[@] Ash interment capacity in relation to a columbarium means –

就靈灰安置所而言，骨灰安放容量指：

- the maximum number of containers of ashes that may be interred in each niche in the columbarium;
每個龕位內可安放的骨灰容器的最高數目；
- the maximum number of sets of ashes that may be interred other than in niches in any area in the columbarium; and
在該靈灰安置所並非龕位的範圍內，總共最多可安放多少份骨灰；以及
- the total number of sets of ashes that may be interred in the columbarium.
在該靈灰安置所內，總共最多可安放多少份骨灰。

Planning Justifications

1. The applicant seeks planning permission to use the application site (the Site) for temporary public vehicle park (excluding container vehicle) for a period of 5 years (the proposed development), on the approved Kam Tin North Outline Zoning Plan No. S/YL-KTN/11 (the OZP) at various lots in D.D. 107, Shan Ha Tsuen, Yuen Long, New Territories and adjoining government land. According to the Notes of the OZP for “Village Type Development” (“V”) zone, ‘Public Vehicle Park (excluding container vehicle)’ is a Column 2 use which requires permission from the Town Planning Board (the TPB). As the Site has been used for private car parking spaces since 2019, the applicant intends to seek regularisation of the existing use from the TPB.
2. In view of the growing population and newly built Small Houses in Sha Po Tsuen, increasing demand for parking lot is therefore expected. Previously, residents need to park their cars on roadside or vacant land in the village. The proposed development is considered not in conflict with the planning intention of the “V” zone as it supports the commuting needs of the residents.
3. The Site is accessible from Sha Po Tsuen Road via the local village access (Plan 2). The Site is currently used for private car parking, and is situated at the north-western corner of Sha Po Tsuen, with the village house cluster located to its south and encircled by Sha Po Tsuen Road. Sha Po Tsuen Fa Pau Society is located to the immediate west to the Site. It is considered compatible with the surrounding area.
4. The Site is solely for parking of private car with no structure proposed inside. A total number of 28 private car spaces (5m (L) x 2.5m (W)) are proposed. No structures would be erected in the Site (Plan 1). The opening hour of the proposed development will be 24 hours daily. No car washing, repairing and other workshop activities would be allowed in the site. The applicant also confirms that no open storage or storage of unlicensed vehicle would be involved at the Site during the planning approval period. Thus, the proposed use would not general nuisance to the surrounding. Vehicles other than private cars would not be allowed to enter the Site. Chain barrier will be set up to clearly demarcate the Site boundary fronting the nearby Sha Po Tsuen Fa Pau Society and village houses such that safety could be ensured through the separation between the

pedestrians/local villagers and vehicles.

5. The 4m-wide ingress/egress is located at the southwest corner of the Site. Sufficient manoeuvring space will be provided within the Site that no queueing of vehicles onto the public road is anticipated. As the car park users are villagers, only small amount of traffic attraction is expected, which will not impose significant traffic impact on the existing road network in the vicinity. The estimated traffic generation and attraction is shown below and the swept path analysis is shown in Plan 4:

Time Period	Private Car		2-way total
	In	Out	
Trips at morning peak (7:00 to 9:00 a.m.)	2	12	14
Trips at afternoon peak (5:00 to 7:00 p.m.)	12	2	14
Average Traffic trip per hour	6	6	12

6. The applicant will strictly follow the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" promulgated by the Environmental Protection Department and other relevant regulations so that no adverse environmental impact is imposed on the surrounding area. A drainage proposal (Appendix 1) has been submitted to demonstrate that no adverse drainage impact will be caused by the applied use with adequate drainage facilities installed. Also, fire service installations complying technical requirements would be provided upon request by concerning departments to ensure no adverse fire safety impacts generated. Since there is no tree in the Site, no adverse landscape impact is anticipated as well.
7. The Site comprises of private lots which is held under Block Government Lease and other types of government lease which may restrict the users without prior approval of the government (Plan 3). Upon planning permission granted from the TPB, the applicant will apply to the Lands Department for Short Term Waiver to permit relaxation of the user restriction on the concerned private lots.
8. The Site is not subject to any previous planning applications. Nevertheless, the

TPB has approved similar planning applications in “V” zones on the same OZP, including but not limited to A/YL-KTN/1076, A/YL-KTN/1072, A/YL-KTN/1046, A/YL-KTN/1039 and A/YL-KTN/1038, etc. Approval of the current application is in line with the TPB’s previous decisions and would not set an undesirable precedent within the “V” zone.

9. In light of the planning justifications furnished in this planning statement supported by the various technical assessments and the applicant’s strong commitment to strictly comply with all control ordinances, the applicant respectfully requests favourable considerations on this s.16 planning application by the TPB.
