A/I-TCE/1

Executive Summary

The Planning Application is submitted by the Hong Kong Housing Authority (“HKHA”) to seek approval from the Town Planning Board (“TPB”) under Section 16 of the Town Planning Ordinance for minor relaxation of maximum overall Plot Ratio (PR) from 6.4 to 6.7 (+ around 4.7%) of the public housing development and the proposed public vehicle park (“PVP”) with 80 private car parking spaces at Tung Chung Area 99 (the Application Site).

The Application Site falls within an area zoned “Residential (Group A)3” (“R(A)3”) under the approved Tung Chung Extension Area Outline Zoning Plan No. S/I-TCE/2 (the OZP), and is subject to a maximum overall permissible PR of 6.4 and building height restriction of 125 mPD. According to the Notes of the OZP, PVP use is a Column 2 use and planning permission from the TPB is required.

Due to shortage of land for public housing development, the Government has been adopting a multi-pronged approach in increasing public land supply, including optimization of development potential of public housing sites where technically permits. In line with Government’s initiative announced in December 2018 on “Enhanced Development Intensity of Public Housing Sites” to increase the maximum domestic PR of the public housing sites in New Towns by up to 30% as appropriate where their technical feasibility permit, the HKHA proposes to increase the maximum overall PR of the Application Site from 6.4 to 6.7, while keeping the building height below the statutory limit of 125 mPD, with a view to optimizing the use of the public housing land. The development proposal comprises of five housing blocks providing about 4,800 public housing flats with a design population of about 14,880 persons, as well as a public transport interchange (“PTI”) and a PVP.

The proposed minor relaxation of PR restrictions and the proposed PVP are fully justified with the following major reasons:

- The proposal is in-line with the refined policy on “Enhanced Development Intensity of Public Housing Sites” approved by Executive Council in December 2018 for optimizing land utilization;

- The proposal is to meet the acute demand for public housing. Under the Long Term Housing Strategy 2019, the split ratio of public / private housing of 70:30 is adopted continuously, and supply target for public housing is 301,000 for ten year from 2020/21 to 2029/30;
- The proposed public housing development is compatible with the surrounding development context;
- Technical assessments conclude that the proposal will have no insurmountable adverse impacts on traffic, fresh and salt water supply, environmental, drainage and sewerage capacity aspects; and
- A PVP is proposed to meet the parking demand in the district.

In view of the above, the TPB is requested to give favorable consideration on the proposed minor relaxation of PR and proposed PVP at the Application Site.

行政摘要

(聲明：此中文譯本僅供參考，如中文譯本和英文原文有差異時，應以英文原文為準。)

是項規劃申請是由香港房屋委員會（下稱「房委會」）向城市規劃委員會（下稱「城規會」）提出，旨在根據《城市規劃條例》第16條，向城規會申請規劃許可，略為放寬於東涌第99區公共房屋發展計劃（下稱「申請地盤」）的最高總地積比率由6.4倍增加至6.7倍（+約4.7%），及擬議提供一個有80個私家車泊位的公眾停車場。

申請地盤位於《東涌擴展區分區計劃大綱核准圖編號 S/I-TCE/2》（以下簡稱「大綱核准圖」）上的「住宅（甲類）3」地帶內，受限於最高總地積比率6.4倍，以及建築物高度上限的主水平基準以上125米。另外，根據大綱核准圖，公眾停車場屬有關地帶《註釋》第二欄所載的用途，須向城規會申請規劃許可。

因應公營房屋用地短缺，政府一直採取多管齊下的措施以增加公營房屋土地供應，包括在技術可行的情況下優化個別公營房屋地盤的發展潛力。為配合2018年12月政府公布的「提升公營房屋用地的發展密度」政策，旨在技術可行的情況下可適度提高在新市鎮的最高住宅地積比率約三成。房委會建議申請地盤的總地積比率由6.4倍增加至6.7倍，並同時保持建築物高度低於主水平基準以上125米的限制，以更有效運用珍貴的土地資源。擬議發展包括興建5幢住宅大廈，提供約4,800個公營房屋單位，並容納約14,880預計人，以及一個公共運輸交匯處和公眾停車場。

擬議略為放寬地積比率限制及擬議公眾停車場的主要理據如下：

- 提案符合行政會議於2018年12月核准的「提升公營房屋用地的發展密度」政策，以善用土地資源；
- 提案是為了滿足公營房屋的殷切需求。根據《長遠房屋策略2018》，公私營房屋供應比例繼續維持為70：30，而2020/21至2029/30年度10年間的公營房屋供應目標為301,000個單位；
- 擬議公營房屋發展與周邊的發展密度兼容；
- 技術評估亦證明提案不會在交通、食水及海水供應、環境、排水及排污流量方面構成不可克服的負面影響；以及
- 擬議公眾停車場是為滿足地區泊位需求。

基於以上各點，懇請城規會批准略為放寬申請地盤的地積比率限制及擬議公眾停車場。
