Reference No.: **TPB/A/K14/804**

To Town Planning Board,

We, Fairmile Consultants Limited on behalf the applicant, with the departmental comments received from Planning Department on 23 March 2022, as advised by the traffic consultant in our consultants team, given that Transport Department's ("TD") comment on the LOS assessment and the design layout of the vehicular access and car ramp are required substantial time for amendments of the Traffic Impact Assessment ("TIA") report. Also, further consultation with TD is required as to confirm those amendments are satisfied by TD.

As such, we would like to request for a one month deferment for the section 16 planning application (no. A/K14/804) as to allow sufficient time to revise the TIA report and response to the departmental comments.

Best regards,  
Ken Ho  
Project Officer  
Fairmile Consultants Limited
