(i) The applicant provides the Memorandum of Understanding signed by the applicant and Affected Business Operator A, i.e. K. Y. H. Steel Company Limited. Please refer to **Annex 1**.

(ii) An RtC table:

Departmental Comments		Applicant’s Responses
1. Comments of the Chief Heritage Executive (Antiquities and Monuments), Antiquities and Monuments Office (CHE(AM), AMO)		
(a)	As the application site is situated within the Ngau Hom Sha Site of Archaeological Interest, the applicant is required to confirm/clarify with the AMO whether there is any ground excavation proposed for the development including but not limited to site formation works, drainage works, sewerage works, construction of septic tank etc. If affirmative, the applicant is required to provide details of the proposed works, e.g. the location, extent and depth of the proposed ground excavation for AMO’s further comment.	As mentioned in Section 5.5 of the Planning Statement, the application site (the Site) is located within the Ngau Ham Sha Site of Archaeological Interest (SAI). Subject to final approval of the Drainage Authority, peripheral drainage u-channels <u>within the layer of filling materials</u> are proposed along the site boundary to collect the run-off to minimise the adverse drainage impact to the surrounding area. For details of the drainage design, please refer to Annex 2 of the Supplementary Information submitted to the Town Planning Board on 18.03.2026. Given that the scale of works and no excavation is required for the proposed drainage work is minimal, the potential adverse impact to the SAI is not anticipated.
