to undertake design and construction in a single contract, and improve the standard design and material standards to further improve the efficiency of public housing construction.</p>

- (2) The Grounds and Views of 5,155 Adverse Representations (including signatures and comments relayed by a concern group (Tsing Yi People) are summarized below:

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
<i>Adverse Representations</i>		
<i>A. Development Options for Increasing Housing Supply</i>		
(A1)	<p>The Government should rezone the brownfield sites and idle Government land for development instead of rezoning "GB" sites. The Government should adopt different policies and accord to the principle of developing the brownfield and idle Government sites first to resolve the shortage of housing supply.</p> <p>The proposed amendment is not in line with the recommendations by TFLS relating to land supply strategy and eight land supply options worthy of priority studies and implementation.</p> <p>Alternative sites/locations for public housing development proposed by the representers include the sites at Former Tsing Yi Power Station, 2-4 Tsing Nam Street (ex-Swire Paint), the area between Tsing Ma Bridge Entrance and Viewing Platform, the area near Ting Kau Bridge, the cement plant to the south of Tam Kon Shan interchange and the area to the west of St. Paul's Village, etc. It is also considered that the Kwai Chung Container Terminals could be relocated and released for housing development.</p>	<p>The Government has been adopting a multi-pronged approach to increase land supply progressively based on the eight priority land supply options recommended by TFLS, including developing brownfield sites in the short to medium term and the New Development Areas and reclamation outside Victoria Harbour in the medium to long-term.</p> <p>To expedite housing land supply in the short-to-medium term, various land use reviews including the GB Review as well as that on Government sites that are vacant, under Short Term Tenancies or different short-term or government uses are conducted.</p> <p>Concerted efforts by the Government to identify suitable land for housing development will persist. Should there be any other potential site considered suitable for public housing development, the relevant B/Ds would proceed to review its feasibility and suitability as appropriate with a view to increasing the housing land supply. Notwithstanding this, the Site itself is still suitable for public housing development in terms of site selection criteria, land use compatibility and technical feasibility.</p> <p>Regarding the proposed sites at various parts of Tsing Yi for public housing development, they have been designated for respective specific planning purpose and are generally considered not suitable for residential development in terms of land use compatibility. As for the proposed relocation of container terminals, there is a need for Hong Kong to retain these container terminals for maintaining their current handling capacity.</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
(A2)	Rezoning of the Site is not in line with the planning intention of "Green Belt" ("GB") zone. In particular, the subject "GB" zone serves as a natural barrier of the residential area to the oil depots in the southern and western parts of Tsing Yi. The proposed development will set an undesirable precedent for further urban developments in the "GB" zones in Tsing Yi and other areas of Hong Kong.	<p>The GB Review has been conducted since 2012 in two stages. In the first stage of GB Review, PlanD mainly identified and reviewed areas zoned "GB" that are devegetated, deserted or formed. For the second stage of GB Review, it covered "GB" zones in the fringe of built-up areas close to existing urban areas and new towns, and those vegetated "GB" sites with relatively less buffering effect and lower conservation value. The Site has been identified for development of public housing and associated GIC facilities in the second stage of GB Review. The Site is located at the fringe of the existing built-up areas in Tsing Yi, in close proximity to the clusters of public housing developments, and has a relatively lower conservation value. In general, the Site has met the site selection criteria for the second stage of "GB" Review. As such, it is considered suitable for rezoning from "GB" to "R(A)5" subject to maximum domestic and non-domestic PRs of 6.5 and 0.2 respectively.</p> <p>The findings of EFS have confirmed that the proposed public housing development is technically feasible with no insurmountable technical problems. PlanD's responses to the representers' concerns on various technical impacts of the proposed development, including the aspects on traffic, environment, ecology, landscape, geotechnical engineering, visual quality and air ventilation, as well as the potential risk in association with the oil depots, namely Shell Tsing Yi Installation, to the southwest of the Site are provided under items C, D, E and F below.</p>
(A3)	The Site is covered by dense vegetation with high ecological value. The Site is not fragmented habitat and has close linkages with adjacent habitats. Rezoning of the Site is against the principle/criteria of the GB Review, which should focus on the review of government land and sites with lower gradient and closer to built-up areas.	<p>Ecological value of woodland in the Site is considered as low to moderate. The evaluation of the ecological value of the woodland in question has been based on the following guidance (Table 2 in https://www.epd.gov.hk/eia/english/legis/memorandum/annex8.html). The evaluation as summarised below was also agreed by Agriculture, Fisheries and Conservation Department (AFCD):</p> <ul style="list-style-type: none"> • Woodland in the Assessment Area only support moderate diversity of plant species, and diversity of bird, butterfly and dragonfly were low/very low. • The ecological value of a habitat would be higher if it exists as single patch (i.e., not fragmented). Woodland in the Assessment Area

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		<p>existed as four separate stands.</p> <ul style="list-style-type: none"> • The ecological value of a habitat would be higher if rarer species are found within it. The number of plant species and animal species of conservation importance recorded in woodland in the Assessment Area is not high. • Generally, the ecological value of woodland increase with age. The woodland within the Assessment Area are young. This was shown by the domination of plant species typical of young woodland. Survey results also showed that shade-tolerant tree species indicative of more mature secondary forests in Hong Kong were not abundant. • There is no significant observation of breeding record (i.e., no record of breeding of species of conservation importance) in woodland in the Assessment Area.
B. Development Intensity		
(B1)	<p>The community would require a low-density public housing development rather than a high-density one, which is fully demonstrated by the serve acute respiratory syndrome epidemic.</p> <p>Mount Haven, which is located in a valley and has similar site conditions of the Site, has a much lower PR than the proposed public housing development at the Site. According to the Metroplan and Kowloon Density Study Reviews, Tsuen Wan / Kwai Tsing should adopt a maximum PR of 5.</p>	<p>The proposed development, located in the midst of existing residential area such as Cheung Hang Estate and Cheung Wang Estate, is not incompatible with the surrounding high-density development. The Government has conducted the required technical assessments/studies to demonstrate the technical feasibility of the proposed development with its development intensity.</p> <p>According to Chapter 2 of HKPSG, the maximum domestic PR for new development area within Density Zone R1 for Tsuen Wan, Kwai Chung and Tsing Yi Island is normally 5, which would be raised generally by about 20% (i.e. PR 5 to 6) as appropriate for housing sites (except for the north of Hong Kong Island and Kowloon Peninsula) as announced in the 2014 Policy Address. A further increase of domestic PR of 10% (i.e. PR 6 to 6.5) for public housing sites, where technically feasible, was agreed by the Executive Council in December 2018. Taking into account the finding of EFS, the domestic PR restriction of 6.5 for the Site is in line with the relevant policies. Furthermore, as the existing domestic and non-domestic PRs of surrounding high-density residential developments are up to about 5.6 and about 0.7 respectively, the current maximum domestic and non-domestic PR restrictions of 6.5 and 0.2 respectively for the Site is considered appropriate</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		and not incompatible with the surroundings. As regards Mount Haven, it is zoned "Residential (Group B)" and intended primarily for medium-density residential developments with a maximum total PR of 2.1.
C. Traffic and Transport Considerations		
(C1)	<p>The proposed development will lead to an increase in traffic flow and worsen the traffic condition of the area.</p> <p>To decrease the design population by reducing the domestic plot ratio, the traffic capacity generated from the public housing development can be minimised.</p> <p><u>Concern on specific road sections :</u></p> <p>(i) The proposed development will rely on two major vehicular roads in Tsing Yi, i.e. Ching Hong Road and Tsing Yi Road West, and will overload the capacity of these roads.</p> <p>(ii) The proposed development will overload the capacity of Tsing Tsuen Bridge and Cheung Tsing Bridge/Tsing Yi Bridge.</p>	<p>The Preliminary Traffic and Transport Impact Assessment (PTTIA) for the proposed public housing development at the Site has concluded that there will not be significant adverse traffic impact on the critical road junctions (including Tam Kon Shan Interchange, Tsing Yi Interchange, etc.) and road links (including Tsing Yi Road West, Fung Shue Wo Road, Ching Hong Road, etc.) in the vicinity in the design year of 2037 after occupation of the development. No major road improvement works/mitigation measures will be required. The proposed development is not anticipated to induce insurmountable problem to the traffic network. TD has no adverse comment on the finding of PTTIA. There is no strong justification to reduce the domestic PR in view of the traffic concern.</p> <p>Based on the PTTIA and after taking into account the proposed housing development, the volume to capacity (V/C) ratios for Ching Hong Road and Tsing Yi Road West in year 2037 will be below 1.0. As any road with V/C ratio equal or less than 1.0 will have sufficient capacity to cope with the anticipated traffic volume, there exists no concern about these two roads. The V/C ratios for the concerned roads are shown in table 3.4 of the Interim Report for Rezoning. The relevant report is included as Attachment V of the MPC Paper No. 5/21 for the proposed amendments to the approved OZP.</p> <p>The concerned bridges are not included in the Area of Influence for the preliminary traffic and transport impact assessment (PTTIA), which was proposed with reference to other similar recent housing projects in Tsing Yi and has been agreed with TD.</p> <p>In response to representer's concerns, a preliminary review for the traffic impact on the concerned bridges were conducted. As regards the concerns about Tsing Tsuen Bridge and Tsing Yi Bridge, their V/C ratios in year 2018</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		<p>are below 0.8. With reference to the latest population forecast from Planning Department and taking into account the estimated traffic resulted from the proposed housing development, it is expected V/C ratios for Tsing Tsuen Bridge and Tsing Yi Bridge will still be below 1.0 in year 2037. V/C ratio equal or less than 1.0 means that the road has sufficient capacity to cope with the anticipated traffic volume.</p> <p>Cheung Tsing Bridge is part of the Tsing Kwai Highway, which bypasses the local road network of Tsing Yi. In view that the traffic generated from the proposed housing development are expected to mainly affect the local road network (e.g. Tsing Yi Road West and Ching Hong Road), impacts on Cheung Tsing Bridge are considered negligible.</p>
(C2)	The current waiting time for bus/MTR services in Tsing Yi is considered long. With the further increase of population, there will be insufficient public transport services serving the nearby resident, and passengers at the interim bus stops/MTR stations will not be able to board the bus/MTR.	Under the current transport policy for making use of railway as the backbone of the public transport system, MTR Tsing Yi Station has been designated as a major transport hub to enable the railway to perform as the trunk carrier. TD will closely monitor the progress of the public housing development and introduce/strengthen the public transport services as appropriate in a timely manner so as to meet the commuting demand from the new population intake. A PTI has been proposed at the development to facilitate such services. Residents in the vicinity will also benefit from the enhanced public transport services. TD has been closely monitoring the traffic condition of the road network in the vicinity of Tsing Yi Station and would take appropriate actions to alleviate the congested traffic condition.
(C3)	<p>A number of residential developments have been completed in Tsing Yi including Ching Fu Court, the Grand Marine and the Met. Azure (Plans H-1 and H-5) which will provide a total of 4,000 flats. The Traffic and Transport Impact Assessment (TTIA) has not taken into account the overall future developments in Tsing Yi.</p> <p>Besides, the findings of the TTIA has indicated that the usage of Tsing Yi Road West and Ching Hong Road will be about 70% to 80% and hence considered satisfactory, which</p>	<p>The PTTIA has considered the latest developments within the area of influence, including Ching Fu Court, Grand Marine and The Met Azure.</p> <p>The TIA previously conducted for Ching Fu Court in 2015 covered different road networks as compared with that in the subject PTTIA. The former did not cover Tsing Yi Road West and the critical section of Ching Hong Road</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
	<p>is different from the findings of the TIA conducted in 2016 conducted for the plan amendment for the public housing development at Tsing Hung Road site (currently known as Ching Fu Court).</p> <p>The PTTIA was based on the assumption that right turn exit from the proposed development is not allowed. It is considered more reasonable to allow a right-turn exit from the development.</p>	<p>(section near Tsing Yi Road West). Moreover, the TIA for Ching Fu Court was carried out based on the originally estimated flat number of about 4,000 flats, which is higher than the actual flat number of about 2,900 flats for the completed development as adopted in the PTTIA. As such, the findings of the two assessments cannot be compared directly.</p> <p>Table 3.4 of the Interim Report for Rezoning (attached to MPC Paper No. 5/21) regarding the road link performance has demonstrated that all assessed road links, including Tsing Yi Road West and Ching Hong Road will still have spare capacities after taking into account the proposed development.</p> <p>The PTTIA was based on the assumption that right-turn exit from the proposed housing development is not allowed. This assumed access arrangement was proposed taking into account junction performance, land requirement, and cost effectiveness. Further investigation of alternative access arrangements, such as allowing right turn exit from the proposed housing development, will be carried out under future stages of the project.</p>
(C4)	The construction of sewerage pipes beneath Ching Hong Road will affect the traffic condition of Ching Hong Road and near Rambler Crest.	In order to cater for the sewage generated from the proposed public housing development, a gravity pipe is proposed along Tsing Yi Road West and Ching Hong Road. Based on preliminary assessment under EFS, the construction of sewerage pipe beneath Ching Hong Road will not lead to exceedance of traffic capacity of the road. The contractor will implement suitable temporary traffic management measures on site as approved by relevant government departments during the construction in order to minimize the traffic impact arising from the proposed sewerage works, e.g. adopt trenchless construction method at critical locations to avoid adverse traffic impacts to local road network.
<i>D. Environmental, Ecological and Landscape Aspects</i>		
(D1)	The proposed development including the diversion of the existing natural stream will lead to an irreversible loss of the natural stream (i.e. 寮肚坑) and the primary/secondary forest of the valley at the Site, which is the largest in Tsing Yi with abundant water supply and high ecological	Based on the preliminary Landscape and Visual Impact Assessment in the Engineering Feasibility Study (EFS) prepared by Civil Engineering and Development Department (CEDD), most trees within the site are common tree species with no Old and Valuable Trees. Four immature <i>Aquilaria sinensis</i> (土沉香), identified within the site will be transplanted. Details of

Grounds and Views of Representations	PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
<p>significance. The proposed diverted stream is merely an engineered, channelized watercourse. It will also lead to a loss of 1,264 trees and directly impact on important plant species regulated by relevant Ordinances (e.g. <i>Aquilaria sinensis</i> (土沉香), <i>Cibotium barometz</i> (金狗毛蕨) and species of ecological significance (e.g. <i>Cryptopotamon anacoluthon</i> (鰓刺溪蟹) and <i>Nanhaipotamon hongkongense</i> (香港南海溪蟹)).</p> <p>While it is estimated that 1,264 trees would be removed and transplanted for the proposed development, this estimation did not include some young trees with less than 95 mm in diameter at breast height and they would not be reflected in the EFS.</p>	<p>the compensatory planting proposal, including off-site planting, will be explored at the detailed design stage in accordance with Development Bureau (DEVB) Technical Circular (Works) No. 4/2020 and the latest Guidelines on Tree Preservation by the Greening, Landscape and Tree Management Section of DEVB.</p> <p>In accordance with DEVB Technical Circular (Works) No. 4/2020, a plant is considered as a “tree” if its trunk diameter measures 95mm or more at a height of 1.3m above the ground level. For the plant with less than 95mm in diameter at breast height, they are not classified as “tree”. Hence, they are not included in the tree survey record and the preliminary tree treatment proposal. The 1,264 trees proposed to be removed has covered all affected trees within the proposed works area, i.e. include the works area required for the proposed diverted stream and hiking trail.</p> <p>With a view to mitigating the impact on the existing watercourse arising from the proposed housing development, a new section of watercourse located to the west of the Site has been proposed to substitute the affected section to maintain the south to north flow. Ecological elements (e.g., rock pools, riffles, structures maintaining ecological connectivity) will be included in the new section of watercourse to provide the ecological function as habitats of aquatic fauna.</p> <p>Woodland has been found in the ecological survey. Ecological value of woodland in the Site is considered as low to moderate. Potential impact of loss of woodland is ranked as minor to moderate due to the low to moderate ecological value of affected woodland, low diversity and low abundance of fauna supported. The potential impact will be mitigated by the following measures:</p> <ul style="list-style-type: none"> Plant species of conservation importance directly affected will be transplanted to minimize the ecological impact. When required,

Grounds and Views of Representations	PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
	<p>further tree and vegetation survey and more detailed planting proposal will be drawn up under future stages of the project.</p> <ul style="list-style-type: none"> • Compensation planting will be proposed to mitigate impacts due to loss of vegetation. There will be 87 number compensatory planting trees near the proposed housing development. In order to increase the ecological function of compensatory planting, the planting list will comprise (1) native species which occur in nearby woodland habitats; (2) both native tree and shrub species with variable maximum heights to shape forest complexity and structure, as well as the canopy and understorey; (3) native bird-attracting and butterfly-attracting shrubs and tree species; (4) butterfly larval plant species. Besides, there will be approximately 215-255 nos. of new trees planted within the boundary of the proposed housing development. • Capture-and-translocation of aquatic fauna of conservation importance – Translocation of <i>Nanhaipotamon hongkongens</i> & <i>Cryptopotamon anacoluthon</i>, would be implemented to minimize the potential impact due to watercourse diversion.
(D2)	<p>The Environmental Review Report has not provide detailed information on the ecological baseline and has underestimated the ecological value of the Site. There is a lack of information regarding the amphibian, reptile and bird species identified within the Site, including , <i>Crested goshawk</i> (<i>Accipiter trivirgatus</i>) (鳳頭鷹), <i>Common emerald dove</i> (<i>Chalcophaps indica</i>) (綠翅金鳩) and <i>Common Kingfisher</i> (<i>Alcedo atthiswere</i>) (白胸翡翠), as well as 13 snake species (including <i>Cobras</i> (眼鏡蛇) and <i>Python bivittatus</i> (蟒蛇)).</p> <p>The Preliminary Environmental Assessment (PEA) commenced with the review of literature relevant to the Site, which was followed by ecological survey conducted between May and October 2019, covering six months in wet season for collecting detailed information on the ecological baseline, evaluation of ecological resource and impact assessment. The study has not identified the concerned species in the ecological survey, which was in line with the findings of the literature review.</p> <p>Tree and vegetation survey has been carried out in September 2019 and October 2020. Four number of rare tree species, <i>Aquilaria sinensis</i>, with diameter at breast height from 60mm to 110mm, has been identified. Transplantation of these individual trees was recommended. When required, further tree and vegetation survey and more detailed planting proposal will be drawn up under future stages of the project.</p>

Grounds and Views of Representations	PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
<p>Based on a representer's inspection in July 2021, over half of the Site is currently well-vegetated with secondary woodland and found with both natural and semi-natural sections of stream. According to a representer's bird records, woodland dependent bird species including <i>Black-naped Monarch</i> (<i>Hypothymis azurea</i>) and globally vulnerable <i>Common Emerald Dove</i> (<i>Chalcophaps indica</i>) were recorded. Wetland dependent bird species <i>Little Egret</i> (<i>Egretta garzetta</i>) of "Potential Regional Concern" and</p>	<p>Besides, the mentioned bird and snake species are mobile and mortality due to site formation is not expected with implementation of good site practice. Existing woodland surrounding the Site can also provide alternative habitats for these bird and snake species.</p> <p>AFCD advises that according to the PEA under EFS, the ecological surveys have already included habitat mapping, vegetation, mammals, birds, herpetofauna, butterflies and dragonflies and freshwater communities with a coverage of 6 months in wet season. <i>Cibotium barometz</i> is common and widely distributed in Hong Kong, and the animals named in the representations are mobile and widely distributed in Hong Kong. The existing woodland surrounding the Site would also provide alternative habitats for these bird and snake species. AFCD has no adverse comment on the PEA.</p> <p>The ecological value of the species mentioned by the representer were evaluated based on Table 3 of Annex 8 of the Environmental Impact Assessment Ordinance Technical Memorandum. The three raptor species are common and widely distributed in Hong Kong. All are Class 2 Protected Species of China.</p> <p>Raptors generally have large home ranges. The Site is located adjacent to existing highway and residential areas, would only account for a small part of their home ranges. Hence, loss of the habitats within the Site is not expected to cause severe impact to these species.</p> <p>Regarding the concern that Site is the breeding habitat for <i>Crested Goshawk</i>, it is noted that observation of nest for this specie was not identified in the ecological surveys, and there is no record indicating regular appearance of <i>Crested Goshawk</i> within/near the Site. Hence, it is considered that the Site would not be an important breeding habitat for this species.</p> <p>As part of the assessment, various publications of Hong Kong Bird Watching Society have been reviewed, including Winter Atlas 2001-2005, HK Bird Report (2005 – 2017), and HK Bird Atlas 2016-2019. These publications</p>

Grounds and Views of Representations	PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
<p>Common <i>Kingfisher</i> (<i>Alcedo atthiswere</i>) were also recorded at the Site.</p> <p>The Class II protected species in Mainland recorded within the Site include <i>Besra</i> (<i>Accipiter virgatus</i>), Crested Goshawk (<i>Accipiter trivirgatus</i>) and Crested Serpent Eagle (<i>Spilornis cheela</i>). A group of Crested Goshawks, including two adults and a juvenile that was dependent on its parents, were spotted during the summer in 2020. The Site and its connected woodlands are considered as the potential breeding ground for this raptor species. The Raptors are top predators in the food chain, their presence also reflects the terrestrial and river ecosystems in the area in healthy condition, and should be well-protected from pollution and habitat destruction.</p>	<p>have provided sighting record/survey of distribution for bird species in Hong Kong over a long time span, i.e. around 19 years.</p> <p>For the three raptor species, <i>Crested Goshawk</i> and <i>Crested Serpent</i> were not reported in Tsing Yi in the above publications, and <i>Besra</i> was only reported twice in Tsing Yi from 2001 to 2019.</p> <p>In the above publications, <i>Common Emerald Dove</i> was only rarely reported in Tsing Yi. <i>Black-naped Monarch</i> was not reported in Tsing Yi in these publications. For <i>Little Egret</i> and <i>Common Kingfisher</i>, they were observed in Tsing Yi, but mainly recorded in the coastal areas, i.e. away from the Site. The above information, which covered a long time span, indicated that occurrence of these four species within the Site was very low. Therefore, The assessment considered that these species do not have high dependence on woodland/stream within the Site.</p> <p>In addition, alternative habitats of these species are available in Tsing Yi and other parts of Hong Kong.</p>
<p>(D3) 香港瘰螈, a protect species under Wild Animal Protection Ordinance, was suspected to be identified by the representer along Tsing Yi Nature Trails, which is 100m away from the proposed development. Hence, an Ecological Impact Assessment should be conducted for published for public inspection.</p>	<p>An ecological study has been carried out for the development. The Assessment Area covered the proposed development site and the area within 100m from its boundary. The study commenced with the review of literature relevant to the site, which was followed by ecological site survey between May and October 2019, covering six months in wet season to collect detailed information on the ecological baseline, evaluation of ecological resource and impact assessment in accordance with government guidelines. The literature review did not uncover any report on finding Hong Kong Newt in the Assessment Area and Hong Kong Newt (also known as <i>Paramesotriton hongkongensis</i> 香港瘰螈) was not found under our ecological site survey. Since Hong Kong Newt is considered of conservation importance, translocation will be considered if it is identified in future ecological site survey.</p> <p>As advised by AFCD, <i>Paramesotriton hongkongensis</i> (香港瘰螈) is widely distributed in mountain streams throughout New Territories, Lantau Island</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		<p>and Hong Kong Island.</p> <p>The findings of the preliminary ecological study are shown in section 8.6 of the Interim Report for Rezoning (Attachment V of MPC Paper No. 5/21) for the proposed amendments to the approved OZP</p>
(D4)	<p>The proposed development will affect the Tsing Yi Nature Trails which will the damage to the ecology is irreversible and will be detrimental to the wellbeing of local residents as they would not be able to enjoy the natural environment offered by the existing trails.</p> <p>The Tsing Yi Nature Trails and greenery area have high conservation value.</p>	<p>The Tsing Yi Nature Trails are not considered a “Recognized Sites of Conservation Importance” in accordance with Technical Memorandum on Environmental Impact Assessment Process (EIAO TM) – Annex 16 – Appendix A – Note 1 (see https://www.epd.gov.hk/eia/english/legis/memorandum/annex16.html).</p> <p>Review of relevant literature showed that there was no “Recognized Sites of Conservation Importance” in the proposed development site or the rest of the 100m Assessment Area. Moreover, according to our ecological study based on Annex 8 of EIAO TM, the ecological value of the nature trail is classified as “low to moderate”.</p> <p>The ecological value of woodland in the Site is classified as “low to moderate”. For details, please refer to the response for Representations Item A(3).</p> <p>Only a section of Tsing Yi Nature Trails of about 250m affected by the proposed development will be diverted (Plans H-2 to H-3). The permanent access to Liu To Village via Tsing Sum Street and Tsing Yi Road West will be maintained. A new section of trail connecting to the existing stretches of Tsing Yi Nature Trails will be provided to west of the Site with connection to the footpath along Tsing Yi Road West (Drawing H-4). AFCD has no adverse comment on this new section of the nature trail from nature conservation perspective.</p>
E. Visual and Air Ventilation Aspects		
(E1)	<p><i>Visual Aspect</i></p> <p>The proposed building height of 220mPD will be taller than the ridgeline of the adjacent hillside, which will create</p>	<p>While the Site is situated at a higher location of the hilly terrain of Tsing Yi Island with the future ground floor level of about 60mPD, the proposed</p>

Grounds and Views of Representations	PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
<p>adverse visual impact, daylight impact and “wall effect” particularly to Liu To Village and Mount Haven which are located at site levels lower than the proposed development. To visual impact can be reduced by decreasing the number of storey of the proposed public housing development from 50-storey to 10/25-storey.</p> <p><i>Air Ventilation Aspect</i></p> <p>There would be adverse air ventilation impacts arising from the proposed development. The air ventilation brought by the wind-blown from the southwest in the summer will be adversely affected as the proposed public housing development is at a lower elevation and near Mount Haven, which is surrounded by higher land.</p>	<p>public housing development subject to a maximum BHR of 220mPD or with an absolute BH of about 160m would unavoidably result in changes in the visual character of the site and loss of visual permeability and openness to the selected viewpoints (Drawings H-2a to H-2l). According to the Preliminary Landscape and Visual Impact Assessment (PLVIA), the visual impacts for the selected viewpoints will range from “slightly to moderately adverse” to “significantly adverse”. Notwithstanding this, the proposed development can be generally perceived as an extension of the surrounding high-rise residential clusters. Mitigation measures are also proposed to alleviate the potential visual impact, including the provision of amenity planting/landscape treatment, building separation of not less than 15m wide between the building blocks, as well as adoption of sensible building design with use of finishing materials/colour/façade which is compatible with the surrounding public housing developments.</p> <p>Separation of building mass has been considered so that visual penetration of approximately 120m between the building edge of Mount Haven / 56m of Liu To Village with the proposed housing development (building edge) would be preserved and maximized.</p> <p>According to the Air Ventilation Assessment (AVA) in the form of Expert Evaluation in EFS, disposition of building blocks away from the western boundary of the Site is provided to facilitate the summer prevailing winds penetration from the southwest directions winds (i.e. S and SSW winds) through the Site and reach its downstream area at areas near Mount Haven. Hence, it will inevitably block a portion of the incoming winds and create a wake area/potential affected area at its downstream as compared to the existing condition. To mitigate the potential air ventilation impact induced, the proposed public housing development has incorporated mitigation measures, including the provision of building separation of not less than 15m wide, building setback of 10m from Tsing Yi Road West and 30m from the northern boundary, and a podium garden of 4m high. (Drawing H-3).</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		HD advises that the proposed public housing development is at the preliminary design stage. Upon further review at the detailed design stage, HD will carry out environmental studies in accordance with relevant guidelines, including but not limited to study on daylight impacts of the proposed public housing developments to the surrounding areas such as Liu To Village and Mount Haven.
(E2)	The photomontage (VP6 of Attachment VII of Metro Planning Conference Paper No. 5/21) is biased as the proposed public housing development purposely shown far away from Mount Haven.	Upon receipt of the representation, CEDD has carried out a further review of the photomontage at View Point 6 (VP6) and confirmed that the photomontage at VP6 correctly depicts the location of the proposed housing development.
F. Other Aspects		
(F1)	While the Site falls within the 1,000m buffer zone of the oil depot to the southwest, the Government has neither submitted any risk assessment/strong justifications to support the rezoning of the site, nor proposed any mitigation measures. Rezoning of the Site for residential development will affect the safety of the public.	<p>In the Tsing Yi Island Risk Assessment Report prepared in 1989, it was recommended that the Potential Hazardous Installations Consultation Zone should be 1,000m. Within the Consultation Zone, a Quantitative Risk Assessment (QRA) has to be carried out to ascertain the risk level in accordance with Hong Kong Planning Standards and Guidelines (HKPSG).</p> <p>According to the findings Hazard Assessment under EFS, the proposed public housing development is technically feasible on hazard aspect. The southern part of the Site falls within the 1000m Consultation Zone of a PHI (i.e. Shell Tsing Yi Installation) located to the further southwest of the Site (Plan H-5). The Hazard Assessment has assessed the impact to the risk level induced by the increase of population arising from the proposed development. It concludes that the individual risk criteria complies with the Risk Guidelines as outlined in HKPSG whereas the societal risks is within the level of "As Low As Reasonably Practicable". Environmental Protection Department (EPD) advises that the Hazard Assessment is in accordance with the prevailing risk management policy and the potential risks have been assessed to be in compliance with the Risk Guidelines. Other relevant Government departments including the Electrical and Mechanical Services Department, the Fire Services Department, etc. have no in-principle objection to the findings of the Hazard Assessment.</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		<p>This QRA has been duly carried out and the government departments represented under the Coordinating Committee on Land-use Planning and Control relating to Potential Hazardous Installations (CCPHI) have been consulted. Concerned government departments have finally accepted assessment results submitted to CCPHI. CCPHI has endorsed the assessment on 20 October 2021.</p>
(F2)	<p>The felling of a large number of trees will damage the greenery and weaken/adversely impact on the safety/stability of slopes.</p>	<p>The Preliminary Geotechnical Assessment under the EFS which has been carried out to ensure the stability of the affected slopes, no insurmountable issue with respect to geotechnical engineering is anticipated for the proposed public housing development. Geotechnical Engineering Office (GEO) of CEDD noted that detailed site investigation and natural terrain hazard study will be conducted to formulate details of the necessary terrain mitigation works for the proposed development and has no adverse geotechnical comment in this regard.</p> <p>Appropriate on-site compensatory tree plantings have been proposed to mitigate the greenery loss of trees as far as practicable. 87 nos. of compensatory trees are proposed for planting outside rezoning boundary while 215-255 nos. of new trees will be provided within the rezoning boundary.</p> <p>CEDD has explored some potential compensatory tree areas for off-site planting under the development project. These planting areas are mainly located along road site within Tsing Yi Island. CEDD has been liaising with the Leisure Cultural Services Department in regard to the compensatory tree planting proposal which will be developed at detailed design stage to improve the overall landscape quality of the environment.</p>
(F3)	<p>There will be air and noise impact during the construction period.</p>	<p>The construction works of the proposed public housing development will be carried out in accordance with relevant statutory requirements for air pollution control and noise control. Proper mitigation measures will be carried out in accordance with relevant regulations and guidelines to minimise the air and noise impacts, including regular watering over the exposed area for air impact, use of temporary noise barriers/enclosures for</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		<p>noise impact and etc.</p> <p>Earth filling works may induce impacts on air quality for nearby air sensitive receivers during construction period. With the implementation of appropriate mitigation measures, such as regular watering over all the exposed area and covered of dusty materials/spoils with tarpaulin or similar material, the air quality impact during construction can be reduced significantly.</p> <p>Trench excavation of sewerage pipes and the piling works for retaining structures may induce impacts on noise for nearby noise sensitive receivers during construction period. The implementation of appropriate mitigation measures, especially the use of Quality Powered Mechanical Equipment and the use of temporary noise barriers/enclosures, will reduce the construction noise impact considerably.</p> <p>Detailed mitigation measures will be further reviewed in the design and construction stages, to ensure that the impacts on air quality and noise during construction will be kept to the minimum.</p>
(F4)	<p>The Site is located at a valley and long construction period will be anticipated. Development at the Site is difficult and will not be cost-effective with regard to the construction cost and time required.</p>	<p>In view of the site topography, longer time for site formation works for the public housing development is required. CEDD and HD will closely coordinate on the extent and levels of the site formation works to rationalize the overall construction cost and time.</p> <p>The feasibility study has been based on the given prevailing conditions of the selected site. To explore the engineering feasibility of developing the site for public housing under the circumstances, efforts have been made to formulate different options, including structural platform, and site formation through moving earth. With due consideration of the comments, views, and requirements of relevant departments, in particular the user department of the site, on the premise of balancing the constraints and requirements to achieve an feasible scheme, a combination of structural platform and site formation through moving earth has been adopted under the study for rezoning purpose. Further review for refinement of the proposed scheme will</p>

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
		be carried out in design stage.
<i>G. Provision of Government, Institution and Community (GIC), Open Space, Retail Facilities and Supporting Facilities</i>		
(G1)	<p>There is an insufficient provision of carparking / retail / GIC /social welfare / market / educational / healthcare (including hospital beds, clinic and night-time consultation) facilities etc. in the district.</p> <p>There is also lack of large open space, recreational, sports facilities and library in the vicinity of the Site to serve the neighbourhood. It is inconvenient for residents to take public transport to other areas in Tsing Yi to make use of these facilities, especially for the elderly.</p> <p>The facilities which are usually provided within the public housing development (such as kindergarten, retail and social welfare facilities) are not useful to the residents nearby. In fact, such facilities are already provided in Cheung Hang Estate and Cheung Fat Estate.</p>	<p>The proposed public housing development will provide retail facilities and a 8-classroom kindergarten, and has reserved another GFA equivalent to not less than 5% of the domestic GFA for the provision of social welfare facilities including those for elderly, child and rehabilitation.</p> <p>Based on HKPSG, the existing and planned provision of GIC facilities and open space are generally adequate to meet the demand of the overall planned population in the Tsing Yi Planning Area (including the amendment items), except residential care homes for the elderly, community care services facilities and child care centres (Annex VIII). In applying the standards, the distribution of facilities, supply in different districts, service demand as a result of the population growth and demographic changes as well as the provision of different welfare facilities will be considered. As the HKPSG requirements for these facilities are a long-term goal, the actual provision would be subject to consideration of the Social Welfare Department (SWD) in the planning and development process as appropriate.</p> <p>Regarding specific GIC provisions, responses for retail facilities and other supporting facilities are as summarized as follows:</p> <p><u>Market</u></p> <p>Regarding the provision of market by FEHD, it is considered not necessary as there is an existing market of HD at Cheung Hong Estate Market situated in the vicinity of the proposed site.</p> <p><u>Healthcare Facilities</u></p> <p>Regarding the provision of hospital beds, the Hospital Authority plans its services on a cluster basis. In planning and developing various public healthcare services, Hospital Authority has taken into account a number of factors, including the increase of service demand as a result of population</p>

Grounds and Views of Representations	PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
	<p>growth and demographic changes, advancement of medical technology, manpower availability as well as the organisation of services of the clusters and hospitals. Hospital Authority monitors the service utilisation and updates the service demand projection regularly according to the latest population projection parameters and development plan of the Government, to inform the service planning.</p> <p>The Kowloon West Cluster (KWC) provides services for residents in Kwai Tsing, Sham Shui Po, Tsuen Wan and Lantau Island. There are a number of hospital redevelopment projects planned in the First and Second Ten-year Hospital Development Plans (HDPs), which will provide additional beds for serving the population in KWC. The projected service demand will be catered for in the First and Second Ten-year HDPs.</p> <p>Regarding the provision of clinics and night time consultation, the Hospital Authority is committed to providing community-based primary health care services. General Out-patient Clinic (GOPC)'s service users are mainly the elderly, low-income individuals, and patients with chronic diseases. Patients under the care of GOPCs can be broadly divided into two main categories, namely chronic disease patients with stable conditions (e.g. diabetes mellitus, hypertension) and episodic disease patients with relatively mild symptoms (e.g. influenza, colds, gastroenteritis).</p> <p>Currently, there are six GOPCs in Kwai Tsing District, namely:</p> <ul style="list-style-type: none"> (a) Ha Kwai Chung General Out-patient Clinic (77 Lai Cho Road, Kwai Chung) (b) Mrs Wu York Yu General Out-patient Clinic (310 Wo Yi Hop Road, Lei Muk Shue, Kwai Chung) (c) North Kwai Chung General Out-patient Clinic (125 Tai Pak Tin Street, Kwai Chung) (d) South Kwai Chung Jockey Club General Out-patient Clinic (310 Kwai Shing Circuit, Kwai Chung) (e) Tsing Yi Cheung Hong General Out-patient Clinic (3/F, Tsing Yi Cheung Hong Estate Commercial Complex, Cheung Hong Estate, Tsing

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
	<p>To include wet market, bus terminus and shops in the proposed development. Also to increase the non-domestic plot ratio to allow the construction of more retail facilities.</p> <p>To provide a monthly rental car parking in the commercial portion of the public housing for the use of nearby residents</p>	<p>Yi) (f) Tsing Yi Town General Out-patient Clinic (21 Tsing Luk Street, Tsing Yi)</p> <p>Evening services are provided in Tsing Yi Cheung Hong GOPC and North Kwai Chung GOPC every Wednesday and Thursday.</p> <p><u>Retail Facilities</u></p> <p>For the retail facilities, HA will reserve floor area for the proposed public housing development at Tsing Yi Road West for provision of retail and services, e.g. supermarket and convenience store, etc. to meet the needs of future residents. HA will study the scale and types of retail facilities to be provided at detailed design stage, taking into account the shopping and retail facilities in the surroundings and the operation and final viability for the proposed commercial facilities.</p> <p><u>Car Parking</u></p> <p>HA will make reference to the latest version on Chapter 8 Internal Transport Facilities of HKPSG issued in August 2021 and liaise with relevant Government departments including TD for proposing appropriate ancillary car parking and loading/unloading facilities for the proposed development. After the completion of the development, HA will monitor the utilisation of the ancillary parking spaces and assess whether any vacant spaces could be let to the public subject to compliance to relevant ordinance and departmental comments including TD.</p>
H. Public Consultation		
(1)	There is a lack of public consultation and public comments have been ignored. There is a lack of detailed information and technical assessment in the study reports. Notwithstanding that the K&TDC has passed a motion that the proposed development should be suspended unless detailed information has been provided for further	The statutory procedures in consulting the public for plan-making have been duly followed. The draft OZP incorporating the proposed amendments in relation to the Site were published for two months pursuant to section 5 of the Ordinance. Representations and comments regarding the amendments have been received during the respective statutory publication periods. All the valid representations and comments will be considered by the Board at

Grounds and Views of Representations		PlanD's Responses in Consultation with Government Bureaux/Departments Concerned
	consultation, the Government has ignored the request raised in the motion subsequently submitted the OZP amendments to the Town Planning Board for consideration.	<p>this meeting and persons who made the representations and comments have been invited to attend the meeting to present their views to the Board.</p> <p>K&TDC was consulted on the proposed amendments to the OZP jointly by PlanD, HD and CEDD. DEVB also provided written reply to the DC in response to DC members' views and comments and the motion passed by the DC. The views and comments received and DEVB's reply were duly relayed to MPC upon submission of the proposed amendments to the OZP. The findings of the EFS for the proposed public housing development at the Site was attached to MPC Paper No. 5/21, which is available at the Board's website.</p>
(2)	The Government has intentionally hidden the fact that the works area may exceed the Site, and that Liu To Village located outside the Site will need to be resumed.	Some of the works, such as diverted watercourse and new hiking trails, to be constructed to enable the development of the site for housing will be just located outside the western housing development boundary. These works will be within government land. A squatter lying to the south of Liu To Village may be affected by some of these works. Alternative arrangements will be explored to ascertain the possibility of avoiding its clearance during the next stage of the project.

- (4) The 1,627 valid comments (TPB/R/S/TY/31-C1 to C1627) on representations were submitted by some of the representers themselves and by other individuals:

	Major Grounds of Comments on the Representations	Bureaux/Departments Concerned
A	Development Options for Increasing Housing Supply	
A1	Sites that are close to supporting infrastructure facilities such as transport, water supply and sewerage have good potential to be rezoned for housing purposes. The Government should consider alternatives on land supply, including the use of brownfield and idle lands.	Responses to items A1 above is relevant.
A2	The site is not in line with the Government's "Green Belt" rezoning principle while the existing site acts as a buffer to oil depots.	Responses to item A2 above are relevant.
A3	The Site is covered by dense vegetation with high ecological value. Rezoning of the Site is against the principle/criteria of the GB Review.	Responses to item A3 above are relevant.
B	Development Intensity	
B1	The PR of the proposed public housing development at the Site is too high.	Responses to items B1 above is relevant.
C	Traffic and Transport Considerations	
C1	The proposed public housing development will increase in traffic flow and worsen the traffic condition of the area	Responses to item C1 above are relevant.
C2	There is already a lack of public transport provision in Tsing Yi. The	Responses to item C2 above is relevant.

	traffic condition will deteriorate with the population intake resulted from the proposed public housing development.	
C3	<p>The assessment has assumed traffic leaving the proposed development is only permitted to turn left onto Tsing Yi Road West northbound. Since Tsing Yi Road West is a four lane road with no central divider, the proposed development cannot prevent vehicles from turning right to Tsing Yi Road West southbound and the proposed 30m right-turn pocket to the development along the busy four lane road would create concern on road safety.</p> <p>There are missing/incomplete information in the PTTIA, including whether the Base District Traffic Model (BDTM) was used to calibrate the 2037 traffic flows, details and locations of the assumed major planned/committed developments, the 2037 flows and assumed capacities, and the operation performance of the proposed priority junction of Tsing Yi Road / Site Access.</p> <p>The study does not demonstrate that the additional passenger demand generated by the proposed development would not oversaturate the existing public transport services, nor new public transport services will be provided.</p>	<p>To prevent the vehicles from turning right to Tsing Yi Road West southbound, suitable road markings and traffic signs according to the requirements of the Transport Planning and Design Manual (TPDM) and other relevant standards will be provided at the access road of the development to guide the road users.</p> <p>The proposed right turn pocket of about 35m length is considered to have sufficient queuing space to cater for the demand. The current proposed road layout also ensures that there is sufficient visibility distance as required by the TPDM for vehicles from right-turn pocket turning into the service road at the development. This road layout will be further reviewed under future stages of the project.</p> <p>The traffic modelling in PTTIA involves the development of a Local Area Traffic Model based on TD's 2015-based BDTM, updated using traffic counts obtained from traffic surveys for this project and the planning dataset (2016-based TPEDM) for selected Planning Data Zones received under this Study. The traffic model and its calibration as well as methodology adopted for the PTTIA has been agreed with Transport Department. The major planned/committed developments to be included in the assessment have been agreed by concerned government departments which include The Met. Azure, Grand Marine, Ching Hong Road North Public Housing and Ching Fu Court. The calculation of the Volume-to-Capacity (V/C) ratios has followed the requirements of TPDM and agreed with Transport Department. Preliminary assessment for the access of the proposed development has been carried out and its operation performance is considered acceptable.</p> <p>TD will closely monitor the progress of the public housing development and introduce/strengthen the public transport services as appropriate in a timely manner so as to meet the commuting demand from the new population intake.</p> <p>A new PTI within the Site has been proposed. The detailed design of the</p>

	<p>The existing footpath along the southbound side of Tsing Yi Road West, and along both sides of Ching Hong Road are just 2 to 2.5m wide. Given the width of these narrow footpath, the study does not determine the impact to these footpaths arising from the development.</p>	<p>PTI will be determined under future stages of the project in collaboration with relevant parties.</p> <p>The Level-of-Service (LOS) assessment for the proposed footbridge, footpaths along both sides of Ching Hong Road, and footpaths along northbound side of Tsing Yi Road West at Design Year 2037 has given results of LOS C or above, which are acceptable.</p>
D	Environmental, Ecological and Landscape Aspect	
D1	<p>The proposed development including the diversion of the existing natural stream will lead to an irreversible loss of the natural stream (i.e. 寮肚坑) and the primary/secondary forest of the valley at the Site, which is the largest in Tsing Yi with abundant water supply and high ecological significance. It will also lead to a loss of 1,260 trees</p>	<p>Responses to items D1 above are relevant.</p>
D2	<p>Large-scale vegetation clearance and channelization will harm the existing ecosystem and habitat of Tsing Yi. Liu To Valley is one of the most natural habitats on the island. Adverse ecological impact will go beyond the Site and extend to the area outside the proposed rezoning site boundary.</p>	<p>Responses to items D2 and item H2 above are relevant.</p>
D3	<p>A protected species under Wild Animal Protection Ordinance was suspected to be identified by representer along the Tsing Yi Natural Trails.</p>	<p>Responses to item D3 above is relevant.</p>
D4	<p>The proposed development will affect the Tsing Yi Nature Trails (Plans H-2 to H-3) which will be detrimental to the wellbeing of local residents as they would not be able to enjoy the natural environment offered by the existing trails.</p>	<p>Responses to item D4 above is relevant.</p>
E	Visual and Air Ventilation Aspects	
E1	<p>The proposed development upon the rezoning will be of high density and of building height of 220mPD, which is over the ridgelines. The proposed development will not be visually compatible with the surroundings built environment, will have adverse air ventilation impacts and cause ‘wall effect’ to surroundings.</p>	<p>Responses to item E1 above is relevant</p>

F	Other Aspects	
F1	The Site is falls within the “high-risk area” consultation zone of Potentially Hazardous Installation and is not suitable for residential development and public safety.	Responses to item F1 above is relevant
F2	The fell of trees will affect the stability and safety of slopes. The rezoning will cause hazards such as Open Hillslope Landslide, Channelized Debris Flow or Failure within Topographic Depression which was stated in the EFS conducted by CEDD.	Responses to item F2 above is relevant
F3	Noise and air pollution caused during construction of the proposed development will affect the health and wellbeing of the residents nearby the development.	Responses to item F3 above is relevant.
F4	Long construction period and high construction costs of the proposed development will waste time and tax payers’ money.	Responses to item F4 above is relevant.
G	Provision of GIC, Open Space, Retail and Supporting Facilities	
G1	There is a lack of GIC facilities in Tsing Yi, in particular medical facilities.	Responses to item G1 above is relevant.
H	Lack of Public Consultation	
H1	There is a lack of public consultation and public comments have been ignored.	Responses to item H1 above is relevant.
H2	The Government has intentionally hidden the fact that the works area may exceed the Site, and that Liu To Village located outside the Site will need to be resumed	Responses to item H2 above is relevant.

C1522 (also R1080), C1523 (also R1059), C1524 (also R1125), C1525, C1526 (also R3935), C1527 (also R4833), C1528 (also R911), C1529, C1530, C1531 (also R4409), C1532, C1533 (also R892), C1534, C1535 (also R810), C1536 (also R817), C1537 (also R159), C1538, C1539, C1540 (also R836), C1541 (also R1685), C1542 to C1544, C1545 (also R2655), C1546 (also R2656), C1547 (also R2679), C1548 (also R4083), C1549 (also R1165), C1550 (also R1551), C1551 (also R2517), C1552 (also R2514), C1553, C1554 (also R222), C1555, C1556, C1557 (also R1959), C1558, C1559, C1560 (also R4005), C1561 (also R4063), C1562 (also R1930), C1563 (also R3998), C1564 (also R4608),		
--	--	--

C1565 (also R4611), C1566 (also R4614), C1567 (also R4617), C1568, C1569, C1570 (also R1960), C1571, C1572, C1573 (also R1260), C1574 (also R4001), C1575, C1576 (also R1916), C1577, C1578 (also R2190), C1579 (also R1912), C1580 (also R4496), C1581, C1582 (also R1957), C1583, C1584 (also R1956), C1585, C1586, C1587 (also R960), C1588 (also R4601), C1589 (also R1927), C1590, C1591, C1592 (also R1919), C1593, C1596 to C1599, C1600 (also R4589), C1601 (also R4591), C1602 (also R4598), C1603 (also R4604), C1604 (also R1962), C1605 (also R1963), C1606, C1607 (also R1396), C1608, C1609 (also R3966), C1610,		
--	--	--

C1611 (also R3909), C1612, C1620		
C1024 (also R2356),	Oppose R2 to R5, R7 to R76, R78, R79, R81, R82, R83 to R87, R3077, R3079, R5273, R5276, Supports R90 to R95, R100, R103 to R160, R172 to R229, R1148 to R1150, R1181, R1187, R1235, R1239, R1325 R1412, R1420, R1471, R1609, R1649, R1685, R1856, R1857, R1862 to R1864, R1873, R1883, R1884, R1937, R2054, R2380, R2983, R2989, R3015, R3090, R3913, R3914, R3933, R3935, R3956, R3958, R4021, R4022, R4142, R4164, R4745, R4748, R4749, R4767, R4769, R4772, R4776	A1, C1, C2, D1, D2, D3, D4, F2, F3, F4, G1
C1415 (also R923)	Opposes R2 to R5, R7 to R9, R11 to R68, R70 to R78, R80 to R87, R3077, R3079, R5273, R5276, Supports R90 to R95, R96, R100, R1148, R1149, R1150, R1181, R1187, R1235, R1420, R1425, R1471, R1546, R1565, R1649, R1685, R1856, R1857, R1862, R1863, R1873, R1884, R1937, R2029, R2054, R2983, R2989, R3090, R4014, R4021, R4022, R4113, R4142, R4162, R4164, R4287, R4498, R4516, R4649, R4745, R4748, R4749, R4767, R4769, R4772, R4776, R4778, R4782,	A1, C1, C2, C3, D1, D2, D3, D4, F2, F4, G1
C1613 (also R5031)	Not Indicated	C1, C2,
C1614 (also R4775),	Opposes R8, R73 Supports R89 to R94, R1148 to R1150, R1181, R1187, R1235, R1420, R1471, R1937, R2054, R2057, R2974, R2978, R2980, R2982, R2991, R5252, R5255,	D1, D2, D3, D4
C1615,	Not Indicated	C1, C2, G1
C1616 (also R424)	Supports R94, R101, R103 to R160, R172 to R229, R1784, R1908 and R4775	F1

C1617	Opposes R10, R65, R69, R74 to R76, R79	C1, C2, G1
C1618 (also R3851)	Opposes R1 to R76, R78, R79, R81 to R88, R3077, R3079, R5273, R5276	G1
C1619 (also R1582)	Opposes R2, R3, R7, R8, R11, R65, R71, R73, R74, R75, R76, R85, R5273	A1, D1
C1621 (also R4792)	Not Indicate	A2, A3, C3, D1, D2, D3, E1, G1, H1
C1622 (also R1775)	Support R1775	C1, C2
C1623 (also R247)	R89 to R97, R101, R102, R424	A1, A2, A3, C1, C2, C3, D1, D2, D3, D4, E1, F1, F4, G1
C1624 (also R4712)	R1 to R87	C1, C2, D1, G1
C1625, C1626	Supports R94	A1, A2, A3, D1, D2, D3, D4
C1627	Opposes R11, R12, R14, R15, R19 to R22, R24, R25, R35 to R43, R45 to R53, R55 to R62, R64, R67, R70, R78, R82 Supports R90 to R95, R10 to R160, R172 to R229, R1148, R1149, R1187, R1181, R1471, R1873, R1884, R1937, R1150, R1235, R1420, R1649, R1685, R1856, R1857, R1862, R1863, R2054	D1, D2, D3

(Translation)

**Minutes of the 129th Meeting
of the Kwai Tsing District Council**

Date: 11 May 2021

Time: 10:01 a.m. – 5:35 p.m.

Venue: K&T DO Conference Room

<u>Attendee</u>	<u>Time of Arrival</u>	<u>Time of Departure</u>
Mr SIN Chung-kai, SBS, JP (Chairman)	Start of Meeting	End of Meeting
Mr CHEUNG Man-lung (Vice-chairman)	Start of Meeting	End of Meeting
Mr CHAN Chi-wing	10:05 a.m.	5:31 p.m.
Mr CHEUNG Kwan-kiu, Steve	Start of Meeting	End of Meeting
Mr CHOI Nga-man	Start of Meeting	End of Meeting
Mr CHOW Wai-hung, Rayman	10:08 a.m.	End of Meeting
Mr HON Chun-yin	Start of Meeting	End of Meeting
Mr HUI Kei-cheung	Start of Meeting	1:07 p.m.
Miss KWOK Fu-yung	2:30 p.m.	5:31 p.m.
Mr KWOK Tsz-kin	Start of Meeting	End of Meeting
Mr LAM Siu-fai	Start of Meeting	2:49 p.m.
Mr LAU Chi-kit	Start of Meeting	End of Meeting
Ms LAU Kwai-mui	Start of Meeting	2:49 p.m.
Mr LEUNG Chi-shing	11:24 a.m.	5:09 p.m.
Miss LEUNG Ching-shan	Start of Meeting	End of Meeting
Mr LEUNG Kam-wai	Start of Meeting	End of Meeting
Ms LEUNG Kar-ming	Start of Meeting	5:31 p.m.
Mr LEUNG Kwok-wah	Start of Meeting	End of Meeting
Mr LEUNG Wing-kuen	10:04 a.m.	End of Meeting
Miss LO Yuen-ting	10:08 a.m.	5:31 p.m.
Mr NG Kim-sing	Start of Meeting	End of Meeting
Mr SIN Ho-fai	Start of Meeting	End of Meeting
Mr TAM Ka-chun, Warren	Start of Meeting	End of Meeting
Mr TONG Ho-man	10:06 a.m.	End of Meeting
Mr TSUI Hiu-kit	Start of Meeting	End of Meeting
Mr WONG Bing-kuen	10:22 a.m.	1:07 p.m.
Mr WONG Chun-tat	10:09 a.m.	End of Meeting

Miss WONG Pit-man	Start of Meeting	End of Meeting
Mr WONG Yun-tat, Ivan	Start of Meeting	End of Meeting

In Attendance

Mr CHENG Kin, Kenneth, JP	District Officer (Kwai Tsing), Kwai Tsing District Office
Ms HO Mun-ye, Money	District Lands Officer (District Lands Office, Tsuen Wan and Kwai Tsing), Lands Department
Ms HUNG Yuen-ching	Administrative Assistant/Lands (Acting), (District Lands Office, Tsuen Wan and Kwai Tsing), Lands Department
Ms MAR Suk-fong	District Environmental Hygiene Superintendent (Kwai Tsing), Food and Environmental Hygiene Department
Mr FUNG Hon-wa, Harris	District Leisure Manager (Kwai Tsing), Leisure and Cultural Services Department
Mr TSE Chun-chung, John	District Commander (Kwai Tsing), Hong Kong Police Force
Ms WONG Wai-yin	Assistant District Commander (Crime) (Kwai Tsing), Hong Kong Police Force
Ms TSE May-may	Police Community Relations Officer (Kwai Tsing), Hong Kong Police Force
Ms KWAN Nga-man	Officer-in-charge, District Intelligence Section, Kwai Tsing District, Hong Kong Police Force
Ms MA Sau-ching, Annisa	District Social Welfare Officer (Tsuen Wan and Kwai Tsing), Social Welfare Department
Ms LIU Tze-kwan, Fiona	Chief Engineer/West 2, Civil Engineering and Development Department
Ms LUI Hiu-fai, Monica	Chief Transport Officer/New Territories South West, Transport Department
Mr CHAN Tsz-kim, Joe	Senior Housing Manager (Kwai Chung), Housing Department
Mr TSE Pui-keung, Derele	District Planning Officer/Tsuen Wan & West Kowloon, Planning Department
Mr CHAN Chung-yun, Stephen	Senior Town Planner/(Kwai Tsing), Planning Department
Mr LEUNG Chi-foon	Chief Engineer/Special Duties (Works), Civil

Mr WONG Siu-wah, Pierre	Engineering and Development Department Senior Engineer 1/Special Duties (Works), Civil Engineering and Development Department
Ms YU Pui-sze, Canetti	Senior Planning Officer 6, Housing Department
Mr HONG Ka-yu, Garret	Senior Architect 3 (Acting), Housing Department
Mr Calvin LI	Director, WSP (Asia) Limited
Ms LUI Bik-yuk, Pamela	Associate, WSP (Asia) Limited
Mr LEUNG Kin-ming	Assistant Divisional Officer (Station Commander of Lai Chi Kok Fire Station), Fire Services Department
Mr HO Yu-bong	Assistant Divisional Officer (Station Commander of Tsing Yi South Fire Station), Fire Services Department
Mr WONG Ho-yin	Assistant Divisional Officer (Planning Group) (Acting), Fire Services Department
Mr CHAN Kin-kau	Manager, Squatter Control/Kowloon, Tsuen Wan & Kwai Tsing Office, Lands Department
Mr LAU Siu-wa	Assistant Manager (Squatter Control)(1), Squatter Control/Kowloon, Tsuen Wan & Kwai Tsing Office, Lands Department
Mr HEUNG Man-ching, Paul	Building Surveyor/D4-4, Buildings Department
Mr LEUNG Kwong-chung	Senior Engineer/Mainland South 2, Drainage Services Department
Ms FUNG Nga-lai, Alice	Engineer/Tsuen Kwai 3, Drainage Services Department
Ms LEUNG Chui-ha, Jodi	Regional Officer/New Territories West, Independent Commission Against Corruption
Ms MAK Kwok-yee, Markie	Senior Community Relations Officer, Independent Commission Against Corruption
Miss YIM Yik-huen, Bonnie	Assistant District Officer (Kwai Tsing), Kwai Tsing District Office
Mr WONG Man-kit, Timothy (Secretary)	Senior Executive Officer (District Council), Kwai Tsing District Office
Miss NG Po-wan, Priscilla (Assistant Secretary)	Executive Officer I (District Council), Kwai Tsing District Office

Absent with Apologies

Mr WONG Tin-yan	(Without prior notice)
-----------------	------------------------

Opening Remarks

Confirmation of the Minutes of the Following Meetings:

- i) **128th Meeting of K&T DC Held on 9 March 2021**
- ii) **Special Meeting of K&T DC Held on 31 March 2021**

Discussion Items

Engineering Feasibility Study for Site Formation and Infrastructure Works for Public Housing Development at Tsing Yi Road West and Proposed Amendments to Tsing Yi Outline Zoning Plan No. S/TY/30

(Proposed by the Planning Department, Civil Engineering and Development Department and Housing Department)
(K&T DC Paper No. 17/D/2021)

6. Mr TSE Pui-keung, Derele, District Planning Officer/Tsuen Wan & West Kowloon, Planning Department (PlanD), and Mr LEUNG Chi-foon, Chief Engineer/Special Duties (Works), Civil Engineering and Development Department (CEDD), introduced the paper.

7. Mr LAU Chi-kit put forth opinions and enquiry as follows:

- (i) The public had a strong demand for public housing.
- (ii) He enquired about the area of the public transport interchange and whether it could accommodate large vehicles.
- (iii) The relevant departments claimed that the development area would be connected to the nearby Cheung Hong Estate by a footbridge and would rely on the living area of Cheung Hong Estate (Phase II). It was mentioned that the development project would provide a total of 3 800 units and projecting on that basis, the population growth would be equivalent to the population of a constituency. He doubted whether there was comprehensive planning on supporting facilities in the development project to meet local residents' needs and requested the relevant departments to provide more data to prove that the supporting facilities were sufficient to meet local residents' needs.

8. Mr HON Chun-yin put forth opinions as follows:

- (i) He agreed to build more public housing but site selection should be given serious consideration.
- (ii) There had been a number of public and private housing construction projects in Tsing Yi Southwest in recent years. After the completion of a total of 465 units in Ching Chun Court in 2017, the traffic load was rather heavy. In addition, 2 blocks of Ching Fu Court, 4 buildings of Ching Hong Road and private buildings such as The Grand Marine would be completed soon. He questioned whether that area could accommodate another 3 800 public housing units.

- (iii) He suggested that the relevant departments should have detailed traffic planning to ensure that traffic of that area could meet residents' needs.

9. Mr LEUNG Wing-kuen put forth opinion and enquiry as follows:

- (i) He worried that river diversion for building public housing would cause ground settlement. In the case of ground settlement at the junction of Wo Yi Hop Road and Lei Muk Road, since the Government filled up the watercourse for building housing over 30 years ago, ground settlement occurred there every several years. He hoped that the relevant departments would learn a lesson.
- (ii) He enquired where the footbridge would connect to.

10. Mr LEUNG Chi-foon responded as follows:

- (i) There would be franchised bus stops and a taxi stand in the public transport interchange. The Transport Department (TD) would submit a route proposal for the franchised bus service to K&T DC for consultation 2 years prior to completion of the proposed public housing.
- (ii) Preliminary technical assessments had given consideration to the demand for infrastructure facilities from the proposed public housing development project and its adjacent housing estates. Assessment results showed that there were no insurmountable technical issues in terms of traffic, water supply, drainage, sewage discharge, etc.
- (iii) The preliminary traffic impact assessment (TIA) had given consideration to the vehicular flow generated by the proposed public housing development project and its adjacent planned housing development sites.
- (iv) The proposed footbridge would stretch across Tsing Yi Road West and connect to a section of the pavement outside Cheung Hong Estate.
- (v) Based on the preliminary design, the proposed stream diversion would not pose a risk of ground settlement to the site for future formation. He noted the Member's concern and would pay more attention when producing the

detailed design in the next phase.

11. Mr Calvin LI, Director, WSP (Asia) Limited, responded that based on the recommendation of preliminary technical assessments, there would be 2 franchised bus stops and 1 taxi stand in the proposed public transport interchange for public use.

12. Mr NG Kim-sing put forth opinions and enquiries as follows:

- (i) He did not oppose building public housing in principle but the housing construction plan put forth by PlanD could not improve housing conditions on a large scale.
- (ii) What the number of recreational facilities per capita in Kwai Tsing District was according to the Hong Kong Planning Standards and Guidelines (HKPSG), and whether PlanD was committed to increasing recreational facilities in the district.
- (iii) The population density of Kwai Tsing District ranked seventh in Hong Kong but recreational facilities were highly insufficient. Whether PlanD would address the problems of population density and insufficient recreational facilities in the district when carrying out new development projects.
- (iv) Even if K&T DC passed a motion on the discussion item, the Town Planning Board (TPB) would only count that as an opinion.

13. Ms LEUNG Kar-ming put forth opinions as follows:

- (i) She agreed to build public housing but worried that other home ownership housing would eventually be built under the project.
- (ii) Shing Hong constituency was one of the most affected areas. With a growing population but not increasing ancillary transport facilities, traffic in the area would be overloaded.
- (iii) She suggested building barrier-free facilities.
- (iv) Residents opposed that housing construction project. She suggested that

the relevant departments should solve the present social problems before launching housing construction projects.

14. Miss LO Yuen-ting put forth opinions as follows:

- (i) She was disappointed that the relevant departments only issued the information paper 3 days before the meeting and requested the departments to submit the presentation slides to Members after the meeting for information.
- (ii) The TIA lacked supporting data and it was hard to believe that the local traffic problem would be alleviated.
- (iii) Planning on livelihood facilities was too conceptual and there were no concrete data and plan.

15. Mr TSE Pui-keung, Derele responded as follows:

- (i) According to the requirements in HKPSG and calculated on the basis of population planning and the present supply of planned open space, the surpluses of district open space and local open space in Kwai Tsing District were about 0.93 hectare and 66.49 hectares respectively whereas the surpluses of district open space and local open space in Tsing Yi were 0.75 hectare and 29.07 hectares respectively.
- (ii) According to the established town planning process, proposed amendments to and Members' comments on the Outline Zoning Plan (OZP) would be submitted to the Metro Planning Committee (MPC) under TPB for its consideration. If TPB agreed with the proposed amendments, the revised OZP would be exhibited for public inspection and the public could submit written representations and make comments on the representations received to TPB. TPB would invite persons who had submitted written representations or made comments to attend a hearing and be heard by TPB.

16. Mr LEUNG Chi-foon responded as follows:

- (i) In designing the proposed footbridge, barrier-free access facilities would be built for the use of members of the public in need.

- (ii) The existing footbridge west of Ching Wah Court was situated on the pavements on the sides of Tsing Yi Road West. The proposed footbridge would also stretch across Tsing Yi Road West and connect to a section of the pavement outside Cheung Hong Estate.

17. The Chairman asked CEDD and the consultancy firm whether a TIA had been conducted on the housing construction project.

18. Mr Calvin LI responded as follows:

- (i) According to the preliminary TIA, after factoring in the projections of the proposed public housing project, the ratio of the traffic volume to capacity of Tsing Yi Road West was 60% to 70% whereas that of Ching Hong Road was 70% to 80%.
- (ii) After factoring in the projections of the proposed public housing project, the remaining traffic capacity of the junction of Tsing Yi Road West and Ching Hong Road (signalised junction) was about 30% and the ratio of the traffic volume to capacity of Tam Kon Shan Interchange was 80% to 90%.

19. The Chairman requested PlanD and CEDD to submit the TIA report for perusal.

20. Mr TSE Pui-keung, Derele responded that the research report would be attached to TPB's meeting paper on proposed amendments to the OZP for TPB members' consideration and the public could read the paper. As final consolidation of the report was needed at the current stage, the report could not be submitted to K&T DC.

21. Mr HUI Kei-cheung put forth opinions as follows:

- (i) The housing construction project would lead to crowded living space.
- (ii) He opined that the research report was too brief and requested the relevant departments to submit a detailed one as soon as possible.
- (iii) The selected site of the housing construction project was situated on a hill used for separating an oil depot in Tsing Yi West. In early planning, the hill was seen as a natural barrier that protected nearby residents from

possible explosions of the oil depot.

22. Mr TSUI Hiu-kit put forth opinions and enquiry as follows:

- (i) He was disappointed that the relevant departments issued the information paper only 3 working days before the meeting and as a result, Members did not have enough time to consult residents in the whole district.
- (ii) Since the ratio of the traffic volume to capacity of Ching Hong Road was over 70%, if the development project which would soon be completed was factored in, he worried that traffic near Cheung Hong Estate (Phase II) and Ching Wah Court would be overloaded.
- (iii) The housing construction project might affect the views of Mount Haven and Ching Wah Court.
- (iv) He doubted why the relevant departments selected a Green Belt (GB) site for developing a housing project and enquired whether consideration had been given to changing the site to Tsing Yi North.

23. Mr CHAN Chi-wing put forth opinions and enquiry as follows:

- (i) Information on the housing construction project submitted by the relevant departments was insufficient.
- (ii) He enquired whether consideration had been given to selecting a site in Tsing Yi North instead to avoid developing a GB zone.
- (iii) He doubted whether it was feasible to transplant the Incense Trees and other species of conservation value in the GB zone.
- (iv) He agreed to build public housing but worried that other home ownership housing would eventually be built under the project.

24. Mr TSE Pui-keung, Derele responded that the Government identified suitable GB sites for housing development from a two-stage GB review. The first stage mainly covered areas which were formed, deserted and devegetated, but possessed potential for residential development. The second stage covered zones in the fringe of built-up areas

close to urban areas and new towns, and those vegetated areas with relatively less buffering effect and lower conservation value. The public housing development project in question belonged to the second stage of review. Tsing Yi North was mainly used for shipyards and industrial purposes that relied on shipping. Planning for residential use in that area had not been considered at the current stage.

25. Mr LEUNG Chi-foon responded as follows:

- (i) After the proposed public housing development project was completed and residents had moved in, the ratio of the traffic volume to capacity of Tam Kon Shan Interchange would be 84%. The preliminary assessment showed that traffic conditions were acceptable.
- (ii) It was expected that after the project was completed and residents had moved in, the remaining traffic capacity of the junction of Tsing Yi Road West and Ching Hong Road would be about 30%, showing that traffic conditions were acceptable.
- (iii) Preliminary TIA results showed that the public housing development project would not place an unbearable burden on the traffic in the district.

26. Mr Calvin LI responded that a risk assessment had been conducted on the oil depot southwest of the proposed public housing development project in accordance with the Hong Kong Risk Guidelines. The result showed that the “individual risk” met the requirements in the guidelines and the “societal risk” had been reduced to as low as reasonably practicable. The risk assessment report had been submitted to the Co-ordinating Committee on Land-use Planning and Control Relating to Potentially Hazardous Installations for vetting and approval.

27. Mr CHOW Wai-hung, Rayman put forth opinions as follows:

- (i) The relevant departments and the consultancy firm did not answer Members’ enquiries.
- (ii) Construction of new housing would worsen the current problem of illegal parking in Tsing Yi that resulted from a lack of parking spaces.
- (iii) He requested the consultancy report to include detailed data on school

places and the use of community services for analysing whether services provided by social welfare institutions in the area could meet residents' demands; if not, the report should also include solutions.

- (iv) After completion of Kwai Luen Estate and Kwai Tsui Estate, Members found that the community facilities that departments promised during consultation were not seen. He worried that the same would happen again.
- (v) Time for consultation was insufficient and local residents could not be fully consulted.

28. Mr WONG Yun-tat, Ivan put forth enquiries and opinion as follows:

- (i) The heights of the buildings and the number of storeys. He worried that the buildings would affect the views.
- (ii) The reasons for not selecting flat land and non-GB zones for housing construction.
- (iii) The reasons for the site selection of the vehicular entrance.

29. Mr WONG Chun-tat put forth opinions and enquiries as follows:

- (i) Whether the public housing construction project would become construction of Green Form Subsidised Home Ownership Scheme (GSH) flats.
- (ii) Whether the traffic capacity was calculated based on the vehicular flow during peak hours or the daily average vehicular flow.
- (iii) Having taken into account the completion of new housing and the East Lantau development plan, he worried that traffic in that area would be overloaded.
- (iv) If parking spaces were built in accordance with the current standards, the problems of insufficient parking spaces and illegal parking would continue to worsen after the completion of new housing.

30. Mr TSE Pui-keung, Derele responded as follows:

- (i) According to the requirements in HKPSG and calculated on the basis of population planning and the present supply of planned facilities, the “Government, Institution or Community” facilities in Tsing Yi were on the whole sufficient.
- (ii) HKPSG had incorporated the latest population standards on community care services for the elderly, residential care homes for the elderly and child care centres. These standards were requirements for long-term planning. There was a shortage of related facilities in Tsing Yi but in the process of planning and development, the Social Welfare Department would provide suitable services and facilities based on actual needs.
- (iii) There was a shortage of hospital beds in Tsing Yi. Tsing Yi belonged to Kowloon West Cluster, which was planning expansion of hospitals, including Princess Margaret Hospital in the 10-year Hospital Development Plan, with a view to improving the supply in the long term.

31. Mr Calvin LI responded as follows:

- (i) The remaining traffic capacity of the junction of Tsing Yi Road West and Ching Hong Road was about 30%. If a junction was to be created at the intersection of Tsing Yi Road West and Ching Hong Road to link to the proposed development project, the remaining traffic capacity of the junction would become inadequate. Therefore, the research report recommended a new independent junction to be created on Tsing Yi Road West for connecting to the proposed development project.
- (ii) The traffic performance of roads and junctions was measured based on the vehicular flow during peak hours.

32. Mr LEUNG Chi-foon added that it was still the preliminary technical assessment stage. The junction design proposal would be reviewed in the detailed design at the next stage and improvements would be made wherever necessary.

33. Ms YU Pui-sze, Canetti, Senior Planning Officer 6, Housing Department (HD)

responded as follows:

- (i) The project was rather long-term, maintained the flexibility among different types of public housing to cater for the demands of public rental housing (PRH), GSH and other subsidised sale flats, and would adjust their supply in a timely manner to better respond to market changes and the housing needs of the community at large.
- (ii) She noted Members' suggestions on building PRH.
- (iii) The maximum height of the buildings under the project was 220 metres above the Hong Kong Principal Datum and the preliminary design at the current stage was residential buildings of 40 odd storeys. A site-specific design would be adopted and it was hoped that Members would understand that apart from providing residential units, the public housing project would also try to include various non-domestic facilities to serve the residents and the community. Mitigation measures had been considered under the project, including reserving a buffer zone near the buildings, using appropriate colours for the external walls of the buildings and improving the landscape designs and greening measures as far as possible, so as to minimise the effects of the buildings on the views.
- (iv) At the current stage, space had been earmarked under the project in accordance with the upper limit of parking spaces in HKPSG to meet residents' needs as far as possible. TD was reviewing the standards on parking spaces in HKPSG. Space had been earmarked in the preliminary design for the possibility of adding parking spaces for the change in the standards on parking spaces in the future.

34. Miss WONG Pit-man put forth opinions and enquiry as follows:

- (i) With inadequate traffic capacity of roads, adding a public transport interchange could not solve the current traffic problems.
- (ii) The Tsing Yi OZP showed that the GB was full of precipices and thus not suitable for urban development. However, the buildings in the development project were higher than the hills in the GB. She doubted the feasibility of constructing buildings in the GB.

- (iii) Since the soil for planting Incense Trees was very precious, she worried that the relevant departments might not succeed in transplanting them.
- (iv) She enquired about the concrete proposal of relocating *Nanhaipotamon hongkongense* and *Accipiter trivirgatus*.

35. Mr LEUNG Kam-wai put forth opinions as follows:

- (i) He was disappointed that the relevant departments did not disclose the consultancy report.
- (ii) He opined that the planning was brief and the proposed ancillary transport facilities and livelihood facilities were insufficient, which might not be able to meet the needs of a new population of about 10 000.
- (iii) He worried that the public housing construction project would become construction of other home ownership housing.

36. Mr KWOK Tsz-kin put forth opinions and enquiries as follows:

- (i) He enquired why the development site was government land and whether there was any title issue with that plot of land.
- (ii) At present, there were about 2 000 residents in Mount Haven and nearly 10 000 residents in Cheung Hong Estate (Phase II) and Ching Wah Court. With no space for widening works in Ching Hong Road, he worried that the new population would overload the traffic.
- (iii) The healthcare facilities in Tsing Yi Southwest were insufficient.
- (iv) He requested the departments to submit the detailed assessment report for further consideration.

37. Mr TSE Pui-keung, Derele responded that the Government had been striving to identify suitable land to address the pressing public demand for public housing, including conducting reviews on GB zones. As regards the public housing development project, CEDD had carried out a series of technical assessments and PlanD would submit the

assessment results and Members' comments to TPB for its consideration in accordance with the established procedures.

38. Mr LEUNG Chi-foon responded as follows:

- (i) TD would submit a proposal for the related franchised bus routes to K&T DC for consultation 2 years prior to completion of the proposed public housing development project.
- (ii) The proposed housing development project was situated at a valley. In view of the needs of housing development, retaining walls would be built and earth filling works would be carried out for site formation for public housing development.
- (iii) According to the preliminary ecological investigation report, 4 Incense Trees were found in the GB and were recommended to be transplanted to a suitable spot nearby. In devising the transplantation plan, relevant departments would be consulted to search for a suitable location.
- (iv) Prior to relocation of *Nanhaipotamon hongkongense*, inspections would be conducted to ascertain their distribution and areas of activity. Cage traps would then be placed in their active areas for capture. Captured *Nanhaipotamon hongkongense* would be relocated to a suitable habitat upstream or downstream for conservation.

39. Mr WONG Siu-wah, Pierre, Senior Engineer 1/Special Duties (Works), CEDD, responded as follows:

- (i) The consultancy firm conducted an ecological investigation from May to October 2019. *Accipiter trivirgatus* resided in Hong Kong throughout the year and was not a migratory species. Hence, the period of ecological investigation should have provided plenty of opportunity to track *Accipiter trivirgatus* and the consultancy firm did not find *Accipiter trivirgatus* in the area affected by the proposed development project.
- (ii) The consultancy report showed that the ecological environment of the GB was not a habitat that *Accipiter trivirgatus* usually chose.

- (iii) The ecological investigation also made reference to the Hong Kong Bird Reports published by the Hong Kong Bird Watching Society from 2007 to 2017, which showed that no *Accipiter trivirgatus* was found in the area of Tsing Yi.

40. Ms HO Mun-ye, Money, District Lands Officer, (District Lands Office, Tsuen Wan and Kwai Tsing)(DLO/TW&KT), Lands Department (LandsD), said that the GB zone concerned was government land, part of which held a Government Land Licence or Permit granted at an earlier time, but none was private land.

41. Mr CHOI Nga-man put forth opinions and enquiries as follows:

- (i) Whether the risk assessment included an assessment on the wind tunnel effect.
- (ii) Whether there would be risk of landslides after the valley was filled up.
- (iii) Other than the ecological investigation conducted from May to October 2019, whether the Government carried out any ecological investigation between 2015 and 2021.
- (iv) There were only 2 bus stops and 1 taxi stand in the proposed public transport interchange, which were not enough.
- (v) At present, the elderly and parking facilities in that area were already insufficient but the paper did not state clearly how to increase those facilities. He suggested that the report should include long-term planning on development and a specific proposal.
- (vi) He requested the departments to submit detailed data of the TIA.
- (vii) He hoped that the departments would send representatives to meetings in the future to follow up matters.

42. Mr SIN Ho-fai put forth opinions and enquiries as follows:

- (i) He was disappointed that the paper submitted by the departments was too brief.

- (ii) He enquired about the traffic capacity of Tam Kon Shan Interchange and Tsing Yi Interchange after completion of the development project.
- (iii) Whether the TIA report had taken into consideration the impact of Route 11 connecting to Tsing Yi Bridge and relocation of the wholesale poultry market to Tsing Yi.
- (iv) According to the Siu Ho Wan draft OZP, Tsing Yi MTR station would rank second among the 10 stations with the highest number of entries in Hong Kong in 2036 and it was anticipated that 24 000 people would enter the station every hour in the morning. He further asked whether the TIA report had considered the above figure and put forth long-term traffic planning.
- (v) He enquired how many units there were on each floor of the proposed public housing.

43. Mr TAM Ka-chun, Warren put forth opinion and enquiry as follows:

- (i) The current HKPSG was outdated.
- (ii) He enquired why a GB in Tsing Yi was selected for building housing instead of considering other land, such as brownfield sites and idle small house sites.

44. Mr TSE Pui-keung, Derele responded that the Government had identified 13 sites in Kwai Tsing District for residential development and the site concerned was one of them. The Government had been adopting multi-pronged strategies and measures and strived to identify sites elsewhere apart from developing brownfield sites to satisfy the ever-increasing housing demand.

45. Mr HONG Ka-yu, Garret, Senior Architect 3 (Acting), HD, responded that construction of 3 buildings were preliminarily proposed at present, each about 49 storeys high, and would provide about 3 800 public housing units. The department would adopt a site-specific design to minimise the buildings' impact on the views and the environment. Since it was still the planning stage at present, the department would consult K&T DC in due course.

46. Mr Calvin LI responded as follows:

- (i) The preliminary TIA had taken into account other future development projects in Tsing Yi, including the plan to relocate the wholesale poultry market to Tsing Yi.
- (ii) After factoring in the proposed public housing development project and the peak traffic hours, the ratio of the traffic volume to capacity of Tsing Yi Interchange would be about 60% to 70%.

47. Mr CHEUNG Kwan-kiu, Steve put forth opinions as follows:

- (i) The 13 sites that the Government identified several years ago might not all be suitable for residential purpose.
- (ii) The scale of the development project was unreasonable. The department mentioned that each building would provide about 1 266 units, which were far more than those of other PRH estates in Kwai Tsing District, e.g. 614 units in Cheung Wang Estate, 744 units in Kwai Luen Estate and 686 units in On Yam Estate.
- (iii) He doubted whether it was feasible to build such large-scale public housing on that site, which was still a valley.
- (iv) Having referred to the past housing development projects in Tsing Yi, it could be seen that a lack of shopping and community facilities was a common problem, e.g. there was only a supermarket in Cheung Wang Estate to meet residents' needs. He worried that the same would occur after completion of the development project.

48. Mr CHEUNG Man-lung put forth opinions and enquiry as follows:

- (i) The current HKPSG was outdated.
- (ii) The department concerned promised in 2019 to update the standards on parking spaces in HKPSG in 2020 but they still had not been updated yet. If the Government developed buffer areas for residential purpose, after the

related planning standards were updated in the future, it would be hard to identify land for building related facilities to comply with the new standards. He asked if the department updated the standards on parking spaces after completion of the housing development project, how the matter would be dealt with then.

49. Mr TSE Pui-keung, Derele responded that the Government had been reviewing and updating HKPSG in a timely manner. For example, population standards were added in recent years on child care centres, residential care homes for the elderly and community care services and facilities for the elderly.

50. Ms YU Pui-sze, Canetti responded as follows:

- (i) In the preliminary design of the project, the department made reference to HKPSG, which was under review, and maintained close contact with TD and sought its advice. The preliminary TIA and study showed that provision of parking spaces would not bring about adverse traffic effects to that area.
- (ii) The Hong Kong Housing Authority developed public housing under the principles of optimal utilisation of land resources and sustainable development. Although the construction site of the development project was quite complicated, the Housing Authority would adopt the principle of the highest cost-effectiveness of development and utilise the residential and non-residential plot ratios, wherever practicable, to provide public housing units and related facilities. Meanwhile, to raise the quality of public housing and provide a comfortable living environment for residents, reference was made to the relevant guidelines in terms of the layout of buildings to comply with the requirements of building ventilation and the proposed public housing development would be designed appropriately based on the consultancy study and recommendations.
- (iii) She reiterated that the project was still at the preliminary study stage and the related design including facilities and details would be further confirmed at the future detailed design stage.

51. The Chairman enquired whether PlanD could extract related information and data for Members' perusal and submit the proposal to TPB after further discussion and consultation at future meetings.

52. Mr TSE Pui-keung, Derele responded that to avoid affecting the overall progress of public housing development, according to the current work schedule, it was recommended that proposed amendments to the OZP be submitted to TPB for scrutiny in the middle of this year, so K&T DC could not be consulted again before submission of the proposed amendments to the OZP to TPB.

53. Mr LEUNG Chi-foon understood the Chairman and Members' concerns. As some technical details in the TIA report needed to be discussed with TD, the report could not be provided to Members for perusal for the time being.

54. The Chairman enquired again whether the relevant departments could submit the report to K&T DC for discussion and consultation after completing it before submitting it to TPB in the middle of this year. Meanwhile, Members could make good use of the time to consult residents and relay their opinions to the departments so that Members did not have to go to TPB to express opinions one by one.

55. Mr TSE Pui-keung, Derele responded that in order not to affect the progress of public housing development, the department could not consult K&T DC again about the proposed amendments to the OZP before submitting them to TPB.

56. The Chairman put forth enquiries as follows:

- (i) When MPC would convene a meeting to discuss the development project and whether Members could raise comments on the project to MPC at that time.
- (ii) Whether the report submitted to MPC would be available for public inspection at that time.

57. Mr TSE Pui-keung, Derele responded as follows:

- (i) It was expected that the proposed amendments to the OZP would be submitted to MPC under TPB in June to July this year and the research report would be attached to the meeting paper.
- (ii) Meeting papers submitted to MPC by the departments were available online for public inspection.

- (iii) Members of the public could submit written representations in respect of the amendments in the first 2 months the revised OZP was exhibited and make comments on the written representations received in the first 3 weeks TPB exhibited the representations. TPB would then invite persons who had made representations or comments to attend a hearing, where they could be heard by TPB.
- (iv) The department would submit information on the amendments to K&T DC while the revised OZP was exhibited.

58. Miss LO Yuen-ting put forth opinions as follows:

- (i) She did not understand why the relevant departments had planned to submit the report to TPB in June long ago but only consulted K&T DC formally in May.
- (ii) The departments should hold a local consultation before submitting the report to TPB.

59. Mr TAM Ka-chun, Warren said that since Members and the relevant departments could not reach a consensus on the development project, the departments could not state in the report to be submitted to TPB that K&T DC in principle agreed with the development project.

60. The Chairman received an extempore motion:

Motion: The Kwai Tsing District Council Requests the Public Housing Development Project in Tsing Yi Road West to Be Suspended. The Relevant Government Departments Must Make Amendments to Planning, Environment, Traffic, Greening, etc., Provide a Detailed Research Report by the Consultancy Firm to This Council for Reference and Hold a Local Consultation with Detailed Planning. Otherwise, the Project Should Be Shelved or Another Site Be Selected for Commencement of Works. (The Extempore Motion)

(Moved by Mr HON Chun-yin and Mr KWOK Tsz-kin and seconded by Mr CHOI Nga-man)

61. The Chairman put the extempore motion to the vote for acceptance. Of the

Members who participated in the vote, there was 0 vote against and 0 abstention. Members accepted the extempore motion.

62. The Chairman put the motion to the vote.

63. Mr KWOK Tsz-kin proposed putting the extempore motion to the vote in an open ballot.

64. The Chairman put the extempore motion to the vote in an open ballot.

65. The voting result was as follows:

For: 26 votes

(Mr CHEUNG Man-lung, Mr CHAN Chi-wing, Mr CHEUNG Kwan-kiu, Steve, Mr CHOI Nga-man, Mr CHOW Wai-hung, Rayman, Mr HON Chun-yin, Mr HUI Kei-cheung, Mr KWOK Tsz-kin, Mr LAM Siu-fai, Mr LAU Chi-kit, Ms LAU Kwai-mui, Mr LEUNG Chi-shing, Miss LEUNG Ching-shan, Mr LEUNG Kam-wai, Ms LEUNG Kar-ming, Mr LEUNG Kwok-wah, Miss LO Yuen-ting, Mr NG Kim-sing, Mr SIN Ho-fai, Mr TAM Ka-chun, Warren, Mr TONG Ho-man, Mr TSUI Hiu-kit, Mr WONG Bing-kuen, Mr WONG Chun-tat, Miss WONG Pit-man, Mr WONG Yun-tat, Ivan)

Against: 0 vote

Abstention: 0 vote

66. The Chairman announced that the extempore motion was endorsed.

67. Mr HUI Kei-cheung requested the relevant departments to submit the report to K&T DC before submitting it to MPC and relay the content of the meeting to MPC.

68. Mr NG Kim-sing enquired whether one could express opinions after submitting written representations.

69. Mr KWOK Tsz-kin requested PlanD to hold a public consultation about the development project.

70. Mr TSE Pui-keung, Derele added that the public would not be invited to speak at MPC meetings. The department would submit the opinions collected at this meeting, comments from government departments and proposed amendments altogether to MPC for its consideration. If MPC agreed with the proposed amendments to the OZP, TPB would exhibit the revised OZP and the public could submit written representations in respect of the amendments within the first 2 months of exhibition. After that, TPB would exhibit the written representations received and the public could make comments within the first 3 weeks of exhibition. TPB would then hold a hearing and invite all the persons who had made written representations or comments on the amendments to attend the hearing and be heard by TPB. After the hearing, TPB would decide whether to propose amendments to the draft plan to meet the representations.

(Post-meeting note: The Development Bureau had provided a reply in respect of the above motion, i.e. K&T DC Circulation Paper (Information) No. 17/2021.)

青衣西路公營房屋發展計劃、
工地平整及基礎設施工程的可行性研究及
《青衣分區計劃大綱核准圖編號 S/TY/30》的擬議修訂項目

議員的提問／意見及動議

就葵青區議員於 2021 年 5 月 11 日葵青區議會會議上的提問／意見，以及在會上提出並獲得通過的一項動議，經徵詢相關部門後，本局現回應如下：

政府一直以多管齊下的方式增加土地供應，包括透過各項土地用途檢討工作，在全港物色可作房屋發展的用地，當中包括建議把位於青衣西路以西的一幅「綠化地帶」用地改劃作公營房屋發展。

於 2021 年 5 月 11 日的葵青區議會會議上，規劃署、土木工

程拓展署（土拓署）及房屋署代表向議員介紹上述擬作公營房屋的用地，並聆聽議員的意見。一如以往，在提出有關發展建議前，政府會進行初步研究並仔細考慮發展會帶來的潛在影響，以評估及確立在上述用地發展公營房屋的可行性。土拓署進行的各項可行性研究已大致完成，現作最後整理。經考慮包括交通、基建、環境、景觀、視覺、空氣流通和風險等方面的潛在影響，預期在上述用地作公營房屋發展不會帶來無法克服的技術問題。

選址

上述擬議作公營房屋發展的用地屬青衣已建設地區的邊緣、臨近已發展區域及現有道路、有植被但緩衝作用和保育價值相對較低的「綠化地帶」。鑑於土拓署進行的初步研究沒有在上述用地內發現具重要保育價值的棲息地及具重要生態價值的河流，政府建議改劃有關用地以回應市民對公營房屋的殷切需要。

發展密度

為應付房屋及其他發展需要，政府本著「地盡其用」的宗旨，探討在不影響環境質素的情況下，適當地增加土地的密度和地積比率。就此，《2014年施政報告》已提出在除人口較稠密的港島北面和九龍半島以外，全港其他各個「發展密度分區」現時准許的最高住宅用地地積比率，可整體地適度提高約兩成。為進一步善用公營房屋用地，行政會議在2018年12月亦通過容許公營房屋用地的住用地積比率在技術可行的情況下再增加一成的建議。

經考慮上述政策、有關用地的情況以及可行性研究的結果後，政府建議改劃有關用地，並納入最高總地積比率6.7倍（當中包括最高住用地積比率6.5倍）及最高高度限制主水準基準上220米。研究結果顯示，有關公營房屋計劃不會帶來無法克服的技術問題。

視覺上的影響

擬議公營房屋發展位處山谷，需因應房屋發展要求平整地

盤。視覺評估報告顯示，根據擬議土地平整工程及樓宇的布局，發展計劃雖會在視覺方面帶來影響，相關部門在實施發展計劃時，將採取以下一系列的緩解措施，以盡量減低公營房屋發展對視覺和景觀造成的影響：

- 一) 於擬議發展項目與青衣西路及綠化帶之間設置緩衝區，作視覺緩衝之用；
- 二) 於合適的位置，如上述緩衝區及擬建行人天橋，種植緩衝樹木及植物，以作為視覺屏障；
- 三) 擬建樓宇外牆顏色將採用配合周邊環境的色調以緩和視覺效果；
- 四) 盡量優化在擬議房屋發展範圍內的園景設計及綠化措施；及
- 五) 提供適當的樓宇間距。

交通影響

政府理解區議會及地區人士對交通負荷及配套方面的關注。土拓署進行的研究已就擬議發展進行初步交通及運輸影響評估，包括考慮將來青衣區內主要相關路段的行車情況。評估範圍包括青衣西路、楓樹窩路、青康路、青衣鄉事會路、涌美路、担杆山交匯處及青衣交匯處等主要道路及交匯處。影響評估亦已考慮區內其他已規劃的發展計劃。研究結果初步顯示，擬議發展計劃不會對區內交通網絡構成嚴重影響。土拓署將會在下一階段進行詳細交通評估，並會在有需要時進行道路／路口改善工程。

因應擬議發展計劃及地區所需，計劃範圍內將設有公共交通交匯處。擬建公共交通交匯處預期將提供專營巴士服務，根據現行做法，運輸署將於擬議房屋發展項目完成前兩年，將專營巴士路線的具體計劃提交葵青區議會交通及運輸委員會，以徵詢意見。

此外，為方便日後區內居民橫過青衣西路往返擬議發展計劃及附近一帶，包括青衣西路及青康路兩旁的公共交通設施，政府亦建議興建一條橫跨青衣西路的行人天橋，並將設有升降機供有需要的市民使用。

就泊車設施方面，房委會在規劃新公營房屋發展時，會諮詢運輸署的意見，提供合適的公營房屋泊車設施。

生態影響

土拓署已進行初步的生態影響評估，結果顯示，擬議公營房屋發展計劃不會造成重大生態影響。

為配合擬議公營房屋發展計劃，一段長約 600 米的溪流將受影響而需要在工地西面改道重置。改道後的溪流將加入生態元素以提供不同的微生境。在擬議房屋發展範圍與改道的溪流之間，將預留約十米寬的緩衝區，以盡量減少發展計劃對生態之影響。對受影響溪流中具保育價值的水生物種，包括香港南海溪蟹和鰓刺溪蟹，評估報告亦建議可遷移至附近合適的棲息地以作保育。

樹木調查結果顯示，擬議發展計劃範圍內受影響並需要移除的樹木主要是一些果樹及普通品種樹木，並未有涉及古樹名冊內的樹木。當中具保育價值的四棵土沉香幼樹及半成年樹，評估報告亦建議可移植到附近合適的接收點。詳細樹木保育、移除及補償種植方案將根據發展局相關的技術通告及指引進行詳細研究及訂定，並在工程開展前提交相關部門審批，以減低對生態的影響。此外，根據相關的政府指引，擬議公營房屋發展計劃範圍內的綠化覆蓋率目標為百份之三十。視乎個別地盤的特色和限制，亦會按情況考慮調整綠化覆蓋率；然而，除特殊情況外，綠化覆蓋率必須至少達百份之二十。

區內政府、機構或社區設施的供應

根據《香港規劃標準與準則》，以《青衣分區計劃大綱圖》涵蓋範圍內的規劃人口計算，當上述公營房屋計劃完成後，區內現有及已規劃的各類政府、機構或社區設施已大致足夠，包括各類型社區設施如體育中心、游泳池場館、休憩用地、綜合家庭服務中心、綜合青少年服務中心、圖書館、診療所／健康中心、幼兒班及幼稚園課室、小學及中學課室等。長者社區照顧服務設施（包括長者日間護理中心）、安老院舍、幼兒中心及醫院床位的供應則會出現短

缺。

就長者社區照顧服務設施（包括長者日間護理中心）、安老院舍及幼兒中心的短缺，這項人口標準乃長遠目標，在規劃和發展的過程中，社會福利署會就實際提供的服務作出適當考慮。至於醫院床位的短缺，有關供應乃視乎聯網的情況而定，相關部門會繼續監察青衣區人口增長的情況，以應付區內需求。

擬議公營房屋計劃內亦會根據《香港規劃標準與準則》的要求預留足夠空間提供社會福利設施，以配合未來居民及社區的需要，其具體方案和實際安排有待在詳細設計階段與各持份者及相關政府部門進一步磋商。除此之外，擬議發展計劃亦將設有零售設施、幼稚園及泊車設施，以照顧居民生活所需。

公營房屋類型

房委會會保留房屋類別的彈性，以配合公屋、「綠置居」計劃及其他資助出售單位之間的需求轉變，並適時調節不同類別之間的供應量，務求更適切地應對市況變動，配合社會整體的住屋需要。

下一步

要提供足夠土地達到十年建屋目標，是政府和社會共同面對的一項艱鉅挑戰。政府希望可獲得區議會、地區及居民的支持和體諒，以解決市民迫切的住屋需要。

為推展有關房屋發展，政府須根據《城市規劃條例》（《條例》）改劃土地用途。規劃署將於 2021 年 6 月 11 日就有關擬議公營房屋發展計劃的大綱圖修訂項目，連同區議會以及政府部門的意見，一併提交城規會轄下小組委員會考慮。所有研究及評估報告亦會在提交有關擬議修訂項目予小組委員會審議時，一併供公眾查閱。如小組委員會同意有關擬議修訂項目，城規會將根據《條例》第 5 條展示圖則及諮詢公眾，為期兩個月。屆時，各議員及公眾人士可對修訂項目作出申述和提出意見。有關詳情可瀏覽網頁 https://www.info.gov.hk/tpb/tc/whats_new/whats_new.html。按現時

《條例》訂明，申述人和提意見人將獲邀出席城規會會議，直接向城規會委員作口頭陳述和表達意見。我們亦會繼續聆聽議員及居民的意見，務求在善用土地資源和增加房屋供應的同時，能釋除地區對交通、環境及生態保育等方面的疑慮。

感謝各議員對青衣區發展所提出的寶貴意見及關注。

發展局局長

Agenda Item 7

[Open Meeting (Presentation and Question Sessions only)]

Proposed Amendments to the Approved Tsing Yi Outline Zoning Plan (OZP) No. S/TY/30
(MPC Paper No.5/21)

31. The Secretary reported that the amendment item involved a public housing development to be developed by the Hong Kong Housing Authority (HKHA) which was supported by an Engineering Feasibility Study (EFS) conducted by the Civil Engineering and Development Department (CEDD) with WSP (Asia) Limited (WSP) as one of the consultants of the EFS. The following Members had declared interests on the item:

Mr Gavin C.T. Tse	-	being a representative of the Director of
(as Chief Engineer (Works),		Home Affairs who was a member of the

Home Affairs Department)

Strategic Planning Committee and Subsidised Housing Committee of the HKHA;

- | | | |
|-----------------------|---|---|
| Mr Alex T.H. Lai | - | his former firm had business dealings with HKHA and WSP; |
| Mr Thomas O.S. Ho | - | having current business dealings with HKHA; |
| Dr Lawrence W.C. Poon | - | his spouse being an employee of the Housing Department (HD) (the executive arm of HKHA), but not involved in planning work; |
| Mr Franklin Yu | - | being a member of Building Committee of HKHA; and |
| Mr Daniel K.S. Lau | - | being an ex-employee of the Hong Kong Housing Society which was involved in housing development issues in discussion with HD (the executive arm of HKHA). |

32. The Committee noted that according to the procedure and practice adopted by the Town Planning Board (the Board), as the proposed amendment for public housing development was the subject of amendment to the outline zoning plan (OZP) proposed by the Planning Department (PlanD), the interests of Members in relation to HKHA on the item only needed to be recorded and they could stay in the meeting. The Committee noted that Mr Thomas O.S. Ho had tendered an apology for being unable to attend the meeting and Mr Alex T.H. Lai had already left the meeting.

33. The following representatives from PlanD, CEDD, HD, and the consultants were invited to the meeting at this point:

PlanD

Mr Derek P.K. Tse	-	District Planning Officer/Tsuen Wan and West Kowloon (DPO/TWK)
Mr Stephen C.Y. Chan	-	Senior Town Planner/Tsuen Wan and West Kowloon District (STP/TWK)
Ms Apple W.C. Lau	-	Town Planner/Tsuen Wan and West Kowloon

CEDD

Mr Leung Chi Foon	-	Chief Engineer/Special Duties (Works) (CE/SD(Works))
Mr Pierre S.W. Wong	-	Senior Engineer 1/Special Duties (Works)

HD

Ms Canetti P.S. Yu	-	Senior Town Planner/6
Mr Garret K.Y. Hong	-	Senior Architect/3 (Acting)

Consultants

Mr Calvin C.W. Li]	WSP
Ms Pamela B.Y. Lui]	

Presentation and Question Sessions

34. With the aid of a PowerPoint presentation, Mr Stephen C.Y. Chan, STP/TWK, presented the proposed amendments as detailed in the Paper and covered the following main points:

Background

- (a) to meet the pressing need for housing land supply, the Government had been carrying out various land use reviews, including “Green Belt” (“GB”) sites. A site to the west of Tsing Yi Road West (the Site) with a sloping terrain was identified for public housing development;

The Rezoning Proposal

- (b) taking into account the policy directive for intensification of the maximum plot ratio (PR) for public housing sites (i.e. up to 30% increase in total), the site context and the results of the EFS, it was proposed to rezone the Site (about 2.73 ha) from “GB” to “Residential (Group A) 5” (“R(A)5”) subject to a maximum PR and building height (BH) of 6.7 and 220mPD respectively, providing about 3,800 units and other ancillary and government, institution and community (GIC) facilities;

Technical Assessments

- (c) the EFS conducted by CEDD covered various technical aspects, which confirmed that the proposed public housing development was technically feasible with no insurmountable technical problem with implementation of the appropriate mitigation measures;

Provision of GIC Facilities and Open Space

- (d) taking into account the proposed development under Amendment Item A, the existing and planned provision of GIC facilities and open space were generally adequate to meet the demand of the overall planned population of Tsing Yi Planning Area in accordance with the requirements of the Hong Kong Planning Standards and Guidelines (HKPSG);
- (e) according to the HKPSG, there would be shortfalls in the provision of hospital beds, residential care homes for the elderly, community care services facilities and child care centres. As for hospitals, the assessment of the overall provision was based on a hospital cluster, and a number of hospital redevelopment projects were planned under the First and Second Ten-year Hospital Development Plans. GIC facilities would be provided

in the proposed development. The actual provision of social welfare facilities would be subject to the consideration of the Social Welfare Department in the planning and development process, as appropriate;

Departmental Comments

- (f) relevant government bureaux and departments had no objection to or no adverse comment on the proposed OZP amendments;

Consultation

- (g) the Kwai Tsing District Council (K&TDC) was consulted on 11.5.2021 regarding the EFS. While K&TDC members in general did not object to the provision of more public rental housing units, they considered that the proposed development was not acceptable and expressed concerns on the proposed location, excessive development intensity, adverse traffic and ecological impacts, inadequate provision of open space, GIC and retail facilities in the proposed development and uncertainty on the type of public housing to be provided, etc.. K&TDC also passed a motion that the proposed development should be suspended or an alternative site be identified unless the proposal had been suitably refined on various technical aspects. During consultation with K&TDC, a letter from the Owners' Committee of Mount Haven expressing objection to the proposed development was also received; and
- (h) in response to the motion passed by K&TDC, a letter was issued by the Secretary for Development on 4.6.2021 to further explain the need for the rezoning and provide detailed responses to the concerns raised.

35. As the presentation by PlanD's representative had been completed, the Chairman invited questions from Members.

36. The Chairman and some Members raised the following questions:

- (a) noting that the Site fell within the "GB" zone and K&TDC had expressed that alternative location, such as brownfield sites and the Tsing Yi North

Area should be considered, whether the Government had considered alternative sites for public housing developments in Tsing Yi;

- (b) noting that the southern part of the Site fell within the consultation zone of an oil depot, i.e. Shell Tsing Yi Installation, which was a Potentially Hazardous Installation (PHI) located to the further southwest of the Site, whether developments within the consultation zone should be permitted or not;
- (c) the findings of the Hazard Assessment (HA) conducted and mitigation measures proposed on the potential risk to the public housing development;
- (d) whether the existing watercourses would be affected by the proposed public housing development, and if so, how the diversion of watercourse would be undertaken and whether there was any successful precedent case;
- (e) what factors had been taken into consideration in deciding on the 10m-wide buffer zone; and
- (f) whether the Site was of high conservation value.

37. In response, Mr Derek P.K. Tse, DPO/TWK, PlanD, Mr Leung Chi Foon, CE/SD(Works), CEDD, and Mr Calvin C.W. Li, WSP, made the following main points:

- (a) the Government had adopted a multi-pronged approach in identifying suitable sites for residential development, including reviews on “GB” sites. The first stage of “GB” review mainly covered “GB” areas which were formed, deserted or devegetated while the second stage covered “GB” zones in the fringe of built-up areas close to existing urban areas and new towns, and those vegetated areas with relatively less buffering effect and lower conservation value. The Site was identified at the second stage of “GB” review. A few sites in Tsing Yi previously identified suitable for residential development had been rezoned and proceeded to various stages of development. Two possible sites in the vicinity of Kwai Tsing

Container Terminals had been explored but they were considered not suitable for residential development given the land use incompatibility due to the operation of the container terminal. While the northeastern part of the coastal area of Tsing Yi North was mainly residential in nature, the remaining coastal area was generally intended for boatyard and marine-oriented industrial uses requiring waterfrontage and had already been used for some existing shipbuilding and repairing activities, and thus, not considered suitable for residential use;

- (b) the consultation zone of PHIs was specified to require the assessment of the associated risks. HAs were required for developments within the consultation zone of PHIs (i.e. up to 1,000m) to ensure that the associated risks were controlled within an acceptable level. Delineation of the consultation zone was not meant to rule out any development in the area. Moreover, other completed residential developments within the same consultation zone such as Ching Wah Court to the southeast of the Site could also be found;
- (c) the HA for the Site concluded that the individual risk criteria would not exceed 1 in 100,000 per year which complied with the Hong Kong Risk Guidelines as outlined in the HKPSG whereas the societal risks were within the level of “As Low As Reasonably Practicable”. The HA had been submitted to the Co-ordinating Committee on Land-use Planning and Control Relating to Potentially Hazardous Installations in December 2020 for its consideration. Relevant government departments had no in-principle objection to the HA. No mitigation measure was required as the individual risk criteria and societal risks were in compliance with the Hong Kong Risk Guidelines;
- (d) a watercourse running across the Site from a south to north direction would be affected and diversion of the watercourse was required for the development. According to the Preliminary Environmental Review, two freshwater crab species worthy of conservation, namely *Nanhaipotamon hongkongense* and *Cryptopotamon anacoluthon*, were recorded in the

watercourse and proposed to be translocated to the upper course of the diverted watercourse to mitigate the potential ecological impact arising from the diversion works. Opportunities would be taken to revitalise the diverted watercourse with incorporation of ecological elements, such as microhabitats in the diverted watercourse to enhance biodiversity and ecological functions. Appropriate construction methods and interface treatments by an authorised person would be carried out before the construction of the proposed public housing development. Similar stream diversions and translocations of aquatic species of conservation worthiness could be found in other government projects such as the public housing development at Pik Wan Road. Every effort would be made to mitigate the ecological impacts that might be caused by the proposed public housing development;

- (e) in devising a 10m-wide buffer zone alongside the diverted watercourse, CEDD had consulted the Agriculture, Fisheries and Conservation Department which considered that a buffer zone of such width would be sufficient to mitigate the potential indirect impact of human activities from the proposed development; and
- (f) according to the Preliminary Landscape and Visual Impact Assessment on the Site, four immature *Aquilaria sinensis*, which were proposed to be transplanted, had been identified at the northeastern portion of the Site. The other trees identified were common species of lower conservation value. The two freshwater crab species recorded, namely *Nanhaipotamon hongkongense* and *Cryptopotamon anacoluthon*, were worthy of conservation.

38. After deliberation, the Committee decided to:

- (a) agree to the proposed amendment to the approved Tsing Yi OZP No. S/TY/30 and that the draft Tsing Yi OZP No. S/TY/30A at Attachment II (to be renumbered to S/TY/31 upon exhibition) and its Notes at Attachment III are suitable for exhibition under section 5 of the Town Planning

Ordinance; and

- (b) adopt the revised ES at Attachment IV for the draft Tsing Yi OZP No. S/TY/30A as an expression of the planning intentions and objectives of the Board for various land use zonings of the OZP and that the revised ES will be published together with the OZP.

39. Members noted that, as a general practice, the Secretariat of the Board would undertake detailed checking and refinement of the draft OZP including the Notes and ES, if appropriate, before their publication under the Town Planning Ordinance. Any major revision would be submitted for the Board's consideration.

[The Chairman thanked the government representatives and the consultants for their attendance to answer Members' enquiries. They left the meeting at this point.]

Provision of Major Community Facilities and Open Space in Tsing Yi Outline Zoning Plan

Type of Facilities	Hong Kong Planning Standards and Guidelines (HKPSG ¹)	HKPSG Requirement (based on planned population)	Provision		Surplus/ Shortfall (against planned provision)
			Existing Provision	Planned Provision (including Existing Provision) ²	
District Open Space	10 ha per 100,000 persons [#]	20.04 ha	20.79 ha	20.79 ha	+ 0.75 ha
Local Open Space	10 ha per 100,000 persons [#]	20.04 ha	42.81 ha	49.11 ha	+ 29.07ha
Secondary School	1 whole-day classroom for 40 persons aged 12-17 [#]	244 classrooms	185 classrooms	245 classrooms	+ 1 classroom
Primary School	1 whole-day classroom for 25.5 persons aged 6-11 [#]	271 classrooms	326 classrooms	326 classrooms	+ 55 classrooms
Kindergarten/ Nursery	34 classrooms for 1,000 persons aged 3 to under 6 [#]	99 classrooms	143 classrooms	163 classrooms	+ 64 classrooms
District Police Station	1 per 200,000 to 500,000 persons	0	1	1	+ 1
Divisional Police Station	1 per 100,000 to 200,000 persons	1	1	1	0
Hospital	5.5 beds per 1,000 persons	1,160 beds	0 beds	0 beds	-1,160 beds ³
Clinic/Health Centre	1 per 100,000 persons	2	2	2	0
Magistracy (with 8 courtrooms)	1 per 660,000 persons	0	0	0	0
Child Care Centre	100 aided places per 25,000 persons [#]	802 places	155 places	255 places	- 547 places ⁶
Integrated Children and Youth Services Centre	1 for 12,000 persons aged 6-24 [#]	3	4	4	+ 1
Integrated Family Services Centre	1 for 100,000 to 150,000 persons [#]	1	2	2	+ 1
District Elderly Community Centres	One in each new development area with a population of around 170,000 or above [#]	N.A.	0	0	N.A.
Neighbourhood Elderly Centres	One in a cluster of new and redeveloped housing areas with a population of 15,000 to 20,000 persons, including both public and private housing [#]	N.A.	6	7	N.A.

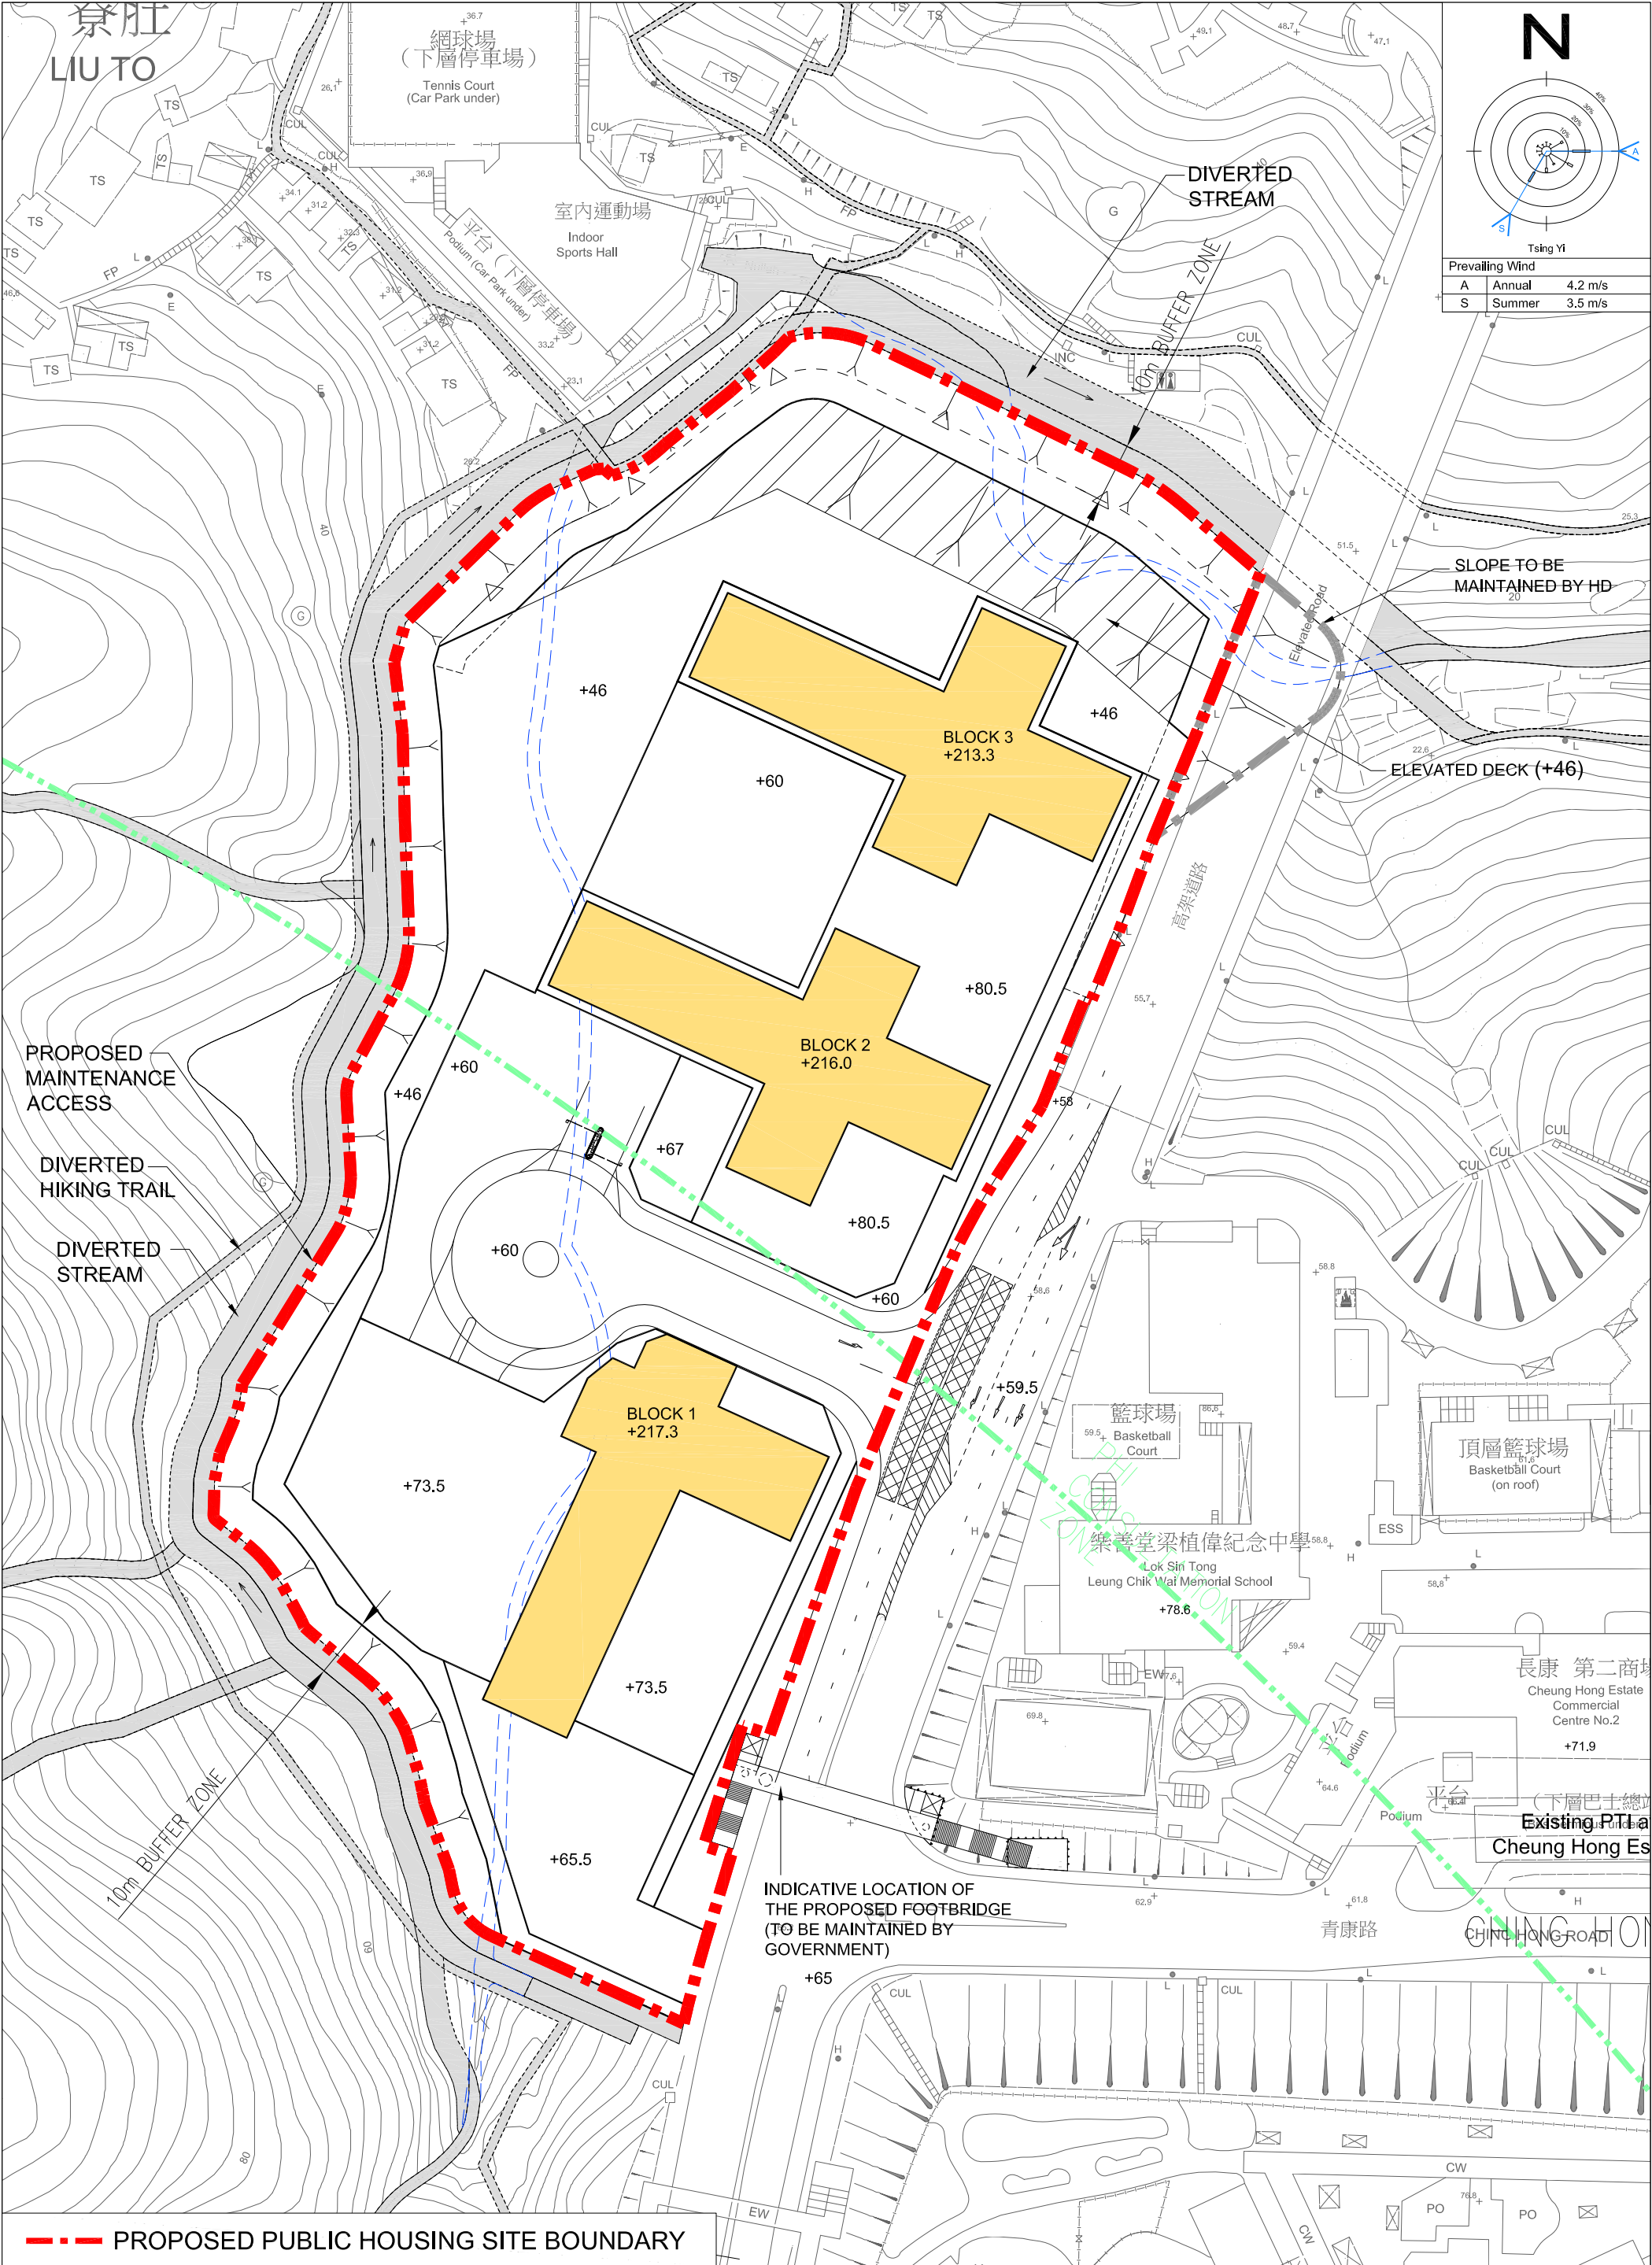

Type of Facilities	Hong Kong Planning Standards and Guidelines (HKPSG ¹)	HKPSG Requirement (based on planned population)	Provision		Surplus/ Shortfall (against planned provision)

Sports Centre	1 per 50,000 to 65,000 persons [#]	3	4	4	+ 1
Sports Ground/ Sport Complex	1 per 200,000 to 250,000 persons [#]	0	1	1	+ 1
Swimming Pool Complex – standard	1 complex per 287,000 persons [#]	0	2	2	+ 2

Note:

1. The Planned Resident Population including Usual Residents (UR) and Mobile Residents (MR) in Tsing Yi OZP is about 200,500. If including Transients, the overall planned population is about 211,000. All population figures have been adjusted to the nearest hundred.
2. Local open space, a kindergarten and other social welfare facilities are proposed under the public housing development near Tsing Yi Road West. As the proposed social welfare facilities within the said public housing development are being finalised, the planned provision as listed in the table above has only included the proposed local open space and kindergarten while the proposed social welfare facilities under the said public housing development has not been taken into account.
3. The provision of hospital beds is assessed by the Hospital Authority on a regional basis.
4. There is no rigid distribution between centre-based CCS and home-based CCS stated in the Elderly Services Programme Plan. Nonetheless, in general, 60% of CCS demand will be provided by home-based CCS and the remaining 40% will be provided by centre-based CCS. The planned provision as listed in the table above has included planned projects at very early planning stage which are subject to change.
5. Residential Care Services (RCS) for the elderly is planned by the Social Welfare Department (SWD) on a five-cluster basis (i.e Hong Kong, East Kowloon, West Kowloon, New Territories West and New Territories East) and the standard stipulated in the HKPSG should be applied flexibly having regard to a number of factors to be considered by SWD including the land supply in different districts in the cluster, service demand as a result of population growth and demographic changes as well as provision of different RCS of the clusters.
6. This is a long-term goal and the actual provision would be subject to the consideration of the SWD in the planning and development process as appropriate. It may not be appropriate to compare the standards with the provision of services and facilities which are assessed by SWD on a separate cluster/district basis. PlanD and SWD will work closely together to ensure that additional GIC facilities will be included in new and redevelopment proposals from both public and private sectors.

The requirements exclude planned population of transients.

主旨: 公眾諮詢 (改劃申請S/TY/31)

致 城市規劃委員會,

反對青衣綠化地帶改劃 S/TY/31

我們反對《青衣分區計劃大綱草圖編號 S/TY/31》的修訂項目，擬議將位於寮肚的一塊「綠化地帶」，改劃作「住宅（甲類）5」地帶。是次選址錯誤且報告馬虎失實，區議會通過暫緩討論項目後，項目竟被提交至城規會作改劃申請，此舉無視區議會意見，亦有草率通過之嫌。我們促請政府全面撤回項目，及維持該「綠化地帶」的土地用途。原因如下：

1. 住宅發展將人命置於危險當中

根據 1982 年《青衣潛在危機報告》，一個一千噸的石油氣影響範圍達到一千米，而八五年環保署向地政工務科建議，油庫與民間之間嘅距離必須是一千米。而選址劃作「綠化地帶」正正是作為天然屏障，隔開青衣島南面及西面的貯油庫與東北面的住宅區，降低危險工業的風險。按照這規劃原意，今次改劃的用地已在危險範圍以內，並不適合興建住宅！再者，預算興建的樓層比山峰更高，失去山峰屏障作用，任何爆炸事故將會直接威脅住宅安全。然而，政府卻沒有提交任何相應的風險管理評估、或其他有力證據，便無故無由地昔日明確訂定的危險區域，甚至聲稱無須做任何防禦措施，這一改劃嚴重危害市民的生命安全。

2. 違反「綠化地帶」規劃原意 成不良先例

根據現時的青衣分區計劃大綱核准圖，「綠化地帶」的規劃「主要是保育已建設地區/市區邊緣地區內的現有天然環境、防止市區式發展滲入這些地區，以及提供更多靜態康樂地點」，^[1]更強調此地帶「是為了保護現有的山脈」，並指明「『綠化地帶』內不宜進行發展」^[1]。是次改劃明顯違反「綠化地帶」以保育天然環境的規劃原意。一旦改劃成功，必定成為不良先例，令綠化地帶失去其緩衝作用，任由城市發展在未來進一步侵蝕青衣後山及全港的綠化地帶。

3. 發展將永久摧毀具高生態價值的天然河溪

改劃範圍將直接摧毀青衣現存最大、水源最充足且具高生態價值的天然河溪（即寮肚坑）以及河谷的原生次生林。是次發展將斬去至少 1,260 棵樹；並直接影響受法例規管、具不同保育狀況的重要植物物種，如土沉香及金狗毛蕨；破壞具保育價值物種（如香港特有種香港南海溪蟹）的棲息及繁殖地。擬議發展將導致不可逆轉的棲息地損失，並直接危及各種受法例規管的物種及具保育價值物種的生存。

4. 環境報告粗疏 嚴重低估其生態價值及影響

環境影響評估報告沒有說明生態基線調查的詳細資料，更嚴重缺乏兩棲及爬行類動物和雀鳥等的數據。申請文件未能紀錄在寮肚河谷一帶的重要物種多不勝數，例如受法例規管的金狗毛蕨；具保育價值的雀鳥，包括「國家二級保護動物」鳳頭鷹、國家列為易危的綠翅金鳩及「本地關注」的白胸

翡翠；超過 13 種的蛇類，包括全球「易危」的眼鏡蛇、中國紅皮書中被列為「極度瀕危」的蟒蛇。報告粗疏且具多處漏洞，嚴重低估改劃範圍的生態價值。

5. 違背政府訂立的綠化地帶改劃準則

政府曾在兩份施政報告提及檢討綠化地帶的發展潛力。在兩個階段的檢討中，分別只限於一些「沒有植被、荒廢或已平整」的土地，以及「有植被但緩衝作用和保育價值相對較低」的「綠化地帶」。然而，是次青衣的綠化地帶選址有茂密的植被覆蓋，而且具高生態價值，完全不符合上述準則，違背政府在履行改劃準則的承諾。

6. 取難捨易 不符合成本效益 應遵循「先棕後綠」原則

根據本土研究社及綠色和平最新的《失棕罪——香港棕地現況報告 2021》，「辨認出 1,958 公頃棕地，相差達約 380 公頃，面積約為 2.3 個粉嶺高爾夫球場」[2]。今次選址位於高風險地帶，對天然河溪毀壞性深遠，於 30 米高峽谷進行工程亦相當有難度。建造成本及時間完全不符合成本效益，更會拖慢房屋供應的進度。再者，住屋和郊野並不對立，政府在解決住屋需求時，應從不同政策著手，確保土地分配公義，並嚴格遵循「先棕後綠」的原則。

7. 交通評估報告誤導 核意忽略多個項目落成後的累積交通壓力

根據現時政府的交通影響評估報告，指出青衣西路與青康路的交通流量使用率達 70-80% 滿，表示這是可接受程度，但這統計結果與早年因應青衣西南另一公營房屋—青富苑工程的交通報告大有出入。青衣西南多個屋苑相繼落成（青富苑、明翹匯、薈藍），總戶數接近 4000 伙，整個青衣西南交通流量暫將以倍數增長，現報告顯然未有包含未來整體青衣發展後作出預算。更大問題是，改劃工程選址依賴兩條青衣主幹道（即青康路及青衣西路）的路面超出負荷已是眼前可見之事。

8. 社區配套長期不足 強加人口漠視民生

選址附近欠缺完善的社區配套。區內街市凋零，醫療設施（包括診所及夜診）、生活店舖及停車泊位等長期嚴重不足。此外，根據擬修訂《青衣分區計劃大綱核准圖編號 S/TY/30》的規劃文件，當增加了擬議住宅發展所帶來的 10,300 人口後，青衣分區計劃大綱圖範圍內所需的社區照顧服務設施及長者院舍，亦分別有 131 及 858 個位的短缺，醫院床位亦有 1160 個床位短缺。擬議住宅發展必定加劇長期的社區配套不足問題，更漠視要舒緩社區壓力。

9. 屏風高樓的嚴重景觀、視覺和空氣流通影響

項目將包括三幢高達主水平基準上 220 米（約 50 層高）的樓宇，高過附近的山脊線，不但直接破壞該區景觀，亦會形成屏風效應，對處於低位的寮肚村及曉峰園造成直接的負面影響。而政府亦已經承認「無可避免會在視覺方面帶來影響」，並會「對附近部分地方的通風環境帶來影響」。由此可見，改劃項目將於景觀及空氣流通方面，對毗鄰住宅帶來不可逆轉的影響。

10. 缺乏公眾諮詢 違反程序公義

政府在葵青區議會會議前短短五天才提交討論文件，而該討論文件更欠缺改劃的詳細內容及報告，嚴重窒礙當區市民理解計劃。葵青區議會於五月份大會討論結果是「在沒有足夠資料前，要求延遲申請及再次將整份報告上會討論。」可惜報告在區議會通過暫緩計劃後，仍然向城規會提交改劃申請。再者，政府刻意掩飾地盤工程（如斜坡工程）有可能超出申請範圍，甚至與最近的要求遷村事件有關 [3]。諮詢過程馬虎且粗暴，漠視民意，政府亦有違反程序公義之嫌。
