(i) An RtC table:

<b>1. Comments of the Commissioner for Transport (C for T)</b>		
(a)	The application would involve 3 vehicular accesses in Shui Mei Road. The applicant should review and reduce the number to one for each development.	The application site comprises of 3 different operators under separate developments which are not accessible among them. Therefore, the 3 vehicular accesses are considered necessary in view of the actual operational need.  Staff will be deployed at the vehicular accesses while vehicles are entering and/or exiting the application site to ensure that there will be no obstruction to the local access.
(b)	The applicant should note the local access between Castle Peak Road - Tam Mi and the site is not managed by his Department.	Noted.
