The Secretary,
Town Planning Board,
15/F., North Point Government Offices,
333 Java Road, North Point, Hong Kong

By Email

Dear Sir/Madam,

Re: Section 16 Planning Application for Temporary Open Storage of Construction Materials and Machineries and Associated Filling of Land for a Period of 3 Years at Lot 356 (Part) in D.D. 87, Kong Nga Po, Sheung Shui, New Territories
(Planning Application No. A/NE-FTA/289)

We refer to the subject application and would like to submit supplementary information to facilitate the consideration of the Transport Department and the Town Planning Board.

It is confirmed that the proposed traffic management measures (i.e., the proposed "TS460" and "5 km/h" signs at the site ingress/egress) have been duly implemented since the last planning approval (Application No. A/NE-FTA/251). Additional warning/advisory signs have been erected at the site entrance to alert drivers. All implemented traffic management measures will continue to be properly maintained. Please refer to Figure 4 for details. The applicant is committed to ensuring that the traffic management measures are implemented before commencement of the operation and maintained to the satisfaction of the Commissioner for Transport or of the Town Planning Board.

Additionally, on-site management and control measures, including the deployment of traffic marshals/staff, advance scheduling of deliveries and pickups, and the provision of a designated parking and loading/unloading bay, have been implemented to prevent vehicles from queuing outside the subject site. Sufficient space has been provided within the site for vehicles to maneuver smoothly to and from the local track. No vehicles are permitted to queue back onto, or reverse into/out of, the application site from the public road.

Thank you for your kind attention and should you have any queries, please do not hesitate to contact the undersigned at .

Yours faithfully,
For and on behalf of
Aikon Development Consultancy Limited

Isa YUEN
Encl.

Address 地址：

"5KM/H" signs erected on both sides of the site access.

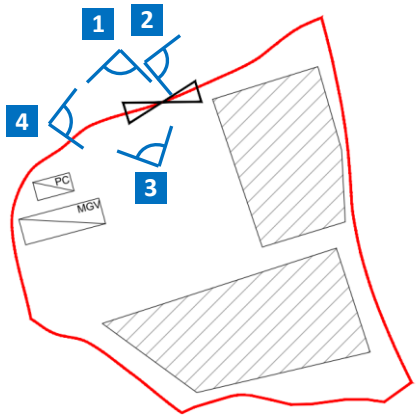

Additional warning/advisory signs erected at the site entrance to alert drivers.

"TS460" sign erected within the application site near the site access to remind the drivers.

View Plan

Note

- The proposed traffic management measures (i.e. proposed"TS460" and "5KM/H" signs at the site ingress/egress) have been duly implemented since last planning approval (A/NE-FTA/251). (Photo 1, 2 and 3)
- Additional warning/advisory signs have been erected at the site entrance to alert drivers (Photo 4)
- All implemented traffic management measures will continue to be properly maintained.
- On-site management and control measures, including the deployment of traffic marshals/staff, advance scheduling of deliveries and pickups, and the provision of a designated parking and loading/unloading bay, have been implemented to prevent vehicles from queuing outside the subject site.
- Sufficient space has been provided for vehicles to smoothly maneuver to and from the local track.
- No vehicles are allowed to queue back to or reverse onto/from the application site to the public road.
