<u>Remark 備註</u>

The materials submitted in an application to the Board and the Board's decision on the application would be disclosed to the public. Such materials would also be uploaded to the Board's website for browsing and free downloading by the public where the Board considers appropriate.

委員會會向公眾披露申請人所遞交的申請資料和委員會對申請所作的決定。在委員會認為合適的情況下,有關申請 資料亦會上載至委員會網頁供公眾免費瀏覽及下載。

Warning 警告

Any person who knowingly or wilfully makes any statement or furnish any information in connection with this application, which is false in any material particular, shall be liable to an offence under the Crimes Ordinance. 任何人在明知或故意的情況下,就這宗申請提出在任何要項上是虛假的陳述或資料,即屬違反《刑事罪行條例》。

Statement on Personal Data 個人資料的聲明

1. The personal data submitted to the Board in this application will be used by the Secretary of the Board and Government departments for the following purposes:

委員會就這宗申請所收到的個人資料會交給委員會秘書及政府部門,以根據《城市規劃條例》及相關的城市規 劃委員會規劃指引的規定作以下用途:

- (a) the processing of this application which includes making available the name of the applicant for public inspection when making available this application for public inspection; and
 - 處理這宗申請,包括公布這宗申請供公眾查閱,同時公布申請人的姓名供公眾查閱;以及
- (b) facilitating communication between the applicant and the Secretary of the Board/Government departments. 方便申請人與委員會秘書及政府部門之間進行聯絡。
- The personal data provided by the applicant in this application may also be disclosed to other persons for the purposes mentioned in paragraph 1 above.
 申請人就這宗申請提供的個人資料,或亦會向其他人士披露,以作上述第1段提及的用途。

中請入祝這示中請提供的個人資料, 或小曾问具他人工披露, 以作工処弟1 投提及的用述。

3. An applicant has a right of access and correction with respect to his/her personal data as provided under the Personal Data (Privacy) Ordinance (Cap. 486). Request for personal data access and correction should be addressed to the Secretary of the Board at 15/F, North Point Government Offices, 333 Java Road, North Point, Hong Kong. 根據《個人資料(私隱)條例》(第 486 章)的規定,申請人有權查閱及更正其個人資料。如欲查閱及更正個人資料, 應向委員會秘書提出有關要求,其地址為香港北角渣華道 333 號北角政府合署 15 樓。

for Developments involving Columbarium Use, please also complete the following: 如發展涉及靈灰安置所用途,請另外填妥以下資料:
Ash interment capacity 骨灰安放容量 [@]
Maximumnumber of sets of ashes that may be interred in the niches 在龕位內最多可安放骨灰的數量 Maximum number of sets of ashes that may be interred other than in niches 在非龕位的範圍內最多可安放骨灰的數量
Total number of niches 龕位總數
Total number of single mches 單人龕位總數
Number of single niches (sold and occupied) □ 單人龕位數目 (已售並佔用) □ 單人龕位數目 (已售但未佔用) □ Number of single niches (residual for sale) □ 單人龕位數目 (待售) □
Total number of double niches 雙人龕位總數
Number of double niches (sold and fully occupied) 雙人龕位數目 (已售並全部佔用)
Total no. of niches other than single or double niches (please specify type) 除單人及雙人龕位外的其他龕位總數 (請列明類別)
Number. of niches (sold and fully occupied) 龕位數目 (已售並全部佔用) Number of niches (sold and partially occupied) 龕位數目 (已售並部分佔用) Number of niches (sold but unoccupied) 龕位數目 (已售但未佔用) Number of niches (residual for sale) 龕位數目 (待售)
Proposed operating hours 擬議營運時間
 @ Ash interment capacity in relation to a columbarium means – 就靈灰安置所而言,骨灰安放容量指: the maximum number of containers of ashes that may be interred in each niche in the columbarium; 每個龕位內可安放的骨灰容器的最高數目; the maximum number of sets of ashes that may be interred other than in niches in any area in the columbarium; and 在該靈灰安置所並非龕位的範圍內,總共最多可安放多少份骨灰;以及 the total number of sets of ashes that may be interred in the columbarium. 在該骨灰安置所內,總共最多可安放多少份骨灰。

Dear Sir/Madam,

Application for Permission Under Section 16 of the Town Planning Ordinance (Cap. 131)

Proposed Comprehensive Development including Flat and Community Facilities in "Comprehensive Development Area" Zone at Various Lots in S.D.4 and Adjoining Government Land, Kau Wa Keng, Kwai Chung (Planning Application No. A/KC/489)

Submission of Consolidated Report

We refer to the captioned S16 Planning Application submitted to the Town Planning Board on 5 January 2022 and subsequent submissions of further information.

As requested by Tsuen Wan and West Kowloon District Planning Office of Planning Department, we are pleased to submit the Consolidated Report, which comprises the final Supporting Planning Statement with final technical assessments, Supplementary Paper on Interim Scenario and consolidated responses-to-comments tables, in 3 volumes for your consideration.

We sincerely seek for favourable consideration from the Town Planning Board to approve this S16 Planning Application.

Should you have any queries, please contact the undersigned or our Miss Natalie LEUNG at and Mr Tim WONG at a second seco

Yours faithfully,

Theresa YEUNG Director Encl.

Dear Sir/Madam,

Application for Permission Under Section 16 of the Town Planning Ordinance (Cap. 131)

Proposed Comprehensive Development including Flat and Community Facilities in "Comprehensive Development Area" Zone at Various Lots in S.D.4 and Adjoining Government Land, Kau Wa Keng, Kwai Chung (Planning Application No. A/KC/489)

Technical Clarifications

We refer to the captioned S16 Planning Application submitted to the Town Planning Board on 5 January 2022.

In response to comments received from Highways Department on 5 July 2023, we are pleased to submit a Response-to-Comments Table (Appendix A) and replacement figure for the submitted Traffic Impact Assessment (Attachment 1) for your consideration.

Please note that this submission only serves as technical clarifications without involving the submission of a new or revised technical assessment, and thus should be exempted from recounting requirement.

We sincerely seek for favourable consideration from the Town Planning Board to approve this S16 Planning Application.

Should you have any queries, please contact the undersigned or our Miss Natalie LEUNG at

Yours faithfully,

218

(Email: wclui@pland.gov.hk) (Email: ckcma@pland.gov.hk)

Dear Chris

I refer to District Planning Office/ Planning Department's earlier email on clarifications required for the captioned planning application A/KC/489.

Please be supplemented the site coverage for each of the 4 phases are:

	Proposed Site Coverage (Below 15m)	Proposed Site Coverage (Above 15m for building over 61m)
Phase 1A	Not more than 100%	Not more than 33.33%
Phase 1B	Not more than 100%	Not more than 33.33%
Remaining Phase A	Not more than 100%	Not more than 33.33%
Remaining Phase B	Not more than 100%	Not more than 33.33%

Please also be confirmed that the two Remaining Phases are 24-hour free accesses under the lease conditions via the internal roads in Phases 1A and 1B, for connection to Lai King Hill Road.

Best Regards,

Natalie Leung

Previous Applications

Approved Applications

<u>Application</u> <u>No.</u>	<u>Proposed Development</u>	<u>Date of</u> <u>Consideration</u> (MPC/TPB)	<u>Approval</u> Condition(s)
A/KC/120	Proposed Underground Sewage Pumping Station	4.12.1992	13
A/KC/200	Proposed Comprehensive Residential Development to Include a Kindergarten and Ancillary Carpark	12.4.1996	1 to 11, 13
A/KC/282	Proposed Village Office	7.3.2003	
A/KC/453	Proposed Shop and Services (Retail Shop)	6.7.2018 (approved on a temporary basis for 3 years)	12, 14

Approval Conditions:

- 1. The submission of a revised traffic impact assessment and implementation of any necessary road improvement measures identified therein to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 2. The provision of car parking and loading/unloading spaces to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 3. The design and provision of vehicular access roads to the development to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 4. The design and provision of temporary vehicular access roads to the parts of the application site reserved for Phases II and III of the proposed developments and the adjacent Kau Wa Keng San Tsuen before the completion of all phases of the proposed development to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 5. The submission of a supplementary environmental impact assessment for individual phases of the proposed development and implementation of any mitigation measures recommended therein to the satisfaction of the Director of Environmental Protection or of the Town Planning Board.
- 6. The design and provision of the mitigation measures identified in the noise impact assessment to the satisfaction of the Director of Environmental Protection or of the Town Planning Board.
- 7. The design and provision of the drainage facilities to the satisfaction of the Director of Drainage Services or of the Town Planning Board.
- 8. The provision of the emergency vehicular access, including the submission of a phasing plan for its implementation, to the satisfaction of the Director of Fire Services or of the Town

Planning Board.

- 9. The submission of a detailed diversion proposal for the existing water mains and water works reserves, and the design and construction of the new water mains following an agreed diversion alignment and works programme to the satisfaction of the Director of Water Supplies or of the Town Planning Board.
- 10. The submission and implementation of a master landscape plan, including tree preservation proposals, to the satisfaction of the Director of Planning or of the Town Planning Board.
- 11. The submission and implementation of a revised programme for land assembly and for phased completion of the proposed development to the satisfaction of the Director of Lands or of the Town Planning Board.
- 12. The submission and implementation of fire service installations and water supplies for firefighting proposals in the application premises before operation of the proposed use to the satisfaction of the Director of Fire Services or of the Town Planning Board.
- 13. Time clause.
- 14. Revocation clause.

Rejected Applications

Application <u>No.</u>	<u>Proposed Development</u>	<u>Date of</u> <u>Consideration</u> (MPC/TPB)	<u>Rejection</u> <u>Reason(s)</u>
A/KC/117	Proposed Residential Development with Retail Shop on the G/F	11.6.1993 (upon review)	1 to 6
A/KC/161	Proposed Comprehensive Residential Development	11.11.1994 (upon review)	7 to 9

Rejection Reasons:

- 1. The proposed development is piecemeal in nature and is therefore not in accordance with the intention of the "Comprehensive Development Area" ("CDA").
- 2. The proposed Master Layout Plan is not satisfactory since it does not include adequate information on the traffic, drainage and environmental impacts of the proposed development.
- 3. No landscape proposals have been included in the submission.
- 4. No proposed programmes or phasing of building development have been included in the application.
- 5. The proposed development is not satisfactory in traffic, drainage and environmental aspects.
- 6. The approval of the proposed development will set an undesirable precedent for future piecemeal development in "CDA" zones.
- 7. The proposed development is not comprehensive enough as it does not cover the whole "CDA" and no implementation is provided for the whole "CDA" as required under the Notes of the Kwai Chung Outline Zoning Plan. It is therefore not in compliance with the planning intention of the "CDA" zoning.
- 8. The development intensity of the proposed development is not acceptable since the area of the acceptable since the area of the access road has been included for plot ratio calculation.
- 9. The drainage impact assessment is not acceptable and the proposed mitigation measures are not satisfactory.

A/I	KC/444	Proposed Comprehensive Development for 'Flat', 'Eating Place', 'Shop and Services' and 'Office' uses; and Minor Relaxation of Building Height Restriction from 120mPD to 145mPD	22.3.2019	1 to 9

Approval Conditions:

- 1. The submission and implementation of a revised Master Layout Plan to take into account of the approval conditions (2) to (6) and (8) to (9) below to the satisfaction of the Director of Planning or of the Town Planning Board.
- 2. The proposed development (in terms of mPD) should not exceed the height of the buildings as proposed by the applicant.
- 3. The submission and implementation of a revised Landscape Master Plan to the satisfaction of the Director of Planning or of the Town Planning Board.
- 4. The provision of a private open space to be open 24 hours a day for public access, as proposed by the applicant, to the satisfaction of the Director of Planning or of the Town Planning Board.
- 5. The design and provision of vehicular access, car parking and loading/unloading facilities to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 6. The design and provision of Road 27E, road widening of Tai Yuen Street, widening of the footpath around the Site (including Cheung Wing Road, Kwok Shui Road and Tai Yuen Street), as proposed by the applicant at his own cost, to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 7. The design and implementation of the road improvement works, as proposed by the applicant at his own cost, to the satisfaction of the Commissioner for Transport or of the Town Planning Board.
- 8. The submission and implementation of the noise mitigation measures identified in the Environmental Assessment (EA), to the satisfaction of the Director of Environmental Protection or of the Town Planning Board.
- 9. The design and provision of fire service installations and water supplies for fire-fighting to the satisfaction of the Director of Fire Services or of the Town Planning Board.

Appendix IV of MPC Paper No. A/KC/489

KWAI CHUNG =

Planning Brief for the Proposed Private Residential Development at the 'Comprehensive Development Area' Zone to the north of Lai King Hill Road in Kau Wa Keng, Kwai Chung

JULY 1995

TSUEN WAN AND KWAI TSING DISTRICT PLANNING OFFICE PLANNING DEPARTMENT

<u>Planning Brief for the Development at the "Comprehensive Development Area" Zone</u> to the North of Lai King Hill Road in Kau Wa Keng, Kwai Chung

1. Purpose of the Planning Brief

Pursuant to Section 4A(2) of the Town Planning Ordinance (the Ordinance), an applicant for permission for development on land designated "Comprehensive Development Area" (CDA) shall prepare a Master Layout Plan (MLP) for the approval of the Town Planning Board (the Board). The purpose of the Planning Brief (PB) is to set out the necessary planning parameters, the development criteria for the proposed development at the "CDA" zone to the north of Lai King Hill Road at Kau Wa Keng, Kwai Chung. The PB is a planning guide to facilitate the developer in the preparation of a MLP for submission to the Town Planning Board.

2. Planning Context

Land Use Zoning

2.1 The subject "CDA" zone comprises the Kau Wa Keng valley floor and the Kau Wa Keng Old Village, the former was first zoned "CDA" and the latter including part of the valley floor was zoned "Village Type Development" (V) on the draft Kwai Chung Outline Zoning Plan (OZP) No. S/KC/7 exhibited on 19.10.90. A number of objections in relation to the land uses of the area were received during the exhibition period. The Board after considering the objections on various occasions decided to amend the zonings for the area. It was decided, inter alia, that the boundary of the "CDA" zone to the north of Lai King Hill Road be revised to include the "V" zone (Kau Wa Keng Old Village) for private residential development in order to improve living and environmental conditions of the Old Village. The zoning proposal was incorporated in the draft Kwai Chung OZP No. S/KC/8 exhibited on 3.7.92.

Planning Intention

2.2 The planning intention of the CDA zoning is to encourage the comprehensive redevelopment of the Kau Wa Keng valley floor and the area occupied by the Kau Wa Keng Old Village as a whole with a view to improving the environmental and living conditions of the area in particular the Old Village. According to the Explanatory Statement of the current Kwai Chung OZP No. S/KC/10, this particular CDA is intended for private residential use as a single project and subject to a maximum domestic plot ratio of 5 on a net site basis excluding area for access road and open space. Any development proposal on the CDA site should take into account the planned and existing developments in the vicinity.

١٠

2.3 Development of the area would entirely rely on initiatives being taken by the private developer who would assemble all the required private land, come to agreement with private land owners on compensation and rehousing arrangements, and complete all formalities such as obtaining the Board's approval on the Master Layout Plan and the modification of lease documents.

The Site and Its Surrounding

- 2.4 The subject CDA is located at the Kau Wa Keng Valley in Kwai Chung Area 43 (Plan 1). It has an area of about 4.6 ha, which includes the valley floor of the Kau Wa Keng Valley and areas occupied by the Kau Wa Keng Old Village. It is abutting the Lai King Hill Road on the south and is bounded by the Chung Shan Terrace to the east, which comprises 2 to 4-storeys buildings. To the west and north west of the CDA is Kau Wa Keng San Tsuen, which is zoned "Green Belt" on the OZP.
- 2.5 There are two parallel water mains cutting across the southern portion of the site. On top of the water mains is a footpath serving the area.
- 2.6 To the south of the Lai King Hill Road is another CDA, part of which is currently occupied by the Lai Chi Kok Amusement Park. This CDA is intended for public housing development.

Existing Uses

2.7 The northeast corner and eastern part of the CDA is currently occupied by the Kau Wa Keng Old Village. There are about 120 houses in the Old Village accomodating a population of 860. The remaining part of the CDA is occupied by some temporary and permanent structures, active and fallow farmland, and natural vegetation. A temporary car parking and car repairing workshop is located on the southwest corner of the CDA.

3. Development Constraints

Land Ownership

3.1 Most of the land within the CDA is private land. Therefore, it is necessary for the developer to acquire private land or to reach agreement with the villagers/owners in order to redevelop the whole site as a single project.

Drainage Aspects

3.2 There are two main streams flowing southwards in concrete open channels to the east and west of the CDA skirting the village houses on either side of the valley. The main stream course on the west side of the valley enters a twin box culvert constructed across Lai King Hill Road and beneath Wa Lai Path to the south. The

main stream to the east of the valley enters a separate twin box culvert constructed along Lai King Hill Road. Besides, there are two smaller stream courses flow from north to south across the middle of the CDA.

Environmental Aspects

3.3 The subject CDA is abutted by Lai King Hill Road to its south and adjacent to Castle Peak Road to its east at a level from +60mPD to +70mPD on the hill. The traffic on these two roads would become noise and air sources to the proposed development on the CDA.

Traffic Aspects

3.4 Surrounded by steep slopes to the north, west and east, the subject CDA is only accessible via Lai King Hill Road to its south, and currently, there is no proper vehicular access to the site.

Geotechnical Aspects

3.5 As Kau Wa Keng Valley is surrounded by fairly steep slopes and the subject CDA lies at the valley floor of about +3mPD which rises towards northeast to about +19mPD. In view of this, possible geotechnical constraints may affect the development on the site.

Infrastructure Aspects

- 3.6 There is a pair of watermains, which cuts through across the southern portion of the site, supplying fresh water to Mei Foo and Kwai Chung areas. The existing water, electricity and gas supply, sewerage and stormwater drain systems may not have sufficient capacities to cater for the demand of the proposed development. The developer should consult concerned governments for any connections and upgrading of the existing systems.
- 3.7 At present, there is no salt water supply to the CDA, therefore, a period of 5 years is normally required for the Water Supplies Department to implement a new salt water system for the development.

Consultation Zone

3.8 Part of the CDA site may fall within the Consultation Zone (CZ) of the Shek Lei Pui Water Treatment Works. The boundary of the CZ, level of hazard and possible constraints of the CDA developments are subject to the findings of the Hazard Assessment which is currently undertaking by consultants commissioned by the Water Supplies Department.

Planning Parameters and Design Criteria

Development Intensity

4.

4.1 The CDA is intended for private residential development with ancillary facilities. In view of the development constraints outlined in paragraph 3 above and not to overtax the infrastructure in the area, a maximum domestic plot ratio of 5 on a net site basis excluding area for access road and open space is imposed onto the site. The maximum number of residential flats and domestic GFA should not be more than 2,500 and 150,000 m² respectively. The population is estimated to be about 6,400 persons.

Open Space Requirements

4.2 Local open space should be provided within the development in accordance with the Hong Kong Planning Standards and Guidelines (HKPSG) at a rate of 1m² per person. With an estimated population of about 6,400 for this development, at least 6,400m² of open space should be provided within the development. The type and split for both passive and active open space should also be in compliance with the HKPSG. Upon completion, the developer will be required to maintain and manage such open space.

Requirement for Educational Facilities

- 4.3 The provision of educational facilities should basically follow the standards stipulated in the HKPSG and to the satisfaction of D of E. As a primary school is to be built in another CDA on the opposite side of the subject CDA, which can also meet the requirement of this CDA, and therefore it is not necessary to provide another school on this site. As regards the provision of secondary school, it is assessed on territorial base. According to the HKPSG, there is already adequate secondary school in the area, and therefore, provision of secondary school is not necessary. Regarding the provision of kindergarten, a kindergarten with 3 to 4 classrooms should be provided at the developer's own cost.
- 5. <u>Traffic Impact Assessment</u>

<u>General</u>

5.1 The developer is required to submit a Traffic Impact Assessment (TIA), which forms part of the MLP, to address any possible traffic implications on the road network brought about by the proposed development and to include improvement measures to the satisfaction of the Commissioner for Transport. The TIA should also take into account the developments in the surroundings in particular the proposed public housing development to the south of the CDA site.

Vehicular and Pedestrian Access

- 5.2 Vehicular access(es) should be provided to connect the development with Lai King Hill Road to the satisfaction of the Commissioner for Transport. There is an existing desilting ramp at the southern boundary of the CDA, the access ramp shall be free of obstruction in order to allow the Director of Drainage Services to carry out regular drainage inspection, maintenance and desilting operation.
- 5.3 Vehicular access should be built to government standards. Private road within the development should be maintained by the developer. Internal public roads should be built to the satisfaction of the D of Highways and the road geometry of any proposed driveway should also form part of the MLP submission to the Board.
- 5.4 A pedestrian and vehicular connection should also be provided to the Kau Wa Keng San Tsuen.

Parking and Loading/Unloading Facilities

- 5.5 The provision of parking spaces for private car should be at the rate of 2 spaces for 5 flats or to the satisfaction of the Commissioner for Transport.
- 5.6 A minimum of 1 loading/unloading bay for lorry, each measures 11m x 3.5m with a minimum clearance of 4.1m, should be provided within the site for every 800 flats or part thereof, subject to a minimum of 1 bay for each housing block.

6. Environmental Impact Assessment

<u>General</u>

6.1 The developer is required to submit an Environmental Impact Assessment (EIA), to the satisfaction of the Director of Environmental Protection. It should address any possible adverse environmental impacts on the proposed residential developments and kindergarten, and the possible environmental impact on the surrounding developments, such as Chung Shan Terrace, Kau Wa Keng San Tsuen, Princess Margaret Hospital and Kwai Chung Hospital. The EIA should also identify mitigation measures to address any possible environmental impacts on or arising from the development during the construction period. It should form part of the MLP for the Board's consideration.

Traffic Noise Impact

6.2 Particular attention should be paid to the traffic noise generated by Lai King Hill Road, Castle Peak Road and other roads located in the vicinity of the CDA. Noise mitigation measures that are identified to meet the criteria laid down in the HKPSG should be to the satisfaction of the Director of Environmental Protection. Any noise mitigation measures such as noise barriers should be treated in aesthetically pleasant forms. In addition, noise mitigation measures required to be implemented in public roads will normally not be accepted. Prior approval from the Director of Highway should be sought if any noise mitigation measures are intended to be implemented in public roads.

Air Quality Impact

6.3 Air quality impact from traffic emissions of nearby roads and chimney emissions from the hospitals in the vicinity of the CDA site should form part of the EIA.

Other Environmental Considerations

- 6.4 All fixed noise sources should be designed to satisfy the HKPSG and the Noise Control Ordinance requirements. Assessment of these noise sources should also be included in the EIA.
- 6.5 Disposal methods of the foul water and stormwater from the development should be included into the EIA.

7. Drainage Impact Assessment

<u>General</u>

- 7.1 The developer is required to submit a Drainage Impact Assessment (DIA) to the satisfaction of the Director of Drainage Services. It should form part of the MILP, for the Board's consideration.
- 7.2 As the proposed development might change the flood storage of the subject valley basin and affect the nearby low-lying Kau Wa Keng Old Village and Kau Wa Keng San Tsuen, the developer is requested to incorporate the likely impact of the proposed development on flood storage, change in flood level and details of mitigation measures to be taken in the development period into the assessment.
- 7.3 A dry weather flow pumping station and associated sewer are being constructed at the southern boundary of the CDA, and an impact assessment will be required if the developer proposes to make drainage connections to the public drainage system. The drainage impact assessment should demonstrate that the existing sewers and stormwater drains would have sufficient capacity to handle the increase flow. Otherwise, the developer has to design, construct and maintain his

own disposal systems or sewers and stormwater drains at his own cost to the satisfaction of the Director of Drainage Services.

Drainage Reserve

7.4 There are dry weather flow interceptors at the two streams at the east and west sides of the CDA for collecting the polluted runoff from the Kau Wa Keng Old Village and Kau Wa Keng San Tsuen into the public sewerage system. A dry weather flow pumping station and the associated sewers are located near the southern boundary of the CDA. The interception system shall be maintained in use as long as the Kau Wa Keng Old Village and Kau Wa Keng San Tsuen remain under occupation (even just a small portion) and drainage connections to the public sewerage system is not yet provided. And diversion or realignment of the sewers of the interception system shall be agreed with the Director of Drainage Services. Safety measures should be provided to the satisfaction of the Director of Drainage Services to ensure that these installations will not be affected, in particular, by the excavation, blasting and pile-driving works during the construction phase.

8. <u>Geotechnical Assessment</u>

A Geotechnical Assessment (GA) to identify any potential constraint is needed to be carried out to the satisfaction of the Director of Civil Engineering. The GA should include consideration of the several landslips that have occurred on the moderately steep sideslopes at the western side of the valley and the many large fill slopes that surround the valley. The GA shall accompany the MLP submission.

9. Urban Design/Landscaping Guidelines

- 9.1 The CDA site is surrounded by "Green Belt" and "Open Space" and low density residential development of Chung Shan Terrace. Special attention should be paid to preserving the area of high landscape value in the Kau Wa Keng valley, in particular the relationship between the existing village houses of the Kau Wa Keng San Tsuen, the vegetation and the proposed development in the CDA site. The built forms on the site should aim to achieve harmony in scale, disposition, height and colours with the existing and future development in the vicinity. The visual compatibility of the development on the site with its urban and landscape settings should be addressed and taken into account in the design. The height of the buildings on the site should be preferably below the Castle Peak Road. Photomontage should be prepared. A concept plan showing the design concept of the CDA site is also necessary. All these should form part of the MLP submission.
- 9.2 A Master Landscape Plan for the development and compensatory planting scheme shall be prepared to the satisfaction of the Director of Planning. It should also

form part of the MLP submission to the Board. The Master Landscape Plan should provide comprehensive information on the landscape proposal clearly indicating proposed landscape treatment. Plans, sections and elevations should be used to illustrate the proposal. Management and maintenance agencies should be indicated. An explanatory schedule of all facilities needs to be provided for both public and private areas and included on the plans. The developer should also carry out a tree survey and preserve mature trees of high aesthetic or ecological value, as part of the Master Landscape Plan, to the satisfaction of the Director of Planning. If trees are inevitably felled in the course of development, adequate compensatory planting should be provided.

10. Utility Services

Existing utilities affected by the development should be diverted as necessary by the developer at his own cost. The design for new utility systems and any diversion of or new connection to existing systems should be agreed with the relevant works departments and in consultation with relevant public utilities organisations.

11. Water Works Reserve

There is a pair of water mains, which cuts through across the southern portion of the site, supplying fresh to Mei Foo and Kwai Chung areas. An additional trunk main will be laid in future parallel to the existing water mains. Any diversion work or realignment of these water mains should be agreed with the Director of Water Supplies. Safety measures should be undertaken to the satisfaction of the Director of Water Supplies to ensure that the existing and future waterworks installations will not be affected, in particular, by excavation, blasting and pile-driving works during the construction phase of the proposed comprehensive development. Access should be provided for maintenance of the existing water mains and for laying of the future main.

.- -

12. Other Requirements

Refuse Collection

12.1 The design, construction and maintenance of a refuse chute system within each building and a refuse collection channel within the lot should be to the satisfaction of the Director of Regional Services. They should be in the scale as set out in the Schedule of the Building (Refuse Storage Chamber and Chutes) Regulations 1984 together with an adjoining site having an area of not less than 16m x 8.5m to accommodate a refuse collection vehicle together with adequate space for manoeuvring of refuse collection vehicles. The refuse collection chamber and the access way therefrom and thereto shall have a minimum headroom of 4.9m. Such space for the refuse collection chamber shall not be taken into account for purpose

of calculating the total gross floor area. Plastic rectangular bins shall be used for refuse containment within the lot.

Fire Safety Aspects

12.2 The provision of Emergency Vehicular Access (EVA) to the proposed development should be to the satisfaction of the Director of Fire Services. Fire hydrants at 100m interval staggered on alternate side of all motorable roads should also be provided.

13. <u>Implementation</u>

- 13.1 The planning intention of the CDA zoning is to encourage the comprehensive redevelopment of the Kau Wa Keng valley floor and the area occupied by the Kau Wa Keng. Old Village as a <u>single project</u> with a view to improving the environmental and living conditions of the whole CDA in particular the Old Village. Implementation of the CDA in parcels may perpetuate the unsatisfactory conditions of the remaining parts of the site, and therefore it will not achieve the planning intention of achieving comprehensiveness for environmental upgrading at the whole CDA. Hence, any partitioning of the CDA into small parcels that would defeat the planning intention of developing the site comprehensively by a single entity will not be supported.
- 13.2 The development of the CDA would entirely rely on initiatives being taken by the private developer. As most of the CDA is private land, the implementation of the CDA depends on how the private developer could assemble all these private land. It is expected that those private land within the CDA could be absorbed within the redevelopment and the developer is responsible for reaching an agreement with the land owners and tenants on the rehousing and compensation packages. The remaining government land within the CDA can be included into the development scheme under one single developer through land exchange to be handled by Lands Department.
- 13.3 The timing of implementation would depend on when the developer could assemble all the required private land and complete all formalities such as obtaining the Board's approval and the modification of lease documents. In view of multiple ownership nature of the CDA, staged/phased implementation could be allowed. However, it can be carried out only after the approval of the MLP covering the whole CDA with appropriate timing for each phase is obtained. A schedule indicating the timing and phasing of the proposed residential development with workable scheme in terms of building development, provision of Government/Institution/Community (G/IC) facilities, open space and other facilities as stipulated in the PB should form part of the MLP submission.

14. Master Layout Plan Submission

- 14.1 The MLP to be submitted to the Board for approval should contain all the adequate information as required under the Notes of the Plan and to demonstrate that the requirements stated in this PB are complied with. The MLP should include therein the following information :-
 - (a) The areas of proposed land uses, the nature, position, dimensions and heights of all buildings to be erected on the area;
 - (b) The proposed total gross floor areas for various uses, total number of flats and flat sizes where applicable;
 - (c) The details and extent of "G/IC" and recreational facilities, parking spaces and open space to be provided within the area;
 - (d) The alignment, widths and levels of any roads, walkways and footbridges proposed to be constructed within the area;
 - (e) The Master Landscape Plan of the proposed development;
 - (f) The Traffic Impact Assessment of the proposed development;
 - (g) The Environmental Impact Assessment of the proposed development;
 - (h) The Geotechnical Assessment of the proposed development;
 - (i) The Drainage Impact Assessment of the proposed development;
 - Programme and phasing of watermain diversion or details of protection to watermains;
 - (k) Programmes and phasing of building development in detail; and
 - (1) Such other information as may be required by the Town Planning Board.
- 14.2 The MLP should be drawn to an appropriate scale and be supported by an explanatory statement. The explanatory statement should contain an adequate explanation of the development proposal including such basic information as land tenure, relevant lease conditions, the character of the site in relation to the surrounding areas, principles of layout design, assumptions, design population, types of G/IC and recreational facilities, car parking spaces and open space including responsibilities for their construction cost, operation/management and whether they would be handed back to the Government on completion.

15. <u>Consultation</u>

Close consultation should be maintained between the developer and the Tsuen Wan and Kwai Tsing District Planning Office and concerned Government departments, in particular, the following departments/offices :-

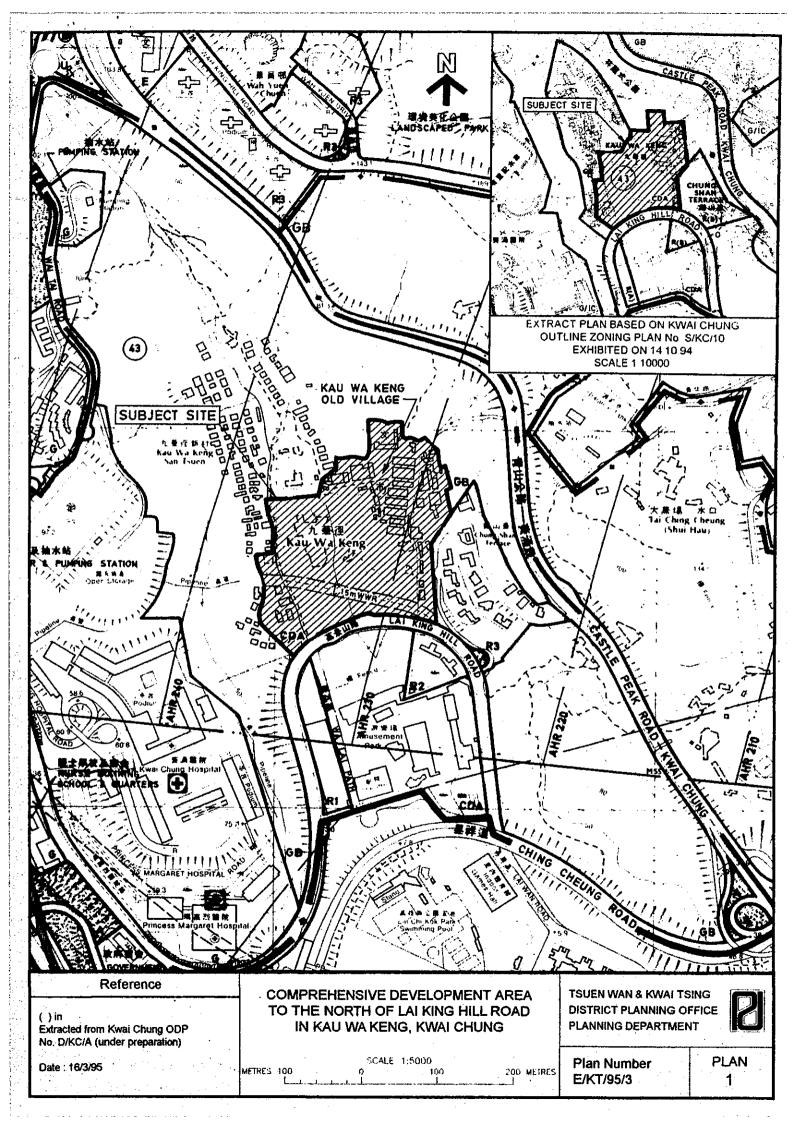

- (a) the Project Manager/New Territories West;
- (b) the District Lands Officer/Kwai Tsing;
- (c) the District Officer/Kwai Tsing;
- (d) the Commissioner for Transport;
- (e) the Director of Highways;
- (f) the Chief Architect/Central Management Branch, Architectural Services Department;
- (g) the Director of Regional Services;
- (h) the Director of Environmental Protection;
- (i) the Chief Engineer/Mainland South, Drainage Services Department;
- (i) the Principal Government Geotechnical Engineer, Civil Engineering Department;
- (k) the Director of Fire Services;
- (1) the Director of Social Welfare;
- (m) the Director of Housing;
- (n) the Commissioner of Police;
- (o) the Chief Engineer/Mainland Southwest, Water Supplies Department; and
- (p) the Director of Education.

16. Attachments

- Plan 1 : Extract plan showing the location of the CDA.
- Annex A: Schedule of requirements of G/IC facilities for the proposed development at the "Comprehensive Development Area" zone to the north of Lai King Hill Road in Kau Wa Keng, Kwai Chung.

July 1995

Annex A

SCHEDULE OF REQUIREMENT OF G/IC FACILITIES FOR THE PROPOSED DEVELOPMENT AT THE "COMPREHENSIVE DEVELOPMENT AREA" ZONE TO THE NORTH OF LAI KING HILL ROAD IN KAU WA KENG, KWAI CHUNG (Based on a Population of 6,400)

Facilities	HKPSG Requirements	Theoretical minimum to meet HKPSG	Remarks
Recreation & Open Space			
Local open space	lm ² per person	6,400	
Education			
Kindergarten	1 bi-sessional classroom per 67 persons aged 3-5	4 Classrooms) Provision should) be to the) satisfaction of) D of E
Primary School	1 uni-sessional classroom per 32.5 persons aged 6-11)A primary school)will be provided)in the CDA to the)south of the)subject site
Secondary School	1 uni-sessional classroom per 45 persons aged 12-18) Provision is) assessed on) territorial base
Car Parking Provision			
Residential			
Private cars	l space per 5 flats	500) Provision for this) development) should be at a) rate of 2 spaces) per 5 flats or to) the satisfaction) of C for T

Loading/unloading 1 bay for every 800 flats or --- --facilities part thereof subject to a minimum of 1 bay for each residential block

Refuse Collection Chambers

2

--

) Provision should) be to the) satisfaction of) D of RS

Detailed Comments from Government Departments

- 1. <u>Comments of the District Lands Officer/Tsuen Wan & Kwai Tsing (DLO/TW&KT),</u> Lands Department (LandsD):
 - (a) land exchanges would generally be on a foot for foot basis, i.e. the land exchange ratio should be 1:1 in terms of the private land to be surrendered and the land exchange site to be re-granted;
 - (b) before completion of a proposed land exchange, the applicants should unify the title of and clear all occupation fee from encumbrances on all the private lots proposed to be surrendered;
 - (c) any land exchange applications should accord with the approved development scheme by the Board;
 - (d) if the applicants apply for a land exchange from LandsD, upon receipt of the application, it will be considered by LandsD acting in the capacity as landlord at its sole discretion. There is no guarantee that any application will be approved. In the event that an application is approved, it will be subject to such terms and conditions as the Government shall see fit, including, among others, the payment of premium and administrative fee; and
 - (e) before any land exchange is materialised, the proposed development straddles over Government land and/or private land held by other private lot owners, and contravenes the subject lease restrictions and hence is not acceptable from land administration point of view.
- 2. <u>Comments of the Commissioner for Transport (C for T)</u>:
 - (a) the TIA illustrated that the traffic impact arising from the subject development to the adjacent road network within the AOI would be acceptable except J3 (junction of Lai King Hill Road and Kwai Chung Interchange);
 - (b) The junction improvement works of J3 (junction of Lai King Hill Road and Kwai Chung Interchange) would be carried out under the subject development by the applicants before population intake of any phase;
 - (c) The applicants demonstrated that the redevelopment proposal would accommodate the high-end provision of parking and loading / unloading facilities within the captioned redevelopment;
 - (d) Relocation of the existing pedestrian crossing and bus stop on Lai King Hill Road Eastbound would be implemented to avoid conflict with the proposed vehicular access for the development. The relocation of pedestrian crossing and bus stop at Lai King Hill Road should be reviewed and implemented to our satisfaction;
 - (e) It is noted that staggered crossing is proposed for the improvement works at the junction of Kwai Chung Interchange and Lai King Hill Road. Please take into consideration the followings in the detailed design:

- (i) the staggering should preferably be left-handed so that pedestrians stepping onto the central reserve or refuge turn towards the approaching traffic to give them a better view of it;
- (ii) the central refuge should be large enough to accommodate the expected numbers of pedestrians gathered during each signal cycle; and
- (iii) to enhance walkability, wholly or partly synchronised pedestrian green time on both side of a staggered crossing should preferably be arranged in at least one stage of traffic signal cycle, and in such case, 800mm overlapping for pedestrian crossing shall be provided, i.e. stagger with less than one crossing width.

3. <u>Comments of the Chief Highway Engineer/NT West, Highways Department (CHE/NTW, HyD)</u>:

- (a) it is noted that the development of the two early phases and two remaining phases, that would be affected by natural terrain hazards, will only be operated after the completion of mitigation works to be undertaken under the Landslip Prevention and Mitigation Programme by 2023; and the required timeframe for the completion of proposed junction improvements if the Remaining Phase A/B or both Remaining Phases A&B of the development are implemented would be subject to the comments from TD.
- 4. <u>Comments of the Director of Environmental Protection (DEP):</u>
 - (a) based on the information provided in support of the application, it is noted that:
 - (i) adequate buffer distance will be provided between the proposed development and the nearby traffic roads and industrial chimneys in accordance with the requirement stipulated in the HKPSG, and hence no adverse air quality impact is anticipated;
 - (ii) with the implementation of recommended odour mitigation measures, including FEHD's well operation and maintenance of the existing refuse collection point (RCP), proper operation and maintenance of ventilation, deodourising (with 95% odour removal efficiency) and exhaust system in the proposed RCP etc., no adverse odour impact is anticipated from the existing and proposed RCPs to the future residents;
 - (iii) with the implementation of recommended noise mitigation measures, such as acoustic window, acoustic balcony, etc., no adverse road traffic noise impact is anticipated on all residential flats;
 - (iv) the proposed development would not be subject to adverse noise impact/ nuisance from nearby fixed sources/ bus depot;
 - (v) with the implementation of recommended water quality mitigation measures, such as good site practices, proper alteration of watercourses, re-provision of dry weather flow interceptor (DWFI) prior to demolition of the existing

DWFIs etc., no adverse water quality impact is anticipated associated with the proposed development;

- (vi) no potential land contamination within the proposed development is anticipated based on the land contamination appraisal;
- (vii) waste management implications are not anticipated provided that good site practices are in place during construction and operational phase; and
- (viii) the Sewerage Impact Assessment (SIA) concluded that no adverse impact on the existing sewerage system is anticipated within the implementation of DSD's public sewerage works and the proposed mitigation measures, such as the proposed sewage pumping station, sewer upgrading works, re-provision of DWFI, proposed sewerage diversion and new sewer connection, etc.
- (b) since EPD's water quality monitoring station KW3 would be affected by the construction of the proposed development and the proposed watercourse removal/diversion, the applicants are advised to (i) provide a construction schedule of the four phases of the proposed development and (ii) update when the watercourse removal/diversion will be conducted when such information is available;
- (c) the implementation of local sewer connection/ upgrading/ diversion works shall meet the satisfaction of DSD; and
- (d) with respect to Shek Lei Pui Water Treatment Works, based on the information provided, we have no comment from the non-fuel gas dangerous goods risk perspective and EPD considers that a submission of Risk Assessment to CCPHI is not necessary. Nevertheless, EMSD's advice from fuel gas risk perspective shall be sought.
- 5. <u>Comments of the Chief Engineer/Mainland South, Drainage Services Department</u> (CE/MS, DSD):
 - (a) to relieve the increasing pressure of the drainage system due to development and ensure sustainable development in Hong Kong in the face of climate change, provision of blue-green drainage infrastructure according to Section 3.2.2 of DSD's Stormwater Drainage Manual is strongly recommended to be incorporated in the development with a view to reducing the quantity as well as improving the quality of site runoff. In fact, similar concept is already embraced in the stormwater management section of BEAM Plus Neighbourhood in which credits will be granted for promotion of infiltration and provision of temporary storage. In view of the above, the applicants are recommended to explore further appropriate blue-green drainage infrastructure for incorporation in this project.
- 6. <u>Comments of the Executive Secretary (Antiquities & Monuments), Antiquities and</u> <u>Monuments Office (AMO):</u>
 - (a) according to the Master Layout Plan ("MLP") of the captioned application, No. 43
 Kau Wa Keng, a Grade 3 historic building, is situated in Phase 1B development which is currently under acquisition by the applicants, while the other twelve Grade 3 historic buildings within the subject application site are situated in the two

Remaining Phases of development which will be under other developer(s)/ the respective owners. While AMO supports the preservation of all the thirteen graded buildings (collectively referred as the "Graded Buildings") within the application site as promised by the applicants, AMO would defer to PlanD's assessment on the viability of the proposed development scheme given the developer(s) and owners of the twelve graded buildings have yet to be identified;

- (b) since it is anticipated that extensive construction works will be carried out in close proximity to the Graded Buildings, we would like to reiterate that the Graded Buildings should be preserved and maintained properly in the proposed phased development. Detailed assessments on the possible <u>physical impacts</u> on the Graded Buildings should be conducted before the commencement of any works. Appropriate precautionary, monitoring and protection measures should be proposed and implemented. Meanwhile, the ambience of the site and the <u>visual impacts</u> arising from the proposed scheme on the Graded Buildings should also be considered and assessed, if the subject planning application is approved by TPB;
- (c) it is noted that the applicants have proposed to use the Graded Buildings within the application site to showcase the history of the Graded Buildings and Kau Wa Keng. The public would also be allowed to access the ground floor of the Graded Buildings during daytime. AMO appreciates the applicants' initiative to preserve the Graded Buildings with a certain degree of accessibility for public appreciation. Nevertheless, considering that the applicants do not have the ownership of all the thirteen Graded Buildings, we defer to PlanD's assessment on the viability of the proposed heritage conservation plan;
- (d) it is anticipated that the applicants may carry out works at the Graded Buildings to suit their new use(s), a Conservation Management Plan (CMP) is therefore required to manage the change(s) of the Graded Buildings arising from their new use(s). It is noted that the applicants have committed to submit a CMP for the Graded Buildings to AMO in detailed design stage. The applicants are reminded that the CMP should be approved by AMO before commencement of any works and should include but not limited to the followings:
 - (i) the outline of the conservation approach of the captioned development;
 - (ii) documentation of the proposed conversion works to the Graded Buildings within the application site;
 - (iii) evaluation of the impacts of the proposed works on the Graded Buildings within the application site;
 - (iv) provision of protective measures for the Graded Buildings throughout the project period;
 - (v) recommendations on the mitigation measures for the Graded Buildings therein for managing the changes arising from the captioned development project;
- (e) there are a number of historical buildings within the Site, including Nos. 8, 11, 11A, 12, 15A, 23, 24, 25, 28A, 29, 31, 33, 33A, 35, 36, 40, 41, 49A, 51, 51B, 52A, 52D, 55, 56, 57, 57A, 58, 61, 62, 63, 63B, 64, 66 and 66A Kau Wa Keng Tsuen as well as

the former Lutheran Church and Primary School at Nos. 19-19A Kau Wa Keng San Tsuen, which may possibly have certain heritage value. If preservation *in-situ* of these buildings is considered not feasible, the applicants are recommended to preserve the buildings by record through photographic recording and 3D scanning, and provide interpretation information of Kau Wa Keng in the future development to tell the history of the area. The applicants are also advised to provide a set of the photographic and 3D screening records to AMO for record purpose and future use, such as research, exhibition and educational programmes;

- (f) Kau Wa Keng Old Village is not a Site of Archaeological Interest. Notwithstanding, the applicants are advised to confirm that the Site has no archaeological potential so as to cover its assessment on this particular aspect of cultural heritage; and
- (g) regarding the public comment mentioning that the villagers disagree to their houses being identified as historic buildings, please be noted that the grading system for historic buildings is administrative in nature, which provides an objective basis for determining the heritage value and preservation need of historic buildings. It does not affect the ownership, usage, management and development rights of the buildings. Views and objections received from owners of the buildings concerned have been submitted to Antiquities Advisory Board (AAB) for consideration before it confirmed the grading of the buildings in Kau Wa Keng on 17 May 2010 or 9 September 2021.
- 7. <u>Comments of the Chief Engineer/ Construction, Water Supplies Department (CE/C, WSD):</u>
 - (a) If there are any changes to the Master Layout Plan of the proposed comprehensive development, the developer is required to submit them to WSD for review and comment;
 - (b) During the design and construction stage, the developer is required to obtain the latest information on the waterworks installation for design and protection of the waterworks installation within the WWR;
 - (c) The developer is required to submit the Waterworks Impact Assessment Report to WSD for review and comment, which should include the followings:
 - (i) the Master Layout Plan including foundation information at the detailed design stage;
 - (ii) the foundation plan and ground movement monitoring plan at the detailed design stage;
 - (iii) the protection plan for the waterworks installation within the WWR and in the vicinity of the site at construction stage and operational stage prior to any construction;
 - (iv) the landscape design or any other design information which may affect our operation and maintenance of the waterworks installation within the WWR, in additional to the trees and shrubs restriction;

- (d) The developer and his site staff are reminded that neither temporary nor permanent structures can be hoisted within the WWR, and no materials can be stored there. 24-hour free access must be provided for WSD's staff, contractors and specialists to perform routine operation and maintenance;
- (e) For any damages of the waterworks installation within the WWR during and after the construction caused by any works or other activities carried out by the developer, the cost of repair and reinstatement shall be binding on the developer;
- (f) If the above design submissions fail to meet the satisfactory requirements of WSD; or failure of the construction works to fulfil the agreed design; or any outstanding works found on site after the construction stage; or any damage of the waterworks installation found on site; or any other special circumstances related to the WWR, WSD may request BD to defer the issuance of the occupation permit until the satisfactory requirements of WSD are met; and
- (g) If the developer has to divert the existing water main within the WWR, he should bear the construction cost and the responsibility including the detailed design and construction works of the new water mains, and is required to seek approval from WSD throughout the process.

8. <u>Comments of the Director of Food and Environmental Hygiene (DFEH):</u>

- (a) the proposed permanent RCP should be reprovisioned with parking area for refuse collection vehicles, loading bay/ refuse storage area, vehicular entrance, secondary entrance for handcarts, office-cum-roll call point, storeroom and storage area for handcarts and refuse bins, staff toilets and changing rooms as stipulated in FEHD's Handbook on Standard Features for Refuse Collection Points (March 2021);
- (b) the storeroom should be separated from the RCP in order to provide a clean and dry environment for storage of protective gears and equipment, e.g. disinfection chemicals, PPE, marks, googles;
- (c) the proposed RCP should provide the facilities / meet the requirements to fulfill the future legal requirement upon implementation of the Municipal Solid Waste Charging Scheme; and
- (d) it is noted that there is an aqua privy at Kau Wa Keng (Old Village) near Chung Shan Terrace, Kwai Chung, which is located within the Site; and
- (e) permanent reprovisioning of the flushing toilet instead of aqua privy is required unless the whole Kau Wa Keng San Tsuen and Kau Wa Keng Old Village will be demolished with no more household unit with existing villagers remaining there. The reprovisioned public toilet should be a flushing toilet following prevailing FEHD's standards and prevailing requirements promulgated by relevant Government departments, including the Design Manual – Barrier Free Access.

9. <u>Comments of the Director of Fire Services (D of FS):</u>

(a) as no details of the emergency vehicular access (EVA) have been provided, comments could not be offered by this Department at the present stage.

Nevertheless, the applicants are advised to observe the requirements of EVA as stipulated in Section 6, Part D of the Code of Practice for Fire Safety in Building 2011 which is administered by the Buildings Department; and

(b) regarding the proposed Special Child Care Centre (SCCC) of the proposed development, the applicants are advised to observe the height restriction as stipulated in S.19 of Child Care Services Regulations, Cap. 243A.

10. Comments of the Director of Social Welfare (DSW):

- (a) for the proposed 60-p Day Care Centre for the Elderly (DE), single floor arrangement on G/F (vehicle accessible floor) is most desirable from service point of view as all the end users are frail in health and require close monitoring. Its design and floor arrangement should be reviewed in detailed design stage;
- (b) it is noted that the Home Care Services (HCS) for Frail Elderly Persons is straddled across two floors (i.e. G/F 1/F) at Block 1 in Phase 1A. In view of the issues regarding manpower support, monitoring and security, it should be relocated on one single floor in the detailed design stage; and
- (c) it is noted that the 60-p Special Child Care Centre (SCCC) is planned at 1/F 2/F of Block 13 under Remaining Phase B. Since SCCC serves pre-school children with moderate to severe disabilities, split floor arrangement is not preferred from service and operational perspectives. Given that the floor arrangement for SCCC will be further reviewed at the detailed design stage, we have no further comment from service perspective. The applicants are reminded that the design of SCCC should comply with the requirement stated in the Cap. 243 Child Care Services Ordinance, Cap 243A Child Care Services Regulations and the Operation Manual for Pre-primary Institutions.
- 11. <u>Comments of the Chief Town Planner/Urban Design and Landscape, Planning</u> <u>Department (CTP/UD&L, PlanD):</u>
 - (a) the Site with an area of about 48,313.2m² abutting Lai King Hill Road is located at the Kau Wa Keng valley, covering the valley floor and the Kau Wa Keng Old Village. The Site is situated at the northern fringe of a residential cluster (with a mix of public and private housing developments) to the south of Lai King Hill Road with existing BHs ranging from about 60mPD to 120mPD. To the north of Lai King Hill Road, the surrounding areas are generally characterized by natural slopes and low density residential developments and village houses with existing BHs ranging from 1 to 4 storeys, and Kau Wa Keng San Tsuen is located to the immediate northwest of the Site;
 - (b) the Proposed Scheme consists of four 15m-wide air paths across the Site (three in north-south direction at pedestrian level and one in northeast-southwest direction at podium level), 30m building setback from the eastern boundary of the Site near Lai King Hill Road and 23% reduction in podium footprint when compared to the Baseline Scheme;
 - (c) an Interim Scheme is also included in the report to represent the early two phases of development with the remaining site areas maintained as the existing condition. For

this Interim Scheme, the overall ventilation performance of the surrounding areas is generally enhanced as the development scale is smaller with fewer tower blocks than the Baseline Scheme and Proposed Scheme. Some impact is however observed at the immediate vicinity of the Site where the existing densely built village houses within the Site is assumed to be maintained;

- (d) it should be reminded that approval of the application under s.16 of the Town Planning Ordinance does not imply approval of tree works such as felling/ transplanting or pruning under lease. Applications on tree works should be submitted direct to relevant authorities/ government departments for approval where appropriate; and
- (e) the applicants are reminded that approval of the s.16 application under the Town Planning Ordinance does not imply approval of the site coverage of greenery requirements under APP PNAP-152 and/or under the lease. The site coverage of greenery calculation should be submitted separately to BD for approval.
- 12. <u>Comments of the Director of Leisure and Cultural Services (DLCS):</u>
 - (a) the applicants are advised that the New Territories West (NTW) Tree Team of LCSD is responsible for maintaining roadside trees situated on landscaped areas and on Unleased & Unallocated Government Land (UUGL) within 10 metres from kerb along existing non-expressway public roads outside country park within Tsuen Wan, Kwai Tsing and Islands District(s) in accordance with Technical Circular (Works) No. 6/2015.

敬啟者:

關於申請編號(A/KC/489)的擬議綜合發展規範

申請編號(A/KC/489)位於葵涌九華徑測量約份第4約多個地段及毗連政府土地,屬綜合發展區。近日再次收到諮詢,擬議綜合發展包括十三幢住宅及社區設施。

本辦事處以及九華徑居民已就上述事件多次去信 貴會反對是次綜合發展。發展商至今仍未與任何土地持有人見面又或諮詢收地事宜,很明顯只是他們一廂情願申請,漠視九華徑村村民去向以及發展後帶來的影響。本辦事處不得不一再重申九華徑村屋地業權分散,由不同居民擁有,祖堂地仍有官司未處理完成,而發展商現提出有意分階段發展上述位置,但只是收購部分九華徑村村口的祖堂地(農地,且未完成買賣合約),而九華徑的主要持份者(村民)一直對發展商起樓一事毫不知情,發展商亦從未就收地問題與他們商討詳情(例如:如何收購、收購後如何安置等等),認為發展商對未來發展並未做好整體規劃,如他們成功申請城規會的綜合發展規範,亦只能逐步分批發展或圍封,而村民亦正正擔心如果不整體全村發展會對周邊影響深遠,而且承辦商在文件中又或行動中,亦未見有意向整體發展。

現有村屋的位置既密樂且集中,屋與屋之間的通道狹窄(只能行人,無行 車道),無排污裝置,亦無任何可改善環境的閒置用地;另外,九華徑村現時每 逢大雨季節都會出現水浸問題,村口大渠需經常疏通才可解決有關問題,新樓 落成後,現有土地大量平整,如發展商只是發展已收購的村屋,疏水問題更為 嚴重,會導致未發展村屋水浸情況加劇,為村民帶來經濟損失。

該地為綜合發展地段,發展商無任何舉動與村民商討發展方向。如發展商 單向地分階段發展,實有違綜合發展的原意。懇請局方整體考慮。如有查詢請

5-B

謹代表 / 鐘山台#10 受 11 号亲主立案法图'之各位亲主,對上述地點 '擬議綜合發展包括 分層住宅及學校(幼稚園)' 之申請提出以下意見:

我等讚成發展該地點但反對建築分層大厦, '提供 6053 個平均面積 431 方呎住宅單位' 構想, (見明報 26/1/2022 B1 頁), 原因如下:

1. 靈山台,九華徑一帶屬於一低密度住宅區,座落在九龍西的綠色地帶;在九龍西的煩囂 鬧市中,难得有一刮靜,烏語花香的 '綠州'.從九龍西城市規划發展角度看,上述擬議中 的高密度大廈,如優批准,將徹底破壞 这碩果謊存的 '綠色地帶'.

2. 鑽山台,九芊徑一帶的基建,如交通, 渠务...等, 不能承担如此高密度人口的需要.

3. 在審批过程中, 特區政府必須重新策划: 鐵山台, 九華徑及附近地區的用地情況, 配合整個九龍西的發展(包括第2項提及的各類基建), 动用的公款, 時間...等. 不能

只顧地產發財, 妄顧民生及環境保育. 懇望 '城市規划委員会' 各委員再三考慮.

祝新年進步,

鍾祖光,

主席

關於:規劃申請A/KC/489

本人提出反對理由如下:

申請者提交文件中的"行政撮要提及"-改善申請地點已知附近居民的生活質素和保留現有的歷史建築的兩項中。從來沒有接觸本人諮詢任何意見和提出任何建議。本人不同意亦不知道為什麼會把我的屋作為Historic Buiding。我們亦沒有看見有任何改善我的生活質素的提案。

有關城規發展申請編號 A/KC/489

位置: 葵涌九華徑測量約份第 4 約多個地段及毗連政府土地 [擬議綜合發展包括分層住宅及學校(幼稚園)]

有關上述規劃申請,本人認為只是個「閉門造車」及「罔顧村民」的發展方案!作為居住於九 華徑村村民,本人有需要向 貴會提出反對。

- 首先,發展商並未擁有九華徑村村屋土地的業權,同時,亦未取得相關業主的同意發展。
 請問發展商是否有特權可以不需要取得土地業權人同意,就可以向 貴會申請發展「综合發展區」内土地?
- 2. 發展商第一期發展,將會於九華徑村村屋前興建七幢 120 米高的大廈及馬路等設施(見附圖 A)。此計劃實際罔顧現居九華徑村的村民的存在,根本未有考慮新建的馬路及大廈對村民有多大的影響! 眾所周知,九華徑村位於低窪位置,是一個山谷,大部份村屋建於離海平面約5米左右的地方!但發展商的第一期發展,竟然在我們村民的村屋前興建一條離海平面8米高升至10米高的馬路,以及一座又一座、一幢又一幢樓高120米的大厦(見附圖A及B)。相信在第一期工程竣工後,不但會為我村村屋前帶來一幅3至5米的高牆,而且亦會帶來不少環境問題,如水浸、屏封風效應等! 試問居心何在? 如果能夠設身處地或者逆地而處,未知主席和各位委員、各位規劃師及各位市民大眾,對

發展商上述欺壓我村村民的做法,會有何感受? 有何意見? 此發展計劃是否合乎情理呢? 對居住於九華徑村的村民是否公平呢?

綜合上述理由,本人懇請 貴會否決是項規劃發展申請。

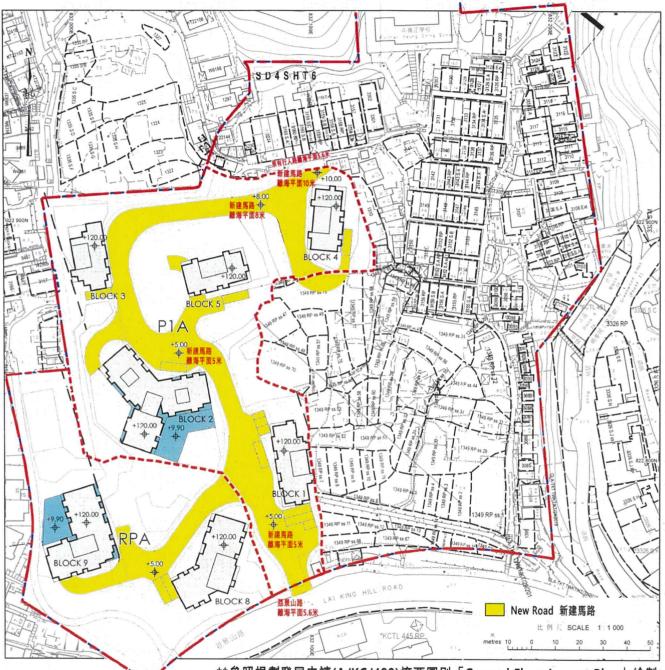

九華徑村村民

華豐園業主委員會

致:主席 门口到黑

葵涌九華徑 擬議綜合發展包括分層住宅及學校(幼稚園) 規劃署檔號TPB/A/KC/489 <u>公眾提供意見</u>

就規劃署2022年4月1日致本委員會有關題述項目和事項的信函,本人作為本委員會的委員和華豐 園業主住戶,就該信函所提及的項目資料呈交個人意見如下列,希望能納入本委員會就相同項目 和事項回覆規劃署的意見函內。

建築期間

- 荔景山道是唯一毗鄰題述項目地盤的道路,但荔景山道僅雙線雙程,地盤毗鄰地段更有巴 士站、小巴站、交通燈、以及緊急車輛入口(EVA),是附近居民(包括華豐園)和交通車 輛經常使用地段;所以在題述項目建築期間,其各類型建築用車輛和工作人員進出地盤 時,必須能安排至避免影響附近居民和交通車輛的正常使用道路,避免交通堵塞,更要避 免對居民構成危險;建築期間必須安排建築用車輛在非繁忙時段進出地盤,例如大型泥頭 車和石屎車須在凌晨時段方可進出地盤等措施。
- 2. 題述項目附近均為住宅,其建築期間必須保持安靜,不可發出違例的噪音。
- 3. 題述項目附近均為住宅,其建築期間必須使用適當措施避免過量灰塵污染空氣,影響附近 居民健康。

項目內容 - 交通

- 項目資料顯示其建議將現有毗鄰的巴士站搬致靠近九華徑新村入口,此位置非常不理想, 不可接受,原因:a)該位置剛好是荔景山道下坡的轉灣位置,對於停靠的巴士和等車乘 客,以及正在落坡的其他車輛,無疑等同製造交通黑點,增加意外和傷亡風險;b)該位置 對面為緊急車輛入口(EVA),如當有巴士停靠時適逢緊急事故,會阻礙緊急車輛進出。
 項目資料顯示其建議僅將現有的行人過路交通燈位移位,並無增加其他行人世的,但在1000
 - 項目資料顯示其建議僅將現有的行人過路交通燈位移位,並無增加其他行人措施,相信此 安排並不足夠應付將來因整個項目入伙後的居民和使用綜合用途樓的市民所大量增加的行 人數量,注意還有幼稚園的年幼學童;此安排亦逼使該項目所增加的大量住宅居民必須經 過華豐園、荔欣苑和華荔村的現有行人措施方可到達美孚港鐵站、巴士站、商場和附近其 他社區措施,無疑對現時附近的屋苑增加管理、治安、嗓音、衛生、滋擾、維修保養等問 題;所以題述項目必須包括增加行人措施,例如行人天橋、有蓋行人路、安全過馬路措施 等,以適當和安全地分流將來進出題述項目的居民和綜合用途樓的使用者。
- 項目資料顯示包括兩層地庫停車場,希望該兩層地庫停車塲包括對公眾開放的車位,以幫助解決華豐園附近一直存在的違例泊車問題。

項目內容 - 環保

7. 項目資料顯示有預留垃圾收集點(REFUSE COLLECTION POINT) 靠在荔景山道路邊,為確保 其產生的臭味和衛生問題不會對附近居民做成滋擾,該垃圾收集點必須為室內型,並附設 適當的除味和衛生消毒措施。

項目內容 - 綜合用途樓

- 8. 要求綜合用途樓不要有濕貨市場,以確保附近良好衛生環境。
- 9. 要求綜合用途樓包括對公眾開放的運動措施,例如球類運動場。

^{10.} 題述項目入伙後,居民人數增加不少,理應值得在新建設施內設置警察派出所,提升附近範圍的治安管理水平。

華豐園業主委員會 致:主席

……/續上頁

其他

- 11. 題述項目的範圍包括滋擾華豐園以及附近其他居民多年的違法燒烤場所在位置,所以,當 題述項目的規劃程序到達適合時期,要求發展商或其他相關責任單位即時圍封該違法燒烤 場的位置,防止不法人士有機會再次霸佔和違法經營。
- 12. 項目資料顯示會配合保留歷史建築(HERITAGE BUILDINGS),要求題述項目範圍內的道路 和行人路安排,能容許公眾人士(例如學生、保育團體以及長年居住附近的居民等)在不 影響題述項目住宅居民正常生活的前提下,參觀該等被保留的歷史建築。

以上是本人作為華豐園業主委員會委員和華豐園業主住戶就題述事項提出的個人意見,希望本委員會能採納和按前述規劃署信函所述方式和期限前呈交規劃署。當然本人非常歡迎其他委員補充 意見。

此致

華豐園業主委員會 副主席

梁漢聲

Details of the Comment:

九華新村務委員會就上述綜合發展申請提出反對,現代表本村村民提出反對理據以及我們的疑問,希望城規會能從善如流,擱置該發展藍圖的審批。

首先,香港政府擁有該地段百分之四十六業權的土地,但整個發展計劃只有私人樓宇以及一所幼稚園,完全沒有其他惠及公眾的任何設施,在我們看來,就像政府白白將市區一幅珍貴的土地拱手相讓予發展商;試問這樣如何體現發展商在其申請書中聲稱的「協助解決香港房屋問題」?又如何說服公眾當中沒有利益輸送之嫌?

再者,該幅土地為「綜合發展用地」,單單只有十四幢私人樓宇何來「綜合」,又只有 一所幼稚園如何「發展」?我們要求相關人士給予合理解釋,以釋除公眾疑慮。

第二,審視整份申請書,即使不是內行人也輕易的看到整個發展藍圖如何粗疏,整個計 劃則重建豪宅、賣車位,對於其他規劃完全置之不管;例如,四周環境、交通規劃、道 路發展、污水處理、垃圾收集、緊急通道等等,試問發展商有沒有詳細的規劃?一份有 欠清晰、有欠周密的所調發展藍圖如何叫大眾信服?

第三,九華徑村兩面山坡陡峭、滿佈樹木,是在鬧市中珍稀的天然林木之地、是在煩囂 城市中自然而成的清幽之地;發展商大舉建造新式豪宅的同時,是否能夠擔保附近的一 大片樹林不被破壞、野生雀鳥棲息之地不被騷擾?在施工期間塵土飛揚、大型工程車輛 進出頻繁,發展商又如何保證附近環境、九華徑新村居民不被影響?在四面環山、斜坡 結構複雜的地段貿貿然進行如此大型工程,牽一髮動全身,動土之前、動土當中、以至 動土之後,發展商是否有能力確保所有持份者,包括我們的大自然,得到應得的尊重、 保護、以及不被騷擾?發展商又是否有能力保障所有持份者的安全?

第四,本村務委員會在得悉此發展申請之後,多次要求和相關政府部門和發展商對話, 希望對方能夠當面解釋整個發展計劃、能和最受影響的村民對話,聆聽一眾村民的意見,多次交涉均不獲理會;到底是九華新村一百四十多戶村民微不足道得不屑一顧,還 是妄顧民意、黑箱作業已成為香港新常態?

我們希望貴會能認真審視整份申請書、仔細聆聽所有持份者的意見、慎重考慮各界提出

<u>意見詳憶</u>

葵涌(中南)分區委員會於 2022 年 9 月 21 日晚舉行第 8 次會議, 會前有委員提出題述議程。有關議程在會議上討論並獲大會通過,把 委員就題述規劃申請的反對意見轉達 貴會,詳情如下:

- 一、 有關規劃的住屋規模龐大,惟周邊的交通等配套設施未及發展,恐對區內居民的日常生活造成負面影響。
- 二、 大規模的建築工程可危及村內十餘棟古蹟樓字的結構及保育工作。
- 三、 工程或使原有的去水渠改道,導致村内水浸加劇。
- 四、 華景山莊至九華徑的山溪內存有稀有生物品種,有關規劃可改 變其生活環境,影響生態。

凌 贵會及有關當局考慮地區的反對意見,以保障區內居民的生活質素。

葵涌九華徑測量約份第4約多個地段及毗連政府土地擬議綜合發展包括分層住 宅及社區設施

就有關葵涌九華徑測量約份第4約多個地段及毗連政府土地【擬議綜合發展包括 分層住宅及社區設施】的規劃申請事宜,經盈暉臺住宅業主委員會商討後,對上 述規劃之申請有以下的意見:

1. 反對九華徑綜合發展區的規劃申請【申請編號: A/KC/489】。

2. 發展商提出將九華徑發展區打造成純住宅項目,是一個「極不理想的規劃 方案」,偏離原定的「綜合發展」的原意和模式!此方案除了會爲本區帶來 6 千 多個住宅單位,預計會為本區增添最少約 1 萬 8 千多名居民,但其他重要的「民 生設施/服務」一切欠奉!因此,我們深信此規劃必定會為毗鄰盈暉臺及美孚新 邨的公共設施,包括餐廳食肆,交通設施及社區服務等,帶來沉重的壓力,令本 區出現交通、噪音污染及停車等問題,對本區現有的居民有極大負面的影響。

3. 如果能將整個九華徑綜合發展作整體發展,並不分成多期發展,將整個發展區的基座「興建大型綜合商場」(包括餐廳、超市、百貨、銀行及社區服務等), 上層為住宅房屋的社區,必定能減輕盈暉臺及美孚新邨設施使用的壓力,同時亦 能造福毗鄰包括九華徑新村、鐘山台、荔欣苑、華豐園、華荔邨荔灣花園、盈暉 臺的居民及美孚新邨的居民,符合現今城市規劃的主流方向。在此,順帶一提, 只有盈暉薈(盈暉臺基座商場)提供民生商業服務給予鄰近社區。原本在盈暉臺在 規劃方面設有一「濕街市」,可惜政府地政處給予臨時豁免書改為商場用途;故 此,現要求政府回復該「濕街市」的設施給予該區居民。

4. 眾所周知,九華徑地處山谷,遇有暴雨天氣便有嚴重水浸問題,昔日曾發 生過水淹荔灣花園停車場事件!為減輕水浸的情況及不讓類似事件的再次發生, 希望發展商有適當的設施規劃,並於各個施工階段,實施預防和緩解措施,減少 對本區居民的影響。

5. 期盼政府能聽取民意,促請發展商更改現時規劃方案,以切合本區居民所 需,惠澤社群!

682

致:城市規劃委員會秘書暨各委員及 傳真 28770245/25228426及荃灣規劃專員 傳真 24125435

<u>規劃申請反對書(截止日: 2023/04/21日)</u> 編號: A/KC/489

對上述規劃發展又再一次申請延期,民等繼續反對,理由如下:

(一)1991/8/16日鄉委會主席及民等出席貴會聆訊會議,秘書及各位委員 聽取民等反對意見後,沒有任何異議。城規會1992/7/2日文件指出就土地用途 作深入商討和考慮,更另設會議商討研究,經過深思熟慮,修訂把九華徑村劃入 綜合發展區。當時法定藍圖S/KC/8中沒有註釋先要執行搬村及沒有註釋搬村地 點,1992/7/13日民等再提出反對。

(二)1993/3/26日再一次出席城規會聆訊會議及面呈信件指出發展谷地先 要執行搬遷九華徑,要作全面發展,不能夠作局部先行發展,秘書及委員理解村 民意願和要求,沒有任何異議。

(三)1993/5/12日葵青民政處官員及規劃關財貴專員等再召開諮訊會,解 說是以社會最佳利益去決定土地用途及考慮村民的意見……給村民一個改善黃 金機會。民等認為公平、公正、合理解決或處理問題才是社會最佳利益。

(四) 葵青民政專員 1994/6/10 日向規劃專員亦指出谷地應有一個全面發 展計劃並非分開逐一處理是政府原意,清拆有關鄉村,綜合重建為社會帶來更多 效益。

(五)1995/12/20日村長及村民在未獲得發展商作出先行搬村及整體發展同 意下,去信城市規劃委員會支持發展商局部先行發展谷地南面,是不智舉措。

(六)1996/2/9日城市規劃委員會沒有履行/執行民等兩次在會議上所提建 議,輕率准許九華徑谷地北面局部發展申請及谷地南部分先行發展(A/KC/200), 公平、公正令人懷疑,是不負責任行為。

(七)1996/10/10 日城市規劃委員會信件指出該藍圖 1996/1/3 日經總督(當時)會同行政局通過批准。換句話說,村民兩次出席城規會聆訊中所提建議/意 見是獲行會接納,谷地發展先要執行搬村獲得城規會認可及行會通過有法定保 障,應該令村民見到希望。

(八) 1997 年葵青文件 77-78/96-97, 規劃專員陸永年在區議會向議員指出

原要求發展商負責收回發展區內所有土地一併發展,但遭發展商反對,谷地南與 北引致不協調。

#

(九)基層區議會認為規劃發展上出現不平行,作出強烈反對,無人反對下 通過,可惜有關部門對基層議會所提建議置之不理,拒聽民意是不負責任。

(十)根據規劃法定藍圖表格申請發展一事,谷地大部分土地不屬於申請人 擁有,而且未得業權人同意,該申請有違法規、程序及有法不依。

(十一)從規劃發展申請圖中得悉,九華徑發展輸候次序排行最後是絕對不 能接授。民等兩次在聆訊會議上提出先要處理執行搬村的建議,秘書及委員等均 沒有任何異議,經過深入研究討論接納,修訂藍圖把九華徑村納入綜合發展區, 城規會有責任履行民等要求先作出搬村妥善安排,息除民等疑慮。

(十二)該規劃發展申請更涉及祖地 S.D.4 地段 1311 及 1349RP。地段 1311 遭當時理民府(現葵青民政專員)行政處理失當,違反既定程序,祖嘗傳統習俗 三位司理,過契前無張貼告示及在欠缺一位司理下,遭無理過契。另一幅祖地 1349RP 當買賣過契告示貼出後,子孫/有份人因未授權司理售賣作出反對,遭買 方民事起訴,成為 HCMP1767/1989 官司糾紛,在審訊中原告向法官要求暫停,所 以沒有最終裁決。三位司理選舉必須得未出售該地有份人書面同意。

民等仍是反對上述規劃發展申請,民等祈望秘書暨各位委員以公平、公正審 視,在審批該發展申請應考慮有關申請是否符合上述條件才作出准許。

由(一)至(十二)點信中所載日期及 HCMP1767/1989,民等早已呈過該等 信件不少次給有關部門包括行會及立法會,所以不再附上。有關該申請延期自 2022年2月開始,每月申請延期一次,令人費解。

副本呈: 行政會議 立法會 RECEIVED 田土註冊處 1 9 APR 2023 廉政公署 Town Planning 葵青民政處 Board 葵青地政處 申訴專員 九華徑村民謹呈 2023 年 4 月 17 日 掛號: RH Z68 690 919 HK

會議摘要:

1993 / 5 / 12 8

- 政務主任(發展)解釋, 召開這次會議的目的, 是再次諮詢村民對於 擬將九華徑村劃為「綜合性發展區」的意見, 以便城市規劃委員會就 村民反對蔡涌分區計劃大綱圖一事作出決定。
- 2. 荃灣規劃專員解釋城市規劃委員會的成員組織及功能。他告訴村民, 除有幾位是政府官員外,城市規劃委員會的成員各來自不同背景,包 活律師、工程師、測量師、工業家及學術界人士。城市規劃委員會是 一個獨立團體,其主要職實是以社會的單佳利益為前提來決定土地的 用途。在履行其職實時,城市規劃委員會會考慮居民的意見。但委員 會並非執行機關,所有發展建議均會由政府或私人發展商實施。
- 3. 荃灣規劃專員續澄清劃為「綜合性發展區」對村民的益處。劃為「綜合性發展區」後,私人發展商便可參與這區的發展。有與趣的人士定會直接與村民聯絡, 商談重建細節。補償條件及安置安排均會是村民與私人發展商商識的專宜。劃為「綜合性發展區」其實給了村民一個改善該村環境的黃金機會。(除)」」「於意規劃「師在會上講這番話)
- 4. 經冗長討論後,村民提出了若干困難及疑問,現綜述如下:
 - (i)九華徑村環境極差(衛生差、房子破舊、村內缺乏空地供擴建用),政府有責任遷置該村。
 - (ii) 展議在 荔園 現 址 興 建 的 公 屋 , 會 妨 礙 該 村 的 視 野 , 並 會 引 致 風 水 問 題 。 建 築 期 問 , 該 村 更 可 能 水 浸 及 發 生 嚴 重 環 境 問 題 。
 - (iii)村民擔心, 鄉近地方充份發展後, 該村還是舊時的模様, 故建議 政府為村民找私人發展商商議綜合發展該村的事。
- 5. 作出回應時, 釜灣規劃專員說, 通常在當局擬於某鄉村進行工務計劃時, 才會考慮選置這村。他補充, 村民擔心荔枝角公屋發展可能引起 水浸及其他環境問題一事, 會反映給房屋署審議。

، الريم م	70. <u>石盿斐女士</u> 表示,她沒有這方面的資料。 <u>劉耀光先生</u> hu ^x 充說、綜合發展區原則上可分期進行發展,但現在涉及的問 題是換地事宜和公共屋邨發展計劃。	71. <u>黄耀聰先生</u> 詢問,最初計劃發展荔景山道以南時,有否將私人樓宇包括在內。	72. <u>劉耀光先生</u> 回答說、	73. <u>主席</u> 詢問, 葵青地政處會否考慮九華徑村村民在討論此 議題前所提出的意見和建議。	74. <u>霍麗棪女士</u> 表示,她們出席是次會議,並非宣布收地事項,而是就收地建議進行諮詢,以便將有關意見轉達行政局。	她對九華徑村村民的意願及意見表示理解,並會向行政局如 實反映。	75. <u>黃耀聰先生及梁廣昌先生</u> 先後發言。他們均反對政府將 九華徑谷分爲荔景山道南、北兩部分發展,亦反對引用收回 官地條例,收回荔景山道以南土地作綜合發展。	76. <u>黄耀聰先生</u> 提出下述動議,並獲 <u>梁廣昌先生</u> 和議:	「葵青區議會遊烈反對未經與九華徑村民達成全面發展九華徑谷為景山道南、北土地的整體計劃前,行政局引用收回官地條例(第 124 章),收回葵涌九華徑谷荔景	山道以南土地作綜合發展之用。」 上述動議在無人反對下獲得通過。	、 (劉耀光先生、陸長銓先生、羅瑞興先生、劉學偉先生、石致 要女士、李民威先生、林兒慧女士、霍麗棪女士、徐國恒先 本五虎達田小旧於临上十時離開。)	<u>众政难仍少知</u> 必死亡 口喝 mar ma 於봷合層面計區發展計劃的動	(葵青區議會文件第78及78a/96-97號)	· <u>主席</u> 在是項 組及荃葵青爭 的代表向大會	舍層面社區發展計劃)。
負責人	. 4 4					葵青池政處			<i>.</i> ,	葵青地政處			-	·	
	<u>先生</u> 説,茘景山道以南及以北兩個綜合發展區的 鋼發展藍圖,已在九六年年中獲城市規劃委員會 劃委員會原要求茘景山道以北發展商負責收回發	<mark>區內的所有土地,以便一併發展,但還發展商反對</mark> 。為免說票 山道以北發展區內的 <mark>發展項目未能同步進行,</mark> 引致不協調的情 祝,地政總署會協調有關收地及補償事項。	49. <u>徐國恒先生</u> 回應 <u>曾俊文先生</u> 說,政府徵收一般私人農地與 海收招賞農地所挥酌的培施,基本上是沒有分別的。若是後者、	見 法	" 为 四 元 3 元 1 元 1 元 1 元 1 元 1 元 1 元 1 元 1 元 1	51. <u>黄耀聰先生</u> 認為,政府引用官地收回條例徵收土地以協助發展商發展,對村民不公平。 <u>曾慶鵬先生</u> 認同此觀點。	. 羅瑞興先生回應 <u>黃耀聰先生</u> 及曾 <u>俊文先</u> 次收地行動是應房屋署要求而作出的。 就徵收九華徑谷地部分土地事宜諮詢區議	會獲得充	53. <u>黄耀聰先生</u> 表示發展公共房屋計劃是值得支持,但不應罔 顧部分原居民的權益。	54. <u>主席</u> 希望居民透過適當的渠道向政府表達對九華徑綜合發 展計劃的意見。	(石致雯小姐、林兒慧女士、曾慶鵬先生、羅瑞興先生、黎啟泰先生及曾俊文先生於下午五時四十分離開。)	葵涌石排街近石梨坑村村口達例泊車問題 (環境及規劃文件第84及84a/96 - 97 號)	55. 主席歡迎下列嘉賓出席會議:	(a) 皇家香港警務處梨木樹分區行動及支援小隊指揮官余澤榮 先生;及	(b) 皇家香港警務處荃灣區交通隊主管曹廣源先生。

敬啟者:

有關城規發展申請編號 A/KC/489

葵涌九華徑測量約份第4約多個地段及毗連政府土地 [擬議綜合發展包括分層住宅及社區設施]

有關九華徑綜合發展區規劃許可申請,發展商於2023年3月22日再次提交進 一步申請資料文件,惟對於基本發展規劃問題,仍未有解決及作出回應。因此,對 是項申請,本人堅決反對。

查是項規劃,九華徑村原居民吳氏及曾氏兩宗族祠堂會被拆毀。本人已於早前 曾去信 貴會,期望能得到合理的解決方案,惟至今發展商尚未有與吾等宗族原居 民接觸,主動向原居民解釋和商議解決問題。經閱讀發展商對公眾意見的回應後, 得悉發展商根本沒有打算解決原居民宗族祠堂問題,祇期望 貴會批准其規劃申請, 令申請人在未有得到九華徑綜合發展區內土地業權人的同意下,就可強行分段/期發 展區內土地。未知 貴會及各批核委員對此種手法,是否認同?本人覺得此規劃方 式,是完全沒有尊重吾等九華徑村原居民,同時亦漠視《基本法》第40條列明「新 界原居民的合法傳統權益受到特區保護」,賦予全體新界原居民傳統權益。

再者,根據申請人的發展規劃方案,於第一期發展進行及完成後,九華徑村門 牌 23 至 30 號村屋、吳氏及曾氏兩族宗祠前面,將會有一條高出現時地面約 3 至 5 米的馬路及大廈平台。此馬路及大廈平台不單會加劇水浸現象、阻礙空氣流通及破 壞景觀環境,同時,亦堵塞了一條村內污水渠的出口。因此,分期發展區內土地的 規劃方案是不合情理。

其實,吾等家族也是宗祠地段的業權人,在未得到我們同意之前,就計劃拆毀 宗祠的規劃,是絕對不能接受。因此,對上述規劃許可申請,我們再次提出强烈反 對。希望 貴會各位委員能發揮職能,遏止此等不合情理的做法,避免此種手段, 成為日後其他鄉村發展規劃申請許可的先例,並請盡速否決上述規劃許可申請。謝 謝!

九華徑村原居民 吳志忠謹啟 2023 年 4 月 20 日

鄉郊及新市鎮規劃小組委員會 主席及各委員:

有關城規發展申請編號 A/KC/489

位置: 葵涌九華徑測量約份第4約多個地段及毗連政府土地 [擬議綜合發展包括分層住宅及社區設施]

有關發展商於 2023 年 3 月 22 日再次提交進一步申請資料文件,本人提出反對上述規劃申請 建議。理由如下:

- 查九華徑山谷的中央有一非常重要的配水管道,由2條直徑一米多的大水管組成,主要將 瑪嘉烈醫院/葵涌醫院旁邊水務署的荔枝角配水庫的食水輸送至整個荔枝角區域。因此, 如依照發展商的規劃設計(興建大廈及地下停車場),相信必定會損毀此配水管道。
- 從發展商的規劃設計圖,可得知擬建大廈第1座、第2座及第7座與擬建的馬路、花園等設施必定會直接損毀此配水管道(見附圖(-)),同時,擬建之地下停車場亦會損毀此配水管道(見附圖(二))。
- 於建築期間內,發展商如何保證此配水管道的安全?規劃發展完成後,此配水管道如何進行維護、保養及修理?

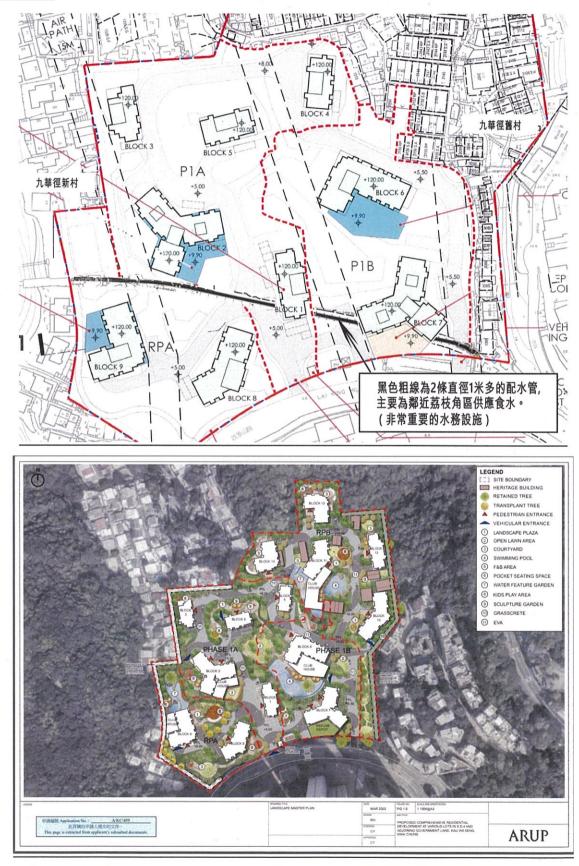

發展商至今仍未能對該配水管道問題提出任何解妥善的決方案!經仔細審視是次規劃發展建 議,要解決此配水管道問題,相信發展商須要重新規劃及更改設計。由於配水管道是葵青及本 區的居民食水供應命脈,所以於水管問題未得到妥善解決前,此規劃申請是否應予以否決。希 貴會委員及水務署官員垂注。謝謝!

城市規劃委員會 香港北角渣華道 333 號 北角政府合署 15 樓

規劃小組委員會 主席及各委員:

有關城規發展申請編號 A/KC/489

位置: 葵涌九華徑測量約份第 4 約多個地段及毗連政府土地 [擬議綜合發展包括分層住宅及社區設施]

有關上述申請,發展商再於 22/3/2023 提交進一步申請資料文件,經閱讀發展商由開始申請至今所 提交的資料文件及回應,知悉發展商只欲發展區域內的農地(大部分為政府及原居民擁有之土地), 而非整個九華徑綜合發展區。申請人亦未有就大多數公眾提出的意見,作出實質回應,或者將規劃 內容作出相應修改!因此,本人必須再次提出反對上述申請。現將反對理由臚列如下,希主席及各 委員了解明白,並否決上述申請。

- 1. 發展商根本未有獲得發展區內的業權人同意發展,就強行提交申請發展,實不合法理。
- 大多數九華徑村原居民、九華徑新村居民及附近週邊居民至今都是反對發展商最新提出的分 期發展計劃。在沒有九華徑村原居民及鄰近居民的支持下,此項規劃申請是否應該否決? 讓 發展商繼續拖延時間,是否浪費公帑!
- 發展商根本未有打算對九華徑舊村土地(村屋)進行發展!發展商使用混淆視聽,混水摸魚的技 倆,企圖將此綜合發展區分拆成多個地區進行分期發展,相信其目的只是為取得區內大片的政 府土地進行重建發展牟利。其實,分期發展的舉措是有違當初 貴會將此綜合發展區規劃為 整體發展的原意及對九華徑村原居民的承諾。
- 發展商提高馬路及大廈地面的高度和增設籬笆,不但令到地處低窪的村屋出現水浸及空氣不 流通的危機,而且會妨礙村民緊急逃生的通路,對村民影響極其嚴重。
- 5. 查九華徑村週邊居民包括九華徑新村、荔欣苑、鐘山台、華豐園、華荔邨、荔灣花園、盈暉臺 及美孚新邨,是很需要一個大型的綜合商場,當中包括購物、街市、娛樂、飲食、銀行及社會 服務等。如能提供實現,相信可以減輕美孚新邨及盈暉臺的壓力,對整體週邊居民有極大的好 處。因此,發展商要將此發展區打造成沒有綜合商場的社區住宅項目根本是不合適,亦不切合 實際。

九華徑村村民 Thomas Ng 2023 年 4 月 21 日

Advisory Clauses

- 1. The approved Master Layout Plan (MLP), together with the set of approval conditions, will be certified by the Chairman of the Town Planning Board (TPB) and deposited in the Land Registry in accordance with section 4A(3) of the Town Planning Ordinance. Efforts should be made to incorporate the relevant approval conditions into a revised MLP for deposition in the Land Registry as soon as possible.
- 2. To note the comments of the District Lands Officer/Tsuen Wan & Kwai Tsing (DLO/TW&KT), Lands Department (LandsD) that:
 - (a) land within the VE is primarily preserved for small house development by indigenous villagers under the Small House Policy. For any non-small house land exchange applications within the VE, the applicants should provide justifications to substantiate the application for the exceptional circumstances for consideration;
 - (b) the ownership of the proposed surrender lots will be examined when a land exchange application is accepted to be proceeded. For the lots alleged to be fully acquired by the applicants, our records indicate that all private land within Phase 1B, i.e. various sub-sections of Lot No. 1349 RP in S.D. 4, are still owned by Tsang Wa Hon Tso because no consent had been given under s.15 of the New Territories Ordinances to the various Agreements and Conveyances on Sale registered against the said lots in favour of Cornhill Enterprises Limited. The applicants should prove his title to the above land if land exchange is pursued thereat;
 - (c) before completion of a proposed land exchange, the applicants should unify the title of and clear all occupation fee from encumbrances on all the private lots proposed to be surrendered; and
 - (d) any land exchange applications should accord with the approved development scheme by the Board.
- 3. To note the comments of the Commissioner for Transport (C for T) that:
 - (a) relocation of the existing pedestrian crossing and bus stop on Lai King Hill Road Eastbound would be implemented to avoid conflict with the proposed vehicular access for the development. The relocation of pedestrian crossing and bus stop at Lai King Hill Road should be reviewed and implemented to our satisfaction;
 - (b) it is noted that staggered crossing is proposed for the improvement works at the junction of Kwai Chung Interchange and Lai King Hill Road. Please take into consideration the followings in the detailed design:
 - (i) the staggering should preferably be left-handed so that pedestrians stepping onto the central reserve or refuge turn towards the approaching traffic to give them a better view of it;
 - (ii) the central refuge should be large enough to accommodate the expected numbers of pedestrians gathered during each signal cycle; and

- (iii) to enhance walkability, wholly or partly synchronised pedestrian green time on both side of a staggered crossing should preferably be arranged in at least one stage of traffic signal cycle, and in such case, 800mm overlapping for pedestrian crossing shall be provided, i.e. stagger with less than one crossing width.
- 4. To note the comments of the Chief Highway Engineer/NT West, Highways Department (CHE/NTW, HyD) that:
 - (a) the proposed junction improvement works and road modification works due to the development should be carried out by the applicants' own cost; and the design shall be approved by TD and complying with HyD's standard; and
 - (b) the proposed retaining structure & its support for the setback area of the relocated bus lay-by, as well as the alternative relocation option, if appropriate, will be maintained by the applicants.
- 5. To note the comments of the Director of Environmental Protection (DEP) that:
 - (a) it is noted that the EIAO implication of the proposed sewage pumping station has been affirmed. Should any proposed works/facilities of the development be confirmed as a designated project (DP), the applicants shall observe and follow the statutory procedure under the EIA Ordinance. It is noted that the applicants intend to submit a Project Profile for direct application of environmental permit (DIR) for EPD's consideration and approval at a later stage. The applicants are reminded that the information presented in this report and/or the Board's decision on this planning application shall not pre-empt EPD's future decision under the EIAO;
 - (b) since EPD's water quality monitoring station KW3 would be affected by the construction of the proposed development and the proposed watercourse removal/diversion, the applicants are advised to (i) provide a construction schedule of the four phases of the proposed development and (ii) update when the watercourse removal/diversion will be conducted when such information is available; and
 - (c) with respect to Shek Lei Pui Water Treatment Works, based on the information provided, we have no comment from the non-fuel gas dangerous goods risk perspective and EPD considers that a submission of Risk Assessment to CCPHI is not necessary. Nevertheless, EMSD's advice from fuel gas risk perspective shall be sought.
- 6. To note the comments of the Chief Engineer/ Mainland South, Drainage Services Department (CE/MS, DSD) that:
 - (a) to relieve the increasing pressure of the drainage system due to development and ensure sustainable development in Hong Kong in the face of climate change, provision of blue-green drainage infrastructure according to Section 3.2.2 of DSD's Storrmwater Drainage Manual is strongly recommended to be incorporated in the development with a view to reducing the quantity as well as improving the quality of site runoff. In fact, similar concept is already embraced in the stormwater

management section of BEAM Plus Neighbourhood in which credits will be granted for promotion of infiltration and provision of temporary storage. In view of the above, the applicants are recommended to explore further appropriate blue-green drainage infrastructure for incorporation in this project.

- 7. To note the comments of the Executive Secretary (Antiquities & Monuments), Antiquities and Monuments Office (AMO) that:
 - (a) since it is anticipated that extensive construction works will be carried out in close proximity to the Graded Buildings, we would like to reiterate that the Graded Buildings should be preserved and maintained properly in the proposed phased development. Detailed assessments on the possible physical impacts on the Graded Buildings should be conducted before the commencement of any works. Appropriate precautionary, monitoring and protection measures should be proposed and implemented. Meanwhile, the ambience of the site and the visual impacts arising from the proposed scheme on the Graded Buildings should also be considered and assessed, if the subject planning application is approved by TPB;
 - (b) it is anticipated that the applicants may carry out works at the Graded Buildings to suit their new use(s), a Conservation Management Plan (CMP) is therefore required to manage the change(s) of the Graded Buildings arising from their new use(s). It is noted that the applicants have committed to submit a CMP for the Graded Buildings to AMO in detailed design stage. The applicants are reminded that the CMP should be approved by AMO before commencement of any works and should include but not limited to the followings:
 - (i) the outline of the conservation approach of the captioned development;
 - (ii) documentation of the proposed conversion works to the Graded Buildings within the application site;
 - (iii) evaluation of the impacts of the proposed works on the Graded Buildings within the application site;
 - (iv) provision of protective measures for the Graded Buildings throughout the project period; and
 - (v) recommendations on the mitigation measures for the Graded Buildings therein for managing the changes arising from the captioned development project;
 - (c) there are a number of historical buildings within the Site, including Nos. 8, 11, 11A, 12, 15A, 23, 24, 25, 28A, 29, 31, 33, 33A, 35, 36, 40, 41, 49A, 51, 51B, 52A, 52D, 55, 56, 57, 57A, 58, 61, 62, 63, 63B, 64, 66 and 66A Kau Wa Keng Tsuen as well as the former Lutheran Church and Primary School at Nos. 19-19A Kau Wa Keng San Tsuen, which may possibly have certain heritage value. If preservation *in-situ* of these buildings is considered not feasible, the applicants are recommended to preserve the buildings by record through photographic recording and 3D scanning, and provide interpretation information of Kau Wa Keng in the future development to tell the history of the area. The applicants are also advised to provide a set of

the photographic and 3D screening records to AMO for record purpose and future use, such as research, exhibition and educational programmes; and

- (d) Kau Wa Keng Old Village is not a Site of Archaeological Interest. Notwithstanding, the applicants are advised to confirm that the Site has no archaeological potential so as to cover its assessment on this particular aspect of cultural heritage.
- 8. To note the comments of Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
 - (a) requirements for sustainable building design guidelines as stipulated in the PNAP APP-152 should be complied with in case the attribute of gross floor area concessions under the PNAP APP-151 is applied; and
 - (b) detailed comments under the BO will be given at building plan submission stage.
- 9. To note the comments of Chief Engineer/Construction, Water Supplies Department (CE/C, WSD) that:
 - (a) if there are any changes to the Master Layout Plan of the proposed comprehensive development, the developer is required to submit them to WSD for review and comment;
 - (b) during the design and construction stage, the developer is required to obtain the latest information on the waterworks installation for design and protection of the waterworks installation within the WWR;
 - (c) the developer is required to submit the Waterworks Impact Assessment Report to WSD for review and comment, which should include the followings:
 - (i) the Master Layout Plan including foundation information at the detailed design stage;
 - (ii) the foundation plan and ground movement monitoring plan at the detailed design stage;
 - (iii) the protection plan for the waterworks installation within the WWR and in the vicinity of the site at construction stage and operational stage prior to any construction;
 - (iv) the landscape design or any other design information which may affect our operation and maintenance of the waterworks installation within the WWR, in additional to the trees and shrubs restriction;
 - (d) the developer and his site staff are reminded that neither temporary nor permanent structures can be hoisted within the WWR, and no materials can be stored there.
 24-hour free access must be provided for WSD's staff, contractors and specialists to perform routine operation and maintenance;

- (e) for any damages of the waterworks installation within the WWR during and after the construction caused by any works or other activities carried out by the developer, the cost of repair and reinstatement shall be binding on the developer;
- (f) if the above design submissions fail to meet the satisfactory requirements of WSD; or failure of the construction works to fulfil the agreed design; or any outstanding works found on site after the construction stage; or any damage of the waterworks installation found on site; or any other special circumstances related to the WWR, WSD may request BD to defer the issuance of the occupation permit until the satisfactory requirements of WSD are met; and
- (g) if the developer has to divert the existing water main within the WWR, he should bear the construction cost and the responsibility including the detailed design and construction works of the new water mains, and is required to seek approval from WSD throughout the process.
- 10. To note the comments of the Director of Food and Environmental Hygiene (DFEH) that:
 - (a) the proposed permanent RCP should be reprovisioned with parking area for refuse collection vehicles, loading bay/ refuse storage area, vehicular entrance, secondary entrance for handcarts, office-cum-roll call point, storeroom and storage area for handcarts and refuse bins, staff toilets and changing rooms as stipulated in FEHD's Handbook on Standard Features for Refuse Collection Points (March 2021);
 - (b) the storeroom should be separated from the RCP in order to provide a clean and dry environment for storage of protective gears and equipment, e.g. disinfection chemicals, PPE, marks, googles;
 - (c) the proposed RCP should provide the facilities / meet the requirements to fulfill the future legal requirement upon implementation of the Municipal Solid Waste Charging Scheme; and
 - (d) permanent reprovisioning of the flushing toilet instead of aqua privy is required unless the whole Kau Wa Keng San Tsuen and Kau Wa Keng Old Village will be demolished with no more household unit with existing villagers remaining there. The reprovisioned public toilet should be a flushing toilet following prevailing FEHD's standards and prevailing requirements promulgated by relevant Government departments, including the Design Manual – Barrier Free Access.
- 11. To note the comments of the Director of Fire Services (D of FS) that:
 - (a) fire service installations and water supplies for firefighting should be provided to the satisfaction of this Department;
 - (b) detailed fire services requirements will be formulated upon receipt of formal submission of general building plans;
 - (c) as no details of the emergency vehicular access (EVA) have been provided, comments could not be offered by this Department at the present stage. Nevertheless, the applicants are advised to observe the requirements of EVA as

stipulated in Section 6, Part D of the Code of Practice for Fire Safety in Building 2011 which is administered by the Buildings Department; and

- (d) regarding the proposed Special Child Care Centre (SCCC) of the proposed development, the applicants are advised to observe the height restriction as stipulated in S.19 of Child Care Services Regulations, Cap. 243A.
- 12. To note the comments of the Director of Social Welfare (DSW) that:
 - (a) for the proposed 60-p Day Care Centre for the Elderly (DE), single floor arrangement on G/F (vehicle accessible floor) is most desirable from service point of view as all the end users are frail in health and require close monitoring. Its design and floor arrangement should be reviewed in detailed design stage;
 - (b) it is noted that the Home Care Services (HCS) for Frail Elderly Persons is straddled across two floors (i.e. G/F 1/F) at Block 1 in Phase 1A. In view of the issues regarding manpower support, monitoring and security, it should be relocated on one single floor in the detailed design stage;
 - (c) it is noted that the 60-p Special Child Care Centre (SCCC) is planned at 1/F 2/F of Block 13 under Remaining Phase B. Since SCCC serves pre-school children with moderate to severe disabilities, split floor arrangement is not preferred from service and operational perspectives. Given that the floor arrangement for SCCC will be further reviewed at the detailed design stage, we have no further comment from service perspective. The applicants are reminded that the design of SCCC should comply with the requirement stated in the Cap. 243 Child Care Services Ordinance, Cap 243A Child Care Services Regulations and the Operation Manual for Preprimary Institutions.
- 13. To note the comments of Chief Architect/Advisory and Statutory Compliance Division, Architectural Services Department (CA/ASC, ArchSD) that it is noted that some of the blocks' façade area (such as Block 1, 3, 10 to 13) are facing west. Solar control devices should be considered to reduce solar heat gain and avoid glare as far as possible.
- 14. To note the comments of Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that:
 - (a) the Application Site is well-vegetated and many mature trees are found within the Site. The applicants should consider a holistic approach to retain the existing landscape resources and historical buildings and incorporate them into the proposed landscape design in a comprehensive manner;
 - (b) it should be reminded that approval of the application under s.16 of the Town Planning Ordinance does not imply approval of tree works such as felling/ transplanting or pruning under lease. Applications on tree works should be submitted direct to relevant authorities/ government departments for approval where appropriate; and
 - (c) the applicants are reminded that approval of the s.16 application under the Town Planning Ordinance does not imply approval of the site coverage of greenery

requirements under APP PNAP-152 and/or under the lease. The site coverage of greenery calculation should be submitted separately to BD for approval.

15. To note the comments of Director of Leisure and Cultural Services (DLCS) that the applicants are advised that the New Territories West (NTW) Tree Team of LCSD is responsible for maintaining roadside trees situated on landscaped areas and on Unleased & Unallocated Government Land (UUGL) within 10 metres from kerb along existing non-expressway public roads outside country park within Tsuen Wan, Kwai Tsing and Islands District(s) in accordance with Technical Circular (Works) No. 6/2015.
