**Town Planning Board Guidelines for
Application for Open Storage and Port Back-up Uses
(TPB PG-No.13F)**

1. On 27.3.2020, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13F) were promulgated, which set out the following criteria for New Development Areas:
 - (a) The planning for various NDAs (including potential development areas) in the New Territories has been in progress and the land use proposals for some of these areas have been incorporated as appropriate into relevant statutory town plans. The NDAs will be implemented by phases. While it is envisaged that the existing open storage and port back-up uses in these areas will be gradually phased out, sympathetic consideration may be given to applications for continued operation of these uses during the interim period before the sites are required for NDA development.
 - (b) For existing open storage and port back-up uses with previous planning approval(s) and/or permitted under the previous OZPs, sympathetic consideration may be given to the application (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant) until the concerned site is required for implementation of NDA development, provided that the relevant approval conditions, if any, have been complied with. Technical assessments, where appropriate, should be submitted to demonstrate that the continued operation of the current uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas and the concerns of the departments and local residents, if any, can be addressed through the implementation of the approval conditions.
 - (c) In view of the impending implementation of NDAs, new open storage and port back-up uses are generally not encouraged to infiltrate into the NDAs. There is a general presumption against such uses at greenfield areas and/or at sites with land use compatibility issue, e.g. in close proximity to existing residential dwellings which may be subject to environmental nuisances caused by the open storage and port back-up uses. Applications will normally be rejected unless under exceptional circumstances.
 - (d) Any approved temporary use and development should not jeopardize the long-term planned development on the respective site/the surrounding area under the NDA and the applicant should be advised that the site would be required by the government at any time during the planning approval period for implementation of government projects.

Rejected Application

Application No.	Uses/Development	Date of Consideration	Rejection Reason
A/YL-HT/3	Temporary Container Storage Yard for a Period of 3 Years	27.10.1995	(1) – (6)

Rejection Reasons

- (1) The proposed development is not compatible with the village settlements of Ha Tsuen Heung and Sha Chau Lei Tsuen.

- (2) The traffic impact assessment is considered unsatisfactory as it fails to demonstrate that the proposed container storage yard will not cause adverse traffic impact on the local road network.
- (3) There is insufficient information to demonstrate the practicability and timely completion of the proposed junction improvement works at Ping Ha Road/Tin Ha Road and Ping Ha Road/Hung Tin Road.
- (4) The applicant's proposal to implement a left-in/left-out turning movement at the entrance of the development is undesirable as it will encourage container vehicles to use Tin Ha Road which is not designed to accommodate container vehicle traffic. This will endanger the safety of other road users.
- (5) There is insufficient information to demonstrate that the area for queuing of container vehicles is adequate.
- (6) Approval of the application will set an undesirable precedent for similar applications in the vicinity of the application site leading to adverse cumulative effects on road safety and traffic of the area.

- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that:
- the Site comprises Old Schedule Agricultural Lots (OSAL) and Government Land (GL). The OSALs are held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government;
 - the Site situated on GL with about 240m² is covered by Short Term Tenancy No. 1869 and 2867 for the purposes of Open Storage of Recycling Materials (Plastic, Paper and Metal) with Ancillary Workshop and Temporary Open Storage of Vehicle Parts, Container Trailers, Marble, Construction Materials and Machinery with Small Scale Ancillary Container Trailer Repair Workshop and 8 Loading/ Unloading Spaces respectively;
 - the private lots covered by Short Term Waiver (STW) are listed below:

- according to his record, there is no lease modification/land exchange application or building plan submission in relation to development at the Site approved/under processing;
- the STT/STW holder(s) should apply to his office for modification of the STT/STW conditions where appropriate and the lot owner(s) of the lot(s) without STW should apply to his office for permitting the structures to be erected or to regularize any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application

for regularisation or erection of temporary structure(s) will be considered. Application(s) for any of the above will be considered by LandsD acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by LandsD;

(d) to note the comments of the Commissioner for Transport (C for T) that:

- sufficient manoeuvring space shall be provided within the Site. No vehicles are allowed to queue back to public roads or reverse onto/from public roads; and

(f) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD) that the required condition record should include coloured photos showing the current condition of the drainage facilities and a layout plan indicating the locations of the photos taken. The submitted photos should cover all internal surface channels, catch pits, sand traps, manholes, terminal catch pits/manholes and the downstream discharge path as indicated on the submitted drainage proposal;

(g) to note the comments of the Director of Fire Services (D of FS) that:

- the layout plans should be drawn to scale and depicted with dimensions and nature of occupancy and the location of where the proposed fire service installations (FSIs) to be installed should be clearly marked on the layout plans;
- good practice guidelines (**Appendix VI** of this RNTPC Paper) for open storage should be adhered to; and
- if the proposed structure(s) is required to comply with the Buildings Ordinance (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans or referral from relevant licensing authority respectively;

(h) to note the comments of the Director of Environmental Protection (DEP) that the applicant is advised to follow the latest 'Code of Practice on Handling Environmental Aspects of Temporary Uses and Open Storage Sites' ('COP') in order to minimize the possible environmental impacts on the surrounding area;

(i) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:

- the Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5 m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage;
 - if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the Building Authority (BA), they are unauthorized building works (UBW) under the Buildings Ordinance (BO) and should not be designated for any proposed use under the captioned application;
 - for UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - before any new building works (including containers / open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO; and
 - any temporary shelters or converted containers for office, storage, washroom or other uses are considered as temporary buildings are subject to the control of Part VII of the B(P)R. Detailed checking under the BO will be carried out at building plan submission stage;
- (j) to note the comment of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) that approval of the application by the Town Planning Board does not imply approval of tree works such as pruning, transplanting and/or felling under lease. The applicant is reminded to approach relevant authority/government department(s) to obtain necessary approval on tree works, where appropriate; and
- (k) to note the comment of the Project Manager (West), Civil Engineering and Development Department (PM(W), CEDD) that the Site falls within the boundary of Hung Shui Kiu/Hau Tsuen New Development Area (HSK/HT NDA). To ensure timely and orderly implementation, the development of HSK/HT NDA and relevant site formation and infrastructure works would be implemented in three phases, viz. First Phase development, Second Phase development and Remaining Phase development. The lots concerned might fall within the site under Remaining Phase development of HSK/HT NDA. While the detailed implementation programme for the project is still being formulated, it is envisaged that the site formation and engineering infrastructure works for the Remaining Phase development will commence in 2030. The applicant is required to pay attention to the development programme and ensure his proposed development would not affect or impose constraints to the proposed works under HSK/HT NDA.
