主旨: Further information of Application No. A/NE-TK/867 (Proposed Temporary Animal Boarding Establishment)

類別: Internet Email

Dear Sir/Madam,

We are writing to submit a clarification for the above mentioned application.

Since application no. A/NE-TK/782 and the captioned application are not in line with the development scheme and not allowed to operate simultaneously, we hereby confirm that the applicant acknowledges this and understands that only one of the applications will be in operation at any one time , and the applicant will proceed with the captioned application.

Therefore, there are some amendments to the application arrangements. There will be one proposed toilet located at the rightmost of the proposed structure (for staff only) and a septic tank will be used as the sewage disposal system for the proposed toilet.

Car parking space will not be provided as the animal boarding establishment is by appointment only, pets owners can only drop off their pets on site. The vehicular access on layout plan will remain unchanged and pedestrian access will share the same route. The open space within the site is mainly for circulation access and recreational use for staff and customers.

The site is estimated to accommodate a maximum of 20 dogs or cats, there will be 22 individual cubicles for respective use (2 for spare). All solid animal waste will be properly placed in plastic bags inside leakage-proof waste bins with sealed lids, then disposed of at a nearby public refuse collection point by staff before daily closing. Waterproof urine pads will be laid across the animals' resting areas to absorb urine, and the replaced urine pads will be handled according to the same procedure as the solid waste.

Best Regards,
Victor,Hui Kwan Yee
