主旨: A-ITOF-9 clarification
類別: Internet Email

Dear Dicky,

As per our phone call,

Here some clarification about our calculation:

The total length of the cables is 283 m = 161m (Tai O Pier station) + 122m (Tai O WasteWater station), with a total width of 0.1m providing a total footprint of 28.3 sq.m.

Hope this will help

Best regards

Annalisa

Dear Mr. Chan,

Please find in the attached the Supplementary pages to support our application.
Moreover, as per phone request, I confirm that the sum of the four elements is 31.875 sq. M.

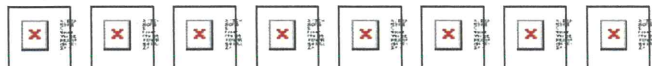

Thank you for your assistance in this matter
Best Regards
Annalisa
