**Clarifications for the Proposed Development**

**Proposed Temporary Shop and Services for a Period of 5 Years in “Village Type Development”  
Zone, Lot 3335 S.BF in D.D.91, Lin Tong Mei, Kwu Tung South, New Territories**

**(Application No. A/NE-KTS/495)**

- (i) Only private car will access the Site. Light, medium or heavy goods vehicles, including container tractors/trailers are prohibited to be parked/stored on or enter/exit the application site (the Site) at any time during planning approval period. Private car is deployed for transportation of goods to support the operation of the proposed development.
- (ii) Toilet and septic tank system are proposed at the Site for sewage disposal. It is approximately 20m north of the nearby watercourse (Plans 1 and 2).
- (iii) It is noted that some existing small fruit trees are located at/near the north-eastern site boundary which is closed to the proposed ingress/egress. However, due to various issues such as:
  - The existing shallow soil depth has limited healthy tree growth; and
  - Relocation of the ingress/egress will reduce space for maneuvering of vehicle within the Site.

Therefore, transplantation or preservation of existing fruit trees is not technically feasible.

**Advisory Clauses**

- (a) to note the comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD) as follows:
  - (i) Lot 3335 S.BF in D.D. 91 is an Old Schedule lot held under the Block Government lease (demised for agricultural use) without any guarantee of right of access. The lot is surrounded by other private lots. The applicant should make his own arrangement for acquiring access to the Site. There is no guarantee that any adjoining Government land will be allowed for the vehicular access to the Site for the proposed use;
  - (ii) any erection of the structure on the lot requires prior approval of his office; and
  - (iii) the owner of the lot concerned shall apply to his office for a Short Term Waiver (STW) covering all the actual occupation area and structures concerned. The application for STW will be considered by government in its landlord's capacity and there is no guarantee that it will be approved. If the STW is approved, its commencement date would be backdate to the first date of occupation (if any) and it will be subject to such terms and conditions to be imposed including payment of waiver fee and administrative fee as considered appropriate by his office.
- (b) to note the comments of the Chief Town Planner/Urban Design and Landscape, Planning Department as follows:
  - (i) noting that some small fruit trees are located at/near the north-eastern site boundary which is closed to the proposed ingress/egress, the applicant should consider relocating the proposed ingress/egress to the existing site entrance at south-eastern side of the Site where feasible for better tree preservation; and
  - (ii) approval of the planning application under Town Planning Ordinance does not imply approval of tree preservation/removal scheme under the Lease. The applicant should seek comments and approval from the relevant authority on the proposed tree works and compensatory planting proposal, where appropriate.
- (c) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):
  - (i) all existing flow paths as well as the run-off onto and passing through the Site should be intercepted and disposed of via proper discharge points. The applicant shall also ensure that no works, including any site formation works, shall be carried out as may adversely interface with the free flow condition of the existing drain, channels and watercourses on or in the vicinity of the Site any time during or after the works;
  - (ii) surface channels should be provided along the perimeter of the lot to collect all the runoff generated from the Site or passing through the Site, and discharge the runoff collected to a proper discharge point. Where walls are erected or kerbs are laid along the boundary of the Site, peripheral channels should be provided on both sides of the walls or kerbs

with details to be agreed by his office; and

- (iii) the proposed drainage works, whether within or outside the lot boundary, should be constructed and maintained by the lot owner at their own expense. For drainage works to be undertaken outside the lot boundary, the applicant should obtain prior consent and agreement from DLO/N and/or relevant private lot owners.
- (d) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) as follows:
- (i) before any new building works to be carried out on the Site, prior approval and consent of the Building Authority (BA) should be obtained unless they are exempted building works or commenced under the simplified requirements under the Minor Works Control System. Otherwise they are Unauthorized Building Works (UBW). An Authorized Person (AP) should be appointed as the coordinator for the proposed building works in accordance with the Buildings Ordinance (BO);
  - (ii) for UBW erected on leased land, enforcement action may be taken by the BA to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO;
  - (iii) any temporary shelters or converted containers for storage or other uses are considered as temporary buildings are subject to the control of Part VII of the Building (Planning) Regulations;
  - (iv) the Site shall be provided with means of obtaining access thereto from a street under the Building (Planning) Regulation 5 and emergency vehicular access shall be provided under the Building (Planning) Regulation 41D;
  - (v) if the Site is not abutting on a specified street having a width not less than 4.5m, the development intensity shall be determined by BA under the Building (Planning) Regulation 19(3) at building plan submission stage; and
  - (vi) formal submission under the BO is required for any proposed new works, including any temporary structures. Detailed comments under BO will be provided at the building plan submission stage.
- (e) to note the comments of the Director of Fire Services as follows:
- (i) if the proposed structure(s) is required to comply with the BO (CAP.123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and
  - (ii) the layout plans to be submitted to his department should be drawn to scale and depicted with dimensions and nature of occupancy, and the location of where the proposed fire service installations to be installed should be clearly marked on the layout plans.
- (f) to follow the environmental mitigation measures as set out in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" issued by

the Director of Environmental Protection (DEP) in order to minimize any possible environmental nuisances as advised by DEP.
