**Notes:**

Facilities and open space figures of all OZPs (S/K13/34, S/K14N/17, S/K14S/28, S/K15/29 and S/K22/8(part)) within Kwun Tong DC district are included.

The planned resident population in Kwun Tong District (including ARQ) is about 802,500. If including transients, the overall planned population is about 832,800. All population figures have been adjusted to the nearest hundred.

**Remarks:**

& ARQ falls within Sai Kung DC.

% The new provision standard and refined criteria on countability for open space promulgated under Chapter 4 of HKPSG on 30.12.2025 are yet to be reflected in this table as the figures are being updated. The changes in provision standard or countability of open space do not affect the usage and enjoyment of the existing open space by members of the public.

# The requirements exclude planned population of transients.

^ The deficit in provision is based on the Kwun Tong District Council (including ARQ) planned population while Health Bureau (HHB) / Hospital Authority (HA) adopts a wider spatial context in the assessment and plans its services on a cluster basis, and takes into account a number of factors in planning and developing various public healthcare services. Under the on-going First Hospital Development Plan (HDP) and the second HDP currently under planning, the Government and HA will implement hospital development projects to provide additional beds and other medical facilities in order to meet the anticipated service demand. The Kowloon East Cluster serves residents at Kwun Tong and Sai Kung Districts.

π Small libraries are counted towards meeting the HKPSG requirement.

\* Consisting of 40% centre-based CCS and 60% home-based CCS.

@ This is a long-term goal and the actual provision would be subject to the consideration of the SWD in the planning and development process as appropriate.

\*\* The deficit in provision is based on District Council planned population while the SWD adopts a wider spatial context/cluster in the assessment of provision for such facility. In applying the population-based planning standards, the distribution of welfare facilities, supply in different districts, service demand as a result of the population growth and demographic changes as well as the provision of different welfare facilities have to be considered. As the HKPSG requirements for these facilities are a long-term goal, the actual provision will be subject to consideration of the SWD in the planning and development process as appropriate. The Government has been adopting a multi-pronged approach with long-, medium- and short-term strategies to identify suitable sites or premises for the provision of more welfare services which are in acute demand.
