## 8. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.  
現請申請人提供申請理由及支持其申請的資料 如有需要，請另頁說明

I Am an indigenous person in the New Territories. I have been working and contributing to Hong Kong for more than 40 years. I would like to apply for a small house grant on Government land under the New Territories Small House Policy for myself and for my family.

The proposed land for erecting small house is located on a rough disused grass batch. Although it is classified as green belt but there are already houses nearby and next to a village car parking lot. I believe it does not affect by any impending development or hinder any future planning or development proposals.

The proposed site can be readily to be connected to existing sewerage system in the area (please see separate attachment).

**9. Declaration 聲明**

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.  
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in this application and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.

本人現准許委員會酌情將本人就這宗申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。

Application for New Territories Exempted House (NTEH)/Small House in New  
Territories  
( promulgated on 7.9.2007 )**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ( 'VE' ) of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ( "V" ) zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
  - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- ^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

**Relevant Extract of Town Planning Board Guidelines for**  
**Application for Development within Green Belt Zone**  
**under Section 16 of the Town Planning Ordinance**  
**(TPB-PG No. 10)**

- (a) there is a general presumption against development (other than redevelopment) in the “Green Belt” (“GB”) zone;
- (b) an application for new development in a “GB” zone will only be considered in exceptional circumstances and must be justified with very strong planning grounds. The scale and intensity of the proposed development including the plot ratio, site coverage and building height should be compatible with the character of surrounding areas;
- (c) applications for New Territories Exempted House (NTEH) with satisfactory sewage disposal facilities and access arrangements may be approved if the application sites are in close proximity to existing villages and in keeping with the surrounding uses, and where the development is to meet the demand from indigenous villagers;
- (d) the design and layout of any proposed development should be compatible with the surrounding area. The development should not involve extensive clearance of existing natural vegetation, affect the existing natural landscape, or cause any adverse visual impact on the surrounding environment;
- (e) the proposed development should not overstrain the capacity of existing and planned infrastructure such as sewerage, roads and water supply. It should not adversely affect drainage or aggravate flooding in the area;
- (f) the proposed development should not overstrain the overall provision of government, institution and community facilities in the general area; and
- (g) any proposed development on a slope or hillside should not adversely affect slope stability.

\* Appeal dismissed by the Town Planning Appeal Board on 20.5.2019

## **Rejection Reasons**

- R1. The proposed development did not comply with the Interim Criteria for assessing planning application for New Territories Exempted House (NTEH)/ Small House development in that it was uncertain whether the proposed Small Houses could be connected to the planned sewerage system in the area. The proposed development would likely cause adverse water quality impacts on the surrounding areas, in particular natural stream course to the west of the site.
- R2. The approval of the application would set an undesirable precedent for other similar applications leading to more Small Houses applications in the subject “Green Belt” (“GB”) zone. This would degrade the landscape quality of the area.
- R3. The proposed development was not in line with the planning intention of the “GB” zone, which was primarily for defining the limits of urban and sub-urban development areas by natural features and to contain urban sprawl as well as to provide passive recreational outlets. There was a general presumption against development within this zone. There was no strong planning justification provided/given in the submission to justify a departure from the planning intention/for a departure from the planning intention of the “GB” zone.

- R4. The proposed development did not comply with the Interim Criteria for Consideration of Application for NTEH/Small House in New Territories (Interim Criteria) in that the applicant failed to demonstrate that the proposed development located within Water Gathering Grounds would be able to be connected to the existing and/or planned sewerage system and would not cause adverse impact on water quality and/or natural landscape in the area and/or that the proposed development would not have adverse geotechnical impact on the surrounding area. The applicant failed to demonstrate that the proposed development would not cause adverse water quality impact on the area.
- R5. The application did not comply with the Town Planning Board Guidelines No. 10 for Application for Development within “GB” zone under section 16 of the Town Planning Ordinance in that the proposed development would have adverse landscape and sewerage impacts on the surrounding areas and would be affected by slope in the vicinity.
- R6. Land was still available within the “Village Type Development” (“V”) zone of Yuen Leng and Kau Lung Hang which was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development within the “V” zone for more orderly development pattern, efficient use of land and provision of infrastructure and services.
- R7. The approval of the application would set an undesirable precedent for other similar applications in the area. The cumulative impacts of approving such applications would result in a general degradation of the natural environment and landscape quality of the area.

**Detailed Comments from Relevant Government Departments**

**1. Land Administration**

Comments of the District Lands Officer/Tai Po, Lands Department:

- (a) no adverse comment on the application;
- (b) the applicant is an indigenous villager of Tai Wo Village, as confirmed by the Indigenous Inhabitant Representative of Tai Po Village. However, his eligibility for a Small House grant has yet to be ascertained;
- (c) the application site (the Site) is unleased and unallocated government land and is not covered by Modification of Tenancy of Building Licence. Small House (SH) application submitted by the applicant at the Site is still under processing;
- (d) the Site falls wholly within the village ‘environs’(‘VE’) Tai Wo Village; and
- (e) advisory comments are at **Appendix VII**.

**2. Traffic**

Comments of the Commissioner for Transport:

- (a) SH development should be confined within the “Village Type Development” (“V”) zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside the “V” zone, if permitted, will set an undesirable precedent case for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application only involves development of one SH and it can be tolerated on traffic grounds.

**3. Environment**

Comments of the Director of Environmental Protection:

- (a) no in-principle objection to the application provided that the applicant will provide adequate sewer connection for disposal of sewage from the SH to the existing public sewer at his own costs and reserve adequate land for the sewer connection work; and
- (b) advisory comments are at **Appendix VII**.

**4. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department:

- (a) if the application is approved, an approval condition on submission and implementation of drainage proposal for the Sites is recommended to ensure that it will not cause adverse drainage impact to the adjacent areas; and

(b) advisory comments are at **Appendix VII**.

## **5. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department:

- (a) no objection to the application from landscape planning perspective;
- (b) the Site is located in an area of settled valleys landscapes character comprising of small houses, temporary structures, farmland, vegetated areas, clusters of tree groups and woodland to the east;
- (c) the Site is covered by grass. Some trees of common species and protected climbers *Dalbergia benthamii* (兩廣黃檀) are observed at the northeast outside the Site. Significant adverse impact on existing landscape resources within the Site and the landscape character arising from the proposed use is not anticipated; and
- (d) should the Board approve this application, it is considered not necessary to impose a landscape condition as there are existing trees adjacent to the Site and the effect of additional landscaping on enhancing the quality of public realm is not apparent.

## **6. Nature Conservation**

Comments of the Director of Agriculture, Fisheries and Conservation:

- (a) no strong view on the application from nature conservation point of view; and
- (b) the Site is covered with common herbs only. Pruning of some young trees of common species to the northeast of the Site may be required.

## **7. Fire Safety**

Comments of the Director of Fire Services:

- (a) no in-principle objection to the application provided that the proposed SH would not encroach on any existing EVA or planned EVA; and
- (b) advisory comments are at **Appendix VII**.

## **8. Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department:

- (a) no objection to the application;
- (b) the Site is located within the upper indirect Water Gathering Grounds (WGG) and is more than 30m away from the nearest water course. The footprint of the proposed SH

falls within 'VE' of Tai Wo Village;

(c) the proposed SH will be connected to public sewerage system adjacent to the Site. Thus compliance of the proposed development with items B(a) and B(i) of the "Interim Criteria for Consideration of Applications for New Territories Exempted House (NTEH)/SH in New Territories" can reasonably be established; and

(d) advisory comments are at **Appendix VII**.

## **9. Demand and Supply of Small House Sites**

According to DLO/TP, LandsD's record, the total number of outstanding SH applications for Kau Lung, Hang, Yuen Leng and Tai Wo Villages is 134, while the 10-year SH demand forecast for concerned village is 894. Based on the latest estimate by the Planning Department, about 8.32 ha (or equivalent to about 332 SH sites) of land is available within the "V" zones of the concerned Villages. Therefore, the land available cannot fully meet the future demand of 1,028 Small Houses (or equivalent to about 25.7 ha of land).

Government land in D.D. 9, Tai Wo Village, Tai Po

Site area: About 65.03sq.m

Zoning: "Green Belt"

Applied development: NET House

Dear TPB Members,

Note from a previous rejection for small house on Agriculture zoning:

PlanD had also looked into the demand and supply in Tai Wo alone, noting that the applicant was an indigenous villager of Tai Wo. In this regard, based on the estimate by PlanD, **about 126 sites were available for Small House development in the "V" zone of Tai Wo which was sufficient to fully meet the 61 outstanding Small House applications of Tai Wo**.

This lot is not only zoned GB, it is government land and any development would incur further encroachment and excavation in order to access the site.

This application has no merit.

Mary Mulvihill

**Recommended Advisory Clauses**

- (a) to note the comment of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that should the application be approved, LandsD will process the Small House application according to the prevailing applicable procedures. However, there is no guarantee that the Small House application would be approved. If the Small House application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to such terms and conditions as may be imposed by LandsD. There is also no guarantee to the grant of a right of way to the Small House concerned or approval of the emergency vehicular access (EVA) thereto;
- (b) to note the comments of the Director of Environmental Protection that the applicant should provide adequate sewer connection for disposal of sewage from the Small House to the existing public sewer at his own costs and reserve adequate land for the sewer work;
- (c) to note the comments of the Chief Engineer/Mainland North of Drainage Services Department (CE/MN, DSD) that:
  - (i) there is no existing DSD maintained public drain available for connection in this area. The applicant should have his own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from the surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient openings should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary wall/fence are to be erected. Any existing flow path affected should be re-provided. The applicant should neither obstruct overland flow nor adversely affect the existing natural streams, village drains, ditches and the adjacent areas. The applicant is required to maintain the drainage system properly and rectify/modify the nearby existing/original drainage systems if they are found to be inadequate or ineffective to accommodate the additional runoff arisen from the development of the Site. The applicant shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure or ineffectiveness of the modified drainage systems caused by their works;
  - (ii) there is existing public sewers in the vicinity of the Site; and
  - (iii) for works to be undertaken outside the lot boundary, prior consent and agreement from LandsD and/or relevant private lot owners should be sought;
- (d) to note the comment of the Director of Fire Services that the applicant is advised to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (e) to note the comments of the Chief Engineer/Construction, Water Supplies Department that:
  - (i) the foul water drainage system of the proposed New Territories Exempted Houses (NTEH)/Small House can be connected to the public sewerage system in the area and the applicant shall connect the whole of the foul water drainage

system to the public sewerage system; and

- (ii) adequate protective measures shall be taken to ensure that no pollution or siltation occurs to the water gathering grounds; and
- (f) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from Town Planning Board where required before carrying out the road works.
