

**Relevant Revised Interim Criteria for Consideration of
Application for NTEH/Small House in New Territories**
(promulgated on 7.9.2007)

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development^);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
 - (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.
- ^i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Rejected Applications

Application No.	Proposed Development	Date of Consideration	Rejection Reasons
A/NE-KLH/521	Proposed House (New Territories Exempted House - Small House)	3.2.2017	R1, R2
A/NE-KLH/537	Proposed House (New Territories Exempted House - Small House)	8.6.2018 (on review)	R1, R2
A/NE-KLH/538	Proposed House (New Territories Exempted House - Small House)	8.6.2018 (on review)	R1, R2
A/NE-KLH/577	Proposed House (New Territories Exempted House - Small House)	15.11.2019	R1, R2, R3

Rejection Reasons

- R1. The proposed development was not in line with the planning intention of the “Agriculture” (“AGR”) zone, which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes. The “AGR” zone was also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong justification in the current submission for a departure from the planning intention
- R2. Land was still available within the “Village Type Development” (“V”) zone of Yuen Leng and Kau Lung Hang which was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development within “V” zone for more orderly development pattern, efficient use of land and provision of infrastructure and services
- R3. The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that the applicant failed to demonstrate that the proposed development located within the Water Gathering Ground would be able to be connected to the existing or planned sewerage system and would not cause adverse impact on the water quality in the area.

Detailed Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD):

- (a) the applicant is an indigenous villager of Kau Lung Hang Village as confirmed by the Indigenous Inhabitant Representative (IIR). However, his eligibility for Small House (SH) grant have yet to be ascertained;
- (b) the Site is held under Block Government Lease demised for agricultural use. The applicant is the registered owner of the Site and the SH grant application submitted by the applicant at the Site is still under processing; and
- (c) the Site is not covered by any Modification of Tenancy or Building Licence.

2. Agriculture

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- the Site falls within “V” and “AGR” zones and there are active agricultural activities in the vicinity. Agricultural infrastructure such as road access and water source is available. The Site is suitable for agricultural rehabilitation for various types of agricultural activities such as open field cultivation, plant nurseries, greenhouses, etc. The proposed development is not supported from an agricultural perspective.

3. Environment

Comments of the Director of Environmental Protection (DEP)

- he has no in-principle objection to the application provided that the applicant will provide adequate sewer connection for disposal of sewage from the proposed development to the existing public sewer at his own costs and reserve adequate land for the sewer connection work.

4. Landscape

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD) :

- (a) she has no objection to the application from the landscape planning perspective;
- (b) the Site is located in an area of settled valleys landscape character comprising Small Houses, vegetated areas, farmlands, temporary structures and cluster of tree groups. The Site is largely hard paved without significant landscape

resources. Significant adverse impact on existing landscape resources and the landscape character arising from the proposed developments is not anticipated;

5. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) such type of development should be confined within the “V” zone as far as possible. Although additional traffic generated by the proposed development is not expected to be significant, such type of development outside “V” zone, if permitted, will set an undesirable precedent for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the application only involving development of a Small House can be tolerated on traffic grounds.

6. Drainage and Sewerage

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) if the application is approved, an approval condition on submission and implementation of drainage proposal for the Sites is recommended to ensure that it will not cause adverse drainage impact to the adjacent areas.

7. Water Supplies

Comments of the Chief Engineer of Construction (CE/C, WSD):

- (a) no objection to the application; and
- (b) the Site is located within upper indirect WGG and is less than 30m away from the nearest water course. About 99% of the footprint of the proposed development falls within the ‘VE’ of Yuen Leng and Kau Lung Hang Villages. According to the applicant’s submission, the proposed development will be connected to public sewerage system.. Thus, compliance of the application with items B(a) and B(i) of the “Interim Criteria for Consideration of Applications for NTEH/Small House in NT” can be reasonably established.

8. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) no in-principle objection to the application provided that the proposed development would not encroach on any existing/planned Emergency Vehicular Access.

9. Demand and Supply of Small House Sites

According to DLO/TP, LandsD's record, the total number of outstanding Small House applications for Kau Lung Hang and Yuen Leng Villages is 98, while the 10-year Small House demand forecast for concerned villages is 778. Based on the latest estimate by the Planning Department, about 6.04 ha (or equivalent to about 241 Small House sites) of land is available within the "V" zones of Kau Lung Hang and Yuen Leng Villages . Therefore, the land available cannot fully meet the future demand of 876 Small Houses (or equivalent to about 21.9 ha of land).

Dear TPB Members,

Objections. There is adequate land within the "V" zone of Kay Lung Hang, you approved a parking facility of almost 3,500sq.m recently, A/NE-KLH/601.

There is no previous history of approval.

Recommended Advisory Clauses

- (a) to note the comments of the District Lands Officer/Tai Po, Lands Department (DLO/TP, LandsD) that:
 - (i) should the planning application is approved, LandsD will process the Small House application. However, there is no guarantee at this stage that the Small House application would be approved. If the Small House application is approved by LandsD acting in the capacity as landlord at its sole discretion, such approval will be subject to terms and conditions as may be imposed by LandsD. There is no guarantee to the grant of a right of way to the proposed Small House or approval of the emergency vehicular access (EVA) thereto.
- (b) to note the comments of the Director of Environmental Protection (DEP) that:
 - (i) the applicant is reminded to convey the sewage to the existing public sewer and secure prior consent and agreement from LandsD and/or relevant private lot owners, if the sewer connection works to be carried out is outside the Site; and
 - (ii) the applicant is reminded to implement the Recommended Pollution Control Clauses (RPCC), which are generally good engineering practices to minimise during construction and environmental nuisance to nearby residents and other sensitive receivers during construction;
- (c) to note the comments of the Chief Engineer/Mainland North of Drainage Services Department (CE/MN, DSD) that:
 - (i) there is existing DSD public stormwater drains in this area, the applicant should have its own stormwater collection and discharge system to cater for the runoff generated within the Site and overland flow from the surrounding of the Site, e.g. surface channel of sufficient size along the perimeter of the Site; sufficient openings should be provided at the bottom of the boundary wall/fence to allow surface runoff to pass through the Site if any boundary wall/fence are to be erected. Any existing flow path affected should be re-provided. The applicant should neither obstruct overland flow nor adversely affect the existing natural streams, village drains, ditches and the adjacent areas. The applicant is required to maintain the drainage system properly and rectify/modify the nearby existing/original drainage systems if they are found to be inadequate or ineffective to accommodate the additional runoff arisen from the development of the Site. The applicant shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure or ineffectiveness of the modified drainage systems caused by their works; and
 - (ii) for works to be undertaken outside the lot boundary, prior consent and agreement from LandsD and/or relevant private lot owners should be sought;

- (d) to note the comments of the Chief Engineer of Construction (CE/C, WSD) that:
- (i) the following conditions should be complied with:
- the foul water drainage system of the proposed Small House can be connected to the public sewerage system in the area and the applicant shall connect the whole of the foul water drainage system to the public sewerage system;
 - adequate protective measures shall be taken to ensure that no pollution or siltation occurs to the Water Gathering Grounds (WGGs);
 - the whole of foul effluent shall be conveyed through cast iron pipes of other approved material with sealed joints and hatchboxes; and
 - since the Site is less than 30m from the nearest water course, the proposed development should be located as far away from the water course as possible;
- (ii) for provision of water supply to the proposed development, the applicant may need to extend the inside services to the nearest suitable government water mains for connection. The applicant shall resolve any land matter (such as private lots) associated with the provision of water supply and shall be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards;
- (e) to note the comments of the Director of Fire Services (D of FS) that the applicant is reminded to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated during land grant stage; and
- (f) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.

8. Justifications 理由

The applicant is invited to provide justifications in support of the application. Use separate sheets if necessary.
現請申請人提供申請理由及支持其申請的資料。如有需要，請另頁說明。

1. 申請地盤位於集水區內，但渠務處已在九龍坑村敷設了污水收集系統，擬議村屋鄰近現有的污水收集系統沙井編號FMH1052944，本人會將村屋排放的污水接駁至污水收集系統，不會影響集水區內的水質。
2. 申請地盤包括「鄉村式發展」及「農業」地帶，但九龍坑村在未獲敷設污水收集系統之前，城規會曾經批准該村多宗相類似的規劃許可，例如A/NE-KLH/351, A/NE-KLH/352, A/NE-KLH/357, A/NE-KLH/401, A/NE-KLH/533 及A/NE-KLH/540。
3. 並非所有「鄉村式發展」地帶（“該地帶”）內的土地都適合興建村屋，例如現有村屋之間的土地、現有村屋圍欄內的私人花園、現有車輛通道、現有行人通道、地段面積太細、地段地形、地段的可達性、其他正在申請中的村屋潛在私人花園土地包括泊車位及通道，及其他零散空間等。因此，在該地帶內實際可建的村屋數量遠遠少於從圖則上以空地面積除以房屋面積的簡單計算。
4. 距離申請地盤西北面2米外已經存在多座村屋。
5. 香港缺乏房屋供應，但市民（包括我自己）的住屋需求大，我只希望能在私人土地建屋，解決自己及家人的住屋需求，不希望輪候公營房屋。
6. 一般情況，如果原居民家庭成員仍然未申請建村屋，他們不會出售該地帶內的地段，而祖堂持有的土地，除非獲得該祖堂全部子孫的同意，否則亦不能出售土地，這導致市場上缺少符合該地帶的土地供應，事實上，原居民正面對如政府覓地建屋的困難，政府可以運用法例收回私人土地，但係原居民不可以，希望城規會能體恤原居民覓地困難，可從寬考慮批准本人的申請。

9. Declaration 聲明

I hereby declare that the particulars given in this application are correct and true to the best of my knowledge and belief.
本人謹此聲明，本人就這宗申請提交的資料，據本人所知及所信，均屬真實無誤。

I hereby grant a permission to the Board to copy all the materials submitted in this application and/or to upload such materials to the Board's website for browsing and downloading by the public free-of-charge at the Board's discretion.

本人現准許委員會酌情將本人就此申請所提交的所有資料複製及/或上載至委員會網站，供公眾免費瀏覽或下載。
