New Territories Exempted House (NTEH)/Small House in New Territories  
( promulgated on 7.9.2007 )**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant

standards; and

- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- <sup>^</sup>i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

**Government Departments' General Comments**

**1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- the application site (the Site) falls within the village 'environs' ('VE') of Kai Leng Village;
- the Small House application is under processing. The applicant claimed himself as an indigenous villager of Sheung Shui, Sheung Shui Heung. The applicant's eligibility for Small House grant is yet to be ascertained;
- the Site is Old Schedule Agriculture Lot held under Block Government Lease; and
- the location of the proposed septic tank and soakage pit was not provided in the Small House application.

**2. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the proposed development is not supported from agricultural perspective; and
- the Site falls within the "Agriculture" ("AGR") zone and is abandoned. The agricultural activities are active in the vicinity, and agricultural infrastructures such as road access and water source are also available. The Site can be rehabilitated for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. The Site possesses potential for agricultural rehabilitation.

**3. Traffic**

Comments of the Commissioner for Transport (C for T):

- no objection to the application from traffic perspective;
- the application only involves development of one Small House at the Site and it can be tolerated on traffic grounds;
- although additional traffic generated by the proposed development is not significant, the permission of development outside the "Village Type Development" ("V") zone will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact has to be reviewed on case-by-case basis in the future; and
- the local village access leading to the Site from Wai Hon Road is not managed by her department.

#### 4. **Environment**

Comments of the Director of Environmental Protection (DEP):

- no objection to the application;
- in view of small scale of the proposed development, the application is unlikely to cause major pollution; and
- his advisory comments are at **Appendix VI**.

#### 5. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection to the application from public drainage viewpoint;
- the Site is in an area where no stormwater drain maintained by DSD is available;
- the Site is in an area where no public sewerage connection is available; and
- her advisory comments are at **Appendix VI**.

#### 6. **Water Supplies**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- no objection to the application; and
- his advisory comments are at **Appendix VI**.

#### 7. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- no adverse comment on the application from landscape planning perspective;
- the Site is located in an area of rural inland plains landscape character comprising clusters of trees, vegetated areas, farmland, village houses within the “V” zone to the north of the Site, and vehicle parks. The proposed use is not incompatible with the landscape character in the surrounding area of the Site; and
- based on recent site photos and inspection, the site is vacant and generally vegetated without significant landscape resources. According to the Application Form, there are no existing trees within the Site and no tree felling is anticipated. Significant adverse

impact on existing landscape resources within the Site arising from the proposed use is not anticipated; and

- her advisory comments are at **Appendix VI**.

## **8. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- no in-principle objection to the application provided that the proposed development would not encroach on any existing emergency vehicular access (EVA) or planned EVA under application in accordance with LandsD's record; and
- his advisory comments are at **Appendix VI**.

## **9. Demand and Supply of Small House Site**

According to DLO/N, LandsD's record, the total number of outstanding Small House applications for Kai Leng Village is 51, while the 10-year Small House demand forecast for concerned village is 18. Based on the latest estimate by the Planning Department, about 0.64ha (or equivalent to about 25 Small House sites) of land is available within the "V" zone of Kai Leng Village. Therefore, the land available cannot fully meet the future demand of 69 Small Houses (or equivalent to about 1.73ha of land).

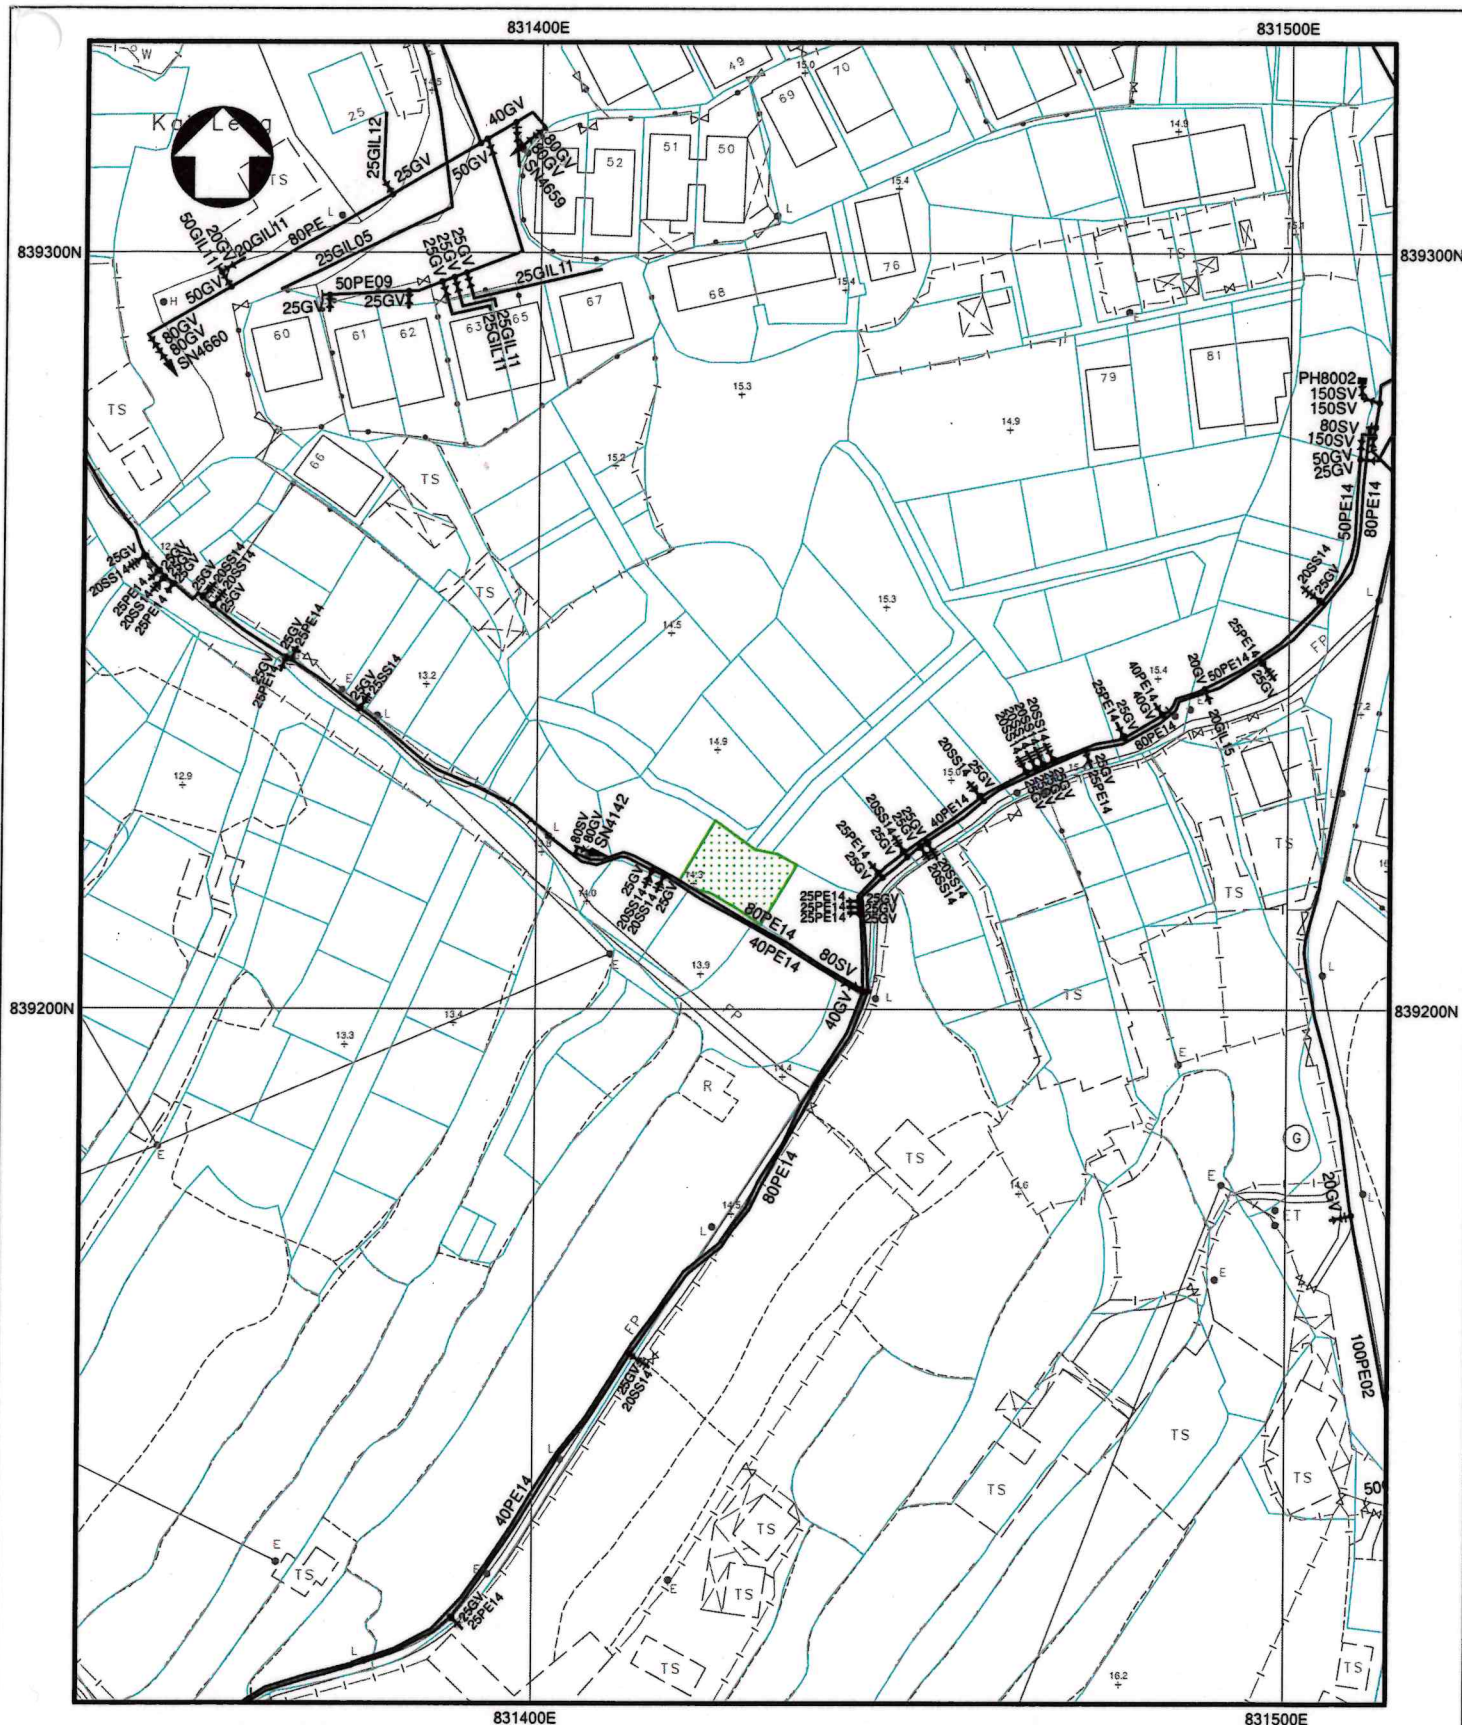

**Recommended Advisory Clauses**

- (a) to note the comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/NTE, HyD) that adequate drainage measures should be provided to prevent surface water running from the application site (the Site) to the nearby public roads and drains;
- (b) to note the comments of the Director of Environmental Protection (DEP) that:
  - based on the information obtained from GeoInfo Map 3.0, the closet manhole near the Site is FMH1030408, and the distance between the Site and the closest manhole is approximately 105m; and
  - the applicant may consider providing adequate sewer connection for disposal of sewage from Small House to the existing public sewer at his own cost and reserve adequate land for the sewer connection works. If sewer connection works is not feasible, the septic tank and soakaway system could be an acceptable means for collection, treatment and disposal of sewage provided that its design and construction following the requirements of ProPECC PN 1/23 and duly certified by the Authorized Person (AP);
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the applicant shall submit and implement a drainage proposal for the Site (at the Small House grant application stage) to ensure that the development will not cause adverse drainage impact to the adjacent area;
- (d) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that:
  - existing water mains insider the Site as shown in the Fresh Water Mains Record Plan (MRP) (**Attachment I**) may be affected. The applicant is required to either divert or protect the water mains found on site;
  - if diversion is required, existing water mains inside the Site are needed to be diverted outside the site boundary of the Site to lie in Government Land. A strip of land of minimum 1.5m in width should be provided for the diversion of existing water mains. The cost of diversion of existing water mains upon request will have to be borne by the applicant; and the applicant shall submit all the relevant proposal to WSD for consideration and agreement before the works commence; and
  - if diversion is not required, the following conditions shall apply:
    - existing water mains are affected as indicated on the site plan (**Attachment I**) and no development which requires resiting of water mains will be allowed;
    - details of site formation works shall be submitted to the Director of Water Supplies (D of WS) for approval prior to commencement of works;
    - no structures shall be built or materials stored within 1.5 metres from the centre

line(s) of water main(s) shown on the plan (**Attachment I**). Free access shall be made available at all times for staff of the D of WS or their contractor to carry out construction, inspection, operation, maintenance and repair works;

- no trees or shrubs with penetrating roots may be planted with the Water Works Reserve or in the vicinity of the water main(s) shown on the plan (**Attachment I**). No change of existing site condition may be undertaken within the aforesaid area without the prior agreement of the D of WS. Rigid root barriers may be required of the clear distance between the proposed tree and the pipe is 2.5m or less, and the barrier must extend below the invert level of the pipe;
  - no planting or obstruction of any kind except turfing shall be permitted with the space of 1.5 metres around the cover of any valve or within a distance of 1 metre from any hydrant outlet; and
  - tree planting may be prohibited in the event that the D of WS considers that there is any likelihood of damage being caused to water mains;
- (e) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that approval of the application does not imply approval of tree works such as pruning, transplanting, felling and compensatory / new tree planting. The applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works;
- (f) to note the comments of the Director of Fire Services (D of FS) that the applicant is advised to observe 'New Territories Exempted Houses - A Guide to Fire Safety Requirements' published by the Lands Department (LandsD). Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (g) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtains planning permission from Town Planning Board where required before carrying out the road work; and
- (h) to resolve any land issue relating to the associated road works, drainage/sewerage works or other works which are required for the proposed development with concerned owner(s) or managing department(s).

Lot 1582 S.B in D.D.91, Kai Leng, Sheung Shui  
Site area : About 102.6 m<sup>2</sup>  
Zoning : "Agriculture"  
Applied Use NET House

Dear TPB Members,

The site is outside the VZ zone and very evidently part of agricultural land.

The proposed development is not in line with the planning intention of the "Agriculture" zone which is to retain and safeguard good agricultural land for agricultural purposes. This zone is also intended to retain fallow arable land with good potential for rehabilitation. No strong planning justification has been given in the submission for a departure from the planning intention.

Approval of the applications would set an undesirable precedent of encouraging further encroachment on Agriculture zoned land.
