8. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

涉及地段的小型屋宇申請,曾先後於2014至2015年獲批但由於地政處處理丁屋申請需時,地政處亦於早前已通知有關地段屋位位置沒有問題,只待城規會再次審批。為固在上述地段空置的農業地帶作為申請建屋。

附近亦有其他可選擇之土地和此申請地點毗鄰已有建成的同類屋宇,亦都是經城規會批核的。

9. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in this application and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.
本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

**Relevant Interim Criteria for Consideration of Application for
New Territories Exempted House (NTEH)/Small House in New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognised village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);
- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and

(k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Government Departments' General Comments

1. Lands Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- the application site (the Site) falls within the village 'environs' of Ping Che;
- the Small House application of the Site is under processing subject to valid planning permission;
- the applicant claims himself as an indigenous villager of Shan Kai Wat. The eligibility of the applicant for Small House grant has yet to be ascertained; and
- the Site is an Old Schedule Agricultural Lot held under the Block Government Lease.

2. Traffic

Comments of the Commissioner for Transport (C for T):

- no objection to the application;
- the application only involves the construction of one Small House, and she considers that the application can be tolerated on traffic grounds;
- although additional traffic generated by the proposed development is not significant, the permission of development outside the "Village Type Development" zone will however set an undesirable precedent case for similar application. The resulting cumulative adverse traffic impact has to be reviewed on a case-by-case basis in the future; and
- her advisory comments are at **Appendix VI**.

Comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/HTW, HyD):

- no comment on the application from highways maintenance point of view; and
- his advisory comments are at **Appendix VI**.

3. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- no objection to the application from the public drainage viewpoint;
- adequate stormwater drainage collection and disposal facilities shall be provided to deal with the surface runoff of the Site or the same flowing on to the Site from the adjacent areas;
- the applicant should check and ensure that the existing drainage channel downstream to which the proposed connection will be made have adequate capacity and satisfactory condition to cater for the additional discharge from the Site. The applicant should also ensure that the flow from the Site will not overload the existing drainage system; and

- the Site is in an area where public sewerage connection is not available. Environmental Protection Department should be consulted regarding the sewage impact assessment and sewage treatment/disposal facilities for the proposed development.

4. **Environment**

Comments of the Director of Environmental Protection (DEP):

- no objection to the application from the environmental planning perspective;
- based on the information provided, in view of the proposed development, the application alone is unlikely to cause major pollution;
- no environmental complaint against the Site was received in the past three years; and
- his advisory comments are at **Appendix VI**.

5. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- no adverse comment on the application from landscape planning perspective;
- based on the aerial photo of 2024, the Site is located in an area of miscellaneous rural fringe landscape character comprising village clusters, open storages, temporary structures and tree clusters. With reference to the aerial photo of 2024, the Site is generally vacant with no significant landscape resources within it. Significant adverse impact on the landscape character and existing landscape resources within the Site is not anticipated; and
- her advisory comments are at **Appendix VI**.

6. **Agriculture and Natural Conservation**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

Agriculture

- the Site falls within the “Agriculture” zone and is generally abandoned. Agricultural infrastructures such as road access and water source are available in the areas. The Site can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc. As the Site possesses potential for agricultural rehabilitation, the proposed development is not supported from agricultural perspective;

Natural Conservation

- no strong view on the proposed development in the Site from nature conservation perspective; and
- his advisory comments are at **Appendix VI**.

7. Fire Safety

Comments of the Director of Fire Services (D of FS):

- no in-principle objection to the application at this stage provided that the proposed house would not encroach on any existing Emergency Vehicular Access (EVA) or planned EVA under application in accordance with LandsD's record; and
- his advisory comments are at **Appendix VI**.

8. Water Supplies

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- no objection to the application; and
- his advisory comments are at **Appendix VI**.

9. Demand and Supply of Small House Sites

According to DLO/N, LandsD's records the total number of outstanding Small House applications for Ping Che village cluster is 37 while the 10-year Small House demand forecast is 160. According to the latest estimate by PlanD, about 3.60 ha (equivalent to 143 Small House sites) of land are available within the "V" zone of Ping Che village cluster for Small House development. There is insufficient land in the "V" zone of Ping Che village cluster to meet the future demand of land for Small House development (i.e. about 4.93 ha of land which is equivalent to 197 Small House sites).

10. Other Departments

The following government departments have no objection to/no comment on the application:

- (a) Project Manager (North), Civil Engineering and Development Department (PM(N), CEDD); and
- (b) District Officer (North), Home Affairs Department (DO(N), HAD).

Recommended Advisory Clauses

- (a) to note the comments of the Director of Agriculture, Fisheries and Conservation (DAFC) that the Ping Che Egretty is located 70m away from the application site (the Site) boundary within “Village Type Development” zone of Ping Che. Any construction works within 100m distance from the Ping Che Egretty should be carried out outside the breeding season of egrets (i.e. March to August) to avoid any disturbance and/ or adverse impact on the breeding egrets;
- (b) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that approval of the application does not imply approval of tree works such as pruning, transplanting, felling and compensatory/ new tree planting. The applicant is reminded to seek approval for any proposed tree works from relevant departments prior to commencement of the works;
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that:
 - (i) adequate stormwater drainage collection and disposal facilities shall be provided to deal with the surface runoff of the Site or the same flowing on to the Site from the adjacent areas;
 - (ii) the applicant should check and ensure that the existing drainage channel downstream to which the proposed connection will be made have adequate capacity and satisfactory condition to cater for the additional discharge from the Site. The applicant should also ensure that the flow from the Site will not overload the existing drainage system; and
 - (iii) the Site is in an area where public sewerage connection is not available. Environmental Protection Department should be consulted regarding the sewage impact assessment and sewage treatment/disposal facilities for the proposed development;
- (d) to note the comments of the Director of Environmental Protection (DEP) that septic tank and soakaway pit are acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Professional Persons Environmental Consultative Committee Practice Notes (ProPECC PN) 1/23 ‘Drainage Plans subject to Comment by the Environmental Protection Department – Building (Standards of Sanitary Fitments, Plumbing, Drainage Works and Latrines) Regulations (Cap. 123I) Section 40(1), 40(2), 41(1) and 90’. The applicant should meet the relevant requirements of ProPECC PN 1/23 and implement the pollution controls measures as set out in the ‘Recommended Pollution Control Measures for Construction Contracts’ during construction works;
- (e) to note the comments of the Commissioner for Transport (C for T) that the local village access leading to the Site from Ping Che Road is not managed by Transport Department (TD);
- (f) to note the comments of the Chief Highway Engineer/New Territories East, Highways Department (CHE/NTE, HyD) that:
 - (i) the access arrangement should be commented by TD;
 - (ii) HyD is not/shall not be responsible for the maintenance of any access connecting the Site and the nearby public roads; and
 - (iii) adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public roads and drains;

- (g) to note the comments of the Director of Fire Services (D of FS) that the applicant should observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' which is administered by the Lands Department (LandsD). Detailed fire safety requirements will be formulated upon receipt of formal application via LandsD;
- (h) to note the comments of the Chief Engineer/Construction, Water Supplies Department (CE/C,WSD) that for provision of water supply to the development, the applicant may need to extend his inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standard;
- (i) to note the comment of the Project Manager (North), Civil Engineering and Development Department (PM(N), CEDD) that the proposed development is located within the proposed New Territories North (NTN) New Town under the Planning and Engineering (P&E) Study for NTN New Town and Man Kam To. The preliminary development proposal for and the proposed boundary of the Priority Development Area (PDA) of NTN New Town was released in December 2024. The applicant should note the proposed boundary of the PDA is being reviewed under the P&E study; and
- (j) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permissions from the Town Planning Board where required before carrying out the road works.
