現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

百年的樹齡) 及附近的細小草木(不細數) 所以對環境保護來說,在下取說,已把對向減至最低。在電力能源上,本園因沒有電力公司的電力網絡覆蓋,所以在下使用了太陽能的供電裝置設施,更是自然環境的保護(沒有回購電力的裝置)。

另外草樹園區及草地區是混合為一,約佔本園八成空間,會使用高身筒型鐵網把樹木圍上作保護,不讓草木被羊只放牧時咬食。

最後在下在此強調今次的填土面積,由上次申請的20%,減少到今次的不足10%。

這10%的填土申請只是滿足園內的行人路徑,希望署方批准。

**Extract of Town Planning Board Guidelines for
Application for Development within Green Belt Zone
under Section 16 of the Town Planning Ordinance
(TPB PG-No. 10)**

The relevant assessment criteria are as follows:

- (a) There is a general presumption against development (other than redevelopment) in a “Green Belt” (“GB”) zone. In general the Board will only be prepared to approve applications for development in the context of requests to rezone to an appropriate use.
- (b) An application for new development in a “GB” zone will only be considered in exceptional circumstances and must be justified with very strong planning grounds. The scale and intensity of the proposed development including the plot ratio, site coverage and building height should be compatible with the character of surrounding areas. With the exception of New Territories Exempted Houses, a plot ratio up to 0.4 for residential development may be permitted.
- (c) Applications for New Territories Exempted Houses with satisfactory sewage disposal facilities and access arrangements may be approved if the application sites are in close proximity to existing villages and in keeping with the surrounding uses, and where the development is to meet the demand from indigenous villagers.
- (d) Redevelopment of existing residential development will generally be permitted up to the intensity of the existing development.
- (e) Applications for government/institution/community (G/IC) uses and public utility installations must demonstrate that the proposed development is essential and that no alternative sites are available. The plot ratio of the development site may exceed 0.4 so as to minimize the land to be allocated for G/IC uses.
- (f) Passive recreational uses which are compatible with the character of surrounding areas may be given sympathetic consideration.
- (g) The design and layout of any proposed development should be compatible with the surrounding area. The development should not involve extensive clearance

of existing natural vegetation, affect the existing natural landscape, or cause any adverse visual impact on the surrounding environment.

- (h) The vehicular access road and parking provision proposed should be appropriate to the scale of the development and comply with relevant standards. Access and parking should not adversely affect existing trees or other natural landscape features. Tree preservation and landscaping proposals should be provided.
- (i) The proposed development should not overstrain the capacity of existing and planned infrastructure such as sewerage, roads and water supply. It should not adversely affect drainage or aggravate flooding in the area.
- (j) The proposed development must comply with the development controls and restrictions of areas designated as water gathering grounds.
- (k) The proposed development should not overstrain the overall provision of G/IC facilities in the general area.
- (l) The proposed development should not be susceptible to adverse environmental effects from pollution sources nearby such as traffic noise, unless adequate mitigating measures are provided, and it should not itself be the source of pollution.
- (m) Any proposed development on a slope or hillside should not adversely affect slope stability.

**Relevant extract of the Town Planning Board Guidelines for
Application for Developments within Deep Bay Area
(TPB PG-No. 12C)**

On 16.5.2014, the Town Planning Board Guidelines for Application for Developments within Deep Bay Area under Section 16 of the Town Planning Ordinance (TPB PG-No. 12C) were promulgated by the Town Planning Board, which set out the following criteria for the Wetland Buffer Area (WBA):

- (a) The intention of the WBA is to protect the ecological integrity of the fish ponds and wetland within the WCA and prevent development that would have a negative off-site disturbance impact on the ecological value of fish ponds. A buffer area of about 500m along the landward boundary of the WCA is thus designated as a WBA. As a substantial amount of the fish ponds within the WBA have already been lost over time through filling and certain areas have been degraded by the presence of open storage use, these degraded areas may be considered as target areas to allow an appropriate level of residential/recreational development so as to provide an incentive to remove the open storage use and/or to restore some of the fish ponds lost.
- (b) Within the WBA, for development or redevelopment which requires planning permission from the Board, an ecological impact assessment would also need to be submitted. Development/redevelopment which may have negative impacts on the ecological value of the WCA would not be supported by the Board, unless the ecological impact assessment can demonstrate that the negative impacts could be mitigated through positive measures. The assessment study should also demonstrate that the development will not cause net increase in pollution load to Deep Bay. Some local and minor uses are however exempted from the requirement of ecological impact assessment. They are listed in Appendix A and include temporary uses.

Appendix A

List of Uses Exempted from Ecological Impact Assessment Within the Wetland Buffer Area

For planning applications involving uses/development within the Wetland Buffer Area, the following uses/development are exempted from the requirement of ecological impact assessment as part of the submission to the Board :

Recommended Advisory Clauses

- (a) prior planning permission should have been obtained before commencing the applied development at the application site (the Site);
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that the lot owner(s) shall apply to LandsD for Short Term Waiver(s) (STW) to permit the structure(s) erected or to be erected within the subject lot, if any. The application(s) for STW(s) will be considered by the Government in its capacity as a landlord and there is no guarantee that it/they will be approved. The STW(s), if approved, will be subject to such terms and conditions including the payment of waiver fee and administrative fee as considered appropriate by LandsD. Besides, given the proposed use is temporary in nature, only erection of temporary structure(s) will be considered;

Dear Sir/ Madam,

Filling and Excavation of Land for Permitted Agricultural Use
(A/YL-LFS/585)

1. We refer to the captioned.
2. There is a rejected application covering the current application site for similar purpose (A/YL-LFS/359; Proposed Filling and Excavation of Land for Permitted Agricultural Use; rejected (Section 17) in 2020). The reasons for rejection are as follows:

(a) the application is not in line with the planning intention of the “Green Belt” zone and the Town Planning Board Guidelines No. 10 for ‘Application for Development within the Green Belt Zone under Section 16 of the Town Planning Ordinance’ in that the filling and excavation of land, which has been completed, involves clearance of natural vegetation, thereby adversely affecting the natural landscape and being incompatible with the surrounding areas; and

(b) the applicants fail to justify the need for land filling and excavation

3. We urge the Board to look at a photo extracted from the Town Planning Board Statutory Planning Portal 3 showing the site (bounded by red line).

4. Then we urge the Board to look at the below photo which was taken in mid-December 2025.

5. We urge the Board to consider whether the above reasons for rejection are applicable to the current application, and to also consider why the site needs to be filled and excavated for

Re: Appeal Hearing 14, 15 and 28 June; 8 August; and 15 September 2023

Review ; 17 July 2020 rejected again:

84. With the aid of the visualiser, Mr So Shu Yuen, the applicant, showed some site photos and made the following main points:

- (a) the application site (the Site) was bought in 2018; YEAH PROBABLY FROM HIS 'UNCLE'
- (b) the Site was used by the previous landowner as an open storage yard for gravels;

☐Urgent ☐Return receipt ☐Expand Group ☐Restricted ☐Prevent Copy ☐Confidential

(c) despite the Planning Authority (PA)'s requirement to reinstate the land, the previous landowner did not remove the gravels completely, but simply covered the gravels with a layer of soil before grassing the Site. That resulted in a cliff-like slope and rendered some areas inaccessible within the Site;

(d) to remedy, the applicants excavated the cliff-like slope into a more gentle slope for safe access within the Site; and

(e) the applicants would put the majority part of the Site into agricultural use. AND PIGS WILL FLY

the applicant, confirmed that the filling and excavation of land on site was mainly intended for slope stabilisation

Re three similar applications approved within the same "GB" zone, two of the approved applications were for pond filling for agricultural use. As WBA was intended for the protection of wetland within the Wetland Conservation Area, the location of the application sites outside the WBA was a relevant consideration. The remaining approved application No. A/YL-LFS/132, though located within the WBA, was for land filling. It was noted that the fill materials in that application were soil rather than hard paving as compared with the subject application. The planning circumstances of the subject application were different from those of the three approved applications;

Applicant claims he was not aware of the enforcement actions when he purchased the site UMMMM

91. Members noted that the applicant claimed that the excavation and filling of land carried out mainly intended for slope stabilisation. They further noted that the relevant government departments considered that the provision of cement paved area at the Site was not necessary from the slope safety point of view. There was insufficient information to assess the applicants' claim was justified. They generally agreed that there was no strong reason to depart from the RNTPC's decision.

Dear TPB Members,

The Minutes of 20 March show that this is indeed a Destroy to Build application.

The filling and excavation of land had been carried out at the site without planning permission. The applied use of filling and excavation of land for agricultural use was considered not compatible with the surrounding areas. The Chief Town Planner/Urban Design and Landscape, PlanD had reservation on the application as the applied use involving extensive hard paving and vegetation clearance was considered not compatible with the landscape character of the surrounding areas, and approval of the application would set an undesirable precedent to encourage similar developments to the area. The cumulative impact

☐Urgent ☐Return receipt ☐Expand Group ☐Restricted ☐Prevent Copy ☐Confidential
 of which would result in a general degradation of the landscape quality of the surrounding environment and undermine the integrity of the "Green Belt" ("GB") zone.

Unfortunately no mention of enforcement action to reinstate the site.

There is clearly no justification for approval.

Dear TPB Members,

Strong objections to this obvious Destroy to Build application. It is clear from Google Maps that unapproved excavation of natural terrain has already taken place.

Approval of this application would in essence open the door for further encroachment on GB.

Instead members should question related departments as to what action is being taken with regard to the damage done to GB and status of enforcement to ensure that the site is restored in line with its planning intention.

有關新界元朗流浮山丈量約份第129約地段第1236號B分段

擬議填土及挖土工程以作准許農業用途

(覆核申請編號：A/YL-LFS/585)

我等輞井圍居民強烈反對該個案申請填土及挖土工程，理由如下：

(一) 單一農業耕種無需要特大動作挖土填泥，又申請搭建屋宇。該地段土地本是梯田，若挖土填泥，若然處理不妥善，沒有一個專業標準建設土力報告及渠務報告！雨季期間會引發雨水及泥石流向下滑坡，有極大危險存在。

(二) 如批准該地段填泥挖土，極度不適宜！皆因側邊有條行人路供本區村民出入。填泥後該行人路段有冇受影響及如何保護本圍村民的平安。

(三) 該擬議發展地段側有個發水井，如何保圍中居民合境平安！

(四) 該擬議發展地段上側及右側皆是本圍祖先的葬區，現時已經有歷史淵源祖墳數拾個存在。若然填土及挖土會影響風水，影響村民自身健康！

(五) 因本圍坐落在該發展土地祇是只尺之隔，下游有頗民房屋宇。若然渠務處理不當，雨水及沙石泥會直沖下游，必然流經村民的房屋，恐引發水浸！因現時只有惟一一條不標準的自然渠道流入村，到時排水情況可以想像得到。

(六) 現時沒有標準道路供該地段的發展，祇有一條泥路供居民使用。

(七) 本圍村民的最關切素求是有幾點：(1) 村民的祖墳坐落在該發展地段周邊；(2) 填土及挖土後，泥石流會否沖滑落下游；(3) 渠務會否妥善建設處理好？

祈盼有關審批部門慎重處理，使本圍居民安居樂業！特此函達！惟盼！
