

APPLICATION FOR PERMISSION
UNDER SECTION 16 OF THE TOWN PLANNING ORDINANCE

APPLICATION NO. A/YL-TT/802

- Applicant** : Charter Triumph Limited represented by Metro Planning & Development Company Limited
- Site** : Lots 1678 (Part) and 1679 (Part) in D.D. 119, Yuen Long
- Site Area** : 1,400 m² (about)
- Lease** : Block Government Lease (demised for agricultural use)
- Plan** : Approved Tai Tong Outline Zoning Plan (OZP) No. S/YL-TT/20
- Zoning** : “Agriculture” (“AGR”)
- Application** : Proposed Temporary Animal Boarding Establishment (Dog Kennel) and Associated Filling of Land for a Period of 3 Years

1. The Proposal

- 1.1 The applicant seeks planning permission for proposed temporary animal boarding establishment (dog kennel) and associated filling of land for a period of three years at the application site (the Site) falling within an area zoned “AGR” on the OZP (**Plan A-1**). According to the Notes of the OZP for “AGR” zone, ‘Animal Boarding Establishment’, which is a Column 2 use, and filling of land require planning permission from the Town Planning Board (the Board). The Site is partly paved and partly covered with overgrown and trees, generally vacant with a few temporary structures and storage of construction materials (**Plan A-4**).
- 1.2 The Site is accessible from Kiu Hing Road via a local track with an ingress/egress point at the northeast (**Drawing A-1** and **Plan A-2**). According to the applicant, three single-storey structures (not more than 4.5m in height) with a total floor area of not more than 500m² are proposed for dog kennel, office and toilet. Four parking spaces for private cars (5m x 2.5m) will be provided within the Site (**Drawing A-2**). The applicant also seeks permission for filling of land for an area of about 1,300m² at the Site (i.e. about 92.9% of the Site), including (i) to fill the eastern portion (about 715m² or 51.1% of the Site) and (ii) to regularise the land filling which has already been undertaken at part of the western portion (about 585m² or 41.8% of the Site) with concrete in depth of 0.2m for erection of temporary structures and manoeuvring spaces (**Drawing A-3**).

1.3 According to the applicant, the animal boarding establishment will accommodate not more than 28 dogs. All dogs will be kept inside the enclosed structures with soundproofing materials, mechanical ventilation and air-conditioning system at all times. No public announcement system will be used at the Site. The operation hours are from 9:00 a.m. to 6:00 p.m. daily, including Sundays and public holidays. No tree felling is proposed and the existing trees at the southwest and centre of the Site will be preserved in-situ. Plans showing the vehicular access, site layout and land filling works submitted by the applicant are at **Drawings A-1 to A-3** respectively.

1.4 In support of the application, the applicant has submitted the following documents:

- (a) Application Form with attachments received on 29.7.2026 **(Appendix I)**
- (b) Supplementary Information (SI) received on 3.8.2026 **(Appendix Ia)**
- (c) Further Information (FI) received on 18.9.2026* **(Appendix Ib)**
*[*accepted and exempted from publication and recounting requirements]*

2. Justifications from the Applicant

The justifications put forth by the applicant in support of the application are detailed in the Application Form, SI and FI at **Appendices I to Ib**. They can be summarised as follows:

- (a) the proposal is temporary in nature and would not frustrate the long-term planning intention of the “AGR” zone;
- (b) the proposed use is not incompatible with the surrounding areas;
- (c) similar applications were approved in the “AGR” zone within the same OZP; and
- (d) insignificant traffic and environmental impacts are anticipated;

3. Compliance with the “Owner’s Consent/Notification” Requirements

The applicant is not a “current land owner” but has complied with the requirements as set out in the Town Planning Board Guidelines on Satisfying the “Owner’s Consent/Notification” Requirements under Sections 12A and 16 of the Town Planning Ordinance (TPB PG-No. 31B) by posting site notice and sending the notice to the Shap Pat Heung Rural Committee. Detailed information would be deposited at the meeting for Members’ inspection.

4. Background

The Site is currently not subject to any planning enforcement action.

5. Previous Application

The Site is the subject of a previous application (No. A/YL-TT/767) covering a larger site for proposed temporary shop and services with ancillary facilities and associated filling of land for a period of three years, which was submitted by a different applicant and approved with conditions by the Rural and New Town Planning Committee (the Committee) of the Board on 5.6.2026 with validity until 5.6.2029. Considerations of this application are not relevant to the current application which involves a different use. Details of the previous application are summarised in **Appendix II** and its location is shown on **Plan A-1**.

6. Similar Applications

There are seven similar applications (No. A/YL-TT/666, 684, 687, 699, 728, 742 and 786) for temporary animal boarding establishment with associated filling of land within the same “AGR” zone on the OZP in the past five years. They were all approved with conditions by the Committee for a period of three or five years between 2025 and 2026 mainly on considerations that the proposed use would not jeopardise the planning intention of the “AGR” zone; being not incompatible with the surrounding uses; and the departmental concerns could be addressed by implementation of approval conditions. Details of these similar applications are summarised at **Appendix II** and their locations are shown on **Plan A-1**.

7. Planning Intention

- 7.1 The planning intention of the “AGR” zone is primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes. It is also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes.
- 7.2 According to the Explanatory Statement of the OZP, permission from the Board is required for filling of land within the “AGR” zone as such activity may cause adverse drainage and environmental impacts on the adjacent areas.

8. The Site and Its Surrounding Areas (Plans A-1 to A-4)

- 8.1 The Site is:
 - (a) partly paved and partly covered with overgrown and trees, generally vacant with a few temporary structures and storage of construction materials; and
 - (b) accessible from Kiu Hing Road via a local track.
- 8.2 The surrounding areas are rural in character predominately occupied by farmland intermixed with warehouses, open storage/storage yards, pigsty farm, residential dwellings and vacant land.

9. Comments from Relevant Government Departments

All departments consulted have no objection to or no adverse comment on the application. Their general comments on the application and advisory comments in the Recommended Advisory Clauses are provided in **Appendices III** and **IV** respectively.

10. Public Comment Received During the Statutory Publication Period

On 7.8.2026, the application was published for public inspection. During the statutory public inspection period, one public comment was received from an individual (**Appendix V**), raising concerns mainly about the current progress of the previously approved application at the Site.

11. Planning Considerations and Assessments

11.1 The application is for proposed temporary animal boarding establishment (dog kennel) and associated filling of land for a period of three years at the Site zoned “AGR” on the OZP. While the proposed use is not in line with the planning intention of the “AGR” zone, the Director of Agriculture, Fisheries and Conservation (DAFC) has no strong view against the application from agricultural perspective. In view of the above and taking into account the planning assessments below, there is no objection to the proposed use on a temporary basis for a period of three years.

11.2 The applicant also seeks permission for filling of land for an area of about 1,300m² at the Site (i.e. about 92.9% of the Site) with concrete in depth of 0.2m for erection of temporary structures and manoeuvring spaces. Filling of land within “AGR” zone requires planning permission as it may cause adverse drainage and environmental impacts on the adjacent areas. In this regard, the Chief Engineer/Mainland North of Drainage Services Department and Director of Environmental Protection have no objection to the application from public drainage and environmental perspectives respectively. As the Site is zoned “AGR”, an approval condition requiring the reinstatement of the Site upon expiry of the planning permission so as to uphold the planning intention of the “AGR” zone and restore the greenery of the area is recommended should the Committee decide to approve the application.

11.3 The proposed use is considered not incompatible with the surrounding areas which are rural in character predominately occupied by farmland intermixed with warehouses, open storage/storage yards, pigsty farm, residential dwellings and vacant land (**Plan A-2**). The applicant also proposes to preserve the existing trees at the southwest and centre of the Site. The Chief Town Planner/Urban Design and Landscape of Planning Department (PlanD) has no adverse comment on the application from landscape planning perspective.

11.4 Other concerned government departments consulted including the Commissioner for Transport, Director of Fire Services and Director of Food and Environmental Hygiene have no objection to or no adverse comment on the application from traffic, fire safety and environmental hygiene perspectives respectively. DAFC also has no comment on the application from nature conservation and animal management

perspectives. Should the application be approved, relevant approval conditions are recommended in paragraph 12.2 below to address the technical requirements of the concerned government departments. The applicant will also be advised to follow the latest “Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites” to minimise potential environmental nuisances on the surrounding areas.

- 11.5 There are seven approved similar applications within the same “AGR” zone in 2025 and 2026 as mentioned in paragraph 6 above. Approval of the current application is in line with the Committee’s previous decisions.
- 11.6 Regarding the public comment as summarised in paragraph 10 above, the previous application was submitted by a different applicant for different use, which is not relevant to the current application.

12. Planning Department’s Views

- 12.1 Based on the assessments made in paragraph 11 and having taken into account the public comments detailed in paragraph 10 above, PlanD has no objection to the application.
- 12.2 Should the Committee decide to approve the application, it is suggested that the permission shall be valid on a temporary basis for a period of three years until 25.9.2029. The following conditions of approval and advisory clauses are also suggested for Members’ reference:

Approval conditions

- (a) the submission of a drainage proposal within **6** months from the date of planning approval to the satisfaction of the Director of Drainage Services or of the Town Planning Board by 25.3.2027;
- (b) in relation to (a) above, the implementation of the drainage proposal within **9** months from the date of planning approval to the satisfaction of the Director of Drainage Services or of the Town Planning Board by 25.6.2027;
- (c) in relation to (b) above, the implemented drainage facilities at the Site should be maintained at all times during the planning approval period;
- (d) the submission of a fire service installations proposal within **6** months from the date of planning approval to the satisfaction of the Director of Fire Services or of the Town Planning Board by 25.3.2027;
- (e) in relation to (d) above, the implementation of the fire service installations proposal within **9** months from the date of planning approval to the satisfaction of the Director of Fire Services or of the Town Planning Board by 25.6.2027;
- (f) if the above planning condition (c) is not complied with during the planning approval period, the approval hereby given shall cease to have effect and shall be revoked immediately without further notice;

- (g) if any of the above planning condition (a), (b), (d) or (e) is not complied with by the specified date, the approval hereby given shall cease to have effect and shall on the same date be revoked without further notice; and
- (h) upon expiry of the planning permission, the reinstatement of the application site, including the removal of fill materials and hard paving and grassing of the application site to the satisfaction of the Director of Planning or of the Town Planning Board.

Advisory clauses

The recommended advisory clauses are at **Appendix IV**.

- 12.3 Alternatively, should the Committee decide to reject the application, the following reason for rejection is suggested for Members' reference:

the proposed use with associated filling of land is not in line with the planning intention of the "Agriculture" zone which is primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There is no strong planning justification in the submission for a departure from such planning intention, even on a temporary basis.

13. Decision Sought

- 13.1 The Committee is invited to consider the application and decide whether to grant or refuse to grant permission.
- 13.2 Should the Committee decide to approve the application, Members are invited to consider the approval condition(s) and advisory clause(s), if any, to be attached to the permission, and the period of which the permission should be valid on a temporary basis.
- 13.3 Alternatively, should the Committee decide to reject the application, Members are invited to advise what reason(s) for rejection should be given to the applicant.
