Sorry for my typo mistake of the previous email. The sewerage impact assessment should be substituted by Air Quality Impact Assessment. The revised information should be the following:

According to the departmental comments for the Section 16 application for the for the above premise, it is estimated that more time should be needed to solve the issues with other departments. Basically, the Traffic Impact Assessment and the Air Quality Impact Assessment been processed by the professional consultant. Therefore, we hereby require to defer the board meeting of the application to 2 months for handling the departmental comments.

Sorry for any inconvenience caused.
