Justification

Appendix G

Lot 1294 S.B in D.D. 92

1. The applicant, Mr Hau Ho Yin (侯浩賢) is an indigenous villager of Kam Tsin Village, District North who wishes to apply permission to build a small house under section 16 of the Town Planning Ordinance;
2. The foot-print of the proposed house site of an area 79% about falls within the "V" zone of Kam Tsin Village, District North, the rest of the proposed house site falls within the "Agr" zone on the Draft Kwu Tung South Outline Zoning Plan S/NE-KTS/18;
3. Land supply within the "V" zone of Kam Tsin Village is very limited and there is a high demand of small house applications. Therefore, it is nearly impossible to purchase land such that the footprint of the proposed small house is completely falling inside the "V" zone;
4. The proposed development is considered compatible with the rural environment and will be visually un-intrusive to the surrounding;
5. The proposed development would not cause any adverse environmental impacts since no tree felling is needed;
6. A surface water drain is found immediately southeast of the proposed house site;
7. In regard to the septic tank, please refer to the relevant letter, DLO's plan and notice for your information (App. H);
8. There is an existing access leading to the subject site but the access is ended up there for time being (App. A). Therefore the development of the small house would NOT cause any adverse traffic impact to the surrounding area;
9. The subject site had been granted permission under Section 16 of the T.P.O. (A/NE-KTS/370-1 refers);
10. Similar applications (Application No. A/NE-KTS/238 and A/NE-KTS/239) for small house development within the "AGR" zone of Kam Tsin Village were approved by the TPB in the past.

**Extract of Interim Criteria for Consideration of Application for
New Territories Exempted House (NTEH)/Small House in New Territories
(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very

special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

*i.e. The applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

Comments from Relevant Government Departments

1. Land Administration

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Site falls entirely outside the Village 'Environ' ('VE') of Kam Tsin Village;
- (b) the applicant claimed himself to be an indigenous villager of Kam Tsin Village. His eligibility for Small House grant has yet to be ascertained;
- (c) the Site is not covered by Modification of Tenancy/Building License.
- (d) the Site is held under Block Government Lease (demised for agricultural use).
- (e) the number of outstanding Small House applications in Kam Tsin Village is 42. As received from the Indigenous Inhabitant Representative of Kam Tsin on 12.6.2019, the number of 10-year Small House demand for the Kam Tsin Village is 600.

2. Fire Safety

Comments of the Director of Fire Services (D of FS):

- (a) he has no objection to the applications provided that the proposed house would not encroach on any existing EVA or planned EVA under application in accordance with LandsD's record.
- (b) The applicant is advised to observe 'New Territories Exempted Houses (NTEH) - A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by the LandsD.

3. Traffic

Comments of the Commissioner for Transport (C for T):

- (a) such type of Small House development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of development outside the "V" zone, if permitted, will set undesirable precedent cases for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial;
- (b) notwithstanding the above, the application involves development of one Small House. He considers that the application can be tolerated on traffic ground.

4. **Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the applications from public drainage viewpoint;
- (b) the Sites are in an area where no DSD stormwater drain is available. Should the applications be approved, condition should be included to request the applicant to submit and implement a drainage proposal for the Sites to ensure that it will not cause adverse drainage impact to the adjacent area;
- (c) his advisory comments are at **Appendix VII**.

5. **Environment**

5.1 Comments of the CE/MN, DSD:

the Site is in an area where no public sewerage connection is available.

5.2 Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small-scale nature of the proposed development, the application alone is unlikely to cause major pollution; and
- (b) septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person.

6. **Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the application from the landscaping planning perspective;
- (b) according to aerial photo of 2021, the Site is situated in an area of rural landscape character, comprising village houses, farmlands, golf course and tree groups. The Site is vacant and there is no significant sensitive landscape resource observed within the Site. Hence significant adverse landscape impact arising from the application is not anticipated;
- (c) according to record, there are some similar approved applications for Small House development in the vicinity of the Site. The proposed development is considered not entirely incompatible with the surrounding environment.

7. **District Officer's Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

he has consulted the locals. The North District Council (NDC) member of the subject constituency, the Indigenous Inhabitant Representative (IIR) of Kam Tsin and the Resident Representative (RR) of Kam Tsin support the application. The Chairman of the Sheung Shui District Rural Committee (SSDRC) has no comment.

8. **Demand and Supply of Small House Sites**

according to DLO/N's record, the total number of outstanding Small House applications for Kam Tsin village is 42 while the 10-year Small House demand forecast for the village is 600. According to the latest estimate by PlanD, about 3.5ha (equivalent to about 139 Small House sites) of land are available within the "V" zone of the concerned village for Small House development. There is insufficient land in the "V" zone to meet the future demand of land for Small House development (i.e. about 16ha of land which is equivalent to about 642 Small House sites).

Advisory Clauses

- (a) To note that the permission is only given to the development under application. If provision of an access road is required for the proposed development, the applicant should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
- (b) To note the comments of the Director of Fire Services that the applicant should observe 'New Territories Exempted Houses - A Guide to Fire Safety Requirements' published by the Lands Department. Detailed fire safety requirements will be formulated upon receipt of formal application referred by the Lands Department.
- (c) To note the comments of the Chief Engineer/Mainland North, Drainage Services Department as follows:
 - (i) all existing flow paths as well as the runoff onto and passing through the Site should be intercepted and disposed of via proper discharge points. The applicant shall also ensure that no works, including any site formation works, shall be carried out as may adversely interfere with the free flow condition of the existing drain, channels and watercourses on or in the vicinity of the Site any time during or after the works;
 - (ii) surface channels should be provided along the perimeter of the lot to collect all the runoff generated from the Site or passing through the Site, and discharge the runoff collected to a proper discharge point. Where walls are erected or kerbs are laid along the boundary of the Site, peripheral channels should be provided on both sides of the walls or kerbs with details to be agreed by his department; and
 - (iii) the proposed drainage works, whether within or outside the lot boundary, should be constructed and maintained by the lot owner at his own expense. For drainage works to be undertaken outside the lot boundary, the applicant should obtain prior consent and agreement from District Lands Officer/North, Lands Department and/or relevant private lot owners.
- (d) To note the comments of the Director of Environmental Protection that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person.
