Annex 1 Estimated Traffic Generation

- 1.1 The application site is abutting a short vehicular access leading from Ping Ha Road. It is subject to 8 previous planning permissions since 1996 for open storage uses. It is not a development at the green site.
- 1.2 The estimated average traffic generation and traffic generation rate at peak hours are as follow:

	<u>Average Traffic Generation Rate (pcu/hr)</u>	<u>Average Traffic Attraction Rate (pcu/hr)</u>	<u>Traffic Generation Rate at Peak Hours (pcu/hr)</u>	<u>Traffic Attraction Rate at Peak Hours (pcu/hr)</u>
Private car	0.3	0.3	2	2
Medium/ heavy goods vehicle	0.4	0.4	0	0
Total	0.7	0.7	2	2

Note 1: The opening hour of the proposed development is restricted to 8:00 a.m. to 6:00 p.m. from Mondays and Saturdays. No operation will be held on Sundays and public holidays;

Note 2: The pcu of private car, medium/heavy goods vehicle are assumed as 1 & 2 respectively; &

- 1.3 In association with the proposed use, adequate space for manoeuvring purpose would be provided. Due to the fact that the application site is small in size and directly linked with Yuen Long Highway via Ping Ha Road, the proposed development being applied would not aggravate the traffic condition of adjoining road network.

The proposed development is intended to be a recyclable centre including storage of recyclable metal and baling activities. No workshop activities including cleaning, burning, melting, crushing, shredding breaking and washing of metal waste will be carried out at the application site.

The landscape proposal and photos showing the existing trees at the site is attached for your record.

We are glad to submit the attached photos showing that the trees at the captioned site were preserved and grown. All the trees were shown in the attached photos. Please see attached photos and photo viewpoint in Figure 1.

Our response to the comments of CTP/UD&L, Planning Department is as follows:

Comments of CTP/UD&L, Planning Department	Applicant's response
<p>- Discrepancy in the numbers of proposed structures on “美化環境建議圖” and in Photo nos. 4, 5 and 7 to 11 are observed, the Applicant is reminded that the implementation shall tally with the submitted proposal. The submitted layout plan should reflect the as-built landscape works and location of structures as appropriate; and</p> <p>- Existing trees are topped and poorly maintained, and vines are observed on those trees in Photo nos. 6 to 8.</p>	<p>The structures as shown in photo nos. 4 and 5 is containers containing recyclable materials and they are not structures on the site because they will be removed after unloading of recyclable materials. The structures as shown in photos 7 and 11 is removable canvas and they can be removed easily. They are not treated as structures because they can be detached within minute.</p> <p>Photo 6 and photo 8 has been taken again recently to show that vines have been removed.</p>

Town Planning Board Guidelines for
Application for Open Storage and Port Back-up Uses
(TPB PG-No.13F)

1. On 27.3.2020, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13F) were promulgated, which set out the following criteria for New Development Areas:
 - (a) The planning for various New Development Areas (NDAs) (including potential development areas) in the New Territories has been in progress and the land use proposals for some of these areas have been incorporated as appropriate into relevant statutory town plans. The NDAs will be implemented by phases. While it is envisaged that the existing open storage and port back-up uses in these areas will be gradually phased out, sympathetic consideration may be given to applications for continued operation of these uses during the interim period before the sites are required for NDA development.
 - (b) For existing open storage and port back-up uses with previous planning approval(s) and/or permitted under the previous OZPs, sympathetic consideration may be given to the application (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant) until the concerned site is required for implementation of NDA development, provided that the relevant approval conditions, if any, have been complied with. Technical assessments, where appropriate, should be submitted to demonstrate that the continued operation of the current uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas and the concerns of the departments and local residents, if any, can be addressed through the implementation of the approval conditions.
 - (c) In view of the impending implementation of NDAs, new open storage and port back-up uses are generally not encouraged to infiltrate into the NDAs. There is a general presumption against such uses at greenfield areas and/or at sites with land use compatibility issue, e.g. in close proximity to existing residential dwellings which may be subject to environmental nuisances caused by the open storage and port back-up uses. Applications will normally be rejected unless under exceptional circumstances.
 - (d) Any approved temporary use and development should not jeopardize the long-term planned development on the respective site/the surrounding area under the NDA and the applicant should be advised that the site would be required by the government at any time during the planning approval period for implementation of government projects.

The RFSIC shall after completion of the installation/maintenance/ modification/ repair work issue to the person on whose instruction the work was undertaken a certificate (FS 251) and forward a copy of the certificate to the D of FS;
- if the proposed structure(s) is required to comply with the Buildings Ordinance (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plan; and
- good practice guidelines (**Appendix VI** of this RNTPC Paper) for open storage should be adhered to;

(h) to note the comments of the Director of Environmental Protection that:

- the applicant is advised to follow the relevant mitigation measures and requirements stipulated in 'Code of Practice on Handling Environmental Aspects of Temporary Uses and Open Storage Sites'. All open storage or stockpiling of metal stock shall be fully and properly covered at any times on the Site; and
- it is the obligation of the applicant to meet the statutory requirements under relevant pollution control ordinances;

(i) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department that approval of the section 16 application under Town Planning Board does not imply approval of tree works such as pruning, transplanting and/or felling under lease. The applicant is reminded to approach relevant authority/government department(s) to obtain necessary approval on tree works, where appropriate;

- (j) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
- the Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5 m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage;
 - if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the Building Authority, they are unauthorized building works (UBW) under the Buildings Ordinance (BO) and should not be designated for any proposed use under the captioned application;
 - for UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - before any new building works (including containers / open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the Building Authority should be obtained, otherwise they are UBW under the BO. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO; and
 - any temporary shelters or converted containers for office, storage, washroom or other uses are considered as temporary buildings are subject to the control of Part VII of the B(P)R. Detailed checking under the BO will be carried out at building plan submission stage; and
- (k) to note the comment of the Project Manager (West), Civil Engineering and Development Department that the Site falls within the boundary of Hung Shui Kiu/Ha Tsuen New Development Area (HSK/HT NDA). To ensure timely and orderly implementation, the development of HSK/HT NDA and relevant site formation and infrastructure works would be implemented in three phases, viz. First Phase development, Second Phase development and Remaining Phase development. The lots concerned fall within the site under Remaining Phase development of HSK/HT NDA. While the detailed implementation programme for the project is still being formulated, it is envisaged that the site formation and engineering infrastructure works for the Remaining Phase development will commence in 2030. The applicant is required to pay attention to the development programme and ensure his proposed development would not affect or impose constraints to the proposed works under HSK/HT NDA.

Dear TPB Members,

Some tweaking to the GFA but same as Application 215

REVOKED ON 24.1.2021:

As the applicant had failed to comply with conditions (d), (f), (g), (h) & (i) satisfactorily by 24.1.2021, the planning permission for the subject application had already been revoked on the same date.

However operation has clearly not been terminated. Moreover this is adjacent to 225 that to date with a whopping ten extensions of time has still to fulfill conditions.

Instead of rolling over these applications as directed by PlanD, TPB members have a duty to the community they represent to read the details and TO INQUIRE INTO MATTERS.

If the number of applications to be considered at each meeting is too many to be considered in depth then this is an issue that must be discussed and a solution found.

The number of applications that get rolled over despite appalling histories of non compliance with essential conditions is shocking.

Dear TPB Members,

It is evident that the entire area between Tin Ha and Ping Ying Road is ideal for large residential development with extensive village development on one side and the now mature Tin Shui Wai on the other.

The administration should be developing large industrial parks to accommodate the brownfield uses. When is Ha Tsuen New Town going to materialize?

Rolling over brownfield uses, particularly those badly managed facilities, only prolongs the process.
