No objection to the application from highway maintenance point of view.

3. Drainage

Comments of the Chief Engineer/Mainland North, Drainage Services Department:

Recommended Advisory Clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (the Site);
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that:

- the Site comprises Government Land (GL) and Old Schedule Agricultural Lot 650 RP in D.D. 125 held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government;

- the private lot covered by Short Term Waivers (STW) is listed as below:

<u>STW No.</u>	<u>Lot(s). in D.D.125</u>	<u>Purposes</u>
4699	650 RP	Temporary Shop and Services (Real Estate Agency and Convenience Store)

- the GL within the Site is covered by a Short Term Tenancy (STT) No. 3073 for the purpose of “Temporary Shop and Services (Real Estate Agency)”;
 - in accordance with the prevailing guidelines, STW should be issued for the entire lot, rather than for a portion of the lot. The applicant is required to include all structures within the lot in the STW application, where appropriate; and
 - the STT/STW holder(s) should apply to his office for modification of the STW/STT conditions where appropriate, if any. The application(s) for STW/STT will be considered by the Government acting in the capacity of the landlord and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of waiver fee/rent and administrative fee as considered appropriate by LandsD. Besides, given the proposed use is temporary in nature, only application for regularisation or erection of temporary structure(s) will be considered;
- (c) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that adequate drainage measures should be provided to prevent surface water running from the Site to the nearby public roads and drains;
- (d) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department that the required condition record should include coloured photos showing the current condition of the drainage facilities and a layout plan indicating the locations of the photos taken. The submitted photos should cover all internal surface channels, catch pits, sand traps, manholes, terminal catch pits/manholes and the downstream discharge path as indicated on the submitted drainage proposal;
- (e) to note the comments of the Director of Environmental Protection that the applicant is advised to follow the latest “Code of Practice on Handling Environmental Aspects of Temporary Uses and Open Storage Sites” in order to minimise the potential environmental nuisances on the surrounding areas;
- (f) to note the comments of the Director of Fire Services that:

- the layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of proposed fire service installations (FSIs) to be installed should be clearly marked on the layout plans; and
 - if the proposed structure(s) is required to comply with the Buildings Ordinance (BO)(Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and
- (g) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (CBS/NTW, BD) that:
- the Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. The Site does not abut on a specified street of not less than 4.5 m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage;
 - if the existing structures are erected on leased land without the approval of the Building Authority (BA), they are unauthorised building works (UBW) under the BO and should not be designated for any proposed use under the application;
 - for UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
 - before any new building works (including containers/open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW under the BO. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO; and
 - any temporary shelters or converted containers for office, storage, washroom or other uses are considered as temporary buildings are subject to the control of Part VII of the B(P)R. Detailed checking under the BO will be carried out at building plan submission stage.
